The Future Land Use Map contained within the Comprehensive Plan designates the *subject property* as *Public Uses* land designation. According to the Comprehensive Plan, a *Public Uses* designation is generally defined as a use operated exclusively by a public body having the purpose of serving the public health, safety or general welfare. This includes uses such as public schools, parks, playground, and administrative and service facilities. In this case, Planned Development District No. 70 (PD-70) is an established horizontal mixed use development with a lot mix establishing a maximum of 918 single-family units and designated on the Future Land Use Map as *Medium Density Single-Family Residential.* According to the Comprehensive Plan, *Medium Density Single-Family Residential* is areas that consist of the single-family developments that have typically been built in Rockwall. They may be 2-3 units per acre, but generally about three (3) units per acre. The current Concept Plan (*i.e. Master Plat for Stone Creek*) indicates a density of 2.33 units per acre based on 918 home sites. The applicants request for a *Pocket Neighborhood* (PN) will not have an effect on the total number of units allowed for the development based on a variation to the lot composition as established in *Exhibit 'C', Development Standards*, of PD-70, and as outlined in staff's report. With this being said, the proposed Concept Plan is a discretionary decision for the City Council.

NOTIFICATION:

On September 29, 2017, staff mailed 888 notices to property owners and residents within 500-feet of the *subject property*. Staff also emailed notices to the Quail Run Valley, The Shores/Ray Hubbard, Lakeview Summit, and Promenade Harbor Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the *subject property* participating in the notification program. Additionally, staff posted a sign adjacent to the *subject property* along FM-552 and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received one (1) notice in favor of and six (6) notices opposed to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District No. 70 (PD-70) for the *subject property*, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance; and,

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Public Uses* designation to a Medium Density Residential designation; and,

3) Approval of a waiver by the City Council for not meeting the lot frontage requirements on a public street as established in the Subdivision Ordinance, Chapter 38 of the City of Rockwall Municipal Code of Ordinances; and,

4) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Meritage Homes of Texas, LLC for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 4.329-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 09.19.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 3, 2017 (three large copies FOLDED and one PDF version) for subsequent review by staff. For questions or comments concerning this case please contact David Gonzales, AICP in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

• On all future submittals please include the Case Number (Z2017-043) in the lower right hand corner.

• When provided, please review the Draft Ordinance prior to the Planning & Zoning Meeting scheduled for October 10, 2017.

Please address the following Planning Department comments:

1. Must adhere to Engineering, Building Inspection, and Fire Departments standards.
2. The submitted lot configuration does not meet the standards within the subdivision ordinance and the UDC due to the lots not fronting onto a public street.
3. If the drive will be used as a city street, it must meet the minimum standards for a city street and requires a minimum 50-ft right-of-way with the road section being a minimum of 29-feet back to back. See engineering design standards for compliance.
4. The overall lot count within PD-70 must not exceed 918 units.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the zoning change request. All meetings will be held in the City's Council Chambers and begin at 6:00 p.m. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

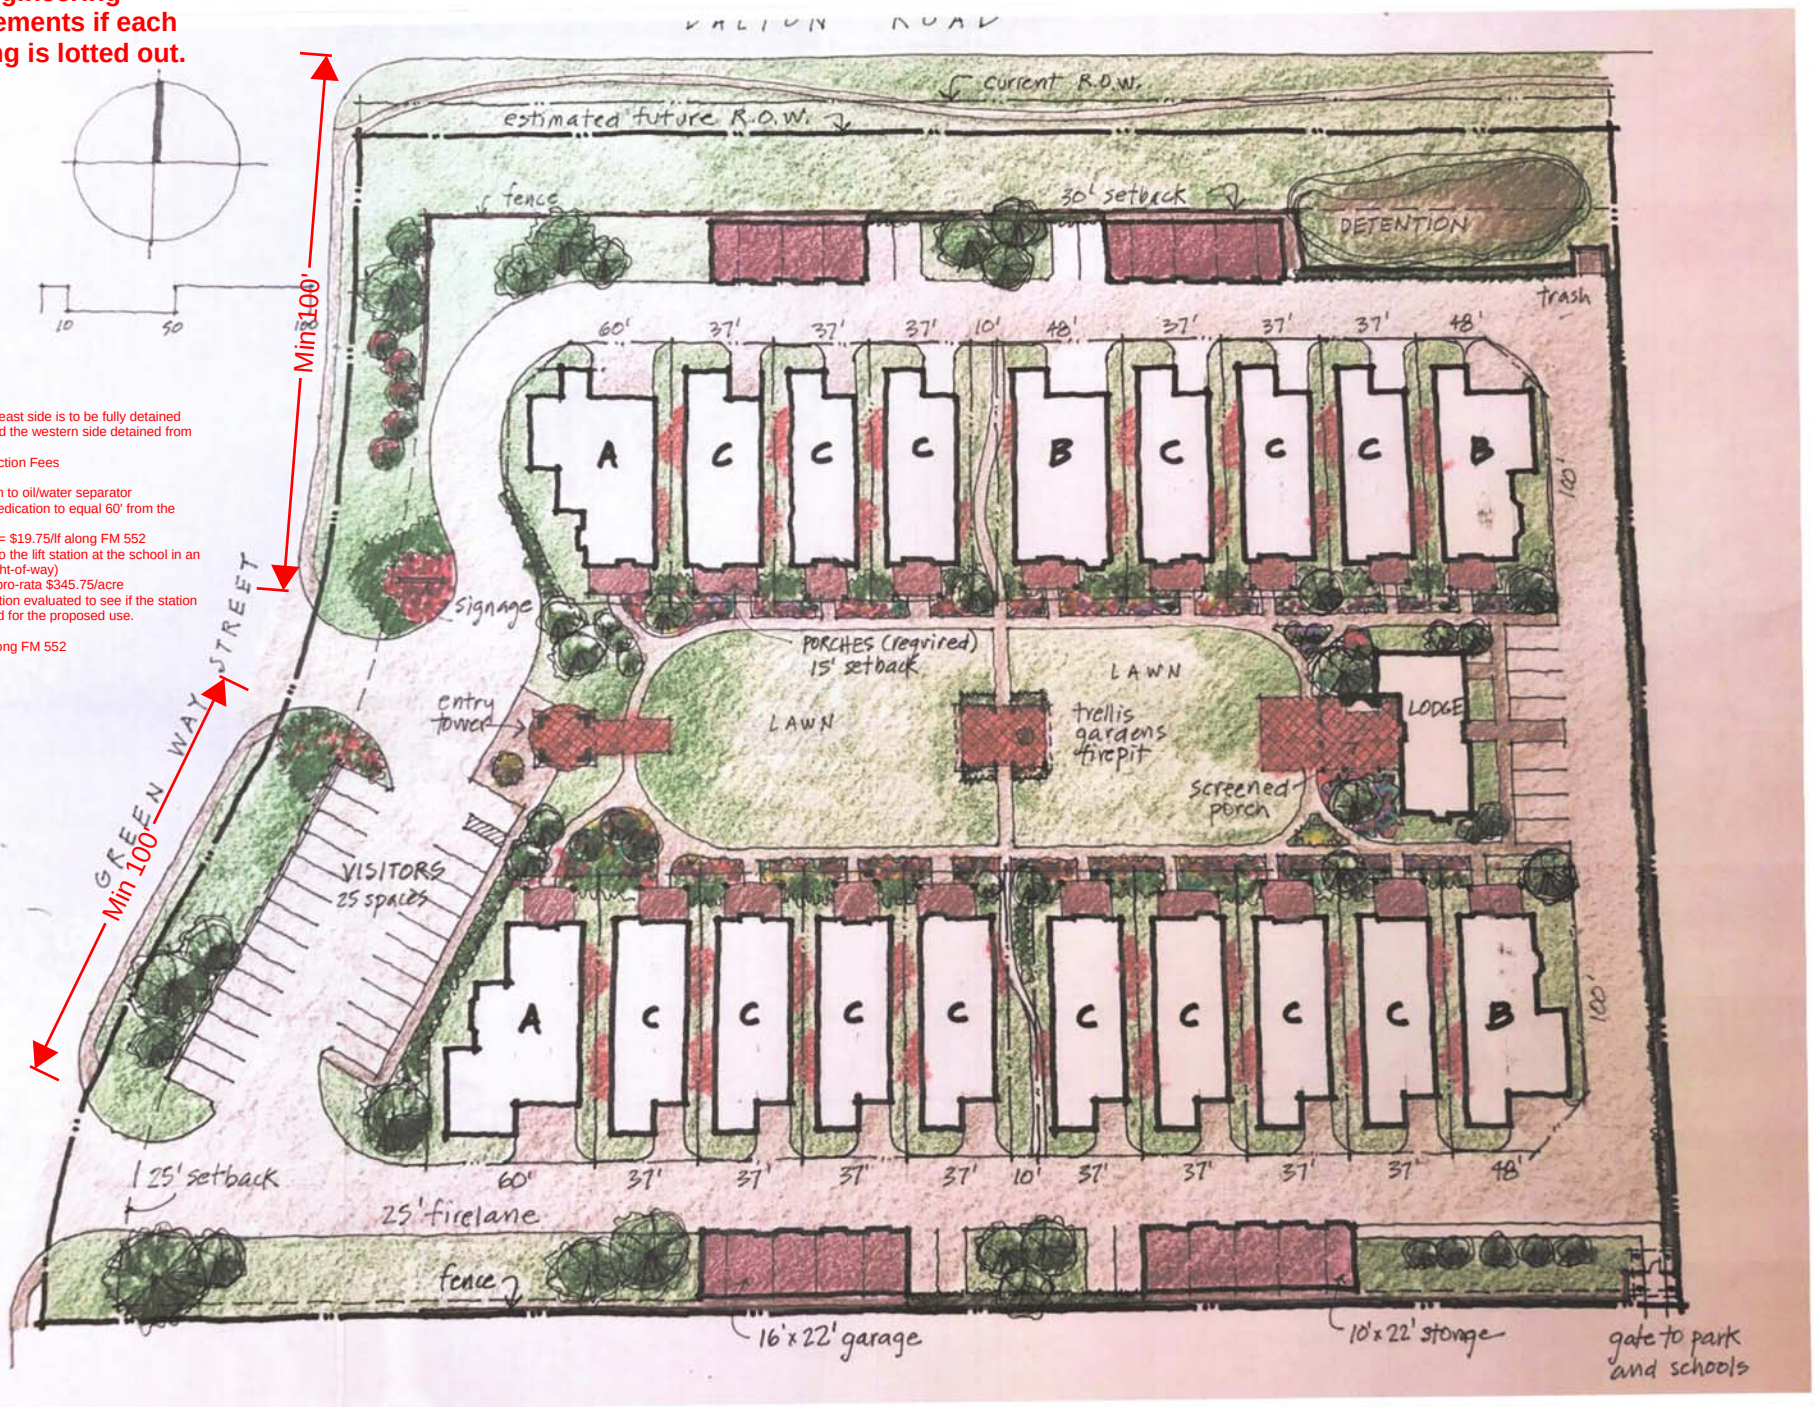
Planning - Work Session: September 26, 2017 (6:00p.m.) [Applicant to present case to P&Z for discussion].

Planning - Public Hearing: October 10, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Pulblic Hearing: October 16, 2017 (6:00 p.m.) [1st Reading of Ordinance]

City Council - Action Item: November 6, 2017 (6:00 p.m.) [2nd Reading of Ordinance]

This doesn't comply with any engineering requirements if each building is lotted out.



- Detention is required (east side is to be fully detained from C=.35 to C=.80 and the western side detained from C=.5 to C=.80)
- 4% Engineering Inspection Fees
- Impact Fees
- Dumpster area to drain to oil/water separator

Re: Letter of Explanation for Re-Zoning

Lewis Real Estate Investments, Inc. is hereby making application to amend PD -70 which includes the subject 5.288 acre tract of land located at the southeast corner of FM 552 and Greenway Drive. Current permitted use is single-family lots ranging in size from 6,000-20,000 sq. ft. with 936 total dwelling units.

Lewis Real Estate Investments, Inc. and partner, David Dillard, noted senior housing architect are requesting an amendment to PD-70 in order to develop a "pocket neighborhood", a community oriented small neighborhood with 19 dwelling units with front porches fronting on a common green space. Lot sizes range from 3,700 sq. ft. to 6,000 sq. ft. The dwelling units ranging from 1,600 sq. ft. to 2,900 sq. ft. will be regulated by design standards to a cottage craftsman style home with different elevations. Residents will be able to walk around the green visiting with neighbors who are on the front porch. The neighborhood will include a community building equipped with kitchen to accommodate resident meetings, family gatherings, and other uses. Each residence will have two-car parking either in dwelling and/or separate garages depending on dwelling size. Visitor parking and a special entry feature adjoin the commons.

Thank you for your favorable consideration of this request.

Sincerely,

Austin Lewis

CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-043: Amendment to PD-70

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Meritage Homes of Texas, LLC for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/10/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/16/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/16/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

We are opposed to the amendment based on the density of the area. So many homes in such a small area will result in lower priced homes, impacting the surrounding property values, and more traffic in front of our home. We frequently witness wrecks in front of our home. Our fence has been hit more than once in these accidents.

Nineteen more homes in this close proximity will yield twice that many vehicles and we are not equipped to handle the traffic we currently have. Because of the traffic issue and presumed negative impact on property values, we oppose the amendment

Gonzales, David

From: Jennifer Huber [redacted]
Sent: Tuesday, October 10, 2017 4:43 PM
To: Gonzales, David
Cc: Pruitt, Jim
Subject: Corner of 552 & Greenway Drive

Mr. Gonzales,

My name is Jennifer Huber & I live at 400 Country Ridge which is across 552 from the corner you are discussing tonight. We are "county" so we aren't ever notified of these proposals, but fortunately we have neighbors on Wooded Trail who do notify us. So then we send emails & go to meetings & hope that maybe, someday, we will have city leaders that will develop Rockwall with integrity & pay attention to what the citizens want.

The last meeting we attended I found out that that particular scenario is a long way off. The topic of discussion before our issue came up was something that had actually been voted against by the P&Z Committee. However, there were no P&Z members there because this was an "emergency" meeting & it was 4 days before Christmas. To make a long story short, we now have 3 car washes within a half mile of each other on the same street. (The Mayor was the ONE & only person who agreed with p&z & thought maybe it was not a good idea to have 3 car washes in such close proximity)

Citizens are constantly baffled & frustrated by these decisions. The thing is, people are VERY busy just trying to stay afloat & we have to trust that good decisions are being made! We always hope that the decisions are in the best interest of the people who have chosen to live here or have lived here all of their lives.

If you have lived in this town very long you know how crowded it has become, you know how congested the schools are, you know our parks are severely lacking, you know how instead of what was once hills full of beautiful trees greeting you coming over the bridge into Rockwall, is now a huge, mostly empty, shopping & restaurant area.

The point of all of this is...why? Why is it MORE important to cram way too many homes on a tiny scrap of land than to just leave something alone? Or at the VERY least build what was originally planned. People move out here to enjoy their surroundings! Enjoy nature! Play outside with our kids without worrying about constant traffic!

It looks like John King will soon be filled with yet more homes on top of homes. The natural & historical beauty of this town is disappearing rapidly. Our roads can't accommodate the people that are here now & our schools certainly can't accommodate the amount of students that are here.

You don't hear from people because they know they can't change anything. That's really sad too! Almost always when these conversations come up, people are VERY quick to bring up the courthouse, which is one big reason they feel powerless.

I know this is way more information than you need & your job is planning & zoning so I'm sorry to go on about this, but it's a conversation that comes up SO often in my world (school, children & the YMCA) that I figured since I was letting you know how we feel about the corner I might as well tell you what people are feeling about other things too! Thanks for your time!

Jennifer Huber

Planning and Zoning Commission:
We are writing in response to the letter we received regarding the proposed zoning change for Case Number Z2017-043 Admendment PD-70 at the SE corner of Greenway Drive and FM-552.

We are Paul and Stacey Buff and reside @
2906 Greenway Drive

We are NOT in favor of the propsed zonig change requested by Austin Lewis of Lewis Real Estate Investments. We closed on our home in June of 2017 and were told that a RRISD elementary school would be built on the property across the street from our home. That was a selling feature for us. We have a child attending Hays Elementary and after 11 years years, they have out grown the space and students are having to utilize pods for classrooms.
In order to accommodate the homeowners in our neighborhood and comintue with the growth in Rockwall, we are in need of a top notch school that RRISD can provide and not a small addition to the neighborhood. We have researched the propsed building plans from Lewis Real Estate Investments and do not believe what they are proposing will add value to the exhisting neighborhood and can potentially devalue our home instead of increasing the value with a school.

Thank you for your time and consideration to our concerns.

Subject: "Pocket Neighborhood" Concept Near Stone Creek Estates

Hi Ryan,

We spoke with Austin Lewis on Saturday. We have seen the "pocket neighborhood" concepts in Houston. Austin's project sounds like it would be a nice addition for this area.

If Skorburg had planned something like this over by CVS, we would have been pleased. I wanted to share with you that we told Austin that we would appreciate two items:

1) Have PD-70 amended to limit (lower) the development to 899 home sites, keeping the total home site count at 918 to include the "pocket neighborhood" count of 19 home sites plus the Stone Creek Estates home sites. This would insure that the density for this overall area would not be jeopardized.

2) Work with Skorburg to make the property on the west side of Greenway (city owned property) pretty to compliment his "pocket neighborhood" property.

Thank you for asking Austin to get in touch with us. We really enjoyed talking with him. We look forward to helping in any way possible.

Thanks,

Jim & Shirley Smith

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

COPY: Ryan Miller, *Director of Planning and Zoning*

DATE: October 24, 2017

SUBJECT: Reinstatement of the Preliminary Plat for *Spyglass Addition, Phase IV*

On October 13, 2017, the Planning and Zoning Department received a written request (attached as *Exhibit 'A'*) from Mitchell Lenamond, P.E. requesting the reinstatement of a preliminary plat for Phase IV of the Spyglass Subdivision. This phase consists of 36 Zero Lot Line Residential (ZL) lots on a 6.888-acre tract of land. The subject property is currently zoned Planned Development District 8 (PD-8), and is generally located adjacent to Lake Ray Hubbard on the south side of H.M. Chandler Drive, which is west of Ridge Road [*FM-740*].

The City's subdivision regulations specify that a preliminary plat shall be expired after one (1) year if a final plat for the entire area has not been submitted. Generally, if a developer submits a final plat or engineering plans for any portion of the overall tract, and continues to submit subsequent plans for additional *phases* of the development, the City will continue to consider that preliminary plat active. In this case the preliminary plat (depicted in *Exhibit 'B'*) was approved by the City Council on October 19, 1992 under *Case No. PZ92-8-Z/PP*; however, with no final plat being requested within the one (1) year time limit (*i.e. October 19, 1993*), the preliminary plat was considered to be officially expired. The applicant has submitted a PD Site Plan concurrently with this request; however, the applicant will be required to submit civil engineering plans, and a final plat before development of the site can begin.

Section 38-8(f), *Lapse and Extension of Preliminary Plat Approval*, of the City's *Subdivision Ordinance* contained in the Municipal Code of Ordinances, lays out the procedure and criteria for considering the extension of a preliminary plat. In this case, the applicant's request is generally in conformance with this criterion. Additionally, the zoning ordinance approved with Planned Development District 8 (PD-8) incorporated a concept plan that provided the general layout of the proposed Phase IV of the Spyglass Subdivision. This ordinance, having not changed in a manner that would necessitate the creation and submittal of a new preliminary plat, staff would recommend approval of the reinstatement request for a period of one (1) year.

Re: Specific Use Permit Application, Rockwall OT, Block W, Lot 1,2,3 and Rockwall OT, Block T, Lot 3,4

Dear P&Z Department,

Divine Peace Lutheran Church is in the process of purchasing the properties known as the Rockwall Wedding Chapel on South Fannin Street in Rockwall (see legal description above) in order to make this our Rockwall home for worship, fellowship and service to the community. We have been renting the chapel for Sunday services since 2016 from the current owner Iris Smith and are looking forward to making this our permanent home in Rockwall where we can reach out to our community with the true word of God. It has been a dream of ours to have such a location in Rockwall. We never thought it would be possible, but with the Lord's direction, it is all coming together.

We began worshipping at this location in 2016 by renting the chapel from Iris Smith on Sundays. Earlier this spring she approached us about purchasing the property from her. We have spent the rest of the year doing a feasibility study to make sure this was the right place and time. We are well on our way to making this happen now and are thankful to our Lord for his guidance and blessing.

The specific use permit Divine Peace Lutheran Church is applying for would see this property serve as a place of worship and fellowship as it was originally built as a church and has functioned as such for the majority of its existence. This use of the property closely resembles what the Rockwall Wedding Chapel has been over the past 15 years, except that the primary function of worship will occur on Sunday mornings, rather than weddings during the busier Fridays or Saturdays. Prior to our arrangement with Iris Smith to rent the facility on Sundays, she was renting to a Catholic church for many years. We do not anticipate the use of the property to change significantly from what its use has been over the past 10 years and believe it will fit well with the spirit of the downtown square.

If there are any questions about our plans for the property, we would be happy to discuss those with you. Thank you for your consideration of this application.

We are really looking forward to this second location for Divine Peace congregation. We plan to keep both the Garland and Rockwall campus locations and reach out to both communities with the true word of God.

Sincerely,

Pastor Gunnar Ledermann

Hold a public hearing to discuss and consider a request by Bart Tinsley of Rockwall SIL, LLC on behalf of the owner Don Cameron of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and memory care facility on a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

All staff comments are to be addressed and resubmitted by Tuesday, November 7, 2017. Please provide two large copies [FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

• On all future submittals please include the Case Number Z2017-051 in the lower right hand corner.

• When provided, please review the Draft Ordinance prior to the Planning & Zoning public hearing scheduled for November 14, 2017 and return with red lined corrections and/or additions you feel may be necessary for staff review.

• Architectural Standards - the proposed written standards do not meet the City's minimum standards.

• The proposed building elevations and standards require a recommendation from the Architectural Review Board.

Please make the following corrections/additions to the Concept Plan:

(1) Provide % of open space and label for each separate area on the concept plan (i.e. detention areas, landscape buffers, park area, etc.).

(2) Parking Required - Section 6.5, of Art. VI, of the UDC:Section - Requires a reommendation from the Planning and Zoning Commission and approval of the City Coucil for the following:
a) Reduction in amount of parking spaces provided for the 2-bedroom units. Requries two (2) parking spaces for each 2-bedroom unit within the complex.
b) Memory care facility to be parked at 1 space per bed in the facility and 1 space for each employee on the largest shift. Provide the number of beds within the facility and the number of employees on the largest shift.
-- A request to waive these requirement by the City Council may be approved through the PD Ordinance --

** Planning Staff additional comments:

** 1. The Future Land Use Map contained within the Comprehensive Plan currently identifes this property as being designed for Commercial land uses. The proposec use requries the City Council to amend the Future LandUse Map to relect a High Density Residential land use designation. This will be listed as a condition of approval.

** 2. The following is a Comprehensive Plan (plan) policy that has not been satisfied or could benefit from clarification:

(a) The Comprehensive Plan stipulates that "(r)etail areas should be pedestrian-oriented and easily accessible to adjacent residential and commercial

neighborhoods." In this case, trials and sidewalks could be used to allow pedestrian trafic to circulate to the adjacent restaurants west/southwest of the subject property. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

**3. The property is within Park District No. 32. Parks fees for cash in lieu land and pro-rata equipement fees will be due at the time of final plat (fees are subject to change).

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 24, 2017 (6:00 p.m.) [applicant to present case to P&Z for discussion].

Re: Letter of Intent – Planned Development for "Rockwall Memory Care and Seniors Independent Living Community" located on North T. L. Townsend Drive in Rockwall, Texas

To Planning and Zoning Department:

Our Client, Rockwall SIL, LLC, would like to submit a zoning change application for a 12.4 acre planned development (PD) that would allow development of a 3-story senior independent living (SIL) community with 144 units and a 1-story memory care facility with 28 units in the City of Rockwall. The subject property is bounded by North T.L. Townsend Drive to the northeast, office/commercial uses to the northwest, an Auto Zone and commercial uses to the southwest, and vacant land to the southeast owned by the First United Methodist Church.

The southwest portion of the site is currently zoned Commercial (C). The remainder is zoned Agricultural (AG). We are requesting that the site be re-zoned as a Planned Development for use as a SIL community (age restricted to 62 years of age or older) and a memory care facility. The SIL community will be located on the western portion of the site within a 10.27 acre lot, the memory care facility will be located on the eastern portion of the site on a 2.0 acre lot and the remaining 0.13 acres along North T.L. Townsend Drive will be dedicated as street right of way. The property will be final platted as two lots, however, the SIL community and the memory care facility will be developed in one (1) phase, each on their respective lot.

The SIL community will consist of 3-story building(s) with 144 units with garages and carports available for residents. The west portion of the SIL lot will be maintained as a private open space area to preserve existing quality trees, provide onsite storm water detention and provide the residents' an active functional recreational area. The private open space shall include 5' meandering walking trails around the detention pond areas and through the existing stand of native trees. A 5' walking trail will be extended to the south property line for future connectivity to First United Methodist Church tract. Private open space areas with 5' meandering trails will also be provided along the northeast, east and southeast portions of the SIL lot. The 5' trails will be looped and allow for connectivity to the memory care facility and the 5' city sidewalk proposed along the west side of North T.L. Townsend Drive. Other amenities within the SIL community will include, but not limited to, a swimming pool, putting green and indoor recreation area.

The memory care facility will consist of a 1-story building with 28 units. The memory care facility will have a commercial kitchen with dining area. There will also be two (2) enclosed courtyards outdoor recreation areas within the memory care facility.

PD Development Standards

Rockwall Memory Care and Senior Independent Living Community

A. **Authority and exemptions**. The standards and regulations set forth in this Planned Development Design Criteria document shall supersede the standards and regulations of any underlying zoning or overlay district entirely.

B. **Land Uses Allowed**

a. Permitted uses: Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the Permissible Use Charts contained in Article IV, Permissible Uses, of the Unified Development Code (UDC), are allowed on the Subject Property, however, the subject property shall only be used as an Age Restricted, Memory Care Facility and Independent Senior Housing Facility allowing for the units being occupied by at least one (1) person who is sixty-two (62) years of age or older, or handicapped. The facilities must also follow all federal and state guidelines:

i. The housing facility or community publishes and adheres to policies and procedures that demonstrate their intent to meet all provisions of the Housing for Older Persons Act of 1995.
ii. The housing facility or community complies with all rules issued by the Secretary of Housing and Urban Development for verification of occupancy.
iii. The housing facility has significant facilities and services specifically designated to meet the physical or social needs of older persons.

b. Permitted accessory uses to age-restricted independent senior housing and memory care:

i. Barber and Beauty Shop
ii. Cafeteria/Common Dining Facilities
iii. Chapel
iv. Community Center
v. Drug Store / Pharmacy
vi. Exercise Room
vii. Game Court / Gaming Room
viii. Greenhouse
ix. Handcrafted Art Work Studio
x. Health Studio
xi. Instructional Art Studio
xii. Medical Treatment Services (such as a medical clinic, physical therapy services, inhalation therapy, and other related uses)
xiii. Office
xiv. Private Recreation Club or Area
xv. Retail Store (food and other goods)
xvi. Snack Bar
xvii. Swimming Pool

Note: Accessory uses are intended to be used by the residents of the proposed Age Restricted Independent Senior Housing and Memory Care Facilities and shall not be utilized by the general public.

C. **Memory Care Facility**

1. Unit Composition – The unit composition shall generally conform to the Concept Plan (attached).

2. Density and Dimensional Requirements – Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the SH-205 Overlay District, as specified by Article V, District Development Standards, of the Unified Development Code are applicable to all development on the Subject

Property. The maximum permissible density for the Subject Property shall not exceed fourteen (14) dwelling units per gross acre of land; however, in no case should the proposed development exceed 28 dwelling units. All lots shall conform to the standards depicted in Table 1, which is as follows:

Table 1: Lot Dimensional Requirements:

Minimum Lot Width	60’
Minimum Lot Depth	100’
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2000 SF
Minimum Front Yard Building Setback	25’
Minimum Side Yard Building Setback	5’
Minimum Rear Yard Building Setback	5’
Minimum Front Yard Parking Setback	15’
Minimum Side Yard Parking Setback	10’
Minimum Rear Yard Parking Setback	10’
Minimum Separation Between Main Buildings	20’
Minimum Separation Between a Main Structure to an Accessory Structure	10’
Maximum Height	1-Story
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space	20%

General Notes:

i. The minimum separation between two (2) buildings without doors or windows on facing walls shall be a minimum of fifteen (15) feet.
ii. The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof, roof element, or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof. Maximum height shall not exceed 1-Story in overall height.
iii. The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

3. Parking and Loading Standards – The parking and loading requirements shall be generally conform to the Concept plan (attached) and equal 1.50 parking spaces per residential unit: ±42 surface spaces (100%).
4. Building Standards – The building elevations shall generally conform to the Concept Building Elevations (attached); however, all development shall adhere to the following building standards.
    i. Masonry Requirements – The minimum masonry requirements for the exterior facades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone and cast stone. Cementaceous fiberboard horizontal lap-siding and stucco may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building facades.
    ii. Roof Design Requirements – All buildings shall be designed such that no roof mounted mechanical equipment shall be visible from any direction. Note: screening of mechanical equipment is necessary for all equipment regardless of location. Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building’s design and ensures that such equipment is not visible from adjacent public rights-of-way.

iii. Architectural Requirements – All Buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of SH-205 Overlay (SH-205 OV) District contained in Section 6, Overlay Districts, of Article V, District Development Standards, of the Unified Development Code.

5. Landscaping and Hardscaping Standards
   i. Landscape Requirements – Landscaping shall be reviewed and approved with the PD site plan. All Canopy/Shade Trees planted within this development shall be a minimum of four (4) feet in height at the time of planting. The following tree species are approved for planting within this development.
      a. Canopy/Shade Trees – Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.
      b. Accent/Ornamental Understory Trees – Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.
   ii. Landscape Buffers – A minimum of a fifteen (15) feet landscape buffer shall be provided along the frontage of T.L. Townsend Drive and a minimum of a five (5) foot landscaped buffer along the perimeter of the North, South and West property boundaries. The landscape buffer along the frontage of T.L. Townsend Drive shall incorporate one (1) canopy tree per fifty (50) linear feet of buffer area. The developer will also be responsible for the construction of sidewalks and trails required along T.L. Townsend Drive.
   iii. Parking Lot Landscaping – All parking lot landscaping shall conform to the requirements of Article VII, landscape standards of the Unified Development Code with the exception of the following:
      a. One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planed within the required parking islands or within 20-feet of a parking space.
      b. Parking island shall be provided at a spacing not exceeding a maximum distance of 20 parking spaces.
      c. No tree may be planted closer than 2.5 feet to the pavement.
   iv. Irrigation Requirements – Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by at Texas licensed irrigator or landscape architect.
   v. Hardscape – Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site plan and/or Open space amenity plan.
6. Trash Receptacles – Trash and recycling receptacles shall be four (4) sided with eight (8) foot walls constructed and cladded with materials matching the primary structures and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not situated within any established building setbacks or landscape buffers.
7. Fence Standards – No perimeter fences required.
8. Variances – The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance.

D. Senior Independent Living Facility

1. Unit Composition – The unit composition shall generally conform to the Concept Plan (attached). However, in no case should the minimum size unit be less than 700 square feet and the average net unit area decrease below 800 square feet.

2. Density and Dimensional Requirements – Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the SH-205 Overlay District, as specified by Article V, District Development

Standards, of the Unified Development Code are applicable to all development on the Subject Property. The maximum permissible density for the Subject Property shall not exceed fourteen (14) dwelling units per gross acre of land; however, in no case should the proposed development exceed 144 dwelling units. All lots shall conform to the standards depicted in Table 2, which is as follows:

Table 2: Lot Dimensional Requirements:

Minimum Lot Width	60’
Minimum Lot Depth	100’
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2000 SF
Minimum Front Yard Building Setback	25’
Minimum Side Yard Building Setback	10’
Minimum Rear Yard Building Setback	10’
Minimum Front Yard Carport/Parking Setback	15’
Minimum Side Yard Carport/Parking Setback	10’
Minimum Rear Yard Carport/Parking Setback	10’
Minimum Separation Between Main Buildings	20’
Minimum Separation Between a Main Structure to an Accessory Structure	10’
Maximum Height	3-Story
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space	20%

General Notes:

iv. The minimum separation between two (2) buildings without doors or windows on facing walls shall be a minimum of fifteen (15) feet.
v. The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof, roof element, or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof. Maximum height shall not exceed 3-Story in overall height.
vi. The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

3. Parking and Loading Standards – The parking and loading requirements shall be generally conform to the Concept plan (attached) and equal 1.50 parking spaces per residential unit: ±56 Garage Spaces (25.8%), ±52 Covered Spaces (23.9%), ±109 Surface Spaces (50.2%).
4. Building Standards – The building elevations shall generally conform to the Concept Building Elevations (attached); however, all development shall adhere to the following building standards.
    i. Masonry Requirements – The minimum masonry requirements for the exterior facades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone and cast stone. Cementaceous fiberboard horizontal lap-siding and stucco may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building facades.
    ii. Roof Design Requirements – All buildings shall be designed such that no roof mounted mechanical equipment shall be visible from any direction. Note: screening of mechanical equipment is necessary for all equipment regardless of location. Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural

feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

iii. Architectural Requirements – All Buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of SH-205 Overlay (SH-205 OV) District contained in Section 6, Overlay Districts, of Article V, District Development Standards, of the Unified Development Code.

5. Landscaping and Hardscaping Standards

iv. Landscape Requirements – Landscaping shall be reviewed and approved with the PD site plan. All Canopy/Shade Trees planted within this development shall be a minimum of four (4) feet in height at the time of planting. The following tree species are approved for planting within this development.

a. Canopy/Shade Trees – Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

b. Accent/Ornamental Understory Trees – Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

v. Landscape Buffers – A minimum of a fifteen (15) feet landscape buffer shall be provided along the frontage of T.L. Townsend Drive and a minimum of a ten (10) foot landscaped buffer along the perimeter of the North, South and West property boundaries. The buffer trees along the North property line shall be located a minimum of fifteen (15) feet south of the north property line to avoid conflicts with an existing fifteen (15) foot sanitary sewer easement. Each landscape buffer shall incorporate one (1) canopy tree per fifty (50) linear feet of buffer area. The developer will also be responsible for the construction of sidewalks and trails required along T.L. Townsend Drive.

vi. Parking Lot Landscaping – All parking lot landscaping shall conform to the requirements of Article VII, landscape standards of the Unified Development Code with the exception of the following:

a. One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planed within the required parking islands or within 20-feet of a parking space.

b. Parking island shall be provided at a spacing not exceeding a maximum distance of 20 parking spaces.

c. No tree may be planted closer than 2.5 feet to the pavement.

vii. Irrigation Requirements – irrigation shall be installed for all required landscaping located within common areas, landscape buffers and /or open space. Irrigation installed in these areas shall be designed by at Texas licensed irrigator or landscape architect.

viii. Hardscape – Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site plan and/or Open space amenity plan.

6. Trash Receptacles – Trash and recycling receptacles shall be four (4) sided with eight (8) foot walls constructed and cladded with materials matching the primary structures and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not situated within any established building setbacks or landscape buffers.
7. Fence Standards – Fences located along the north, south and west property boundaries as shown on the concept plan (attached) shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.
8. Variances – The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance.

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

All staff comments are to be addressed and resubmitted by Tuesday, November 7, 2017. Please provide two (2) large copies [FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

• On all future submittals please include the Case Number (Z2017-052) in the lower right hand corner.

• An infrastructure impact analysis is required and must be submitted to the engineering department for review prior to approval of this PD Development request.

• Provide building elevations for consideration by the Planning Commission and City Council.

• When provided, please review the Draft Ordinance prior to the Planning & Zoning public hearing scheduled for November 14, 2017 and return with red lined corrections and/or additions you feel may be necessary for staff review.

Please make the following corrections/additions to the Concept Plan:

(1) Provide a legend indicating the following at a minimum:
a. Total Acres – #
b. Total Open Space - %
c. Total Number of Dwelling Units (per gross acre)
d. Maximum Density - # d.u/acre (gross)

(2) Provide % of open space and label for each separate area on the concept plan (i.e. detention areas, landscape buffers, park area, etc.).
(3) Label all streets (e.g. Street A, Street B, etc.)

** Planning Staff additional comments:

** 1. The Future Land Use Map contained within the Comprehensive Plan currently identifes this property as being designed for Commercial land uses. The proposed use requries the City Council to amend the Future LandUse Map to relect a High Density Residential land use designation. This will be listed as a condition of approval.

** 2. The following is a Comprehensive Plan (plan) policy that has not been satisfied or could benefit from clarification:

a. The Comprehensive Plan stipulates that "(r)etail areas should be pedestrian-oriented and easily accessible to adjacent residential and commercial neighborhoods."

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

In this case, trials and sidewalks could be used to allow pedestrian trafic to circulate to the adjacent restaurants west/southwest of the subject property. A request to waive this requirement by the City Council may be approved through the PD Ordinance.
b. All residential lots that are 16,000 SF or less should be served by an alley. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

**3. The property is within Park District No. 14. Parks fees for cash in lieu land and pro-rata equipement fees will be due at the time of final plat (fees are subject to change).

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 24, 2017 (6:00 p.m.) [applicant to present case to P&Z for discussion].

Planning - Public Hearing: November 14, 2017 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)

City Council - Pulblic Hearing: November 20, 2017(6:00 p.m.) [1st Reading of PD Ordinance]City Council - Concent/Action Item: December 4, 2017 (6:00 p.m.) [2nd Reading of PD Ordinance (if approved at 1st reading)]

DEVELOPMENT OUTLINE

The property consists of 63.72 Acres of Land, adjacent to S.H 205 a 120' Major Thoroughfare, also Mims Road a 65' Major Collector , South of and adjacent to Buffalo Creek consisting of 19 acres of open space. The property is sparsely vegetated on the southern 63 acres with native tree's. The Planned Development will create a pedestrian oriented neighborhood allowing for residential access to retail office and opens pace amenity areas. New homes construction will range from $250K Enclave Villas Townhouse and Enclave Urban Housing $350k and up. The homes will be marketed towards young families, young professionals and empty nesters lifestyle. Creating an additional 129 million dollars to the City of Rockwall tax base. There will be a Master H.O.A. required within the development of the property. We are excited to bring this upscale residential retail-office development to this area which surpasses expectations required in your Comprehensive Master Plan . A master trail system , along with the required Landscape Buffer along S.H. 205 , Mims Road and Buffalo Creek will be implemented which will encourage pedestrian access to all uses.

Z2017-53 SUP for Accessory Building Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Kelly Duncan for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 4.60-acre tract of land identified as Lot 3 of the Rolling Meadows Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 4.0 (SFE-4.0) District, addressed as 2705 Rolling Meadows Drive.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (Z2017-053) in the lower right hand corner of all pages on future submittals.

M.4 Please provide the number of seats in the church.

M.5 Please provide a parking table. The required parking is 1 space per 4 seats.

I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 7, 2017. The Planning & Zoning Worksession for this case is October 24, 2017. The Planning and Zoning Meeting date for this case is November 14, 2017. A representative is required to attend all meetings.

I.7 The projected City Council meeting dates for this are November 20, 2017 and December 4, 2017.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: October 24, 2017

SUBJECT: Z2017-054: Text Amendment to Article IX, *Tree Preservation*, of the UDC

On June 6, 2017, the City Council directed staff to proceed with changes to Article IX, *Tree Preservation*, of the Unified Development Code (UDC) for the purpose of [*1*] clarifying the criteria for affected properties, [*2*] revising existing definitions, [*3*] outlining the requirements and review process for treescape plans, [*4*] amending the mitigation requirements, and [*5*] making general corrections and clarifications to the existing ordinance. These changes were initially started by staff in response to a code enforcement case dealing with the indiscriminate clearing of land. Through this case several inconsistencies in the current ordinance where brought to staff's attention, and through the processes of making corrections to clear up these inconsistencies staff identified several other areas of the ordinance in need of updating or clarification. Shortly after the City Council's direction, the Texas Legislature entered into a special session that included two (2) bills that had the potential to affect a municipalities' ability to require/regulate tree preservation. Staff ultimately choose to hold off on bringing the text amendment forward until the end of the special session. Through the special session, only one (1) of the bills affecting *Tree Preservation* (*i.e. HB007*) was approved. Staff has reviewed the changes to the Texas Local Government Code introduced by the approved bill -- *which will be effective on December 1, 2017* -- and determined that the proposed text amendment to Article IX, *Tree Preservation*, of the Unified Development Code (UDC) is not in conflict. For reference staff has provided the approved bill in the attached packet.

The proposed text amendment would change the identification of trees to one (1) of four (4) categories: [*1*] *Primary Protected Tree*, [*2*] *Secondary Protected Tree*, [*3*] *Featured Tree*, and [*4*] *Non-Protected Tree*. Under the current ordinance, trees can be both a *Protected Tree* and a *Feature Tree* depending on the size and type of the tree. The proposed changes would remove this overlap and define any tree greater than 25-inches as a *Feature Tree*. In addition, the proposed ordinance outlines how a mitigation balance maybe satisfied (*e.g. provide trees to the Parks Department, plant trees on site, buy Tree Preservation Credits, etc.*), and increases the per inch cost for *Tree Preservation Credits* from $125.00/inch to $200.00/inch. This change is being proposed to address the current cost of purchasing trees, which has significantly increased since the passage of the original ordinance. Finally, the changes provide a process for the City Council to approve *Alternative Tree Mitigation Plans*. This is not addressed in the current ordinance.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Work Session]: October 24, 2017
Planning and Zoning Commission [Public Hearing]: November 14, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: November 6, 2017
City Council [2nd Reading of the Ordinance]: December 4, 2017

In the attached packet is a copy of the current tree ordinance, an annotated/marked up copy of the proposed changes and a clean copy of the proposed changes. Staff will send out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. If the Planning and Zoning Commission have any questions, staff will be available at the work session to discuss.

H.B. No. 7

AN ACT

relating to municipal regulation of the removal of trees on private property.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter Z, Chapter 212, Local Government Code, is amended by adding Section 212.905 to read as follows:

Sec. 212.905. REGULATION OF TREE REMOVAL. (a) In this section:

(1) "Residential structure" means:

(A) a manufactured home as that term is defined by Section 1201.003, Occupations Code;

(B) a detached one-family or two-family dwelling, including the accessory structures of the dwelling;

(C) a multiple single-family dwelling that is not more than three stories in height with a separate means of entry for each dwelling, including the accessory structures of the dwelling; or

(D) any other multifamily structure.

(2) "Tree mitigation fee" means a fee or charge imposed by a municipality in connection with the removal of a tree from private property.

(b) A municipality may not require a person to pay a tree mitigation fee for the removed tree if the tree:

(1) is located on a property that is an existing one-family or two-family dwelling that is the person's residence; and

(2) is less than 10 inches in diameter at the point on the trunk 4.5 feet above the ground.

(c) A municipality that imposes a tree mitigation fee for tree removal on a person's property must allow that person to apply for a credit for tree planting under this section to offset the amount of the fee.

(d) An application for a credit under Subsection (c) must be in the form and manner prescribed by the municipality. To qualify for a credit under this section, a tree must be:

(1) planted on property:

(A) for which the tree mitigation fee was assessed; or

(B) mutually agreed upon by the municipality and the person; and

(2) at least two inches in diameter at the point on the trunk 4.5 feet above ground.

(e) For purposes of Subsection (d)(1)(B), the municipality and the person may consult with an academic organization, state agency, or nonprofit organization to identify an area for which tree planting will best address the science-based benefits of trees and other reforestation needs of the municipality.

(f) The amount of a credit provided to a person under this section must be applied in the same manner as the tree mitigation fee assessed against the person and:

(1) equal to the amount of the tree mitigation fee assessed against the person if the property is an existing one-family or two-family dwelling that is the person's residence;

(2) at least 50 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is a residential structure or

pertains to the development, construction, or renovation of a residential structure; and

(B) the person is developing, constructing, or renovating the property not for use as the person's residence; or

(3) at least 40 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is not a residential structure; or

(B) the person is constructing or intends to construct a structure on the property that is not a residential structure.

(g) As long as the municipality meets the requirement to provide a person a credit under Subsection (c), this section does not affect the ability of or require a municipality to determine:

(1) the type of trees that must be planted to receive a credit under this section, except as provided by Subsection (d);

(2) the requirements for tree removal and corresponding tree mitigation fees, if applicable;

(3) the requirements for tree-planting methods and best management practices to ensure that the tree grows to the anticipated height at maturity; or

(4) the amount of a tree mitigation fee.

(h) A municipality may not prohibit the removal of or impose a tree mitigation fee for the removal of a tree that:

(1) is diseased or dead; or

(2) poses an imminent or immediate threat to persons or property.

(i) This section does not apply to property within five miles of a federal military base in active use as of December 1, 2017.

SECTION 2. The changes in law made by this Act apply only to a tree mitigation fee assessed by a municipality on or after the effective date of this Act.

SECTION 3. This Act takes effect December 1, 2017.

Article IX - TREE PRESERVATION

SECTION 1. - PURPOSE AND APPLICABILITY

Sec. 1.1. - Purpose.

The purpose of [this article], the tree preservation ordinance, is the preservation of mature, healthy trees and natural areas and to consider protected trees during the design of streets, alleys, utilities, drainage and proposed structures that are part of any development and to require replacement of trees when removal is necessary. It is intended to protect trees during construction, development and redevelopment, and to control the removal of protected trees when necessary. It also establishes rules for replacement and replanting of trees that have been necessarily removed during construction. The [article] shall protect any property from indiscriminate clearing and maintain and enhance a positive image as well as attract new business enterprises to the city.

The terms and provisions of this article apply to all real property within the city's corporate limits as follows:

1. All new subdivisions of land at the time of preliminary and or final platting;
2. All replatting of undeveloped land;
3. All unplatted and undeveloped residential tracts of land greater than three acres;
4. All unplatted and undeveloped nonresidential tracts of land greater than one acre;
5. All nonresidential parcels of land at the time of site plan approval.

Sec. 1.2. - Plan required.

No person, directly or indirectly, shall cut down, destroy, remove or move or effectively destroy through damaging, any protected or feature tree situated on a property regulated by this [article] without first submitting and receiving approval of a treescape plan unless otherwise specified in this [article].

Sec. 1.3. - Builders/contractors.

All builders/contractors should verify if there is a treescape plan approved on a parcel of land before work begins. All builders/contractors who have not submitted a request for a building permit as of the effective date of the ordinance [from which this article is derived] are subject to the requirements herein.

SECTION 2. - EXEMPTIONS

Tree protection and replacement requirements shall not be required if the following conditions exist.

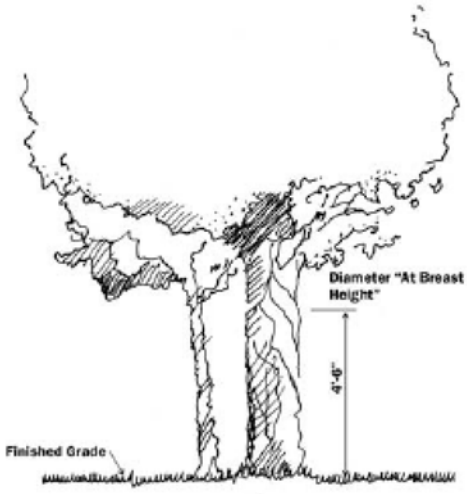
A. *Agricultural.* Property zoned Agricultural (AG) and being actively used for agricultural purposes shall be exempt from the requirements specified herein. Clear-cutting of land, as defined herein, zoned Agricultural (AG) that is not being actively used for agricultural purposes is prohibited.
B. *Damaged/diseased trees.* The tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling.
C. *Homeowners.* The owner of a residence shall be exempt from the tree protection and replacement requirements of this [article] as it pertains to that property on which the home is located.
D. *Public safety.* The tree creates unsafe vision clearance or conflicts with other ordinances or regulations, or the tree is determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare.
E. *Utility service interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree which is found necessary to be removed to reestablish and maintain the utility service.
F. *Utility companies, utility service and or distribution/transmission lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this [article] when establishing

distribution and transmission lines. When establishing new utility service, services should routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of protected trees. All rights-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements in this [article].

G. *Public property.* All rights-of-way, easements or similar types of public property maintained by the city shall not be subject to the tree protection or replacement requirements in this [article].

SECTION 3. - DEFINITIONS

Buildable area. That portion of a building site exclusive of the required yard areas on which a structure or building improvements may be erected and including the actual structure, driveway, parking lot, pool and other construction as shown on a site plan.



Building pad. The actual foundation area of a building and a reasonable area around the foundation necessary for construction and grade transition.

Construction drawings. Engineering or architectural drawings which have been prepared by an authorized individual and approved by the authorized authority, that describe in detail by measurements and specifications the method and manner in which a building, structure, utility, street or physical alteration to land or structure is to be accomplished.

Critical root zone (CRZ). The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than one-foot radius for each one-inch dbh.

Clear-cutting. The removal of all trees or a significant majority of the trees within an area.

Diameter at breast height (dbh). The diameter in inches of a tree as measured through the main trunk at a point 4.5 feet above the natural ground level.

Drip line. A vertical line run through the outermost portion of the crown of a tree and extending down to the ground.

Feature tree. Any oak, pecan or elm that has a dbh of four inches or greater or any tree that has a dbh of 30 inches or greater. Feature trees may not be removed without approval of the planning and zoning commission. Feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry.

Limits of construction. A delineation on the treescape plan which shows the boundary of the area within which all construction activity will occur.

Protective/temporary fencing. Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four-foot approximate height. The director of planning and zoning, or his designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

Replacement tree. A tree from the replacement tree list with a minimum caliper size of three inches and height of seven feet. For the purpose of determining size, "replacement trees" should be measured at a point six inches above the ground.

Tree. Any self-supporting woody perennial plant which will attain a trunk diameter of three inches dbh and normally attains an overall height of at least 15 feet at maturity, usually with one main stem or trunk and many branches. It may appear to have stems or trunks as in several varieties of oaks.

Tree, protected. A tree which has a diameter of four inches dbh or larger. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at dbh to one-half the diameter of each additional trunk. Protected or feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry. In addition, Hackberry and Cedar trees that are less than 11 inches dbh shall not be considered a protected tree.

Treescape plan. A graphic representation drawn to the largest scale practical showing the exact location, size (trunk diameter and height) and common name of all protected and feature trees and indication of which trees are to be removed and or replaced. The treescape plan should include the following:

1. Location of all existing or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to property lines.
2. Setback and yard requirements.
3. Existing and proposed site elevations, grades, major contour and limits of construction.
4. Location of existing or proposed utilities and easements.
5. Location of all protected trees and trees to be removed from the site and the location of all replacement trees.
6. Columnar listing of all protected trees by species, location key shown on the plat, diameter breast height (dbh), physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
7. Title block stating street address, lot and block, subdivision name, and date.
8. Name, address, and phone number of person preparing the plan.

SECTION 4. - PLAN REVIEW AND APPROVAL

Sec. 4.1. - Authority of review and approval.

The director of planning or his designee will review the treescape plan, report and make recommendations to the planning and zoning commission. As part of the treescape plan review, the city has the right to request changes or adjustments in the layout and design of the development to save protected and feature trees. The planning and zoning commission will review and approve or disapprove the treescape plan. The decision of the planning and zoning commission may be appealed to the city council.

Sec. 4.2. - Treescape plan application required/application process.

Consideration of a treescape plan shall be obtained by making application to the director of community development or his designee. The application and treescape plan shall be accompanied by a written document indicating the reasons for removal of any protected trees. The required treescape plan will accompany all preliminary plats, final plats, site plans and landscape plans. In those instances where very few protected trees exists on a property, the treescape plan can be incorporated and shown on the preliminary plat, site plan or landscape plan and the fee can be waived at the discretion of the staff.

Sec. 4.3. - No protected trees.

For property being platted or site planned, the property owner may submit a letter certifying that there are no protected trees on the property. This letter will be submitted with the understanding that if it is determined that there are protected trees on the property, the violation provisions and fines adopted as part of this [article] will be in full force and effect.

Sec. 4.4. - Appeals.

Decisions of the planning and zoning commission may be appealed to the city council.

Sec. 4.5. - Treescape plan expiration.

Plans shall be valid for two years after the approval date. Treescape plans which are approved in conjunction with preliminary plats, final plats, site plans, or building permits shall be valid for the same amount of time as those corresponding plans and permits.

Sec. 4.6. - Building permit.

All builders/contractors should determine if there is an approved treescape plan before work begins on a parcel. The city will verify this statement. No building permit shall be issued unless the applicant signs an application for permit request which states that all construction activities shall meet the requirements of the tree preservation ordinance. Before issuing the building permit, the city shall obtain a signature from applicant acknowledging receipt of the tree preservation ordinance.

SECTION 5. - TREE REMOVAL PERMIT

Sec. 5.1. - Tree removal permit.

Once a treescape plan is approved, a tree removal permit will be required under the following conditions:

A. If it is determined by the property owner that a protected tree needs to be removed; except as covered in section 2.C, Exemptions.
B. An addition to an existing nonresidential structure requires that a protected tree be removed.

Tree removal permits will be approved administratively by the director of planning and zoning or his designee. Feature trees may not be removed without approval of the planning and zoning commission. All trees removed through this process will require replacement as described in section 6 below.

SECTION 6. - TREE REPLACEMENT AND PLANTING REQUIREMENTS

If it is necessary to remove protected or feature tree(s), the applicant as condition of approval will be required to replace the tree(s) being removed with trees selected from the list of approved trees on the replacement tree list. Replacement trees must be a minimum of three caliper inches measured six inches above the root ball when planted. The following replacement rules apply:

A. Protected tree(s) measuring four inches through 29 inches dbh shall be replaced with caliper inches equal to the total diameters of the tree(s) removed, except as shown in item F below.
B. Protected feature tree(s) (30 inches dbh and larger) if approved for removal will be replaced with twice the number of inches as the tree(s) removed.
C. The replacement tree must be maintained in a healthy growing condition for a minimum of two years after planting.

D. A replacement tree shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines.
E. No tree shall be planted within five feet of a fire hydrant, water or sewer line.
F. Hackberry and Cedar trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed. Protected or feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry. In addition, Hackberry and Cedar trees that are less than 11 inches dbh shall not be considered a protected tree.

SECTION 7. - TREE REPLACEMENT CREDITS

Tree replacement credits may be granted to reduce the number of replacement inches required. The following guidelines apply.

A. *Preservation credits.* Each saved oak (any type), pecan or elm tree(s) 24 inches dbh or greater will earn a credit. The maximum credit under this provision is 20 percent of the total replacement inches in the development.
B. *Locations for planting replacement trees.* The preferred location for the planting of replacement trees is the development from which trees were removed. However, if the site is too small to accommodate the number of replacement trees required, credits can be earned for trees planted elsewhere within the corporate city limits. Credit on an inch-per-inch basis will be granted for trees planted in parks, medians, street rights-of-way, or other areas determined by the parks and recreation department. The location shall be within one mile of the area where the trees are being removed.
C. *Purchase of credits.* Tree replacement credits not exceeding 20 percent of the total replacement inches can also be purchased. Payments of $125.00 per caliper inch may be paid to the City of Rockwall Tree Fund. Funds will be used for the planting of trees, but not limited to city parks, medians, and along street rights-of-way more than one mile from the area where the trees are being removed. Replacement credits purchased in a private community development with no public streets or parks can be used for the planting of trees elsewhere in that development.
D. *Types of trees.* Replacement trees shall be selected from the following list and shall be a minimum of three caliper inches as measured six inches above the root ball.

   Canopy trees:
   1. Afghan Pine.
   2. Bald Cypress.
   3. Burr Oak.
   4. Caddo Maple.
   5. Cedar Elm.
   6. Chinquapin Oak.
   7. Eastern Red Cedar.
   8. Homestead Elm.
   9. Lace Bark Elm.
   10. Leyland Cypress.
   11. Little Gem Magnolia.
   12. Live Oak.
   13. October Glory Maple.
   14. Pecan.
   15. Red Oak.
   16. Texas Ash.
   17. Texas Red Oak.

   Accent Trees:
   1. Desert Willow.
   2. Downy Hawthorn.
   3. Eastern Redbud.
   4. Eve's Necklace.
   5. Mexican Buckeye.

6. Possumhaw Holly.
7. Shantung Maple.
8. Yaupon Holly.

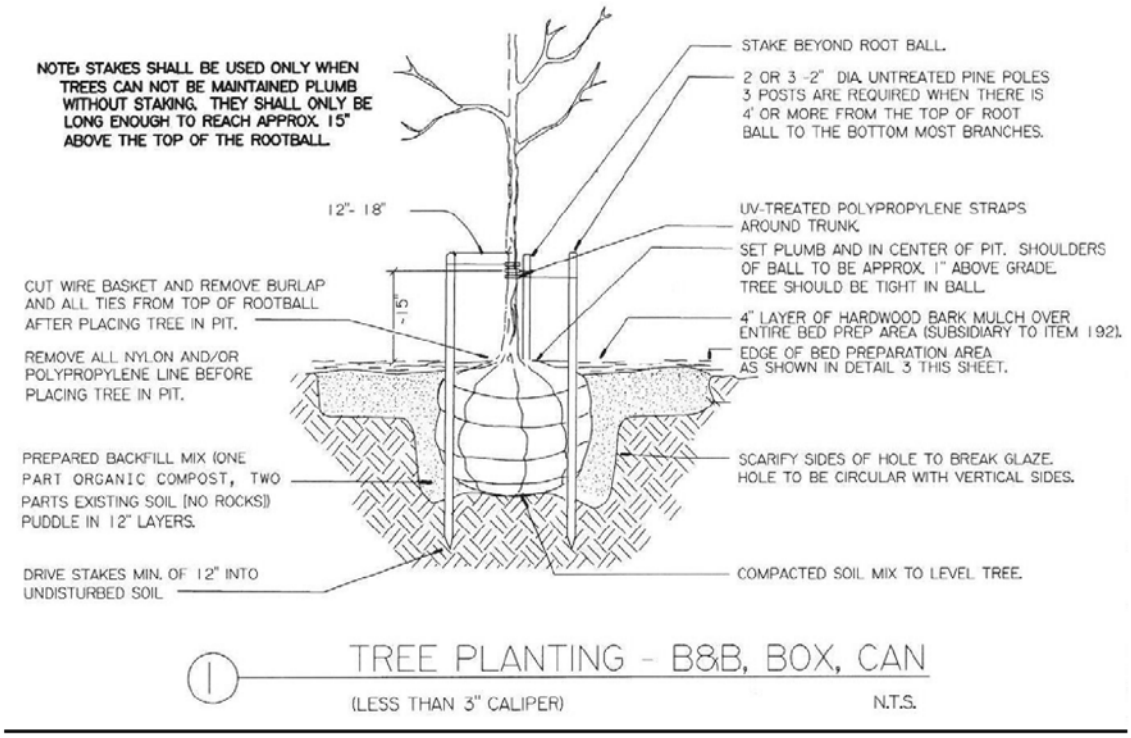
(Ord. No. 15-32, § 3, 12-7-2015)

SECTION 8. - TREE TRANSPLANTING

Existing trees of the variety listed in section 7.D above can be transplanted to meet the replacement requirements under the following conditions.

1. Trees of at least three caliper inches but not exceeding six inches dbh are eligible for transplanting.
2. Transplanted trees must survive and be in a healthy condition for a period of two years. The developer who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

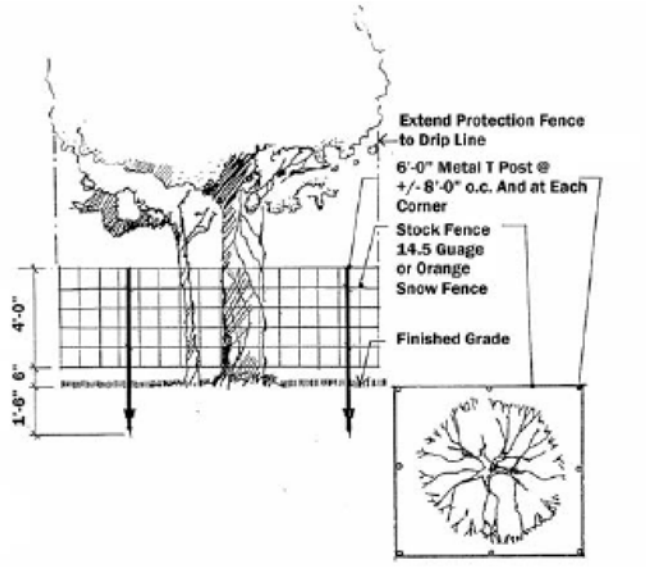
EXHIBIT "A"



(Ord. No. 13-24, § 1, 8-5-2013)

SECTION 9. - TREE PROTECTION PRIOR TO AND DURING CONSTRUCTION

Sec. 9.1. - Tree protection.



A. Prior to any construction or land development, the developer shall mark with an aluminum tag which indicates its relationship to the treescape plan and clearly flag with bright fluorescent red vinyl tape all protected trees. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately five feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.
B. Property owner shall be responsible for protecting feature trees including the use of an arborist, as necessary.

Sec. 9.2. - Material and equipment storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of a protected tree. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Sec. 9.3. - Signs.

No signs, wire or other attachments shall be attached to the protected trees.

Sec. 9.4. - Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of a protected tree other than on an existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Sec. 9.5. - Grade.

No grade change in excess of two inches shall be allowed within the drip line of any protected tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e., two inches or greater) within the critical root zone of a protected tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Sec. 9.6. - Tree flagging.

At the time of submittal of the treescape plan all protected trees should be marked with an aluminum tag which indicates its relationship to the treescape plan and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four feet so that the tape is clearly visible.

Sec. 9.7. - Boring.

Boring of utilities under protected trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected tree. When required, the length of the bore shall be the width of the critical root zone plus two feet on either side of the critical root zone and shall be at a minimum depth of 48 inches.

Sec. 9.8. - Damage.

Any physical damage to a tree preserved for credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

SECTION 10. - TREE PRUNING

Sec. 10.1. - General.

No protected tree shall be pruned in a manner, which significantly disfigures the tree, or in any manner which would reasonably lead to the death of the tree.

Sec. 10.2. - Permit requirement.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit. Utility companies shall inform the city of their routine pruning schedules and are encouraged to prune trees in accordance with the National Arborist Association standards for pruning shade trees.

Sec. 10.3. - Allowed pruning.

A protected tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree.

Sec. 10.4. - Required pruning.

The owner of all trees adjacent to public rights-of-way shall be required to maintain a minimum clearance of 12 feet above the traveled pavement or curb of a public street. The city shall also have the right to prune trees overhanging the public rights-of-way as necessary to preserve public safety. Trees shall be pruned to allow signs to be seen.

SECTION 11. - TREE FUND

Sec. 11.1. - Tree fund administration.

The city shall administer the tree fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (including the equipment or labor necessary to install the plant materials) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains

in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Sec. 11.2. - Collection of money.

Money contributed to the tree fund shall be paid prior to the issuance of any construction or building permit and prior to filing of a final plat.

SECTION 12. - VIOLATIONS

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this [article] shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. A separate offense shall be deemed committed on each day during which a violation occurs. The unlawful damage, destruction or removal of each protected tree shall be considered a separate incident and each incident subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no certificates of occupancy (CO) shall be issued until all fines for violations of this [article] have been paid to the city.

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. *Purpose.*

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the constructions process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.~~ ~~The purpose of this [this article], the tree preservation ordinance, is to ensure for the preservation of mature, healthy trees and natural areas and to consider protected trees during the design of streets, alleys, utilities, drainage and proposed structures that are part of any development and to require replacement of trees when removal is necessary. It is intended to protect trees during construction, development and redevelopment, and to control the removal of protected trees when necessary. It also establishes rules for replacement and replanting of trees that have been necessarily removed during construction. The [article] shall protect any property from indiscriminate clearing and maintain and enhance a positive image as well as attract new business enterprises to the city.~~

The purpose statement was shortened and clarified.

Section 1.2. Applicability.

The terms and provisions of this article ***shall*** apply to all real property within the City's corporate limits ***that meets one (1) of the following criteria ~~as follows~~***:

1. ***~~All new subdivisions of land at the time of preliminary and or final platting;~~ The establishment of a new subdivision of land.***
2. ***~~All replatting of undeveloped land;~~ The replatting of undeveloped land for the purpose of combining and/or subdividing real property.***
3. ***~~All unplatted and undeveloped residential tracts of land greater than three acres;~~ The development of a residential tract of land that is greater than or equal to three (3) acres.***
4. ***~~All unplatted and undeveloped nonresidential tracts of land greater than one acre;~~ The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.***
5. ***~~All nonresidential parcels of land at the time of site plan approval.~~ A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.***

The applicability criteria was clarified and broken out into its own section from the purpose section.

~~Section 1.2. Plan Required.~~

~~No person, directly or indirectly, shall cut down, destroy, remove or move or effectively destroy through damaging, any protected or feature tree situated on a property regulated by this [article] without first submitting and receiving approval of a treescape plan unless otherwise specified in this [article].~~

Moved to Section 3, Treescape Plan (formerly Section 4).

~~Section. 1.3. Builders/Contractors.~~

~~All builders/contractors should verify if there is a treescape plan approved on a parcel of land before work begins. All builders/contractors who have not submitted a request for a building permit as of the effective date of the ordinance [from which this article is derived] are subject to the requirements herein.~~

Removed because it is a duplication of Section 4.6.

Section 3.1. Treescape.

A Treescape Plan is a plan showing the exact location, size (i.e. trunk diameter and height), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A Treescape Plan shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. ***The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.***
2. ***The building setbacks.***
3. ***All existing and proposed site elevations, grades, major contour lines and the limits of construction.***
4. ***The location of all existing or proposed utilities and easements.***
5. ***The location of all protected and feature trees.***
6. ***The location of all trees to be removed from the site and the location of all replacement trees.***
7. ***A spreadsheet indicating all trees by species, location key shown on the Treescape Plan, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.***
8. ***A title block stating street address, lot and block, subdivision name, date and project number.***
9. ***The name, address, and phone number of person preparing the plan and the developer/property owner.***

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a Treescape Plan unless otherwise allowed by this article.

Moved from Section 1, Purpose and Applicability.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, Violations.

Staff may administratively approve any Treescape Plan or letter that does not involve the removal of any protected or feature trees.

Moved from below (i.e. Section 4.3).

Section 3.3. Treescape Plan Application.

All applications for Treescape Plans shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a Treescape Plan conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A Treescape Plan may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Moved from below (i.e. Section 4.2) and reworded for clarity. Staff also removed the reference to a fee as staff currently does not require a fee to review a Treescape Plan.

Section ~~***6. 5.***~~ Tree ~~***Replacement and Planting Requirements.***~~ ***Mitigation Requirements.***

~~***If it is necessary to remove protected or feature tree(s), the applicant as condition of approval will be required to replace the tree(s) being removed with trees selected from the list of approved trees on the replacement tree list. Replacement trees must be a minimum of three caliper inches measured six inches above the root ball when planted. The following replacement rules apply:***~~

~~***A. Protected tree(s) measuring four inches through 29 inches dbh shall be replaced with caliper inches equal to the total diameters of the tree(s) removed, except as shown in item F below.***~~
~~***B. Protected feature tree(s) (30 inches dbh and larger) if approved for removal will be replaced with twice the number of inches as the tree(s) removed.***~~
~~***C. The replacement tree must be maintained in a healthy growing condition for a minimum of two years after planting.***~~
~~***D. A replacement tree shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines.***~~
~~***E. No tree shall be planted within five feet of a fire hydrant, water or sewer line.***~~
~~***F. Hackberry and Cedar trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed. Protected or feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry. In addition, Hackberry and Cedar trees that are less than 11 inches dbh shall not be considered a protected tree.***~~

Restated below. Sections C, D, & E were moved to Section 6 (Formerly Section 8) below.

If a Treescape Plan or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. Primary Protected Trees. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed).
2. Secondary Protected Trees. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed).
3. Featured Trees. Featured trees (i.e. all trees greater than 25-inches) shall be replaced with twice the number of inches being removed (i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed).

4. Non-Protected Tree. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. Tree Preservation Credits. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit).

6. Mitigation Balance. The Total Mitigation Balance (i.e. mitigation balance – tree preservation credits = total mitigation balance) may be satisfied through one or a combination of the following:

(a) The developer/property owner can provide the required number of trees -- three (3) inch caliper DBH minimum -- on the subject property to offset the total mitigation balance (e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements).

(b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- three (3) inch caliper DBH minimum -- to offset the total mitigation balance (e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

(c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches). These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, Landscape Standards, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Plans. In certain cases, the City Council -- upon recommendation from the Planning and Zoning Commission -- may consider an Alternative Tree Mitigation Plan where, due to hardship, the applicant is unable to meet the requirements of this article.

Combination of former Sections 6 & 7 for the purpose of simplifying the requirements. Changed Protect Tree Maximums to 25-inches as opposed to 29-inches and made all trees over 25-inches featured trees. Also adjusted the tree preservation credits to 25-inches. The purpose of this change is to take away the confusion about requirements for protected trees, feature trees and tree preservation credits and to create a uniform standard. Staff also added categories of protected trees (i.e. primary and secondary) to better distinguish between mitigation requirements. Staff clarified what the options are to satisfy mitigation based on current policy. Finally, staff added the ability for applicants to request alternate tree mitigation plans.

Formula 1: Total Mitigation Balance

$(FT \times 2.0) + (PPT \times 1.0) + (SPT \times 0.5) = MB$
$MB \times 20\% = ETPC$
$TPC = \sum (\text{Where } n = ETPC \ \& \ i = 0)\ x_i = x_1 + x_2 + x_3 \ldots x_n$
$MB - TPC = TMB$

Whereas:
FT = Inches of Featured Trees Being Removed
PPT = Inches of Primary Protected Tree Being Removed
SPT = Inches of Secondary Protect Trees Being Removed
MB = Mitigation Balance
ETPC = Eligible Tree Preservation Credit
TPC = Tree Preservation Credit
TMB = Total Mitigation Balance

~~Section 7. Tree Replacement Credits.~~

~~*Tree replacement credits may be granted to reduce the number of replacement inches required. The following guidelines apply.*~~

~~*A. Preservation credits. Each saved oak (any type), pecan or elm tree(s) 24 inches dbh or greater will earn a credit. The maximum credit under this provision is 20 percent of the total replacement inches in the development.*~~

~~*B. Locations for planting replacement trees. The preferred location for the planting of replacement trees is the development from which trees were removed. However, if the site is too small to accommodate the number of replacement trees required, credits can be earned for trees planted elsewhere within the corporate city limits. Credit on an inch-per-inch basis will be granted for trees planted in parks, medians, street rights-of-way, or other areas determined by the parks and recreation department. The location shall be within one mile of the area where the trees are being removed.*~~

~~*C. Purchase of credits. Tree replacement credits not exceeding 20 percent of the total replacement inches can also be purchased. Payments of $125.00 per caliper inch may be paid to the City of Rockwall Tree Fund. Funds will be used for the planting of trees, but not limited to city parks, medians, and along street rights-of-way more than one mile from the area where the trees are being removed. Replacement credits purchased in a private community development with no public streets or parks can be used for the planting of trees elsewhere in that development.*~~

~~*D. Types of trees. Replacement trees shall be selected from the following list and shall be a minimum of three caliper inches as measured six inches above the root ball.*~~

~~*Canopy Trees*~~

1. ~~*Afghan Pine.*~~
2. ~~*Bald Cypress.*~~
3. ~~*Burr Oak.*~~
4. ~~*Caddo Maple.*~~
5. ~~*Cedar Elm.*~~
6. ~~*Chinquapin Oak.*~~
7. ~~*Eastern Red Cedar.*~~
8. ~~*Homestead Elm.*~~
9. ~~*Lace Bark Elm.*~~
10. ~~*Leyland Cypress.*~~
11. ~~*Little Gem Magnolia.*~~
12. ~~*Live Oak.*~~
13. ~~*October Glory Maple.*~~
14. ~~*Pecan.*~~
15. ~~*Red Oak.*~~
16. ~~*Texas Ash.*~~
17. ~~*Texas Red Oak.*~~

~~*Accent Trees*~~

1. ~~*Desert Willow.*~~
2. ~~*Downy Hawthorn.*~~
3. ~~*Eastern Redbud.*~~
4. ~~*Eve's Necklace.*~~
5. ~~*Mexican Buckeye.*~~
6. ~~*Possumhaw Holly.*~~

Section ~~*8.*~~ ***6.*** Tree ***Planting and*** Transplanting ***Requirements***.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. ***All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.***
2. ***Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.***
3. ***Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', Landscape Guidelines and Requirements, of the Unified Development Code.***
4. ***All replacement trees shall be a minimum of three (3) caliper inches DBH.***

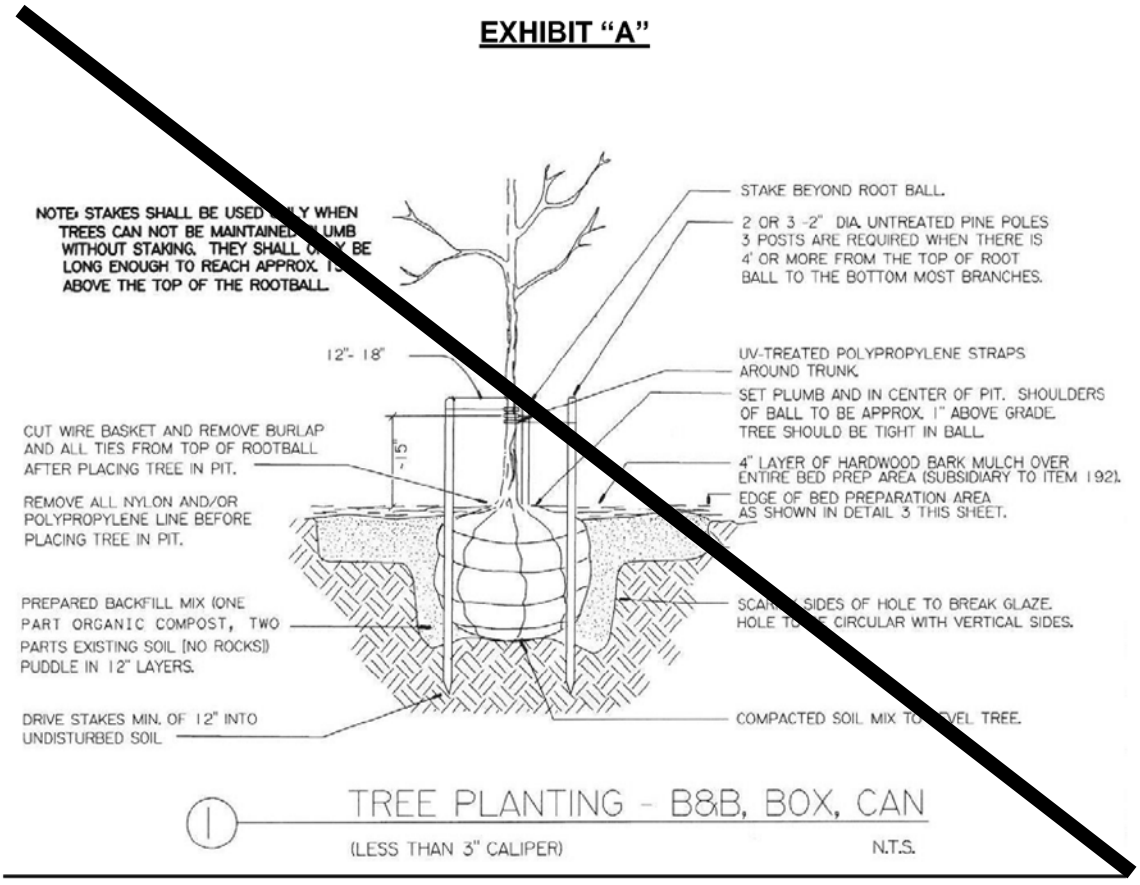
Section 6.2. Transplanting Trees.

~~***Existing trees of the variety listed in section 7.D above can be transplanted to meet the replacement requirements under the following conditions.***~~

All trees conforming to the species permitted in the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', Landscape Guidelines and Requirements, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

~~***1. Trees of at least three caliper inches but not exceeding six inches dbh are eligible for transplanting.***~~
1. ***All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.***
2. ***All t***ransplanted trees must survive and be ***maintained*** in a healthy condition for a ***minimum*** ~~***period***~~ of two **(2)** years ***from the date of transplanting***. The developer***/property owner*** who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

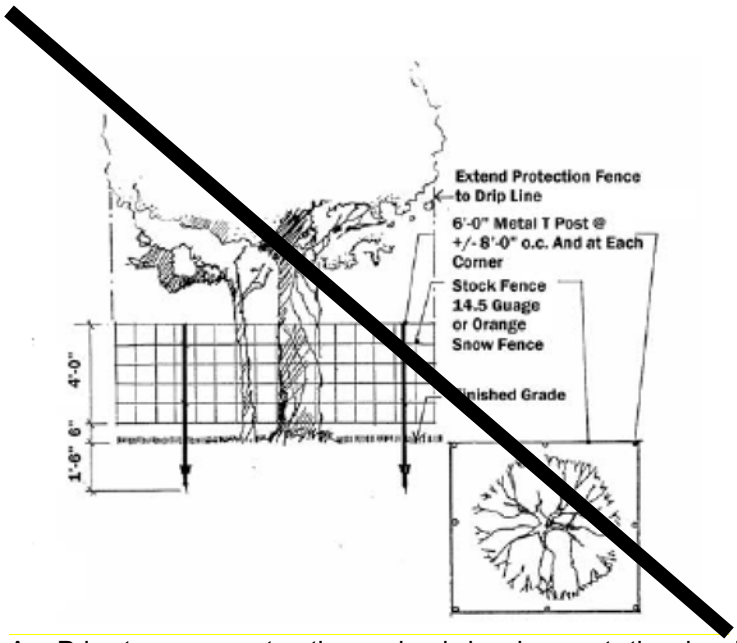
EXHIBIT "A"



(Ord. No. 13-24, § 1, 8-5-2013)

Section ~~***9. 7.***~~ Tree Protection ~~***Prior To and***~~ During Construction.

Section ~~***9. 7.***~~1. Tree Protection.



A. Prior to any construction or land development, the developer shall ***clearly*** mark ***all protected and feature trees*** with an aluminum tag ~~***which indicates***~~ ***-- indicating the trees its*** relationship to the Treescape Plan ~~***--***~~ and ~~***clearly***~~ flag ~~***with***~~ ***(i.e.*** bright fluorescent red vinyl tape***)*** ~~***all protected trees***~~. The red tape should be wrapped around the main trunk of the protected ***and/or feature*** tree at a height of approximately five **(5)** feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

B. ***The developer or p***roperty owner shall be responsible for ~~***protecting***~~ ***preserving all protected and*** feature trees ***during construction. This includes hiring*** ~~***including the use of***~~ an arborist, ***if*** ~~***as***~~ necessary.

Section ~~***9.***~~ ***7.***2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected ***or featured*** tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of a***ny*** ~~***protected***~~ tree ***scheduled to be preserved on an approve Treescape Plan***. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section ~~***9.***~~ ***7.***3. Signs.

No signs, wire or other attachments shall be ~~***attached***~~ ***affixed*** to ~~***the***~~ ***any*** ~~***protected***~~ tree~~***s***~~ ***scheduled to be preserved on an approve Treescape Plan.***

Section ~~***9.***~~ ***7.***4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of a***ny*** ~~***protected***~~ tree ~~***other than on an***~~ ***unless on*** existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section ~~***9.***~~ ***7.***5. Grade.

No grade change in excess of two ***(2)*** inches shall be allowed within the drip line of any protected ***or featured*** tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two ***[2]*** inches or greater) within the critical root zone of a protected ***or featured*** tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section ~~***9.***~~ ***7.***6. Tree Flagging.

At the time of submittal of ~~***the***~~ ***a*** Treescape Plan all protected trees ***or feature trees*** should be marked with an aluminum tag which indicates its relationship to the Treescape Plan, and clearly flagged with bright fluorescent

red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four ***(4)*** feet so that the tape is clearly visible.

Section ~~***9. 7.***~~7. Boring.

Boring of utilities under protected ***or feature*** trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected ***or feature*** tree. When required, the length of the bore shall be the width of the critical root zone plus two ***(2)*** feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section ~~***9. 7.***~~8. Damage.

Any physical damage to a tree ***being*** preserved for ***a tree*** credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section ~~***10. 8.***~~ Tree Pruning.

Section ~~***10. 8.***~~1. General.

No protected ***or featured*** tree shall be pruned in a manner~~***, which***~~ ***that would*** significantly disfigure~~***s***~~ the tree, or in ***a*** ~~***any***~~ manner ~~***which***~~ ***that*** would ~~***reasonably***~~ lead to the death of the tree.

Section ~~***10. 8.***~~2. ~~***Permit Requirement.***~~ ***Pruning by Utility Companies.***

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit. ~~***Utility companies shall inform the city of their routine pruning schedules and are encouraged to prune trees in accordance with the National Arborist Association standards for pruning shade trees.***~~

Utility companies are not required to contact the City prior to pruning trees.

Section ~~***10. 8.***~~3. Allowed Pruning.

A protected ***or featured*** tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected ***or featured*** trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree ***or lead to the death of the tree***.

~~***Section 10.4. Required Pruning.***~~

~~***The owner of all trees adjacent to public rights-of-way shall be required to maintain a minimum clearance of 12 feet above the traveled pavement or curb of a public street. Duplicated in Section 36-1.(f), Chapter 36, Streets, Sidewalks, and Public Places, of the Municipal Code of Ordinances.

Section ~~***11. 9.***~~ Tree Fund.

Section ~~***11. 9.***~~1. ~~***Tree Fund***~~ Administration ***of the Tree Fund***.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (including the equipment or labor necessary to install the plant materials) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

Section ~~11.~~ 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a~~ny construction or~~ building permit and/or prior to the filing of a Final Plat.

Section ~~12.~~ 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article ~~[article]~~ shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. ~~A separate offense shall be deemed committed on each day during which a violation occurs.~~ The unlawful damage, destruction or removal of each ~~protected~~ tree shall be considered a separate incident and each ~~incident~~ offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article ~~[article]~~ have been paid to the city.

PROPOSED CHANGES TO:

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the constructions process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.

9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

If a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. Primary Protected Trees. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. Secondary Protected Trees. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. Featured Trees. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. Non-Protected Tree. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. Tree Preservation Credits. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. Mitigation Balance. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

   (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).
   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.
   (c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.
   (d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Plans. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Plan where, due to hardship, the applicant is unable to meet the requirements of this article.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.

3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape Plan* -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.
2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

---

Ryan,

Thank you for your time this morning. As we discussed, we have a portion of Lot 9, Block A Harbor-Rockwall Addition and all of the 1.225 acre lot identified on the plate as Rockwall Rental Properties L.P. under contract, see attached plat for reference. The Seller is retaining a portion of the Lot 9 and retaining the rights to develop 75 condo units on that parcel (the finger piece on the site plan that fronts the fountain as noted as 3-story mixed use above parking podium).

Since the Seller is retaining 75 units, that leaves only 324 units for the remaining land and we would like to make the request to increase our unit count from 324 units to 375 units to maximize the area and allow us to build the public parking garage as noted on the site plan.

While the site plan notes 4-story dwelling units and even references mixed-use, we will likely have to increase the larger project to 5 stories and I am not sure the 3-story will be mixed-use. Do I need to revise the plan to remove these details for the Planned Development approval process?

Please review and let me know if you need any additional information.

Thank you.

Kevin Hickman

CITY OF ROCKWALL

ORDINANCE NO. 13-16

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING ORDINANCE NO. 11-43, PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [ORDINANCE NO. 10-21] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN ON APPROXIMATELY 12.72-ACRES FOR PROPERTY IDENTIFIED AS TRACTS 16 & 16-1, M. J. BARKSDALE SURVEY, ABSTRACT NO. 11; LOT 7, BLOCK A, THE HARBOR-ROCKWALL ADDITION; LOT 1-1, BLOCK A, HENRY AFRICA SUBDIVISION ADDITION; AND LOT 3A, BLOCK A, SHORELINE PLAZA ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Russell Phillips on behalf of Randall Noe with Rockwall Rental Properties, L.P., for a Planned Development (PD) Development Plan within Planned Development District 32 (PD-32) on an approximately 12.72-acre tract of land identified as Tracts 16 & 16-1, M. J. Barksdale Survey, Abstract No. 11; Lot 7, Block A, The Harbor-Rockwall Addition; Lot 1-1, Block A, Shoreline Plaza Addition; and Lot 3A, Block A, Shoreline Plaza Addition, City of Rockwall, Rockwall County, Texas; and more fully described in Exhibit 'A' of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Ordinance No. 11-43, Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the PD Development Plan approved with Ordinance No. 11-43 and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in Exhibit 'B' of this ordinance, attached hereto and

incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Development of this property shall generally conform to the *Zoning Exhibit* depicted in *Exhibit 'B'* of this ordinance;

2) Future submittals shall conform to all requirements stipulated in Planned Development District 32 (PD-32) as specified in Ordinance No. 10-21 [*as amended*], with the exception of the modifications stipulated in this ordinance, specifically with regard to the following requirements concerning street types:

    a. Lakefront Trail (i.e. the north/south public road connecting Interstate Highway 30 to Summer Lee) shall be designed and constructed in accordance with the *Street Type 'E'* standards stipulated in Ordinance No. 10-21 and outlined in the draft ordinance, and

    b. Harbor Heights Drive (i.e. the east/west public road connecting Lakefront Trail and Shoreline Circle) shall be designed and constructed in accordance with the *Street Type 'D_1'* standards stipulated in *Exhibit 'C'* of this ordinance.

3) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed PD Site Plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

4) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a subdivision plat;

5) The architectural design of all buildings within the three (3) affected subdistricts (i.e. the Harbor Residential Subdistrict, the Freeway Frontage Subdistrict and the Harbor Link Mixed-Use Subdistrict) shall conform to the Harbor District Guidelines (Resolution 10-40 [*Exhibit 'A'*]), all applicable ordinances associated with Planned Development District 32 (PD-32) [*as amended*], and to the Unified Development Code;

6) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB);

7) The pedestrian access extending from Lakefront Trail to the Harbor Fountain will be required to be located within a Pedestrian Access Easement to be shown of the final plat; and

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support their use.

Section 4. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 17th DAY OF JUNE, 2013.

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 11-43 & ORDINANCE NO. 13-16*, PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN ON APPROXIMATELY 7.344-ACRES FOR PROPERTY IDENTIFIED AS LOT 9, BLOCK A, HARBOR-ROCKWALL ADDITION AND TRACT 16 OF THE M. J. BARKSDALE SURVEY, ABSTRACT NO. 11, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF *TWO THOUSAND DOLLARS ($2,000.00)* FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a Planned Development (PD) Development Plan within Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that *Ordinance No.'s 11-43 & 13-16*, Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That any portion of *Ordinance No.'s 11-43 & 13-16* in conflict with this ordinance shall be subject to the requirements of this ordinance;

Section 2. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the PD Development Plans approved with *Ordinance No.'s 11-43 & 13-16* and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

DRAFT ORDINANCE 12.04.17

1) Development of this property shall generally conform to the *PD Development Plan* depicted in *Exhibit 'B'* of this ordinance;

2) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed PD Site Plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

3) The proposed multi-family development adjacent to Lakefront Trail (*indicated as* 1 *on Exhibit 'B' of this ordinance*) shall be permitted to consist of a maximum of 375 condominium units. The proposed multi-family development adjacent to the Harbor Fountain (*indicated as* 2 *on Exhibit 'B' of this ordinance*)shall be permitted to consist of a maximum of 75 condominium units.

4) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a subdivision plat;

5) The architectural design of all buildings within the two (2) affected Subdistricts (*i.e. the Harbor Residential Subdistrict and the Harbor Link Mixed-Use Subdistrict*) shall conform to the Harbor District Guidelines (*i.e. Resolution 10-40]*), all applicable ordinances associated with Planned Development District 32 (PD-32) [*as amended*], and to the Unified Development Code;

6) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB);

7) The pedestrian access extending from Lakefront Trail to the Harbor Fountain will be required to be located within a *Pedestrian Access Easement* to be shown of the final plat; and

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development to support their use.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of BSKJ Development, Inc. for the approval of a preliminary plat for Lots 1-8, Block A, Carrier Drive Business Park Addition being a 17.0-acre portion of a larger 43.851-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-276 Overlay (SH-276 OV) District, generally located east of the intersection of SH-276 and John King Boulevard, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 7, 2017. Please provide two FOLDED large copies [18" X 24"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements and standards as stipulated by the Planning, Engineering and Fire Departments.

2. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. Approval of a final treescape plan will be required at final plat.

3. Provide a label for the contours (s/b at 2-ft intervals).

4. Provide a label indicating "Case No. P2017-051" on the lower right corner on all pages of the revised submittal.

5. Hatch area designated as wetlannds.

6. Provide labels for and dimension all easements, open space area's, rights-of-ways, etc.

7. What type's of uses will there be on the property (i.e. retail, commercial, office)?

8. Provide a Lot and Block identification for each lot.

9. Provide right-of-way width for Discover Blvd.

10. Submittal and approval of civil engineering plans prior to submittal of final plat.

Staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

General Notes:

1) It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owners of the land shown on this plat, and designated herein as KELLY RANCH ADDITION, LOT 1, BLOCK A, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the KELLY RANCH ADDITION have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Robert T. Paul, Jr., do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

FEMA NOTE

FLOOD INFORMATION:
A PORTION OF THE SUBJECT PROPERTY APPEARS TO LIE WITHIN THE LIMITS OF A 100-YEAR FLOOD HAZARD ZONE ACCORDING TO THE MAP PUBLISHED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY, AND HAS A ZONE "A, X" RATING AS SHOWN BY MAP NO. 48397C0110 L, DATED SEPTEMBER 26, 2008.

SURVEYOR'S CERTIFICATION:
THIS IS TO CERTIFY THAT ON THIS DATE A SURVEY WAS MADE ON THE GROUND, UNDER MY SUPERVISION AND REFLECTS A TRUE AND CORRECT REPRESENTATION OF THE DIMENSIONS AND CALLS OF PROPERTY LINES AND LOCATION AND TYPE OF IMPROVEMENTS. THERE ARE NO VISIBLE AND APPARENT EASEMENTS, CONFLICTS, INTRUSIONS OR PROTRUSIONS, EXCEPT AS SHOWN. THIS SURVEY IS NOT TO BE USED FOR CONSTRUCTION PURPOSES AND WAS PREPARED WITHOUT THE BENEFIT OF A TITLE COMMITMENT PROVIDED BY A TITLE COMPANY. THERE MAY BE EASEMENTS AND OTHER MATTERS OF RECORD AFFECTING THE PROPERTY SHOWN HEREON THAT ONLY A PROPER TITLE SEARCH WOULD REVEAL. THIS SURVEY IS SUBJECT TO ANY AND ALL COVENANT AND RESTRICTIONS PERTAINING TO THE RECORDED PLAT REFERENCED HEREON.

GENERAL NOTES:
1.) THE BASIS OF BEARINGS FOR THIS SURVEY WAS DERIVED FROM DATA PROVIDED ON THE DEED RECORDED IN VOL. 4062, PG. 212, D.R.R.C.T.
2.) THERE ARE NO VISIBLE CONFLICTS OR PROTRUSIONS, EXCEPT AS SHOWN. FENCES MAY BE MEANDERING.
3.) THIS SURVEY IS FOR THE EXCLUSIVE USE OF THE NAMED CLIENT, MORTGAGE COMPANY, TITLE COMPANY, OR OTHER.
4.) AS OF THIS DATE, ALL EASEMENTS, RIGHTS-OF-WAY OR OTHER LOCATABLE MATTERS OF RECORD SHOWN OR NOTED HEREON WERE DERIVED FROM THE RECORDED PLAT, THE VESTING DEED, OR THE TITLE REPORT AND SUPPORTING DOCUMENTS. ALL SUCH ITEMS WERE OBTAINED DURING THE RESEARCH PHASE OF THIS SURVEY OR PROVIDED BY THE CLIENT/TITLE COMPANY LISTED HEREON. PREMIER SURVEYING MAKES NO REPRESENTATION AS TO THE ACCURACY OR COMPLETENESS OF SUCH ITEMS AND HAS MADE NO ATTEMPTS TO OBTAIN OR SHOW ANY ADDITIONAL RESTRICTIONS ON OR NEAR THIS PROPERTY PUT IN PLACE BY LOCAL MUNICIPALITIES OR ASSOCIATIONS.
5.) THIS SURVEY IS NOT TO BE USED FOR CONSTRUCTION PURPOSES.
6.) THIS SURVEY IS NOT INTENDED TO ADDRESS OR IDENTIFY WETLANDS, FAULT LINES, TOXIC OR HAZARDOUS WASTE AREAS, SUBSIDENCE OR ANY OTHER ENVIRONMENTAL OR GEOLOGICAL ISSUE.
7.) THE EXISTING UTILITIES DEPICTED HEREON ARE BASED ON FIELD LOCATION OF VISIBLE, ABOVE GROUND EVIDENCE. UTILITIES AND OTHER MINOR IMPROVEMENTS MAY EXIST THAT ARE NOT SHOWN ON THIS SURVEY. PREMIER SURVEYING IS NOT RESPONSIBLE FOR THE EXACT LOCATION OF SUBSURFACE UTILITIES, NOR FOR ANY DAMAGES BY ANY CONSTRUCTION OR EXCAVATION ON OR NEAR SAID UTILITIES.
8.) SYMBOLS AS SHOWN IN THE LEGEND ARE NOT TO SCALE AND MAY HAVE BEEN MOVED FROM THE ACTUAL HORIZONTAL LOCATION FOR CLARITY.

Discuss and consider a request by request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of a preliminary plat for Phase 1 of the Terracina Estates Subdivision consisting of 110 single-family lots on a 54.995-acre portion of a larger 81.49-acre tract of land identified as Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 7, 2017. Please provide two FOLDED large copies [18" X 24"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements stipulated by the PD Ordinance (PD-82) as amended.

2. The preliminary plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.

3. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. Approval of a final treescape plan will be required at final plat.

4. Provide a label indicating the width of the lot at the build line for the following lots: 8, 9, 10, 11, & 12, Block B. Must be a minimum of 50-ft at the build line.

5. The preliminary plat shall conform to Park District No. 22 requirements and the recommendations made by the Parks Board at their regularly scheduled meeting on November 7, 2017.

6. Provide a label indicating "Case No. P2017-055" on the lower right corner on all pages of the revised submittal.

7. Submittal and approval of civil engineering plans prior to submittal of final plat.

Although not requried staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

1. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83-NCF).
2. A 1/2-inch iron rod will be set at all lot corners, points of curvature, points of tangency and angle points in public rights-of-way whenever possible unless otherwise shown or noted in this drawing, after all construction for this subdivision has been completed.
3. By graphical plotting, the parcel shown hereon lies within Zone X, as delineated on the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map, Map Number 48397C0045L, dated September 26, 2008. Zone X is defined as "Areas determined to be outside the 0.2% annual chance floodplain." The Surveyor utilized the above referenced floodplain information for this determination and the Surveyor does not certify that revised floodplain information has or has not been published by FEMA or some other source. On occasion, greater floods can and will occur and flood heights may be increased by man-made or natural causes. The above flood statement shall not create liability on the part of the surveyor.

Discuss and consider a request by Ed Cavendish of VPS Construction for the approval of a site plan/master open space plan for the Spyglass Hill, Phase 4 Subdivision consisting of 33 single-family residential lots on a 6.888-acre tract of land, zoned Planned Development District 8 (PD-8), generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than November 7, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of building permits. As a note, plat mylars must be received for filing purposes prior to release of any building permits.
3. Label site plan documents with "Case No. SP2017-031" at the lower right corner of each revised plan.
4. Adherence to all Parks Board recommendation at their November 7, 2017 meeting.

Please address the following Planning Comments for each plan submitted:

PD Site Plan:
1. Provide proposed street names for each street within the subdivision.
2. Provide and label all sidewalks within the development.
3. Provide property owner information on the northern boundary of the site plan.
4. Label all pad elevations for each lot per Ordinance No. 92.39
5. Maximum height of structures for proposed lots 15-25 are required to meet and shall not exceed the elevations as established in Ordinance No. 92-39.
6. Provide additional labels for 20-ft rear setback along lots 15-26.
7. Provide conceptual entry feature(s) for subdivision identification.
8. Provide property owner information for all adjacent lots.

Open Space/ Landscape Plan:
1. Provide a 10-ft landscape buffer along H. M. Chandler Drive with trees spaces at 50-ft o.c.
2. Dimension and label all hardscape elememnts (e.g. sidewalks,

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com.

SP2017-032 (Rockwall School of Music): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of a site plan for a music studio on a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-032) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Planned Development District 60 (PD-60) for Residential Office (RO) District Standards.

M.6 Site Plan. Please provide a title block in the lower right hand corner of all sheets and contain the project name, street address, and/or lot and block designation.

M.7 Site Plan. Please see the Site Plan Checklist included in the Development Packet as there are a number of items missing from the site plan. This needs to be a detailed site plan

M.8 Site Plan. Please remove topo lines.

M.9 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.10 Site Plan. Please indicate the distance between all property lines and existing/planned buildings located on the site.

M.11 Site Plan. Please provide all drive/turning radii.

M.12 Site Plan. Please provide a vicinity map.

M.13 Site Plan. Please show centerline of Mims Road.

M.14 Site Plan. Please provide date of drawing.

M.15 Site Plan. Please indicate the proposed use.

M.16 Site Plan. Please provide the total lot or site area in acreage and SF.

M.17 Site Plan. Please provide the perimeter dimensions of the site.

M.18 Site Plan. Please indicate distance from building and all property lines.

M.19 Site Plan. Please indicate all property lines—preferably with a dark dashline and label

M.20 Site Plan. Please indicate all easements.

M.21 Site Plan. Please indicate drive widths.

M.22 Site Plan. Please indicate all firelanes

M.36 Site Plan. Please provide different linetypes (including a legend) for easements, property lines, etc.

M.37 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan:Miscellaneous and Density and Dimensional Requirements of this checklist.

M.38 Landscape Plan. Please indicate the application zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.

M.39 Landscape Plan. Please clarify landscape table and symbology. It is difficult to tell what trees are being planted in which locations.

M.40 Landscape Plan. Please show visibility triangles (show on site plan as well).

M.41 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.42 Landscape Plan. Please check tree mitigation requirements. Cedars and Hackberrys under 11 inches are not considered to be protected and do not require mitigation. Any Cedars and Hackberrys 11 inches or greater are only mitigated for ½ the caliper inches being removed. I calculated a total of 53 caliper inches needing mitigation instead of 68.

M.43 Landscape Plan. Any Oak 4 caliper inches or greater is considered to be a feature tree and requires approval from the Planning and Zoning Commission.

M.44 Photometric. No light pole, base or combination thereof shall exceed 15-feet in height. Also all lighting fixtures must focus light downward and be contained on the site. Please provide a light detail indicating the height the lighting poles.

M.45 Photometric. Please darken the property lines on the Photometric Plan.

M.46 Photometric. No lighting facilities shall distribute more than 0.2 of one footcandle of light at the property line. Please look at the lighting along the property lines to get this as close as possible to 0.2.

M.47 Photometric. Please note, no lighting facilities shall distribute more than 20 of one footcandle of light on the remainder of the property.

M.48 Photometric. Please try and make the lighting symbols clearer so that it is easier to distinguish each symbol.

M.49 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).

M.50 Photometric. Please provide same site data table as site plan and landscape plan.

M.51 Building Elevations. Please label all roof mounted mechanical equipment and how these will be screened from view.

M.52 Building Elevations. Will the stone masonry all be the same color?

M.53 Building Elevations. Please provide a perspective of the North and East elevations.

M.54 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.55 Building Elevations. Please indicate the elevation that faces the street.

M.56 Building Elevations. Please provide color elevations/perspectives.

I.57 The Architectural Review Board (ARB) meeting for this case will be held on October 24, 2016 at 5:00 p.m.

I.58 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 7, 2016. The Planning and Zoning Worksession for this case will be October 24, 2014 at 6:00 p.m. The Planning and Zoning Meeting will be November 14, 2017. A representative is required to attend all meetings.

I.59If necessary the projected City Council meeting date for this case will be November 20, 2017.

EXISTING TREE NOTES

Existing trees to remain shall be protected during construction from tree structure damage and compaction of soil under and around dripline (canopy) of tree.

If any root structure is damaged during adjacent excavation/construction, notify the Architect/Engineer immediately. It is recommended that a licensed Arborist be secured for the treatment of any possible tree wounds.

No disturbance of the soil greater than 4" shall be located closer to the tree trunk than ½ the distance of the drip line to the tree trunk. A minimum of 75% of the drip line and root zone shall be preserved at natural grade.

Any fine grading done within the critical root zones of the protected trees must be done with light machinery such as a bobcat or light tractor. No earth moving equipment with tracts is allowed within the critical root zone of the trees.

Material Storage: No materials intended for use in construction or waste materials accumulated due to excavation or demolition shall be placed within the limits of the dripline of any tree.

Equipment Cleaning/Liquid Disposal: No equipment may be cleaned, toxic solutions, or other liquid chemicals shall be deposited within the limits of the dripline of a tree. This would include but not be limited to paint, oil, solvents, asphalt, concrete, mortar, primers, etc.

Tree Attachments: No signs, wires or other attachments, other than those of a protective nature shall be attached to any tree.

Vehicular Traffic: No vehicular and construction equipment traffic or parking is allowed within the limits of the dripline of trees.

Boring of Utilities: May be permitted under protected trees in certain circumstances. The minimum length of the bore shall be the width of the tree's canopy and shall be a minimum depth of forty–eight (48") inches.

Trenching: Any irrigation trenching that must be done within the critical root zone of a tree shall be dug by hand and enter the area in a radial manner.

Tree Flagging: All trees to be removed from the site shall be flagged by the Contractor with bright red vinyl tape (3" width) wrapped around the main trunk at a height of four (4') feet above grade. Flagging shall be approved by Landscape Architect/Engineer prior to any tree removal. Contractor shall contact Landscape Architect/Engineer with 72 hour notice to schedule on–site meeting.

Protective Fencing: All trees to remain, as noted on drawings, shall have protective fencing located at the tree's dripline. The protective fencing may be comprised of snow fencing, orange vinyl construction fencing, chain link fence or other similar fencing with a four (4') foot approximate height. The protective fencing will be located as indicated on the Tree Protection Detail(s).

Bark Protection: In situations where a tree remains in the immediate area of intended construction, the tree shall be protected by enclosing the entire circumference of the tree's trunk with lumber encircled with wire or other means that does not damage the tree. Refer to Tree Protection Detail(s).

Construction Pruning: In a case where a low hanging limb is broken during the course of construction, the Contractor shall notify the Landscape Architect/Engineer immediately. In no instance shall the Contractor prune any portion of the damaged tree without the prior approval by the Landscape Architect/Engineer.

Discuss and consider a request by Juan J. Vasquez of Vasquez Engineering, LLC on behalf of Deepak Gandhi of Rockwall Inn Keepers I, LTD for the approval of a site plan for a hotel on a 2.681-acre identified as a portion of Lots 9 & 11, Block A, La Jolla Pointe, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, located at the southeast corner of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

All staff comments are to be addressed and resubmitted by Tuesday, November 7, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-033" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.
4. This hotel shall be limited to non-residence suits (i.e. rooms that do not contain kitchen facilities).

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
-- As a note, all variances to the IH-30 and Scenic OV Districts require approval by a 3/4 majority vote of City Council:

The following is considered to be a request to the IH-30 and Scenic OV Districts:

1. Per Sec. 6.6.C.1 & 6.8, D.1, of Article V, of the UDC, a minimum of 20% natural or quarried stone is required on all walls. All facades as submitted do not meet the standards establihed for the OV district. ** Recalculate without doors and windows **

EXCEPTIONS TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 6.6.C.1.a & 6.8, D.1.a, of Article V, of the UDC, a naturalor quarried stone product is required on all walls.
The applicant is requesting the use of a cultured stone product (i.e. Coronado Stone). The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

? That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size and detail of natural stone;

? That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

? That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

? That the use of the highest quality synthetic mineral oxides should be used to infuse the surface with rich, authentic tones; and

? That the manufactured stone product shall have a minimum warranty of 75 years.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure detail. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as FPADUE (i.e. firelane, public access, drainage & utility easements) for site.
3. Add to 'NOTES' - No. 8. The overall height of building not to exceed a topographic elevation of 566-feet (per Ord. No. 17-38)
4. Are there any restaurants or meeting rooms? If so, provide the appropriate amount of parking at 50% of the required parking for that use in addtion to the parking space requirement for each room. Correct Site Summary Table (if necessary).

Landscape Plan:
1. Add tree icons to the Plant Schedule to easily identfy each tree species on the plan.
2. You may want to add a label indicating the existing trees at the northwest corner of the lot will remain.
3. Will there be any additional landscape materials around the building (e.g. flowers, shrubs, etc.)?

Treescape Plan:
1. Reduce the total mitigation balance by 65" for on site plantings from landscape plan. New Mitigation Balance = 1,404 caliper inches. The mitigation balance may be satisfied by either purchaseing tree credits equal to 20% of the mitigation balance at $125 per inch with the remainder balance due by establishing a delivery method for trees (get with the Parks Dept. for logistics). Or you may request an alternative tree mitigation plan to be approved by the City Council.

Photometric Plan:
1. Provide a photometric plan for all exterior lighting and cut sheets of all exterior light fixtures.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures).
3. Maximum intensity of exterior lighing is not to exceed 0.2-FC at the property lines.

Building Elevations:
1. See compliance standards for all Variances and Exception as listed above (i.e. 20% natural stone, and request for cultured stone).
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

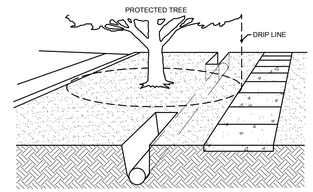
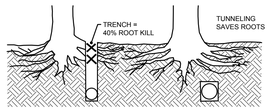
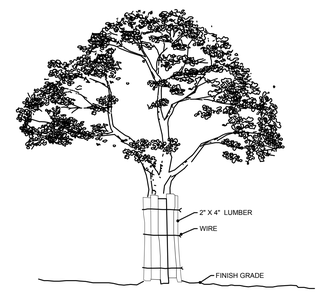
1 TREE PROTECTION FENCING
N.T.S.



BORING:
BORING OF UTILITIES UNDER PROTECTED TREES SHALL BE REQUIRED IN CIRCUMSTANCES WHERE IT IS NOT POSSIBLE TO TRENCH AROUND THE CRITICAL ROOT ZONE OF THE PROTECTED TREE. WHERE REQUIRED, THE LENGTH OF THE BORE SHALL BE THE WIDTH OF THE CRITICAL ROOT ZONE AT A MINIMUM AND SHALL BE A MINIMUM DEPTH OF FORTY EIGHT (48") INCHES.



2 BORING AND TUNNELING
N.T.S.



WHERE A PROTECTED TREE REMAINS IN THE IMMEDIATE AREA OF INTENDED CONSTRUCTION, AND THE TREE MAY BE IN DANGER OF BEING DAMAGED BY CONSTRUCTION EQUIPMENT OR OTHER ACTIVITY, THE CONTRACTOR OR SUBCONTRACTOR SHALL PROTECT THE TREE WITH 2" X 4" LUMBER ENCIRCLED WITH WIRE OR OTHER MEANS THAT DO NOT DAMAGE THE BARK OF THE TREE. THE INTENT IS TO PROTECT THE TRUNK OF THE TREE AGAINST INCIDENTAL CONTACT BY LARGE CONSTRUCTION EQUIPMENT.

3 BARK PROTECTION
N.T.S.

TREE PRESERVATION NOTES

CONSTRUCTION METHODS:

BORING: BORING OF UTILITIES UNDER PROTECTED TREES MAY BE REQUIRED. WHEN REQUIRED, THE MINIMUM LENGTH OF THE BORE SHALL BE THE WIDTH OF THE CRITICAL ROOT ZONE AND SHALL BE A MINIMUM DEPTH OF FORTY (48) INCHES.

TRENCHING: ALL TRENCHING SHALL BE DESIGNED TO AVOID TRENCHING ACROSS CRITICAL ROOT ZONES OF ANY PROTECTED TREE. THE PLACEMENT OF UNDERGROUND UTILITY LINES SUCH AS ELECTRIC, PHONE, GAS, ETC., IS ENCOURAGED TO BE LOCATED OUTSIDE THE CRITICAL ROOT ZONE. TRENCHING FOR IRRIGATION SYSTEMS SHALL BE PLACED OUTSIDE THE CRITICAL ROOT ZONE EXCEPT THE MINIMUM REQUIRED SINGLE HEAD SUPPLY LINE. THIS LINE IS ALLOWED TO EXTEND INTO THE CRITICAL ROOT ZONE PERPENDICULAR TO THE TREE TRUNK WITH THE LEAST POSSIBLE DISTURBANCE.

TREES TO BE REMOVED: ALL TREES TO BE REMOVED FROM THE SITE SHALL BE FLAGGED BY THE CONTRACTOR WITH BRIGHT RED VINYL TAPE WRAPPED AROUND THE MAIN TRUNK AT A HEIGHT OF FOUR (4) FEET ABOVE GRADE.

TREES TO REMAIN: ALL TREES TO REMAIN, AS NOTED ON DRAWINGS, SHALL HAVE PROTECTIVE FENCING LOCATED AT THE TREE'S DRIP LINE. THE PROTECTIVE FENCING SHALL BE LOCATED AS INDICATED ON THE TREE PROTECTION DETAIL.

EXISTING TREES NOTED TO REMAIN SHALL BE PROTECTED DURING CONSTRUCTION FROM DAMAGE AND COMPACTION OF SOIL UNDER AND AROUND DRIP LINE OF TREE.

UNDER NO CIRCUMSTANCE SHALL THE CONTRACTOR PRUNE ANY PORTION OF THE DAMAGED TREE WITHOUT THE PRIOR APPROVAL BY THE OWNER'S AUTHORIZED REPRESENTATIVE.

PROHIBITED ACTIVITIES IN CRITICAL ROOT ZONE:
THE FOLLOWING ACTIVITIES ARE PROHIBITED IN THE AREAS NOTED AS THE CRITICAL ROOT ZONE.

MATERIAL STORAGE: NO MATERIALS INTENDED FOR USE IN CONSTRUCTION, OR WASTE MATERIALS ACCUMULATED DUE TO EXCAVATION OR DEMOLITION, SHALL BE PLACED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE.

EQUIPMENT CLEANING/LIQUID DISPOSAL: NO EQUIPMENT SHALL BE CLEANED, OR OTHER LIQUIDS DEPOSITED OR ALLOWED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF A PROTECTED TREE. THIS INCLUDES, WITHOUT LIMITATION: PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR OR SIMILAR MATERIALS.

TREE ATTACHMENTS: NO SIGNS, WIRES, OR OTHER ATTACHMENTS, OTHER THAN THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY PROTECTED TREE.

VEHICULAR TRAFFIC: NO VEHICULAR AND/OR CONSTRUCTION, EQUIPMENT, TRAFFIC, OR PARKING SHALL TAKE PLACE WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE OTHER THAN ON EXISTING STREET PAVEMENT.

GRADE CHANGES: A MINIMUM OF 75% OF THE DRIP LINE AND ROOT ZONE SHALL BE PRESERVED AT NATURAL GRADE. ANY FINE GRADING DONE WITHIN THE CRITICAL ROOT ZONES OF THE PROTECTED TREES MUST BE DONE WITH LIGHT MACHINERY SUCH AS A BOBCAT OR LIGHT TRACTOR. NO EARTH MOVING EQUIPMENT WITH TRACKS IS ALLOWED WITHIN THE CRITICAL ROOT ZONE OF THE TREES.

PROCEDURES REQUIRED PRIOR TO CONSTRUCTION:
PROTECTIVE FENCING: PRIOR TO CONSTRUCTION, THE CONTRACTOR OR SUBCONTRACTOR SHALL CONSTRUCT AND MAINTAIN, FOR EACH PROTECTED TREE ON A CONSTRUCTION SITE, A PROTECTIVE FENCING WHICH ENCIRCLES THE OUTER LIMITS OF THE CRITICAL ROOT ZONE OF THE TREE TO PROTECT IT FROM CONSTRUCTION ACTIVITY. ALL PROTECTIVE FENCING SHALL BE IN PLACE PRIOR TO COMMENCEMENT OF ANY SITE WORK, AND REMAIN IN PLACE UNTIL ALL EXTERIOR WORK HAS BEEN COMPLETED.

BARK PROTECTION: IN SITUATIONS WHERE A PROTECTED TREE REMAINS IN THE IMMEDIATE AREA OF INTENDED CONSTRUCTION, AND THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE DETERMINES THE TREE BARK TO BE IN DANGER OF DAMAGE BY CONSTRUCTION EQUIPMENT OR OTHER ACTIVITY, THE CONTRACTOR OR SUBCONTRACTOR SHALL PROTECT THE TREE BY ENCLOSING THE ENTIRE CIRCUMFERENCE OF THE TREE WITH 2"X4" LUMBER ENCIRCLED WITH WIRE OR OTHER MEANS THAT DO NOT DAMAGE THE TREE. THE INTENT IS TO PROTECT THE BARK OF THE TREE AGAINST INCIDENTAL CONTACT BY LARGE CONSTRUCTION EQUIPMENT.

GENERAL LAWN NOTES

EROSION CONTROL AND SOIL PREPARATION:
THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING TOP SOIL AT THE CORRECT GRADES. CONTRACTOR TO FINE GRADE AREAS TO REACH FINAL CONTOURS AS SPECIFIED PER CIVIL PLANS. ALL CONTOURS SHOULD ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS AND STRUCTURES. WATER SHOULD NOT BE ABLE TO POOL IN ANY AREAS UNLESS SPECIFIED OTHERWISE. EROSION FABRIC SUCH AS JUTE MATTING OR OPEN WEAVE TO BE USED WHERE NECESSARY TO PREVENT SOIL EROSION.

ANY LOSS OF TOPSOIL OR GRASS DUE TO EROSION IS THE RESPONSIBILITY OF THE CONTRACTOR UNTIL IT IS 100% ESTABLISHED.

CONTRACTOR TO REMOVE ANY ROCKS 3/4" AND LARGER, STICKS AND DEBRIS PRIOR TO INSTALLATION OF TOPSOIL AND SOD.

FOUR (4") OF TOPSOIL SHALL BE APPLIED TO AREAS DISTURBED BY CONSTRUCTION RECEIVING SOD. IF TOPSOIL IS NOT AVAILABLE ON SITE, THE CONTRACTOR SHALL PROVIDE TOPSOIL AS APPROVED BY THE OWNER OR OWNERS REPRESENTATIVE.

TOPSOIL SHALL BE FRIABLE, NATURAL LOAM, FREE OF ROCKS, WEEDS, BRUSH, CLAY LUMPS, ROOTS, TWIGS, LITTER AND ENVIRONMENTAL CONTAMINANTS.

CONTRACTOR SHALL BE RESPONSIBLE FOR SOD UNTIL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT BE LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION. SOD SHALL BE REPLACED IF NECESSARY.

SOLID SOD:
SOLID SOD SHALL BE PLACED ALONG ALL IMPERVIOUS EDGES, AT A MINIMUM. THIS SHALL INCLUDE CURBS, WALKS, INLETS, MANHOLES AND PLANTING BED AREAS. SOD SHALL COVER OTHER AREAS COMPLETELY AS INDICATED BY PLAN.

SOD SHALL BE STRONGLY ROOTED DROUGHT RESISTANT SOD, NOT LESS THAN 2 YEARS OLD, FREE OF WEEDS AND UNDESIRABLE NATIVE GRASS AND MACHINE CUT TO PAD THICKNESS OF 3/4" (+ 1/4"), EXCLUDING TOP GROWTH AND THATCH. PROVIDE ONLY SOD CAPABLE OF VIGOROUS GROWTH AND DEVELOPMENT WHEN PLANTED.

DO NOT INSTALL SOD IF IT IS DORMANT OR GROUND IS FROZEN. LAY SOD WITH TIGHTLY FITTING JOINTS, NO OVERLAPS WITH STAGGERED STRIPS TO OFFSET JOINTS.

SOD SHALL BE ROLLED TO CREATE A SMOOTH EVEN SURFACE. SOD SHOULD BE WATERED THOROUGHLY DURING INSTALLATION PROCESS.

SHOULD INSTALLATION OCCUR BETWEEN OCTOBER 1ST AND MARCH 1ST, SOD SHALL INCLUDE AN OVER-SEED OF ANNUAL RYE OR WINTER RYEGRASS AT A RATE OF FOUR POUNDS PER ONE THOUSAND SQUARE FEET FOR A GROWN-IN APPEARANCE. CONTRACTOR SHALL ENSURE CONFORMANCE TO §115.D OF TITLE 7, PART XXIX, HORTICULTURE COMMISSION CHAPTER 1.

HYDROMULCH:

SCARIFY SURFACE TO A MINIMUM OF 2" DEPTH PRIOR TO THE IMPORT TOPSOIL APPLICATION. TOP SOIL SHALL BE PLACED 2" IN DEPTH IN ALL AREAS TO BE SEEDED. CONTRACTOR TO SUPPLY HIGH QUALITY IMPORTED TOPSOIL HIGH IN HUMAS AND ORGANIC CONTENT FROM A LOCAL SUPPLY. IMPORTED TOPSOIL SHALL BE REASONABLY FREE OF CLAY LUMPS, COARSE SANDS, STONES, ROOTS AND OTHER FOREIGN DEBRIS.

IF INADEQUATE MOISTURE IS PRESENT IN SOIL, APPLY WATER AS NECESSARY FOR OPTIMUM MOISTURE FOR SEED APPLICATION.

ALL SEED SHALL BE HIGH QUALITY, TREATED LAWN TYPE SEED AND IS FREE OF NOXIOUS GRASS SEEDS. THE SEED APPLICATION SHALL BE UNIFORMLY DISTRIBUTED ON THE AREAS INDICATED ON PLANS. HYDROMULCH WITH BERMUDA GRASS SEED AT A RATE OF TWO POUNDS PER ONE THOUSAND SQUARE FEET.

IF INSTALLATION OCCURS BETWEEN OCTOBER 1ST AND APRIL 1ST, ALL HYDORMULCH AREAS SHALL BE OVER-SEEDED WITH ANNUAL RYE GRASS AT A RATE OF FOUR POUNDS PER ONE THOUSAND SQUARE FEET. CONTRACTOR TO RE-HYDROMULCH WITH BERMUDA GRASS AT THE END OF THE ANNUAL RYE GROWING SEASON.

AFTER APPLICATION, NO EQUIPMENT SHALL OPERATE OVER APPLIED AREAS. WATER SEEDED AREAS IMMEDIATELY AFTER INSTALLATION TO SATURATION.

ALL LAWN AREAS TO BE HYDROMULCHED SHALL ACHIEVE 100% COVERAGE PRIOR TO FINAL ACCEPTANCE.

LANDSCAPE NOTES

REFERENCE SITEWORK AND SPECIFICATIONS FOR INFORMATION NEEDED FOR LANDSCAPE WORK.

CONTRACTOR TO VERIFY AND LOCATE ALL PROPOSED AND EXISTING STRUCTURES. NOTIFY LANDSCAPE ARCHITECT OR DESIGNATED REPRESENTATIVE FOR ANY LAYOUT DISCREPANCIES OR ANY CONDITION THAT WOULD PROHIBIT THE INSTALLATION AS SHOWN.

CONTRACTOR SHALL CALL 811 TO VERIFY AND LOCATE ANY AND ALL UTILITIES ON SITE PRIOR TO COMMENCING WORK. LANDSCAPE ARCHITECT SHOULD BE NOTIFIED OF ANY CONFLICTS.

A MINIMUM OF 2% SLOPE SHALL BE PROVIDED AWAY FROM ALL STRUCTURES.

LANDSCAPE ISLANDS SHALL BE CROWNED, AND UNIFORM THROUGHOUT THE SITE.

ALL PLANTING AREAS SHALL BE GRADED SMOOTH TO ACHIEVE FINAL CONTOURS AS INDICATED ON PLAN WITH 3" OF TOPSOIL AND 3" OF COMPOST AND CONSISTENTLY BLENDED TO A DEPTH OF 9". ALL BEDS SHALL BE CROWNED TO ANTICIPATE SETTLEMENT AND ENSURE PROPER DRAINAGE.

PLANTING AREAS AND SOD TO BE SEPARATED BY STEEL EDGING. EDGING TO BE GREEN IN COLOR AND A MINIMUM OF 3/16" THICK. EDGING SHALL BE STAKED FROM THE INSIDE OF BED. EDGING NOT TO BE MORE THAN 1/2" ABOVE FINISHED GRADE.

MULCH SHALL BE INSTALLED AT 1/2" BELOW THE TOPS OF SIDEWALKS AND CURBING.

QUANTITIES ON THESE PLANS ARE FOR REFERENCE ONLY. THE SPACING OF PLANTS SHOULD BE AS INDICATED ON PLANS OR OTHERWISE NOTED. ALL TREES AND SHRUBS SHALL BE PLANTED PER DETAILS.

CONTAINER GROWN PLANT MATERIAL IS PREFERRED HOWEVER BALL AND BURLAP PLANT MATERIAL CAN BE SUBSTITUTED IF NEED BE AND IS APPROPRIATE TO THE SIZE AND QUALITY INDICATED ON THE PLANT MATERIAL LIST.

TREES SHALL BE PLANTED AT A MINIMUM OF 5' FROM ANY UTILITY LINE, SIDEWALK OR CURB. TREES SHALL ALSO BE 10' CLEAR FROM FIRE HYDRANTS.

4" OF SHREDDED HARDWOOD MULCH (2" SETTLED THICKNESS) SHALL BE PLACED OVER 4.1 OZ WOVEN, WEED BARRIER FABRIC OR APPROVED EQUAL. WEED BARRIER FABRIC SHALL BE USED IN PLANT BEDS AND AROUND ALL TREES AND SHALL BE DE WITT WEED BARRIER OR APPROVED EQUAL. MULCH SHALL BE SHREDDED BARK OR RUBBER LANDSCAPE MULCH, PINE STRAW MULCH IS PROHIBTED.

CONTRACTOR TO PROVIDE UNIT PRICING OF LANDSCAPE MATERIALS AND BE RESPONSIBLE FOR OBTAINING ALL LANDSCAPE AND IRRIGATION PERMITS.

IRRIGATION:
IN THE ABSENCE OF AN IRRIGATION SYSTEM OR AREAS BEYOND THE COVERAGE LIMITS OF A PERMANENT IRRIGATION SYSTEM, CONTRACTOR SHALL WATER SOD TEMPORARILY, BY ANY MEANS AVAILABLE, TO DEVELOP ADEQUATE GROWTH. TURF SHALL BE IN 100% ESTABLISHMENT AT THE TIME OF ACCEPTANCE.

ALL PLANTING BEDS SHALL HAVE AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE/RAIN SENSOR. SYSTEM SHALL ALSO HAVE AN ET WEATHER BASED CONTROLLER AND BE DESIGNED AND INSTALLED BY A LICENSED IRRIGATOR.

MAINTENANCE REQUIREMENTS:
VEGETATION SHOULD BE INSPECTED REGULARLY TO ENSURE THAT PLANT MATERIAL IS ESTABLISHING PROPERLY AND REMAINS IN A HEALTHY GROWING CONDITION APPROPRIATE FOR THE SEASON. IF DAMAGED OR REMOVED, PLANTS MUST BE REPLACED BY A SIMILAR VARIETY AND SIZE.

MOWING, TRIMMING, EDGING AND SUPERVISION OF WATER APPLICATIONS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR UNTIL THE OWNER OR OWNER'S REPRESENTATIVE ACCEPTS AND ASSUMES REGULAR MAINTENANCE.

ALL LANDSCAPE AREAS SHOULD BE CLEANED AND KEPT FREE OF TRASH, DEBRIS, WEEDS AND OTHER MATERIAL.

MISCELLANEOUS MATERIALS:

STEEL EDGING SHALL BE 3/16" X 4 X 16' DARK GREEN DURAEDGE STEEL LANDSCAPE EDGING.

MISCELLANEOUS MATERIALS:

STEEL EDGING SHALL BE 3/16" X 4 X 16' DARK GREEN DURAEDGE STEEL LANDSCAPE EDGING.

SECTION 32 9300 - LANDSCAPE

PART 1 - GENERAL

1.1 QUALIFICATIONS OF THE LANDSCAPE CONTRACTOR.

A. ALL LANDSCAPE WORK SHOWN ON THESE PLANS SHALL BE PERFORMED BY A SINGLE FIRM SPECIALIZING IN LANDSCAPE PLANTING

1.2 REFERENCE DOCUMENTS

A. REFER TO LANDSCAPE PLANS, NOTES, AND DETAILS FOR ADDITIONAL REQUIREMENTS

1.3 SCOPE OF WORK / DESCRIPTION OF WORK

A. WORK COVERED BY THESE SECTIONS INCLUDES THE FURNISHING AND PAYMENT OF ALL MATERIALS, LABOR, SERVICES, EQUIPMENT, LICENSES, TAXES AND ANY OTHER ITEMS THAT ARE NECESSARY FOR THE EXECUTION, INSTALLATION AND COMPLETION OF ALL WORK, SPECIFIED HEREIN AND / OR SHOWN ON THE LANDSCAPE PLANS, NOTES, AND DETAILS.

B. ALL WORK SHALL BE PERFORMED IN ACCORDANCE WITH ALL APPLICABLE LAWS, CODES AND REGULATIONS REQUIRED BY AUTHORITIES HAVING JURISDICTION OVER SUCH WORK, INCLUDING ALL INSPECTIONS AND PERMITS REQUIRED BY FEDERAL, STATE AND LOCAL AUTHORITIES IN SUPPLY, TRANSPORTATION AND INSTALLATION OF MATERIALS.

C. THE LANDSCAPE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UNDERGROUND UTILITY LINES (WATER, SEWER, ELECTRICAL, TELEPHONE, GAS, CABLE, TELEVISION, ETC.) PRIOR TO THE START OF ANY WORK

D. FURNISH ALL LABOR, MATERIALS, EQUIPMENT, AND SERVICES NECESSARY TO PROVIDE ALL WORK, COMPLETE IN PLACE AS SHOWN AND SPECIFIED. WORK SHOULD INCLUDE:

E. PLANTING OF TREES, SHRUBS AND GRASSES

A. SEEDING
B. BED PREPARATION AND FERTILIZATION
C. WATER AND MAINTENANCE UNTIL FINAL ACCEPTANCE
D. WORK GUARANTEE

1.4 REFERENCES

A. AMERICAN NATIONAL STANDARDS INSTITUTE (ANSI) Z60.1 - NURSERY STOCK
B. TEXAS STATE DEPARTMENT OF AGRICULTURE
C. TEXAS ASSOCIATION OF NURSERYMEN, GRADES AND STANDARDS

1.5 SUBMITTALS

A. PROVIDE REPRESENTATIVE QUANTITIES OF EACH SOIL, MULCH, BED MIX, GRAVEL AND STONE BEFORE INSTALLATION. SAMPLES TO BE APPROVED BY OWNER'S REPRESENTATIVE BEFORE USE.

B. SOIL AMENDMENTS AND FERTILIZERS SHOULD BE RESEARCHED AND BASED ON THE SOILS IN THE AREA.

C. BEFORE INSTALLATION, SUBMIT DOCUMENTATION THAT PLANT MATERIALS ARE AVAILABLE AND HAVE BEEN RESERVED, FOR ANY PLANT MATERIAL NOT AVAILABLE, SUBMIT REQUEST FOR SUBSTITUTION.

1.6 JOB CONDITIONS, DELIVERY, STORAGE AND HANDLING

A. GENERAL CONTRACTOR TO COMPLETE WORK BEFORE LANDSCAPE CONTRACTOR TO COMMENCE. ALL PLANTING BED AREAS SHALL BE LEFT THREE INCHES BELOW FINAL GRADE OF SIDEWALKS, DRIVES AND CURBS. ALL AREAS TO RECEIVE SOLID SOD SHALL BE LEFT ONE INCH BELOW THE FINAL GRADE OF WALKS, DRIVES AND CURBS. CONSTRUCTION DEBRIS SHALL BE REMOVED PRIOR TO LANDSCAPE CONTRACTOR BEGINNING WORK.

B. ALL PACKAGED MATERIALS SHALL BE SEALED IN CONTAINERS SHOWING WEIGHT, ANALYSIS AND NAME OF MANUFACTURER. ALL MATERIALS SHALL BE PROTECTED FROM DETERIORATION IN TRANSIT AND WHILE STORED ON SITE.

C. DELIVER PLANT MATERIALS IMMEDIATELY PRIOR TO INSTALLATION. PLANT MATERIALS SHOULD BE INSTALLED ON THE SAME DAY AS DELIVERED. IF PLANTING CANNOT BE INSTALLED ON THE SAME DAY, PROVIDE ADDITIONAL PROTECTION TO MAINTAIN PLANTS IN A HEALTHY, VIGOROUS CONDITION.

D. STORE PLANT MATERIALS IN SHADE, PROTECT FROM FREEZING AND DRYING.

E. KEEP PLANT MATERIALS MOIST AND PROTECT FROM DAMAGE TO ROOT BALLS, TRUNKS AND BRANCHES.

F. PROTECT ROOT BALLS BY HEELING WITH SAWDUST OR OTHER MOISTURE RETAINING MATERIAL IF NOT PLANTED WITHIN 24 HOURS OF DELIVERY.

G. NOTIFY OWNERS REPRESENTATIVE OF DELIVERY SCHEDULE 72 HOURS IN ADVANCE.

H. FOR BALLED AND BURLAPPED PLANTS - DIG AND PREPARE SHIPMENT IN A MANNER THAT WILL NOT DAMAGE ROOTS, BRANCHES, SHAPE, AND FUTURE DEVELOPMENT.

I. CONTAINER GROWN PLANTS - DELIVER PLANTS IN CONTAINER TO HOLD BALL SHAPE AND PROTECT ROOT MASS.

J. STORAGE OF ALL MATERIALS AND EQUIPMENT WILL BE AT THE RISK OF THE LANDSCAPE CONTRACTOR. OWNER WILL NOT BE HELD RESPONSIBLE FOR THEFT OR DAMAGE.

1.7 SEQUENCING

A. INSTALL TREES, SHRUBS, AND LINER STOCK PLANT MATERIALS PRIOR TO INSTALLATION OF LAWN/SOLID SOD.

B. WHERE EXISTING TURF AREAS ARE BEING CONVERTED TO PLANTING BEDS, THE TURF SHALL BE CHEMICALLY ERADICATED TO MINIMIZE RE-GROWTH IN THE FUTURE. AREAS SHALL BE PROPERLY PREPARED WITH AMENDED ORGANIC MATTER.

1.8 WARRANTIES PERIOD, PLANT GUARANTEE, REPLACEMENTS

A. PROVIDE A MINIMUM OF (2) COPIES OF RECORD DRAWINGS TO THE OWNER UPON COMPLETION OF WORK. A RECORD DRAWING IS A RECORD OF ALL CHANGES THAT OCCURRED IN THE FIELD AND THAT ARE DOCUMENTED THROUGH CHANGE ORDERS, ADDENDA, OR CONTRACTOR/CONSULTANT DRAWING MARKUPS.

B. FURNISH WRITTEN WARRANTY THAT PLANT MATERIALS WILL BE IN A HEALTHY, VIGOROUS GROWING CONDITION FOR ONE YEAR (TWELVE MONTHS) AFTER FINAL ACCEPTANCE. DAMAGE DUE TO ACTS OF GOD, VANDALISM, OR NEGLIGENCE BY OWNER IS EXCLUDED.

C. REPLACE DEAD, UNHEALTHY, AND UNSIGHTLY PLANT MATERIAL WITHIN WARRANTY PERIOD UPON NOTIFICATION BY OWNER OR OWNERS REPRESENTATIVE. PLANTS USED FOR REPLACEMENT SHALL BE OF THE SAME SIZE AND KIND AS THOSE ORIGINALLY PLANTED OR SPECIFIED.

D. THE OWNER AGREES THAT FOR THE ONE YEAR WARRANTY PERIOD TO BE EFFECTIVE, HE WILL WATER PLANTS AT LEAST TWICE A WEEK DURING DRY PERIODS.

E. NOTIFY OWNER OR OWNER'S REPRESENTATIVE SEVEN DAYS PRIOR TO THE EXPIRATION OF THE WARRANTY PERIOD.

A. REMOVE DEAD, UNHEALTHY AND UNSIGHTLY PLANTS
B. REMOVE GUYING AND STAKING MATERIALS.

1.9 MAINTENANCE

A. MAINTAIN PLANT LIFE AND PLANTING BEDS IMMEDIATELY AFTER PLACEMENT AND FOR MINIMUM 30 DAYS AFTER FINAL ACCEPTANCE.

B. ALL LANDSCAPE MUST BE MAINTAINED AND GRASS MOWED/EDGED ON A WEEKLY SCHEDULE AFTER ACCEPTANCE BY OWNER.

C. REPLACE DEAD OR DYING PLANTS WITH PLANTS OF SAME SIZE AND SPECIES AS SPECIFIED.

D. REMOVE TRASH, DEBRIS, AND LITTER. WATER, PRUNE, RESTAKE TREES, FERTILIZE, WEED AND APPLY HERBICIDES AND FUNGICIDES AS REQUIRED.

E. REMOVE CLIPPINGS AND DEBRIS FROM SITE PROMPTLY.

F. COORDINATE WITH OPERATION OF IRRIGATION SYSTEM TO ENSURE THAT PLANTS ARE ADEQUATELY WATERED. HAND WATER AREAS NOT RECEIVING ADEQUATE WATER FROM AN IRRIGATION SYSTEM.

G. THE LANDSCAPE CONTRACTOR SHALL MAINTAIN THE IRRIGATION SYSTEM IN ACCORDANCE TO THE MAINTENANCE SERVICE TO ENSURE THE SYSTEM IS IN PROPER WORKING ORDER WITH SCHEDULING ADJUSTMENTS BY SEASON TO MAXIMIZE WATER CONSERVATION.

H. RESET SETTLED PLANTS

I. REAPPLY MULCH TO BARE AND THIN AREAS.

J. SHOULD SEEDED AND/OR SODDED AREAS NOT BE COVERED BY AN AUTOMATIC IRRIGATION SYSTEM, THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR WATERING THESE AREAS AND OBTAINING A FULL, HEALTHY STAND OF GRASS AT NO ADDITIONAL COST TO THE OWNER.

K. TO ACHIEVE FINAL ACCEPTANCE AT THE END OF THE MAINTENANCE PERIOD, ALL OF THE FOLLOWING CONDITIONS MUST OCCUR:

a. THE LANDSCAPE SHALL SHOW ACTIVE, HEALTHY GROWTH (WITH EXCEPTIONS MADE FOR SEASONAL DORMANCY). ALL PLANTS NOT MEETING THIS CONDITION SHALL BE REJECTED AND REPLACED BY HEALTHY PLANT MATERIAL PRIOR TO FINAL ACCEPTANCE.

b. ALL HARDSCAPE SHALL BE CLEANED PRIOR TO FINAL ACCEPTANCE.

c. SODDED AREAS MUST BE ACTIVELY GROWING AND MUST REACH A MINIMUM HEIGHT OF 1 1/2 INCHES BEFORE FIRST MOWING. HYDROMULCHED AREAS SHALL SHOW ACTIVE, HEALTHY GROWTH. BARE AREAS LARGER THAN TWELVE SQUARE INCHES MUST BE RESODDED OR RESEEDED (AS APPROPRIATE) PRIOR TO FINAL ACCEPTANCE. ALL SODDED TURF SHALL BE NEATLY MOWED.

1.10 QUALITY ASSURANCE

A. COMPLY WITH ALL FEDERAL, STATE, COUNTY AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK.

B. EMPLOY PERSONNEL EXPERIENCED AND FAMILIAR WITH THE REQUIRED WORK AND SUPERVISION BY A FOREMAN.

C. DO NOT MAKE PLANT MATERIAL SUBSTITUTIONS. IF THE LANDSCAPE MATERIAL SPECIFIED IS NOT READILY AVAILABLE, SUBMIT PROOF TO LANDSCAPE ARCHITECT ALONG WITH THE PROPOSED MATERIAL TO BE USED IN LIEU OF THE SPECIFIED PLANT.

D. OWNER'S REPRESENTATIVE SHALL INSPECT ALL PLANT MATERIAL AND RETAINS THE RIGHT TO INSPECT MATERIALS UPON ARRIVAL TO THE SITE AND DURING INSTALLATION. THE OWNER'S REPRESENTATIVE MAY ALSO REJECT ANY MATERIALS HE/SHE FEELS TO BE UNSATISFACTORY OR DEFECTIVE DURING THE WORK PROCESS. ALL PLANTS DAMAGED IN TRANSIT OR AT THE JOB SITE SHALL BE REJECTED.

PART 2 - PRODUCTS

2.1 PLANT MATERIALS

A. ALL PLANTS SHALL BE CERTIFIED IN ACCORDANCE THE AMERICAN STANDARD FOR NURSERY STOCK.

B. ALL TREES SHALL BE OBTAINED FROM SOURCES WITHIN 200 MILES OF THE PROJECT SITE, AND WITH SIMILAR CLIMACTIC CONDITIONS.

C. PLANTS SHALL CONFORM TO THE MEASUREMENTS SPECIFIED, EXCEPT THE PLANTS LARGER THAN THOSE SPECIFIED MAY BE USED. USE OF LARGER PLANTS SHALL NOT INCREASE THE CONTRACT PRICE.

D. WHERE MATERIALS ARE PLANTED IN MASSES, PROVIDE PLANTS OF UNIFORM SIZE.

E. PLANT SCHEDULE ON DRAWING IS FOR CONTRACTOR'S INFORMATION ONLY AND NO GUARANTEE IS EXPRESSED OR IMPLIED THAT QUANTITIES THEREIN ARE CORRECT. THE CONTRACTOR SHALL ENSURE THAT ALL PLANT MATERIALS SHOWN ON THE DRAWINGS ARE INCLUDED IN HIS OR HER BID.

F. SHALL BE FREE OF DISEASE, INSECT INFESTATION, DEFECTS INCLUDING WEAK OR BROKEN LIMBS, CROTCHES, AND DAMAGED TRUNKS, ROOTS OR LEAVES, SUN SCALD, FRESH BARK ABRASIONS, EXCESSIVE ABRASIONS, OBJECTIONABLE DISFIGUREMENT, INSECT EGGS AND LARVAE.

G. ALL PLANTS SHALL EXHIBIT NORMAL GROWTH HABITS, VIGOROUS, HEALTHY, FULL, WELL BRANCHES, WELL ROOTED, PROPORTIONATE AND SYMMETRICAL.

H. ROOT SYSTEMS SHALL BE HEALTHY, DENSELY BRANCHED, FIBROUS ROOT SYSTEMS, NON-POT-BOUND, FREE FROM ENCIRCLING AND/OR GIRDLING ROOTS, AND FREE FROM ANY OTHER ROOT DEFECTS (SUCH AS J-SHAPED ROOTS).

I. ANY PLANT DEEMED UNACCEPTABLE BY THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE SHALL BE IMMEDIATELY REMOVED FROM THE SITE AND SHALL BE REPLACED WITH AN ACCEPTABLE PLANT OF LIKE TYPE AND SIZE AT THE CONTRACTOR'S OWN EXPENSE. ANY PLANTS APPEARING TO BE UNHEALTHY, EVEN IF DETERMINED TO STILL BE ALIVE, SHALL NOT BE ACCEPTED. THE LANDSCAPE ARCHITECT AND OWNER'S REPRESENTATIVE SHALL BE THE SOLE JUDGES AS TO THE ACCEPTABILITY OF PLANT MATERIAL.

J. ALL TREES SHALL BE STANDARD IN FORM, UNLESS OTHERWISE SPECIFIED. TREES WITH CENTRAL LEADERS WILL NOT BE ACCEPTED IF LEADER IS DAMAGED OR REMOVED. PRUNE ALL DAMAGED TWIGS AFTER PLANTING.

K. TREE TRUNKS TO BE STURDY, EXHIBIT HARDENED SYSTEMS AND VIGOROUS AND FIBROUS ROOT SYSTEMS, NOT ROOT OR POT BOUND.

L. TREES WITH DAMAGED OR CROOKED LEADERS, BARK ABRASIONS, SUNSCALD, DISFIGURING KNOTS, OR)INSECT DAMAGE WILL BE REJECTED.

M. CALIPER MEASUREMENTS FOR STANDARD (SINGLE TRUNK) TREES SHALL BE AS FOLLOWS: SIX INCHES ABOVE THE ROOT FLARE FOR TREES UP TO AND INCLUDING FOUR INCHES IN CALIPER, AND TWELVE INCHES ABOVE THE ROOT FLARE FOR TREES EXCEEDING FOUR INCHES IN CALIPER

N. MULTI-TRUNK TREES SHALL BE MEASURED BY THEIR OVERALL HEIGHT, MEASURED FROM THE TOP OF THE ROOT BALL.

O. ANY TREE OR SHRUB SHOWN TO HAVE EXCESS SOIL PLACED ON TOP OF THE ROOT BALL SO THAT THE ROOT FLARE HAS BEEN COMPLETELY COVERED, SHALL BE REJECTED.

P. SOD: PROVIDE WELL-ROOTED SOD OF THE VARIETY NOTED ON THE PLANS. SOD SHALL BE CUT FROM HEALTHY, MATURE TURF WITH SOIL THICKNESS OF 3/4" TO 1". EACH PALLET OF SOD SHALL BE ACCOMPANIED BY A CERTIFICATE FROM SUPPLIER STATING THE COMPOSITION OF THE SOD.

2.2 ACCESSORIES/MISCELLANEOUS MATERIALS

A. MULCH - DOUBLE SHREDDED HARDWOOD MULCH, PARTIALLY DECOMPOSED BY LIVING EARTH TECHNOLOGIES OR APPROVED SUBSTITUTE. MULCH SHOULD BE FREE OF STICKS, STONES, CLAY, GROWTH AND GERMINATION INHIBITING INGREDIENTS.

B. FERTILIZER - COMMERCIAL FERTILIZER CONTAINING 10-20-10 OR SIMILAR ANALYSIS.

C. SOIL PREPARATION - SHALL BE FERTILE, LOAMY SOIL. ORGANIC MATTER SHALL ENCOMPASS BETWEEN 3% AND 10% OF THE TOTAL DRY WEIGHT. SOIL SHALL BE FREE FROM SUBSOIL, REFUSE, ROOTS, HEAVY OR STIFF CLAY, STONES LARGER THAN 1", NOXIOUS WEEDS, STICKS, BRUSH, LITTER AND OTHER SUBSTANCES. IT SHOULD BE SUITABLE FOR THE GERMINATION OF SEEDS AND THE SUPPORT OF VEGETATIVE GROWTH. THE PH VALUE SHOULD BE BETWEEN 4 AND 7.

APPROXIMATE PARTICLE DISTRIBUTION FOR TOPSOIL

CLAY	BETWEEN 15% AND 25%
SILT	BETWEEN 15% AND 25%
SAND	LESS THAN 50%
GRAVEL	LESS THAN 10%

D. EXISTING TOPSOIL - MAY BE USED IF IT MEETS THE REQUIREMENTS FOR THE IMPORTED TOPSOIL OR IF APPROVED BY THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE. TOPSOIL SHALL NOT BE STRIPPED, TRANSPORTED OR GRADED IF MOISTURE CONTENT EXCEEDS FIELD CAPACITY. TOPSOIL STOCKPILES SHALL BE PROTECTED FROM EROSION OR CONTAMINATION.

E. ALL NEW TURF AREAS LOCATED ON THE FRONT, SIDES, REAR, AND INSIDE THE FIRE LANE SHALL BE SODDED AND SHALL BE AMENDED WITH QUALITY TOPSOIL AT A MINIMUM DEPTH OF FOUR INCHES.

F. STEEL EDGING - SHALL BE 3/16" X 4" X 16" DARK GREEN LANDSCAPE EDGING.

G. TREE STAKING - TREE STAKING SOLUTIONS OR APPROVED SUBSTITUTE; REFER TO DETAILS.

H. FILTER FABRIC - MIRAFI 1405 BY MIRAFI INC. OR APPROVED SUBSTITUTE.

I. SAND - UNIFORMLY GRADED, WASHED, CLEAN, BANK RUN SAND.

J. DECOMPOSED GRANITE - BASE MATERIAL OF NATURAL MATERIAL MIX OF GRANITE AGGREGATE NOT TO EXCEED 1/8" IN DIAMETER.

K. RIVER ROCK - LOCALLY ARIZONA RIVER ROCK BETWEEN 2"-4" IN DIAMETER.

L. PRE-EMERGENT HERBICIDES: ANY GRANULAR, NON-STAINING PRE-EMERGENT HERBICIDE THAT IS LABELED FOR THE SPECIFIC ORNAMENTALS OR TURF ON WHICH IT WILL BE UTILIZED. PRE-EMERGENT HERBICIDES SHALL BE APPLIED PER THE MANUFACTURER'S LABELED RATES.

PART 3 - EXECUTION

3.1 PREPARATION

A. BEFORE STARTING WORK, THE LANDSCAPE CONTRACTOR SHALL VERIFY THAT THE GRADE OF ALL LANDSCAPE AREAS ARE WITHIN +/-0.1' OF FINISH GRADE. THE CONTRACTOR SHALL NOTIFY THE OWNER IMMEDIATELY SHOULD ANY DISCREPANCIES EXIST.

B. SOIL TESTING:

A. AFTER FINISH GRADES HAVE BEEN ESTABLISHED, CONTRACTOR SHALL HAVE SOIL SAMPLES TESTED BY AN ESTABLISHED SOIL TESTING LABORATORY FOR THE FOLLOWING: SOIL TEXTURAL CLASS, GENERAL SOIL FERTILITY, PH, ORGANIC MATTER CONTENT, SALT (CEC), LIME, SODIUM ADSORPTION RATIO (SAR) AND ESRON CONTENT. EACH SAMPLE SUBMITTED SHALL CONTAIN NO LESS THAN ONE QUART OF SOIL.

B. CONTRACTOR SHALL ALSO SUBMIT THE PROJECT'S PLANT LIST TO THE LABORATORY ALONG WITH THE SOIL SAMPLES.

C. THE SOIL REPORT PRODUCED BY THE LABORATORY SHALL CONTAIN RECOMMENDATIONS FOR THE FOLLOWING (AS APPROPRIATE): GENERAL SOIL PREPARATION AND BACKFILL MIXES, PRE-PLANT FERTILIZER APPLICATIONS, AND ANY OTHER SOIL RELATED ISSUES. THE REPORT SHALL ALSO PROVIDE A FERTILIZER PROGRAM FOR THE ESTABLISHMENT PERIOD AND FOR LONG-TERM MAINTENANCE.

C. THE CONTRACTOR SHALL INSTALL SOIL AMENDMENTS AND FERTILIZERS PER THE SOILS REPORT RECOMMENDATIONS. ANY CHANGE IN COST DUE TO THE SOIL REPORT RECOMMENDATIONS, EITHER INCREASE OR DECREASE, SHALL BE SUBMITTED TO THE OWNER WITH THE REPORT

D. IF WEEDS ARE GROWING IN PLANTING AREAS, APPLY HERBICIDE RECOMMENDED BY MANUFACTURER AND APPLIED BY AN APPROVED LICENSED APPLICATOR. ALLOW WEEDS TO DIE, AND THEN GRUB OUT ROOTS TO A MINIMUM OF 1/2 INCH DEPTH.

E. PREPARE NEW PLANTING BEDS BY TILLING EXISTING SOIL TO A DEPTH OF SIX INCHES PRIOR TO PLACING COMPOST AND FERTILIZER. ADD SIX INCHES OF COMPOSE AND TILL INTO A DEPTH OF SIX INCHES OF THE TOPSOIL.

F. POSITION TREES AND SHRUBS AS DESIGNED ON PLAN. OBTAIN OWNER'S REPRESENTATIVE'S APPROVAL PRIOR TO PROCEEDING.

G. ALL PLANTING AREAS SHALL RECEIVE A MINIMUM OF 2 INCH LAYER OF MULCH (SETTLED THICKNESS).

3.2 EXCAVATING

A. EXCAVATE PITS FOR PLANTING. TREE PITS SHALL BE LARGE ENOUGH TO PERMIT THE HANDLING OF THE ROOT BALL WITHOUT DAMAGE TO THE ROOTS. TREES SHALL BE PLANTED AT A DEPTH THAT WHEN SETTLED, THE CROWN OF THE PLANT SHALL BEAR THE SAME RELATIONSHIP TO THE FINISH GRADE AS IT DID TO THE SOIL SURFACE IN ORIGINAL PLACE OF GROWTH.

B. TREE PITS PERCOLATION TEST: FILL PIT WITH WATER AND ALLOW TO STAND FOR 24 HOURS. IF PIT DOES NOT DRAIN, THE TREE NEEDS TO BE MOVED TO ANOTHER LOCATION OR HARD DRAINAGE ADDED.

C. SHRUB AND TREE PITS SHALL BE NO LESS THAN 24" WIDER THAN THE ROOT BALL AND 6" DEEPER THAN ITS VERTICAL DIMENSION. HOLES SHOULD BE ROUGH, NOT SMOOTH OR GLAZED.

3.3 PLANTING

A. REMOVE NURSERY TAGS AND STAKES FROM ALL PLANTS
B. REMOVE CONTAINERS WITHOUT DAMAGE TO ROOTS.
C. REMOVE BOTTOM OF PLANT BOXES PRIOR TO PLACING PLANTS. REMOVE SIDES AFTER PLACEMENT AND PARTIAL BACKFILLING.
D. REMOVE UPPER THIRD OF BURLAP FROM BALLED AND BURLAPPED TREES AFTER PLACEMENT.
E. PLACE PLANT UPRIGHT AND PLUMB IN CENTER OF HOLE. ORIENT PLANTS FOR BEST APPEARANCE.
F. SET PLANTS WITH TOP OF ROOT BALLS FLUSH WITH ADJACENT GRADE AFTER COMPACTION. ADJUST PLANT HEIGHT IF SETTLEMENT OCCURS AFTER BACKFILLING.
G. BACKFILL HOLES IMMEDIATELY AFTER PLANT IS PLACED USING BACKFILL MIX. BACKFILL TO ONE HALF DEPTH, FILL HOLE WITH WATER AND LIGHTLY TAMP SOIL TO REMOVE VOIDS AND AIR POCKETS.
H. TRIM PLANTS TO REMOVE DEAD AND INJURED BRANCHES ONLY. BRACE PLANTS OVER 65 GALLONS IN SIZE.
I. MULCH TO THE TOP OF THE ROOT BALL. DO NOT PLANT GRASS ALL THE WAY TO TRUNK OF THE TREE. MULCH WITH AT LEAST 2" OF SPECIFIED MULCH.
J. DO NOT WRAP TREES.
K. DO NOT OVER PRUNE.
L. BLOCKS OF SOD SHOULD BE LAID JOINT TO JOINT AFTER FERTILIZING THE GROUND FIRST. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE. THE JOINTS BETWEEN BLOCKS SHOULD BE FILLED WITH TOPSOIL AND THEN WATERED THOROUGHLY.

3.4 STEEL EDGING

A. STEEL EDGING SHALL BE INSTALLED AND ALIGNED AS INDICATED ON PLANS. OWNER'S REPRESENTATIVE TO APPROVE THE STAKED OR PAINTED LOCATION OF STEEL EDGE PRIOR TO INSTALLATION
B. ALL STEEL EDGING SHALL BE FREE OF BENDS OR KINKS.
C. TOP OF EDGING SHALL BE 1/2" MAXIMUM HEIGHT ABOVE FINAL FINISHED GRADE.
D. STAKES ARE TO BE INSTALLED ON THE PLANTING BED SIDE OF THE EDGING, NOT THE GRASS SIDE.
E. STEEL EDGING SHALL NOT BE INSTALLED ALONG SIDEWALKS OR CURBS.
F. EDGING SHOULD BE CUT AT A 45 DEGREE ANGLE WHERE IT MEETS SIDEWALKS OR CURBS.

3.5 CLEANUP

A. REMOVE CONTAINERS, TRASH, RUBBISH AND EXCESS SOILS FROM SITE AS WORK PROGRESSES.
B. REPAIR RUTS, HOLES AND SCARES IN GROUND SURFACES.
C. PREMISES SHALL BE KEPT NEAT AT ALL TIMES AND ORGANIZED.
D. ALL PAVED AREAS SHOULD BE CLEANED AT THE END OF EACH WORK DAY.

3.6 ACCEPTANCE

A. ENSURE THAT WORK IS COMPLETE AND PLANT MATERIALS ARE IN VIGOROUS AND HEALTHY GROWING CONDITION.
B. UPON COMPLETION OF THE WORK, THE LANDSCAPE CONTRACTOR SHALL PROVIDE THE SITE CLEAN, FREE OF DEBRIS AND TRASH, AND SUITABLE FOR USE AS INTENDED. THE LANDSCAPE CONTRACTOR SHALL THEN REQUEST AN INSPECTION BY THE OWNER TO DETERMINE FINAL ACCEPTABILITY.
C. WHENIF THE INSPECTED PLANTING WORK DOES NOT COMPLY WITH THE CONTRACT DOCUMENTS, THE LANDSCAPE CONTRACTOR SHALL REPLACE AND/OR REPAIR THE REJECTED WORK TO THE OWNER'S SATISFACTION WITHIN 24 HOURS.
D. THE LANDSCAPE MAINTENANCE PERIOD WILL NOT COMMENCE UNTIL THE LANDSCAPE WORK HAS BEEN RE-INSPECTED BY THE OWNER AND FOUND TO BE ACCEPTABLE. AT THAT TIME, A WRITEN NOTICE OF FINAL ACCEPTANCE WILL BE ISSUED BY THE OWNER, AND THE MAINTENANCE AND GUARANTEE PERIODS WILL COMMENCE.

SP2017-034 (Alliance Addition Lot 2): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Mike Whittle of Whittle Development, Inc. on behalf of Randall Noe of N&H Legacy Partners for the approval of a site plan for an office buildings on 0.55-acre tract of land identified as Lot 3, Block 2, Alliance Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, addressed as 6530 Alliance Drive.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-034) in the lower right hand corner of all pages on future submittals.

M.4 Site Plan. Please provide site data table as shown on landscape plan

M.5 Site Plan. Please note that the required parking is 17 spaces.

M.6 Site Plan. Please indicate pavement thickness.

M.7 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.8 Photometric. Please provide FC grid on photometric plan and cut sheets.

M.9 Building Elevations. Please label all mechanical equipment (dashline on elevations) and how these will be screened from view.

M.10 Building Elevations. Please provide specific materials on building elevations.

M.11 Building Elevations. Please provide dimensions on North and West Elevations

M.12 Building Elevations. Please indicate the elevation that faces the street.

I.13 The Architectural Review Board (ARB) meeting for this case will be held on October 24, 2016 at 5:00 p.m.

I.14 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 7, 2016. The Planning and ZoningWorksession for this case will be October 24, 2014 at 6:00 p.m. The Architectural Review Board meeting is October 24, 2017 at 5:00. The Planning and Zoning Meeting will be November 14, 2017. A representative is required to attend all meetings.

I.15 If necessary the projected City Council meeting date for this case will be November 20, 2017.

SP2017-035 (Rockwall Market Center East): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Johnathan Kerby of Kimley-Horn & Associates, Inc. on behalf of Harold E. Weinberger & Elana Kroll for the approval of a site plan for a retail/restaurant strip center on a 1.6123-acre parcel of land identified as Lot 2, Block A, Rockwall Market Center East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 819 E. IH-30.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-035) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Commercial (C) District and situated in the IH-30 Overlay (IH-30 OV) District.

M.6 Site Plan. Radii seem to be missing from the entrance.

M.7 Site Plan. Please show centerline of IH-30 service road.

M.8 Site Plan. Please note that the required accessible spaces is 3.

M.9 Site Plan. Please note that the proposed location of the monument sign is located in an easement. No structures area allowed in easements.

M.10 Site Plan. The sidewalk in front if the building seems to be missing the hatch pattern.

M.11 Site Plan. Please show location of all fire hydrants

M.12 Site Plan. Please provide elevation of dumpster enclosure. Note that in an overlay district, the enclosure is 8-feet high.

M.13 Landscape Plan. Please correct the accessible spaces to '3' on the Site Data Table.

M.14 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.15 Treescape Plan. Any Oak 4 caliper inches or greater is considered to be a feature tree and requires approval from the Planning and Zoning Commission.

M.16 Treescape Plan. Please provide the Site Data Table.

M.17 Photometric. Please provide a photometric plan and cut sheets.

M.18 Building Elevations. Please label all roof mounted mechanical equipment (dashline on elevations) and how these will be screened from view.

M.19 Building Elevations. The Architectural Review Board (ARB) may ask for actual material samples.

M.20 Building Elevations. Please provide elevations for all 4 sides.

M.21 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.22 Building Elevations. Please indicate the elevation that faces the street.

M.23 Building Elevations. Your note states "materials and proposed architectural design is conceptual." When you submit your materials and elevations, those are the materials and elevations that are being approved. Any changes would require an amended site plan.

I.24 The Architectural Review Board (ARB) meeting for this case will be held on October 24, 2016 at 5:00 p.m.

I.25 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 7, 2016. The Planning and Zoning Worksession for this case will be October 24, 2014 at 6:00 p.m. The Architectural Review Board meeting is October 24, 2017 at 5:00. The Planning and Zoning Meeting will be November 14, 2017. A representative is required to attend all meetings.

I.26 If necessary the projected City Council meeting date for this case will be November 20, 2017.

9. PROVIDE GRASS SEEDING OR LAY BERMUDA SOD FOR PROPOSED LAWN AREAS TO ALL EDGES OF PAVEMENT AND/ OR LIMITS OF DISTURBANCE OUTSIDE R.O.W. OR PROPOSED LANDSCAPE EASEMENT.
10. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING UNTIL FINAL ACCEPTANCE. ALL REQUIRED LANDSCAPING SHALL BE MAINTAINED IN A NEAT AND ORDERLY MANNER AT ALL TIMES. THE WORK SHALL INCLUDE, BUT NOT TO BE LIMITED TO, MOWING, EDGING, PRUNING, FERTILIZING, WATERING, WEEDING, AND OTHER SUCH ACTIVITIES COMMON TO THE MAINTENANCE OF LANDSCAPING. ALL PLANT MATERIALS SHALL BE MAINTAINED IN A HEALTHY AND GROWING CONDITION AS IS APPROPRIATE FOR THE SEASON OF THE YEAR, PLANT MATERIAL THAT DIES SHALL BE REPLACED WITH THE PLANT MATERIAL OF SIMILAR SIZE AND VARIETY.
11. CONTRACTOR SHALL WARRANTY PLANT MATERIAL TO REMAIN ALIVE AND HEALTHY FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE. WARRANTY SHALL NOT INCLUDE DAMAGE FOR LOSS OF PLANT MATERIAL DUE TO NATURAL CAUSES, ACTS OF VANDALISM OR NEGLIGENCE ON THE PART OF THE OWNER.
12. ALL DISTURBED AREAS WITHIN LIMITS OF CONSTRUCTION NOT CALLED TO BE SODDED, SHALL BE REESTABLISHED WITH BERMUDA SOD.
13. ALL LANDSCAPE BED AREAS TO BE PREPARED USING "READY TO PLANT BEDDING MIX" BY SOIL BUILDING SOLUTIONS (OR APPROVED EQUAL). INSTALL TO DEPTHS, PER PLANTING DETAILS (12" DEPTH MIN.) FINISHED GRADES OF PLANTING BEDS TO BE 2" BELOW FINISHED GRADE OF ADJACENT PAVING OR AS SHOWN ON GRADING PLAN.
14. ALL SOD AREAS TO RECEIVE 4" DEPTH (MIN) TOPSOIL PRIOR TO INSTALLATION. ALL PLANTING AREAS TO RECEIVE 24" DEPTH (MIN) OF TOPSOIL. TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, pH RANGE OF 5.5-7.4, AND FREE OF TRASH, DEBRIS, STONES, WEEDS, AND TWIGS/BRANCHES.

AN AUTOMATIC IRRIGATION SYSTEM SHALL BE PROVIDED TO MAINTAIN ALL LANDSCAPE AREAS AND MEET THE REQUIREMENTS OF THE UDC. OVER SPRAY ON STREETS AND WALKS IS PROHIBITED. A PERMIT FROM THE BUILDING INSPECTION DEPARTMENT IS REQUIRED FOR EACH IRRIGATION SYSTEM. IMPACT FEES MUST BE PAID TO THE DEVELOPMENT SERVICES DEPARTMENT FOR SEPARATE IRRIGATION METERS PRIOR TO ANY PERMIT RELEASE.

NOTE: PLANT QUANTITIES ARE PROVIDED FOR CONVENIENCE ONLY. IN THE CASE OF A DISCREPANCY, THE DRAWING SHALL TAKE PRECEDENCE.

NOTE: PLANTS ARE SPECIFIED BY HEIGHT AND SPREAD, NOT CONTAINER SIZE. ALL PLANTINGS ARE EXPECTED TO MEET ALL SPECIFICATIONS PROVIDED.

GENERAL LANDSCAPE SPECIFICATIONS AND NOTES

A. SCOPE OF WORK

1. THE WORK CONSISTS OF FURNISHING ALL LABOR, MATERIALS, EQUIPMENT, TOOLS, TRANSPORTATION, AND ANY OTHER APPURTENANCES NECESSARY FOR THE COMPLETION OF THIS PROJECT AS SHOWN ON THE DRAWINGS, AS INCLUDED IN THE PLANT LIST, AND AS HEREIN SPECIFIED.

2. WORK SHALL INCLUDE MAINTENANCE AND WATERING OF ALL PLANTING AREAS OF THIS CONTRACT UNTIL CERTIFICATION OF ACCEPTABILITY BY THE OWNER.

B. PROTECTION OF EXISTING STRUCTURES

ALL EXISTING BUILDINGS, WALKS, WALLS, PAVING, PIPING, AND OTHER ITEMS OF CONSTRUCTION AND PLANTING ALREADY COMPLETED OR ESTABLISHED SHALL BE PROTECTED FROM DAMAGE BY THIS CONTRACTOR UNLESS OTHERWISE SPECIFIED. ALL DAMAGE RESULTING FROM NEGLIGENCE SHALL BE REPAIRED OR REPLACED TO THE SATISFACTION OF THE OWNER.

C. PROTECTION OF EXISTING PLANT MATERIALS OUTSIDE LIMIT OF WORK

THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UNAUTHORIZED CUTTING OR DAMAGE TO TREES AND SHRUBS EXISTING OR OTHERWISE, CAUSED BY CARELESS OPERATION OF EQUIPMENT, STOCKPILING OF MATERIALS, ETC. THIS SHALL INCLUDE COMPACTION BY DRIVING OR PARKING INSIDE THE DRIP-LINE OR THE SPILLING OF OIL, GASOLINE, OR OTHER DELETERIOUS MATERIALS WITHIN THE DRIP-LINE. NO MATERIALS SHALL BE BURNED WHERE THE HEAT WILL DAMAGE ANY PLANT. TREES KILLED OR DAMAGED SO THAT THEY ARE MISSHAPEN AND/ OR UNSIGHTLY SHALL BE REPLACED AT THE COST TO THE CONTRACTOR OF ONE HUNDRED DOLLARS ($100) PER CALIPER INCH ON AN ESCALATING SCALE WHICH ADDS AN ADDITIONAL TWENTY (20) PER CENT PER INCH OVER FOUR (4) INCHES CALIPER AS FIXED AND AGREED LIQUIDATED DAMAGES. CALIPER SHALL BE MEASURED SIX (6) INCHES ABOVE GROUND LEVEL FOR TREES UP TO AND INCLUDING FOUR (4) INCHES IN CALIPER AND TWELVE (12) INCHES ABOVE GROUND LEVEL FOR TREES OVER FOUR (4) INCHES IN CALIPER.

D. MATERIALS

1. GENERAL

SAMPLES OF MATERIALS AS LISTED BELOW SHALL BE SUBMITTED FOR APPROVAL, ON THE SITE OR AS OTHERWISE DETERMINED BY THE OWNER. UPON APPROVAL OF SAMPLES, DELIVERY OF MATERIALS MAY BEGIN.

MATERIALS	SAMPLES
MULCH	ONE (1) CUBIC FOOT
TOPSOIL	ONE (1) CUBIC YARD
PLANTS	ONE (1) OF EACH VARIETY

2. PLANT MATERIALS

A. PLANT SPECIES AND SIZE SHALL CONFORM TO THOSE INDICATED ON THE DRAWINGS. NOMENCLATURE SHALL CONFORM TO STANDARDIZED PLANT NAMES, 1942 EDITION. ALL NURSERY STOCK SHALL BE IN ACCORDANCE WITH GRADES AND STANDARDS AS STATED IN THE LATEST EDITION OF "AMERICAN STANDARD FOR NURSERY STOCK" BY THE AMERICAN ASSOCIATION OF NURSERYMEN. ALL PLANTS SHALL BE FRESHLY DUG, SOUND, HEALTHY, VIGOROUS, WELL-BRANCHED AND FREE OF DISEASE AND INSECTS, INSECT EGGS AND LARVAE AND SHALL HAVE ADEQUATE ROOT SYSTEMS. TREES FOR PLANTING IN ROWS SHALL BE UNIFORM IN SIZE AND SHAPE. ALL MATERIALS SHALL BE SUBJECT TO APPROVAL BY THE OWNER. WHERE ANY REQUIREMENTS ARE OMITTED FROM THE PLANT LIST, THE PLANTS FURNISHED SHALL BE NORMAL FOR THE VARIETY. PLANTS SHALL BE PRUNED PRIOR TO DELIVERY ONLY UPON THE APPROVAL OF THE OWNER.

B. MEASUREMENTS: THE HEIGHT AND/OR WIDTH OF TREES SHALL BE MEASURED FROM THE GROUND OR ACROSS THE NORMAL SPREAD OF BRANCHES WITH THE PLANTS IN THEIR NORMAL POSITION. THIS MEASUREMENT SHALL NOT INCLUDE THE IMMEDIATE TERMINAL GROWTH. PLANTS LARGER IN SIZE THAN THOSE SPECIFIED IN THE PLANT LIST MAY BE USED IF APPROVED BY THE OWNER. IF THE USE OF LARGER PLANTS IS APPROVED, THE BALL OF EARTH OR SPREAD OF ROOTS SHALL BE INCREASED IN PROPORTION TO THE SIZE OF THE PLANT.

C. INSPECTION: PLANTS SHALL BE SUBJECT TO INSPECTION AND APPROVAL AT THE PLACE OF GROWTH, OR UPON DELIVERY TO THE SITE, AS DETERMINED BY THE OWNER, FOR QUALITY, SIZE, AND VARIETY; SUCH APPROVAL SHALL NOT IMPAIR THE RIGHT OF INSPECTION AND REJECTION AT THE SITE DURING PROGRESS OF THE WORK OR AFTER COMPLETION FOR SIZE AND CONDITION OF BALLS OR ROOTS, LATENT DEFECTS OR INJURIES. REJECTED PLANTS SHALL BE REMOVED IMMEDIATELY FROM THE SITE. NOTICE REQUESTING INSPECTION SHALL BE SUBMITTED IN WRITING BY THE CONTRACTOR AT LEAST ONE (1) WEEK PRIOR TO ANTICIPATED DATE.

E. TOPSOIL

1. ASTM D5268, NATURAL, FRIABLE, FERTILE, FINE LOAMY SOIL POSSESSING CHARACTERISTICS OF REPRESENTATIVE TOPSOIL IN THE VICINITY THAT PRODUCES HEAVY GROWTH. TOPSOIL SHALL HAVE A PH RANGE OF 5.5 TO 7.4 PERCENT, FREE FROM SUBSOIL, OBJECTIONABLE WEEDS, LITTER, SODS, STIFF CLAY, STONES LARGER THAN 4-INCH IN DIAMETER, STUMPS, ROOTS, TRASH, HERBICIDES, TOXIC SUBSTANCES, OR ANY OTHER MATERIAL WHICH MAY BE HARMFUL TO PLANT GROWTH OR HINDER PLANTING OPERATIONS. TOP SOIL SHALL CONTAIN A MINIMUM OF THREE PERCENT ORGANIC MATERIAL.

2. SALVAGED OR EXISTING TOPSOIL: REUSE SUITABLE TOPSOIL STOCKPILED ON-SITE OR EXISTING TOPSOIL UNDISTURBED BY GRADING OR EXCAVATION OPERATIONS. CLEAN TOPSOIL OF ROOTS, PLANTS, SOD, STONES, CLAY LUMPS, AND OTHER EXTRANEOUS MATERIALS HARMFUL TO PLANT GROWTH.

3. VERIFY AMOUNT OF SUITABLE TOPSOIL STOCKPILED IF ANY, AND SUPPLY ADDITIONAL IMPORTED TOPSOIL AS NEEDED. FOUR (4) INCHES OF TOPSOIL TO BE PROVIDED FOR ALL TURF AREAS. TWENTY FOUR (24) INCHES OF TOPSOIL TO BE PROVIDED FOR ALL PLANTING BEDS.

4. IMPORTED TOPSOIL: SUPPLEMENT SALVAGED TOPSOIL WITH IMPORTED TOPSOIL FROM OFF-SITE SOURCES WHEN EXISTING QUANTITIES ARE INSUFFICIENT.

5. OBTAIN TOPSOIL DISPLACED FROM NATURALLY WELL-DRAINED SITES WHERE TOPSOIL OCCURS AT LEAST 6 INCHES DEEP; DO NOT OBTAIN FROM AGRICULTURAL LAND, BOGS, OR MARSHES.

6. VERIFY BORROW AND DISPOSAL SITES ARE PERMITTED AS REQUIRED BY STATE AND LOCAL REGULATIONS. OBTAIN WRITTEN CONFIRMATION THAT PERMITS ARE CURRENT AND ACTIVE.

7. OBTAIN PERMITS REQUIRED BY STATE AND LOCAL REGULATIONS FOR TRANSPORTING TOPSOIL. PERMITS SHALL BE CURRENT AND ACTIVE.

8. AMEND EXISTING AND IMPORTED TOPSOIL AS INDICATED BELOW.

F. ORGANIC SOIL AMENDMENTS

1. MANURE: WELL-ROTTED, UNLEACHED, STABLE OR CATTLE MANURE CONTAINING NOT MORE THAN 25 PERCENT BY VOLUME OF STRAW, SAWDUST, OR OTHER BEDDING MATERIALS; FREE OF TOXIC SUBSTANCES, STONES, STICKS, SOIL, WEED SEED, AND MATERIAL HARMFUL TO PLANT GROWTH.

2. BACK TO NATURE COTTON BURR COMPOST OR APPROVED EQUIVALENT.

3. COMPOST: DECOMPOSED ORGANIC MATERIAL INCLUDING LEAF LITTER, MANURE, SAWDUST, PLANT TRIMMINGS AND/OR HAY, MIXED WITH SOIL.

4. PECAN HULLS: COMPOSTED PECAN HULLS FOR LOCAL SOURCE.

5. BIOSOLIDS: USE GRADE 1 CONTAINING LOWER PATHOGEN LEVELS.

6. WORM CASTINGS: EARTHWORMS.

G. INORGANIC SOIL AMENDMENTS

1. LIME: ASTM C602, CLASS O AGRICULTURAL LIMESTONE CONTAINING A MINIMUM OF 80 PERCENT CALCIUM CARBONATE EQUIVALENT WITH A MINIMUM OF 95 PERCENT PASSING NO. 8 SIEVE AND MINIMUM OF 55 PERCENT PASSING NO. 60 SIEVE.

2. SULFUR: GRANULAR, BIODEGRADABLE, CONTAINING A MINIMUM OF 90 PERCENT SULFUR, WITH A MINIMUM OF 99 PERCENT PASSING NO. 6 SIEVE AND A MAXIMUM OF 10 PERCENT PASSING NO. 40 SIEVE.

3. IRON SULFATE: GRANULATED FERROUS SULFATE CONTAINING A MINIMUM OF 20 PERCENT IRON AND 10 PERCENT SULFUR.

4. AGRICULTURAL GYPSUM: FINELY GROUND, CONTAINING A MINIMUM OF 90 PERCENT CALCIUM SULFATE.

5. SAND: CLEAN, WASHED, NATURAL OR MANUFACTURED, FREE OF TOXIC MATERIALS.

H. PLANTING SOIL MIX

1. PLANTING MEDIUM CONTAINING 75 PERCENT SPECIFIED TOPSOIL MIXED WITH 15 PERCENT ORGANIC SOIL AMENDMENTS AND 10 PERCENT SHARP WASHED SAND. INSTALL TO DEPTHS, PER PLANTING DETAILS (12" MIN.) FINISHED GRADES OF PLANTING BEDS TO BE 2" BELOW FINISHED GRADE OF ADJACENT PAVING OR AS SHOWN ON GRADING PLAN.

2. SOD/SEED AREA TOPSOIL

ALL SOD AREAS TO RECEIVE 4" DEPTH (MIN) TOPSOIL PRIOR TO INSTALLATION. TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, WITH 25% (MIN.) ORGANIC MATERIAL AND FREE OF TRASH, DEBRIS, STONES, WEEDS, AND TWIGS/BRANCHES. THE PARTICLE SIZES SHALL BE SUCH THAT 98.5% OF THE TOPSOIL WILL PASS THROUGH A 1/2 INCH SCREEN, AND 99% MORE SHALL PASS THROUGH A 3/4 INCH SCREEN. TOPSOIL SHALL BE REVIEWED/APPROVED BY OWNER/LANDSCAPE ARCHITECT PRIOR TO INSTALLATION. CONTRACTOR TO SUBMIT SAMPLES IN 1 GAL (MIN.) CONTAINER.

I. WATER

WATER NECESSARY FOR PLANTING AND MAINTENANCE SHALL BE OF SATISFACTORY QUALITY TO SUSTAIN AN ADEQUATE GROWTH OF PLANTS AND SHALL NOT CONTAIN HARMFUL, NATURAL OR MAN-MADE ELEMENTS DETRIMENTAL TO PLANTS. WATER MEETING THE ABOVE STANDARD SHALL BE OBTAINED ON THE SITE FROM THE WATER, IF AVAILABLE, AND THE CONTRACTOR SHALL BE RESPONSIBLE TO MAKE ARRANGEMENTS FOR ITS USE BY HIS TANKS, HOSES, SPRINKLERS, ETC. IF SUCH WATER IS NOT AVAILABLE AT THE SITE, THE CONTRACTOR SHALL PROVIDE SUCH SATISFACTORY WATER FROM SOURCES OFF THE SITE AT NO ADDITIONAL COST TO THE OWNER.

J. COMMERCIAL FERTILIZER

COMMERCIAL FERTILIZER SHALL BE A COMPLETE FORMULA. IT SHALL BE UNIFORM IN COMPOSITION, DRY AND FREE FLOWING. THIS FERTILIZER SHALL BE DELIVERED TO THE SITE IN THE ORIGINAL UNOPENED CONTAINERS, EACH BEARING THE MANUFACTURER'S GUARANTEED STATEMENT OF ANALYSIS.

FIFTY PERCENT (50%) OF THE NITROGEN SHALL BE DERIVED FROM NATURAL ORGANIC SOURCES. THE FOLLOWING FERTILIZERS SHALL BE USED AND APPLIED AT RATES AS SUGGESTED BY MANUFACTURER'S SPECIFICATIONS:

1. SHRUBS AND TREES - MILORGANITE, OR APPROVED EQUAL
2. ANNUALS AND GROUNDCOVERS - OSMOCOTE/SIERRA BLEND 14-14-14
3. SOD - 8-8-8 FERTILIZER

IN ADDITION TO SURFACE APPLIED FERTILIZERS, ALL CONTAINER GROWN AND FIELD GROWN PLANT MATERIAL SHALL RECEIVE "AGRIFORM" PLANTING TABLETS 21-10-5 FORMULA, 21 GRAM OR EQUAL. THESE TABLETS SHALL BE PLACED AT A DEPTH OF ROOT BALL AT THE RATE AS SPECIFIED BY MANUFACTURER.

K. MULCH

MULCH MATERIAL SHALL BE MOISTENED AT THE TIME OF APPLICATION TO PREVENT WIND DISPLACEMENT, AND APPLIED AT A DEPTH OF 3 INCHES. SEE PLANT LIST FOR TYPE OF MATERIAL AND GRADE.

L. DIGGING AND HANDLING

1. PROTECT ROOTS OR BALLS OF PLANTS AT ALL TIMES FROM SUN AND DRYING WINDS, WATER AND FREEZING, AS NECESSARY UNTIL PLANTING. PLANT MATERIALS SHALL BE ADEQUATELY PACKED TO PREVENT DAMAGE AND DRYING OUT DURING TRANSIT. TREES TRANSPORTED MORE THAN TEN (10) MILES OR WHICH ARE NOT PLANTED WITHIN THREE (3) DAYS OF DELIVERY TO SITE SHALL BE SPRAYED WITH AN ANTI-TRANSPIRANT PRODUCT ("WILTPRUF" OR EQUAL) TO MINIMIZE TRANSPIRATIONAL WATER LOSS.

2. BALLED AND BURLAPPED PLANTS (B&B) SHALL BE DUG WITH FIRM, NATURAL BALLS OF SOIL OF SUFFICIENT SIZE TO ENCOMPASS THE FIBROUS AND FEEDING ROOTS OF THE PLANTS. NO PLANTS MOVED WITH A BALL SHALL BE PLANTED IF THE BALL IS CRACKED OR BROKEN. PLANTS BALLED AND BURLAPPED OR CONTAINER GROWN SHALL NOT BE HANDLED BY STEMS.

3. PLANTS MARKED "BR" IN THE PLANT LIST SHALL BE DUG WITH BARE ROOTS. THE ROOTS SHALL NOT BE CUT WITHIN THE MINIMUM SPREAD SPECIFIED IN THE PLANT LIST. CARE SHALL BE EXERCISED THAT THE ROOTS DO NOT DRY OUT IN MOVING AND PRIOR TO PLANTING.

4. PROTECTION OF PALMS (IF APPLICABLE): ONLY A MINIMUM OF FRONDS SHALL BE REMOVED FROM THE CROWN OF THE PALM TREES TO FACILITATE MOVING AND HANDLING. CLEAR TRUNK (CT) SHALL BE AS SPECIFIED AFTER THE MINIMUM OF FRONDS HAVE BEEN REMOVED. ALL PALMS SHALL BE BRACED PER DETAIL.

5. EXCAVATION OF TREE PITS SHALL BE DONE USING EXTREME CARE TO AVOID DAMAGE TO SURFACE AND SUBSURFACE ELEMENTS SUCH AS UTILITIES OR HARDSCAPE ELEMENTS, FOOTERS AND PREPARED SUB- BASES.

M. CONTAINER GROWN STOCK

1. ALL CONTAINER GROWN MATERIAL SHALL BE HEALTHY, VIGOROUS, WELL-ROOTED PLANTS AND ESTABLISHED IN THE CONTAINER IN WHICH THEY ARE SOLD. THE PLANTS SHALL HAVE TOPS WHICH ARE OF GOOD QUALITY AND ARE IN A HEALTHY GROWING CONDITION.

2. AN ESTABLISHED CONTAINER GROWN PLANT SHALL BE TRANSPLANTED INTO A CONTAINER AND GROWN IN THAT CONTAINER SUFFICIENTLY LONG FOR THE NEW FIBROUS ROOTS TO HAVE DEVELOPED SO THAT THE ROOT MASS WILL RETAIN ITS SHAPE AND HOLD TOGETHER WHEN REMOVED FROM THE CONTAINER. CONTAINER GROWN STOCK SHALL NOT BE HANDLED BY THEIR STEMS.

3. PLANT ROOTS BOUND IN CONTAINERS SHALL NOT BE ACCEPTABLE.

4. SUBSTITUTION OF NON-CONTAINER GROWN MATERIAL FOR MATERIAL EXPLICITLY SPECIFIED TO BE CONTAINER GROWN WILL NOT BE PERMITTED UNLESS WRITTEN APPROVAL IS OBTAINED FROM THE OWNER AND LANDSCAPE ARCHITECT.

N. COLLECTED STOCK

WHEN THE USE OF COLLECTED STOCK IS PERMITTED AS INDICATED ON THE PLANT LIST SCHEDULE, THE MINIMUM SIZES OF ROOTBALLS SHALL BE EQUAL TO THAT SPECIFIED FOR THE NEXT LARGER SIZE OF NURSERY GROWN STOCK OF THE SAME VARIETY.

O. NATIVE STOCK

PLANTS COLLECTED FROM WILD OR NATIVE STANDS SHALL BE CONSIDERED NURSERY GROWN WHEN THEY HAVE BEEN SUCCESSFULLY REESTABLISHED IN A NURSERY ROW AND GROWN UNDER REGULAR NURSERY CULTURAL PRACTICES FOR A MINIMUM OF TWO (2) GROWING SEASONS AND HAVE ATTAINED ADEQUATE ROOT AND TOP GROWTH TO INDICATE FULL RECOVERY FROM TRANSPLANTING INTO THE NURSERY ROW.

P. MATERIALS LIST

QUANTITIES NECESSARY TO COMPLETE THE WORK ON THE DRAWINGS SHALL BE FURNISHED BY THE CONTRACTOR. QUANTITY ESTIMATES HAVE BEEN MADE CAREFULLY, BUT THE LANDSCAPE ARCHITECT OR OWNER ASSUMES NO LIABILITY FOR OMISSIONS OR ERRORS. SHOULD A DISCREPANCY OCCUR BETWEEN THE BIDDERS TAKE OFF AND THE PLANT LIST QUANTITY, THE LANDSCAPE ARCHITECT SHALL BE NOTIFIED FOR CLARIFICATION PRIOR TO THE SUBMISSIONS OF BIDS. ALL DIMENSIONS AND/OR SIZES SPECIFIED SHALL BE THE MINIMUM ACCEPTABLE SIZE

Q. FINE GRADING

1. FINE GRADING UNDER THIS CONTRACT SHALL CONSIST OF FINAL FINISHED GRADING OF LAWN AND PLANTING AREAS THAT HAVE BEEN ROUGH GRADED BY OTHERS. BERMING AS SHOWN ON THE DRAWINGS SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR, UNLESS OTHERWISE NOTED.

2. THE LANDSCAPE CONTRACTOR SHALL FINE GRADE THE LAWN AND PLANTING AREAS TO BRING THE ROUGH GRADE UP TO FINAL FINISHED GRADE ALLOWING FOR THICKNESS OF SOD AND/OR MULCH DEPTH. THIS CONTRACTOR SHALL FINE GRADE BY HAND AND/OR WITH ALL EQUIPMENT NECESSARY INCLUDING A GRADING TRACTOR WITH FRONT-END LOADER FOR TRANSPORTING SOIL WITHIN THE SITE.

3. ALL PLANTING AREAS SHALL BE GRADED AND MAINTAINED TO ALLOW FREE FLOW OF SURFACE WATER. AREAS ADJACENT TO BUILDINGS SHALL SLOPE AWAY FROM THE BUILDINGS.

R. PLANTING PROCEDURES

1. CLEANING UP BEFORE COMMENCING WORK: THE CONTRACTOR SHALL CLEAN UP WORK AND SURROUNDING AREAS OF ALL RUBBISH OR OBJECTIONABLE MATTER. ALL MORTAR, CEMENT, AND TOXIC MATERIAL SHALL BE REMOVED FROM THE SURFACE OF ALL PLANT BEDS. THESE MATERIALS SHALL NOT BE MIXED WITH THE SOIL. SHOULD THE CONTRACTOR FIND SUCH SOIL CONDITIONS BENEATH THE SOIL WHICH WILL IN ANY WAY ADVERSELY AFFECT THE PLANT GROWTH, HE SHALL IMMEDIATELY CALL IT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT OR OWNER. FAILURE TO DO SO BEFORE PLANTING SHALL MAKE THE CORRECTIVE MEASURES THE RESPONSIBILITY OF THE CONTRACTOR.

2. VERIFY LOCATIONS OF ALL UTILITIES, CONDUITS, SUPPLY LINES AND CABLES, INCLUDING BUT NOT LIMITED TO: ELECTRIC, GAS (LINES AND TANKS), WATER, SANITARY SEWER, STORMWATER LINES, CABLE AND TELEPHONE. PROPERLY MAINTAIN AND PROTECT EXISTING UTILITIES.

3. SUBGRADE EXCAVATION: SITE CONTRACTOR IS RESPONSIBLE TO REMOVE ALL EXISTING AND IMPORTED LIMEROCK AND LIMEROCK SUB-BASE FROM ALL LANDSCAPE PLANTING AREAS TO A MINIMUM DEPTH OF 30". SITE CONTRACTOR IS RESPONSIBLE TO BACKFILL THESE PLANTING AREAS TO ROUGH FINISHED GRADE WITH CLEAN TOPSOIL FROM AN ON-SITE SOURCE OR AN IMPORTED SOURCE. IF LIMEROCK OR OTHER ADVERSE CONDITIONS OCCUR IN PLANTED AREAS AFTER 30" DEEP EXCAVATION BY SITE CONTRACTOR, AND POSITIVE DRAINAGE CAN NOT BE ACHIEVED, LANDSCAPE CONTRACTOR SHALL CONTACT LANDSCAPE ARCHITECT OR OWNER.

4. FURNISH NURSERY'S CERTIFICATE OF COMPLIANCE WITH ALL REQUIREMENTS AS HEREIN SPECIFIED AND REQUIRED. INSPECT AND SELECT PLANT MATERIALS BEFORE PLANTS ARE DUG AT NURSERY OR GROWING SITE.

5. GENERAL: COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK. CONFORM TO ACCEPTED HORTICULTURAL PRACTICES AS USED IN THE TRADE. PLANTS SHALL BE PROTECTED UPON ARRIVAL AT THE SITE BY BEING THOROUGHLY WATERED AND PROPERLY MAINTAINED UNTIL PLANTED. PLANTS SHALL NOT REMAIN UNPROTECTED FOR A PERIOD EXCEEDING TWENTY-FOUR (24) HOURS. AT ALL TIMES WORKMANLIKE METHODS CUSTOMARY IN GOOD HORTICULTURAL PRACTICES SHALL BE EXERCISED.

6. THE WORK SHALL BE COORDINATED WITH OTHER TRADES TO PREVENT CONFLICTS. COORDINATE THE PLANTING WITH THE IRRIGATION WORK TO ASSURE AVAILABILITY OF WATER AND PROPER LOCATION OF IRRIGATION ITEMS AND PLANTS.

7. ALL PLANTING PITS SHALL BE EXCAVATED TO SIZE AND DEPTH IN ACCORDANCE WITH THE USA STANDARD FOR NURSERY STOCK Z60.1, UNLESS SHOWN OTHERWISE ON THE DRAWINGS, AND BACKFILLED WITH THE PREPARED PLANTING SOIL AS SPECIFIED HEREIN BEFORE (SECTION H). TEST ALL TREE PITS WITH WATER BEFORE PLANTING TO ASSURE PROPER DRAINAGE PERCOLATION IS AVAILABLE. NO ALLOWANCE WILL BE MADE FOR LOST PLANTS DUE TO IMPROPER DRAINAGE. IF POOR DRAINAGE EXISTS, UTILIZE PLANTING DETAIL THAT ADDRESSES THIS CONDITION. TREES SHALL BE SET PLUMB AND HELD IN POSITION UNTIL THE PLANTING MIXTURE HAS BEEN FLUSHED INTO PLACE WITH A SLOW, FULL HOSE STREAM. ALL PLANTING SHALL BE PERFORMED BY PERSONNEL FAMILIAR WITH PLANTING PROCEDURE AND UNDER THE SUPERVISION OF A QUALIFIED PLANTING FOREMAN. PROPER "JETTING IN" SHALL BE ASSURED TO ELIMINATE AIR POCKETS AROUND THE ROOTS. "JET STICK" OR EQUAL IS RECOMMENDED.

8. TAKE ALL NECESSARY PRECAUTIONS TO AVOID DAMAGE TO BUILDINGS AND BUILDING STRUCTURES WHILE INSTALLING TREES.

9. SOIL MIXTURE SHALL BE AS SPECIFIED IN SECTION H OF THESE SPECIFICATIONS. IN ADDITION, EACH PLANTING PIT SHALL RECEIVE 21-GRAM "AGRIFORM" PLANTING TABLETS PER MANUFACTURER'S SPECIFICATIONS OR AS FOLLOWS:

- TWO (2) TABLETS PER 1 GAL. PLANT
- THREE (3) TABLETS PER 3 GAL. PLANT
- FOUR (4) TABLETS PER 10 GAL. PLANT
- LARGER MATERIAL - TWO (2) TABLETS PER 1/2" OF TRUNK CALIPER

10. TREES AND SHRUBS SHALL BE SET STRAIGHT AND AT SUCH A LEVEL THAT AFTER SETTLEMENT, THE PLANT CROWN WILL STAND ONE (1) TO TWO (2) INCHES ABOVE GRADE. EACH PLANT SHALL BE SET IN THE CENTER OF THE PIT. PLANTING SOIL MIXTURE SHALL BE BACKFILLED AND THOROUGHLY TAMPED AROUND THE BALL AND SHALL BE SETTLED BY WATER AFTER TAMPING.

11. FILL HOLE WITH SOIL MIXTURE, MAKING CERTAIN ALL SOIL IS SATURATED. TO DO THIS, FILL HOLE WITH WATER AND ALLOW TO SOAK(MINIMUM TWENTY (20) MINUTES, STIRRING IF NECESSARY TO GET SOIL THOROUGHLY WET. PACK LIGHTLY WITH FEET. ADD MORE WET SOIL MIXTURE. DO NOT COVER TOP OF BALL WITH SOIL MIXTURE, ONLY WITH MULCH. ALL BURLAP, ROPE, WIRES, ETC., SHALL BE REMOVED FROM THE SIDES AND TOPS OF BALLS, BUT NO BURLAP SHALL BE PULLED FROM UNDERNEATH.

12. PRUNING: EACH TREE SHALL BE PRUNED TO PRESERVE THE NATURAL CHARACTER OF THE PLANT AS SHOWN ON THE DRAWINGS. ALL SOFT WOOD OR SUCKER GROWTH AND ALL BROKEN(OR BADLY DAMAGED BRANCHES SHALL BE REMOVED WITH A CLEAN CUT.

13. SHRUBS AND GROUND COVER PLANTS SHALL BE EVENLY SPACED IN ACCORDANCE WITH THE DRAWINGS AND AS INDICATED ON THE PLANT LIST. CULTIVATE ALL PLANTING AREAS TO A MINIMUM DEPTH OF 6", REMOVE AND DISPOSE ALL DEBRIS. TILL INTO TOP 4" THE PLANTING SOIL MIX AS SPECIFIED IN SECTION E. THOROUGHLY WATER ALL PLANTS AFTER INSTALLATION.

14. TREE GUYING AND BRACING SHALL BE INSTALLED BY THE LANDSCAPE CONTRACTOR IN ACCORDANCE WITH THE PLANS TO INSURE STABILITY AND MAINTAIN TREES IN AN UPRIGHT POSITION. IF THE LANDSCAPE CONTRACTOR AND OWNER DECIDE TO WAIVE THE TREE GUYING AND BRACING, THE OWNER SHALL NOTIFY THE LANDSCAPE ARCHITECT IN WRITING OF THEIR INTENTIONS AND AGREE TO HOLD HARMLESS THE LANDSCAPE ARCHITECT IN THE EVENT ANY TREES FALL DOWN AND DAMAGE PERSON OR PROPERTY.

15. MULCHING: PROVIDE A THREE (3) INCH MINIMUM LAYER OF SPECIFIED MULCH OVER THE ENTIRE AREA OF EACH SHRUB BED, GROUND COVER AND VINE BED AND TREE PIT.

16. HERBICIDE WEED CONTROL: ALL PLANT BEDS SHALL BE KEPT FREE OF NOXIOUS WEEDS UNTIL FINAL ACCEPTANCE OF WORK. IF DIRECTED BY THE OWNER, "ROUND-UP" SHALL BE APPLIED FOR WEED CONTROL BY QUALIFIED PERSONNEL TO ALL PLANTING AREAS IN SPOT APPLICATIONS PER MANUFACTURER'S PRECAUTIONS AND SPECIFICATIONS. PRIOR TO FINAL INSPECTION, TREAT ALL PLANTING BEDS WITH AN APPROVED PRE-EMERGENT HERBICIDE AT AN APPLICATION RATE RECOMMENDED BY THE MANUFACTURER.

S. LAWN SODDING

1. THE WORK CONSISTS OF LAWN BED PREPARATION, SOIL PREPARATION, AND SODDING COMPLETE, IN STRICT ACCORDANCE WITH THE SPECIFICATIONS AND THE APPLICABLE DRAWINGS TO PRODUCE A GRASS LAWN ACCEPTABLE TO THE OWNER.

2. LAWN BED PREPARATION: ALL AREAS THAT ARE TO BE SODDED SHALL BE CLEARED OF ANY ROUGH GRASS, WEEDS, AND DEBRIS, AND THE GROUND BROUGHT TO AN EVEN GRADE. THE WHOLE SURFACE SHALL BE ROLLED WITH A ROLLER WEIGHING NOT MORE THAN ONE-HUNDRED (100) POUNDS PER FOOT OF WIDTH. DURING THE ROLLING, ALL DEPRESSIONS CAUSED BY SETTLEMENT OF ROLLING SHALL BE FILLED WITH ADDITIONAL SOIL, AND THE SURFACE SHALL BE REGRADED AND ROLLED UNTIL PRESENTING A SMOOTH AND EVEN FINISH THAT IS UP TO THE REQUIRED GRADE.

3. SOIL PREPARATION: PREPARE LOOSE BED FOUR (4) INCHES DEEP. APPLY FERTILIZER AT RATE OF TWENTY (20) POUNDS PER ONE THOUSAND (1000) SQUARE FEET. APPLICATION SHALL BE UNIFORM, UTILIZING APPROVED MECHANICAL SPREADERS. MIX FERTILIZER THOROUGHLY WITH THE SOIL TO A DEPTH OF THREE (3) INCHES. HAND RAKE UNTIL ALL BUMPS AND DEPRESSIONS ARE REMOVED. WET PREPARED AREA THOROUGHLY.

4. SODDING

A. THE CONTRACTOR SHALL SOD ALL AREAS THAT ARE NOT PAVED OR PLANTED AS DESIGNATED ON THE DRAWINGS WITHIN THE CONTRACT LIMITS, UNLESS SPECIFICALLY NOTED OTHERWISE.

B. THE SOD SHALL BE CERTIFIED TO MEET THE STATE PLANT BOARD SPECIFICATIONS, ABSOLUTELY TRUE TO VARIETAL TYPE, AND FREE FROM WEEDS, FUNGUS, INSECTS AND DISEASE OF ANY KIND.

C. SOD PANELS SHALL BE LAID TIGHTLY TOGETHER SO AS TO MAKE A SOLID SODDED LAWN AREA. SOD SHALL BE LAID UNIFORMLY AGAINST THE EDGES OF ALL CURBS AND OTHER HARDSCAPE ELEMENTS, PAVED AND PLANTED AREAS, ADJACENT TO BUILDINGS, A FOUR INCH MULCH STRIP SHALL BE PROVIDED. IMMEDIATELY FOLLOWING SOD LAYING, THE LAWN AREAS SHALL BE ROLLED WITH A LAWN ROLLER CUSTOMARILY USED FOR SUCH PURPOSES, AND

PROTECTED TREES MEASURING 4" - 29" DHB SHALL BE REPLACED WITH CALIPER INCHES EQUAL TO THE TOTAL DIAMETER OF THE TREE(S) REMOVED.
- HACKBERRY AND CEDAR TREES THAT ARE 11" DBH OR LARGER, SHALL BE REPLACED AT 50% OF THE TOTAL CALOPER INCHES BEING REMOVED.

IF THE SITE IS TOO SMALL TO ACCOMMODATE THE NUMBER OF REPLACEMENT TREES REQUIRED, CREDITS CAN BE EARNED FOR TREES PLANTED OTHER AREAS DETERMINED BY THE PARKS AND RECREATION DEPARTMENT. THE LOCATION SHALL BE WITHIN ONE MILE OF THE AREA WHERE THE TREES ARE BEING REMOVED.

TREE REPLACEMENT CREDITS NOT EXCEEDING 20 PERCENT OF THE TOTAL REPLACEMENT INCHES CAN ALSO BE PURCHASED. PAYMENTS OF $125.00 PER CALIPER INCH MAY BE PAID TO THE CITY OF ROCKWALL TREE FUND.
(37.5" x .20 = 7.5"
7.5" x $125 = $937.50 INTO TREE FUND)

TREE REMOVAL

TAG NUMBER	TYPE	CALIPER	STATUS	MITIGATION
5151	CYPRESS	16"	PROTECTED	16"
5045	CEDAR	15"	PROTECTED	7.5"
5101	ELM	6"	PROTECTED	6"

REPLACEMENT TREE CALCULATION

REPLACEMENT INCHES (3 TREES):	30"
REPLACEMENT INCHES (CEDAR)	7.5"
TOTAL REPLACEMENT INCHES	37.5"
REPLACEMENT INCHES - TREE CREDITS ($937.50 INTO TREE FUND)	37.5" - 7.5" = 30"
REPLACEMENT TREES REQUIRED (4" CAL) 30" / 4" = 7.5 REPLACEMENT TREES	8 TREES
REPLACEMENT TREES ON SITE (4" CAL TREES)	8 TREES

TREE PRESERVATION/ REMOVAL NOTES:

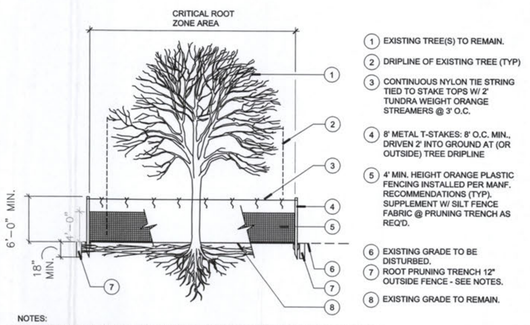
1. CONTRACTOR SHALL COORDINATE WITH ISA CERTIFIED ARBORIST AND PROPERTY OWNERS TO VERIFY OBJECTIVES PRIOR TO COMMENCING ANY PRUNING OR TREE REMOVAL ACTIVITIES.

2. ALL CREW MEMBERS SHOULD BE WEARING THE APPROPRIATE SAFETY GEAR: HARD HATS, EYE PROTECTION, APPROVED BOOTS, HEARING PROTECTION, CHAIN SAW CHAPS FOR GROUNDWORK.

3. ANY TREES REMOVED, AND ALL TREE MATERIALS REMOVED SHALL BE REMOVED FROM THE PROPERTY AT THE CONTRACTOR'S EXPENSE.

4. ALL TRASH AND DEBRIS FROM ANY CONSTRUCTION RELATED ACTIVITIES SHALL BE REMOVED FROM THE SITE AT THE CONTRACTOR'S EXPENSE, FOLLOWING COMPLETION OF THE PROJECT.

5. ANY DAMAGE TO THE EXISTING LANDSCAPE, PAVEMENT, BUILDING, OR ANY OTHER SITE FEATURES SHALL BE REPLACED BY THE CONTRACTOR AND/OR RESTORED TO PRE-CONSTRUCTION CONDITION.



NOTES:
1. PERFORM ROOT PRUNING ON ALL EXISTING TREES TO REMAIN WHERE CONSTRUCTION ACTIVITY FALLS WITHIN DRIP LINE OF EXISTING TREES.
2. ROOT PRUNING METHOD: 2 MONTHS MIN. PRIOR TO EXCAVATION & CONSTRUCTION ACTIVITIES, HAND CUT ROOTS BY DIGGING A 18"-24" DEEP x 8" WIDE TRENCH ALONG THE OUTSIDE PERIMETER OF EXISTING TREE(S) ADJACENT TO CONSTRUCTION AREAS. MAXIMIZE PRUNING TRENCH DISTANCE FROM TRUNK TO THE FULLEST EXTENT POSSIBLE, W/ THE ROOT PRUNING LINE PLACED @ THE EDGE OF CONSTRUCTION LIMITS.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 24, 2017
6:00 P.M.

I. CALL TO ORDER

Chairman Lyons called the meeting to order at 6:03p.m. The Commissioners present at the meeting were, Eric Chodun, Annie Fishman, Jerry Welch and Tracey Logan. Commissioners absent were Mark Moeller and Patrick Trowbridge. Staff members present were Planning Director, Ryan Miller, Senior Planner David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, Civil Engineers Jeremy White and Sarah Hager.

II. CONSENT AGENDA

1. Approval of Minutes for the October 10, 2017 Planning and Zoning Commission meeting.

2. P2017-056

Discuss and consider a request by Rich Houston on behalf of R. Fifty Green Homes, LLC for the approval of an amending plat for Lots 3 & 4, Block A, Solar Village Addition, containing six (6) single family lots on a 2.055-acre tract of land identified as Lots 1-6, Block A, Solar Village Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, located directly west of the intersection of Williams Street (*SH-66*) and Caruth Lane, and take any action necessary.

Commissioner Chodun made a motion to approve the consent agenda. Commissioner Fishman seconded the motion which passed by a vote of 5-0 with Commissioners Moeller and Trowbridge absent.

III. APPOINTMENTS

3. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

4. Appointment with Bart Tinsley of Rockwall SIL, LLC to consider a request to submit a new zoning application for a zoning change from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and memory care facility on a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code, and take any action necessary.

Senior Planner David Gonzales advised the Commission that the applicant is seeking approval to bring forth a new zoning application. The City Council denied the original application in July of this year for a multi-family complex located on Townsend Drive without prejudice which means if there is a substantial enough change to the application, the applicant can then come forward and request to submit, upon approval of the Planning and Zoning Commission a new application. The applicant has made a change to their project it will still be a multi-family apartment complex however they have now included a memory care facility as well as reducing the height of the building for the multi-family unit. The applicant has indicated that they feel that changing the height from the four stories to a three story and introducing the memory care facility that that initiates a substantial enough change to allow for a new application to be submitted.

Mr. Gonzales advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Tim Ohanlon
724 Dane Road
Van Alstyle TX

Mr. Ohanlon came forward and gave a brief explanation of the request and provided a power pointe that detailed the changes that they are proposing. He spoke of having taken into consideration the concerns that the City Council had, and they feel they have made substantial positive changes to the concept to move forward with a new application. He respectfully asked the Commission for approval.

Chairman Lyons asked how many units would be lost by going to a three story instead of a four story building. Mr. Ohanlon stated they are losing approximately 30 units, going from 174 units to 144 units with the change.

Commissioner Chodun asked how the memory care facility would operate and would there be an age restriction to the memory care. Mr. Ohanlon stated there would be no age restriction and the memory care facility would operate separate from the independent living with a team and staff that would specifically handle that end of it.

Commissioner Logan asked concerning the walking trail. Mr. Ohanlon stated they still plan to incorporate the park with the parking trail however it will be on a smaller scale; however it will still be a very nice amenity.

Commissioner Welch made a motion to approve the applicants request for resubmittal of a new application. Commissioner Fishman seconded the motion which passed by a vote of 5-0 with Commissioners Moeller and Trowbridge absent.

5. Appointment with Trent Hyde to consider a request to submit a new zoning application for a Specific Use Permit (SUP) to allow for a detached garage on a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code, and take any action necessary.

Planner, Korey Brooks, advised the Commission that the applicant is seeking to submit a new zoning application for a Specific Use Permit to allow for a detached garage. The original request to allow a Specific Use Permit to allow for an approximately 700 square feet metal accessory building was denied by the City Council October 16th of this year. Since then the applicant has made some changes to his request and is now requesting for detached garage. The main difference between an accessory building and a detached garage is that a detached garage requires an engineered foundation or a concrete slab and driveway. The new request is for a 700 square foot detached garage which is allowed by right in the subject property zoning. In this case the SUP being requested would be to allow for the structure to be clad with hardy board instead of masonry as the main structure. Additionally, originally the applicant had a second 200 square foot accessory building that was located near the front of the property which he is now proposing to relocate to the rear of his property. According to the UDC if an application is denied with prejudice, the applicant could submit a new application within one year if he meets one of two criteria; one being that the request is more restricted or less intense and secondly, if there is a change in conditions that are substantial to the zoning district. Staff has determined that the changes the applicant has brought forward are substantial enough to bring it before the Commission to determine if they feel there is substantial enough change to allow the applicant to resubmit a new application.

Mr. Brooks advised the Commission that the applicant was present and was available for questions as well as staff.

Commissioner Fishman asked staff to elaborate as to what the concerns City Council had to deny the original request. Planning Director, Ryan Miller, explained that Council expressed concern with allowing a metal building of that size in a residential district, however the applicant is now requesting to clad with hardy plank to make the structure more substantial.

Chairman Lyons asked the applicant to come forward.

Trent Hyde
218 W. Quail Run
Rockwall, TX

Mr. Hyde came forward and explained that with the original request he brought forward and referred to it as a "barn" whereas he should have called it a detached garage. He explained that the purpose for it will be to store vehicles and tractors and will be on a cement slab with hardy board siding that will match the house; he will make sure it looks good and compliments his house. He respectfully asked the Commission for their approval.

Chairman Lyons brought the item back to the Commission for discussion or a motion.

Commissioner Welch made a motion to approve the applicants request for resubmittal of a new application. Commissioner Logan seconded the motion which passed by a vote of 5-0 with Commissioners Moeller and Trowbridge absent.

IV. PUBLIC HEARING

6. Z2017-043
Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Stone Creek Balance, LTD for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary [*Request to Postpone to November 14, 2017*].

Planner, David Gonzales, advised the Commission that the applicant is requesting to postpone the case to the November 14th scheduled meeting.

Commissioner Chodun asked if this was the second request the applicant has made to postpone the case. Mr. Gonzales stated that was correct, at the October 24th meeting they requested to postpone due to some site issues they have encountered.

Commissioner Welch made a motion to accept the request to postpone Z2017-043. Commissioner Logan seconded the motion which passed by a vote of 4-1 with Commissioner Chodun dissenting and Commissioners Moeller and Trowbridge absent.

V. ACTION ITEMS

7. P2017-057 **(David)**
Discuss and consider a request by Ed Cavendish of VPS Construction for the approval of a reinstatement request for the preliminary plat for Marina Village in accordance with Section 38-8(f) of the Subdivision Ordinance contained in the Municipal Code of Ordinances, and being a 6.888-acre tract of land, zoned Planned Development District 8 (PD-8), generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], originally approved by City Council on September 21, 1992, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting to reinstate the preliminary plat that the City Council originally approved it in 1992. Whenever a preliminary plat is approved, they have one year in order to final plat the property and then move forward with further constructing documents to continue the process. In this

case, since it was approved nothing happened at that time and the one year did lapse and therefore expiring the plat. The applicants request does not have a substantial change to the preliminary plat, there are some minor changes and staff has taken a look at those and do recommend reinstating the preliminary plat for the period of one year however it will be discretionary to the Planning and Zoning Commission.

Mr. Gonzales advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward.

Mitch Lenamond
Eric Davis Engineering
120 E. Main Street
Forney, TX

Mr. Donovan came forward and stated he is with Eric Davis Engineering and is representing the applicant on the case. He stated they are currently in the design phase of the subdivision and it will be a 33 lot subdivision and the original concept was for 34 lots however it remains substantially similar with a similar layout and complies with the current Planned Development for the property. The reason for the change was due to widening of utility easements.

Chairman Lyons brought the item back to the Commission for discussion or a motion.

Commissioner Chodun made a motion to approve P2017-057. Commissioner Fishman seconded the vote which passed by a vote of 5-0 with Commissioners Moeller and Trowbridge absent.

VI. DISCUSSION ITEMS

8. Z2017-050 **(Korey)**

Hold a public hearing to discuss and consider a request by Jim Albracht of Divine Peace Lutheran Church on behalf of Iris Smith of Rockwall Wedding Chapel for the approval of a Specific Use Permit (SUP) for a church in the Downtown (DT) District on a 0.804-acre tract of land identified as Lots 1-3, Block W and Lots 1-4, Block T, Rockwall OT Addition, City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, addressed as 203 & 305 S. Fannin Street, and take any action necessary.

Planner, Korey Brooks, advised the Commission that the applicant was present and would be presenting the case.

Chairman Lyons asked the applicant to come forward and speak.

Pastor Gunner Ledermann
2434 Hinkinson Lane
Fate, TX

Pastor Ledermann came forward and stated he is the pastor for Divine Peace Church. Mr. Albracht was unable to attend the meeting and he would be representing on his behalf.

Mr. Brooks added that the applicant is requesting to convert the Rockwall Wedding Chapel into a Church which is allowed in the Downtown District with a Specific Use Permit.

Commissioner Welch asked if existing liquor licenses that are close to Downtown would have an impact due to the proximity of a church. Mr. Miller stated that it would on new business coming in trying to obtain a new license they would be required to meet the minimum 300 foot separation, however it being a church it would be measured by right of way, front door to front door and should not interfere with the Downtown Square.

Commissioner Fishman asked if there would be any changes to the outside such as the signage. Pastor Lederman stated they would be changing the signs at some point but not right away and when they do they will keep them under the regulations required by the City. Mr. Brooks added

that if there were any changes to the exterior of the building they would be required to submit a site plan.

Commissioner Chodun asked if they would have adequate parking for a Church use. Mr. Miller explained that there are currently 21 parking spaces on site which makes them close to meeting the onsite parking requirement however staff will verify that.

Commissioner Logan asked if the Wedding Chapel would continue to be in business. Pastor Ledermann stated the Rockwall Wedding Chapel will no longer be in operation, however they as a church may hold a wedding if one of their members wishes to hold one at the Church.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2017-051

Hold a public hearing to discuss and consider a request by Bart Tinsley of Rockwall SIL, LLC on behalf of the owner Don Cameron of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and memory care facility on a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

Senior Planner, David Gonzales, advised the Commission that this case is coming forward since the Commission did make a motion allowing them to resubmit a new application, therefore the applicant had already gone over the case however; staff as well as the applicant is available for any further questions or discussion pertaining to the case.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2017-052

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [*SH-205*] and Mims Road, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting approval of a zoning change he has requested an infrastructure study since there is a change in the zoning from the Heavy Commercial and Commercial to a residential use and could have an impact, and once that infrastructural study is received, the case would then move forward to the Public Hearing portion.

Mr. Gonzales advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Pat Atkins
Saddle Star Development
3076 Hays Lane
Rockwall, TX

Mr. Atkins came forward and stated that he has been working with the Stagliano Family for some years who own the property and in working with the family they have arrived at a plan that has a demand from the builder groups that they work with a utilization of town homes, single family as well as an intermix of Commercial. They feel there is a demand for this type of use. Mr. Atkins explained showing the site plan of the property that the open space and floodplain area works

well with the type of intermix of residential uses with the townhouses in the western section where it would be divided with a roundabout entry which they refer to as the Enclave Villas. The detached single house residential will be to the east adjacent to SH-205, combining with a combination of an amenity center and a clubhouse facility. That will interact with the commercial that they feel will be a usable condition of approximately five acres of the remaining property that will work with the retail and interact with the residential interlinking everything with the properties trail system and sidewalk system. He went on to state that they feel this has been successful in other quadrants of the metroplex with the intermix of attached conditions of townhouses along with the intermix of detached residential and tying in to commercial retail as a group. The Stagliano family partnership has owned the property for over fifteen years where it has been marketed for Commercial use during that time, and feels the proposed use is the optimum use that can be provided for the City.

Mr. Atkins went on to explain that they have received staff comments and are working to address those. He stated he is available for any questions the Commission has.

Chairman Lyons asked what they had in mind concerning the Commercial, would it consist of strip centers type development. Mr. Atkins stated they foresee a retail use of small grocery utilization, dentist or chiropractic office that type uses that will work with the units that they provide in the development and also providing utilization for Meadow Creek if needed on Commercial and retail accessibility.

Commissioner Chodun asked what the anticipated timeline for completion of the entire project. Mr. Atkins explained that it is market driven but they feel the residential would begin first and go quickly and the retail would come along the rooftops probably at the same time because of already established conditions of Meadow Creek to the east with the demand for that, but they anticipate beginning late 2018.

Commissioner Chodun asked concerning the construction equipment that is currently on the property. Mr. Atkins stated that it is a batch plant that is being leased out to a concrete company but that lease is set to expire in June of 2018. As they go through the process that will be eliminated and there will be site evaluations that will need to be done.

Commissioner Welch asked Engineering staff concerning facilities. City Engineer, Amy Williams, explained that an infrastructure study is being conducted and is expected to be completed before the case comes back for the Public Hearing and that will allow them to know what needs to be done concerning the infrastructure. Mr. Gonzales added that they will not move forward with the Public Hearing until the infrastructure study is complete.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

11. Z2017-053 **(Korey)**

Hold a public hearing to discuss and consider a request by Kelly Duncan for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code for a 4.60-acre tract of land identified as Lot 3 of the Rolling Meadows Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 4.0 (SFE-4.0) District, addressed as 2705 Rolling Meadows Drive, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the case stating that the applicant is requesting to construct an accessory building and the purpose for the Specific Use Permit is because they are proposing to build it out of metal and about 400 square feet. According to the UDC properties that are within a Single-Family Estate 4.0 District are allowed two accessory buildings no larger than 225 square feet therefore this SUP would be to allow a larger building made out of metal.

Mr. Brooks advised the Commission the applicant was not present but staff was available for questions.

Commissioner Fishman asked if this would be the only accessory building on the property and where would it be located. Mr. Brooks stated the proposed building would be the only building on the property and will be located behind the main structure to the rear of the property.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

12. Z2017-054 **(Ryan)**

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Article IX, *Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of making general corrections and clarifications to the code, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that around this time last year staff was looking at bringing forward an amendment to the Tree Preservation Ordinance. These changes were initially started by staff in response to a code enforcement case dealing with the indiscriminate clearing of land. Through this case several inconsistencies in the current ordinance where brought to staff's attention, and through the processes of making corrections to clear up these inconsistencies staff identified several other areas of the ordinance in need of updating or clarification. Shortly after the City Council's direction, the Texas Legislature entered into a special session that included two bills that had the potential to affect a municipalities' ability to require/regulate tree preservation. Staff ultimately choose to hold off on bringing the text amendment forward until the end of the special session. Recently through the special session, only one of the bills affecting Tree Preservation, HB007 was approved. Staff has reviewed the changes to the Texas Local Government Code introduced by the approved bill which will be effective on December 1, 2017 and determined that the proposed text amendment to Article IX, Tree Preservation, of the UDC is not in conflict. The proposed text amendment would change the identification of trees to one of four categories: [1] Primary Protected Tree, [2] Secondary Protected Tree, [3] Featured Tree, and [4] Non-Protected Tree. Under the current ordinance, trees can be both a Protected Tree and a Feature Tree depending on the size and type of the tree. The proposed changes would remove this overlap and define any tree greater than 25-inches as a Feature Tree. In addition, the proposed ordinance outlines how a mitigation balance may be satisfied such as by providing trees to the Parks Department, plant trees on site, buy Tree Preservation Credits, etc., and increases the per inch cost for Tree Preservation Credits from $125.00/inch to $200.00/inch. This change is being proposed to address the current cost of purchasing trees, which has significantly increased since the passage of the original ordinance. Finally, the changes provide a process for the City Council to approve Alternative Tree Mitigation Plans as this is not addressed in the current ordinance. In accordance, with Section 4.2 of Article XI, Zoning Related Applications, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council.

Mr. Miller advised the Commission staff was available for questions.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

13. Z2017-055 **(Ryan)**

Hold a public hearing and consider a request by Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a PD Development Plan amending Ordinance 13-16 and in accordance with Ordinance No. 10-21, for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 (IH-30) Overlay District, located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request and background of the property stating that the way Planned Development 32 is structured, there is pool of units that is built in for the entire Planned Development District consisting of 1,161 total units and as property develops in the area they are required to go thru an interim zoning step called a PD

Development Plan and this is how they claim a share of those units and it is discretionary to the Planning and Zoning Commission as well as City Council to allocate those units on a first come first serve basis and currently all but 230 of those units have been entitled. This particular property went thru the PD Development Plan in 2013 and they were allocated 399 units, however the applicant is requesting to increase the number of the units on the property by 50.

Mr. Miller advised the Commission the applicant was present to further elaborate on the request and staff was available for questions.

Chairman Lyons asked the applicant to come forward and speak.

Kevin Hickman
8222 Douglas Avenue
Dallas, TX

Mr. Hickman came forward and provided a concept plan of the proposal. He explained that currently there is a large parking lot that encumbers approximately 180 parking spaces the overall plan for development takes away part of that parking lot and they will be building a parking garage. They are requesting an additional 51 additional units making their overall site increase from 399 units to 450 units total. Mr. Hickman advised the Commission he was open to any questions the Commission may have.

Commissioner Logan asked clarification of the number of units left to be allocated and of those how many have been allocated to the applicant. Mr. Miller explained that 399 units have already been allocated to this site and the additional 51 that the applicant is requesting would be taken from the overall 230 units left for the entire PD if approved.

Chairman Lyons asked what the purpose of having a certain number for PD-32 for condos, what was the intent behind that. Mr. Miller explained that the intent was to limit the number of units permitted in the District as a whole, however didn't want to allocate those to any property because it wanted to be market driven for that area. Basically those units are to be allocated by the Planning and Zoning Commission and City Council on a first come first serve basis at their discretion and are not earmarked for any particular property.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

14. P2017-051 **(David)**
Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of BSKJ Development, Inc. for the approval of a preliminary plat for Lots 1-8, Block A, Carrier Drive Business Park Addition being a 17.0-acre portion of a larger 43.851-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-276 Overlay (SH-276 OV) District, generally located east of the intersection of SH-276 and John King Boulevard, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is proposing a small commercial retail development which includes eight lots. Mr. Gonzales advised the Commission that the applicant was present and would go over the request and staff would be available for questions.

Chairman Lyons asked the applicant to come forward and speak.

Dub Douphrate
2235 Ridge Road
Rockwall, TX

Mr. Douphrate came forward and provided a concept plan of the proposal and explained that they are doing a more centralized detention on this project to allow for each of the eight individual lot to not have its own detention which they feel is a plus in the way it is laid out. Basically it is not going to be Light Industrial but rather business commercial type use. He went on to say that they have already been in discussion with two or three businesses that are

interested in locating in this Park. Mr. Douphrate advised the Commission he was available to answer questions the Commission may have.

Chairman Lyons asked what the size of most of the buildings would be. Mr. Douphrate stated they would vary in size, although they would like to keep the same pattern with the lots, but they would probably be anywhere from 5,000-10,000 square feet and possibly two story. They have seen some interest from a professional standpoint for professional businesses to come in and therefore it could be a use between office as well as Commercial. They will know more of what size for each building on a lot to lot basis and tenant need.

Commissioner Welch asked staff if each individual building would come before the Commission as they are developed and completed. Mr. Gonzales explained that each would have to go thru the site plan process as well as engineering individually and not as a group and since they are situated within an Overlay District they would have to meet with the Architectural Review Board for review.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

15. P2017-052

Discuss and consider a request by Brian Kelly for the approval of a final plat for Lot 1, Block A, Kelly Ranch Addition being a 3.217-acre portion of a larger 9.195-acre tract of land identified as Tract 13-06 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 2.0 (SFE-2.0) District, addressed as 631 Hanby Lane, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that earlier this year the Commission approved a zoning change for the subject property to a Single Family Estate 2.0 and also approved a masonry exception. This plat is coming before the Commission because it will need to go to the Park Board to assess park fees and will come back on the consent agenda at the next scheduled meeting.

No further discussion or questions took place concerning this agenda item.

16. P2017-053

Hold a public hearing to discuss and consider a request by Bart Carroll of Carroll Consulting Group, LLC for the approval of a replat for Lots 19, 20 & 21 of the Hidden Valley Estates No. 2 Addition being a 4.716-acre tract of land currently identified as Lot 11 of the Hidden Valley Estates No. 2 Addition, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), addressed as 1 and 1A Wildbriar Street, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the case is coming before the Commission because although the subject property is located within the ETJ, the City of Rockwall is the platting entity for the property. Currently it is one lot, and anytime the number of lots is being increased in an established residential subdivision a public hearing must be held.

Mr. Brooks advised the Commission staff was available for questions.

Chairman Lyons asked since the lot was being split into three loots, where the access would be. Mr. Brooks explained it would be thru Country Ridge Lane and each lot does meet the minimum lot frontage along Country Ridge Road.

Commissioner Chodun asked what the property was zoned. Mr. Brooks explained that since it is not in the City limits but within the ETJ it is not zoned.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

17. P2017-054

Discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of a master plat for the Terracina Estates Subdivision

consisting of 352 single-family lots on a 140.555-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that this case came before the Commission in the previous meeting where the applicant is requesting to amend PD-82 to allow for additional homes along the west side of the subject property along the antennae towers are located. That request was approved by City Council at the first reading with a vote of 4-3; therefore staff will be putting in as a condition of approval for both the preliminary and master plat moving forward that it must be approved at City Council second reading in order to move forward with the master and preliminary plats. However with that an application has been accepted and moving forward the first one is for the master plat which is takes a look at the entire property.

Mr. Gonzales advised the Commission the applicant is present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Jim Douglas
Douglas Properties
2309 Avenue K
Plano, TX

Mr. Douglas came forward and gave a brief explanation of the request and provided a power point presentation that showed the overall master plat that takes the original PD-82 and adds the additional land that they have. They have received staff comments and are working with them to take care of those.

Chairman Lyons asked the Commission for any questions or discussion.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

18. P2017-055 **(David)**
Discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of a preliminary plat for *Phase 1* of the Terracina Estates Subdivision consisting of 110 single-family lots on a 54.995-acre portion of a larger 81.49-acre tract of land identified as Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the master plat lays out the phases within that and what is being presented is for Phase I within of what they are requesting.

Mr. Gonzales advised the Commission the applicant and staff are available for questions.

Chairman Lyons asked the applicant to come forward and speak.

Jim Douglas
Douglas Properties
2409 Avenue K
Plano, TX

Mr. Douglas came forward and stated that what they have done with Phase I is to make sure all the improvements required under PD-52 are done for the City.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

19. SP2017-031

Discuss and consider a request by Ed Cavendish of VPS Construction for the approval of a site plan/master open space plan for the Spyglass Hill, Phase 4 Subdivision consisting of 33 single-family residential lots on a 6.888-acre tract of land, zoned Planned Development District 8 (PD-8), generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

Senior Planner, David Gonzales, explained that this came before the Commission earlier in the evening as agenda #7 where the Preliminary Plat was approved to be reinstated. Mr. Gonzales pointed out that within PD-8 there are height restrictions and those elevations will have to be met.

Chairman Lyons asked the applicant to come forward.

Mitchell Lenamond
120 E. Main Street
Forney, TX

Mr. Lenamond came forward and stated that they are aware of the height restrictions that the PD has and they will abide by those.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

20. SP2017-03**2** **(Korey)**

Discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of a site plan for a music studio on a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that a the Commission and City Council recently approved a Specific Use Permit to allow a music studio in a Residential Office District along Mims Road, and they are now moving forward with the site plan for that music studio.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Derick Salser
345 New Hope Road
Sunnyvale, TX

Mr. Salser came forward and stated he is the applicant but the architect and the owner were present and available for questions.

Russ Porter
1447 Red Wolfe Drive
Rockwall, TX

Mr. Porter came forward and stated he and his wife have owned Rockwall School of Music for the last 21 years serving the Rockwall community.

Mr. Brooks added that the applicant will be seeking a variance to the masonry requirement to allow hardy board and for the masonry wall they are seeking a special exception to allow for a precast masonry wall.

Commissioner Chodun asked if there would be lighting. Mr. Brooks stated that the applicant has submitted photometric plans and staff will be reviewing that to ensure that they adhere to all lighting restrictions.

There being no further questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

21. SP2017-033

Discuss and consider a request by Juan J. Vasquez of Vasquez Engineering, LLC on behalf of Deepak Gandhi of Rockwall Inn Keepers I, LTD for the approval of a site plan for a hotel on a 2.681-acre identified as a portion of Lots 9 & 11, Block A, La Jolla Pointe, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, located at the southeast corner of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting approval for a site plan for the non-residence hotel which an approved for an SUP recently. The applicant met with the Architectural Review Board and the only thing they had issues with was the use of the materials that being natural stone product and the use of stucco however the applicant has agreed to meet the standards for the natural stone as well as three parts stucco where they have that labeled on their elevations and they will meet the 20% natural stone on the building otherwise that would become a variance for that request.

Mr. Gonzales advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Juan Vasquez
Vasquez Engineering
1919 S. Shiloh Road
Garland, TX

Mr. Vasquez came forward and stated that the project is for the Hyatt Place the non-residence hotel that was recently approved a Specific Use Permit and after having met with the ARB they will be meeting their requests for the natural stone as well as the 20% the ordinance sets forth.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

22. SP2017-034 **(Korey)**

Discuss and consider a request by Mike Whittle of Whittle Development, Inc. on behalf of Randall Noe of N&H Legacy Partners for the approval of a site plan for an office buildings on 0.44-acre tract of land identified as Lot 2, Block 2, Alliance Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, addressed as 6520 Alliance Drive, and take any action necessary.

Planner, Korey Brooks, **advised the Commission that agenda items #22 and #24 would be discussed together and the applicant is present and available for questions as well as staff.**

Mike Whittle
7205 Ship Road
Rowlett, TX

Mr. Whittle came forward and explained that are building two new office buildings along Alliance Road and they will look very similar to the existing buildings. They met with the Architectural Review Board who requested they provide more articulation which they will be looking to incorporate that.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

23. SP2017-035

Discuss and consider a request by Johnathan Kerby of Kimley-Horn & Associates, Inc. on behalf of Harold E. Weinberger & Elana Kroll for the approval of a site plan for a retail/restaurant strip center on a 1.6123-acre parcel of land identified as Lot 2, Block A, Rockwall Market Center East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 819 E. IH-30, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that this project would be replacing the existing the building which housed the Johnny Carrino's restaurant. Mr. Brooks stated the applicant was unable to attend the meeting but a representative was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward and speak.

Dan Porter
Dynamic Development Company
9920 FM428
Aubrey, TX

Mr. Porter came forward and stated that the project involves the redevelopment of the existing IH-30 frontage property that houses the Carrino's Restaurant that is no longer in business. The building was built in 1999 and it is a 6,600 square foot building. Their development plan is to scrape that existing building and build a 10,250 square foot strip shopping center and plant to have three to four tenants. Their current plan is to demise that 10,250 square foot to have at the eastern portion a 4,750 square foot space with a drive-thru around the building because they are in the finalizing steps of a lease agreement for a regional brand sit down restaurant. The middle portion of the building is about 2,500 square feet which they would like to see go to one retailer and it will not be a restaurant and the other space on the eastern portion is 3,000 square feet and that will be straight retail which will likely be a mattress store. They will meet the parking requirements and after meeting with the ARB and they intend to meet all their requirements as well.

There being no questions Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

24. SP2017-03**6**

Discuss and consider a request by Mike Whittle of Whittle Development, Inc. on behalf of Randall Noe of N&H Legacy Partners for the approval of a site plan for an office buildings on 0.55-acre tract of land identified as Lot 3, Block 2, Alliance Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, addressed as 6530 Alliance Drive, and take any action necessary.

Agenda Item was discussed in combination with Agenda item # 23.

Absent was Chairman Lyons. Staff members present were Planning Director, Ryan Miller, Senior Planner David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, Civil Engineer Jeremy White and Fire Marshall Ariana Hargrove.

II. CONSENT AGENDA

1. P2017-041

Consider a request by request by David Turnham for the approval of a final plat for Lot 1, Block A, Blueberry Hill Estate Addition being a 1.410-acre tract of land identified as Tract 9-01 of the J. E. Sherwood Survey, Abstract No. 193, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 950 Clem Road, and take any action necessary.

2. P2017-048

Consider a request by Dan Warfield of Halff Associates, Inc. on behalf of John Wardell of Lake Pointe Church for the approval of a replat for Lot 3, Block A, Lake Pointe Baptist Church Addition being a 34.4904-acre parcel of land identified as Lot 1, Block A, Lake Pointe Baptist Church Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 701 E. IH-30, and take any action necessary.

3. SP2017-023

Discuss and consider a request by Kevin Patel of Triangle Engineering, LLC on behalf of the owner Michael Fisher of 1306 Summer Lee, LLC for the approval of a site plan for a medical office building on a 1.082-acre parcel of land identified as Lot 6, Block A, Temunovic Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 1310 Summer Lee Drive, and take any action necessary.

Commissioner Moeller made a motion to approve the consent agenda. Commissioner Chodun seconded the motion which passed by a vote of 6-0 with Chairman Lyons absent.

III. APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

IV. PUBLIC HEARING

5. Z2017-040

Hold a public hearing to discuss and consider a request by John Delin of Integrity Group, LLC on behalf of Jane Cullins for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for general retail and single-family residential land uses on a 37.932-acre tract of land identified as Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the 205 By-Pass Overlay (205 BY-OV)

District and East SH-66 Overlay (E SH-66 OV) District, located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that the subject property is located on the east and west side of John King Blvd north of SH-66 and is zoned Agricultural District and within the East SH-66 Overlay District and the 205 By-Pass Overlay Districts. The subject property was partially annexed in 1960 with the remainder of the property coming into the City in 1998 and then in 2007/2008 the City of Rockwall acquired a portion of this property for the future right of way for John King Blvd. This case originally came in as two cases about 9.8 acres of it came before the Commission at the previous meeting as a zoning change from AG to General Retail District and the remaining 28 acres was for a age restricted senior living active community and that consisted of about 84-89 lots. On September 12, 2017, the Planning and Zoning Commission approved case No. Z2017-039 which is tract 1 however, case No. Z2017-040 which is tract 2 was continued by the Planning and Zoning Commission to allow the applicant time to provide clarifications and changes that were requested by the commissioners in the meeting. On September 18, 2017, the City Council approved a motion to remand Case No. Z2017-039 back to the Planning and Zoning Commission, and directed staff to combine the case with Case No. Z2017-040. The City Council's purpose in combining the request appeared to be twofold: 1) to allow the uses in the General Retail District to be further limited through the Planned Development District ordinance, and 2) to address the applicant's comments, which indicated that the two cases were dependent upon each other. Therefore what is being brought forward at this time is a combined case. Mr. Miller stated he would start with discussion of the 9 acre portion. The applicant is still requesting that this portion still be under the General Retail designation but staff has provided for limited uses and took a lot of the same uses that were limited thru the Breezy Hill and Stone Creek Planned Development Districts with two additions the first one being that the applicant has agreed to limit the gasoline sales on the property and there is no gasoline sales thru Specific Use Permit on the General Retail side, and the other component being that the applicant has requested to allow a nursery/garden center allowed thru a Specific Use Permit only which would require a discretionary approval. The subject property does appear to conform to the site specifications stipulated by the UDC for the General Retail District zoning designation requirements. Specifically, it is located adjacent to two major roadways and is in close proximity to an existing and proposed residential subdivision and in addition, the property is physically separated from these residential areas by a major roadway which alleviates any need for residential adjacency standards.

Mr. Miller went on to state that concerning the other portion which is the residential component, and as was previously discussed at the previous meeting, it is a gated community that is on a single lot and is set up much like a condominium association is where the HOA will maintain all the grounds but it will be owner occupied single-family homes. In looking at the concept plan, the applicant has addressed several of the issues that the Planning and Zoning Commission raised at the last meeting. Specifically there were some issues with the spacing off of 276, the code requires a 25 foot landscape buffer and the applicant is showing a 20 foot landscape buffer, however before they were encroaching the fence 10 feet into the landscape buffer and now they show a true 20 foot landscape buffer and they've increased the separation between the house and the roadway to a minimum of 27 feet. On the John King side they are still meeting the requirements in terms of having a 50 foot landscape buffer and a slip street in front, it doesn't exactly meet the 100 foot separation however they did get it to 95 feet for one of the homes and the remaining homes are at a 100 foot separation. The other aspects of the request, the fence along the John King side does encroach into the landscape buffer by 10 feet but the applicant has dedicated that as a landscape buffer and won't be building anything in it. The other concern the Commission had raised was the separation between houses. Currently there is no zoning district that has less than a 5 foot side yard setback which creates a 10 foot separation between houses. What the applicant is requesting is a 6 foot separation between houses which would equate to a 3 foot building setback. Also the 21 foot street is technically considered a drive isle since it doesn't meet the City's definition of a private street and in this case the engineering standards of design stipulate a 24 foot drive isle and in this case it is a 21 foot however it is a one way drive isle. Looking at the Future Land Use Map contained in the Comprehensive Plan the eastern part is designated for Low Density Residential land uses which is a density of 2 ½ units per acre or less and in this case the applicant is proposing approximately 3.2 units per acre which would necessitate a change to a High Density Designation. On the west part the Future Land Use Map designates that property as a Medium Density Residential designation and that would need to be changed to Commercial and staff has included that as a condition of approval.

Mr. Miller further explained that notices were sent for both on September 1, 2017 and for the west side 13 notices were sent out to property owners within 500 feet of the subject property and also notified the Caruth Lakes HOA. For the property on the east side 8 notices were sent out to property owners within 500 feet of the subject property as well as the Caruth Lake HOA. Staff received 2 notices in favor of both cases.

Mr. Miller advised the Commission the applicant was present to answer any questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

361 W. Byron Nelson Blvd. Suite 104
Loan Oak, TX

Mr. John Delin came forward and provided a power point explanation of the request that covered the active adult community that they have specialized in for more than thirty years. He talked of how their team handles all the development from start to finish that allows them to provide a semi-custom home buying experience. It will be part of a condo association which operates under strict Texas law that they have ordinances that they have to abide by. It will be a gated community and therefore have private streets that the City does not have to maintain. It will be a community that will provide a lot of attractive amenities for the home owners. He spoke of how the property being challenging and they are working very hard to make it developable and with the floodplain they are investing in providing off site utilities.

Steve Delin
Integrity Group
3400 Nickel Creek Drive
Plano, TX

Mr. Steve Delin came forward and stated he is in charge of all the marketing and sales for the project. He explained they utilize a third party survey firm that gathers survey information from the buyers to help as sellers to continue to hear the feedback from the customer. He provided a power point presentation that talked about the different features the homes are built with and the different amenities the type of community that they develop that specifically meets the needs of active adults.

Randy Rivera
GNA Consulting Engineering Firm
111 Hillside Drive
Lewisville, TX

Ms. Rivera came forward and discussed the concerns that were brought up in the previous meeting concerning the side yard setbacks, proximity to John King Blvd and the SH66 buffer.

Mr. John Delin came forward and spoke to the Commission of how they felt they listened to the Commissions concerns at the previous meeting and they feel the changes they have made show they are looking to meet the intent of the area and will be a great asset to the City.

Vice-Chairman Trowbridge opened up the public hearing and asked anyone who wished to speak to come forward and do so.

Jane Cullins-Davis
775 Jeff Boyd
Rockwall, TX

Ms. Cullins-Davis came forward and stated she is in favor of the request. She has owned the property for a long time and has dealt with a lot of perspective buyers none of which were low density development. She has spoken with a lot of people that are in favor of this adult community, she feels there is a need for this in Rockwall and it will have a positive impact on the community.

Bob Wacker
309 Featherstone
Rockwall, TX

Mr. Wacker came forward and expressed concern with the density the development will provide and if the price point for the development will be successful in Rockwall. He generally expressed his uncertainty of whether or not this development would be a right fit for Rockwall.

Vice-Chairman Trowbridge asked the applicant if he would like to add anything else.

Mr. John Delin came forward and added that he feels the proposed community will be very successful in Rockwall because there isn't a product such as what they are proposing and it is one that is in high demand. He respectfully asked the Commission for their consideration in approving the request.

Vice-Chairman Trowbridge closed the public hearing and brought the item back to the Commission for questions and discussion.

Commissioner Chodun spoke of how having the two cases combined makes it to where a decision has to be made on both when he was generally in favor on the retail but reluctant on the high density development, he added he was hopeful they would have come back with not necessarily low density but perhaps medium density because he feels there is a disconnect between what a customer would be paying for as a condo owner versus what they would be getting from a property standpoint. Although he likes the 55 year and older concept, this area is not the right fit for such. He generally expressed not being in favor of the request.

Commissioner Welch spoke of how as a realtor he sees the demand that is type of product it is very sought after and will be a good fit for the community of Rockwall. He generally expressed being in favor of the request.

Commissioner Fishman stated she feels a 55 plus community would do very well in Rockwall and there is a definite need however she expressed concern with the price point for people that are looking to downsize.

Mr. John Delin came forward and added that the price points run from $300,000-600,000 however the average is around $389,000 the price points vary to allow people to choose what best fits their needs and what they are looking for.

Commissioner Logan generally expressed being in favor of the request. She spoke of the notion that may be misleading that when speaking of low density means low quality but the product that they are proposing appears to be a great high quality product fitting for the Rockwall community. The reservations she had previously with the setbacks have been addressed now that the applicant has met the concerns the Commission had and made necessary changes to the setbacks.

Commissioner Moeller generally also expressed being in favor of the request now that the applicant addressed the concerns the Commission shared with the applicant at the previous meeting concerning the setbacks. He feels it is a nice high quality product that they are proposing and is pleased that the applicant put forth the effort to move the setback.

Vice-Chairman Trowbridge asked staff if with the minimum size on these houses being 1,600 square feet is there an overall minimum size that is required in the general development for single family. Planning Director, Ryan Miller, stated it would depend on the District and the most dense family district is around 1,000 square feet and goes up to 2,500 square feet in this case it is tied to the Single-Family 7 District.

Vice-Chairman Trowbridge asked staff if they met all the City requirements such as utilities, road, fire and such. Mr. Miller explained that they will have to provide utilities and meet the fire safety requirements. Vice-Chairman Trowbridge generally expressed being in favor of the request as brought forward.

Vice-Chairman Trowbridge asked the Commission for further questions or discussion.

Commissioner Welch made a motion to approve Z2017-040 with staff recommendations. Vice-Chairman Trowbridge seconded the motion which passed by a vote of 5-1, with Commissioner Chodun dissenting.

V. ACTION ITEMS

6. MIS2017-010

Discuss and consider a request by Brian and Darla Kelly for the approval of an exception to the minimum masonry requirements stipulated by Article V, *District Development Standards*, of the Unified Development Code to allow for the construction of a single-family home on a 3.217-acre tract of land identified as a portion of Tract 13-06 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 2.0 (SFE-2.0) District, generally located along the north side of Hanby Lane south of the intersection of Jeff Boyd Road and Hanby Lane, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant was recently approved a zoning request from Agricultural District to Single-Family 2.0 and the applicant has now submitted a request for a masonry exception to build a home that will be approximately 3,000 square feet and the proposed home will be a modern farmhouse style. The applicants are proposing to utilize 100% hardy board siding in a vertical board and baton pattern that will be painted white. According to the UDC, all buildings 120 SF or more and over 10 feet in height shall have exterior walls constructed of at least 80% masonry materials with no more than 50% being Hardie Board or other similar cementaceous material. Buildings not meeting this requirement shall require approval of the Planning and Zoning Commission and City Council. In addition according to the UDC, exceptions to these requirements may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings of the subject structure, and material samples.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Darla Kelly
2846 Bent Ridge
Rockwall, TX

Mrs. Kelly came forward and stated the home will be similar to some of the ones that are in the Park Place neighborhood that is located by Harry Myers Park. She added that although their tract of land is City, it is referred to as the Island of Rockwall there is only three surrounding homes.

Vice-Chairman Trowbridge brought the item back to the Commission for discussion, questions or a motion.

Commissioner Moeller made a motion to approve MIS2017-010 with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 6-0 with Chairman Lyons absent.

7. SP2017-026

Discuss and consider a request by William Adair on behalf of Raymond Jowers for the approval of a site plan for an industrial building on a 2.16-acre parcel of land identified as Lot 1-B, Bodin Industrial Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 2040 Kristy Lane, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting approval of a site plan for the purpose of constructing a 14,500 square foot office warehouse on the subject property. Kristy Lane is south off of IH-30 and is a Light Industrial area as well as a mix of uses with Heavy Commercial and some residential that is part of PD-10 that's located to the south of the property. The applicant met with the Architectural Review Board earlier this evening and they did get the Boards approval for the request. The site plan, building

elevations and the landscape plans generally do conform to the technical requirements. The exceptions will need to be reviewed for the horizontal articulation for the east and west elevations.

Mr. Gonzales advised the Commission the applicants were present and available for questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward.

Bill Odair
(No address given)

Mr. Odair came forward and stated he is the architect working with Mr. Jowers requesting to build a showroom warehouse. They have met with City staff and they feel that they've met the requirements for masonry and site work. Concerning the east and west sides' vertical articulation, those two sides are very nondescript and because it is surrounded by metal buildings they feel it will be a nice addition to the area.

Vice-Chairman Trowbridge asked the Commission for any questions or discussion.

Commissioner Logan asked what would be housed within the building what type tenant would they be seeking. Mr. Odair stated it will house a couple of offices for the managers of this project as well as showroom for the product that they sell and the warehouse is where they would store the product. Commissioner Logan expressed concern in approving additional warehouse space.

Raymond Jowers
3290 Anna Cade
Rockwall, TX

Mr. Jowers came forward and stated that from where they are located to when they put the landscaping around it there will not be much that the surrounding home owners would be able to see and there would not be much traffic that it would generate.

Commissioner Welch made a motion to approve SP2017-026 with staff recommendations. Commissioner Chodun seconded the motion which passed by a vote of 6-0 with Chairman Lyons absent.

Vice-Chairman Trowbridge noted that Agenda items #12 #17 would be moved up and discussed together and item #14 would be moved up on the agenda as well.

VI. DISCUSSION ITEMS

8. Z2017-041 **(Korey)**
Hold a public hearing to discuss and consider a request by Mark Latham for the approval of a zoning change from a Multi-Family 14 (MF-14) District to a Downtown (DT) District for a 0.17-acre tract of land identified as part of Lots 1, 2 & 3, Block H, Eppstein Addition, City of Rockwall, Rockwall County, Texas, zoned Multi-Family 14 (MF-14) District, situated within the Historic Overlay (HOV) District, addressed as 310 S. Fannin Street, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation and background of the request and the property stating that on September 21, 2017 the case went before the Historic Preservation Advisory Board since it is in the Old Towne Rockwall Historic District and a motion was made to deny the request. Previously in 2001 a request was submitted to rezone to Downtown District and that request was also denied. In 2013 a request was made to rezone to Residential Office and since then no additional requests have been made.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Mark Latham
1010 Ridge Road Court
Rockwall, TX

Mr. Latham came forward and stated that what he is requesting is to rezone out of Multi-Family 14 to a Downtown zone to allow him to put in an office which is what he is looking for the property to be used for which he feels it is better suited for.

Vice-Chairman Trowbridge asked the Commission for questions.

Commissioner Moeller asked what benefit the Downtown District zone change would have. Mr. Latham stated it would allow them to office uses such as an attorney's office, insurance agency small office uses such as those.

Commissioner Moeller asked staff what the difference was between the Downtown District versus Residential Office. Mr. Miller stated that Downtown District is different in that it has a certain set of strict design guidelines that go with it that are built around more of a form base code. If something new was being built it would be heavily regulated. The uses do allow for some retail land use and allows more flexibility in reusing structures like the Residential Office District.

Commissioner Welch asked if he planned on rehabbing the existing structure that is on the property. Mr. Latham stated that over the last year they have redone the exterior however since it is a historic home they are not doing any drastic changes.

Commissioner Moeller asked how the parking area would work and did he anticipate any parking overflowing into the City Hall parking. Mr. Latham stated that in the back of the property there is sufficient parking that fit about six vehicles.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2017-042

Hold a public hearing to discuss and consider a request by Jay Odom for the approval of a zoning change from a Single Family 7 (SF-7) District to a Downtown (DT) District for a 0.21-acre parcel of land identified as Lot D-1, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Historic Overlay (HOV) District, addressed as 201 Olive Street, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant tis seeking to change the property from a Single-Family 7 District to a Downtown District. The case went before the Historical Advisory Committee last week and was approved by the Board unanimously. The property is vacant and in considered to be non-contributing and the applicant is requesting to construct an office building for his mortgage company.

Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Jay Odom
405 N. Fannin Street
Rockwall, TX

Mr. Odom came forward and stated he has owned his business locally in Rockwall for the last 16 years but has been leasing during that time. He purchased the subject property with plans of building his office to no longer have to lease, however he made the mistake of not checking what the property was zoned and was under the assumption that it was zoned Commercial. He plans to incorporate a small office to look similar to the style of the surrounding area and he feels it will fit well.

Commissioner Moeller noted that the restrictions for new construction would be more stringent with changing it to a Downtown District therefore it seems to make sense to change it to such and would be a good transition.

Commissioner Fishman asked if any notices have been received in favor or in opposition. Mr. Gonzales stated that none have been received as of yet but staff will provide an update at the public hearing.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2017-043

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Stone Creek Balance, LTD for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 4.329-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the area is a lilt more than 5 acres located next to the middle school the applicant is requesting to amend PD-70 to allow for a subdivision consisting of 19 homes which they are calling a "pocket neighborhood."

Mr. Gonzales advised the Commission the applicant was present and would be going over the request and staff would be available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Austin Lewis
Lewis Real Estate Investments, Inc.
519 E. IH-30 Suite 327
Rockwall, TX

Mr. Lewis came forward and stated that the development's concept is for a "pocket neighborhood" that will consist of 19 homes in a 5.2 acre tract of land. The idea of himself and his associate David Dillard is to create a neighborhood with front porches with walkability that will allow for neighbors to interact with one another and create a sense of a small close kit community within it.

David Dillard
4357 Shirley Drive
Dallas, TX

Mr. Dillard came forward and provided a power pointe presentation that went over the concept plan of their request which included layout plans of the concept plan they are looking to develop. He explained that the idea of the "pocket neighborhood" is to have nothing but front doors opening to a common space where there would not be any cars but rather only pedestrian traffic. With there being only 19 homes they are not looking to provide any type of pool or big amenities other bigger subdivisions provide. What they would like to provide is a 1,700 square foot community center which would consist of a big living room with a fireplace, nice kitchen, bathrooms and an outside screened in porch with some grills that would generate community activities among the neighbors. The homes would range from 1,650 square feet up to 3,000 square feet and that would be under the determination of the builder and the homeowner. Looking at the site plan there is Greenway Drive to the west side and Dalton to the north side where it is their understanding that there will be a widening of Dalton Road. There is a big ridge that runs up and down north, south and thru the middle of the site which means they will need to work thru the detention and water issues. He spoke of their desire of not introducing a City of Rockwall right of way that would surround the entire site but rather have a cross easement access thru each individual lot and the concept plan showed how they would be proposing it to look.

They believe it is a great way to develop a not so easy piece of land that will be a good fit to the Rockwall community.

Vice-Chairman Trowbridge asked the Commission for questions for the applicant or staff.

Commissioner Welch asked concerning the garages, would they be detached or open. Mr. Dillard explained that each house would have a two car garage enclosed with a door. Commissioner Welch asked the applicant to speak more of the plan they have for the floor layout and sizes. Mr. Dillard explained that they would like the market and the residents of Rockwall to tell them what they want, their thought is to sell the lots to say three home builders that do quality work and those would then build to suite skeptically what they think is going to work for the residents of Rockwall.

Commissioner Logan expressed concern with the high density concept of this development and what it can turn into in the long term. Mr. Lewis stated that the average price for the homes will be $375k with the bigger units at higher costs. They're looking to use builders that will provide high quality custom homes.

General discussion took place concerning the layouts proposed, setbacks off of Dalton Road and the right of way they're proposing to not include.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

11. Z2017-044 **(David)**

Hold a public hearing to discuss and consider a request by Sydney Brown of Godspeed Motors, LLC on behalf of the owner Greg Ollom for the approval of a Specific Use Permit (SUP) for an *Indoor Motor Vehicle Dealership/Showroom, New and/or Used* on a one (1) acre tract of land identified as Tract 5-1 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 1785 E. IH-30, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting approval for an SUP to allow for an Indoor Motor Vehicle Dealership to include new and or used vehicles. All business has to be operated in the inside of the building there cannot be any outside display of vehicles or detailing. The SUP will be for suite #1 which is a 50x 50 approximately 2,500 square foot suite within the 12,500 square foot facility.

Mr. Gonzales advised the Commission the applicant was present and available for questions as well as staff.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Sydney Brown
2003 Evergreen
Rowlett, TX

Mr. Brown came forward and stated he is requesting stated he is requesting a Specific Use Permit for an Indoor Motor Vehicle Showroom and he was available for any question the Commission has.

Vice-Chairman Trowbridge asked if he currently operates a car dealership in Rowlett. Mr. Brown stated he does not.

Commissioner Chodun asked if there was currently signage at the location. Mr. Gonzales stated there was existing signage for the property however there is an allowance for one pole sign for example if it is a directory sign where there is several names on it he could have his business name added to it.

Commissioner Fishman asked if they felt this type business would be successful in Rockwall. Mr. Brown stated he believes it would be.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

12. Z2017-045 **(Korey)**

Hold a public hearing to discuss and consider a request by David L. and Sue W. Hodgdon for the approval of a zoning change from an Agricultural (AG) District to a Single-Family Estate 2.0 (SFE-2.0) District on a 12.327-acre tract of land identified as Tract 1-01 of the T. Dean Survey, Abstract No. 69, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 1085 Dalton Road, and take any action necessary.

Planner, Korey Brooks, stated the applicant was present and could discuss his request and staff was available for questions.

David Hodgdon
1085 Dalton Road
Rockwall, TX

Mr. Hodgdon stated they have owned the land for more than 30 years and they want to sell the front part of it which is lot 1 and in order to do that they have to change the zoning.

Mr. Brooks added that there 2 tracts on the lot and the UDC states that in order to build a home on an Agriculturally zoned property it must be 10 acres or more and after subdividing both lots neither would be 10 acres and that is the reason they are bringing forward the request to change the zoning from AG to Single-Family 2.0 which is low density.

There being no questions Vice-Chairman Trowbridge indicated this case will return to the Commission for action at the next scheduled meeting.

Mr. Brooks noted that Agenda item #17 is for the plat and it will be taken to the Park Board next week to have park fees established and will come back on the consent agenda at the next scheduled meeting.

13. Z2017-046 **(David)**

Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 59.065-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 140.555-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is seeking to amend PD-82 to add an additional 148 units to the existing 204 units for a total of 352 single family homes. Mr. Gonzales advised the Commission that the applicant was present and would discuss his request and staff is available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Jim Douglas
Douglas Properties
2309 Avenue K
Plano, TX

Mr. Douglas came forward and provided a power pointe that went over the concept plan and layout of the request. He stated that that the tract of land is currently under contract and they are getting ready to develop PD-82 and this additional tract is where the antenna towers are located. He explained that looking at the layout of the property it is made up of 65 and 85 foot wide lots and they've placed the open space next to the towers as a buffer and will be adding an additional playground, dog park and a trail which is an extension of what is already required for PD-82. Bloomfield Homes will be the builder for the subdivision which provides a lot of variation of

architecture. They have the larger lots and will incorporate a combination of the front and j-swing and side entry garages that is required under PD-82. It is approximately 59 acres which will be added to the current 81 acres of PD-82 for a total of 148 acres and the overall density is about 2.5 units per acre.

Mr. Gonzales added that concerning the garage orientation for the new subdivision, Phase I will maintain what was approved which is 30% j-swing however for this case the applicant is requesting to allow for 100% front entry.

Vice-Chairman Trowbridge asked for questions from the Commission.

Commissioner Chodun asked what PD-82 originally was zoned as and is the new Phase that is being proposed currently low density. Mr. Gonzales stated yes it is and it was originally AG zoned property.

Vice-Chairman Trowbridge asked if they were developing the homes or just the land. Mr. Douglas stated they would be developing the land and Bloomfield Homes would be the builder.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

14. Z2017-047 **(Korey)**
Hold a public hearing to discuss and consider a request by Trent Hyde for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code for a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 218 W. Quail Run Road, and take any action necessary.

Planner, Korey Brooks, stated the applicant was present and would be discussing his request and staff would be available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Trent Hyde
218 W. Quail Run Road
Rockwall, TX

Mr. Hyde came forward came forward and stated he is requesting to build a barn that will be approximately 700 square feet Morgan building and although one of the codes indicates a 15 foot maximum height, he would like to do the ridge vents on top and those are 2 feet, he can lower the building 2 feet at the peak to hit the 15 foot requirement however from the street he believes it would look funny.

Vice-Chairman Trowbridge asked if the main structure was a one or two story home and where would the building be situated on the property. Mr. Hyde stated it is a one story and the building would be built in the rear of the property.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

Vice-Chairman Trowbridge called a recess at 7:43 p.m.

Vice-Chairman Trowbridge called the meeting back to order at 7:55 p.m. and moved to Agenda item #8.

15. Z2017-048 **(Korey)**
Hold a public hearing to discuss and consider a request by Russell Phillips on behalf of Sandra McMullen for the approval of a Specific Use Permit (SUP) for a *mini-warehouse* facility on an 8.733-acre tract of land identified as a portion of Lot 16 and all of Lot 14, Rainbow Acres Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 4.0 (SFE-4.0) District, addressed as 259 Ranch Road, and take any action necessary.

Planner, Korey Brooks, advised the Commission that the applicant was present and would be discussing the case and staff was available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Russell Phillips
521 Lorraine Lane
Heath, TX

Mr. Phillips came forward and stated he is requesting a Specific Use Permit for a mini storage facility off of Ranch Trail. He provided pictures of where within the buildings they are proposing to incorporate the masonry and an aerial of the site that showed the surrounding metal buildings and a tree line of tall cedars that surround the subject property that he feels will provide ample coverage and buffering as it will serve as a natural barrier as opposed to incorporating a fence.

Vice-Chairman Trowbridge asked what the SUP was specifically for, was it for the actual type of masonry product type they are proposing. Mr. Brooks stated the SUP is to allow the mini storage in a Commercial District.

Vice-Chairman Trowbridge asked the applicant if he had a franchise that was going to run the business or would he be running it himself. Mr. Phillips stated they will run it themselves however they will probably hire a company early on to manage it properly.

Commissioner Logan asked concerning visibility of the business to attract customers since with the tree line it appears it won't be very visible. Mr. Russell stated he feels there is a strong enough demand for this type business where visibility is not necessarily the driving factor to attract clientele.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

16. Z2017-049 **(Ryan)**
Hold a public hearing to discuss and consider a request by John Arnold of the Skorburg Company on behalf of Breezy Hill 405, LTD for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan and for the purpose of incorporating changes to the lot composition stipulated by the development standards contained in *Exhibit 'C'* of *Ordinance No. 16-59* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

Planning Director, Ryan Miller, advised the Commission that the applicant was present and would be presenting the case and staff would be available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak

Adam Buzcek
8214 Westchester Drive Suite 710
Dallas, TX

Mr. Buzcek came forward and provided a slide show presentation which showed a map of the proposed changes and he gave a quick overview of the request stating that the current PD plat for Breezy Hill Estates is composed of 776 residential lots and is 2 units per acre with 20% open space. What they are requesting with the proposed master plat is to reduce the number of lots in the subdivision to 750 for the purpose constructing additional 100' x 200' and 100' x 180' lots it is a decrease in density from 1.92 to 1.85 Concerning the garage orientation they are asking to allow up to 50% of the remaining 94, 70' x 120' lots to incorporate a flat front entry garage. The power point showed the type mix change and highlighted where within the property those changes apply to.

Mr. Buzcek advised the Commission he was available for questions.

Vice-Chairman Trowbridge asked why they would lower their density and give up the economic profit of more houses. Mr. Buzcek stated that it is market driven, the 100 foot lots have done very well and are a very in demand product that the consumer is asking for.

General discussion took place concerning the garage orientation they're requesting.

There being no further questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

17. P2017-049 **(Korey)**

Hold a public hearing to discuss and consider a request by David L. and Sue W. Hodgdon for the approval of a final plat for Lots 1 & 2, Block A, Hodgdon Addition being a 12.36-acre tract of land identified as Tract 1-01 of the T. Dean Survey, Abstract No. 69, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 1085 Dalton Road, and take any action necessary.

This Agenda item was discussed together with Agenda item #12.

18. SP2017-030 **(David)**

Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randall Noe of Rockwall Rental Properties, LP for the approval of a Site Plan for a motor vehicle dealership on a 4.86-acre tract of land identified as Tract 5 of the N. M. Ballard Survey, Abstract No. 99, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 1415 & 1501 E. IH-30, and take any action necessary.

Senior Planner, David Gonzales, advised the Commission that the applicant was present and would go over the case and staff is available for questions.

Vice-Chairman Trowbridge asked the applicant to come forward and speak.

Chris Cuny
FC Cuny Corporation
2 Horizon Court
Heath, TX

Mr. Cuny came forward and stated they are requesting approval of the site plan, they received staff comments back and for the most part they are okay with those, the met with the Architectural Review Board and they expressed some concern over the articulation in some of the side elevations with those comments they will go back to Subaru and work thru addressing those comments and concerns. They will be seeking a variance in a parking requirement but they will bring that forward at the next meeting.

There being no questions Vice-Chairman Trowbridge indicated the case will return to the Commission for action at the next scheduled meeting.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Dub Douphrate *of Douphrate & Associates, Inc.*

AGENDA ITEM: **P2017-051**; *Preliminary Plat for Carrier Drive Business Park*

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of BSKJ Development, Inc. for the approval of a preliminary plat for Lots 1-8, Block A, Carrier Drive Business Park Addition being a 17.0-acre portion of a larger 43.851-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-276 Overlay (SH-276 OV) District, generally located east of the intersection of SH-276 and John King Boulevard, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

- ✓ The *Carrier Drive Business Park Addition* will be composed of eight (8) non-residential lots on an approximately 17.0-acre portion of a larger 43.851-acre tract of land. All eight (8) lots will front onto Carrier Drive, which will be constructed and dedicated as a 60-ft right-of-way. Additionally, a 15-ft strip along SH-276 will be dedicated as right-of-way. A summary of the proposed density and dimensional requirements for properties within a Light Industrial (LI) District is as follows:

Table 1: Density and Dimensional Requirements

Minimum Lot Width	100’
Minimum Lot Depth	125’
Minimum Lot Area	12,500 SF
Minimum Front Yard Setback	25’
Minimum Side Yard Setback	15’
Minimum Side Yard Setback (with fire retardant wall)	0’
Maximum Impervious Coverage	95%
Maximum Height (SUP required > 60-ft)	120’
Minimum Rear Yard Setback (with fire retardant wall)	0’
Minimum Floor Area Ratio (FAR)	2:1
Maximum Lot Coverage	60%

Notes: *All Business Operations Including Storage Shall Be Conducted Within an Enclosed Building, Unless Specifically Authorized For The Use.*

- ✓ The purpose of the *preliminary plat* is to provide sufficient information to evaluate and review the general design of the development ensuring compliance with the comprehensive plan, the Unified Development Code, the thoroughfare plan, and the requirements of the subdivision ordinance. The proposed *preliminary plat* meets the intent and stated purpose for development of the site.

- ✓ Some of the properties within in this development will be subject to the SH-276 Overlay (SH-276 OV) District requirements.

- ✓ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *preliminary plats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this *preliminary plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *preliminary plat* for *Carrier Drive Business Park Addition,* staff would recommend the following conditions of approval:

1) The *preliminary plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 7, 2017. Please provide two FOLDED large copies [18" X 24"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements and standards as stipulated by the Planning, Engineering and Fire Departments.

2. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. Approval of a final treescape plan will be required at final plat.

3. Provide a label for the contours (s/b at 2-ft intervals).

4. Provide a label indicating "Case No. P2017-051" on the lower right corner on all pages of the revised submittal.

5. Hatch area designated as wetlannds.

6. Provide labels for and dimension all easements, open space area's, rights-of-ways, etc.

7. What type's of uses will there be on the property (i.e. retail, commercial, office)?

8. Provide a Lot and Block identification for each lot.

9. Provide right-of-way width for Discover Blvd.

10. Submittal and approval of civil engineering plans prior to submittal of final plat.

Staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Brian Kelly

AGENDA ITEM: **P2017-052;** *Lot 1, Block A, Kelly Ranch Addition*

SUMMARY:

Discuss and consider a request by Brian Kelly for the approval of a final plat for Lot 1, Block A, Kelly Ranch Addition being a 3.217-acre portion of a larger 9.195-acre tract of land identified as Tract 13-06 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 2.0 (SFE-2.0) District, addressed as 631 Hanby Lane, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a 3.217-acre portion of a larger 9.195-acre tract of land [*i.e. Tract 13-06 of the W. W. Ford Survey, Abstract No. 80*] into one (1) parcel of land [*Lot 1, Block A, Kelly Ranch Addition*] for the purpose of constructing a single-family home.
- ☑ On September 5, 2017, the City Council approved a request [*i.e. Case No. Z2017-032]* to rezone the subject property from an Agriculture (AG) District to a Single-Family Estate 2.0 (SFE-2.0) District.
- ☑ On November 7, 2017, the Park Board reviewed the Final Plat and made a recommendation to approve the plat with the following condition:
    1) The developer is to pay pro-rata equipment fees required in the amount of $532.00 and cash-in-lieu of land fees in the amount of $473.00 for a total amount of $1105.00.
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Lot 1 Block A, Kelly Ranch Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

General Notes:

1) It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owners of the land shown on this plat, and designated herein as KELLY RANCH ADDITION, LOT 1, BLOCK A, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the KELLY RANCH ADDITION have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

FLOOD INFORMATION:
A PORTION OF THE SUBJECT PROPERTY APPEARS TO LIE WITHIN THE LIMITS OF A 100-YEAR FLOOD HAZARD ZONE ACCORDING TO THE MAP PUBLISHED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY, AND HAS A ZONE "A, X" RATING AS SHOWN BY MAP NO. 48397C0110 L, DATED SEPTEMBER 26, 2008.

SURVEYOR'S CERTIFICATION:
THIS IS TO CERTIFY THAT ON THIS DATE A SURVEY WAS MADE ON THE GROUND, UNDER MY SUPERVISION AND REFLECTS A TRUE AND CORRECT REPRESENTATION OF THE DIMENSIONS AND CALLS OF PROPERTY LINES AND LOCATION AND TYPE OF IMPROVEMENTS. THERE ARE NO VISIBLE AND APPARENT EASEMENTS, CONFLICTS, INTRUSIONS OR PROTRUSIONS, EXCEPT AS SHOWN. THIS SURVEY IS NOT TO BE USED FOR CONSTRUCTION PURPOSES AND WAS PREPARED WITHOUT THE BENEFIT OF A TITLE COMMITMENT PROVIDED BY A TITLE COMPANY. THERE MAY BE EASEMENTS AND OTHER MATTERS OF RECORD AFFECTING THE PROPERTY SHOWN HEREON THAT ONLY A PROPER TITLE SEARCH WOULD REVEAL. THIS SURVEY IS SUBJECT TO ANY AND ALL COVENANT AND RESTRICTIONS PERTAINING TO THE RECORDED PLAT REFERENCED HEREON.

GENERAL NOTES:
1.) THE BASIS OF BEARINGS FOR THIS SURVEY WAS DERIVED FROM DATA PROVIDED ON THE DEED RECORDED IN VOL. 4062, PG. 212, D.R.R.C.T.
2.) THERE ARE NO VISIBLE CONFLICTS OR PROTRUSIONS, EXCEPT AS SHOWN. FENCES MAY BE MEANDERING.
3.) THIS SURVEY IS FOR THE EXCLUSIVE USE OF THE NAMED CLIENT, MORTGAGE COMPANY, TITLE COMPANY, OR OTHER.
4.) AS OF THIS DATE, ALL EASEMENTS, RIGHTS-OF-WAY OR OTHER LOCATABLE MATTERS OF RECORD SHOWN OR NOTED HEREON WERE DERIVED FROM THE RECORDED PLAT, THE VESTING DEED, OR THE TITLE REPORT AND SUPPORTING DOCUMENTS. ALL SUCH ITEMS WERE OBTAINED DURING THE RESEARCH PHASE OF THIS SURVEY OR PROVIDED BY THE CLIENT/TITLE COMPANY LISTED HEREON. PREMIER SURVEYING MAKES NO REPRESENTATION AS TO THE ACCURACY OR COMPLETENESS OF SUCH ITEMS AND HAS MADE NO ATTEMPTS TO OBTAIN OR SHOW ANY ADDITIONAL RESTRICTIONS ON OR NEAR THIS PROPERTY PUT IN PLACE BY LOCAL MUNICIPALITIES OR ASSOCIATIONS.
5.) THIS SURVEY IS NOT TO BE USED FOR CONSTRUCTION PURPOSES.
6.) THIS SURVEY IS NOT INTENDED TO ADDRESS OR IDENTIFY WETLANDS, FAULT LINES, TOXIC OR HAZARDOUS WASTE AREAS, SUBSIDENCE OR ANY OTHER ENVIRONMENTAL OR GEOLOGICAL ISSUE.
7.) THE EXISTING UTILITIES DEPICTED HEREON ARE BASED ON FIELD LOCATION OF VISIBLE, ABOVE GROUND EVIDENCE. UTILITIES AND OTHER MINOR IMPROVEMENTS MAY EXIST THAT ARE NOT SHOWN ON THIS SURVEY. PREMIER SURVEYING IS NOT RESPONSIBLE FOR THE EXACT LOCATION OF SUBSURFACE UTILITIES, NOR FOR ANY DAMAGES BY ANY CONSTRUCTION OR EXCAVATION ON OR NEAR SAID UTILITIES.
8.) SYMBOLS AS SHOWN IN THE LEGEND ARE NOT TO SCALE AND MAY HAVE BEEN MOVED FROM THE ACTUAL HORIZONTAL LOCATION FOR CLARITY.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Jim Douglas *of Douglas Properties, Inc.*

AGENDA ITEM: **P2017-054**; *Master Plat for Terracina Estates Addition*

SUMMARY:

Discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of a master plat for the Terracina Estates Subdivision consisting of 204 single-family lots on a 81.49-acre tract of land identified as Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

- ✓ The purpose of the applicant's submittal is to M*aster Plat* the *Terracina Estates Subdivision*. The *Terracina Estates Subdivision* is a two (2) phase, master planned community that will be composed of 204 single-family residential lots on an approximately 81.49-acre tract of land with *Phase 1* containing 110 lots and *Phase 2* containing 94 lots. The development will consist of two (2) lot types as indicated in the *Lot Composition* table below. Additionally, the development will consist of 18.97-acres of open space (*or ~23.3% of total land area*). A summary of the proposed *Lot Composition* is as follows:

Lot Composition:

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Maximum Dwelling Units (#)*	*Dwelling Units (%)*
A	65' x 125'	8,125 SF	174	85.29%
B	80' x 125'	10,000 SF	30	14.71%
		Maximum Permitted Units:	*204*	*100%*

- ✓ The purpose of the applicant's request is to provide a master plat that will delineate the sequence and timing of the development, and an open space plan that will layout the proposed trails, and amenities for the subdivision. According to the *Master Plat*, this development will be completed in two (2) phase that will contain a total of 204 single-family residential lots. Additionally, the development will incorporate a total of 18.97-acre (or 23.3%) of non-contiguous open space and will be connected via a trail system that runs through the development and along nine (9)-acre public park that will be dedicated as part of this development.

- ✓ On November 7, 2017 the Parks Board reviewed the proposed *Master Plat* and approved a motion to recommend approval of the plat with the following conditions:

    - 1) The detention pond will not be accepted and should be platted as separate lot and block to be maintained by the HOA. 2) The street adjacent to park land must comply with the engineering standards for wider street section adjacent to schools and open space intended to accommodate on street parallel parking. 3) All utilities shall be stubbed out to park side of the street, south of the street marked as Guadalupe Drive.

4) The developer may use the required fees within the park equal to or exceeding the mandatory fees at the time of final plat. 5) Final designs must be approved by staff and Park Board prior to construction approval.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *Master Plat* for the *Terracina Estates Subdivision* staff would recommend the following conditions of approval:

1) The *Master plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The applicant shall adhere to the recommendations made by the Parks Board (*stated above*);

3) Any construction resulting from the approval of this *Master Plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Jim Douglas *of Douglas Properties, Inc.*

AGENDA ITEM: **P2017-055**; *Preliminary Plat for Terracina Estates Addition, Phase I*

SUMMARY:

Discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of a preliminary plat for *Phase 1* of the Terracina Estates Subdivision consisting of 110 single-family lots on a 54.995-acre portion of a larger 81.49-acre tract of land identified as Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

- ✓ The purpose of the applicant's submittal is to *preliminary plat Phase 1* of the *Terracina Estates Subdivision*. The *Terracina Estates Subdivision* is a two (2) phase, master planned community that will be composed of 204 single-family residential lots on an approximately 81.49-acre tract of land with *Phase 1* containing 110 lots and *Phase 2* containing 94 lots. The development will consist of two (2) lot sizes as indicated in the *Lot Dimensional Requirements* table below. Additionally, the development will consist of 18.97-acres of open space (*or ~23.3% of total land area*). A summary of the proposed density and dimensional requirements is as follows:

Lot Dimensional Requirements:

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1] & [5]	65'	80'
Minimum Lot Depth	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF
Minimum Front Yard Setback [2]	20'	20'
Minimum Side Yard Setback	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'
Minimum Length of Driveway Pavement	25'	25'
Maximum Height [3]	36'	36'
Minimum Rear Yard Setback [4]	10'	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF	2,000 SF
Maximum Lot Coverage	65%	65%

General Notes:

[1]: *The minimum lot width shall be measured at the Front Yard Building Setback.*

[2]: *The location of the Front Yard Building Setback as measured from the front property line.*

[3]: *The Maximum Height shall be measured to the eave or top plate (whichever is greater) of the single family home.*

[4]: *As measured from the rear yard property line.*

[5]: *Lots fronting onto a curvilinear street, cul-de-sac or eyebrow may have the lot width reduced by up to 20% as measured at the front property line provided that the lot width is met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear*

streets, cul-de-sacs and eyebrows maybe reduced by up to ten (10%) percent, but shall meet the minimum lot size for each lot type.

- ✓ The purpose of the *preliminary plat* is to provide sufficient information to evaluate and review the general design of the development ensuring compliance with the comprehensive plan, the Unified Development Code, the thoroughfare plan, and the requirements of the subdivision ordinance. The proposed *preliminary plat* meets the intent and stated purpose for development of the site. In addition, the proposed *preliminary plat* generally conforms to the concept plan approved with Planned Development District 82 (PD-82) by the City Council on June 20, 2016 under *Case No. Z2016-013* [*Ordinance No. 16-43*].

- ✓ On November 7, 2017 the Parks Board reviewed the proposed *preliminary plat* and approved a motion to recommend approval with the following conditions:

    1) That the developer shall be required to pay pro-rata equipment fees in the amount of $58,410.00 (*i.e. 110 lots @ $531.00 per lot*) and shall be used to provide amenities to the 9.44-acre public park dedicated for Phase I of the development.

- ✓ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *preliminary plats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this *preliminary plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *preliminary plat* for *Phase 1* of the *Terracina Estates Subdivision* staff would recommend the following conditions of approval:

1) The *preliminary plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The applicant shall adhere to the recommendations made by the Parks Board;

3) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 7, 2017. Please provide two FOLDED large copies [18" X 24"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements stipulated by the PD Ordinance (PD-82) as amended.

2. The preliminary plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.

3. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. Approval of a final treescape plan will be required at final plat.

4. Provide a label indicating the width of the lot at the build line for the following lots: 8, 9, 10, 11, & 12, Block B. Must be a minimum of 50-ft at the build line.

5. The preliminary plat shall conform to Park District No. 22 requirements and the recommendations made by the Parks Board at their regularly scheduled meeting on November 7, 2017.

6. Provide a label indicating "Case No. P2017-055" on the lower right corner on all pages of the revised submittal.

7. Submittal and approval of civil engineering plans prior to submittal of final plat.

Although not requried staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

RE: TERRACINA ESTATES PD 82
ROCKWALL, TX

Dear Mr. Miller:

We hereby request that the master plat and preliminary plat application for Terracina Estates be amended to include only the area covered in PD 82. The preliminary plat for phase 1 includes only the area currently in PD 82. We would like to move forward with on our current schedule which includes the park board meeting tonight.

If you have any questions or if we can be of any further assistance, please do not hesitate to contact our office.

Sincerely,

Richard Hovas, P.E.

Notes:

1. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83-NCF).
2. A 1/2-inch iron rod will be set at all lot corners, points of curvature, points of tangency and angle points in public rights-of-way whenever possible unless otherwise shown or noted in this drawing, after all construction for this subdivision has been completed.
3. By graphical plotting, the parcel shown hereon lies within Zone X, as delineated on the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map, Map Number 48397C0045L, dated September 26, 2008. Zone X is defined as "Areas determined to be outside the 0.2% annual chance floodplain." The Surveyor utilized the above referenced floodplain information for this determination and the Surveyor does not certify that revised floodplain information has or has not been published by FEMA or some other source. On occasion, greater floods can and will occur and flood heights may be increased by man-made or natural causes. The above flood statement shall not create liability on the part of the surveyor.
4. All Open Space tracts, Drainage, & Detention Easements will be maintained, repaired and replaced by the Homeowners Association.

GENERAL CONSTRUCTION NOTES

1. ALL CONSTRUCTION, TESTING, AND MATERIALS SHALL BE IN ACCORDANCE WITH THE CITY'S CURRENT STANDARDS, DETAILS, AND SPECIFICATIONS.
2. PRIOR TO ANY CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL BE FAMILIAR WITH THE PLANS INCLUDING ALL NOTES, STANDARD SPECIFICATIONS, DETAILS, AND CITY STANDARDS.
3. TESTING AND INSPECTION OF MATERIALS SHALL BE PERFORMED BY A COMMERCIAL TESTING LABORATORY APPROVED BY THE CLIENT AND CITY. CONTRACTOR SHALL FURNISH MATERIALS OR SPECIMENS FOR TESTING, AND SHALL FURNISH SUITABLE EVIDENCE THAT THE MATERIALS PROPOSED TO BE INCORPORATED INTO THE WORK ARE IN ACCORDANCE WITH THE SPECIFICATIONS.
4. CONTRACTOR SHALL NOTIFY THE CITY AT LEAST 48 HOURS PRIOR TO BEGINNING ANY CONSTRUCTION.
5. CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL NECESSARY PERMITS AND APPROVALS PRIOR TO BEGINNING ANY CONSTRUCTION.
6. CONTRACTOR MUST KEEP AVAILABLE ON-SITE AT ALL TIMES APPROVED CONSTRUCTION PLANS AND COPIES OF ANY REQUIRED PERMITS ALONG WITH THE CURRENT VERSIONS OF THE FOLLOWING REFERENCES: CITY OF ROCKWALL ENGINEERING STANDARDS, NCTCOG SPECIFICATIONS, TXDOT SPECIFICATIONS, TXDOT STANDARD DRAWINGS.
7. ALL SHOP DRAWINGS, WORKING DRAWINGS OR OTHER DOCUMENTS WHICH REQUIRE REVIEW BY THE CITY SHALL BE SUBMITTED BY THE CONTRACTOR SUFFICIENTLY IN ADVANCE OF SCHEDULED CONSTRUCTION TO ALLOW NO LESS THAN 14 CALENDAR DAYS FOR REVIEW AND RESPONSE BY THE CITY.
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL REQUIRED CONSTRUCTION SURVEYING AND STAKING AND SHALL NOTIFY THE CLIENT AND CITY OF ANY DISCREPANCIES PRIOR TO PROCEEDING WITH ANY WORK.
9. CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING ALL SURVEY MARKERS INCLUDING IRON RODS, PROPERTY CORNERS, OR SURVEY MONUMENTS WITHIN THE LIMITS OF CONSTRUCTION AND OUTSIDE ROW DURING CONSTRUCTION. ANY SURVEY MARKERS DISTURBED DURING CONSTRUCTION SHALL BE REPLACED BY THE CONTRACTOR AT NO COST TO THE CLIENT.
10. CONTRACTOR IS RESPONSIBLE FOR KEEPING STREETS AND DRIVEWAYS ADJACENT TO THE PROJECT FREE OF MUD AND DEBRIS AT ALL TIMES. CONTRACTOR SHALL CLEAN UP AND REMOVE ALL LOOSE MATERIAL RESULTING FROM CONSTRUCTION OPERATIONS. THE CONTRACTOR SHALL TAKE ALL AVAILABLE PRECAUTIONS TO CONTROL DUST.
11. THE EXISTENCE AND LOCATIONS OF THE PUBLIC AND FRANCHISE UTILITIES SHOWN ON THE DRAWINGS WERE OBTAINED FROM AVAILABLE RECORDS AND ARE APPROXIMATE. THE CONTRACTOR SHALL DETERMINE THE DEPTH AND LOCATION OF EXISTING UNDERGROUND UTILITIES PRIOR TO EXCAVATING, TRENCHING, OR DRILLING AND SHALL BE REQUIRED TO TAKE ANY PRECAUTIONARY MEASURES TO PROTECT ALL LINES SHOWN AND / OR ANY OTHER UNDERGROUND UTILITIES NOT OF RECORD OR NOT SHOWN ON THE PLANS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CONTACTING ALL PUBLIC AGENCIES AND FRANCHISE UTILITIES 48 HOURS PRIOR TO CONSTRUCTION. (DIG-TESS 1-800-344-8377) THE CONTRACTOR MAY BE REQUIRED EXPOSE THESE FACILITIES AT NO COST TO THE CITY. THE CONTRACTOR WILL BE RESPONSIBLE FOR DAMAGES TO UTILITIES IF THE DAMAGE IS CAUSED BY NEGLIGENCE OR FAILURE TO HAVE LOCATES PERFORMED.
12. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO EXISTING FACILITIES OR ADJACENT PROPERTIES DURING CONSTRUCTION. ANY REMOVAL OR DAMAGE TO EXISTING FACILITIES SHALL BE REPLACED OR REPAIRED TO EQUAL OR BETTER CONDITION BY THE CONTRACTOR.
13. CONTRACTOR SHALL BE RESPONSIBLE FOR FURNISHING AND INSTALLING ALL TEMPORARY AND PERMANENT TRAFFIC CONTROL IN ACCORDANCE WITH THE MINIMUM REQUIREMENTS OF THE LATEST REVISION OF THE TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (TMUTCD) AND TXDOT BARRICADE AND CONSTRUCTION STANDARDS.
14. CONTRACTOR SHALL NOT IMPEDE TRAFFIC ON EXISTING STREETS, DRIVEWAYS, ALLEYS, OR FIRE LANES OPEN TO THE PUBLIC. IN THE EVENT THE CONSTRUCTION WORK REQUIRES THE CLOSURE OF AN EXISTING STREET, ALLEY, OR FIRE LANE, THE CONTRACTOR SHALL REQUEST THE ROAD CLOSURE THROUGH THE CITY TRAFFIC DIVISION.
15. CONTRACTOR SHALL NOT STORE MATERIALS, EQUIPMENT OR OTHER CONSTRUCTION ITEMS ON ADJACENT PROPERTIES OR RIGHT-OF-WAY WITHOUT THE PRIOR WRITTEN CONSENT OF THE PROPERTY OWNER AND THE CITY.
16. TEMPORARY FENCING SHALL BE INSTALLED PRIOR TO THE REMOVAL OF EXISTING FENCING. TEMPORARY FENCING SHALL BE REMOVED AFTER PROPOSED FENCING IS APPROVED BY THE CITY. ALL TEMPORARY AND PROPOSED FENCING LOCATIONS SHALL BE SUBJECT TO FIELD REVISIONS AS DIRECTED BY THE CITY.
17. UNUSABLE EXCAVATED MATERIAL, OR CONSTRUCTION DEBRIS SHALL BE REMOVED AND DISPOSED OF OFFSITE AT AN APPROVED DISPOSAL FACILITY BY THE CONTRACTOR AT HIS EXPENSE.
18. CONTRACTOR SHALL AVOID DAMAGE TO EXISTING TREES. WHEN NECESSARY, TREES AND SHRUB TRIMMING FOR CONSTRUCTION SHALL BE PERFORMED BY CERTIFIED TREE WORKER OR UNDER THE DIRECTION OF A REGISTERED LANDSCAPE ARCHITECT OR CERTIFIED ARBORIST.
19. EROSION CONTROL DEVICES SHALL BE INSTALLED ON ALL PROJECTS PRIOR TO BEGINNING CONSTRUCTION AND SHALL BE MAINTAINED THROUGHOUT THE PROJECT IN A CONDITION ACCEPTABLE TO THE CITY.
20. CONTRACTOR SHALL LOCATE AND PROTECT ALL EXISTING LANDSCAPE IRRIGATION SYSTEMS. DAMAGE TO EXISTING IRRIGATION SYSTEMS AND LANDSCAPE MATERIALS SHALL BE RESTORED TO EQUAL OR BETTER CONDITION AT NO COST TO CITY OR CLIENT.
21. IT IS THE CONTRACTOR'S RESPONSIBILITY TO MAINTAIN A NEAT AND ACCURATE RECORD OF CONSTRUCTION FOR THE CLIENT'S AND CITY'S RECORDS.

INSPECTIONS:
1. NO EXCAVATION SHALL OCCUR IN CITY R.O.W. WITHOUT A R.O.W. PERMIT--CONTACT THE PUBLIC WORKS DEPARTMENT.
2. THE CONTRACTOR SHALL MARK ALL WATER LINES, SEWER LINES, AND TREE LOCATIONS PRIOR TO CALLING FOR ROW INSPECTION AND PERMIT.
3. THE LANDSCAPE INSTALLATION SHALL COMPLY WITH APPROVED LANDSCAPE DRAWINGS PRIOR TO FINAL ACCEPTANCE BY THE CITY AND ISSUANCE OF A CERTIFICATE OF OCCUPANCY.
4. WATER METERS, CLEANOUTS AND OTHER APPURTENANCES, SHALL BE ACCESSIBLE, ADJUSTED TO GRADE, CLEARLY MARKED WITH FLAGGING AND COMPLIANT WITH PUBLIC WORKS DEPARTMENT STANDARDS PRIOR TO CALLING FOR FINAL LANDSCAPE AND ROW INSPECTIONS.

LANDSCAPE STANDARDS:
1. PLANTINGS AND LANDSCAPE ELEMENTS SHALL COMPLY WITH THE CITY'S ENGINEERING DESIGN STANDARDS, PUBLIC R.O.W. VISIBILITY REQUIREMENTS.
2. UNLESS OTHERWISE SPECIFIED, TREES SHALL BE PLANTED NO LESS THAN 4' FROM CURBS, SIDEWALKS, UTILITY LINES, SCREENING WALLS AND OTHER STRUCTURES. THE CITY HAS FINAL APPROVAL FOR ALL TREE PLACEMENTS.
3. A MINIMUM THREE FEET (3') RADIUS AROUND A FIRE HYDRANT MUST REMAIN CLEAR OF LANDSCAPE PURSUANT TO THE FIRE CODE.
4. STREET TREES, WHERE REQUIRED, SHALL BE (10') MINIMUM FROM THE EDGE OF A STORM SEWER CURB INLET BOX AND THE EDGE OF THE ROOT BALL SHALL BE (4') MINIMUM FROM THE WATER METER.
5. THE AMERICAN STANDARD FOR NURSERY STOCK (ANSI Z60.1-2014) SPECIFICATIONS SHALL GOVERN PLANT QUALIFICATIONS, GRADES, AND STANDARDS.
6. TREE PLANTING SHALL COMPLY WITH DETAILS HEREIN AND THE INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) STANDARDS.
7. A 2-3" LAYER OF MULCH SHALL BE PROVIDED AROUND THE BASE OF THE PLANTED TREE. THE MULCH SHALL BE PULLED BACK 4" FROM THE TRUNK OF THE TREE.
8. TREE PITS SHALL BE TESTED FOR WATER PERCOLATION. IF WATER DOES NOT DRAIN OUT OF TREE PIT WITHIN 24-HOURS, THE TREE SHALL BE MOVED OR DRAINAGE SHALL BE PROVIDED.
9. ALL BEDS TO HAVE 3" OF COMPOSTED SOIL, LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL TILLED AND TURNED TO A DEPTH OF 8" MINIMUM.
10. ALL PLANT BEDS SHALL BE TOP-DRESSED WITH A MINIMUM OF 3 INCHES OF HARDWOOD MULCH.
11. NATIVE SITE TOPSOIL IS TO BE PROTECTED FROM EROSION OR STOCKPILED. NATIVE SITE TOPSOIL SHALL BE LABORATORY TESTED BY AND ACCREDITED LABORATORY AND AMENDED PER SAID LABORATORY'S RECOMMENDATIONS.

IRRIGATION STANDARDS:
1. ANY CHANGES TO THESE APPROVED IRRIGATION DRAWINGS SHALL BE AUTHORIZED BY THE CITY.
2. CONTACT DEVELOPMENT SERVICES FOR AN IRRIGATION PERMIT PRIOR TO INSTALLING THE IRRIGATION SYSTEM.
3. IRRIGATION OVER-SPRAY ON STREETS AND WALKS IS PROHIBITED.
4. MAINLINES, VALVES, OR CONTROL WIRES SHALL NOT BE LOCATED IN THE CITY'S ROW.
5. ET IRRIGATION CONTROLLERS SHALL BE PROGRAMMED AND ADJUSTED TO NOT EXCEED THE LANDSCAPE WATER ALLOWANCE (LWA) PRIOR TO APPROVAL OF LANDSCAPE INSTALLATION.
6. VALVES SHALL BE LOCATED A MINIMUM OF (3') AWAY FROM STORM SEWERS, AND SANITARY SEWER LINES AND 5 FEET FROM CITY FIRE HYDRANTS AND WATER VALVES.
7. THE BORE DEPTH UNDER STREETS, DRIVE AISLES, AND FIRE LANES SHALL PROVIDE (2') OF CLEARANCE (MINIMUM).
8. IRRIGATION HEADS THAT RUN PARALLEL AND NEAR PUBLIC WATER AND SANITARY SEWER LINES; SHALL BE FED FROM STUBBED LATERALS OR BULL-BEADS. A MINIMUM FIVE FOOT (5') SEPARATION IS REQUIRED BETWEEN IRRIGATION MAIN LINES AND LATERALS THAT RUN PARALLEL TO PUBLIC WATER AND SANITARY SEWER LINES.
9. NO VALVES, BACKFLOW PREVENTION ASSEMBLIES, QUICK COUPLERS ETC. SHALL BE LOCATED CLOSER THAN 10' FROM THE CURB AT STREET OR DRIVE INTERSECTION.

MAINTENANCE STANDARDS:
1. THE OWNER SHALL BE RESPONSIBLE FOR THE ESTABLISHMENT, MAINTENANCE, AND VIGOR OF PLANT MATERIAL IN ACCORDANCE WITH THE DESIGN INTENT AND AS APPROPRIATE FOR THE SEASON OF THE YEAR.
2. LANDSCAPE AND OPEN AREAS SHALL BE FREE OF TRASH, LITTER AND WEEDS.
3. NO PLANT MATERIAL SHALL BE ALLOWED TO ENCROACH ON R.O.W., SIDEWALKS OR EASEMENTS TO THE EXTENT THAT VISION OR ROUTE OF TRAVEL FOR VEHICULAR, PEDESTRIAN, OR BICYCLE TRAFFIC IS IMPEDED.
4. TREE MAINTENANCE SHALL BE IN ACCORDANCE WITH THE STANDARDS OF THE INTERNATIONAL SOCIETY OF ARBORICULTURE.
5. TREE STAKING MATERIALS, IF USED, SHALL BE REMOVED AFTER (1) GROWING SEASON, NO MORE THAN (1) YEAR AFTER INSTALLATION (STEEL TREE STAKES, WIRES, AND HOSES ARE PROHIBITED).

TREE PROTECTION NOTES:
1. CONTACT DEVELOPMENT SERVICES FOR A TREE REMOVAL PERMIT PRIOR TO REMOVAL OR TRANSPLANTING OF ANY TREES.
2. ALL TREES WHICH ARE TO REMAIN ON SITE SHALL BE PROTECTED WITH A (4') TALL BRIGHTLY COLORED PLASTIC FENCE, OR SILT FENCE, PLACED AT THE DRIP LINE OF THE TREES.
3. PRIOR TO THE PRE-CONSTRUCTION MEETING OR OBTAINING A GRADING PERMIT, ALL TREE MARKINGS AND PROTECTIVE FENCING SHALL BE INSTALLED BY THE OWNER AND BE INSPECTED BY DEVELOPMENT SERVICES.
4. NO EQUIPMENT SHALL BE CLEANED, OR HARMFUL LIQUIDS DEPOSITED WITHIN THE LIMITS OF THE ROOT ZONE OF TREES WHICH REMAIN ON SITE.
5. NO SIGNS, WIRES, OR OTHER ATTACHMENTS SHALL BE ATTACHED TO ANY TREE TO REMAIN ON SITE.
6. VEHICULAR AND CONSTRUCTION EQUIPMENT SHALL NOT PARK OR DRIVE WITHIN THE LIMITS OF THE DRIP LINE.
7. GRADE CHANGES IN EXCESS OF 3 INCHES (CUT OR FILL) SHALL NOT BE ALLOWED WITHIN A ROOT ZONE, UNLESS ADEQUATE TREE PRESERVATION METHODS ARE APPROVED BY THE CITY.
8. NO TRENCHING SHALL BE ALLOWED WITHIN THE DRIP-LINE OF A TREE, UNLESS APPROVED BY THE CITY.
9. ALL REMOVED TREES SHALL BE CHIPPED AND USED FOR MULCH ON SITE OR HAULED OFF-SITE.
10. ALL TREE MAINTENANCE TECHNIQUES SHALL BE IN CONFORMANCE WITH INDUSTRY IDENTIFIED STANDARDS. IMPROPER OR MALICIOUS PRUNING TECHNIQUES ARE STRICTLY PROHIBITED.

DRILLED PIERS
1. PIERS NOT SPECIFICALLY LOCATED ON THE PLAN SHALL BE CENTERED ON WALL OR BEAM.
2. PIER REINFORCING AND CONCRETE SHALL BE PLACED IMMEDIATELY OR TO WITHIN A MAXIMUM OF 8 HOURS AFTER DRILLING IS COMPLETE.
3. STEEL CASING IS REQUIRED WHEN MORE THAN 2 INCHES OF STANDING WATER IS PRESENT AT THE BOTTOM OF THE SHAFTS PRIOR TO PLACEMENT OF STEEL AND CONCRETE.
4. PROVIDE 64 BAR DIAMETER LAP SPLICES IN ALL VERTICAL PIER REINFORCING AS REQUIRED
5. PROVIDE PIER TO GRADE BEAM DOWELS TO MATCH SIZE, QUANTITY, AND LOCATION OF LONGITUDINAL PIER REINFORCING. MIN DOWEL PROJECTION INTO PIER = 30 BAR DIA. MIN DOWEL PROJECTION INTO BEAM = TOP LONGITUDINAL GRADE BEAM REINFORCING. PROVIDE STANDARD HOOK AT TERMINAL END OF DOWEL IN GRADE BEAM.

STRUCTURAL CONCRETE MASONRY UNIT
1. CONCRETE MASONRY UNITS SHALL BE HOLLOW LOAD-BEARING TYPE N-1 CONFORMING TO ASTM C90 AND HAVE A MINIMUM COMPRESSIVE STRENGTH OF 1900 PSI.
2. CONCRETE MASONRY UNITS SHALL HAVE A MINIMUM PRISM STRENGTH OF 1500 PSI AT 28 DAYS.
3. MORTAR SHALL BE ASTM C270, TYPE S, WITH A MINIMUM COMPRESSIVE STRENGTH of 1900 PSI IN ACCORDANCE WITH ASTM C780. MASONRY CEMENT IS PROHIBITED.
4. COARSE GROUT SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 2500 PSI AND A MAXIMUM AGGREGATE SIZE OF ½" IN ACCORDANCE WITH ASTM C476.REFER TO DETAILS FOR WALL REINFORCING BAR SIZE AND SPACING.
5. REINFORCE HORIZONTAL JOINTS WITH GALVANIZED LADDER-TYPE STEEL IN ACCORDANCE WITH ANSI/ASTM A82. SIDE AND CROSS RODS SHALL BE 9 GA MINIMUM.
6. HORIZONTAL REINFORCEMENT SHALL BE SPACED AT 16" MAXIMUM. PROVIDE A 16" LAP AT SPLICES.
7. JOINT REINFORCING SHALL BE DISCONTINUOUS AT CONTROL AND EXPANSION JOINTS.
8. LAP VERTICAL REINFORCING BARS AT 72 BAR DIAMETERS.
9. LAP HORIZONTAL REINFORCING BARS AT 48 BAR DIAMETERS.
10. PLACE GROUT USING LOW-LIFT METHOD, 6'-8" MAXIMUM LIFTS.

GENERAL NOTES:
1. PAVING TO HAVE A 2% CROSS SLOPE AS SHOWN.
2. THE MATERIALS AND WORKMANSHIP FOR CONCRETE PAVING SHALL BE IN ACCORDANCE WITH N.C.T.C.O.G. SPECIFICATIONS OR AS MODIFIED BY THE CITY.

CONSTRUCTION NOTES:
- A. 3000 PSI CONCRETE SIDEWALK.
- B. MEDIUM BROOM FINISH
- C. FINISH GRADE, PROVIDE POSITIVE DRAINAGE AWAY FROM CONCRETE, SLOPE AWAY FROM SIDEWALK AT MAX. 2%.

GENERAL SIDEWALK NOTES

1. THE LAYOUT OF ALL PROPOSED PAVING SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR AND SHALL BE REVIEWED BY THE OWNER'S REPRESENTATIVE PRIOR TO CONSTRUCTION.
2. ALL PAVING CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE CONSTRUCTION DETAILS SHOWN HEREIN.
3. THE SUB GRADE BENEATH ALL PAVING SHALL BE COMPACTED TO 95% STANDARD PROCTOR DENSITY.
4. THE EDGES OF ALL FINISHED PAVING AND PLAYGROUND EDGES SHALL BE SMOOTH, GRACEFUL CURVILINEAR OR STRAIGHTFORMS WITH NO INTERRUPTIONS SUCH AS CHORDS, WAVES, JOGS, OR MISSED TANGENTS. ANY PAVEMENT WITH SUCH INTERRUPTIONS SHALL BE SUBJECT TO REPLACEMENT AT NO COST TO THE OWNER.
5. CONCRETE SHALL NOT BE POURED UNTIL THE OWNER'S REPRESENTATIVE HAS INSPECTED THE FORMS AND REINFORCING. THE CONTRACTOR SHALL NOTIFY THE OWNER'S REPRESENTATIVE AT LEAST 48 HOURS IN ADVANCE OF ALL CONCRETE POURS.
6. PROVIDE AN UNDERCUT HEADER WHEREVER PROPOSED CONCRETE PAVING IS TO ABUT EXISTING CONCRETE PAVING.
7. ALL EXPOSED VERTICAL CONCRETE SURFACES SHALL HAVE A HAND RUBBED FINISH WITH NO HONEYCOMBS OR VOIDS.
8. ALL CONSTRUCTION SHALL CONFORM WITH THE CITY OF ROCKWALL CONSTRUCTION STANDARDS AND DETAILS.

GENERAL NOTES:
1. LOCATE EXPANSION JOINTS PER PLAN. EXPANSION JOINTS SHALL BE SPACED ON 20'-0" CENTERS MAX.

CONSTRUCTION NOTES:
- A. #4 SMOOTH DOWEL 18" LONG EACH W/ CAP, LUBRICATED, TYPICAL DOWEL SPACING SHALL BE 12" O.C.

GENERAL MATERIAL SPECIFICATIONS & NOTES:

1. ALL STRUCTURAL STEEL TUBING SHALL BE ASTM A-500 GRADE B-C.
2. ALL OTHER STEEL (PLATES,GUSSETS,ETC.) SHALL BE ASTM A-36.
3. ALL WELDING IS TO BE DONE IN ACCORDANCE WITH LATEST AWS STANDARDS. ALL WELDS ARE TO DEVELOP FULL STRENGTH OF COMPONENT PARTS. (E1T08 1 ELECTRODES)
4. INCLUDED HARDWARE IS TO BE ASTM A-325 UNLESS OTHERWISE NOTED.
5. PRODUCTION OF LAMINATED MATERIALS WILL BE IN ACCORDANCE WITH THE AMERICAN NATIONAL STANDARD ANSI A190.1 *STRUCTURAL GLUED LAMINATED TIMBER.*
6. IF INCLUDED TONGUE & GROOVE WILL BE #1 Grade V-GROOVED SYP CONTAINING 15-20% MOISTURE CONTENT.
7. POWDER COATING PROCESS
   - STAGE 1 - Blast all steel to "Near White" condition to remove all surface rust and oil.
   - STAGE 2 - Remove dust from the blast process in stage 1.
   - STAGE 3- This stage is the Electrostatic Application of Epoxy TGIC Powder Coating Zinc Rich Primer. Unlike any other shelter manufacturer, we are utilizing an actual TGIC Zinc Powder Coating Rich Primer. This stage 3 application is applied at 3 mils and has been salt spray tested for 4,000 + hours using the ASTM Method B117. (Note: The 4,000 hours of salt spray testing is only with the Zinc Rich TGIC Powder Coat Primer and before the Stage 5.
   - STAGE 4- This process heats the steel and primer to ensure optimal adhesion with the next stage.
   - STAGE 5- This stage is the Electrostatic application of TGIC Top Powder Coat at 3 mils. This application, along with the Stage 4 Epoxy TGIC Powder Coating Zinc Rich Primer, produces a total of 6 mils of finished Powder Coating and has tested at 5,000+ hours using the ASTM Method B117. It is important to note that testing was discontinued at 5,000 hours.
   - STAGE 6- Curing Process: The final stage is to allow coated components the time to cure by cooling down..
8. IF INCLUDED METAL ROOFING IS TO BE ACRYLIC COATED GALVALUME® FLUROPOLYMER (Kynar 500® PVDF resin-based). ALL METAL ROOFING WILL COME PRE-CUT UNLESS NOTED OTHERWISE. METAL ROOFING TRIMS WILL COME IN STANDARD SECTIONS AND WILL REQUIRE NOTCHING OR CUTTING IN FIELD.

GENERAL NOTES:

- UNLESS REQUESTED THIS BUILDING HAS BEEN DESIGNED AS A FREE STANDING, OPEN STRUCTURE. IF WALLS ARE TO BE ADDED, OR IF THE BUILDING IS TO ADJOIN ANOTHER STRUCTURE, OR IF OTHER MODIFICATIONS ARE TO BE MADE, THE STRUCTURE MUST BE REENGINEERED PRIOR TO THESE MODIFICATIONS.
- IF SPECIFICATIONS ARE PROVIDED ALL DESIGNS ARE TO BE CONSIDERED TO BE AS EQUAL AND NOT AN EXACT MATCH. DESIGNS WILL CONFORM TO SRPS MANUFACTURING METHODS AND MATERIALS AVAILABLE.

FOUNDATION NOTE:
All foundation design information should be considered as preliminary only. A local soils engineer shall be retained to design the foundation according to local conditions and codes. Final design of the footing/foundation is the responsibility of the general contractor/owner. SRP's anaylysis and design will pertaion strictly to a pier foundation to adaquatly support structures. All other foundation/masonary design requirements by others

MISC. INFORMATION:

- Any unique design requirements should be mentioned up front during quoting or prior to purchasing sealed drawings.
- If available providing a soils report with the purchase of the sealed drawings may help to reduce footer requirements.
- SRP utalizes cylindrical footer designs as an industry standard. If specifically r equested or special conditions require, SRP will provide spread footer designs.
- Epoxy analysis designs will require seperate fees upon request.
- As a safe practice it is suggested to acquire sealed drawings prior to purchase of structures.

GENERAL LANDSCAPE NOTES

INSPECTIONS:
1. NO EXCAVATION SHALL OCCUR IN CITY R.O.W. WITHOUT A R.O.W. PERMIT--CONTACT THE PUBLIC WORKS DEPARTMENT.
2. THE CONTRACTOR SHALL MARK ALL WATER LINES, SEWER LINES, AND TREE LOCATIONS PRIOR TO CALLING FOR ROW INSPECTION AND PERMIT.
3. THE LANDSCAPE INSTALLATION SHALL COMPLY WITH APPROVED LANDSCAPE DRAWINGS PRIOR TO FINAL ACCEPTANCE BY THE CITY AND ISSUANCE OF A CERTIFICATE OF OCCUPANCY.
4. WATER METERS, CLEANOUTS AND OTHER APPURTENANCES, SHALL BE ACCESSIBLE, ADJUSTED TO GRADE, CLEARLY MARKED WITH FLAGGING AND COMPLIANT WITH PUBLIC WORKS DEPARTMENT STANDARDS PRIOR TO CALLING FOR FINAL LANDSCAPE AND ROW INSPECTIONS.

LANDSCAPE STANDARDS:
1. PLANTINGS AND LANDSCAPE ELEMENTS SHALL COMPLY WITH THE CITY'S ENGINEERING DESIGN STANDARDS, PUBLIC R.O.W. VISIBILITY REQUIREMENTS.
2. UNLESS OTHERWISE SPECIFIED, TREES SHALL BE PLANTED NO LESS THAN 4' FROM CURBS, SIDEWALKS, UTILITY LINES, SCREENING WALLS AND OTHER STRUCTURES. THE CITY HAS FINAL APPROVAL FOR ALL TREE PLACEMENTS.
3. A MINIMUM THREE FEET (3') RADIUS AROUND A FIRE HYDRANT MUST REMAIN CLEAR OF LANDSCAPE PURSUANT TO THE FIRE CODE.
4. STREET TREES, WHERE REQUIRED, SHALL BE (10') MINIMUM FROM THE EDGE OF A STORM SEWER CURB INLET BOX AND THE EDGE OF THE ROOT BALL SHALL BE (4') MINIMUM FROM THE WATER METER.
5. THE AMERICAN STANDARD FOR NURSERY STOCK (ANSI Z60.1-2004) SPECIFICATIONS SHALL GOVERN PLANT QUALIFICATIONS, GRADES, AND STANDARDS.
6. TREE PLANTING SHALL COMPLY WITH DETAILS HEREIN AND THE INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) STANDARDS.
7. A 2-3" LAYER OF MULCH SHALL BE PROVIDED AROUND THE BASE OF THE PLANTED TREE. THE MULCH SHALL BE PULLED BACK 4" FROM THE TRUNK OF THE TREE.
8. TREE PITS SHALL BE TESTED FOR WATER PERCOLATION. IF WATER DOES NOT DRAIN OUT OF TREE PIT WITHIN 24-HOURS, THE TREE SHALL BE MOVED OR DRAINAGE SHALL BE PROVIDED.
9. ALL BEDS TO HAVE 3" OF COMPOSTED SOIL, LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL TILLED AND TURNED TO A DEPTH OF 8" MINIMUM.
10. ALL PLANT BEDS SHALL BE TOP-DRESSED WITH A MINIMUM OF 3 INCHES OF HARDWOOD MULCH.
11. NATIVE SITE TOPSOIL IS TO BE PROTECTED FROM EROSION OR STOCKPILED. NATIVE SITE TOPSOIL SHALL BE LABORATORY TESTED BY AND ACCREDITED LABORATORY AND AMENDED PER SAID LABORATORY'S RECOMMENDATIONS.

IRRIGATION STANDARDS:
1. ANY CHANGES TO THESE APPROVED IRRIGATION DRAWINGS SHALL BE AUTHORIZED BY THE CITY.
2. CONTACT DEVELOPMENT SERVICES FOR AN IRRIGATION PERMIT PRIOR TO INSTALLING THE IRRIGATION SYSTEM.
3. IRRIGATION OVER-SPRAY ON STREETS AND WALKS IS PROHIBITED.
4. MAINLINES, VALVES, OR CONTROL WIRES SHALL NOT BE LOCATED IN THE CITY'S ROW.
5. ET IRRIGATION CONTROLLERS SHALL BE PROGRAMMED AND ADJUSTED TO NOT EXCEED THE LANDSCAPE WATER ALLOWANCE (LWA) PRIOR TO APPROVAL OF LANDSCAPE INSTALLATION.
6. VALVES SHALL BE LOCATED A MINIMUM OF (3') AWAY FROM STORM SEWERS, AND SANITARY SEWER LINES AND 5 FEET FROM CITY FIRE HYDRANTS AND WATER VALVES.
7. THE BORE DEPTH UNDER STREETS, DRIVE AISLES, AND FIRE LANES SHALL PROVIDE (2') OF CLEARANCE (MINIMUM).
8. IRRIGATION HEADS THAT RUN PARALLEL AND NEAR PUBLIC WATER AND SANITARY SEWER LINES; SHALL BE FED FROM STUBBED LATERALS OR BULL-BEADS. A MINIMUM FIVE FOOT (5') SEPARATION IS REQUIRED BETWEEN IRRIGATION MAIN LINES AND LATERALS THAT RUN PARALLEL TO PUBLIC WATER AND SANITARY SEWER LINES.
9. NO VALVES, BACKFLOW PREVENTION ASSEMBLIES, QUICK COUPLERS ETC. SHALL BE LOCATED CLOSER THAN 10' FROM THE CURB AT STREET OR DRIVE INTERSECTION.

MAINTENANCE STANDARDS:
1. THE OWNER SHALL BE RESPONSIBLE FOR THE ESTABLISHMENT, MAINTENANCE, AND VIGOR OF PLANT MATERIAL IN ACCORDANCE WITH THE DESIGN INTENT AND AS APPROPRIATE FOR THE SEASON OF THE YEAR.
2. LANDSCAPE AND OPEN AREAS SHALL BE FREE OF TRASH, LITTER AND WEEDS.
3. NO PLANT MATERIAL SHALL BE ALLOWED TO ENCROACH ON R.O.W., SIDEWALKS OR EASEMENTS TO THE EXTENT THAT VISION OR ROUTE OF TRAVEL FOR VEHICULAR, PEDESTRIAN, OR BICYCLE TRAFFIC IS IMPEDED.
4. TREE MAINTENANCE SHALL BE IN ACCORDANCE WITH THE STANDARDS OF THE INTERNATIONAL SOCIETY OF ARBORICULTURE.
5. TREE STAKING MATERIALS, IF USED, SHALL BE REMOVED AFTER (1) GROWING SEASON, NO MORE THAN (1) YEAR AFTER INSTALLATION (STEEL TREE STAKES, WIRES, AND HOSES ARE PROHIBITED).

TREE PROTECTION NOTES:
1. CONTACT DEVELOPMENT SERVICES FOR A TREE REMOVAL PERMIT PRIOR TO REMOVAL OR TRANSPLANTING OF ANY TREES.
2. ALL TREES WHICH ARE TO REMAIN ON SITE SHALL BE PROTECTED WITH A (4') TALL BRIGHTLY COLORED PLASTIC FENCE, OR SILT FENCE, PLACED AT THE DRIP LINE OF THE TREES.
3. PRIOR TO THE PRE-CONSTRUCTION MEETING OR OBTAINING A GRADING PERMIT, ALL TREE MARKINGS AND PROTECTIVE FENCING SHALL BE INSTALLED BY THE OWNER AND BE INSPECTED BY DEVELOPMENT SERVICES.
4. NO EQUIPMENT SHALL BE CLEANED, OR HARMFUL LIQUIDS DEPOSITED WITHIN THE LIMITS OF THE ROOT ZONE OF TREES WHICH REMAIN ON SITE.
5. NO SIGNS, WIRES, OR OTHER ATTACHMENTS SHALL BE ATTACHED TO ANY TREE TO REMAIN ON SITE.
6. VEHICULAR AND CONSTRUCTION EQUIPMENT SHALL NOT PARK OR DRIVE WITHIN THE LIMITS OF THE DRIP LINE.
7. GRADE CHANGES IN EXCESS OF 3 INCHES (CUT OR FILL) SHALL NOT BE ALLOWED WITHIN A ROOT ZONE, UNLESS ADEQUATE TREE PRESERVATION METHODS ARE APPROVED BY THE CITY.
8. NO TRENCHING SHALL BE ALLOWED WITHIN THE DRIP-LINE OF A TREE, UNLESS APPROVED BY THE CITY.
9. ALL REMOVED TREES SHALL BE CHIPPED AND USED FOR MULCH ON SITE OR HAULED OFF-SITE.
10. ALL TREE MAINTENANCE TECHNIQUES SHALL BE IN CONFORMANCE WITH INDUSTRY IDENTIFIED STANDARDS. IMPROPER OR MALICIOUS PRUNING TECHNIQUES ARE STRICTLY PROHIBITED.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Bart Carrol; *Carroll Consulting Group, LLC*

AGENDA ITEM: **P2017-053**; *Lots 19, 20, & 21 of the Hidden Valley Estates No. 2 Addition*

SUMMARY:

Hold a public hearing to discuss and consider a request by Bart Carroll of Carroll Consulting Group, LLC for the approval of a replat for Lots 19, 20 & 21 of the Hidden Valley Estates No. 2 Addition being a 4.716-acre tract of land currently identified as Lot 11 of the Hidden Valley Estates No. 2 Addition, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), addressed as 1 and 1A Wildbriar Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat a 4.716-acre tract of land [*i.e. Lot 11, of the Hidden Valley Estates No. 2 Addition]* into three (3) parcels (all of which will be 1.5-acres or greater) [*i.e. Lots 19, 20, & 21 of the Hidden Valley Estates No. 2*] for the purpose of subdividing one (1) lot into two (3) lots to construct three (3) single-family homes.
- ☑ Per the *Interlocal Cooperation Agreement* between the City of Rockwall and Rockwall County, any property situated with Rockwall County in the City's Extraterritorial Jurisdiction (ETJ) is subject to the City's subdivision regulations. In addition, the City of Rockwall is the governing body responsible for approving said plats upon a recommendation from the County's designated representative. In this case, the plat has been reviewed by Rockwall County and the majority of the County's comments are to be addressed during the civil engineering submittal process.
- ☑ Per the *Texas Local Government Code*, a residential replat that increases the number of lots in an established residential subdivision requires a public hearing [*TLGC §212.015*].
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 19, 20, & 21 of the Hidden Valley Estates No. 2 Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-53 Hidden Valley Estates Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Bart Carroll of Carroll Consulting Group, LLC for the approval of a replat for Lots 19, 20 & 21 of the Hidden Valley Estates No. 2 Addition being a 4.716-acre tract of land currently identified as Lot 11 of the Hidden Valley Estates No. 2 Addition, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), addressed as 1 and 1A Wildbriar Street

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-053) in the lower right hand corner of all pages on future submittals.

M.4 Please number the lots 19, 20, and 21.

M.5 Please provide the sq footage beneath the acreage in each lot.

M.6 Please remove "residential" from the title block.

M.7 Please provide total sq footage in title block.

I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 7, 2017. The Planning & Zoning Worksession for this case is October 24, 2017. T The Planning and Zoning Meeting date for this case is November 14, 2017. A representative is required to attend all meetings.

I.9 The projected City Council meeting dates for this are November 20, 2017 and December 4, 2017.

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Ryan Miller, *Director of Planning and Zoning*

DATE: October 24, 2017

SUBJECT: Z2017-043; Amendment to PD- 70 – *Pocket Neighborhood*

The applicant, Austin Lewis, is requesting to postpone the public hearing for *Case No. Z2017-043,* which is scheduled for the November 14, 2017 Planning and Zoning Commission. As you may recall, the Planning and Zoning Commission has already granted the applicant's request to postpone the public hearings twice (i.e. October 10, 2017 and October 24, 2017). This request will be the third and final request for postponement under the requirements of the Unified Development Code (UDC). If granted, this means that the projected Planning and Zoning Commission public hearing would be held on Tuesday, November 28, 2017 and the City Council public hearing would be held on Monday, December 4, 2017.

According to Section 6.2, *Public Hearing Postponements, Recess, and Continuations*, of the Article II, Authority and Administrative Procedures, of the Unified Development Code (UDC), a public hearing may be postponed by announcing the postponement at the public hearing and indicating the time and place the new hearing is scheduled to begin; however, the date and time of the postponed public hearing cannot be greater than 60 days from the original public hearing date. The announcement of a postponement shall be sufficient notice and no additional notice shall be required.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/10/2017

APPLICANT: Austin Lewis of *Lewis Real Estate Investments, Inc.*

AGENDA ITEM: **Z2017-043**; *Amendment to PD-70 – Pocket Neighborhood*

SUMMARY:

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Stone Creek Balance, LTD for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

PURPOSE AND BACKGROUND:

The *subject property*, which was annexed into the City on May 19, 1986 by *Ordinance No. 86-37*, is located at the southeast corner of the intersection of Greenway Drive and FM-552, is a 5.28-acre tract of land that is currently vacant, and zoned Planned Development District No. 70 (PD-70). On September 6, 2017, the applicant submitted an application requesting to amend Planned Development District No. 70 (PD-70) [*Ordinance No. 09-44*] for the purpose of incorporating a single-family subdivision that will contain 19 single-family residential homes. If approved, the amended *Concept Plan* will incorporate a designation for the proposed 19 single family homes as a *Pocket Neighborhood* (PN) and will net the single-family lot mix total for inclusion within PD-70. Based on the *Concept Plan* established with PD-70 [*Ordinance No. 11-35*], the *subject property* has 11 Type E lots (*i.e. 70' x 120'*) designated for this property. Under *Exhibit 'C'*, *PD Development Standards* for *PD-70*, *Section A.1.e*, *Variation in Lot Composition* reads*:*

> *The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwellings units does not exceed 918 units, the average lot size is not less than 8,000 sq. ft., and the following rules are met: (1) Lot types A, C, & E may increase not more than 5% in aggregate number.*

This would allow the proposed eight (8) additional Type PN (*i.e. Pocket Neighborhood*) lots for the *subject property* to be absorbed by reducing the lot count and allocating the reduction within the A, C, and/or E type lots and therefore, will not exceed the prescribed lot count of 918 single-family lots within the Stone Creek Development.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the *subject property* is FM-552. Beyond this is an unincorporated area containing single-family homes.

South: Directly south of the *subject property* is a 12.003-acre vacant tract of land owned by the Rockwall Independent School District. Beyond this are single-family home located within the Stone Creek Subdivision and zoned PD-70.

East: Directly east of the *subject property* is J.W. Williams Middle School that sets on a 25.569-acre tract of land and is zoned SF-16.

West: Directly west of the *subject property* is an 8.223-acre tract of land dedicated as open space within the Stone Creek Subdivision, and is zoned PD-70.

CHARACTERISTICS OF THE REQUEST:

According to the *Concept Plan* the applicant is proposing to develop a *Pocket Neighborhood* (PN) which is characterized as a community oriented small neighborhood with front porches fronting onto a common green space. The common area will include a trellis garden with a fire pit, a walking trail, and a screened porch area at the amenity center. Of the 19 single-family home sites, 14 lots will measure 37' x 100' (*i.e. 3,700 SF)* in area. The applicant intends to establish separate design standards within PD-70 for this development that would allow for the construction of cottage craftsman style homes ranging from 1,600 SF to 2,600 SF for each lot. Additionally, the applicant intends to provide a private street for the community, and dedicating a 25-ft firelane. The private street is required to meet City standards for neighborhood street design, measuring a minimum of 29'ft back to back. This type layout will also require the dedication of 20-ft easements for water and sewer services. Furthermore, and based on the *Concept Plan*, the layout of the lot configuration for the single-family residential lots do not meet the City's standards for subdivision. Under *Section 38.1*, of *Article I*, of *Chapter 38, Subdivision*, 'Lot' means and undivided tract or parcel of land have frontage on a public street and which is, or in the future may be, offered for sale, conveyance, transfer or improvement as a building site, which is designated as a distinct and separate tract. The applicant is requesting a w*aiver* to the Subdivision Ordinance, Chapter 38, of the Municipal Code of Ordinances to allow for not meeting the required lot frontage on a public street for the *subject property* as depicted on the proposed *Concept Plan*. Finally, it is also the intent of the applicant to create a separate Home Owners Association for the proposed Pocket Neighborhood (PN) in order to service the private streets and common areas. With this being said, a *waiver* to the *Subdivision Ordinance* is a discretionary decision for the City Council.

A summary of the requested density and dimensional requirements is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***	***C***
Minimum Lot Width	37'	48'	60'
Minimum Lot Depth	100'	100'	100'
Minimum Lot Area	3,700 SF	4,800 SF	6,000 SF
Minimum Front Yard Setback	*TBD*	*TBD*	*TBD*
Minimum Side Yard Setback	*TBD*	*TBD*	*TBD*
Minimum Side Yard Setback (Adjacent to a Street)	*TBD*	*TBD*	*TBD*
Minimum Length of Driveway Pavement	*TBD*	*TBD*	*TBD*
Maximum Height	36'	36'	36'
Minimum Rear Yard Setback	*TBD*	*TBD*	*TBD*
Minimum Area/Dwelling Unit (SF)	1,600 SF	1,600 SF	1,600 SF
Maximum Lot Coverage	80%	80%	80%

SUMMARY OF WAIVERS:

The following is a summary of the requirements being requested with the amendment to Planned Development District No. 70 (PD-70) for the *Pocket Neighborhood* (PN) for the *subject property* that depart from the requirements of the UDC:

1) *Masonry Requirements.* The UDC allows the exterior building façades to be composed of up to 50% cementaceous materials. In this case, the applicant is proposing a variation that could include up to 100% cementaceous material lap siding, which is an increase of 50%.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained within the Comprehensive Plan designates the *subject property* as *Public Uses* land designation. According to the Comprehensive Plan, a *Public Uses* designation is generally defined as a use operated exclusively by a public body having the purpose of serving the public health, safety or general welfare. This includes uses such as public schools, parks, playground, and administrative and service facilities. In this case, Planned Development District No. 70 (PD-70) is an established horizontal mixed use development with a lot mix establishing a maximum of 918 single-family units and designated on the Future Land Use Map as *Medium Density Single-Family Residential.* According to the Comprehensive Plan, *Medium Density Single-Family Residential* is areas that consist of the single-family developments that have typically been built in Rockwall. They may be 2-3 units per acre, but generally about three (3) units per acre. The current Concept Plan (*i.e. Master Plat for Stone Creek*) indicates a density of 2.33 units per acre based on 918 home sites. The applicants request for a *Pocket Neighborhood* (PN) will not have an effect on the total number of units allowed for the development based on a variation to the lot composition as established in *Exhibit 'C', Development Standards*, of PD-70, and as outlined in staff's report. With this being said, the proposed Concept Plan is a discretionary decision for the City Council.

NOTIFICATION:

On September 29, 2017, staff mailed 888 notices to property owners and residents within 500-feet of the *subject property*. Staff also emailed notices to the Quail Run Valley, The Shores/Ray Hubbard, Lakeview Summit, and Promenade Harbor Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the *subject property* participating in the notification program. Additionally, staff posted a sign adjacent to the *subject property* along FM-552 and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received one (1) notice in favor of and six (6) notices opposed to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District No. 70 (PD-70) for the *subject property*, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance; and,

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Public Uses* designation to a Medium Density Residential designation; and,

3) Approval of a waiver by the City Council for not meeting the lot frontage requirements on a public street as established in the Subdivision Ordinance, Chapter 38 of the City of Rockwall Municipal Code of Ordinances; and,

4) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 09.19.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 3, 2017 (three large copies FOLDED and one PDF version) for subsequent review by staff. For questions or comments concerning this case please contact David Gonzales, AICP in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

• On all future submittals please include the Case Number (Z2017-043) in the lower right hand corner.

• When provided, please review the Draft Ordinance prior to the Planning & Zoning Meeting scheduled for October 10, 2017.

Please address the following Planning Department comments:

1. Must adhere to Engineering, Building Inspection, and Fire Departments standards.
2. The submitted lot configuration does not meet the standards within the subdivision ordinance and the UDC due to the lots not fronting onto a public street.
3. If the drive will be used as a city street, it must meet the minimum standards for a city street and requires a minimum 50-ft right-of-way with the road section being a minimum of 29-feet back to back. See engineering design standards for compliance.
4. The overall lot count within PD-70 must not exceed 918 units.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the zoning change request. All meetings will be held in the City's Council Chambers and begin at 6:00 p.m. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

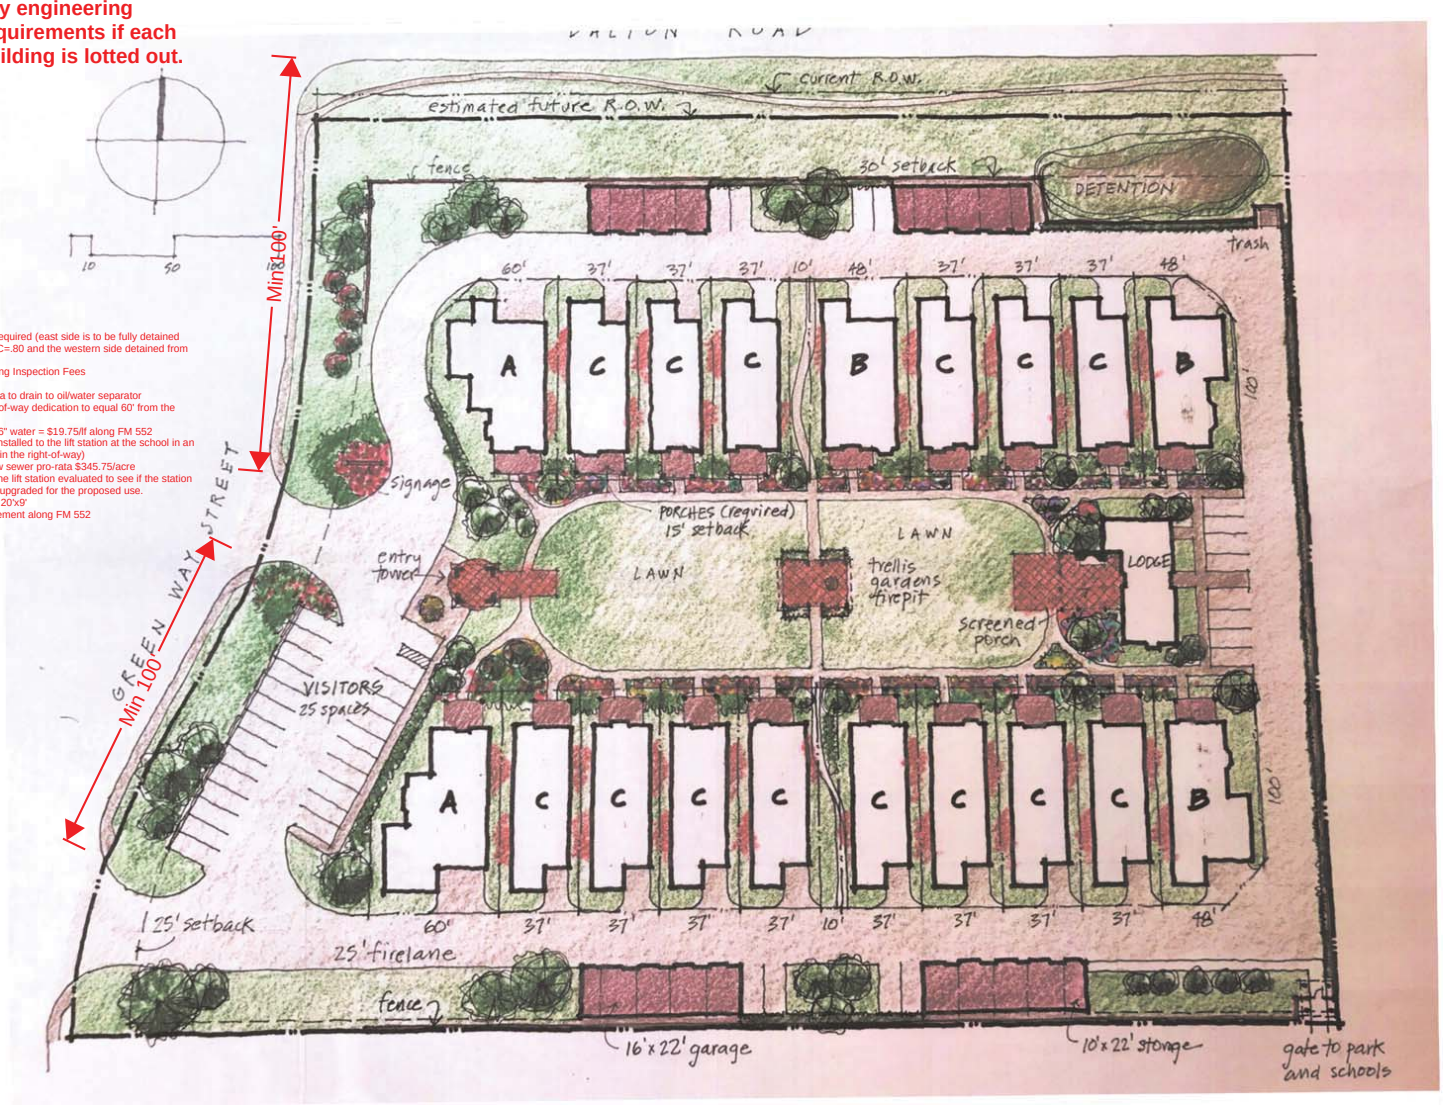
Planning - Work Session: September 26, 2017 (6:00p.m.) [Applicant to present case to P&Z for discussion].

Planning - Public Hearing: October 10, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Pulblic Hearing: October 16, 2017 (6:00 p.m.) [1st Reading of Ordinance]

City Council - Action Item: November 6, 2017 (6:00 p.m.) [2nd Reading of Ordinance]

This doesn't comply with any engineering requirements if each building is lotted out.



- Detention is required (east side is to be fully detained from C=.35 to C=.80 and the western side detained from C=.5 to C=.80)
- 4% Engineering Inspection Fees
- Impact Fees

Re: Letter of Explanation for Re-Zoning

Lewis Real Estate Investments, Inc. is hereby making application to amend PD -70 which includes the subject 5.288 acre tract of land located at the southeast corner of FM 552 and Greenway Drive. Current permitted use is single-family lots ranging in size from 6,000-20,000 sq. ft. with 936 total dwelling units.

Lewis Real Estate Investments, Inc. and partner, David Dillard, noted senior housing architect are requesting an amendment to PD-70 in order to develop a "pocket neighborhood", a community oriented small neighborhood with 19 dwelling units with front porches fronting on a common green space. Lot sizes range from 3,700 sq. ft. to 6,000 sq. ft. The dwelling units ranging from 1,600 sq. ft. to 2,900 sq. ft. will be regulated by design standards to a cottage craftsman style home with different elevations. Residents will be able to walk around the green visiting with neighbors who are on the front porch. The neighborhood will include a community building equipped with kitchen to accommodate resident meetings, family gatherings, and other uses. Each residence will have two-car parking either in dwelling and/or separate garages depending on dwelling size. Visitor parking and a special entry feature adjoin the commons.

Thank you for your favorable consideration of this request.

Sincerely,

Austin Lewis

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-043: Amendment to PD-70

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Meritage Homes of Texas, LLC for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/10/2017 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 10/16/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/16/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

We are opposed to the amendment based on the density of the area. So many homes in such a small area will result in lower priced homes, impacting the surrounding property values, and more traffic in front of our home. We frequently witness wrecks in front of our home. Our fence has been hit more than once in these accidents.

Z2017-043 - Amendment to PD-70 - AGAINST

Gonzales, David

From: Jennifer Huber [redacted]
Sent: Tuesday, October 10, 2017 4:43 PM
To: Gonzales, David
Cc: Pruitt, Jim
Subject: Corner of 552 & Greenway Drive

Mr. Gonzales,

My name is Jennifer Huber & I live at 400 Country Ridge which is across 552 from the corner you are discussing tonight. We are "county" so we aren't ever notified of these proposals, but fortunately we have neighbors on Wooded Trail who do notify us. So then we send emails & go to meetings & hope that maybe, someday, we will have city leaders that will develop Rockwall with integrity & pay attention to what the citizens want.

The last meeting we attended I found out that that particular scenario is a long way off. The topic of discussion before our issue came up was something that had actually been voted against by the P&Z Committee. However, there were no P&Z members there because this was an "emergency" meeting & it was 4 days before Christmas. To make a long story short, we now have 3 car washes within a half mile of each other on the same street. (The Mayor was the ONE & only person who agreed with p&z & thought maybe it was not a good idea to have 3 car washes in such close proximity)

Citizens are constantly baffled & frustrated by these decisions. The thing is, people are VERY busy just trying to stay afloat & we have to trust that good decisions are being made! We always hope that the decisions are in the best interest of the people who have chosen to live here or have lived here all of their lives.

If you have lived in this town very long you know how crowded it has become, you know how congested the schools are, you know our parks are severely lacking, you know how instead of what was once hills full of beautiful trees greeting you coming over the bridge into Rockwall, is now a huge, mostly empty, shopping & restaurant area.

The point of all of this is...why? Why is it MORE important to cram way too many homes on a tiny scrap of land than to just leave something alone? Or at the VERY least build what was originally planned. People move out here to enjoy their surroundings! Enjoy nature! Play outside with our kids without worrying about constant traffic!

It looks like John King will soon be filled with yet more homes on top of homes. The natural & historical beauty of this town is disappearing rapidly. Our roads can't accommodate the people that are here now & our schools certainly can't accommodate the amount of students that are here.

You don't hear from people because they know they can't change anything. That's really sad too! Almost always when these conversations come up, people are VERY quick to bring up the courthouse, which is one big reason they feel powerless.

I know this is way more information than you need & your job is planning & zoning so I'm sorry to go on about this, but it's a conversation that comes up SO often in my world (school, children & the YMCA) that I figured since I was letting you know how we feel about the corner I might as well tell you what people are feeling about other things too! Thanks for your time!

Jennifer Huber

Subject: Case Number Z2017-043

Planning and Zoning Commission:
We are writing in response to the letter we received regarding the proposed zoning change for Case Number Z2017-043 Admendment PD-70 at the SE corner of Greenway Drive and FM-552.

We are Paul and Stacey Buff and reside @
2906 Greenway Drive

We are NOT in favor of the propsed zonig change requested by Austin Lewis of Lewis Real Estate Investments. We closed on our home in June of 2017 and were told that a RRISD elementary school would be built on the property across the street from our home. That was a selling feature for us. We have a child attending Hays Elementary and after 11 years years, they have out grown the space and students are having to utilize pods for classrooms.
In order to accommodate the homeowners in our neighborhood and comintue with the growth in Rockwall, we are in need of a top notch school that RRISD can provide and not a small addition to the neighborhood. We have researched the propsed building plans from Lewis Real Estate Investments and do not believe what they are proposing will add value to the exhisting neighborhood and can potentially devalue our home instead of increasing the value with a school.

Thank you for your time and consideration to our concerns.
Paul and Stacey Buff

Dear Mr. Gonzales

This is Paul Harris , 1517 Audobon Lane, Rockwall, Tx.

I am opposed to the request due to lack of planning for traffic concerns. At this time , there is a growing problem with traffic in the area leading to the affected area.

Thank You Paul Harris 214-235-8587 cell

Subject: "Pocket Neighborhood" Concept Near Stone Creek Estates

Hi Ryan,

We spoke with Austin Lewis on Saturday. We have seen the "pocket neighborhood" concepts in Houston. Austin's project sounds like it would be a nice addition for this area.

If Skorburg had planned something like this over by CVS, we would have been pleased. I wanted to share with you that we told Austin that we would appreciate two items:

1) Have PD-70 amended to limit (lower) the development to 899 home sites, keeping the total home site count at 918 to include the "pocket neighborhood" count of 19 home sites plus the Stone Creek Estates home sites. This would insure that the density for this overall area would not be jeopardized.

2) Work with Skorburg to make the property on the west side of Greenway (city owned property) pretty to compliment his "pocket neighborhood" property.

Thank you for asking Austin to get in touch with us. We really enjoyed talking with him. We look forward to helping in any way possible.

Thanks,

Jim & Shirley Smith

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Jim Albrecht; *Divine Peace Lutheran Church*

AGENDA ITEM: **Z2017-050**; Divine Peace Lutheran Church (SUP)

SUMMARY:

Hold a public hearing to discuss and consider a request by Jim Albracht of Divine Peace Lutheran Church on behalf of Iris Smith of Rockwall Wedding Chapel for the approval of a Specific Use Permit (SUP) for a church in the Downtown (DT) District on a 0.804-acre tract of land identified as Lots 1-3, Block W and Lots 1-4, Block T, Rockwall OT Addition, City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, addressed as 203 & 305 S. Fannin Street, and take any action necessary.

PURPOSE AND CHARACTERISTIS OF THE REQUEST:

The applicant, Jim Albrecht of Divine Peace Luther Church, is requesting a Specific Use Permit (SUP) to allow a *church/house of worship* in a Downtown (DT) District. The subject property is located southeast of the intersection of Washington Street and S. Fannin Street and is on a 0.804-acre tract of land identified as Lots 1-3, Block W and Lots 1-4, Block T, Rockwall OT Addition and is addressed as 203 & 305 S. Fannin Street.

According to Section 1.1, *Use of Land and Buildings*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a church/house of worship is permitted within a Downtown (DT) District with a Specific Use Permit (SUP), which is a discretionary decision for the Planning and Zoning Commission and the City Council. Currently the subject property houses a wedding chapel [*i.e. Rockwall Wedding Chapel*]. The applicant is not proposing any changes to the exterior of the buildings, however, should exterior modifications be made, a site plan may be required. Additionally, the existing structure is generally in conformance with the parking standards stipulated in Section 6.5, *Off-Street Loading Requirements*, and Section 5.4, *Handicapped Parking*, of Article VI, *Parking and Loading*, of the Unified Development Code. Adherence to the parking requirements is listed as a *Condition of Approval* of the Specific Use Permit (SUP).

ADJACENT LAND USES AND ACCESS:

North: Directly north of the subject property is a massage studio [*i.e. Body and Soul Massage*]. Beyond this is E. Washington Street, which is identified as a *TxDOT Highway* on the City's Master Thoroughfare Plan. This area is zoned Downtown (DT) District.

South: Directly south of the subject property is S. Fannin Street, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this is a single-family residential home that is zoned Multi-Family 14 (MF-14) District.

East: Directly east of the subject property are single-family homes and a minor automotive repair facility [*i.e. Archer Car Care*]. These areas are zoned Downtown (DT) District. Beyond this are single-family family homes that are zoned Single-Family 7 (SF-7) District.

West: Directly west of the subject property is S. Fannin Street, which is identified as a minor collector on the City's Master Thoroughfare Plan. Beyond this are several businesses [*i.e. Dayspring Discipleship, Fannin Place, and School of Rock*]. This area is zoned Downtown (DT) District.

NOTIFICATION:

On October 26, 2017, staff mailed 140 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Bent Tree Condos and the Stonebridge Meadows Homeowner's Associations (HOA's), which are the only HOA's and/or Neighborhood Organizations within 1,500-feet of the subject property and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices concerning this case.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The church/house of worship be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    a) If any exterior modifications are made to the existing structures on the subject property, a site plan may be required.

    b) The church shall adhere to parking requirements stipulated by the Unified Development Code (UDC).

    c) Significant accessory use (e.g. schools, daycares, etc.) shall be permitted in conformance with the land uses permitted within the Downtown (DT) District as stipulated in Article IV, *Permissible Uses*, of the Unified Development Code. In addition, all accessory use shall be subject to the required parking for the use as stipulated by the Unified Development Code (UDC).

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

If additional parking is required, it will need to be concrete and can't back out onto a City street. Parking will be 20'x9' with a 24' drive aisle.

Re: Specific Use Permit Application, Rockwall OT, Block W, Lot 1,2,3 and Rockwall OT, Block T, Lot 3,4

Dear P&Z Department,

Divine Peace Lutheran Church is in the process of purchasing the properties known as the Rockwall Wedding Chapel on South Fannin Street in Rockwall (see legal description above) in order to make this our Rockwall home for worship, fellowship and service to the community. We have been renting the chapel for Sunday services since 2016 from the current owner Iris Smith and are looking forward to making this our permanent home in Rockwall where we can reach out to our community with the true word of God. It has been a dream of ours to have such a location in Rockwall. We never thought it would be possible, but with the Lord's direction, it is all coming together.

We began worshipping at this location in 2016 by renting the chapel from Iris Smith on Sundays. Earlier this spring she approached us about purchasing the property from her. We have spent the rest of the year doing a feasibility study to make sure this was the right place and time. We are well on our way to making this happen now and are thankful to our Lord for his guidance and blessing.

The specific use permit Divine Peace Lutheran Church is applying for would see this property serve as a place of worship and fellowship as it was originally built as a church and has functioned as such for the majority of its existence. This use of the property closely resembles what the Rockwall Wedding Chapel has been over the past 15 years, except that the primary function of worship will occur on Sunday mornings, rather than weddings during the busier Fridays or Saturdays. Prior to our arrangement with Iris Smith to rent the facility on Sundays, she was renting to a Catholic church for many years. We do not anticipate the use of the property to change significantly from what its use has been over the past 10 years and believe it will fit well with the spirit of the downtown square.

If there are any questions about our plans for the property, we would be happy to discuss those with you. Thank you for your consideration of this application.

We are really looking forward to this second location for Divine Peace congregation. We plan to keep both the Garland and Rockwall campus locations and reach out to both communities with the true word of God.

Sincerely,

Pastor Gunnar Ledermann

DRAFT ORDINANCE 12.04.17

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the operation of a church/house of worship on the subject property, and conformance to these operations is required for continued operation:

a) If any exterior modifications are made to the existing structures on the subject property, a site plan may be required.

b) The church shall adhere to parking requirements stipulated by the Unified Development Code (UDC).

c) Significant accessory use (e.g. schools, daycares, etc.) shall be permitted in conformance with the land uses permitted within the Downtown (DT) District as stipulated in Article IV, *Permissible Uses*, of the Unified Development Code. In addition, all accessory use shall be subject to the required parking for the use as stipulated by the Unified Development Code (UDC).

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 12.04.2017

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: *Rockwall SIL, LLC*

AGENDA ITEM: **Z2017-051**; *Rockwall SIL (AG & C to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Bart Tinsley of Rockwall SIL, LLC on behalf of the owner Don Cameron of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and memory care facility on a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property, which was annexed into the City on June 20, 1959 and February 6, 1961 by *Ordinance No.'s 59-02 & 60-01*, is located north of the intersection of E. Yellow Jacket Lane and T. L. Townsend Drive, and is currently a vacant unplatted tract of land. On May 12, 2017, the applicant submitted an application requesting to rezone the subject property from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age restricted multi-family apartment complex consisting of 174 dwelling units. This request was denied with prejudice by the City Council on July 3, 2017 restricting the ability of the applicant to submit a zoning application for a period of one (1) year from date of deniel, unless the application is for a more restrictive or less intense use than previously requested. Based on a revised submittal on October 24, 2017, the Planning and Zoning Commission determined the applicant had brought forward modifications that represented a substantial change to the original request. Although the requests primary use remains a multi-family complex, the modifications introduced by the applicant represent a reduction in the amount of dwelling units from 174 units to 144 units. In addition, the building height was decreased from a four (4) story multi-family complex to a three (3) story multi-family complex, and the applicant introduced a separate 32 bed memory care facility.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is eight (8) parcels of land zoned Commercial (C) District. Situated on these parcels are several multi-tenant office buildings and the Rockwall Central Appraisal District's (RCAD) office building. Beyond this is Justin Road, which is identified as a M4D (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this is a mini-warehouse facility (*i.e. Advantage Self Storage*), which is zoned Commercial (C) District.

South: Directly south of the subject property are two (2) parcels of land (*i.e. 9.7804-acres and 8.2983-acres*), which are occupied with a church and community garden (*i.e. First United Methodist Church*). Both of these parcels are zoned Commercial (C) District. Beyond this

quasi-public use is E. Yellow Jacket Lane, which is identified as a M4D (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan*.

East: Directly east of the subject property is T. L. Townsend Road, which is identified as a M4U (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan.* Beyond this are a vacant 12.484-acre parcel of land -- *zoned Light Industrial (LI) District* -- and, a 41.649-acre parcel of land -- *zoned Agricultural (AG) District*. Situated on the 41.649-acre parcel of land is Herman E. Utley Middle School.

West: Directly west of the subject property are three (3) parcels of land *(i.e. AutoZone, Cole Mountain BBQ, and Rustic Warehouse*). All of these properties are zoned Commercial (C) District and are situated within the SH-205 Overlay (SH-205 OV) District. Beyond these uses is SH-205 [*S. Goliad Street*], which is identified as a P6D (*i.e. principal arterial, six [6] lane, divided roadway*) on the City's *Master Thoroughfare Plan.*

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan, building elevations, and development standards for the proposed age restricted multi-family apartment complex and memory care facility. The concept plan shows that the proposed 144-unit age restricted apartment complex will consist of a three (3) story building composed of a ~145,793 total gross square footage. The proposed building design will incorporate a wrap-around architectural style with a courtyard and pool in the center of the facility. By reducing the height and units of the multi-family apartment complex by one (1) story, the applicant will construct a single-story, 87,120 square foot memory care facility. The memory care facility will have 28 rooms available for patient use. If approved, the total unit count for this development will be 172 units (*i.e. 144 MF-units and 28 memory care units*) and will have a gross density of 14 units per acre, consistent with the City's development standards for a *Multi-Family 14* (MF-14) *District* if approved. The development will also include a five (5)-ft meandering walking trail, pool amenity, pavilion, dog park, and an indoor recreation area. Additional accessory uses listed in the ordinance (*i.e. barber and beauty shop, chapel, drug store, health studio, etc.*) will be available to the residents, but not to the general public. The proposed multi-family complex will be highly articulated (*see the rendering contained within the attached packet*) and will meet the City's standards for building design and materials as outlined in the draft ordinance. A summary of the proposed product type and unit composition is as follows:

Unit Name	*Unit Type*	*Minimum Net Unit Area (SF)* [1]	*Number of Units (#)*	*Total Area (SF)*	*Units as Percentage (%)*
A2	*1 Bedroom/1 Bathroom*	731 SF	66	48,246 SF	45.83%
A3	*1 Bedroom/1 Bathroom*	802 SF	24	19,248 SF	16.67%
B3	*2 Bedroom/2 Bathroom*	973 SF	30	29,190 SF	20.83%
B5	*2 Bedroom/2 Bathroom*	968 SF	24	23,232 SF	16.67%
		Average Net Unit Area:		***~833 SF***	
		Maximum Permitted Units:	***144***		***100.00%***

The above unit composition equals a net average unit size of ~833 SF. Based on the size of the *subject property* and the number of units proposed, the requested density will be 14 units per acre, meeting the standards established for a *Multi-Family 14* (MF-14) *District*. The addition of the 28 units for the memory care facility will also equate to 14 units per acre. However, the Future Land Use Map indicates the *subject property* to be zoned for *Commercial* land uses. Based on the request for a high density development (i.e. MF-14) the Engineering Department has contacted the City's engineering consultant, Birkhoff, Hendricks & Carter, LLP to review the City's 2014 Wastewater Collection System Master Plan and determine the capacity necessary for the existing sanitary sewer system regarding the proposed planned development. Any zoning change proposing a more intense land use than what is depicted on the City's Future Land Use Plan could have implications for the City's existing infrastructure (i.e. streets, water, and wastewater) capacities. The City's consultant has determined that the capacity necessary for the existing infrastructure is

adequate for this development. The development conforms to all other requirements of the Multi-Family 14 (MF-14) District.

Article VI, *Parking and Loading*, of the Unified Development Code (UDC) stipulates that multi-family apartment complexes be parked as follows: *[1]* one (1) bedroom or efficiency units require 1½ parking spaces per unit, *[2]* two (2) bedroom units require two (2) parking spaces per unit, and *[3]* three (3) bedroom units require 2½ parking spaces per unit. The applicant has indicated that the age restricted multi-family apartment complex will have one (1) and two (2) bedroom units only. This equates to 243 required parking spaces for the proposed development of the multi-family apartment complex; however, the applicant is proposing a 1.5 spaces/unit for a total of 222 parking spaces. This will require approval of the Planning and Zoning Commission and City Council for the reduced number of 21 parking spaces. It should be noted that the reduced parking total has been included in the draft ordinance and is considered to be condition of approval. The PD Concept Plan indicates that a mixture of 56 garage spaces, 52 covered surface spaces, and 109 surface parking spaces will be utilized. The ratio of garages to parking units equals 56:222 or 25.23% of all parking spaces. A memory care facility is parked at a ratio of one (1) space per bed within the facility and one (1) space per employee on the largest shift. The applicant has indicated the memory care facility will have 32 beds and 10 employees on the largest shift and is providing the necessary parking of 42 spaces to meet the standards established in the UDC for this use.

The building elevations submitted by the applicant show that the both the multi-family apartment complex and the memory care facility will utilize a mixture stone, brick, and HardiePlank lap siding on the exterior façades, and a composition shingled roof. In addition, the elevations conform to the four (4) sided architecture requirements stipulated by the *SH-205 Overlay* (SH-205 OV) *District* as required by the UDC. Staff has incorporated these elevations into the Planned Development District Ordinance, and general conformance to these elevations -- *pending a recommendation by the Architectural Review Board (ARB) at the time of site plan* -- is a requirement of the proposed zoning district.

With all this being said, staff has prepared a Draft Ordinance that includes all pertinent development standards and design guidelines based on the applicant's request. The Draft Ordinance is attached to this case memo for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

Conformance with Policies and Guidelines

In reviewing the concept plan for conformance to the policies and guidelines of the Comprehensive Plan, staff has made the following observation with regard to the trail system not meeting the intent of this policy from the previous submittal:

1) *Retail areas should be pedestrian-oriented and easily accessible to adjacent residential neighborhoods [Land Use; Page 13; Policy #4].*

The applicant's PD Concept Plan shows a five (5)-ft. meandering walking trail connected from the courtyard that leads to the western portion of the property as well as the eastern portion, providing opportunity for users of the trail to gain access to TL Townsend Drive. The intent is to create a private park within the community and will include a six (6)-ft. fence along the north, south and west property boundaries. With this being said the applicant is proposing a sidewalk or tail extension connecting to the retail areas and meets the intent of this requirement.

Conformance with the Future Land Use Map

The Future Land Use Map, contained within the Comprehensive Plan, designates the subject property for *Commercial* land uses. Staff has verified that this designation has existed since at least 1995 (*the subject property was designated as Commercial/Office on the 1986 Future Land Use*

Map). The proposed development would require this designation to be changed on a portion of the property to a ***High Density Residential*** designation, which the Comprehensive Plan defines as any use that exceeds three (3) units per acre. In addition, the Comprehensive Plan states that "(h)igh density residential should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) In this case, the proposed subject property and zoning change does appear to conform to the majority of the Comprehensive Plan's policies and guidelines with regard to the ***High Density Residential*** and ***Commercial*** designation. With this being said, the density being proposed and any change to the *Future Land Use Map* are a discretionary decision for the City Council. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use on a portion of the subject propety from a ***Commercial*** designation to a ***High Density Residential*** designation. The remainder of the property will remain under the ***Commercial*** designation.

NOTIFICATION:

On October 26, 2017, staff mailed 37 notices to property owners and residents within 500-feet of the subject property. There is no HOA/Neighborhood Organizations within 1500-feet participating in the notification program. Additionally, staff posted a zoning sign along T. L. Townsend Drive, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received two (2) notices in favor of the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from an Agricultural (AG) and Commercial (C) District to a Planned Development District for an age restricted apartment complex, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of a portion of the subject property from a ***Commercial*** designation to a ***High Density Residential*** designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Re: Letter of Intent – Planned Development for "Rockwall Memory Care and Seniors Independent Living Community" located on North T. L. Townsend Drive in Rockwall, Texas

To Planning and Zoning Department:

Our Client, Rockwall SIL, LLC, would like to submit a zoning change application for a 12.4 acre planned development (PD) that would allow development of a 3-story senior independent living (SIL) community with 144 units and a 1-story memory care facility with 28 units in the City of Rockwall. The subject property is bounded by North T.L. Townsend Drive to the northeast, office/commercial uses to the northwest, an Auto Zone and commercial uses to the southwest, and vacant land to the southeast owned by the First United Methodist Church.

The southwest portion of the site is currently zoned Commercial (C). The remainder is zoned Agricultural (AG). We are requesting that the site be re-zoned as a Planned Development for use as a SIL community (age restricted to 62 years of age or older) and a memory care facility. The SIL community will be located on the western portion of the site within a 10.27 acre lot, the memory care facility will be located on the eastern portion of the site on a 2.0 acre lot and the remaining 0.13 acres along North T.L. Townsend Drive will be dedicated as street right of way. The property will be final platted as two lots, however, the SIL community and the memory care facility will be developed in one (1) phase, each on their respective lot.

The SIL community will consist of 3-story building(s) with 144 units with garages and carports available for residents. The west portion of the SIL lot will be maintained as a private open space area to preserve existing quality trees, provide onsite storm water detention and provide the residents' an active functional recreational area. The private open space shall include 5' meandering walking trails around the detention pond areas and through the existing stand of native trees. A 5' walking trail will be extended to the south property line for future connectivity to First United Methodist Church tract. Private open space areas with 5' meandering trails will also be provided along the northeast, east and southeast portions of the SIL lot. The 5' trails will be looped and allow for connectivity to the memory care facility and the 5' city sidewalk proposed along the west side of North T.L. Townsend Drive. Other amenities within the SIL community will include, but not limited to, a swimming pool, putting green and indoor recreation area.

The memory care facility will consist of a 1-story building with 28 units. The memory care facility will have a commercial kitchen with dining area. There will also be two (2) enclosed courtyards outdoor recreation areas within the memory care facility.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) AND COMMERCIAL (C) DISTRICTS TO A PLANNED DEVELOPMENT DISTRICT XX (PD-XX) TO ALLOW AN AGE RESTRICTED MULTI-FAMILY APARTMENT COMPLEX AND MEMORY CARE FACILITY ON THE SUBJECT PROPERTY, BEING A 12.40-ACRE TRACT OF LAND IDENTIFIED AS TRACT 8 OF THE B. J. T. LEWIS SURVEY, ABSTRACT NO. 255, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Bart Tinsley of Rockwall SIL, LLC on behalf of the owner Don Cameron of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) and Commercial (C) Districts to a Planned Development District for an age restricted multi-family apartment complex and memory care facility on a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Deed Restrictions.* Prior to or concurrently with the recording of the final plat for the *Subject Property*, the owner of the *Subject Property* shall establish a restrictive covenant on the *Subject Property* by executing and recording an instrument approved by the City Attorney pursuant to which the *Subject Property* shall be limited to residential uses by people 62-years of age or older consistent with the Federal Fair Housing Act and all other applicable laws.

(f) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other

person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*; however, the subject property shall only be used as an *Age Restricted, Memory Care Facility and Independent Senior Housing Facility* allowing for the units being occupied by at least one (1) person who is sixty-two (62) years of age or older, or handicapped. The facilities must also follow all federal and state guidelines:
    a. The housing facility or community publishes and adheres to policies and procedures that demonstrate their intent to meet all provisions of the Housing for Older Persons Act of 1995.
    b. The housing facility or community complies with all rules issued by the Secretary of Housing and Urban Development for verification of occupancy.
    c. The housing facility has significant facilities and services specifically designated to meet the physical or social needs of older persons.

2. Permitted accessory uses to age-restricted independent senior housing and memory care:
    - ☑ Barber and Beauty Shop
    - ☑ Cafeteria/Common dining facilities
    - ☑ Chapel
    - ☑ Community Center
    - ☑ Drug Store / Pharmacy
    - ☑ Exercise Room
    - ☑ Game Court / Gaming Room
    - ☑ Greenhouse
    - ☑ Handcrafted art work studio
    - ☑ Health Studio
    - ☑ Instructional Art Studio
    - ☑ Medical Treatment Services (such as a medical clinic, physical therapy services, inhalation therapy, and other related uses)
    - ☑ Office
    - ☑ Private recreation club or area
    - ☑ Retail Store (food and other goods)
    - ☑ Snack Bar
    - ☑ Swimming pool

    NOTE: Accessory uses are intended for the residents of the proposed Age Restricted, Independent Senior Housing Facility and Memory Care Facilities and shall not be utilized by the general public.

3. *Unit Composition.* The unit composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and as stated in *Table 1* below for the multi-family apartment complex; however, in no case should the minimum size unit for any multi-family apartment be less than 700 square feet and the average net unit area decrease below 800 square feet.

General Notes:

[1]: The minimum separation between two (2) buildings without doors or windows on facing walls shall be a minimum of 15-feet.

[2]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof, roof element, or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof (*i.e. 40-ft for the multi-family unit complex*) if it is gable, hip or gambrel roof. Maximum height shall not exceed 3-*stories or 53-feet overall height for the multi-family complex and 1-story or 24-feet overall height for the memory care facility*.

[3]: The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

5. *Parking and Loading Standards.* The parking and loading requirements shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and as stated in *Table 3* below, and equal a minimum of 1.50 parking spaces per residential unit (*i.e. multi-family complex and memory care facility*).

Table 3: Parking Provided

Parking Type	*Number of Units (#)*	*Units as Percentage (%)*

Surface - Memory Care Facility	42 (+2 ADA)	16.6%

Total Number of Parking Spaces: *266*

6. *Building Standards.* The building elevations shall generally conform to the *Concept Building Elevations* depicted in *Exhibit* 'D'; however, all development shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement

shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building façades.

(b) Roof Design Requirements. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

(c) Architectural Requirements. All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the SH-205 Overlay (SH-205 OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

7. Landscaping and Hardscaping Standards.

(a) Landscape Requirements. Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in height at the time of planting. The following tree species are approved for planting within this development:

i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

(b) Landscape Buffers. A minimum of a fifteen (15) foot landscape buffer shall be provided along the frontage of T. L. Townsend Drive and a minimum of a ten (10) foot landscape buffer along the perimeter of the north, south, and west property boundaries. Each landscape buffer shall incorporate a minimum of one (1) canopy tree per 50-feet linear feet of buffer area. The buffer trees along the north property line shall be located a minimum of 15-feet south of the north property line to avoid conflict with existing 15-feet sanitary sewer easement. The developer shall also be responsible for the construction of sidewalks and trails required along T. L. Townsend Drive.

(c) Parking Lot Landscaping. All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code with the exception of the following:

i) One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planted within the required parking islands or within 20-feet of a parking space.

ii) Parking island shall be provided at a spacing not to exceed a maximum distance of 20 parking spaces.

iii) No tree may be planted closer than 2½ feet to the pavement.

(d) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(e) Hardscape. Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

8. Trash Receptacles. Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

9. Fence Standards. Fences located along the north, south, and west property boundaries as shown on the Planned Development Concept Plan depicted in *Exhibit 'B'* of this ordinance shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a minimum of six (6) feet, but shall not exceed a maximum of eight (8) feet in height.

10. Variances. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Kelly Duncan

AGENDA ITEM: **Z2017-053;** 2705 Rolling Meadows Drive (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Kelly Duncan for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 4.60-acre tract of land identified as Lot 3 of the Rolling Meadows Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single-Family Estate 4.0 (SFE-4.0) District, addressed as 2705 Rolling Meadows Drive, and take any action necessary

PURPOSE AND BACKGROUND INFORMATION

The applicant, Kelly Duncan is requesting the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements stipulated Article VI, *Permissible Uses*, of the Unified Development Code (UDC). The subject property is a 4.60-acre tract of land zoned Single-Family Estate 4.0 (SFE-4.0) District. The applicant is proposing to construct an ~14-foot tall metal building that will be approximately 1,092 SF. The proposed accessory building will be located behind the main structure, ~120-feet from the side property line and ~140-feet from the rear property line, and have a roll-up door. The applicant has stated that the proposed accessory building will not be used for commercial uses [*i.e. will be used for the storage of personal vehicles and equipment*]. Since, the property does not have a solid fence, the proposed accessory building may be visible from Rolling Meadows Drive, however, other properties located within the subdivision [*i.e. the property adjacent to the subject property*] have a metal accessory. According to the UDC, properties within a Single-Family Estate 4.0 (SFE-4.0) District are permitted one (1) accessory buildings that is a maximum of 2,000 SF. In addition, the UDC states that an accessory building shall be clad with the same materials that are found on the primary structure. In this case, the proposed accessory building conforms to the size and height requirements, however, since the proposed accessory building will be constructed out of metal, the applicant is required to apply for a Specific Use Permit (SUP). The approval of this Specific Use Permit (SUP) is a discretionary decision for the Planning and Zoning Commission and City Council.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows.

North: Directly north of the subject property is a largely vacant tract of land zoned Agricultural (AG) District. Beyond this is State Highway 66 which is identified as a *TxDOT Highway* on the City's Master Thoroughfare Plan.

South: Directly south of the subject property are two single-family residential subdivisions [*i.e. Airport Acres and Ridgecrest (PD-81)*] and a church [*i.e. Eastridge Church of Christ*].

East: Directly east of the subject property is Stodgehill Road/F.M. 3549, which is identified as a *TxDOT Highway*. Beyond this is the city limits of Rockwall [*i.e. City of Fate*].

West: Directly west of the subject property is a large vacant tract of land. Beyond this is the Rockwall Municipal Airport and John King Boulevard, which is identified as a *principle 6-lane divided roadway*. These areas are zoned Agricultural (AG) District and Planned Development District 71 (PD-71) for Commercial (C) District land uses.

NOTIFICATION:

On October 26, 2017, staff mailed twenty-four (24) notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Rolling Meadows Homeowner's Association (HOA) which is the only HOA and/or Neighborhood Organization within 1,500-feet of the subject property and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff has received one (1) notice in favor of the request.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The accessory building be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    a) The accessory building shall generally conform to the site plan depicted in Exhibit 'C' and the concept building elevations depicted in Exhibit 'B' of the attached ordinance.

    b) The accessory building shall not exceed a maximum size of 2,000 SF.

    c) The accessory building shall not exceed a maximum overall height of 15-feet.

    d) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 4.60-ACRE TRACT OF LAND ZONED SINGLE-FAMILY ESTATE 4.0 (SFE-4.0) DISTRICT AND IDENTIFIED AS LOT 3, OF THE ROLLING MEADOWS SUBDIVISION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Kelly Duncan for the approval for a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements and exceeds the maximum size requirements as stipulated by the Unified Development Code (UDC), situated on 4.60-acre tract of land, zoned Single-Family Estate 4.0 (SFE-4.0) District, and being identified as Lot 3 of the Rolling Meadows Subdivision, City of Rockwall, Rockwall County, Texas, addressed as 2705 Rolling Meadows Drive, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements and maximum size requirements for accessory buildings in a Single-Family Estate 4.0 (SFE-4.0) District as stipulated by *Section 2.1.2 Residential Lodging Use Conditions,* of *Article IV, Permissible Uses,* and *Section 3.2* of *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Subsection 3.2, Single-Family Estate 4.0 (SFE-4.0) District,* of *Section 3, Residential Districts*, of *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and

PRELIMINARY ORDINANCE NOT FOR FINAL

as my be amended in the future, and shall be subject to the following operational conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the construction of an accessory building on the subject property, and conformance to these operations is required for continued operation:

1) The accessory building shall generally conform to the site plan depicted in Exhibit 'B' and the concept building elevations depicted in Exhibit 'C' of the attached ordinance.

2) The accessory building shall not exceed a maximum size of 2,000 SF.

3) The accessory building shall not exceed a maximum overall height of 15-feet.

4) The accessory building is subject to administrative review in the event that the Subject Property is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 14, 2017

SUBJECT: Z2017-054: Text Amendment to Article IX, *Tree Preservation*, of the UDC

On June 6, 2017, the City Council directed staff to proceed with changes to Article IX, *Tree Preservation*, of the Unified Development Code (UDC) for the purpose of [*1*] clarifying the criteria for affected properties, [*2*] revising existing definitions, [*3*] outlining the requirements and review process for treescape plans, [*4*] amending the mitigation requirements, and [*5*] making general corrections and clarifications to the existing ordinance. These changes were initially started by staff in response to a code enforcement case dealing with the indiscriminate clearing of land. Through the revision of the code, several inconsistencies in the current ordinance where brought to staff's attention, and through the processes of making corrections to clear up these inconsistencies staff identified several other areas of the ordinance in need of updating or clarification. Shortly after the City Council's direction, the Texas Legislature entered into a special session that included two (2) bills that had the potential to affect a municipalities' ability to require/regulate tree preservation. Staff ultimately choose to hold off on bringing the text amendment forward until the end of the special session. Through the special session, only one (1) of the bills affecting *Tree Preservation* (*i.e. HB007*) was approved. Staff has reviewed the changes to the Texas Local Government Code introduced by the approved bill -- *which will be effective on December 1, 2017* -- and determined that the proposed text amendment to Article IX, *Tree Preservation*, of the Unified Development Code (UDC) is not in conflict. For reference staff has provided the approved bill in the attached packet.

The proposed text amendment would change the identification of trees to one (1) of four (4) categories: [*1*] *Primary Protected Tree*, [*2*] *Secondary Protected Tree*, [*3*] *Featured Tree*, and [*4*] *Non-Protected Tree*. Under the current ordinance, trees can be both a *Protected Tree* and a *Feature Tree* depending on the size and type of the tree. The proposed changes would remove this overlap and define any tree greater than 25-inches as a *Feature Tree*. In addition, the proposed ordinance outlines how a mitigation balance maybe satisfied (*e.g. provide trees to the Parks Department, plant trees on site, buy Tree Preservation Credits, etc.*), and increases the per inch cost for *Tree Preservation Credits* from $125.00/inch to $200.00/inch. This change is being proposed to address the current cost of purchasing trees, which has significantly increased since the passage of the original ordinance. Finally, the changes provide a process for the City Council to approve *Alternative Tree Mitigation Plans*. This is not addressed in the current ordinance.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Public Hearing]: November 14, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: November 6, 2017
City Council [2nd Reading of the Ordinance]: December 4, 2017

In the attached packet is a copy of the proposed amendments along with a draft ordinance. Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. If the Planning and Zoning Commission has any questions, staff will be available at the public hearing to discuss.

H.B. No. 7

AN ACT

relating to municipal regulation of the removal of trees on private property.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter Z, Chapter 212, Local Government Code, is amended by adding Section 212.905 to read as follows:

Sec. 212.905. REGULATION OF TREE REMOVAL. (a) In this section:

(1) "Residential structure" means:

(A) a manufactured home as that term is defined by Section 1201.003, Occupations Code;

(B) a detached one-family or two-family dwelling, including the accessory structures of the dwelling;

(C) a multiple single-family dwelling that is not more than three stories in height with a separate means of entry for each dwelling, including the accessory structures of the dwelling; or

(D) any other multifamily structure.

(2) "Tree mitigation fee" means a fee or charge imposed by a municipality in connection with the removal of a tree from private property.

(b) A municipality may not require a person to pay a tree mitigation fee for the removed tree if the tree:

(1) is located on a property that is an existing one-family or two-family dwelling that is the person's residence; and

(2) is less than 10 inches in diameter at the point on the trunk 4.5 feet above the ground.

(c) A municipality that imposes a tree mitigation fee for tree removal on a person's property must allow that person to apply for a credit for tree planting under this section to offset the amount of the fee.

(d) An application for a credit under Subsection (c) must be in the form and manner prescribed by the municipality. To qualify for a credit under this section, a tree must be:

(1) planted on property:

(A) for which the tree mitigation fee was assessed; or

(B) mutually agreed upon by the municipality and the person; and

(2) at least two inches in diameter at the point on the trunk 4.5 feet above ground.

(e) For purposes of Subsection (d)(1)(B), the municipality and the person may consult with an academic organization, state agency, or nonprofit organization to identify an area for which tree planting will best address the science-based benefits of trees and other reforestation needs of the municipality.

(f) The amount of a credit provided to a person under this section must be applied in the same manner as the tree mitigation fee assessed against the person and:

(1) equal to the amount of the tree mitigation fee assessed against the person if the property is an existing one-family or two-family dwelling that is the person's residence;

(2) at least 50 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is a residential structure or

pertains to the development, construction, or renovation of a residential structure; and

(B) the person is developing, constructing, or renovating the property not for use as the person's residence; or

(3) at least 40 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is not a residential structure; or

(B) the person is constructing or intends to construct a structure on the property that is not a residential structure.

(g) As long as the municipality meets the requirement to provide a person a credit under Subsection (c), this section does not affect the ability of or require a municipality to determine:

(1) the type of trees that must be planted to receive a credit under this section, except as provided by Subsection (d);

(2) the requirements for tree removal and corresponding tree mitigation fees, if applicable;

(3) the requirements for tree-planting methods and best management practices to ensure that the tree grows to the anticipated height at maturity; or

(4) the amount of a tree mitigation fee.

(h) A municipality may not prohibit the removal of or impose a tree mitigation fee for the removal of a tree that:

(1) is diseased or dead; or

(2) poses an imminent or immediate threat to persons or property.

(i) This section does not apply to property within five miles of a federal military base in active use as of December 1, 2017.

SECTION 2. The changes in law made by this Act apply only to a tree mitigation fee assessed by a municipality on or after the effective date of this Act.

SECTION 3. This Act takes effect December 1, 2017.

PROPOSED CHANGES TO:

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.

9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

If a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

   (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).
   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.
   (c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.
   (d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. *Alternative Tree Mitigation Plans*. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Plan where, due to hardship, the applicant is unable to meet the requirements of this article.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.

3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape Plan* -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.
2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IX, *TREE PRESERVATION*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IX, *District Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Article IX, *Tree Preservation,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF DECEMBER, 2017.

DRAFT ORDINANCE 11.14.2017

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

DRAFT ORDINANCE 2017

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

DRAFT ORDINANCE 1.4.2017

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.
9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

DRAFT ORDINANCE 11.2017

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

If a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

    (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).

    (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

(c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. *Alternative Tree Mitigation Plans*. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Plan where, due to hardship, the applicant is unable to meet the requirements of this article.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape Plan* -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

DRAFT ORDINANCE 17-23

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

DRAFT ORDINANCE 1.4.2017

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Kevin Hickman, *PegasusAblon*

AGENDA ITEM: **Z2017-055**; *Amended PD Development Plan (PD-32)*

SUMMARY:

Hold a public hearing and consider a request by Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a PD Development Plan amending Ordinance 13-16 and in accordance with *Ordinance No. 17-22*, for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 (IH-30) Overlay District, located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail, and take any action necessary.

BACKGROUND:

Ordinance No. 10-21 incorporated the subject property into Planned Development District 32 (PD-32) on September 20, 2010. This ordinance created a master planned, mixed-use district consisting of 78.89-acres of land, which is commonly referred to as the *Harbor District*. Included in the ordinance was a pool of 1,161 *urban residential* units (*i.e. condominiums and/or townhomes*) that could be allocated to properties within the district by the City Council -- *in accordance with the land use charts in the ordinance* -- on a *first-come-first-serve* basis through an interim zoning step called a *PD Development Plan*.

On June 17, 2013, the City Council approved a *PD Development Plan* (*Ordinance No. 13-16*) allocating 399 *urban residential* units (*i.e. condominiums*) to the subject property. These units were tied to a concept plan that showed two (2) condominium buildings being constructed on the subject property, one (1) adjacent to Lakefront Trail consisting of 349-units and one (1) adjacent to the Harbor Fountain consisting of 50-units. In addition, the plan indicated two (2) retail/restaurant strip centers would be constructed adjacent to Lake Front Trail and Harbor Heights Drive. These areas were eventually developed with a hotel (*i.e. Spring Hill Suites*) in 2016.

Currently, 928 of the 1,161 *urban residential* units have been allocated by the City Council. This means that there are a total of 233-units unallocated within the district. A breakdown of the allocated units is summarized as follows:

Project Name	*Sub-District*	*Units*
Harbor Heights Condominiums	*Interior*	*265*
Marina Village	*Harbor Residential/Freeway Frontage/Harbor Link Mixed-Use*	*399*
Harbor Condominiums	*Interior*	*228*
Harbor Townhomes	*Interior/Residential*	*36*
	Total	*928*

NOTE: The subject property is identified as Marina Village above.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant has submitted an application requesting to amend the *PD Development Plan* approved under *Ordinance No. 13-16* for the purpose of allowing an additional 51-units to be allocated to the existing 399-units already entitled on the subject property. According to the applicant's letter, the current owner (*i.e. Rockwall Rental Properties, LP*) will be retaining the proposed building adjacent to the Harbor Fountain and 75 of the 399-units. The remainder of the land and the remaining 324-units are under contract by the applicant. The applicant is requesting that the City Council grant the additional 51-units to increase the overall unit count for the property (*i.e. adjacent to Lakefront Trail*) to 375-units. In addition, the applicant has submitted a concept plan showing that the building would be increased from a four (4) story building to a five (5) story building. The applicant has submitted an updated concept plan that staff has incorporated into the draft ordinance and conformance to this plan is considered to be a condition of approval. Staff should point out that the applicant is showing a parking garage will be added on the subject property that will be intended to serve the adjacent property. This property is currently occupied by a Cinemark Theater, and is owned by the applicant. After reviewing the applicant's case, staff has determined that the request is in conformance with all the requirements of Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]; however, the allocation of any *urban residential* units within Planned Development District 32 (PD-32) is a discretionary decision for the City Council. If approved the total number of unallocated *urban residential* units would be decreased to 182-units.

NOTIFICATION:

On October 26, 2017, staff mailed 140 notices to property owners and residents within 500-feet of Planned Development District 32 (PD-32). Staff also emailed a notice to the Lakeside Village, Fox Chase, Chandler's Landing, Signal Ridge and Waters Edge Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of Planned Development District 32 (PD-32). Additionally, staff posted a sign on the property adjacent to Lakefront Trail, and advertised the public hearings in the Rockwall Herold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received one (1) notice that appeared to be in opposition of the proposed development.

RECOMMENDATIONS:

If the Planning and Zoning Commission recommends approval of the applicant's request to amend *Ordinance No. 13-16* and approve an amended PD Development Plan for the subject property then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *PD Development Plan* ordinance;

2) Any construction resulting from the approval of this *zoning amendment* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

---

Ryan,

Thank you for your time this morning. As we discussed, we have a portion of Lot 9, Block A Harbor-Rockwall Addition and all of the 1.225 acre lot identified on the plate as Rockwall Rental Properties L.P. under contract, see attached plat for reference. The Seller is retaining a portion of the Lot 9 and retaining the rights to develop 75 condo units on that parcel (the finger piece on the site plan that fronts the fountain as noted as 3-story mixed use above parking podium).

Since the Seller is retaining 75 units, that leaves only 324 units for the remaining land and we would like to make the request to increase our unit count from 324 units to 375 units to maximize the area and allow us to build the public parking garage as noted on the site plan.

While the site plan notes 4-story dwelling units and even references mixed-use, we will likely have to increase the larger project to 5 stories and I am not sure the 3-story will be mixed-use. Do I need to revise the plan to remove these details for the Planned Development approval process?

Please review and let me know if you need any additional information.

Thank you.

Kevin Hickman

CITY OF ROCKWALL

ORDINANCE NO. 13-16

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING ORDINANCE NO. 11-43, PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [ORDINANCE NO. 10-21] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN ON APPROXIMATELY 12.72-ACRES FOR PROPERTY IDENTIFIED AS TRACTS 16 & 16-1, M. J. BARKSDALE SURVEY, ABSTRACT NO. 11; LOT 7, BLOCK A, THE HARBOR-ROCKWALL ADDITION; LOT 1-1, BLOCK A, HENRY AFRICA SUBDIVISION ADDITION; AND LOT 3A, BLOCK A, SHORELINE PLAZA ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Russell Phillips on behalf of Randall Noe with Rockwall Rental Properties, L.P., for a Planned Development (PD) Development Plan within Planned Development District 32 (PD-32) on an approximately 12.72-acre tract of land identified as Tracts 16 & 16-1, M. J. Barksdale Survey, Abstract No. 11; Lot 7, Block A, The Harbor-Rockwall Addition; Lot 1-1, Block A, Shoreline Plaza Addition; and Lot 3A, Block A, Shoreline Plaza Addition, City of Rockwall, Rockwall County, Texas; and more fully described in Exhibit 'A' of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Ordinance No. 11-43, Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the PD Development Plan approved with Ordinance No. 11-43 and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in Exhibit 'B' of this ordinance, attached hereto and

incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Development of this property shall generally conform to the *Zoning Exhibit* depicted in *Exhibit 'B'* of this ordinance;

2) Future submittals shall conform to all requirements stipulated in Planned Development District 32 (PD-32) as specified in Ordinance No. 10-21 [*as amended*], with the exception of the modifications stipulated in this ordinance, specifically with regard to the following requirements concerning street types:

    a. Lakefront Trail (i.e. the north/south public road connecting Interstate Highway 30 to Summer Lee) shall be designed and constructed in accordance with the *Street Type 'E'* standards stipulated in Ordinance No. 10-21 and outlined in the draft ordinance, and

    b. Harbor Heights Drive (i.e. the east/west public road connecting Lakefront Trail and Shoreline Circle) shall be designed and constructed in accordance with the *Street Type 'D_1'* standards stipulated in *Exhibit 'C'* of this ordinance.

3) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed PD Site Plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

4) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a subdivision plat;

5) The architectural design of all buildings within the three (3) affected subdistricts (i.e. the Harbor Residential Subdistrict, the Freeway Frontage Subdistrict and the Harbor Link Mixed-Use Subdistrict) shall conform to the Harbor District Guidelines (Resolution 10-40 [*Exhibit 'A'*]), all applicable ordinances associated with Planned Development District 32 (PD-32) [*as amended*], and to the Unified Development Code;

6) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB);

7) The pedestrian access extending from Lakefront Trail to the Harbor Fountain will be required to be located within a Pedestrian Access Easement to be shown of the final plat; and

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support their use.

Section 4. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 17th DAY OF JUNE, 2013.

WHEREAS, the City has received a request from Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a Planned Development (PD) Development Plan within Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that *Ordinance No.'s 11-43 & 13-16*, Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That any portion of *Ordinance No.'s 11-43 & 13-16* in conflict with this ordinance shall be subject to the requirements of this ordinance;

Section 2. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the PD Development Plans approved with *Ordinance No.'s 11-43 & 13-16* and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

DRAFT ORDINANCE 11.14.17

1) Development of this property shall generally conform to the *PD Development Plan* depicted in *Exhibit 'B'* of this ordinance;

2) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed PD Site Plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

3) The proposed multi-family development adjacent to Lakefront Trail (*indicated as* 1 *on Exhibit 'B' of this ordinance*) shall be permitted to consist of a maximum of 375 condominium units. The proposed multi-family development adjacent to the Harbor Fountain (*indicated as* 2 *on Exhibit 'B' of this ordinance*)shall be permitted to consist of a maximum of 75 condominium units.

4) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a subdivision plat;

5) The architectural design of all buildings within the two (2) affected Subdistricts (*i.e. the Harbor Residential Subdistrict and the Harbor Link Mixed-Use Subdistrict*) shall conform to the Harbor District Guidelines (*i.e. Resolution 10-40]*), all applicable ordinances associated with Planned Development District 32 (PD-32) [*as amended*], and to the Unified Development Code;

6) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB);

7) The pedestrian access extending from Lakefront Trail to the Harbor Fountain will be required to be located within a *Pedestrian Access Easement* to be shown of the final plat; and

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development to support their use.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT NOT FOR FINAL

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Ed Cavendish of *VPS Construction*

AGENDA ITEM: **SP2017-031;** *Site Plan/Open Space Plan for Spyglass Hill, Phase IV Addition*

SUMMARY:

Discuss and consider a request by Ed Cavendish of VPS Construction for the approval of a site plan/master open space plan for the Spyglass Hill, Phase 4 Subdivision consisting of 33 single-family residential lots on a 6.888-acre tract of land, zoned Planned Development District 8 (PD-8), generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property is situated within Planned Development District 8 (PD-8). On October 19 1992, *Ordinance No. 92-39* was adopted as part of Planned Development District 8 (PD-8) and changed the zoning of the subject property from allowing multi-family land uses to allowing zero lot-line single-family land uses. In addition, this ordinance established a concept plan and density and dimensional requirements for all lots in this area. As part of these requirements, specific heights were established for Lots 16-27 based on the proposed finished elevations. This concept plan was then adopted as a preliminary plat by *Case No. PZ1992-008-01* in October of 1992. Recently, the applicant requested this preliminary plat -- *which expired in October of 1993* -- be reinstated consistent with the zoning on the property. This request was approved on October 24, 2017. In conformance with this approval the applicant has submitted an application for a site plan/master open space plan for the proposed 33-lot single-family, zero lot-line subdivision. The subject property is generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740].

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Planned Development District 8 (PD-8), the proposed use (*i.e. zero lot-line single-family residential*) is permitted in compliance with the standards established by *Ordinance No. 92-39*, and will not require any additional approvals by the Planning and Zoning Commission or City Council. The submitted site plan, open space master plan, and landscape plan conform to the technical requirements contained within the Unified Development Code (UDC) and Planned Development District 8 (PD-8), with the exception of the items listed in the *Recommendation* section of this case memo. The following is a summary of the density and dimensional requirements, as established in *Ordinance No. 92-39*, for the subject property.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Width	*50-feet*	*x>50-ft; In Conformance*
Minimum Lot Depth	*90-feet*	*x>90-ft; In Conformance*
Minimum Lot Area	*5,000 SF*	*x>5,000 SF; In Conformance*
Minimum Front Yard Setback	*25-feet*	*X= 25-ft; In Conformance*
Minimum Rear Yard Setback (lots 16-28)	*20-feet*	*X=20-ft: In Conformance*
Minimum Rear Yard Setback	*10-feet*	*x>10-ft; In Conformance*
Minimum Separation Between Buildings	*20-Ft*	*x<60; In Conformance*
Max Building/Lot Coverage	*50%*	*x<50%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Maximum Building Height	*30-ft*	*x<30-ft; In Conformance*
Minimum Number of Parking Spaces	*2 + 2 garage*	*In Conformance*
Maintenance Easement	*5-ft*	*x=5-ft; In Conformance*

PARKS BOARD RECOMMENDATION:

On November 7, 2017, the Parks Board approved a recommendation to assess the project fees based on the requirements for 33 single-family lots within Park District No. 17 and is as follows:

a) Cash in lieu of land fees - $169 per lot x 33 lots = $5,577
b) Pro-rata equipment fees - $225 per lot x 33 lots = $7425

All fees totaling $13,002 are to be paid at the time of final plat approval. Fees are subject to change if not paid within the 2017 calendar year.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the site plan and recommend approval of the open space master plan for the *Spyglass Hill, Phase IV Addition*, staff would offer the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The development shall pay the fees assessed by the Parks Board at their November 7, 2017 meeting as indicated in this report at the time of final plat approval.

3) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Deric Salser; *Salser Development Group*

AGENDA ITEM: **SP2017-032**; *Rockwall School of Music*

SUMMARY:

Discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of a site plan for a music studio on a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for an ~4,000 SF *music studio* [*i.e. Rockwall School of Music*]. The proposed music studio is situated on a 0.747-acre portion of a larger 2.49-acre parcel of land [*i.e. Lot 9, Block A, Flagstone Corners Addition*], is zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, and is addressed as 1830 & 1482 Mims Road.

On September 5, 2017, the City Council approved a Specific Use Permit (SUP) [*Case No. Z2017-033*] (*SUP No. S-174*) to allow a *music studio* [*i.e. Rockwall School of Music*] in Planned Development District 60 (PD-60). Per the approved Specific Use Permit (SUP), the applicant is proposing to construct a six (6)-foot masonry screening wall adjacent to the residential properties located along the eastern and southern property lines. According to the applicant, the building will be designed so that no sound will affect the adjacent residential properties. This is a condition of approval of the approved Specific Use Permit (SUP). The applicant is also required to provide a 20-foor landscape buffer strip adjacent to Mims Road.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use *(i.e. a music studio*) is permitted by an approved Specific Use Permit (SUP) [*SUP No. S-174*] in Planned Development District 60 (PD-60), and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*X=32,538 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X~182-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X=174Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*X~90-Feet; In Conformance*
Minimum Rear Yard Setback	*30-Feet*	*X~45-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Side Yard Setback	*10-Feet*	*X~20-Feet; In Conformance*
Maximum Building Height	*36-Feet*	*X=23-Feet; In Conformance*
Max Building/Lot Coverage	*40%*	*X<40%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*
Minimum Number of Parking Spaces	*16*	*28 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X=20%; In Conformance*
Minimum Landscaping Percentage	*25%*	*41%; In Conformance*
Maximum Impervious Coverage	*75-80%*	*X<80%; In Conformance*

TREESCAPE PLAN:

The applicant has provided a tree survey identifying trees, including one (1) Pecan tree measuring 20 caliper inches that will require removal in order to develop the property. According to Section 3, *Definitions*, of Article IX, *Tree Preservation*, of the Unified Development Code, any Oak, Pecan, or Elm tree that has a dbh of four (4) inches or greater or any tree that has a dbh of 30 inches or greater is considered to be a feature tree and may not be removed without the approval of the Planning and Zoning Commission. The applicant is mitigating for 44 caliper inches by planting 54 caliper inches on site.

VARIANCE:

The applicant is requesting a variance to the masonry requirements stipulated in the Unified Development Code (UDC). According to the Subsection 4.1, *General Commercial District Standards*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code, (UDC), each exterior wall of a structure shall consist of 90% masonry materials when visible from a public street or open space. Additionally, Hardy Plank or other cementaceous products shall be limited to 50% of the building's façade. Exceptions to this requirement may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings of the structure and material samples. In this case, the applicant is proposing to utilize ~80% Hardy Plank and 20% stone as the exterior cladding. Although this is considered a discretionary decision to the Planning and Zoning Commission and City Council, the applicant did provide a rendering of the structure with the Specific Use Permit (SUP) which was approved on September 5, 2017. Staff should note that as a condition of approval of the Specific Use Permit (SUP) the building was to generally conform to the elevations in the ordinance.

SPECIAL EXCEPTION:

The applicant is requesting a special exception to the residential adjacency screening requirements. According to Section 5.6, *Screening from Residential Use*s, of Article VIII, *Landscape Standard*s, of the Unified Development Code, any commercial use that has a side or rear contiguous to a single-family residential development with more than five (5) dwelling units shall be screened with a masonry fence. Additionally, the Unified Development Code (UDC) states that precast walls may be approved by the Planning and Zoning Commission. In this case, the applicant is proposing to construct a six (6)-foot pre-cast concrete wall that will be located on the inside of the existing landscape screening [*i.e. Nellie R. Stevens Holly trees*] at the residential property lines to the east and south. According to Subsection 5.6, *Screening from Residential Use*, of Section 5, *Mandatory Provisions*, of Article VIII, *Landscape Standards*, of the Unified Development Code, the Planning and Zoning Commission has the ability to approve pre-cast concrete wall on a case-by-case basis. Staff should note, this is considered a discretionary decision for the Planning and Zoning Commission.

ARCHITECTURAL REVIEW BOARD

On October 24, 2017, the Architectural Review Board (ARB) reviewed the submitted building elevations and made recommendation to approve the building elevations with the condition that the stone wainscot be continued around the entire building. The applicant has agreed to this condition.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2017-032 (Rockwall School of Music): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of a site plan for a music studio on a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-032) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Planned Development District 60 (PD-60) for Residential Office (RO) District Standards.

M.32 Site Plan. Please show and label 20-foot landscape buffer adjacent to Mims Road.

M.33 Site Plan. Please provide site data information required in Sec 2.1 Site Plan: Miscellaneous and Density and Dimensional Requirements of this checklist (in a table).

M.34 Site Plan. Please note that the precast concrete masonry wall will require an exception. This is discretionary to the Planning and Zoning Commission and City Council.

M.35 Site Plan. Please show only the building footprint and not the floorplan.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

M.36 Site Plan. Please provide different linetypes (including a legend) for easements, property lines, etc.

M.37 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan:Miscellaneous and Density and Dimensional Requirements of this checklist.

M.38 Landscape Plan. Please indicate the application zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.

M.39 Landscape Plan. Please clarify landscape table and symbology. It is difficult to tell what trees are being planted in which locations.

M.40 Landscape Plan. Please show visibility triangles (show on site plan as well).

M.41 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.42 Landscape Plan. Please check tree mitigation requirements. Cedars and Hackberrys under 11 inches are not considered to be protected and do not require mitigation. Any Cedars and Hackberrys 11 inches or greater are only mitigated for ½ the caliper inches being removed. I calculated a total of 53 caliper inches needing mitigation instead of 68.

M.43 Landscape Plan. Any Oak 4 caliper inches or greater is considered to be a feature tree and requires approval from the Planning and Zoning Commission.

M.44 Photometric. No light pole, base or combination thereof shall exceed 15-feet in height. Also all lighting fixtures must focus light downward and be contained on the site. Please provide a light detail indicating the height the lighting poles.

M.45 Photometric. Please darken the property lines on the Photometric Plan.

M.46 Photometric. No lighting facilities shall distribute more than 0.2 of one footcandle of light at the property line. Please look at the lighting along the property lines to get this as close as possible to 0.2.

M.47 Photometric. Please note, no lighting facilities shall distribute more than 20 of one footcandle of light on the remainder of the property.

M.48 Photometric. Please try and make the lighting symbols clearer so that it is easier to distinguish each symbol.

M.49 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).

M.50 Photometric. Please provide same site data table as site plan and landscape plan.

M.51 Building Elevations. Please label all roof mounted mechanical equipment and how these will be screened from view.

M.52 Building Elevations. Will the stone masonry all be the same color?

M.53 Building Elevations. Please provide a perspective of the North and East elevations.

M.54 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.55 Building Elevations. Please indicate the elevation that faces the street.

M.56 Building Elevations. Please provide color elevations/perspectives.

I.57 The Architectural Review Board (ARB) meeting for this case will be held on October 24, 2016 at 5:00 p.m.

I.58 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 7, 2016. The Planning and Zoning Worksession for this case will be October 24, 2014 at 6:00 p.m. The Planning and Zoning Meeting will be November 14, 2017. A representative is required to attend all meetings.

I.59If necessary the projected City Council meeting date for this case will be November 20, 2017.

EXISTING TREE NOTES

Existing trees to remain shall be protected during construction from tree structure damage and compaction of soil under and around dripline (canopy) of tree.

If any root structure is damaged during adjacent excavation/construction, notify the Architect/Engineer immediately. It is recommended that a licensed Arborist be secured for the treatment of any possible tree wounds.

No disturbance of the soil greater than 4" shall be located closer to the tree trunk than ½ the distance of the drip line to the tree trunk. A minimum of 75% of the drip line and root zone shall be preserved at natural grade.

Any fine grading done within the critical root zones of the protected trees must be done with light machinery such as a bobcat or light tractor. No earth moving equipment with tracts is allowed within the critical root zone of the trees.

Material Storage: No materials intended for use in construction or waste materials accumulated due to excavation or demolition shall be placed within the limits of the dripline of any tree.

Equipment Cleaning/Liquid Disposal: No equipment may be cleaned, toxic solutions, or other liquid chemicals shall be deposited within the limits of the dripline of a tree. This would include but not be limited to paint, oil, solvents, asphalt, concrete, mortar, primers, etc.

Tree Attachments: No signs, wires or other attachments, other than those of a protective nature shall be attached to any tree.

Vehicular Traffic: No vehicular and construction equipment traffic or parking is allowed within the limits of the dripline of trees.

Boring of Utilities: May be permitted under protected trees in certain circumstances. The minimum length of the bore shall be the width of the tree's canopy and shall be a minimum depth of forty-eight (48") inches.

Trenching: Any irrigation trenching that must be done within the critical root zone of a tree shall be dug by hand and enter the area in a radial manner.

Tree Flagging: All trees to be removed from the site shall be flagged by the Contractor with bright red vinyl tape (3" width) wrapped around the main trunk at a height of four (4') feet above grade. Flagging shall be approved by Landscape Architect/Engineer prior to any tree removal. Contractor shall contact Landscape Architect/Engineer with 72 hour notice to schedule on-site meeting.

Protective Fencing: All trees to remain, as noted on drawings, shall have protective fencing located at the tree's dripline. The protective fencing may be comprised of snow fencing, orange vinyl construction fencing, chain link fence or other similar fencing with a four (4') foot approximate height. The protective fencing will be located as indicated on the Tree Protection Detail(s).

Bark Protection: In situations where a tree remains in the immediate area of intended construction, the tree shall be protected by enclosing the entire circumference of the tree's trunk with lumber encircled with wire or other means that does not damage the tree. Refer to Tree Protection Detail(s).

Construction Pruning: In a case where a low hanging limb is broken during the course of construction, the Contractor shall notify the Landscape Architect/Engineer immediately. In no instance shall the Contractor prune any portion of the damaged tree without the prior approval by the Landscape Architect/Engineer.

NOTES:

1. VERIFY ALL MOUNTING REQUIREMENTS WITH EQUIPMENT PROVIDER. COORDINATE EXACT LOCATIONS OF ALL EQUIPMENT WITH ARCHITECT.
2. VERIFY ACTUAL EQUIPMENT LOADS AND CONNECTION REQUIREMENTS WITH MANUFACTURER. DO NOT EXCEED THE LOAD VALUE AS SHOWN ON SCHEDULE. ALL CIRCUITS DESIGNED BASED ON ABOVE LOADS FOR EACH EQUIPMENT. CONTRACTOR SHALL NOT CIRCUIT OR CONNECT ANY EQUIPMENT WHICH EXCEEDS THE CONNECTED LOAD AS SHOWN ON TABLE. WIRE AND CONDUIT SIZES SHALL BE SIZED TO COMPENSATE FOR VOLTAGE DROP PER THE NATIONAL ELECTRICAL CODE.
3. CONTRACTOR SHALL PROVIDE APPROPRIATE RECEPTACLE, JUNCTION BOX, DISCONNECT OR CONNECTION MEANS FOR ALL DEVICES IN EQUIPMENT SCHEDULE EVEN IF NOT NOTED FOR EQUIPMENT INSTALLATION. COORDINATE EXACT REQUIREMENTS WITH EQUIPMENT INSTALLER.

C UL US LISTED

General: The high reflectance louvers within the Espial Bollard increase area illuminance for security, pathway, and entrance lighting.

Housing: Cast low-copper content aluminum tops, lamp chamber, and base. Extruded aluminum bollard tube. Stainless steel exterior hardware.

Louvers: 5.56" diameter louvers with beadblast outside surface and acid etch inside surface. Louvers can be painted to match fixture and/or reduce indirect uplight.

Lens: Supplied with UV stabilized, medium-impact clear acrylic (50% DR) lens.

Attachment Collar: Mechanically attached to the heat sink; LED module inserted into the locater insert tab collar and connected via a 'twist-and-lock' motion.

LED Module: Available wattages include: 15w and 23w Available color temperatures: 2700K, 3000K, and 4000K. CRI > 80. Rated life = 50,000 hours.

Heat Sink: Supplied with 6" cylindrical heat sink; powder coat finish; providing an overall heat-sinking surface area of 384 square inches.

LED Driver: LED 36W DC 700mA aluminum; universal input voltage 120v-277v; output current 700mA; dimmable with trailing edge dimmers.

Finish: Textured polyester powder coat finish. Black, bronze, gray, white, silver, and verde green options available. Contact factory for custom colors.

Gaskets: EPDM gaskets are standard.

Dimensions: Available in 6.3" diameter with overall height options of 30" and 42". Contact factory for custom heights.

Tops: Four (4) top styles available:
beveled (-B), cone (-C), dome (-D), and flat (-F)

Mounting: Mount the fixture using the provided mounting template and ½" anchor bolt kit (4 bolts).

Listings: ***(PENDING)*** UL Listed 1598 for Wet Locations and suitable for mounting within 4' of ground. Indoor/Outdoor listed for use in Canada.

Evolve™ LED Area Lighting

EALS

current
powered by GE

Product Features

The EAL Area Light luminaires are the newest members of the GE Evolve™ LED Area Light family. They offer a wide range of optical patterns, color temperatures, lumen packages, and mounting configurations to best optimize area light applications, as well as provide versatility in lighting design within the same form-factor. They are available in a standard and premium and perfect for commercial property site-lighting applications such as retail locations or commercial offices. The "standard" EALS area light, has a lumen range from 10,000–34,000 lumens with an efficacy point up to 146 LPW. These luminaires feature innovative heat sinking that produces thermal stability over life in an extremely lightweight housing, while meeting a 3G vibration rating tested on 3-axis.

The GE Evolve™ LED EALS Area Light is intended to replace up to 1000W MH luminaires. It features 0-10V or DALI dimming, along with LightGrid™ wireless control compatibility and is available with optional programmable motion sensing for additional energy savings and Title 24 compliance. The Universal Mounting Area option enables luminaires to mount to round poles ranging in size from 2.38" to 6" in diameter or on square poles.

Applications

- Site, area, roadway and general lighting applications utilizing advanced LED optical system providing high uniformity, excellent vertical light distribution, reduced offsite visibility, reduced on-site glare and effective security light levels.
- Ideal for large retailers, commercial to medical properties, and big box retailers. Also suitable for roadways.

Housing

- Slim architectural design incorporates an integral heat sink and light engine, ensuring maximum heat transfer, and long LED life.
- Die cast aluminum housing
- 3G vibration per ANSI C136.31-2010

LED & Optical Assembly

- LM-79 tests and reports in accordance with IESNA standards
- 70CRI at 3000K, 4000K and 5000K
- Distributions: II, III, IV, V (short & medium)
- Upward Light Output Ratio (ULOR) = 0

- IP66 optical enclosure per ANSI C136.25-2013
- Temperature Rated –40°C to +40°C
- Title 24 compliant (w/ "H" motion sensor option)
- Complies with the material restrictions of RoHS.

Mounting

Option C: C1 = Integral Slipfitter 2" Pipe (2.378 in. OD) supplied with leads.

Option D: D1 = Universal Mounting Arm, fitted for round or square pole mounting supplied with 16/3 3ft cable.

Option K: K1 = Knuckle Slipfitter for 1.9 in. -2.3 in. OD Tenon with leads. Restricted aiming angle 0° to +45°.

Option S: S1 = Knuckle Slipfitter for 2.3in. - 3.0in OD Tenon with leads. Restricted aiming angle 0° to +45°.

Option V: V1 = Knuckle Wall Mount with leads. Restricted aiming angle 0° to +45°.

Finish

- Corrosion resistant polyester powder paint, minimum thickness 2.0 mil.
- Standard colors: Black & Dark Bronze.
- RAL & custom colors available.

Electrical

- 120-277 VAC and 347-480 VAC available.
- System power factor is >90% and THD <20%.
- ANSI C136.41 7-pin dimming receptacle, standard.
- ANSI photo electric sensors (PE) available for all voltages. Light Grid compatible.
- Dimming/Occupancy:
  - Wired 0-10V continuous dimming
  - DALI digital dimming. Contact manufacturer for availability.
  - Standalone motion sensor based dimming using "H" option code.
- Surge Protection per ANSI C136.2-2015.
  - 6kV/3kA "Basic" surge protection, standard.
  - 10kV/5kA "Enhanced" surge protection optional.

Warranty

- 5 Year Standard

Accessories

- Photoelectric Controls (see page 7)
- Light Shields (see OLP 3120 Shielding for EAL Area Light Fixtures)

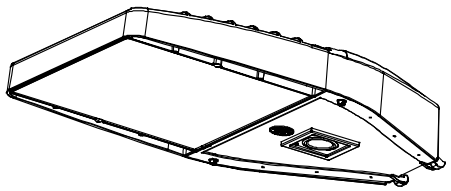
H-Motion Sensing Option



- Intended for applications, between 15-30 ft. mounting height. (4.57-9.14m). For mounting heights exceeding 30 ft., pole mounted sensors are recommended.
- Provides a coverage area radius for walking motion of 15-20 ft. (4.57-6.10m).
- Provides 270° of coverage (~90° is blocked by the pole).
- Standard factory settings:
  – 50% output when unoccupied, 100% output occupied.
  – Integral PE Sensor.
  – 5 minute post-occupancy time delay, 5 minute dimming ramp-down.
- Fixture power increase of 1W expected with sensor use.

Note: Standard options may be reprogrammed in the field. Reprogramming instructions included in product shipment.

Evolve™ LED Area Light

Scalable Wall Pack (EWS3)

current
powered by GE

Product Features

The GE Evolve LED Scalable Wall Pack is optimized for customers looking for an efficient and reliable LED solution to replace 75W - 250W Metal Halide wall mounted, site, area and general lighting applications.

Depending on the application, Evolve™ LED Scalable Wall Pack can yield up to a 75% reduction in system energy consumption compared with standard HID systems. Standard 0-10V dimming and an optional motion sensor with daylight harvesting can provide additional energy savings. The EWS3 offers a typical 105 LPW and is available in key lumen packages and reflective optics to optimize light output for most applications. This reliable system operates well in cold temperatures and offers more than 11 years of service life to reduce maintenance frequency and expense, based on a 50,000 hour rated life and 12 hours of operation per day. Containing no mercury or lead, this environmentally responsible product is RoHS compliant.

Applications

- Wall mounted, site, area and general lighting utilizing an advanced LED optical system providing uniformity, vertical light distribution, reduced offsite visibility, reduced on-site glare and effective security light levels.

Housing

- Die-cast aluminum housing.
- Sleek architectural design incorporating a heat sink directly into the unit ensuring maximum heat transfer and long LED life.
- Meets 1.5 G vibration standards per ANSI C136.31-2010.

LED & Optical Assembly

- Structured LED array for optimized light distribution.
- Evolve™ LED light engine utilizes reflective technology to optimize application efficiency and minimize glare.
- Utilizes high brightness LEDs, 70 CRI at 3000K, 4000K & 5000K typical.
- LM-79 tests and reports are performed in accordance with IESNA standards.

Lumen Maintenance

- Projected L90>47,000 hours per IES TM-21
- Projected Lxx per IES TM-21 at 25°C for reference:

Ratings

- UL listed, suitable for wet locations.
- cUL listed with option code "J" SKUs.
- IP 65 rated optical enclosure per ANSI C136.25-2013.
- Title 24 compliant with motion sensor option.
- Temperature rated at –40° to 50°C. (35°C for high wattage 90W SKU).
- Upward Light Output Ratio (ULOR) = 0
- Complies with the material restrictions of RoHS.

DLC Standard qualified models available. Please refer to http://www.designlights.org/QPL for complete information.

Mounting

- Flush wall mount to "J" box with inspection hole for IP 65.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Juan J. Vasquez; *Vasquez Engineering, LLC.*

AGENDA ITEM: **SP2017-033;** Hyatt House Hotel

SUMMARY:

Discuss and consider a request by Juan J. Vasquez of Vasquez Engineering, LLC on behalf of Deepak Gandhi of Rockwall Inn Keepers I, LTD for the approval of a site plan for a hotel on a 2.681-acre identified as a portion of Lots 9 & 11, Block A, La Jolla Pointe, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, located at the southeast corner of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting the approval of a *site plan* for the purpose of constructing a four (4) story, 62,870 SF hotel. The proposed hotel will be situated on a 2.681-acre parcel of land identified as a portion of Lots 9 & 11, Block A, La Jolla Pointe, Phase 2 Addition that is located at the southeast corner of the intersection of Laguna Drive and La Jolla Pointe Drive, is within the IH-30 Overlay (*IH-30 OV*) and Scenic Overlay (*SOV*) Districts, and is zoned *Commercial* (C) *District*.

On August 7, 2017, the City Council approved a Specific Use Permit (*SUP No. S-170*) [*Ordinance No. 17-38*] to allow for a hotel in a Commercial (C) District. The SUP also allows for the structure to exceed 36-feet in height with a maximum overall height not to exceed 60-ft. The SUP limits the hotel to suites that do not contain kitchen facilities or cook-tops. This hotel will contain a total number of 100 rooms and will have a 1,800 SF meeting room. Additionally, the SUP stipulates that the development shall generally be in conformance with the concept plan and building elevations depicted in the ordinance.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (*UDC*), a hotel is a use permitted by SUP in a Commercial (C) District and the SUP for this hotel [*Case No. Z2017-028*] was approved for the subject property on August 7, 2017. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within *SUP Ordinance No. S-170* and the Unified Development Code (*UDC*) for properties located within the IH-30 Overlay (*IH-30 OV*) and Scenic Overlay (*SOV*) Districts and zoned Commercial (C) District. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*x=2.681-Acres; In Conformance*
Minimum Lot frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Rear Yard Setback	*20-Feet + 1/2*[1]	*x>28-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*x=20-Foot; In Conformance*
Maximum Building Height	*36-Ft w/o SUP*[2]	*x=60 Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*x=17.9%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*109*	*109 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x>/= 20%; In Conformance*
Minimum Landscaping Percentage	*15%*	*15%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=61.2%; In Conformance*

NOTES: 1 Abutting residentially zoned property: 20 feet plus one-half the building height over 36 feet.
2. Maximum building height: 240 feet. Any structure over 36 feet shall require a specific use permit.

VARIANCE REQUEST:

1) The applicant is requesting a variance to the Overlay Districts requirements for the section outlined below. As a note, a variance request to the IH-30 Overlay (*IH-30 OV*) and the Scenic Overlay (*SOV*) Districts require passage by a ¾ majority vote of those City Council members present. The requests is as follows:

   a) Article V, Section 6.6 IH-30 Overlay (IH-30 OV) and Section 6.8 Scenic Overly (SOV) District Standards: A variance to allow for the use of more than 50% cementaceous product (*i.e. 3-part stucco*) on the north, south, east, and west elevations as established in *Section 6.6, C.1.a, and Section 6.8, D.1.a,* of *Article V,* of the *Unified Development Code* (UDC) by allowing 61% on the north, 56% on the south, 57% on the east, and 55% on the west elevations as depicted on the building elevations submitted. ***[¾ Majority Vote]***

TREESCAPE PLAN:

The applicant has provided a treescape plan indicating a total of 1,297 caliper inches being removed from the site, the majority of which are Elm trees. As a note Cedar and Hackberry trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, if less than 11 inches dbh shall not be considered a protected tree. Feature trees (*i.e. Oaks, Pecans, and Elms*) may not be removed without approval of the Planning and Zoning Commission and are required to be replaced on an inch-for-inch basis. The applicant's landscape plan depicts the provision of 65 caliper inches being added to the site. Taking this into account, the total mitigation required for the site is 1,404 caliper inches. The applicant has chosen to pay into the City's Tree Fund an amount equal to $125 per caliper inch for 20% of the mitigation balance, for a total of $35,100.00. The remaining balance will be coordinated with the Parks Department for the delivery of the trees (*i.e. 1,123.8 inches or 374 – 3" trees*).

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On October 24, 2017, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board was generally pleased with the project and did not request any changes; however, the board did request the applicant incorporate a natural stone product rather than the cultured stone being requested. The ARB also requested the applicant use a 3-part stucco as opposed to the EIFS being depicted on the building elevations. The applicant has made the changes as requested by the ARB. The ARB will provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on November 14, 2017.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 10.18.2017

All staff comments are to be addressed and resubmitted by Tuesday, November 7, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-033" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.
4. This hotel shall be limited to non-residence suits (i.e. rooms that do not contain kitchen facilities).

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
-- As a note, all variances to the IH-30 and Scenic OV Districts require approval by a 3/4 majority vote of City Council:

The following is considered to be a request to the IH-30 and Scenic OV Districts:

1. Per Sec. 6.6.C.1 & 6.8, D.1, of Article V, of the UDC, a minimum of 20% natural or quarried stone is required on all walls. All facades as submitted do not meet the standards establihed for the OV district. ** Recalculate without doors and windows **

EXCEPTIONS TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 6.6.C.1.a & 6.8, D.1.a, of Article V, of the UDC, a naturalor quarried stone product is required on all walls.
The applicant is requesting the use of a cultured stone product (i.e. Coronado Stone). The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

? That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size and detail of natural stone;

? That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

? That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

? That the use of the highest quality synthetic mineral oxides should be used to infuse the surface with rich, authentic tones; and

? That the manufactured stone product shall have a minimum warranty of 75 years.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure detail. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as FPADUE (i.e. firelane, public access, drainage & utility easements) for site.
3. Add to 'NOTES' - No. 8. The overall height of building not to exceed a topographic elevation of 566-feet (per Ord. No. 17-38)
4. Are there any restaurants or meeting rooms? If so, provide the appropriate amount of parking at 50% of the required parking for that use in addtion to the parking space requirement for each room. Correct Site Summary Table (if necessary).

Landscape Plan:
1. Add tree icons to the Plant Schedule to easily identfy each tree species on the plan.
2. You may want to add a label indicating the existing trees at the northwest corner of the lot will remain.
3. Will there be any additional landscape materials around the building (e.g. flowers, shrubs, etc.)?

Treescape Plan:
1. Reduce the total mitigation balance by 65" for on site plantings from landscape plan. New Mitigation Balance = 1,404 caliper inches. The mitigation balance may be satisfied by either purchaseing tree credits equal to 20% of the mitigation balance at $125 per inch with the remainder balance due by establishing a delivery method for trees (get with the Parks Dept. for logistics). Or you may request an alternative tree mitigation plan to be approved by the City Council.

Photometric Plan:
1. Provide a photometric plan for all exterior lighting and cut sheets of all exterior light fixtures.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures).
3. Maximum intensity of exterior lighing is not to exceed 0.2-FC at the property lines.

Building Elevations:
1. See compliance standards for all Variances and Exception as listed above (i.e. 20% natural stone, and request for cultured stone).
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

GENERAL LAWN NOTES

EROSION CONTROL AND SOIL PREPARATION:
THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING TOP SOIL AT THE CORRECT GRADES. CONTRACTOR TO FINE GRADE AREAS TO REACH FINAL CONTOURS AS SPECIFIED PER CIVIL PLANS. ALL CONTOURS SHOULD ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS AND STRUCTURES. WATER SHOULD NOT BE ABLE TO POOL IN ANY AREAS UNLESS SPECIFIED OTHERWISE. EROSION FABRIC SUCH AS JUTE MATTING OR OPEN WEAVE TO BE USED WHERE NECESSARY TO PREVENT SOIL EROSION.

ANY LOSS OF TOPSOIL OR GRASS DUE TO EROSION IS THE RESPONSIBILITY OF THE CONTRACTOR UNTIL IT IS 100% ESTABLISHED.

CONTRACTOR TO REMOVE ANY ROCKS 3/4" AND LARGER, STICKS AND DEBRIS PRIOR TO INSTALLATION OF TOPSOIL AND SOD.

FOUR (4") OF TOPSOIL SHALL BE APPLIED TO AREAS DISTURBED BY CONSTRUCTION RECEIVING SOD. IF TOPSOIL IS NOT AVAILABLE ON SITE, THE CONTRACTOR SHALL PROVIDE TOPSOIL AS APPROVED BY THE OWNER OR OWNERS REPRESENTATIVE.

TOPSOIL SHALL BE FRIABLE, NATURAL LOAM, FREE OF ROCKS, WEEDS, BRUSH, CLAY LUMPS, ROOTS, TWIGS, LITTER AND ENVIRONMENTAL CONTAMINANTS.

CONTRACTOR SHALL BE RESPONSIBLE FOR SOD UNTIL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT BE LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION. SOD SHALL BE REPLACED IF NECESSARY.

SOLID SOD:
SOLID SOD SHALL BE PLACED ALONG ALL IMPERVIOUS EDGES, AT A MINIMUM. THIS SHALL INCLUDE CURBS, WALKS, INLETS, MANHOLES AND PLANTING BED AREAS. SOD SHALL COVER OTHER AREAS COMPLETELY AS INDICATED BY PLAN.

SOD SHALL BE STRONGLY ROOTED DROUGHT RESISTANT SOD, NOT LESS THAN 2 YEARS OLD, FREE OF WEEDS AND UNDESIRABLE NATIVE GRASS AND MACHINE CUT TO PAD THICKNESS OF 3/4" (+ 1/4"), EXCLUDING TOP GROWTH AND THATCH. PROVIDE ONLY SOD CAPABLE OF VIGOROUS GROWTH AND DEVELOPMENT WHEN PLANTED.

DO NOT INSTALL SOD IF IT IS DORMANT OR GROUND IS FROZEN. LAY SOD WITH TIGHTLY FITTING JOINTS, NO OVERLAPS WITH STAGGERED STRIPS TO OFFSET JOINTS.

SOD SHALL BE ROLLED TO CREATE A SMOOTH EVEN SURFACE. SOD SHOULD BE WATERED THOROUGHLY DURING INSTALLATION PROCESS.

SHOULD INSTALLATION OCCUR BETWEEN OCTOBER 1ST AND MARCH 1ST, SOD SHALL INCLUDE AN OVER-SEED OF ANNUAL RYE OR WINTER RYEGRASS AT A RATE OF FOUR POUNDS PER ONE THOUSAND SQUARE FEET FOR A GROWN-IN APPEARANCE. CONTRACTOR SHALL ENSURE CONFORMANCE TO §115.D OF TITLE 7, PART XXIX, HORTICULTURE COMMISSION CHAPTER 1.

HYDROMULCH:

SCARIFY SURFACE TO A MINIMUM OF 2" DEPTH PRIOR TO THE IMPORT TOPSOIL APPLICATION. TOP SOIL SHALL BE PLACED 2" IN DEPTH IN ALL AREAS TO BE SEEDED. CONTRACTOR TO SUPPLY HIGH QUALITY IMPORTED TOPSOIL HIGH IN HUMAS AND ORGANIC CONTENT FROM A LOCAL SUPPLY. IMPORTED TOPSOIL SHALL BE REASONABLY FREE OF CLAY LUMPS, COARSE SANDS, STONES, ROOTS AND OTHER FOREIGN DEBRIS.

IF INADEQUATE MOISTURE IS PRESENT IN SOIL, APPLY WATER AS NECESSARY FOR OPTIMUM MOISTURE FOR SEED APPLICATION.

ALL SEED SHALL BE HIGH QUALITY, TREATED LAWN TYPE SEED AND IS FREE OF NOXIOUS GRASS SEEDS. THE SEED APPLICATION SHALL BE UNIFORMLY DISTRIBUTED ON THE AREAS INDICATED ON PLANS. HYDROMULCH WITH BERMUDA GRASS SEED AT A RATE OF TWO POUNDS PER ONE THOUSAND SQUARE FEET.

IF INSTALLATION OCCURS BETWEEN OCTOBER 1ST AND APRIL 1ST, ALL HYDORMULCH AREAS SHALL BE OVER-SEEDED WITH ANNUAL RYE GRASS AT A RATE OF FOUR POUNDS PER ONE THOUSAND SQUARE FEET. CONTRACTOR TO RE-HYDROMULCH WITH BERMUDA GRASS AT THE END OF THE ANNUAL RYE GROWING SEASON.

AFTER APPLICATION, NO EQUIPMENT SHALL OPERATE OVER APPLIED AREAS. WATER SEEDED AREAS IMMEDIATELY AFTER INSTALLATION TO SATURATION.

ALL LAWN AREAS TO BE HYDROMULCHED SHALL ACHIEVE 100□ COVERAGE PRIOR TO FINAL ACCEPTANCE.

LANDSCAPE NOTES

REFERENCE SITEWORK AND SPECIFICATIONS FOR INFORMATION NEEDED FOR LANDSCAPE WORK.

CONTRACTOR TO VERIFY AND LOCATE ALL PROPOSED AND EXISTING STRUCTURES. NOTIFY LANDSCAPE ARCHITECT OR DESIGNATED REPRESENTATIVE FOR ANY LAYOUT DISCREPANCIES OR ANY CONDITION THAT WOULD PROHIBIT THE INSTALLATION AS SHOWN.

CONTRACTOR SHALL CALL 811 TO VERIFY AND LOCATE ANY AND ALL UTILITIES ON SITE PRIOR TO COMMENCING WORK. LANDSCAPE ARCHITECT SHOULD BE NOTIFIED OF ANY CONFLICTS.

A MINIMUM OF 2% SLOPE SHALL BE PROVIDED AWAY FROM ALL STRUCTURES.

LANDSCAPE ISLANDS SHALL BE CROWNED, AND UNIFORM THROUGHOUT THE SITE.

ALL PLANTING AREAS SHALL BE GRADED SMOOTH TO ACHIEVE FINAL CONTOURS AS INDICATED ON PLAN WITH 3" OF TOPSOIL AND 3" OF COMPOST AND CONSISTENTLY BLENDED TO A DEPTH OF 9". ALL BEDS SHALL BE CROWNED TO ANTICIPATE SETTLEMENT AND ENSURE PROPER DRAINAGE.

PLANTING AREAS AND SOD TO BE SEPARATED BY STEEL EDGING. EDGING TO BE GREEN IN COLOR AND A MINIMUM OF 3/16" THICK. EDGING SHALL BE STAKED FROM THE INSIDE OF BED. EDGING NOT TO BE MORE THAN 1/2" ABOVE FINISHED GRADE.

MULCH SHALL BE INSTALLED AT 1/2" BELOW THE TOPS OF SIDEWALKS AND CURBING.

QUANTITIES ON THESE PLANS ARE FOR REFERENCE ONLY. THE SPACING OF PLANTS SHOULD BE AS INDICATED ON PLANS OR OTHERWISE NOTED. ALL TREES AND SHRUBS SHALL BE PLANTED PER DETAILS.

CONTAINER GROWN PLANT MATERIAL IS PREFERRED HOWEVER BALL AND BURLAP PLANT MATERIAL CAN BE SUBSTITUTED IF NEED BE AND IS APPROPRIATE TO THE SIZE AND QUALITY INDICATED ON THE PLANT MATERIAL LIST.

TREES SHALL BE PLANTED AT A MINIMUM OF 5' FROM ANY UTILITY LINE, SIDEWALK OR CURB. TREES SHALL ALSO BE 10' CLEAR FROM FIRE HYDRANTS.

4" OF SHREDDED HARDWOOD MULCH (2" SETTLED THICKNESS) SHALL BE PLACED OVER 4.1 OZ WOVEN, WEED BARRIER FABRIC OR APPROVED EQUAL. WEED BARRIER FABRIC SHALL BE USED IN PLANT BEDS AND AROUND ALL TREES AND SHALL BE DE WITT WEED BARRIER OR APPROVED EQUAL. MULCH SHALL BE SHREDDED BARK OR RUBBER LANDSCAPE MULCH, PINE STRAW MULCH IS PROHIBITED.

CONTRACTOR TO PROVIDE UNIT PRICING OF LANDSCAPE MATERIALS AND BE RESPONSIBLE FOR OBTAINING ALL LANDSCAPE AND IRRIGATION PERMITS.

IRRIGATION:
IN THE ABSENCE OF AN IRRIGATION SYSTEM OR AREAS BEYOND THE COVERAGE LIMITS OF A PERMANENT IRRIGATION SYSTEM, CONTRACTOR SHALL WATER SOD TEMPORARILY, BY ANY MEANS AVAILABLE, TO DEVELOP ADEQUATE GROWTH. TURF SHALL BE IN 100% ESTABLISHMENT AT THE TIME OF ACCEPTANCE.

ALL PLANTING BEDS SHALL HAVE AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE/RAIN SENSOR. SYSTEM SHALL ALSO HAVE AN ET WEATHER BASED CONTROLLER AND BE DESIGNED AND INSTALLED BY A LICENSED IRRIGATOR.

MAINTENANCE REQUIREMENTS:
VEGETATION SHOULD BE INSPECTED REGULARLY TO ENSURE THAT PLANT MATERIAL IS ESTABLISHING PROPERLY AND REMAINS IN A HEALTHY GROWING CONDITION APPROPRIATE FOR THE SEASON. IF DAMAGED OR REMOVED, PLANTS MUST BE REPLACED BY A SIMILAR VARIETY AND SIZE.

MOWING, TRIMMING, EDGING AND SUPERVISION OF WATER APPLICATIONS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR UNTIL THE OWNER OR OWNER'S REPRESENTATIVE ACCEPTS AND ASSUMES REGULAR MAINTENANCE.

ALL LANDSCAPE AREAS SHOULD BE CLEANED AND KEPT FREE OF TRASH, DEBRIS, WEEDS AND OTHER MATERIAL.

MISCELLANEOUS MATERIALS:

STEEL EDGING SHALL BE 3/16" X 4 X 16' DARK GREEN DURAEDGE STEEL LANDSCAPE EDGING.

IRRIGATION:

IRRIGATION WILL MEET REQUIREMENTS OF UDC.

TREES:
TREES SHALL BE AT LEAST 5' FROM WATER, SEWER AND STORM LINES.

SHEET
L1.4

SECTION 32 9300 - LANDSCAPE

PART 1 - GENERAL

1.1 QUALIFICATIONS OF THE LANDSCAPE CONTRACTOR.

A. ALL LANDSCAPE WORK SHOWN ON THESE PLANS SHALL BE PERFORMED BY A SINGLE FIRM SPECIALIZING IN LANDSCAPE PLANTING

1.2 REFERENCE DOCUMENTS

A. REFER TO LANDSCAPE PLANS, NOTES, AND DETAILS FOR ADDITIONAL REQUIREMENTS

1.3 SCOPE OF WORK / DESCRIPTION OF WORK

A. WORK COVERED BY THESE SECTIONS INCLUDES THE FURNISHING AND PAYMENT OF ALL MATERIALS, LABOR, SERVICES, EQUIPMENT, LICENSES, TAXES AND ANY OTHER ITEMS THAT ARE NECESSARY FOR THE EXECUTION, INSTALLATION AND COMPLETION OF ALL WORK, SPECIFIED HEREIN AND / OR SHOWN ON THE LANDSCAPE PLANS, NOTES, AND DETAILS.

B. ALL WORK SHALL BE PERFORMED IN ACCORDANCE WITH ALL APPLICABLE LAWS, CODES AND REGULATIONS REQUIRED BY AUTHORITIES HAVING JURISDICTION OVER SUCH WORK, INCLUDING ALL INSPECTIONS AND PERMITS REQUIRED BY FEDERAL, STATE AND LOCAL AUTHORITIES IN SUPPLY, TRANSPORTATION AND INSTALLATION OF MATERIALS.

C. THE LANDSCAPE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UNDERGROUND UTILITY LINES (WATER, SEWER, ELECTRICAL, TELEPHONE, GAS, CABLE, TELEVISION, ETC.) PRIOR TO THE START OF ANY WORK

D. FURNISH ALL LABOR, MATERIALS, EQUIPMENT, AND SERVICES NECESSARY TO PROVIDE ALL WORK, COMPLETE IN PLACE AS SHOWN AND SPECIFIED. WORK SHOULD INCLUDE:

E. PLANTING OF TREES, SHRUBS AND GRASSES

A. SEEDING
B. BED PREPARATION AND FERTILIZATION
C. WATER AND MAINTENANCE UNTIL FINAL ACCEPTANCE
D. WORK GUARANTEE

1.4 REFERENCES

A. AMERICAN NATIONAL STANDARDS INSTITUTE (ANSI) Z60.1 - NURSERY STOCK
B. TEXAS STATE DEPARTMENT OF AGRICULTURE
C. TEXAS ASSOCIATION OF NURSERYMEN, GRADES AND STANDARDS

1.5 SUBMITTALS

A. PROVIDE REPRESENTATIVE QUANTITIES OF EACH SOIL, MULCH, BED MIX, GRAVEL AND STONE BEFORE INSTALLATION. SAMPLES TO BE APPROVED BY OWNER'S REPRESENTATIVE BEFORE USE.

B. SOIL AMENDMENTS AND FERTILIZERS SHOULD BE RESEARCHED AND BASED ON THE SOILS IN THE AREA.

C. BEFORE INSTALLATION, SUBMIT DOCUMENTATION THAT PLANT MATERIALS ARE AVAILABLE AND HAVE BEEN RESERVED, FOR ANY PLANT MATERIAL NOT AVAILABLE, SUBMIT REQUEST FOR SUBSTITUTION.

1.6 JOB CONDITIONS, DELIVERY, STORAGE AND HANDLING

A. GENERAL CONTRACTOR TO COMPLETE WORK BEFORE LANDSCAPE CONTRACTOR TO COMMENCE. ALL PLANTING BED AREAS SHALL BE LEFT THREE INCHES BELOW FINAL GRADE OF SIDEWALKS, DRIVES AND CURBS. ALL AREAS TO RECEIVE SOLID SOD SHALL BE LEFT ONE INCH BELOW THE FINAL GRADE OF WALKS, DRIVES AND CURBS. CONSTRUCTION DEBRIS SHALL BE REMOVED PRIOR TO LANDSCAPE CONTRACTOR BEGINNING WORK.

B. ALL PACKAGED MATERIALS SHALL BE SEALED IN CONTAINERS SHOWING WEIGHT, ANALYSIS AND NAME OF MANUFACTURER. ALL MATERIALS SHALL BE PROTECTED FROM DETERIORATION IN TRANSIT AND WHILE STORED ON SITE.

C. DELIVER PLANT MATERIALS IMMEDIATELY PRIOR TO INSTALLATION. PLANT MATERIALS SHOULD BE INSTALLED ON THE SAME DAY AS DELIVERED. IF PLANTING CANNOT BE INSTALLED ON THE SAME DAY, PROVIDE ADDITIONAL PROTECTION TO MAINTAIN PLANTS IN A HEALTHY, VIGOROUS CONDITION.

D. STORE PLANT MATERIALS IN SHADE, PROTECT FROM FREEZING AND DRYING.

E. KEEP PLANT MATERIALS MOIST AND PROTECT FROM DAMAGE TO ROOT BALLS, TRUNKS AND BRANCHES.

F. PROTECT ROOT BALLS BY HEELING WITH SAWDUST OR OTHER MOISTURE RETAINING MATERIAL IF NOT PLANTED WITHIN 24 HOURS OF DELIVERY.

G. NOTIFY OWNERS REPRESENTATIVE OF DELIVERY SCHEDULE 72 HOURS IN ADVANCE.

H. FOR BALLED AND BURLAPPED PLANTS - DIG AND PREPARE SHIPMENT IN A MANNER THAT WILL NOT DAMAGE ROOTS, BRANCHES, SHAPE, AND FUTURE DEVELOPMENT.

I. CONTAINER GROWN PLANTS - DELIVER PLANTS IN CONTAINER TO HOLD BALL SHAPE AND PROTECT ROOT MASS.

J. STORAGE OF ALL MATERIALS AND EQUIPMENT WILL BE AT THE RISK OF THE LANDSCAPE CONTRACTOR. OWNER WILL NOT BE HELD RESPONSIBLE FOR THEFT OR DAMAGE.

1.7 SEQUENCING

A. INSTALL TREES, SHRUBS, AND LINER STOCK PLANT MATERIALS PRIOR TO INSTALLATION OF LAWN/SOLID SOD.

B. WHERE EXISTING TURF AREAS ARE BEING CONVERTED TO PLANTING BEDS, THE TURF SHALL BE CHEMICALLY ERADICATED TO MINIMIZE RE-GROWTH IN THE FUTURE. AREAS SHALL BE PROPERLY PREPARED WITH AMENDED ORGANIC MATTER.

1.8 WARRANTIES PERIOD, PLANT GUARANTEE, REPLACEMENTS

A. PROVIDE A MINIMUM OF (2) COPIES OF RECORD DRAWINGS TO THE OWNER UPON COMPLETION OF WORK. A RECORD DRAWING IS A RECORD OF ALL CHANGES THAT OCCURRED IN THE FIELD AND THAT ARE DOCUMENTED THROUGH CHANGE ORDERS, ADDENDA, OR CONTRACTOR/CONSULTANT DRAWING MARKUPS.

B. FURNISH WRITTEN WARRANTY THAT PLANT MATERIALS WILL BE IN A HEALTHY, VIGOROUS GROWING CONDITION FOR ONE YEAR (TWELVE MONTHS) AFTER FINAL ACCEPTANCE. DAMAGE DUE TO ACTS OF GOD, VANDALISM, OR NEGLIGENCE BY OWNER IS EXCLUDED.

C. REPLACE DEAD, UNHEALTHY, AND UNSIGHTLY PLANT MATERIAL WITHIN WARRANTY PERIOD. UPON NOTIFICATION BY OWNER OR OWNERS REPRESENTATIVE, PLANTS USED FOR REPLACEMENT SHALL BE OF THE SAME SIZE AND KIND AS THOSE ORIGINALLY PLANTED OR SPECIFIED.

D. THE OWNER AGREES THAT FOR THE ONE YEAR WARRANTY PERIOD TO BE EFFECTIVE, HE WILL WATER PLANTS AT LEAST TWICE A WEEK DURING DRY PERIODS.

E. NOTIFY OWNER OR OWNER'S REPRESENTATIVE SEVEN DAYS PRIOR TO THE EXPIRATION OF THE WARRANTY PERIOD.

A. REMOVE DEAD, UNHEALTHY AND UNSIGHTLY PLANTS
B. REMOVE GUYING AND STAKING MATERIALS.

1.9 MAINTENANCE

A. MAINTAIN PLANT LIFE AND PLANTING BEDS IMMEDIATELY AFTER PLACEMENT AND FOR MINIMUM 30 DAYS AFTER FINAL ACCEPTANCE.

B. ALL LANDSCAPE MUST BE MAINTAINED AND GRASS MOWED/EDGED ON A WEEKLY SCHEDULE AFTER ACCEPTANCE BY OWNER.

C. REPLACE DEAD OR DYING PLANTS WITH PLANTS OF SAME SIZE AND SPECIES AS SPECIFIED.

D. REMOVE TRASH, DEBRIS, AND LITTER. WATER, PRUNE, RESTAKE TREES, FERTILIZE, WEED AND APPLY HERBICIDES AND FUNGICIDES AS REQUIRED.

E. REMOVE CLIPPINGS AND DEBRIS FROM SITE PROMPTLY.

F. COORDINATE WITH OPERATION OF IRRIGATION SYSTEM TO ENSURE THAT PLANTS ARE ADEQUATELY WATERED. HAND WATER AREAS NOT RECEIVING ADEQUATE WATER FROM AN IRRIGATION SYSTEM.

G. THE LANDSCAPE CONTRACTOR SHALL MAINTAIN THE IRRIGATION SYSTEM IN ACCORDANCE TO THE MAINTENANCE SERVICE TO ENSURE THE SYSTEM IS IN PROPER WORKING ORDER WITH SCHEDULING ADJUSTMENTS BY SEASON TO MAXIMIZE WATER CONSERVATION.

H. RESET SETTLED PLANTS

I. REAPPLY MULCH TO BARE AND THIN AREAS.

J. SHOULD SEEDED AND/OR SODDED AREAS NOT BE COVERED BY AN AUTOMATIC IRRIGATION SYSTEM, THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR WATERING THESE AREAS AND OBTAINING A FULL, HEALTHY STAND OF GRASS AT NO ADDITIONAL COST TO THE OWNER.

K. TO ACHIEVE FINAL ACCEPTANCE AT THE END OF THE MAINTENANCE PERIOD, ALL OF THE FOLLOWING CONDITIONS MUST OCCUR:

a. THE LANDSCAPE SHALL SHOW ACTIVE, HEALTHY GROWTH (WITH EXCEPTIONS MADE FOR SEASONAL DORMANCY). ALL PLANTS NOT MEETING THIS CONDITION SHALL BE REJECTED AND REPLACED BY HEALTHY PLANT MATERIAL PRIOR TO FINAL ACCEPTANCE.
b. ALL HARDSCAPE SHALL BE CLEANED PRIOR TO FINAL ACCEPTANCE.
c. SODDED AREAS MUST BE ACTIVELY GROWING AND MUST REACH A MINIMUM HEIGHT OF 1 1/2 INCHES BEFORE FIRST MOWING. HYDROMULCHED AREAS SHALL SHOW ACTIVE, HEALTHY GROWTH. BARE AREAS LARGER THAN TWELVE SQUARE INCHES MUST BE RESODDED OR RESEEDED (AS APPROPRIATE) PRIOR TO FINAL ACCEPTANCE. ALL SODDED TURF SHALL BE NEATLY MOWED.

1.10 QUALITY ASSURANCE

A. COMPLY WITH ALL FEDERAL, STATE, COUNTY AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK.

B. EMPLOY PERSONNEL EXPERIENCED AND FAMILIAR WITH THE REQUIRED WORK AND SUPERVISION BY A FOREMAN.

C. DO NOT MAKE PLANT MATERIAL SUBSTITUTIONS. IF THE LANDSCAPE MATERIAL SPECIFIED IS NOT READILY AVAILABLE, SUBMIT PROOF TO LANDSCAPE ARCHITECT ALONG WITH THE PROPOSED MATERIAL TO BE USED IN LIEU OF THE SPECIFIED PLANT.

D. OWNER'S REPRESENTATIVE SHALL INSPECT ALL PLANT MATERIAL AND RETAINS THE RIGHT TO INSPECT MATERIALS UPON ARRIVAL TO THE SITE AND DURING INSTALLATION. THE OWNER'S REPRESENTATIVE MAY ALSO REJECT ANY MATERIALS HE/SHE FEELS TO BE UNSATISFACTORY OR DEFECTIVE DURING THE WORK PROCESS. ALL PLANTS DAMAGED IN TRANSIT OR AT THE JOB SITE SHALL BE REJECTED.

PART 2 - PRODUCTS

2.1 PLANT MATERIALS

A. ALL PLANTS SHALL BE CERTIFIED IN ACCORDANCE THE AMERICAN STANDARD FOR NURSERY STOCK.

B. ALL TREES SHALL BE OBTAINED FROM SOURCES WITHIN 200 MILES OF THE PROJECT SITE, AND WITH SIMILAR CLIMACTIC CONDITIONS.

C. PLANTS SHALL CONFORM TO THE MEASUREMENTS SPECIFIED, EXCEPT THE PLANTS LARGER THAN THOSE SPECIFIED MAY BE USED. USE OF LARGER PLANTS SHALL NOT INCREASE THE CONTRACT PRICE.

D. WHERE MATERIALS ARE PLANTED IN MASSES, PROVIDE PLANTS OF UNIFORM SIZE.

E. PLANT SCHEDULE ON DRAWING IS FOR CONTRACTORS INFORMATION ONLY AND NO GUARANTEE IS EXPRESSED OR IMPLIED THAT QUANTITIES THEREIN ARE CORRECT. THE CONTRACTOR SHALL SATISFY HIMSELF AS TO PLANT MATERIALS SHOWN ON THE DRAWINGS ARE INCLUDED IN HIS OR HER BID.

F. SHALL BE FREE OF DISEASE, INSECT INFESTATION, DEFECTS INCLUDING WEAK OR BROKEN LIMBS, CROTCHES, AND DAMAGED TRUNKS, ROOTS OR LEAVES, SUN SCALD, FRESH BARK ABRASIONS, EXCESSIVE ABRASIONS, OBJECTIONABLE DISFIGUREMENT, INSECT EGGS AND LARVAE.

G. ALL PLANTS SHALL EXHIBIT NORMAL GROWTH HABITS, VIGOROUS, HEALTHY, FULL, WELL BRANCHES, WELL ROOTED, PROPORTIONATE AND SYMMETRICAL.

H. ROOT SYSTEMS SHALL BE HEALTHY, DENSELY BRANCHED, FIBROUS ROOT SYSTEMS, NON-POT-BOUND, FREE FROM ENCIRCLING AND/OR GIRDLING ROOTS, AND FREE FROM ANY OTHER ROOT DEFECTS (SUCH AS J-SHAPED ROOTS).

I. ANY PLANT DEEMED UNACCEPTABLE BY THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE SHALL BE IMMEDIATELY REMOVED FROM THE SITE AND SHALL BE REPLACED WITH AN ACCEPTABLE PLANT OF LIKE TYPE AND SIZE AT THE CONTRACTOR'S OWN EXPENSE. ANY PLANTS APPEARING TO BE UNHEALTHY, EVEN IF DETERMINED TO STILL BE ALIVE, SHALL NOT BE ACCEPTED. THE LANDSCAPE ARCHITECT AND OWNER'S REPRESENTATIVE SHALL BE THE SOLE JUDGES AS TO THE ACCEPTABILITY OF PLANT MATERIAL.

J. ALL TREES SHALL BE STANDARD IN FORM, UNLESS OTHERWISE SPECIFIED. TREES WITH CENTRAL LEADERS WILL NOT BE ACCEPTED IF LEADER IS DAMAGED OR REMOVED. PRUNE ALL DAMAGED TWIGS AFTER PLANTING.

K. TREE TRUNKS TO BE STURDY, EXHIBIT HARDENED SYSTEMS AND VIGOROUS AND FIBROUS ROOT SYSTEMS, NOT ROOT OR POT BOUND.

L. TREES WITH DAMAGED OR CROOKED LEADERS, BARK ABRASIONS, SUNSCALD, DISFIGURING KNOTS, OR(INSECT DAMAGE WILL BE REJECTED.

M. CALIPER MEASUREMENTS FOR STANDARD (SINGLE TRUNK) TREES SHALL BE AS FOLLOWS: SIX INCHES ABOVE THE ROOT FLARE FOR TREES UP TO AND INCLUDING FOUR INCHES IN CALIPER, AND TWELVE INCHES ABOVE THE ROOT FLARE FOR TREES EXCEEDING FOUR INCHES IN CALIPER

N. MULTI-TRUNK TREES SHALL BE MEASURED BY THEIR OVERALL HEIGHT, MEASURED FROM THE TOP OF THE ROOT BALL.

O. ANY TREE OR SHRUB SHOWN TO HAVE EXCESS SOIL PLACED ON TOP OF THE ROOT BALL, SO THAT THE ROOT FLARE HAS BEEN COMPLETELY COVERED, SHALL BE REJECTED.

P. SOD: PROVIDE WELL-ROOTED SOD OF THE VARIETY NOTED ON THE PLANS. SOD SHALL BE CUT FROM HEALTHY, MATURE TURF WITH SOIL THICKNESS OF 3/4" TO 1". EACH PALLET OF SOD SHALL BE ACCOMPANIED BY A CERTIFICATE FROM SUPPLIER STATING THE COMPOSITION OF THE SOD.

2.2 ACCESSORIES/MISCELLANEOUS MATERIALS

A. MULCH - DOUBLE SHREDDED HARDWOOD MULCH, PARTIALLY DECOMPOSED BY LIVING EARTH TECHNOLOGIES OR APPROVED SUBSTITUTE. MULCH SHOULD BE FREE OF STICKS, STONES, CLAY, GROWTH AND GERMINATION INHIBITING INGREDIENTS.

B. FERTILIZER - COMMERCIAL FERTILIZER CONTAINING 10-20-10 OR SIMILAR ANALYSIS.

C. SOIL PREPARATION - SHALL BE FERTILE, LOAMY SOIL. ORGANIC MATTER SHALL ENCOMPASS BETWEEN 3% AND 10% OF THE TOTAL DRY WEIGHT. SOIL SHALL BE FREE FROM SUBSOIL, REFUSE, ROOTS, HEAVY OR STIFF CLAY, STONES LARGER THAN 1", NOXIOUS WEEDS, STICKS, BRUSH, LITTER AND OTHER SUBSTANCES. IT SHOULD BE SUITABLE FOR THE GERMINATION OF SEEDS AND THE SUPPORT OF VEGETATIVE GROWTH. THE PH VALUE SHOULD BE BETWEEN 4 AND 7.

APPROXIMATE PARTICLE DISTRIBUTION FOR TOPSOIL

CLAY	BETWEEN 15% AND 25%
SILT	BETWEEN 15% AND 25%
SAND	LESS THAN 50%
GRAVEL	LESS THAN 10%

D. EXISTING TOPSOIL - MAY BE USED IF IT MEETS THE REQUIREMENTS FOR THE IMPORTED TOPSOIL OR IF APPROVED BY THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE. TOPSOIL SHALL NOT BE STRIPPED, TRANSPORTED OR GRADED IF MOISTURE CONTENT EXCEEDS FIELD CAPACITY. TOPSOIL STOCKPILES SHALL BE PROTECTED FROM EROSION OR CONTAMINATION.

E. ALL NEW TURF AREAS LOCATED ON THE FRONT, SIDES, REAR, AND INSIDE THE FIRE LANE SHALL BE SODDED AND SHALL BE AMENDED WITH QUALITY TOPSOIL AT A MINIMUM DEPTH OF FOUR INCHES.

F. STEEL EDGING - SHALL BE 3/16" X 4" X 16" DARK GREEN LANDSCAPE EDGING.

G. TREE STAKING - TREE STAKING SOLUTIONS OR APPROVED SUBSTITUTE; REFER TO DETAILS.

H. FILTER FABRIC - MIRAFI 1405 BY MIRAFI INC. OR APPROVED SUBSTITUTE.

I. SAND - UNIFORMLY GRADED, WASHED, CLEAN, BANK RUN SAND.

J. DECOMPOSED GRANITE - BASE MATERIAL OF NATURAL MATERIAL MIX OF GRANITE AGGREGATE NOT TO EXCEED 1/8" IN DIAMETER.

K. RIVER ROCK - LOCALLY ARIZONA RIVER ROCK BETWEEN 2"-4" IN DIAMETER.

L. PRE-EMERGENT HERBICIDES: ANY GRANULAR, NON-STAINING PRE-EMERGENT HERBICIDE THAT IS LABELED FOR THE SPECIFIC ORNAMENTALS OR TURF ON WHICH IT WILL BE UTILIZED. PRE-EMERGENT HERBICIDES SHALL BE APPLIED PER THE MANUFACTURER'S LABELED RATES.

PART 3 - EXECUTION

3.1 PREPARATION

A. BEFORE STARTING WORK, THE LANDSCAPE CONTRACTOR SHALL VERIFY THAT THE GRADE OF ALL LANDSCAPE AREAS ARE WITHIN +/-0.1' OF FINISH GRADE. THE CONTRACTOR SHALL NOTIFY THE OWNER IMMEDIATELY SHOULD ANY DISCREPANCIES EXIST.

B. SOIL TESTING:

A. AFTER FINISH GRADES HAVE BEEN ESTABLISHED, CONTRACTOR SHALL HAVE SOIL SAMPLES TESTED BY AN ESTABLISHED SOIL TESTING LABORATORY FOR THE FOLLOWING: SOIL TEXTURAL CLASS, GENERAL SOIL FERTILITY, PH, ORGANIC MATTER CONTENT, SALT (CEC), LIME, SODIUM ADSORPTION RATIO (SAR) AND ESRON CONSTANT. EACH SAMPLE SUBMITTED SHALL CONTAIN NO LESS THAN ONE QUART OF SOIL.

B. CONTRACTOR SHALL ALSO SUBMIT THE PROJECT'S PLANT LIST TO THE LABORATORY ALONG WITH THE SOIL SAMPLES.

C. THE SOIL REPORT PRODUCED BY THE LABORATORY SHALL CONTAIN RECOMMENDATIONS FOR THE FOLLOWING (AS APPROPRIATE): GENERAL SOIL PREPARATION AND BACKFILL MIXES, PRE-PLANT FERTILIZER APPLICATIONS, AND ANY OTHER SOIL RELATED ISSUES. THE REPORT SHALL ALSO PROVIDE A FERTILIZER PROGRAM FOR THE ESTABLISHMENT PERIOD AND FOR LONG-TERM MAINTENANCE.

C. THE CONTRACTOR SHALL INSTALL SOIL AMENDMENTS AND FERTILIZERS PER THE SOILS REPORT RECOMMENDATIONS. ANY CHANGE IN COST DUE TO THE SOIL REPORT RECOMMENDATIONS, EITHER INCREASE OR DECREASE, SHALL BE SUBMITTED TO THE OWNER WITH THE REPORT

D. IF WEEDS ARE GROWING IN PLANTING AREAS, APPLY HERBICIDE RECOMMENDED BY MANUFACTURER AND APPLIED BY AN APPROVED LICENSED APPLICATOR. ALLOW WEEDS TO DIE, AND THEN GRUB OUT ROOTS TO A MINIMUM OF 1/2 INCH DEPTH.

E. PREPARE NEW PLANTING BEDS BY TILLING EXISTING SOIL TO A DEPTH OF SIX INCHES PRIOR TO PLACING COMPOST AND FERTILIZER. ADD SIX INCHES OF COMPOSE AND TILL INTO A DEPTH OF SIX INCHES OF THE TOPSOIL.

F. POSITION TREES AND SHRUBS AS DESIGNED ON PLAN. OBTAIN OWNER'S REPRESENTATIVE'S APPROVAL PRIOR TO PROCEEDING.

G. ALL PLANTING AREAS SHALL RECEIVE A MINIMUM OF 2 INCH LAYER OF MULCH (SETTLED THICKNESS).

3.2 EXCAVATING

A. EXCAVATE PITS FOR PLANTING. TREE PITS SHALL BE LARGE ENOUGH TO PERMIT THE HANDLING OF THE ROOT BALL WITHOUT DAMAGE TO THE ROOTS. TREES SHALL BE PLANTED AT A DEPTH THAT WHEN SETTLED, THE CROWN OF THE PLANT SHALL BEAR THE SAME RELATIONSHIP TO THE FINISH GRADE AS IT DID TO THE SOIL SURFACE IN ORIGINAL PLACE OF GROWTH.

B. TREE PITS PERCOLATION TEST: FILL PIT WITH WATER AND ALLOW TO STAND FOR 24 HOURS. IF PIT DOES NOT DRAIN, THE TREE NEEDS TO BE MOVED TO ANOTHER LOCATION OR HAVE DRAINAGE ADDED.

C. SHRUB AND TREE PITS SHALL BE NO LESS THAN 24" WIDER THAN THE ROOT BALL AND 6" DEEPER THAN ITS VERTICAL DIMENSION. HOLES SHOULD BE ROUGH, NOT SMOOTH OR GLAZED.

3.3 PLANTING

A. REMOVE NURSERY TAGS AND STAKES FROM ALL PLANTS
B. REMOVE CONTAINERS WITHOUT DAMAGE TO ROOTS.
C. REMOVE BOTTOM OF PLANT BOXES PRIOR TO PLACING PLANTS. REMOVE SIDES AFTER PLACEMENT AND PARTIAL BACKFILLING.
D. REMOVE UPPER THIRD OF BURLAP FROM BALLED AND BURLAPPED TREES AFTER PLACEMENT.
E. PLACE PLANT UPRIGHT AND PLUMB IN CENTER OF HOLE. ORIENT PLANTS FOR BEST APPEARANCE.
F. SET PLANTS WITH TOP OF ROOT BALLS FLUSH WITH ADJACENT GRADE AFTER COMPACTION. ADJUST PLANT HEIGHT IF SETTLEMENT OCCURS AFTER BACKFILLING.
G. BACKFILL HOLES IMMEDIATELY AFTER PLANT IS PLACED USING BACKFILL MIX. BACKFILL TO ONE HALF DEPTH, FILL HOLE WITH WATER AND LIGHTLY TAMP SOIL TO REMOVE VOIDS AND AIR POCKETS.
H. TRIM PLANTS TO REMOVE DEAD AND INJURED BRANCHES ONLY. BRACE PLANTS OVER 65 GALLONS IN SIZE.
I. MULCH TO THE TOP OF THE ROOT BALL. DO NOT PLANT GRASS ALL THE WAY TO TRUNK OF THE TREE. MULCH WITH AT LEAST 2" OF SPECIFIED MULCH.
J. DO NOT WRAP TREES.
K. DO NOT OVER PRUNE.
L. BLOCKS OF SOD SHOULD BE LAID JOINT TO JOINT AFTER FERTILIZING THE GROUND FIRST. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE. THE JOINTS BETWEEN BLOCKS SHOULD BE FILLED WITH TOPSOIL AND THEN WATERED THOROUGHLY.

3.4 STEEL EDGING

A. STEEL EDGING SHALL BE INSTALLED AND ALIGNED AS INDICATED ON PLANS. OWNER'S REPRESENTATIVE TO APPROVE THE STAKED OR PAINTED LOCATION OF STEEL EDGE PRIOR TO INSTALLATION
B. ALL STEEL EDGING SHALL BE FREE OF BENDS OR KINKS.
C. TOP OF EDGING SHALL BE 1/2" MAXIMUM HEIGHT ABOVE FINAL FINISHED GRADE.
D. STAKES ARE TO BE INSTALLED ON THE PLANTING BED SIDE OF THE EDGING, NOT THE GRASS SIDE.
E. STEEL EDGING SHALL NOT BE INSTALLED ALONG SIDEWALKS OR CURBS.
F. EDGING SHOULD BE CUT AT A 45 DEGREE ANGLE WHERE IT MEETS SIDEWALKS OR CURBS.

3.5 CLEANUP

A. REMOVE CONTAINERS, TRASH, RUBBISH AND EXCESS SOILS FROM SITE AS WORK PROGRESSES.
B. REPAIR RUTS, HOLES AND SCARES IN GROUND SURFACES.
C. PREMISES SHALL BE KEPT NEAT AT ALL TIMES AND ORGANIZED.
D. ALL PAVED AREAS SHOULD BE CLEANED AT THE END OF EACH WORK DAY.

3.6 ACCEPTANCE

A. ENSURE THAT WORK IS COMPLETE AND PLANT MATERIALS ARE IN VIGOROUS AND HEALTHY GROWING CONDITION.
B. UPON COMPLETION OF THE WORK, THE LANDSCAPE CONTRACTOR SHALL PROVIDE THE SITE CLEAN, FREE OF DEBRIS AND TRASH, AND SUITABLE FOR USE AS INTENDED. THE LANDSCAPE CONTRACTOR SHALL THEN REQUEST AN INSPECTION BY THE OWNER TO DETERMINE FINAL ACCEPTABILITY.
C. WHENIF THE INSPECTED PLANTING WORK DOES NOT COMPLY WITH THE CONTRACT DOCUMENTS, THE LANDSCAPE CONTRACTOR SHALL REPLACE AND/OR REPAIR THE REJECTED WORK TO THE OWNER'S SATISFACTION WITHIN 24 HOURS.
D. THE LANDSCAPE MAINTENANCE PERIOD WILL NOT COMMENCE UNTIL THE LANDSCAPE WORK HAS BEEN RE-INSPECTED BY THE OWNER AND FOUND TO BE ACCEPTABLE. AT THAT TIME, A WRITTEN NOTICE OF FINAL ACCEPTANCE WILL BE ISSUED BY THE OWNER, AND THE MAINTENANCE AND GUARANTEE PERIODS WILL COMMENCE.

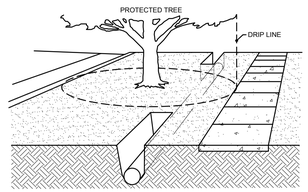
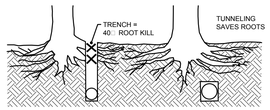
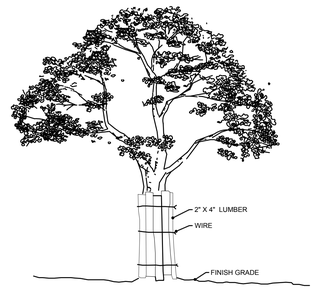
1 TREE PROTECTION FENCING
N.T.S.



BORING:
BORING OF UTILITIES UNDER PROTECTED TREES SHALL BE REQUIRED IN CIRCUMSTANCES WHERE IT IS NOT POSSIBLE TO TRENCH AROUND THE CRITICAL ROOT ZONE OF THE PROTECTED TREE. WHERE REQUIRED, THE LENGTH OF THE BORE SHALL BE THE WIDTH OF THE CRITICAL ROOT ZONE AT A MINIMUM AND SHALL BE A MINIMUM DEPTH OF FORTY EIGHT (48") INCHES.



2 BORING AND TUNNELING
N.T.S.



WHERE A PROTECTED TREE REMAINS IN THE IMMEDIATE AREA OF INTENDED CONSTRUCTION, AND THE TREE MAY BE IN DANGER OF BEING DAMAGED BY CONSTRUCTION EQUIPMENT OR OTHER ACTIVITY, THE CONTRACTOR OR SUBCONTRACTOR SHALL PROTECT THE TREE WITH 2" X 4" LUMBER ENCIRCLED WITH WIRE OR OTHER MEANS THAT DO NOT DAMAGE THE BARK OF THE TREE. THE INTENT IS TO PROTECT THE TRUNK OF THE TREE AGAINST INCIDENTAL CONTACT BY LARGE CONSTRUCTION EQUIPMENT.

3 BARK PROTECTION
N.T.S.

TREE PRESERVATION NOTES

CONSTRUCTION METHODS:

BORING: BORING OF UTILITIES UNDER PROTECTED TREES MAY BE REQUIRED. WHEN REQUIRED, THE MINIMUM LENGTH OF THE BORE SHALL BE THE WIDTH OF THE CRITICAL ROOT ZONE AND SHALL BE A MINIMUM DEPTH OF FORTY (48) INCHES.

TRENCHING: ALL TRENCHING SHALL BE DESIGNED TO AVOID TRENCHING ACROSS CRITICAL ROOT ZONES OF ANY PROTECTED TREE. THE PLACEMENT OF UNDERGROUND UTILITY LINES SUCH AS ELECTRIC, PHONE, GAS, ETC., IS ENCOURAGED TO BE LOCATED OUTSIDE THE CRITICAL ROOT ZONE. TRENCHING FOR IRRIGATION SYSTEMS SHALL BE PLACED OUTSIDE THE CRITICAL ROOT ZONE EXCEPT THE MINIMUM REQUIRED SINGLE HEAD SUPPLY LINE. THIS LINE IS ALLOWED TO EXTEND INTO THE CRITICAL ROOT ZONE PERPENDICULAR TO THE TREE TRUNK WITH THE LEAST POSSIBLE DISTURBANCE.

TREES TO BE REMOVED: ALL TREES TO BE REMOVED FROM THE SITE SHALL BE FLAGGED BY THE CONTRACTOR WITH BRIGHT RED VINYL TAPE WRAPPED AROUND THE MAIN TRUNK AT A HEIGHT OF FOUR (4') FEET ABOVE GRADE.

TREES TO REMAIN: ALL TREES TO REMAIN, AS NOTED ON DRAWINGS, SHALL HAVE PROTECTIVE FENCING LOCATED AT THE TREE'S DRIP LINE. THE PROTECTIVE FENCING SHALL BE LOCATED AS INDICATED ON THE TREE PROTECTION DETAIL.

EXISTING TREES NOTED TO REMAIN SHALL BE PROTECTED DURING CONSTRUCTION FROM DAMAGE AND COMPACTION OF SOIL UNDER AND AROUND DRIP LINE OF TREE.

UNDER NO CIRCUMSTANCE SHALL THE CONTRACTOR PRUNE ANY PORTION OF THE DAMAGED TREE WITHOUT THE PRIOR APPROVAL BY THE OWNER'S AUTHORIZED REPRESENTATIVE.

PROHIBITED ACTIVITIES IN CRITICAL ROOT ZONE:
THE FOLLOWING ACTIVITIES ARE PROHIBITED IN THE AREAS NOTED AS THE CRITICAL ROOT ZONE.

MATERIAL STORAGE: NO MATERIALS INTENDED FOR USE IN CONSTRUCTION, OR WASTE MATERIALS ACCUMULATED DUE TO EXCAVATION OR DEMOLITION, SHALL BE PLACED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE.

EQUIPMENT CLEANING/LIQUID DISPOSAL: NO EQUIPMENT SHALL BE CLEANED, OR OTHER LIQUIDS DEPOSITED OR ALLOWED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF A PROTECTED TREE. THIS INCLUDES, WITHOUT LIMITATION: PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR OR SIMILAR MATERIALS.

TREE ATTACHMENTS: NO SIGNS, WIRES, OR OTHER ATTACHMENTS, OTHER THAN THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY PROTECTED TREE.

VEHICULAR TRAFFIC: NO VEHICULAR AND/OR CONSTRUCTION, EQUIPMENT, TRAFFIC, OR PARKING SHALL TAKE PLACE WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE OTHER THAN ON EXISTING STREET PAVEMENT.

GRADE CHANGES: A MINIMUM OF 75% OF THE DRIP LINE AND ROOT ZONE SHALL BE PRESERVED AT NATURAL GRADE. ANY FINE GRADING DONE WITHIN THE CRITICAL ROOT ZONES OF THE PROTECTED TREES MUST BE DONE WITH LIGHT MACHINERY SUCH AS A BOBCAT OR LIGHT TRACTOR. NO EARTH MOVING EQUIPMENT WITH TRACKS IS ALLOWED WITHIN THE CRITICAL ROOT ZONE OF THE TREES.

PROCEDURES REQUIRED PRIOR TO CONSTRUCTION:
PROTECTIVE FENCING: PRIOR TO CONSTRUCTION, THE CONTRACTOR OR SUBCONTRACTOR SHALL CONSTRUCT AND MAINTAIN, FOR EACH PROTECTED TREE ON A CONSTRUCTION SITE, A PROTECTIVE FENCING WHICH ENCIRCLES THE OUTER LIMITS OF THE CRITICAL ROOT ZONE OF THE TREE TO PROTECT IT FROM CONSTRUCTION ACTIVITY. ALL PROTECTIVE FENCING SHALL BE IN PLACE PRIOR TO COMMENCEMENT OF ANY SITE WORK, AND REMAIN IN PLACE UNTIL ALL EXTERIOR WORK HAS BEEN COMPLETED.

BARK PROTECTION: IN SITUATIONS WHERE A PROTECTED TREE REMAINS IN THE IMMEDIATE AREA OF INTENDED CONSTRUCTION, AND THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE DETERMINES THE TREE BARK TO BE IN DANGER OF DAMAGE BY CONSTRUCTION EQUIPMENT OR OTHER ACTIVITY, THE CONTRACTOR OR SUBCONTRACTOR SHALL PROTECT THE TREE BY ENCLOSING THE ENTIRE CIRCUMFERENCE OF THE TREE WITH 2"X4" LUMBER ENCIRCLED WITH WIRE OR OTHER MEANS THAT DO NOT DAMAGE THE TREE. THE INTENT IS TO PROTECT THE BARK OF THE TREE AGAINST INCIDENTAL CONTACT BY LARGE CONSTRUCTION EQUIPMENT.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Mike Whittle; *Whittle Development, Inc.*

AGENDA ITEM: **SP2017-034**; *Lot 2, Block 2*, *Alliance Addition*

SUMMARY:

Discuss and consider a request by Mike Whittle of Whittle Development, Inc. on behalf of Randall Noe of N&H Legacy Partners for the approval of a site plan for an office building on 0.44-acre tract of land identified as Lot 2, Block 2, Alliance Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, addressed as 6520 Alliance Drive, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for an ~4,920 SF *office building* [*i.e. Alliance VI*]. The proposed office building is situated on a 0.44-acre tract of land [*i.e. Lot 2, Block 2, Alliance Addition*], is zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, and is addressed as 6520 Alliance Drive. The applicant has also submitted a site plan [*SP2017-036*] for an office building on Lot 3 [*i.e. the adjacent lot*] that is similar to the design of the proposed office building.

On September 5, 2004, the City Council approved Planned Development District 57 (PD-57) for Commercial (C) District land uses. As a condition of approval, each building throughout the development shall be constructed with a consistent design scheme and materials approved by the Architectural Review Board. In this case, the proposed office building is consistent with the other buildings in the development [*e.g. Alliance III & Alliance IV*].

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use *(i.e. an office building*) is permitted by-right within Planned Development District 57 (PD-57), and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*X~17,680 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X~182-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X=174Feet; In Conformance*
Minimum Front Yard Setback	*10-Feet*	*X~90-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X~45-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X~20-Feet; In Conformance*
Maximum Building Height	*60-Feet[1]*	*X=23-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*X<40%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Number of Parking Spaces	*17*	*12 Provided; Not In Conformance[2]*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X=88-91%; In Conformance*
Minimum Landscaping Percentage	*15%*	*41%; In Conformance*
Maximum Impervious Coverage	*75-80%*	*X=62%; In Conformance*

1. Up to 240-feet with Specific Use Permit (SUP) 2. Variance Requested

VARIANCE:

The applicant is requesting a variance to the minimum parking requirements stipulated in the Unified Development Code. According to Section 6, *Off-Street Loading Requirements*, of Article VI, *Parking and Loading*, of the Unified Development Code, office buildings require a parking ratio of 1 space per 300 SF. In this case, the development is required to have 17 parking spaces, however, only 12 are being provided [*i.e. 5 spaces below the minimum requirement*]. This variance will require a simple majority vote for approval.

ARCHITECTURAL REVIEW BOARD

On October 24, 2017, the Architectural Review Board (ARB) reviewed the submitted building elevations and made a recommendation to approve the building elevations with the condition that the office building incorporate some sort of differentiation in the front façade to distinguish it from the other buildings in the development. The applicant has complied with this request and the Architectural Review Board (ARB) will review the revisions and forward a recommendation at the November 14, 2017 Planning and Zoning Meeting.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SHEET A6 OF 16

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Jonathan Kirby; *Kimley-Horn & Associates*

AGENDA ITEM: **SP2017-035**; *Site Plan for Rockwall Market Center East Strip Center*

SUMMARY:

Discuss and consider a request by Johnathan Kerby of Kimley-Horn & Associates, Inc. on behalf of Harold E. Weinberger & Elana Kroll for the approval of a site plan for a retail/restaurant strip center on a 1.6123-acre parcel of land identified as Lot 2, Block A, Rockwall Market Center East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 819 E. IH-30, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for an ~10,250 SF retail/restaurant strip center [*i.e. Rockwall Market Center East*]. The proposed restaurant/retail strip center is situated on a 1.6123-acre parcel of land [*i.e. Lot 2, Block A, Rockwall Market Center East Addition*] and is zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, and is addressed as 819 E. IH-30.

Currently, there is a restaurant [*i.e. Johnny Carinos*] situated on the subject property that will need to be demolished to develop the property. The proposed restaurant/retail strip center will consist of a retail suite that will be approximately 3,000 SF, a second retail suite that will be approximately 2,500 SF, and an ~4,750 restaurant with a drive-through.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use [i*.e. a retail/restaurant* (*2,000 SF or more with a drive-through) strip center*] is a use permitted within a Commercial (C) District and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*X~70,230 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X~417-Feet; In Conformance*
Minimum Lot Depth	*200-Feet*	*X~254Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*X~71-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X~22-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X~51-Feet; In Conformance*
Maximum Building Height	*60-Feet[1]*	*X=28-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*X~14.59%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*
Minimum Number of Parking Spaces	*70*	*93 Provided; In Conformance*
Minimum Stone Requirement (IH-30 OV)	*20% ea facade*	*X=12-25%; Not In Conformance[3]*
Minimum Landscaping Percentage	*15%*	*41%; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Impervious Coverage	*85-90%*	*X~81.1%; In Conformance*

1. Up to 240-feet with Specific Use Permit (SUP) 2. Variance Requested 3. Below 20% ea. façade, but 20% overall. Variance requested.

VARIANCES:

1. **LANDSCAPING**
   The applicant is requesting a variance to the landscaping standards stipulated in the Unified Development Code. According to Subsection 6.6E, *Landscape Standards*, of Section 6, Overlay Districts, of Article V, District Development Standards, of the Unified Development Code, each development along IH-30 shall have a 20-foot wide landscape buffer strip along the entire length of the subject property's frontage along IH-30. Currently, there is a legal non-conforming structure located on the site that was constructed before the IH-30 Overlay (IH-30 OV) District standards requiring a 20-foot landscape buffer were established. In this case, the existing parking lot encroaches the area that would be designated as a 20-foot landscape buffer and the applicant is requesting the leave/match the existing landscape area which requires a variance. Staff should note, this is considered to be a discretionary decision for the Planning and Zoning Commission and the City Council.

2. **STONE REQUIREMENT**
   The applicant is also requesting a variance to the minimum stone requirement stipulated in the Unified Development Code (UDC). According to Subsection 6.6, *IH-30 Overlay (IH-30 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), each exterior wall shall consist of 90% masonry including a minimum of 20% natural or quarried stone. In this case, the north elevation consists of 12% natural stone and the west elevation consists of 15% natural stone. Since these two elevations are below the minimum 20% natural or quarried stone requirement, a variance is required. Staff should note that although the north and west elevations are below the minimum 20% stone requirement, the total building consists of 20% stone. Additionally, this is considered to be a discretionary decision for the Planning and Zoning Commission and the City Council.

ARCHITECTURAL REVIEW BOARD

On October 24, 2017, the Architectural Review Board (ARB) reviewed the submitted building elevations and made recommendation to approve the building elevations with the condition that the office building is a different elevation than the existing office buildings. The applicant has complied with this request and the Architectural Review Board will review the revisions and forward a recommendation at the November 14, 2017 Planning and Zoning Meeting.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2017-035 (Rockwall Market Center East): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Johnathan Kerby of Kimley-Horn & Associates, Inc. on behalf of Harold E. Weinberger & Elana Kroll for the approval of a site plan for a retail/restaurant strip center on a 1.6123-acre parcel of land identified as Lot 2, Block A, Rockwall Market Center East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 819 E. IH-30.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-035) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Commercial (C) District and situated in the IH-30 Overlay (IH-30 OV) District.

M.6 Site Plan. Radii seem to be missing from the entrance.

M.7 Site Plan. Please show centerline of IH-30 service road.

M.8 Site Plan. Please note that the required accessible spaces is 3.

M.9 Site Plan. Please note that the proposed location of the monument sign is located in an easement. No structures area allowed in easements.

M.10 Site Plan. The sidewalk in front if the building seems to be missing the hatch pattern.

M.11 Site Plan. Please show location of all fire hydrants

M.12 Site Plan. Please provide elevation of dumpster enclosure. Note that in an overlay district, the enclosure is 8-feet high.

M.13 Landscape Plan. Please correct the accessible spaces to '3' on the Site Data Table.

M.14 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.15 Treescape Plan. Any Oak 4 caliper inches or greater is considered to be a feature tree and requires approval from the Planning and Zoning Commission.

M.16 Treescape Plan. Please provide the Site Data Table.

M.17 Photometric. Please provide a photometric plan and cut sheets.

M.18 Building Elevations. Please label all roof mounted mechanical equipment (dashline on elevations) and how these will be screened from view.

M.19 Building Elevations. The Architectural Review Board (ARB) may ask for actual material samples.

M.20 Building Elevations. Please provide elevations for all 4 sides.

M.21 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.22 Building Elevations. Please indicate the elevation that faces the street.

M.23 Building Elevations. Your note states "materials and proposed architectural design is conceptual." When you submit your materials and elevations, those are the materials and elevations that are being approved. Any changes would require an amended site plan.

I.24 The Architectural Review Board (ARB) meeting for this case will be held on October 24, 2016 at 5:00 p.m.

I.25 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 7, 2016. The Planning and Zoning Worksession for this case will be October 24, 2014 at 6:00 p.m. The Architectural Review Board meeting is October 24, 2017 at 5:00. The Planning and Zoning Meeting will be November 14, 2017. A representative is required to attend all meetings.

I.26 If necessary the projected City Council meeting date for this case will be November 20, 2017.

PLANTING NOTES

1. ALL PLANT MATERIAL SHALL BE INSTALLED ACCORDING TO SOUND NURSERY PRACTICES AND SHALL MEET ALL STANDARDS AS STATED IN THE LATEST EDITION OF "AMERICAN STANDARD FOR NURSERY STOCK" BY THE AMERICAN ASSOCIATION OF NURSERYMEN.
2. NO SUBSTITUTIONS IN PLANT MATERIALS SHALL BE MADE WITHOUT WRITTEN AUTHORIZATION FROM OWNER OR LANDSCAPE ARCHITECT, IN THE EVENT OF DISCREPANCIES BETWEEN THE DRAWING AND THE PLANT LIST, THE DRAWING SHALL PREVAIL.
3. LOCATE ALL UTILITIES PRIOR TO ANY DIGGING OPERATIONS. CONTRACTOR SHALL BE RESPONSIBLE FOR ALL DAMAGES TO EXISTING UTILITIES INCURRED BY HIS WORK.
4. REFERENCE IRRIGATION PLAN FOR BED IRRIGATION INFORMATION.
5. STAKING AND GUYING ALTERNATIVES: METHODS INDICATED IN DRAWING DETAILS ARE PREFERRED. CONTRACTOR MAY SUGGEST ALTERNATE METHODS, ASSUMING FULL RESPONSIBILITY FOR THEIR IMPLEMENTATION. CONTRACTOR SHALL REPLACE, PLANT, OR UPRIGHT ANY TREES BLOWN OVER OR DAMAGED DUE TO INADEQUATE STAKING AT NO ADDITIONAL COST TO THE OWNER.
6. PLANTS MASSED IN BEDS SHALL BE ARRANGED USING TRIANGULAR SPACING.
7. PROVIDE A STEEL EDGE OR CONCRETE MOW STRIP BETWEEN ALL PLANTING BEDS AND LAWN AREAS, REFERENCE SITE PLAN.
8. ALL PLANTING BEDS TO BE TOP DRESSED WITH A MINIMUM OF 3" SHREDDED HARDWOOD MULCH.
9. PROVIDE GRASS SEEDING OR LAY BERMUDA SOD FOR PROPOSED LAWN AREAS TO ALL EDGES OF PAVEMENT AND/ OR LIMITS OF DISTURBANCE OUTSIDE R.O.W. OR PROPOSED LANDSCAPE EASEMENT.
10. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING UNTIL FINAL ACCEPTANCE, ALL REQUIRED LANDSCAPING SHALL BE MAINTAINED IN A NEAT AND ORDERLY MANNER AT ALL TIMES. THE WORK SHALL INCLUDE, BUT NOT TO BE LIMITED TO, MOWING, EDGING, PRUNING, FERTILIZING, WATERING, WEEDING, AND OTHER SUCH ACTIVITIES COMMON TO THE MAINTENANCE OF LANDSCAPING. ALL PLANT MATERIALS SHALL BE MAINTAINED IN A HEALTHY AND GROWING CONDITION AS IS APPROPRIATE FOR THE SEASON OF THE YEAR, PLANT MATERIAL THAT DIES SHALL BE REPLACED WITH THE PLANT MATERIAL OF SIMILAR SIZE AND VARIETY.
11. CONTRACTOR SHALL WARRANTY PLANT MATERIAL TO REMAIN ALIVE AND HEALTHY FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE. WARRANTY SHALL NOT INCLUDE DAMAGE FOR LOSS OF PLANT MATERIAL DUE TO NATURAL CAUSES, ACTS OF VANDALISM OR NEGLIGENCE ON THE PART OF THE OWNER.
12. ALL DISTURBED AREAS WITHIN LIMITS OF CONSTRUCTION NOT CALLED TO BE SODDED, SHALL BE REESTABLISHED WITH BERMUDA SOD.
13. ALL LANDSCAPE BED AREAS TO BE PREPARED USING "READY TO PLANT BEDDING MIX" BY SOIL BUILDING SOLUTIONS (OR APPROVED EQUAL). INSTALL TO DEPTHS, PER PLANTING DETAILS (12" DEPTH MIN.) FINISHED GRADES OF PLANTING BEDS TO BE 2" BELOW FINISHED GRADE OF ADJACENT PAVING OR AS SHOWN ON GRADING PLAN.
14. ALL SOD AREAS TO RECEIVE 4" DEPTH (MIN) TOPSOIL PRIOR TO INSTALLATION. ALL PLANTING AREAS TO RECEIVE 24" DEPTH (MIN) OF TOPSOIL. TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, pH RANGE OF 5,5-7.4, AND FREE OF TRASH, DEBRIS, STONES, WEEDS, AND TWIGS/BRANCHES.

GENERAL LANDSCAPE SPECIFICATIONS AND NOTES

A. SCOPE OF WORK

1. THE WORK CONSISTS OF FURNISHING ALL LABOR, MATERIALS, EQUIPMENT, TOOLS, TRANSPORTATION, AND ANY OTHER APPURTENANCES NECESSARY FOR THE COMPLETION OF THIS PROJECT AS SHOWN ON THE DRAWINGS, AS INCLUDED IN THE PLANT LIST, AND AS HEREIN SPECIFIED.

2. WORK SHALL INCLUDE MAINTENANCE AND WATERING OF ALL PLANTING AREAS OF THIS CONTRACT UNTIL CERTIFICATION OF ACCEPTABILITY BY THE OWNER.

B. PROTECTION OF EXISTING STRUCTURES

ALL EXISTING BUILDINGS, WALKS, WALLS, PAVING, PIPING, AND OTHER ITEMS OF CONSTRUCTION AND PLANTING ALREADY COMPLETED OR ESTABLISHED SHALL BE PROTECTED FROM DAMAGE BY THIS CONTRACTOR UNLESS OTHERWISE SPECIFIED. ALL DAMAGE RESULTING FROM NEGLIGENCE SHALL BE REPAIRED OR REPLACED TO THE SATISFACTION OF THE OWNER.

C. PROTECTION OF EXISTING PLANT MATERIALS OUTSIDE LIMIT OF WORK

THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UNAUTHORIZED CUTTING OR DAMAGE TO TREES AND SHRUBS EXISTING OR OTHERWISE, CAUSED BY CARELESS OPERATION OF EQUIPMENT, STOCKPILING OF MATERIALS, ETC. THIS SHALL INCLUDE COMPACTION BY DRIVING OR PARKING INSIDE THE DRIP-LINE OR THE SPILLING OF OIL, GASOLINE, OR OTHER DELETERIOUS MATERIALS WITHIN THE DRIP-LINE. NO MATERIALS SHALL BE BURNED WHERE THE HEAT WILL DAMAGE ANY PLANT. TREES KILLED OR DAMAGED SO THAT THEY ARE MISSHAPEN AND/ OR UNSIGHTLY SHALL BE REPLACED AT THE COST TO THE CONTRACTOR OF ONE HUNDRED DOLLARS ($100) PER CALIPER INCH ON AN ESCALATING SCALE WHICH ADDS AN ADDITIONAL TWENTY (20) PER CENT PER INCH OVER FOUR (4) INCHES CALIPER AS FIXED AND AGREED LIQUIDATED DAMAGES. CALIPER SHALL BE MEASURED SIX (6) INCHES ABOVE GROUND LEVEL FOR TREES UP TO AND INCLUDING FOUR (4) INCHES IN CALIPER AND TWELVE (12) INCHES ABOVE GROUND LEVEL FOR TREES OVER FOUR (4) INCHES IN CALIPER.

D. MATERIALS

1. GENERAL

SAMPLES OF MATERIALS AS LISTED BELOW SHALL BE SUBMITTED FOR APPROVAL, ON THE SITE OR AS OTHERWISE DETERMINED BY THE OWNER. UPON APPROVAL OF SAMPLES, DELIVERY OF MATERIALS MAY BEGIN.

MATERIALS	SAMPLES
MULCH	ONE (1) CUBIC FOOT
TOPSOIL	ONE (1) CUBIC YARD
PLANTS	ONE (1) OF EACH VARIETY

2. PLANT MATERIALS

A. PLANT SPECIES AND SIZE SHALL CONFORM TO THOSE INDICATED ON THE DRAWINGS. NOMENCLATURE SHALL CONFORM TO STANDARDIZED PLANT NAMES, 1942 EDITION. ALL NURSERY STOCK SHALL BE IN ACCORDANCE WITH GRADES AND STANDARDS AS STATED IN THE LATEST EDITION OF "AMERICAN STANDARD FOR NURSERY STOCK" BY THE AMERICAN ASSOCIATION OF NURSERYMEN. ALL PLANTS SHALL BE FRESHLY DUG, SOUND, HEALTHY, VIGOROUS, WELL-BRANCHED AND FREE OF DISEASE AND INSECTS, EGGS AND LARVAE AND SHALL HAVE ADEQUATE ROOT SYSTEMS. TREES FOR PLANTING IN ROWS SHALL BE UNIFORM IN SIZE AND SHAPE. ALL MATERIALS SHALL BE SUBJECT TO APPROVAL BY THE OWNER. WHERE ANY REQUIREMENTS ARE OMITTED FROM THE PLANT LIST, THE PLANTS FURNISHED SHALL BE NORMAL FOR THE VARIETY. PLANTS SHALL BE PRUNED PRIOR TO DELIVERY ONLY UPON THE APPROVAL OF THE OWNER.

B. MEASUREMENTS: THE HEIGHT AND/OR WIDTH OF TREES SHALL BE MEASURED FROM THE GROUND OR ACROSS THE NORMAL SPREAD OF BRANCHES WITH THE PLANTS IN THEIR NORMAL POSITION. THIS MEASUREMENT SHALL NOT INCLUDE THE IMMEDIATE TERMINAL GROWTH. PLANTS LARGER IN SIZE THAN THOSE SPECIFIED IN THE PLANT LIST MAY BE USED IF APPROVED BY THE OWNER. IF THE USE OF LARGER PLANTS IS APPROVED, THE BALL OF EARTH OR SPREAD OF ROOTS SHALL BE INCREASED IN PROPORTION TO THE SIZE OF THE PLANT.

C. INSPECTION: PLANTS SHALL BE SUBJECT TO INSPECTION AND APPROVAL AT THE PLACE OF GROWTH, OR UPON DELIVERY TO THE SITE, AS DETERMINED BY THE OWNER, FOR QUALITY, SIZE, AND VARIETY. SUCH APPROVAL SHALL NOT IMPAIR THE RIGHT OF INSPECTION AND REJECTION AT THE SITE DURING PROGRESS OF THE WORK OR AFTER COMPLETION FOR SIZE AND CONDITION OF BALLS OR ROOTS, LATENT DEFECTS OR INJURIES. REJECTED PLANTS SHALL BE REMOVED IMMEDIATELY FROM THE SITE. NOTICE REQUESTING INSPECTION SHALL BE SUBMITTED IN WRITING BY THE CONTRACTOR AT LEAST ONE (1) WEEK PRIOR TO ANTICIPATED DATE.

E. TOPSOIL

1. ASTM D5268. NATURAL, FRIABLE, FERTILE, FINE LOAMY SOIL POSSESSING CHARACTERISTICS OF REPRESENTATIVE TOPSOIL IN THE VICINITY THAT PRODUCES HEAVY GROWTH. TOPSOIL SHALL HAVE A PH RANGE OF 5.5 TO 7.4 PERCENT, FREE FROM SUBSOIL, OBJECTIONABLE WEEDS, LITTER, SODS, STIFF CLAY, STONES LARGER THAN 1-INCH IN DIAMETER, STUMPS, ROOTS, TRASH, HERBICIDES, TOXIC SUBSTANCES, OR ANY OTHER MATERIAL WHICH MAY BE HARMFUL TO PLANT GROWTH OR HINDER PLANTING OPERATIONS. TOP SOIL SHALL CONTAIN A MINIMUM OF THREE PERCENT ORGANIC MATERIAL.
2. SALVAGED OR EXISTING TOPSOIL: REUSE SUITABLE TOPSOIL STOCKPILED ON-SITE OR EXISTING TOPSOIL UNDISTURBED BY GRADING OR EXCAVATION OPERATIONS, CLEAN TOPSOIL OF ROOTS, PLANTS, SOD, STONES, CLAY LUMPS, AND OTHER EXTRANEOUS MATERIALS HARMFUL TO PLANT GROWTH.
3. VERIFY AMOUNT OF SUITABLE TOPSOIL STOCKPILED IF ANY, AND SUPPLY ADDITIONAL IMPORTED TOPSOIL AS NEEDED. FOUR (4) INCHES OF TOPSOIL TO BE PROVIDED FOR ALL TURF AREAS. TWENTY FOUR (24) INCHES OF TOPSOIL TO BE PROVIDED FOR ALL PLANTING BEDS.
4. IMPORTED TOPSOIL: SUPPLEMENT SALVAGED TOPSOIL WITH IMPORTED TOPSOIL FROM OFF-SITE SOURCES WHEN EXISTING QUANTITIES ARE INSUFFICIENT.
5. OBTAIN TOPSOIL DISPLACED FROM NATURALLY WELL-DRAINED SITES WHERE TOPSOIL OCCURS AT LEAST 6 INCHES DEEP: DO NOT OBTAIN FROM AGRICULTURAL LAND, BOGS, OR MARSHES.
6. VERIFY BORROW AND DISPOSAL SITES ARE PERMITTED AS REQUIRED BY STATE AND LOCAL REGULATIONS. OBTAIN WRITTEN CONFIRMATION THAT PERMITS ARE CURRENT AND ACTIVE.
7. OBTAIN PERMITS REQUIRED BY STATE AND LOCAL REGULATIONS FOR TRANSPORTING TOPSOIL. PERMITS SHALL BE CURRENT AND ACTIVE.
8. AMEND EXISTING AND IMPORTED TOPSOIL AS INDICATED BELOW.

F. ORGANIC SOIL AMENDMENTS

1. MANURE: WELL-ROTTED, UNLEACHED, STABLE OR CATTLE MANURE CONTAINING NOT MORE THAN 25 PERCENT BY VOLUME OF STRAW, SAWDUST, OR OTHER BEDDING MATERIALS; FREE OF TOXIC SUBSTANCES, STONES, STICKS, SOIL, WEED SEED, AND MATERIAL HARMFUL TO PLANT GROWTH.
2. BACK TO NATURE COTTON BURR COMPOST OR APPROVED EQUIVALENT.
3. COMPOST: DECOMPOSED ORGANIC MATERIAL INCLUDING LEAF LITTER, MANURE, SAWDUST, PLANT TRIMMINGS AND/OR HAY, MIXED WITH SOIL.
4. PECAN HULLS: COMPOSTED PECAN HULLS FOR LOCAL SOURCE.
5. BIOSOLIDS: USE GRADE 1 CONTAINING LOWER PATHOGEN LEVELS.
6. WORM CASTINGS: EARTHWORMS.

G. INORGANIC SOIL AMENDMENTS

1. LIME: ASTM C602, CLASS O AGRICULTURAL LIMESTONE CONTAINING A MINIMUM OF 80 PERCENT CALCIUM CARBONATE EQUIVALENT WITH A MINIMUM OF 95 PERCENT PASSING NO. 8 SIEVE AND MINIMUM OF 55 PERCENT PASSING NO. 60 SIEVE.
2. SULFUR: GRANULAR, BIODEGRADABLE, CONTAINING A MINIMUM OF 90 PERCENT SULFUR, WITH A MINIMUM OF 99 PERCENT PASSING NO. 6 SIEVE AND A MAXIMUM OF 10 PERCENT PASSING NO. 40 SIEVE.
3. IRON SULFATE: GRANULATED FERROUS SULFATE CONTAINING A MINIMUM OF 20 PERCENT IRON AND 10 PERCENT SULFUR.
4. AGRICULTURAL GYPSUM: FINELY GROUND, CONTAINING A MINIMUM OF 90 PERCENT CALCIUM SULFATE.
5. SAND: CLEAN, WASHED, NATURAL OR MANUFACTURED, FREE OF TOXIC MATERIALS.

H. PLANTING SOIL MIX

1. PLANTING MEDIUM CONTAINING 75 PERCENT SPECIFIED TOPSOIL MIXED WITH 15 PERCENT ORGANIC SOIL AMENDMENTS AND 10 PERCENT SHARP WASHED SAND. INSTALL TO DEPTHS, PER PLANTING DETAILS (12" MIN.) FINISHED GRADES OF PLANTING BEDS TO BE 2" BELOW FINISHED GRADE OF ADJACENT PAVING OR AS SHOWN ON GRADING PLAN.

2. SOD/SEED AREA TOPSOIL
ALL SOD AREAS TO RECEIVE 4" DEPTH (MIN) TOPSOIL PRIOR TO INSTALLATION. TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, WITH 25% (MIN.) ORGANIC MATERIAL, AND FREE OF TRASH, DEBRIS, STONES, WEEDS, AND TWIGS/BRANCHES. THE PARTICLE SIZES SHALL BE SUCH THAT 98.5% OF THE TOPSOIL WILL PASS THROUGH A 1/2 INCH SCREEN, AND 99% MORE SHALL PASS THROUGH A 3/4 INCH SCREEN. TOPSOIL SHALL BE REVIEWED/APPROVED BY OWNER/LANDSCAPE ARCHITECT PRIOR TO INSTALLATION. CONTRACTOR TO SUBMIT SAMPLES IN 1 GAL (MIN.) CONTAINER.

I. WATER

WATER NECESSARY FOR PLANTING AND MAINTENANCE SHALL BE OF SATISFACTORY QUALITY TO SUSTAIN AN ADEQUATE GROWTH OF PLANTS AND SHALL NOT CONTAIN HARMFUL, NATURAL OR MAN-MADE ELEMENTS DETRIMENTAL TO PLANTS. WATER MEETING THE ABOVE STANDARD SHALL BE OBTAINED ON THE SITE FROM THE OWNER, IF AVAILABLE, AND THE CONTRACTOR SHALL BE RESPONSIBLE TO MAKE ARRANGEMENTS FOR ITS USE BY HIS TANKS, HOSES, SPRINKLERS, ETC. IF SUCH WATER IS NOT AVAILABLE AT THE SITE, THE CONTRACTOR SHALL PROVIDE SUCH SATISFACTORY WATER FROM SOURCES OFF THE SITE AT NO ADDITIONAL COST TO THE OWNER.

J. COMMERCIAL FERTILIZER

COMMERCIAL FERTILIZER SHALL BE A COMPLETE FORMULA, IT SHALL BE UNIFORM IN COMPOSITION, DRY AND FREE FLOWING. THIS FERTILIZER SHALL BE DELIVERED TO THE SITE IN THE ORIGINAL UNOPENED CONTAINERS, EACH BEARING THE MANUFACTURER'S GUARANTEED STATEMENT OF ANALYSIS.

FIFTY PERCENT (50%) OF THE NITROGEN SHALL BE DERIVED FROM NATURAL ORGANIC SOURCES. THE FOLLOWING FERTILIZERS SHALL BE USED AND APPLIED AT RATES AS SUGGESTED BY MANUFACTURER'S SPECIFICATIONS:

1. SHRUBS AND TREES - MILORGANITE, OR APPROVED EQUAL
2. ANNUALS AND GROUNDCOVERS - OSMOCOTE/SIERRA BLEND 14-14-14
3. SOD - 5-8-8 FERTEH, DURING THE ROLLING, ALL DEPRESSIONS CAUSED BY SETTLEMENT OF ROLLING

IN ADDITION TO SURFACE APPLIED FERTILIZERS, ALL CONTAINER GROWN AND FIELD GROWN PLANT MATERIAL SHALL RECEIVE "AGRIFORM" PLANTING TABLETS 24-10-5 FORMULA, 21 GRAM OR EQUAL. THESE TABLETS SHALL BE PLACED AT A DEPTH OF ROOT BALL AT THE RATE AS SPECIFIED BY MANUFACTURER.

K. MULCH

MULCH MATERIAL SHALL BE MOISTENED AT THE TIME OF APPLICATION TO PREVENT WIND DISPLACEMENT, AND APPLIED AT A DEPTH OF 3 INCHES. SEE PLANT LIST FOR TYPE OF MATERIAL AND GRADE.

L. DIGGING AND HANDLING

1. PROTECT ROOTS OR BALLS OF PLANTS AT ALL TIMES FROM SUN AND DRYING WINDS, WATER AND FREEZING, AS NECESSARY UNTIL PLANTING. PLANT MATERIALS SHALL BE ADEQUATELY PACKED TO PREVENT BREAKAGE AND DRYING OUT DURING TRANSIT. TREES TRANSPORTED MORE THAN TEN (10) MILES OR WHICH ARE NOT PLANTED WITHIN THREE (3) DAYS OF DELIVERY TO SITE SHALL BE SPRAYED WITH AN ANTI-TRANSPIRANT PRODUCT ("WILTPRUF" OR EQUAL) TO MINIMIZE TRANSPIRATIONAL WATER LOSS.

2. BALLED AND BURLAPPED PLANTS (B&B) SHALL BE DUG WITH FIRM, NATURAL BALLS OF SOIL OF SUFFICIENT SIZE TO ENCOMPASS THE FIBROUS AND FEEDING ROOTS OF THE PLANTS. NO PLANTS MOVED WITH A BALL SHALL BE PLANTED IF THE BALL IS CRACKED OR BROKEN. PLANTS BALLED AND BURLAPPED OR CONTAINER GROWN SHALL NOT BE HANDLED BY STEMS.

3. PLANTS MARKED "BR" IN THE PLANT LIST SHALL BE DUG WITH BARE ROOTS. THE ROOTS SHALL NOT BE CUT WITHIN THE MINIMUM SPREAD SPECIFIED IN THE PLANT LIST. CARE SHALL BE EXERCISED THAT THE ROOTS DO NOT DRY OUT IN MOVING AND PRIOR TO PLANTING.

4. PROTECTION OF PALMS (IF APPLICABLE): ONLY A MINIMUM OF FRONDS SHALL BE REMOVED FROM THE CROWN OF THE PALM TREES TO FACILITATE MOVING AND HANDLING. CLEAR TRUNK (GT) SHALL BE AS SPECIFIED AFTER THE MINIMUM OF FRONDS HAVE BEEN REMOVED. ALL PALMS SHALL BE BRACED PER DETAIL.

5. EXCAVATION OF TREE PITS SHALL BE DONE USING EXTREME CARE TO AVOID DAMAGE TO SURFACE AND SUBSURFACE ELEMENTS SUCH AS UTILITIES OR HARDSCAPE ELEMENTS, FOOTERS AND PREPARED SUB- BASES.

M. CONTAINER GROWN STOCK

1. ALL CONTAINER GROWN MATERIAL SHALL BE HEALTHY, VIGOROUS, WELL-ROOTED PLANTS AND ESTABLISHED IN THE CONTAINER IN WHICH THEY ARE SOLD. THE PLANTS SHALL HAVE TOPS WHICH ARE OF GOOD QUALITY AND ARE IN A HEALTHY GROWING CONDITION.

2. AN ESTABLISHED CONTAINER GROWN PLANT SHALL BE TRANSPLANTED INTO A CONTAINER AND GROWN IN THAT CONTAINER SUFFICIENTLY LONG FOR THE NEW FIBROUS ROOTS TO HAVE DEVELOPED SO THAT THE ROOT MASS WILL RETAIN ITS SHAPE AND HOLD TOGETHER WHEN REMOVED FROM THE CONTAINER. CONTAINER GROWN STOCK SHALL NOT BE HANDLED BY THEIR STEMS.

3. PLANT ROOTS BOUND IN CONTAINERS SHALL NOT BE ACCEPTABLE.

4. SUBSTITUTION OF NON-CONTAINER GROWN MATERIAL FOR MATERIAL EXPLICITLY SPECIFIED TO BE CONTAINER GROWN WILL NOT BE PERMITTED UNLESS WRITTEN APPROVAL IS OBTAINED FROM THE OWNER AND LANDSCAPE ARCHITECT.

N. COLLECTED STOCK

WHEN THE USE OF COLLECTED STOCK IS PERMITTED AS INDICATED ON THE PLANT LIST SCHEDULE, THE MINIMUM SIZES OF ROOTBALLS SHALL BE EQUAL TO THAT SPECIFIED FOR THE NEXT LARGER SIZE OF NURSERY GROWN STOCK OF THE SAME VARIETY.

O. NATIVE STOCK

PLANTS COLLECTED FROM WILD OR NATIVE STANDS SHALL BE CONSIDERED NURSERY GROWN WHEN THEY HAVE BEEN SUCCESSFULLY REESTABLISHED IN A NURSERY ROW AND GROWN UNDER REGULAR NURSERY CULTURAL PRACTICES FOR A MINIMUM OF TWO (2) GROWING SEASONS AND HAVE ATTAINED ADEQUATE ROOT AND TOP GROWTH TO INDICATE FULL RECOVERY FROM TRANSPLANTING INTO THE NURSERY ROW.

P. MATERIALS LIST

QUANTITIES NECESSARY TO COMPLETE THE WORK ON THE DRAWINGS SHALL BE FURNISHED BY THE CONTRACTOR. QUANTITY ESTIMATES HAVE BEEN MADE CAREFULLY, BUT THE LANDSCAPE ARCHITECT OR OWNER ASSUMES NO LIABILITY FOR OMISSIONS OR ERRORS. SHOULD A DISCREPANCY OCCUR BETWEEN THE BIDDERS TAKE OFF AND THE PLANT LIST QUANTITY, THE LANDSCAPE ARCHITECT SHALL BE NOTIFIED FOR CLARIFICATION PRIOR TO THE SUBMISSIONS OF BIDS. ALL DIMENSIONS AND/OR SIZES SPECIFIED SHALL BE THE MINIMUM ACCEPTABLE SIZE

Q. FINE GRADING

1. FINE GRADING UNDER THIS CONTRACT SHALL CONSIST OF FINAL FINISHED GRADING OF LAWN AND PLANTING AREAS THAT HAVE BEEN ROUGH GRADED BY OTHERS. BERMING AS SHOWN ON THE DRAWINGS SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR, UNLESS OTHERWISE NOTED.

2. THE LANDSCAPE CONTRACTOR SHALL FINE GRADE THE LAWN AND PLANTING AREAS TO BRING THE ROUGH GRADE UP TO FINAL FINISHED GRADE ALLOWING FOR THICKNESS OF SOD AND/OR MULCH DEPTH. THIS CONTRACTOR SHALL FINE GRADE BY HAND AND/OR WITH ALL EQUIPMENT NECESSARY INCLUDING A GRADING TRACTOR WITH FRONT-END LOADER FOR TRANSPORTING SOIL WITHIN THE SITE.

3. ALL PLANTING AREAS SHALL BE GRADED AND MAINTAINED TO ALLOW FREE FLOW OF SURFACE WATER. AREAS ADJACENT TO BUILDINGS SHALL SLOPE AWAY FROM THE BUILDINGS.

R. PLANTING PROCEDURES

1. CLEANING UP BEFORE COMMENCING WORK: THE CONTRACTOR SHALL CLEAN UP WORK AND SURROUNDING AREAS OF ALL RUBBISH OR OBJECTIONABLE MATTER. ALL MORTAR, CEMENT, AND TOXIC MATERIAL SHALL BE REMOVED FROM THE SURFACE OF ALL PLANT BEDS. THESE MATERIALS SHALL NOT BE MIXED WITH THE SOIL. SHOULD THE CONTRACTOR FIND SUCH SOIL CONDITIONS BENEATH THE SOIL WHICH WILL IN ANY WAY ADVERSELY AFFECT THE PLANT GROWTH, HE SHALL IMMEDIATELY CALL IT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT OR OWNER. FAILURE TO DO SO BEFORE PLANTING SHALL MAKE THE CORRECTIVE MEASURES THE RESPONSIBILITY OF THE CONTRACTOR.

2. VERIFY LOCATIONS OF ALL UTILITIES, CONDUITS, SUPPLY LINES AND CABLES, INCLUDING BUT NOT LIMITED TO: ELECTRIC, GAS (LINES AND TANKS), WATER, SANITARY SEWER, STORMWATER LINES, CABLE AND TELEPHONE. PROPERLY MAINTAIN AND PROTECT EXISTING UTILITIES.

3. SUBGRADE EXCAVATION: SITE CONTRACTOR IS RESPONSIBLE TO REMOVE ALL EXISTING AND IMPORTED LIMEROCK AND LIMEROCK SUB-BASE FROM ALL LANDSCAPE PLANTING AREAS TO A MINIMUM DEPTH OF 36". SITE CONTRACTOR IS RESPONSIBLE TO BACKFILL THESE PLANTING AREAS TO ROUGH FINISHED GRADE WITH CLEAN TOPSOIL FROM AN ON-SITE SOURCE OR AN IMPORTED SOURCE. IF LIMEROCK OR OTHER ADVERSE CONDITIONS OCCUR IN PLANTED AREAS AFTER 36" DEEP EXCAVATION THOROUGHLY WATERED AND PROPERLY MAINTAINED UNTIL PLANTED. PLANTS SHALL NOT REMAIN UNPROTECTED FOR A PERIOD EXCEEDING TWENTY-FOUR (24) HOURS. AT ALL TIMES WORKMANLIKE METHODS CUSTOMARY IN GOOD HORTICULTURAL PRACTICES SHALL BE EXERCISED.

4. FURNISH NURSERY'S CERTIFICATE OF COMPLIANCE WITH ALL REQUIREMENTS AS HEREIN SPECIFIED AND REQUIRED. INSPECT AND SELECT PLANT MATERIALS BEFORE PLANTS ARE DUG AT NURSERY OR GROWING SITE.

5. GENERAL: COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK. CONFORM TO ACCEPTED HORTICULTURAL PRACTICES AS USED IN THE TRADE. PLANTS SHALL BE PROTECTED UPON ARRIVAL AT THE SITE BY BEING THOROUGHLY WATERED AND PROPERLY MAINTAINED UNTIL PLANTED. PLANTS SHALL NOT REMAIN UNPROTECTED FOR A PERIOD EXCEEDING TWENTY-FOUR (24) HOURS. AT ALL TIMES WORKMANLIKE METHODS CUSTOMARY IN GOOD HORTICULTURAL PRACTICES SHALL BE EXERCISED.

6. THE WORK SHALL BE COORDINATED WITH OTHER TRADES TO PREVENT CONFLICTS. COORDINATE THE PLANTING WITH THE IRRIGATION WORK TO ASSURE AVAILABILITY OF WATER AND PROPER LOCATION OF IRRIGATION ITEMS AND PLANTS.

7. ALL PLANTING PITS SHALL BE EXCAVATED TO SIZE AND DEPTH IN ACCORDANCE WITH THE USA STANDARD FOR NURSERY STOCK 260.1, UNLESS SHOWN OTHERWISE ON THE DRAWINGS, AND BACKFILLED WITH THE PREPARED PLANTING SOIL AS SPECIFIED HEREIN BEFORE (SECTION H). TEST ALL TREE PITS WITH WATER BEFORE PLANTING TO ASSURE PROPER DRAINAGE PERCOLATION IS AVAILABLE. NO ALLOWANCE WILL BE MADE FOR LOST PLANTS DUE TO IMPROPER DRAINAGE. IF POOR DRAINAGE EXISTS, UTILIZE PLANTING DETAIL THAT ADDRESSES THIS CONDITION. TREES SHALL BE SET PLUMB AND HELD IN POSITION UNTIL THE PLANTING MIXTURE HAS BEEN FLUSHED INTO PLACE WITH A SLOW, FULL HOSE STREAM. ALL PLANTING SHALL BE PERFORMED BY PERSONNEL FAMILIAR WITH PLANTING PROCEDURE AND UNDER THE SUPERVISION OF A QUALIFIED PLANTING FOREMAN. PROPER "JETTING IN" SHALL BE ASSURED TO ELIMINATE AIR POCKETS AROUND THE ROOTS. "JET STICK" OR EQUAL IS RECOMMENDED.

8. TAKE ALL NECESSARY PRECAUTIONS TO AVOID DAMAGE TO BUILDINGS AND BUILDING STRUCTURES WHILE INSTALLING TREES.

9. SOIL MIXTURE SHALL BE AS SPECIFIED IN SECTION H OF THESE SPECIFICATIONS. IN ADDITION, EACH PLANTING PIT SHALL RECEIVE 21-GRAM "AGRIFORM" PLANTING TABLETS PER MANUFACTURER'S SPECIFICATIONS OR AS FOLLOWS:

- TWO (2) TABLETS PER 1 GAL. PLANT
- THREE (3) TABLETS PER 3 GAL. PLANT
- FOUR (4) TABLETS PER 10 GAL. PLANT
- LARGER MATERIAL - TWO (2) TABLETS PER 1/2" OF TRUNK CALIPER

10. TREES AND SHRUBS SHALL BE SET STRAIGHT AND AT SUCH A LEVEL THAT AFTER SETTLEMENT, THE PLANT CROWN WILL STAND ONE (1) TO TWO (2) INCHES ABOVE GRADE. EACH PLANT SHALL BE SET IN THE CENTER OF THE PIT. PLANTING SOIL MIXTURE SHALL BE BACKFILLED AND THOROUGHLY TAMPED AROUND THE BALL AND SHALL BE SETTLED BY WATER AFTER TAMPING.

11. FILL HOLE WITH SOIL MIXTURE, MAKING CERTAIN ALL SOIL IS SATURATED. TO DO THIS, FILL HOLE WITH WATER AND ALLOW TO SOAK MINIMUM TWENTY (20) MINUTES, STIRRING IF NECESSARY TO GET SOIL THOROUGHLY WET. PACK LIGHTLY WITH FEET. ADD MORE WET SOIL MIXTURE. DO NOT COVER TOP OF BALL WITH SOIL MIXTURE; ONLY WITH MULCH. ALL BURLAP, ROPE, WIRES, ETC., SHALL BE REMOVED FROM THE SIDES AND TOPS OF BALLS, BUT NO BURLAP SHALL BE PULLED FROM UNDERNEATH.

12. PRUNING: EACH TREE SHALL BE PRUNED TO PRESERVE THE NATURAL CHARACTER OF THE PLANT AS SHOWN ON THE DRAWINGS. ALL SOFT WOOD OR SUCKER GROWTH AND ALL BROKEN OR BADLY DAMAGED BRANCHES SHALL BE REMOVED WITH A CLEAN CUT.

13. SHRUBS AND GROUND COVER PLANTS SHALL BE EVENLY SPACED IN ACCORDANCE WITH THE DRAWINGS AND AS INDICATED ON THE PLANT LIST. CULTIVATE ALL PLANTING AREAS TO A MINIMUM DEPTH OF 6", REMOVE AND DISPOSE ALL DEBRIS. TILL INTO TOP 4" THE PLANTING SOIL MIX AS SPECIFIED IN SECTION E. THOROUGHLY WATER ALL PLANTS AFTER INSTALLATION.

14. TREE GUYING AND BRACING SHALL BE INSTALLED BY THE LANDSCAPE CONTRACTOR IN ACCORDANCE WITH THE PLANS TO INSURE STABILITY AND MAINTAIN TREES IN AN UPRIGHT POSITION. IF THE LANDSCAPE CONTRACTOR AND OWNER DECIDE TO WAIVE THE TREE GUYING AND BRACING, THE OWNER SHALL NOTIFY THE LANDSCAPE ARCHITECT IN WRITING OF THEIR INTENTIONS AND AGREE TO HOLD HARMLESS THE LANDSCAPE ARCHITECT IN THE EVENT ANY TREES FALL DOWN AND DAMAGE PERSON OR PROPERTY.

15. MULCHING: PROVIDE A THREE (3) INCH MINIMUM LAYER OF SPECIFIED MULCH OVER THE ENTIRE AREA OF EACH SHRUB BED, GROUND COVER AND VINE BED AND TREE PIT.

16. HERBICIDE WEED CONTROL: ALL PLANT BEDS SHALL BE KEPT FREE OF NOXIOUS WEEDS UNTIL FINAL ACCEPTANCE OF WORK. IF DIRECTED BY THE OWNER, "ROUND-UP" SHALL BE APPLIED FOR WEED CONTROL BY QUALIFIED PERSONNEL TO ALL PLANTING AREAS IN SPOT APPLICATIONS PER MANUFACTURER'S PRECAUTIONS AND SPECIFICATIONS. PRIOR TO FINAL INSPECTION, TREAT ALL PLANTING BEDS WITH AN APPROVED PRE-EMERGENT HERBICIDE AT AN APPLICATION RATE RECOMMENDED BY THE MANUFACTURER.

S. LAWN SODDING

1. THE WORK CONSISTS OF LAWN BED PREPARATION, SOIL PREPARATION, AND SODDING COMPLETE, IN STRICT ACCORDANCE WITH THE SPECIFICATIONS AND THE APPLICABLE DRAWINGS TO PRODUCE A GRASS LAWN ACCEPTABLE TO THE OWNER.

2. LAWN BED PREPARATION: ALL AREAS THAT ARE TO BE SODDED SHALL BE CLEARED OF ANY ROUGH GRASS, WEEDS, AND DEBRIS. AND THE GROUND BROUGHT TO AN EVEN GRADE. THE WHOLE SURFACE SHALL BE ROLLED WITH A ROLLER WEIGHING NOT MORE THAN ONE-HUNDRED (100) POUNDS PER FOOT OF WIDTH. DURING THE ROLLING, ALL DEPRESSIONS CAUSED BY SETTLEMENT OF ROLLING SHALL BE FILLED WITH ADDITIONAL SOIL, A

ROCKWALL, TEXAS - TREE PRESERVATION

TREES WITH A DIAMETER OF 4" DBH OR LARGER ARE PROTECTED TREES AND MUST BE REPLACED.
- BOIS D'ARC, WILLOW, COTTONWOOD, LOCUST, AND CHINABERRY ARE NOT CONSIDERED PROTECTED
- HACKBERRY AND CEDAR SPECIES THAT ARE LESS THAN 11" DBH ARE NOT CONSIDERED PROTECTED.

REPLACEMENT TREES MUST BE A MINIMUM OF 3" CALIPER.

PROTECTED TREES MEASURING 4" - 29" DHB SHALL BE REPLACED WITH CALIPER INCHES EQUAL TO THE TOTAL DIAMETER OF THE TREE(S) REMOVED.
- HACKBERRY AND CEDAR TREES THAT ARE 11" DBH OR LARGER, SHALL BE REPLACED AT 50% OF THE TOTAL CALOPER INCHES BEING REMOVED.

IF THE SITE IS TOO SMALL TO ACCOMMODATE THE NUMBER OF REPLACEMENT TREES REQUIRED, CREDITS CAN BE EARNED FOR TREES PLANTED OTHER AREAS DETERMINED BY THE PARKS AND RECREATION DEPARTMENT. THE LOCATION SHALL BE WITHIN ONE MILE OF THE AREA WHERE THE TREES ARE BEING REMOVED.

TREE REPLACEMENT CREDITS NOT EXCEEDING 20 PERCENT OF THE TOTAL REPLACEMENT INCHES CAN ALSO BE PURCHASED. PAYMENTS OF $125.00 PER CALIPER INCH MAY BE PAID TO THE CITY OF ROCKWALL TREE FUND.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/14/2017

APPLICANT: Mike Whittle; *Whittle Development, Inc.*

AGENDA ITEM: **SP2017-036**; *Lot 3, Block 2, Alliance Addition*

SUMMARY:

Discuss and consider a request by Mike Whittle of Whittle Development, Inc. on behalf of Randall Noe of N&H Legacy Partners for the approval of a site plan for an office buildings on 0.55-acre tract of land identified as Lot 3, Block 2, Alliance Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, addressed as 6530 Alliance Drive, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for an ~4,920 SF *office building* [*i.e. Alliance V*]. The proposed office building is situated on a 0.55-acre tract of land [*i.e. Lot 3, Block 2,Alliance Addition*], is zoned Planned Development District 57 (PD-57) for Commercial (C) District land uses, and is addressed as 6530 Alliance Drive. The applicant has also submitted a site plan [*SP2017-034*] for an office building on Lot 2 [*i.e. the adjacent lot*] that is similar to the design of the proposed office building.

On September 5, 2004, the City Council approved Planned Development District 57 (PD-57) for Commercial (C) District land uses. As a condition of approval, each building throughout the development shall be constructed with a consistent design scheme and materials approved by the Architectural Review Board. In this case, the proposed office building is consistent with the other buildings in the development [*e.g. Alliance III & Alliance IV*].

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use *(i.e. an office building*) is permitted by-right within Planned Development District 57 (PD-57), and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*X~17,680 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X~182-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X=174Feet; In Conformance*
Minimum Front Yard Setback	*10-Feet*	*X~90-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X~45-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X~20-Feet; In Conformance*
Maximum Building Height	*60-Feet[1]*	*X=23-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*X<40%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Number of Parking Spaces	*17*	*12 Provided; Not In Conformance[2]*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X=88-91%; In Conformance*
Minimum Landscaping Percentage	*15%*	*41%; In Conformance*
Maximum Impervious Coverage	*75-80%*	*X=62%; In Conformance*

1. Up to 240-feet with Specific Use Permit (SUP) 2. Variance Requested

VARIANCE:

The applicant is requesting a variance to the minimum parking requirements stipulated in the Unified Development Code. According to Section 6, Off-Street Loading Requirements, of Article VI, Parking and Loading, of the Unified Development Code, office buildings require a parking ratio of 1 space per 300 SF. In this case, the development is required to have 17 parking spaces, however, only 12 are being provided [*i.e. 5 spaces below the minimum requirement*]. This variance will require a simple majority vote for approval.

ARCHITECTURAL REVIEW BOARD

On October 24, 2017, the Architectural Review Board (ARB) reviewed the submitted building elevations and made recommendation to approve the building elevations with the condition that the office building incorporate some sort of differentiation in the front façade to distinguish it from the other buildings in the development. The applicant has complied with this request and the Architectural Review Board will review the revisions and forward a recommendation at the November 14, 2017 Planning and Zoning Meeting.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Clay Christie of *ClayMoore Engineering*

AGENDA ITEM: **P2017-060;** *Lot 4, Block A, Brisco/Hillcrest Addition*

SUMMARY:

Consider a request by Clay Cristy of ClayMoore Engineering on behalf of Tim Thompson of CN Rockwall Investors, LLC for the approval of a replat for Lot 4, Block A, Briscoe/Hillcrest Addition being a 0.915-acre tract of land identified as Lot 3, Block A, Briscoe/Hillcrest Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32) situated within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [*FM-3097*] and the IH-30 Frontage Road, and take any action necessary.

COMMENTS:

☑ The applicant is requesting approval of a replat for the purpose of dedicating a firelane easement and abandoning an electric easement on the southwest quadrant of the lot. The replat is associated with a Care Now Facility that is currently under construction. The replat approved on February 6, 2017 (*i.e. P2017-002*) dedicated a 44-foot wide right-of-way for the future Pinnacle Way, and abandoning the existing right-of-way for Hilltop Drive. Finally, a PD Development Plan (*i.e. Z2016-010*) and a site plan (*i.e. SP2016-013*) for the urgent care facility were approved in 2016.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

☑ With the exception of the items listed in the Recommendation section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the replat for *Lot 4, Block A, Briscoe/Hillcrest Addition*, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this replat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as the BRISCOE / HILLCREST ADDITION, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the _____ subdivision have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1 No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2 Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3 The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4 The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5 The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6 No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as the BRISCOE / HILLCREST ADDITION, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the _____ subdivision have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1 No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2 Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3 The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4 The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5 The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6 No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Gerald Monk; *Monk Consulting*

AGENDA ITEM: **P2017-061**; *Lot 4, Block A, Walmart Rockwall Addition*

SUMMARY:

This is a request to consider a request by Gerald Monk of Monk Consulting on behalf of Kevin Smart of KSAM Properties for the approval of a replat for Lot 4, Block A, Walmart Rockwall Addition being a one (1)-acre tract of land identified as Lot 2, Block A, Walmart Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 49 (PD-49) for General Retail (GR) District Land uses, situated within the SH-66 Corridor Overlay (SH-66 OV) District, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a one (1)-acre tract of land [*i.e. Lot 1, Block A, Walmart Rockwall Addition*] into one (1) parcel [*i.e. Lot 4, Block A, Walmart Rockwall Addition*] for the purpose of establishing the necessary fire lane, utility, public access, cross access, detention, and drainage easements for a medical office building.

- ☑ A site plan [*SP2017-022*] for an ~7,000 SF *medical office building* [*i.e. Lake Ray Hubbard Pediatrics*] was approved by the Planning and Zoning Commission on August 15, 2017. The proposed medical office building is situated on a one (1)-acre tract of land, zoned Planned Development District 49 (PD-49) for General Retail (GR) District land uses, and is situated within the SH-66 Corridor Overlay (SH-66 OV) District.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lot 4, Block A, Walmart Rockwall Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city-adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS KSAM PROPERTIES, LLC., BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

Lot 2, Block A, WAL-MART ROCKWALL, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet E, Slide 166 of Map Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 5/8" iron rod found for corner in the northwest right-of-way line of SH 66 W. Rusk Street, and being at the southwest corner of Lot 2, Block A and the southeast corner of North Shore Plaza Phase II, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet C, Slide 23 of the Plat Records of Rockwall County, Texas;

THENCE N. 00 deg. 39 min. 54 sec. W. along the west boundary line of said Lot 2 and the east boundary line of said Addition, a distance of 227.29 feet to a 1/2" iron rod found for corner;

THENCE N. 84 deg. 04 min. 19 sec. E. a distance of 280.68 feet to a "X" found chiseled in concrete for corner at the northeast corner of said Lot 2;

THENCE S. 40 deg. 29 min. 02 sec. W. a distance of 191.65 feet to a 5/8" iron rod found for corner;

THENCE S. 04 deg. 18 min. 48 sec. E. a distance of 41.73 feet to a 1/2" iron rod found for corner in the north right-of-way line of SH 66 W. Rusk Street;

THENCE S. 68 deg. 43 min. 35 sec. W. along said right-of-way line, a distance of 190.76 feet to the POINT OF BEGINNING and containing 43,680 square feet or 1.00 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as WAL-MART ROCKWALL LOT 4, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in WAL-MART ROCKWALL, LOT 4, BLOCK A, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Juan Vasquez of *Vasquez Engineering*

AGENDA ITEM: **P2017-062;** *Lots 4 & 5, Block A, Dalton Goliad Addition*

SUMMARY:

Consider a request by Juan Vasquez of Vasquez Engineering, Inc. on behalf of Don Silverman of Rockwall 205-552, LLC for the approval of a replat for Lots 4 & 5, Block A, Dalton Goliad Addition being a 5.683-acre tract of land identified as Lot 2, Block A, Dalton Goliad Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, generally located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

COMMENTS:

☑ The applicant is requesting approval of a replat for the purpose of incorporating a portion of the dedicated firelane easement of Lot 2 by relocating a lot line on the western boundary (*i.e. rear property line*) of Lot 4. This plat will also dedicate an access easement on the north side of the property of Freddy's Frozen Custard.

☑ A Specific Use Permit (SUP) No. 171 [*Ordinance No. 17-39*] was granted in August 2017 for the use (*i.e. Freddy's Frozen Custard Restaurant with Drive-Through*) and a Site Plan (*i.e. SP2017-024*) was approved in September of this year.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

☑ With the exception of the items listed in the Recommendation section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the replat for *Lots 4 & 5, Block A, Dalton Goliad Addition*, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this replat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS

COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as the **DALTON GOLIAD ADDITION** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **DALTON GOLIAD ADDITION** subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. All detention/drainage systems to be maintained, repaired, and replaced by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall. I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. All detention/drainage systems to be maintained, repaired, and replaced by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall. I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: David Naylor; *Rayburn Country Electric Cooperative*

AGENDA ITEM: **P2017-063**; *Lots 4-7, Block A, Rayburn Country Addition*

SUMMARY:

Consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a replat for Lots 4-7, Block A, Rayburn Country Addition being a 36.042-acre tract of land identified as Lots 1-3, Block A, Rayburn Country Addition and Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Heavy Commercial (HC) and Commercial (C) Districts, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 950 & 980 Sids Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat four (4) parcels of land [*i.e. Lots 1-3, Block A, Rayburn Country Addition and Tract 3-13 of the W. H. Barnes Survey Abstract No. 26*] into three (3) parcels of land [*i.e. Lots 4-7, Block A, Rayburn Country Addition*] for the purpose of combining Tract 3-13 with Lot 1, Block A, Rayburn Country Addition and establishing the necessary fire lane, utility, public access, cross access, detention, and drainage easements for the expansion of the current electric utility facility.

- ☑ On July 7, 2014, the City Council approved a final plat for Lots 1-3, Block A, Rayburn Country Addition.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 4-7, Block A, Rayburn Country Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city-adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-063) in the lower right hand corner of all pages on future submittals.

M.4 Please number the lots 4-7 (renumber Lot 1R to Lot 4, and so forth). We do not use "R" in lot numbers.

M.5 Please label property line.

M.6 Please label point of beginning

M.7 There is no legal description, standard plat wording, dedication etc. Please see application packet for standard plat wording.

M.8 Please tie two corners to City Monuments.

M.9 Please show distinct lines for each lot. The lots seem to all run together.

I.10 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Meeting for this case is November 28.

I.11 The City Council meeting date for this case is December 4, 2017.

GENERAL NOTES:

1. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83]54.
2. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83–NCF).
3. By graphical plotting, part of the parcel described hereon lies within a Special Flood Hazard Area (SPHA) Zone "AE" as delineated on the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map, Map Number 4839C0040L, dated September 26, 2008, as published by the Federal Emergency Management Agency. The Surveyor utilized the above referenced floodplain information for this determination and the Surveyor does not certify that revised floodplain information has or has not been published by the Federal Emergency Management Agency or some other source. This statement shall not create liability on the part of the surveyor.
4. A 1/2" Iron Rod with a yellow cap stamped RPLS Number 3963 will be set at all lot corners and R.O.W. points located on natural ground after construction of subdivision is completed, wherever possible. An "X" will be substituted for any lot corner located on a smooth concrete surface such as sidewalks, pavement, and retaining walls, whenever possible. A PK nail or 60D nail will be substituted for lot corners located on any surface on which a 1/2 'Iron Rod or an "X" cannot be set.
5. The floodplain section elevations and locations shown on this plat were provided by the City of Rockwall.
6. Property owner is responsible for on-site drainage maintenance, repair, and replacement.

GENERAL NOTES:

1. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83]54.
2. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83–NCF).
3. By graphical plotting, part of the parcel described hereon lies within a Special Flood Hazard Area (SPHA) Zone "AE" as delineated on the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map, Map Number 4839C0040L, dated September 26, 2008, as published by the Federal Emergency Management Agency. The Surveyor utilized the above referenced floodplain information for this determination and the Surveyor does not certify that revised floodplain information has or has not been published by the Federal Emergency Management Agency or some other source. This statement shall not create liability on the part of the surveyor.
4. A 1/2" Iron Rod with a yellow cap stamped RPLS Number 3963 will be set at all lot corners and R.O.W. points located on natural ground after construction of subdivision is completed, wherever possible. An "X" will be substituted for any lot corner located on a smooth concrete surface such as sidewalks, pavement, and retaining walls, whenever possible. A PK nail or 60D nail will be substituted for lot corners located on any surface on which a 1/2 'Iron Rod or an "X" cannot be set.
5. The floodplain section elevations and locations shown on this plat were provided by the City of Rockwall.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Jason and Anna Potts

AGENDA ITEM: **P2017-064**; *Lot 27, Block C, Harbor Landing, Phase 2 Addition*

SUMMARY:

Consider a request by Jason and Anna Potts for the approval of a replat for Lot 27, Block C, Harbor Landing, Phase 2 Addition being a 0.69-acre tract of land identified as Lots 20 & 26, Block C, Harbor Landing, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family detached land uses, addressed as 318, 320 & 322 Portview Place, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat two (2) parcels of land [*i.e. Lots 20 & 26, Block C, Harbor Landing, Phase 2 Addition*] into one (1) parcel of land [*i.e. Lot 27, Block C, Harbor Landing, Phase 2 Addition*] for the purpose of combining two (2) tracts of land into one (1) tract of land for the purpose of constructing a single-family home.

- ☑ As part of the replat, the applicant will be abandoning and existing five (5)-foot utility easement and will be required to provide letters from all franchise utilities consenting to the abandonment prior to filing the plat.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lot 27, Block C, Harbor Landing, Phase 2 Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) The developer is to provide letter of consent from all franchise utilities consenting to the abandonment of the five (5)-foot utility easement on the subject property;

3) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city-adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-64 Lot 27, Block C, Harbor Landing Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Jason and Anna Potts for the approval of a replat for Lot 27, Block C, Harbor Landing, Phase 2 Addition being a 0.69-acre tract of land identified as Lots 20 & 26, Block C, Harbor Landing, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family detached land uses, addressed as 318, 320 & 322 Portview Place.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-064) in the lower right hand corner of all pages on future submittals.

M.4 Please check with franchise utilities to ensure the proposed abandoned easement is empty.

M.5 Please lot frontage at build line.

M.6 Please label point of beginning

M.7 There is no legal description, standard plat wording, dedication etc. Please see application packet for standard plat wording.

M.8 Please tie two corners to City Monuments.

M.9 Please show distinct lines for each lot. The lots seem to all run together.

I.10 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Meeting for this case is November 28.

I.11 The City Council meeting date for this case is December 4, 2017.

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as HARBOR LANDING PHASE 2, LOT 27, BLOCK C, BEING A REPLAT OF LOT 20 AND 26, BLOCK C, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CITY CASE NO P2017-

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Russell Phillips

AGENDA ITEM: **P2017-050**; *Lots 22 & 23, Rainbo Acres Addition*

SUMMARY:

Consider a request by Russell Phillips on behalf of Sandra McMullen for the approval of a replat for Lots 22 & 23, Rainbo Acres Addition being an 8.733-acre tract of land identified as a portion of Lot 16 and all of Lot 14, Rainbow Acres Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 259 Ranch Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat one (1), 8.733-acre tract of land [*i.e. a portion of Lot 16 and all of Lot 14, Rainbow Acres Addition]* into two (2) parcels [*i.e. Lots 22 & 23, Rainbo Acres Addition*] for the purpose of conveying Lot 22, Rainbo Acres Addition. This is the lot with the existing single-family home situated on it.

- ☑ On November 6, 2017, the City Council approved a Specific Use Permit (SUP) [*Case No. Z2017-048—Ordinance No. 17-59*] to allow a mini-warehouse facility in a Commercial (C) District on Lot 23, Rainbo Acres Addition.

- ☑ On September 12, 2017, the Planning and Zoning Commission recommended approval of a zoning change from Single-Family Estate 4.0 (SEF-4.0) to a Commercial (C) District.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 22 & 23, Rainbo Acres Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I, the undersigned owner of the land shown on this plat, and designated herein as RAINBO ACRES, TRACTS 22 & 23, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in RAINBO ACRES, TRACTS 22 & 23, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any wa endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the City Secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

C.C.: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Change of Request by Jim Douglas of Douglas Properties, Inc.

On November 6, 2017, the City Council denied a request to change the zoning of a 59.065-acre tract of land -- *located adjacent to the western boundary of Planned Development District 82 (PD-82)* (*see attached location map*) -- from an Agricultural (AG) District to Planned Development District 82 (PD-82) for a single-family residential land uses [*Case No. Z2017-046*]. Since the request was denied without an indication of prejudice the action was considered to be a denial with prejudice *(§8.3.B, Article II*). This motion restricts the ability of the applicant to submit a zoning application for any portion of the subject property -- *unless the application is for a more restrictive, less intense use or development (§8.3.B, Article II*) -- for a period of one (1) year from the date of denial. In accordance with *Section 8.3.D, Council Approval or Denial*, of *Article II, Authority and Administrative Procedures*, of the *Unified Development Code* the applicant submitted a written request to the Director of Planning on November 17, 2017 seeking approval from the Planning and Zoning Commission to refile a zoning application requesting to amend Planned Development District 82 (PD-82) for the purpose of incorporating the *subject property* (*i.e. 98.341-acres*) into the existing Planned Development District 82 (PD-82). As part of the written request, the applicant has submitted a concept plan and legal description indicating the incorporation of approximately 39-acres (*i.e. the antenna tower park*) as open space. In addition, the applicant has stated that this request does represent a substantial change for the use of the property by introducing larger lots, additional open space, and an additional private park area. Finally, the applicant has demonstrated a reduction in the overall density from 2.5 units per acre to 1.5 units per acre by incorporating the additional open space.

Staff has determined that the proposed changes to the original request are substantial enough to bring forward to the Planning and Zoning Commission. The Commission is tasked with determining if the changes that the applicant has submitted represent 1) a more restrictive or less intense use or development, and/or 2) if there is an actual change in conditions relating to zoning principles of the tract or parcel of land or the property surrounding it. The applicant and staff will be available at the meeting to answer any questions.

RE: TERRACINA ESTATES TRACT II
98.341 acres
ROCKWALL, TX

Dear Mr. Miller:

We hereby request an appointment with the planning and zoning commission to reconsider our application for the zoning of Terracina Estates Tract Two. We have added additional acreage and made substantial revisions to the lay-out. We will not be requesting any exceptions to the requirements of PD-82 which we are developing. The PD revisions include larger lots, additional open space, and an additional park area. The density has been reduced to 1.5 units per acre.

If you have any questions or if we can be of any further assistance, please do not hesitate to contact our office.

Sincerely,

Richard Hovas, P.E.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Korey Brooks

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Change of Request Letter by Trent Hyde

On October 16, 2017, the City Council denied a request by Trent Hyde for the approval of a Specific Use Permit (SUP) to allow for an accessory building that did not meet the minimum requirements as stipulated in *Article IV, Permissible Uses*, of the Unified Development Code. Since then, the applicant has made several changes to his request and would like the Planning and Zoning Commission to consider allowing him to submit another SUP application.

According to Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures,* of the Unified Development Code (UDC), if a request is denied with prejudice, a new application for the same lot or tract of land may be submitted within one (1) year *only* if the new request is for a more restrictive or less intense use or development or if there is a change in conditions relating to the zoning principles of the lot or parcel of land or the property surrounding it. Should a change of conditions exist, the applicant may submit a written request describing the change of conditions to the Director of Planning. On October 19, 2017, the applicant submitted a written request seeking approval from the Planning and Zoning Commission to refile a request for Specific Use Permit (SUP) to allow for a *detached garage*.

As part of the original request, the applicant proposed to construct a second accessory building on the subject property. The existing accessory building is approximately 200 SF and the requested metal accessory building was approximately 700 SF.

On October 24, the Planning and Zoning Commission approved a change in request to allow an ~700 SF detached garage that would have a concrete slab and clad in Hardie Board (or similar cementaceous material). Additionally, the applicant is proposing to relocate the existing 200 SF building to the rear of the property.

Since that time, the applicant contacted the manufacturer of the metal building [*i.e. Mueller*] and was informed that the building could not be clad with Hardie Board due to the structural design of the building. Since the applicant is not able to clad the building with Hardie Board, a request has been submitted to construct an ~720 SF detached garage with a three (3)-foot masonry/stone wainscot around the building. Additionally, the detached garage will be on a concrete foundation with a driveway and roll-up doors. Finally, the applicant is proposing to relocate the existing 10’ x 20’ accessory building to the rear of his property.

Since this new request is different from the approved change of request, staff felt the need to bring this before the Planning and Zoning Commission for consideration. Staff has determined that the proposed changes to the original request are substantial enough to bring to the Planning and Zoning Commission. The Planning and Zoning Commission is tasked with determining if the proposed changes are 1) more restrictive or less intense use or development and/or 2) if there is an actual change in conditions relating to zoning principles of the tract of land or the property surrounding it.

Attached is the applicant’s *Change in Request Letter*.

Hi Korey,
I would like to build a 720 foot detached garage on a concrete slab with drive way, and a waynes scott 3 or 4 feet tall. I will be moving my 10 x 20 existing building to the back of my property to make room for the new detached garage. Please let me know what I need to do next. Thank you for all your help.

Thank you,

Trent Hyde

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Austin Lewis of *Lewis Real Estate Investments, Inc.*

AGENDA ITEM: **Z2017-043**; *Amendment to PD-70 – Common Ground Subdivision*

SUMMARY:

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Stone Creek Balance, LTD for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

PURPOSE AND BACKGROUND:

The *subject property*, which was annexed into the City on May 19, 1986 by *Ordinance No. 86-37*, is located at the southeast corner of the intersection of Greenway Drive and FM-552. It is a 5.28-acre tract of land that is currently vacant, and is zoned Planned Development District 70 (PD-70). On September 6, 2017, the applicant submitted an application requesting to amend PD-70 [*Ordinance No. 09-44*] for the purpose of incorporating a single-family subdivision consisting of 19 single-family residential lots. If approved, the amended *Concept Plan* and development standards will incorporate a designation for the proposed 19 single-family homes as the *Common Ground Subdivision* and the proposed 19 lots will count against the total 918 single-family lots currently permitted by PD-70. The current *Concept Plan* designates the subject property for 11 of the *Type 'E'* lots (i.e. 70' x 120'), which means that the applicant's request will increase the number of lots on the subject property by eight (8) lots.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the *subject property* is FM-552. Beyond this is the City Limits followed by an unincorporated area in the City's Extraterritorial Jurisdiction (ETJ) containing single-family homes.

South: Directly south of the *subject property* is a 12.003-acre vacant tract of land owned by the Rockwall Independent School District. Beyond this are single-family homes located within the Stone Creek Subdivision and zoned PD-70.

East: Directly east of the *subject property* is J. W. Williams Middle School, which is situated on a 25.569-acre tract of land zoned Single-Family 16 (SF-16) District.

West: Directly west of the *subject property* is an 8.223-acre tract of land dedicated as open space and zoned PD-70.

CHARACTERISTICS OF THE REQUEST:

According to the *Concept Plan,* the applicant is proposing to develop a pocket neighborhood, which is characterized as a community oriented small neighborhood with front porches fronting onto a common green space. The common area will include a trellis garden with a fire pit, a walking trail, and a screened porch area attached to the amenity center. Of the 19 single-family home sites, 17 lots will measure 37' x 100', or 3,700 SF in area. The remaining two (2) lots will measure 48' x 100' (*i.e. 4,800 SF*) and 60' x 100' (*i.e. 6,000 SF*). The applicant intends to establish separate design standards within PD-70 that would allow for the construction of farmhouse style homes ranging from 1,600 SF to 2,600 SF on each lot. Additionally, the applicant intends to provide a 30-foot private street for the community, and a dedicated 25-foot fire lane. The private street is required to meet City standards for neighborhood street design, measuring a minimum of 29-feet back-to- back. This type layout will also require the dedication of 20-foot easement for water and sewer services. Based on the *Concept Plan*, the layout of the lot configuration for the single-family residential lots does not meet the City's standards for subdivision. Under *Section 38.1*, of *Article I*, of *Chapter 38, Subdivision*, 'Lot' means an undivided tract or parcel of land that has frontage on a public street, and which is (or in the future may be) offered for sale, conveyance, transfer or improvement as a building site, that is designated as a distinct and separate tract. The applicant is requesting a w*aiver* to the *Subdivision Ordinance, Chapter 38*, of the Municipal Code of Ordinances to allow for not meeting the required lot frontage on a public street for the *subject property* as depicted on the proposed *Concept Plan*. Finally, it is also the intent of the applicant to create a separate Home Owners Association (HOA) for the proposed *Common Ground Subdivision* in order to service the private streets and common areas. With this being said, a *waiver* to the *Subdivision Ordinance* is a discretionary decision for the City Council.

A summary of the requested density and dimensional requirements is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***	***C***
Minimum Lot Width	37'	48'	60'
Minimum Lot Depth	100'	100'	100'
Minimum Lot Area	3,700 SF	4,800 SF	6,000 SF
Minimum Front Yard Setback	*15'*	*15'*	*15'*
Minimum Side Yard Setback	*5'*	*5'*	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*15'*	*15'*	*15'*
Minimum Length of Driveway Pavement	*N/A*	*N/A*	*N/A*
Maximum Height	36'	36'	36'
Minimum Rear Yard Setback	*20'*	*20'*	*20'*
Minimum Area/Dwelling Unit (SF)	1,600 SF	1,600 SF	1,600 SF
Maximum Lot Coverage	80%	80%	80%

SUMMARY OF WAIVERS:

The following is a summary of the requirements being requested with the amendment to Planned Development District 70 (PD-70) for the *Common Ground Subdivision* for the *subject property* that depart from the requirements of the UDC or Code of Ordinances:

1) *Masonry Requirements.* The UDC allows the exterior building façades to be composed of up to 50% cementaceous materials. In this case, the applicant is proposing a variation that could include up to 100% cementaceous material lap siding, which is an increase of 50%.

2) *Lot Size.* The UDC requires a minimum lot size of 10,000-SF in an SF-10 zoning district. Planned Development District 70 (PD-70) has an underlying zoning requirement of SF-10, ith the minimum lot size/area of 6,000-SF. One lot meets this standard (*i.e. Type 'C'*), with the remaining 18 lots less than 6,000-SF (*i.e. 3,700-SF and 4,800-SF*).

3) *Lot Frontage.* The Code of Ordinances requires all lots to have frontage on a public road. In this case, the applicant's request is to provide a private street within the community and front all of the lots onto the private street.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained within the Comprehensive Plan designates the *subject property* as *Public Uses* land designation. According to the Comprehensive Plan, a *Public Uses* designation is generally defined as a use operated exclusively by a public body having the purpose of serving the public health, safety or general welfare. This includes uses such as public schools, parks, playground, and administrative and service facilities. In this case, Planned Development District 70 (PD-70) is an established horizontal mixed use development with a lot mix establishing a maximum of 918 single-family units and designated on the Future Land Use Map as *Medium Density Residential.* According to the Comprehensive Plan, *Medium Density Residential* is areas that consist of the single-family developments that have typically been built in Rockwall. They may be two (2) to three (3) units per acre, but generally about three (3) units per acre. The current *Concept Plan* (*i.e. Master Plat for Stone Creek*) indicates a density of 2.33 units per acre based on 918 home sites. The applicants request for the *Common Ground Subdivision* will not have an effect on the total number of units allowed for the development based on a variation to the lot composition as established in *Exhibit 'C', Development Standards*, of PD-70, and as outlined in staff's report. With this being said, the proposed Concept Plan is a discretionary decision for the City Council.

NOTIFICATION:

On September 29, 2017, staff mailed 888 notices to property owners and residents within 500-feet of the *subject property*. Staff also emailed notices to the Quail Run Valley, The Shores/Ray Hubbard, Lakeview Summit, and Promenade Harbor Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the *subject property* participating in the notification program. Additionally, staff posted a sign adjacent to the *subject property* along FM-552 and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received five (5) notices in favor of, fourteen (14) notices opposed, and one (1) notice neutral to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District No. 70 (PD-70) for the *subject property*, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance; and,

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Public Uses* designation to a *Medium Density Residential* designation; and,

3) Approval of a waiver by the City Council for not meeting the lot frontage requirements on a public street as established in the *Subdivision Ordinance, Chapter 38* of the City of Rockwall Municipal Code of Ordinances; and,

4) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-043: Amendment to PD-70

Hold a public hearing to discuss and consider a request by Austin Lewis of Lewis Real Estate Investments, Inc. on behalf of Meritage Homes of Texas, LLC for the approval of an amendment to Planned Development District 70 (PD-70) to incorporate a single-single family subdivision consisting of 19 single-family residential homes on a 5.28-acre tract of land identified as Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, located at the southeast corner of the intersection of Greenway Drive and FM-552, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/10/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/16/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/16/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

We are opposed to the amendment based on the density of the area. So many homes in such a small area will result in lower priced homes, impacting the surrounding property values, and more traffic in front of our home. We frequently witness wrecks in front of our home. Our fence has been hit more than once in these accidents.

Nineteen more homes in this close proximity will yield twice that many vehicles and we are not equipped to handle the traffic we currently have. Because of the traffic issue and presumed negative impact on property values, we oppose the amendment

Gonzales, David

From: Jennifer Huber [redacted]

To: Gonzales, David
Cc: Pruitt, Jim
Subject: Corner of 552 & Greenway Drive

Mr. Gonzales,

My name is Jennifer Huber & I live at 400 Country Ridge which is across 552 from the corner you are discussing tonight. We are "county" so we aren't ever notified of these proposals, but fortunately we have neighbors on Wooded Trail who do notify us. So then we send emails & go to meetings & hope that maybe, someday, we will have city leaders that will develop Rockwall with integrity & pay attention to what the citizens want.

The last meeting we attended I found out that that particular scenario is a long way off. The topic of discussion before our issue came up was something that had actually been voted against by the P&Z Committee. However, there were no P&Z members there because this was an "emergency" meeting & it was 4 days before Christmas. To make a long story short, we now have 3 car washes within a half mile of each other on the same street. (The Mayor was the ONE & only person who agreed with p&z & thought maybe it was not a good idea to have 3 car washes in such close proximity)

Citizens are constantly baffled & frustrated by these decisions. The thing is, people are VERY busy just trying to stay afloat & we have to trust that good decisions are being made! We always hope that the decisions are in the best interest of the people who have chosen to live here or have lived here all of their lives.

If you have lived in this town very long you know how crowded it has become, you know how congested the schools are, you know our parks are severely lacking, you know how instead of what was once hills full of beautiful trees greeting you coming over the bridge into Rockwall, is now a huge, mostly empty, shopping & restaurant area.

The point of all of this is...why? Why is it MORE important to cram way too many homes on a tiny scrap of land than to just leave something alone? Or at the VERY least build what was originally planned. People move out here to enjoy their surroundings! Enjoy nature! Play outside with our kids without worrying about constant traffic!

It looks like John King will soon be filled with yet more homes on top of homes. The natural & historical beauty of this town is disappearing rapidly. Our roads can't accommodate the people that are here now & our schools certainly can't accommodate the amount of students that are here.

You don't hear from people because they know they can't change anything. That's really sad too! Almost always when these conversations come up, people are VERY quick to bring up the courthouse, which is one big reason they feel powerless.

I know this is way more information than you need & your job is planning & zoning so I'm sorry to go on about this, but it's a conversation that comes up SO often in my world (school, children & the YMCA) that I figured since I was letting you know how we feel about the corner I might as well tell you what people are feeling about other things too! Thanks for your time!

Jennifer Huber

I am GREATLY opposed to this. There is no need for additional homes in this area. The traffic is already horrific- and this will add to the problem.

The city needs to work strongly on infrastructure before approving any additional homes. The homes are simply the same thing as what we have-200-350k cookie cutter homes. Nothing for lower price points and nothing custom. We need to fix our city before we expand it.

Please consider your current residents before selling us out to yet another developer.

Please feel free to contact me should you have any questions.

Thank you.

Planning and Zoning Commission:
We are writing in response to the letter we received regarding the proposed zoning change for Case Number Z2017-043 Admendment PD-70 at the SE corner of Greenway Drive and FM-552.

We are Paul and Stacey Buff and reside @
2906 Greenway Drive

We are NOT in favor of the propsed zonig change requested by Austin Lewis of Lewis Real Estate Investments. We closed on our home in June of 2017 and were told that a RRISD elementary school would be built on the property across the street from our home. That was a selling feature for us. We have a child attending Hays Elementary and after 11 years years, they have out grown the space and students are having to utilize pods for classrooms.
In order to accommodate the homeowners in our neighborhood and comintue with the growth in Rockwall, we are in need of a top notch school that RRISD can provide and not a small addition to the neighborhood. We have researched the propsed building plans from Lewis Real Estate Investments and do not believe what they are proposing will add value to the exhisting neighborhood and can potentially devalue our home instead of increasing the value with a school.

Thank you for your time and consideration to our concerns.

Subject: "Pocket Neighborhood" Concept Near Stone Creek Estates

Hi Ryan,

We spoke with Austin Lewis on Saturday. We have seen the "pocket neighborhood" concepts in Houston. Austin's project sounds like it would be a nice addition for this area.

If Skorburg had planned something like this over by CVS, we would have been pleased. I wanted to share with you that we told Austin that we would appreciate two items:

1) Have PD-70 amended to limit (lower) the development to 899 home sites, keeping the total home site count at 918 to include the "pocket neighborhood" count of 19 home sites plus the Stone Creek Estates home sites. This would insure that the density for this overall area would not be jeopardized.

2) Work with Skorburg to make the property on the west side of Greenway (city owned property) pretty to compliment his "pocket neighborhood" property.

Thank you for asking Austin to get in touch with us. We really enjoyed talking with him. We look forward to helping in any way possible.

Thanks,

Subject: Stone Creek Estates Pocket Homes

Importance: High

Hello David,

Following our conversation on 11/13/2017, we are providing our thoughts, considerations and requests regarding the proposed Pocket Home development being proposed for PD-70.
Please share this information with the P&Z committee members.

Thanks,

Jim & Shirley Smith

Pocket Homes

As homeowners, we have **two primary goals**:

- Protect our property value.
- Protection for ourselves and our neighbors for our quality of living which is heavily influenced by the environment of our neighborhood and city.

We have been on the fence about this project, never 100% *for* nor *against* Pocket Homes in PD-70.

For the **pros**:
1. The density is not much greater than that of 50-foot lots; 19 pocket homes verses 18 50-foot-lot homes.
2. Some residents, particularly retirees, would appreciate having high quality, maintenance-free homes.
3. Pocket Homes might be a good option for this small piece of property.
4. This proposal shows a minimum of 1,600 square feet on the first floor, which is desirable for many.
5. The proposal provides for two-car attached garages, which is important to maintain property values.
6. The developer, Austin Lewis, in a phone conversation, stated that improvement of the city-owned property on the west side of Greenway, across from the proposed project, would enhance the marketability of the Pocket Home property and that he was willing to clean it up, prepare it for mowing, and install a sidewalk. This would greatly improve the overall appearance into Stone Creek Estates at the Dalton Road entrance.
7. The developer has stated that the homes would be about $350,000, which is about $200 per square foot. This would maintain property values.

For the **cons**:

1. The major concern is that this proposal for Pocket Homes**, <u>does not follow the design principles for Pocket Homes</u>**, and is; therefore, not truly Pocket Homes. All the websites we have visited stated that a cluster in a Pocket Home development should have between 8 to 12 units, and one site recommended 8-12 units and advised that the number of units should NEVER exceed 16 units.

DOCUMENTION:

Pocket-Neighborhood.net defines pocket neighborhoods as: (http://pocket-neighborhoods.net/)

> Pocket neighborhoods are clustered groups of neighboring houses or apartments gathered around a shared open space — a garden courtyard, a pedestrian street, a series of joined backyards or a reclaimed alley — all of which have a clear sense of territory and shared stewardship. They can be in urban, suburban or rural areas.
>
> Pocket neighborhoods can take on a variety of shapes and sizes, but the most common types feature a garden or park with homes surrounding that shared outdoor space.
>
> In these neighborhoods, everyone tends to know everyone else. Neighbors have a sense of belonging and respect that comes from sharing outdoor spaces, and the residents tend to look out for each other.
>
> If you'd like to build homes in a pocket neighborhood you'll need to start by learning more about these special spaces. The design considerations are much different than they would be for a standard single family home, and doing your homework will set you up for successful development.
>
> The homes can be built in any style. They can be detached homes, apartments, townhomes or even a combination. However, the homes tend to be smaller, because this promotes spending time outside in the neighborhood's shared areas. Other design principles include:
>
> - A maximum of 12 homes in the neighborhood (but multiple clusters can be joined by walkways)
> - No cars or traffic in the common areas
> - Active rooms and spaces, like porches, facing the common areas
> - "Nesting" the homes is also common, where houses are built with the open side of one house facing the closed, windowless side of the next
>
> However, how you bring these principles to life will depend on a variety of factors — each pocket neighborhood is as unique as the community it serves.

> http://lifeedited.com/the-neighborhood-within-the-neighborhood/

2. There has been no documentation presented that specifically indicates that this developer brings experience in Pocket Home development.
3. There are no assurances that these properties will be able to command a value of $200 per square foot.
4. There are no assurances that the landscaping will block the view of the garages from the two school prosperities and mainly from Dalton Road.

Prior to approval of this project, if it is approved, we respectfully request that documentation is provided that makes guarantees for the current homeowners of Stone Creek Estates. Not sure what is possible to be done by the City; but the following assurances would facilitate a good outcome.

1. Limit the number of units to 16 so that it meets the design principles for Pocket Homes.
2. Documentation that the number of units in this project is part of the 918 total homes allowed in PD-70.
3. Documentation that no unit will have less than 1,600 square feet of **air-conditioned** space on the first floor.
4. Documentation that all units will have an attached two-car garage on the back of the unit.
5. Documentation that the developer will clean up and prepare for mowing the detention pond on the northeast corner of the “Pocket Home” property, so that it will have a "park-like" appearance that will add to the aesthetics and enjoyment of this development.
6. Documentation as to the type of exterior materials, ensuring that masonry and/or hardiplank type material is required.
7. Documentation that all counter tops will be granite, living area ceilings will be 9 feet or greater, and any other features that the city believes will enhance the quality of the project and will maintain the properties' value.
8. Documentation that each unit will have a front porch.
9. Documentation that each unit will have a personal fenced area.
10. Documentation to specify that the landscaping include
    a. Irrigation of all common areas.
    b. Sufficient number of shrubs to provide total blockage of the view of garages.
11. Documentation for the duties of the HOA to assure ongoing maintenance and control of the property.

Re: Letter of Explanation for Re-Zoning

Lewis Real Estate Investments, Inc. is hereby making application to amend PD -70 which includes the subject 5.288 acre tract of land located at the southeast corner of FM 552 and Greenway Drive. Current permitted use is single-family lots ranging in size from 6,000-20,000 sq. ft. with 936 total dwelling units.

Lewis Real Estate Investments, Inc. and partner, David Dillard, noted senior housing architect are requesting an amendment to PD-70 in order to develop a "pocket neighborhood", a community oriented small neighborhood with 19 dwelling units with front porches fronting on a common green space. Lot sizes range from 3,700 sq. ft. to 6,000 sq. ft. The dwelling units ranging from 1,600 sq. ft. to 2,900 sq. ft. will be regulated by design standards to a cottage craftsman style home with different elevations. Residents will be able to walk around the green visiting with neighbors who are on the front porch. The neighborhood will include a community building equipped with kitchen to accommodate resident meetings, family gatherings, and other uses. Each residence will have two-car parking either in dwelling and/or separate garages depending on dwelling size. Visitor parking and a special entry feature adjoin the commons.

Thank you for your favorable consideration of this request.

Sincerely,

Austin Lewis

T. DeWeese Survey, Abstract No. 71 and the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 70 [*Ordinance No.'s 07-13, 09-44 & 11-35*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 07-13, 09-44 & 11-35*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached

DRAFT ORD. 2017

hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That a master parks and open space plan for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

Section 6. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 6(b) through 6(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master Plat
3. PD Development Plans (*required for retail areas only*)
4. PD Site Plans
5. Preliminary plats
6. Final plats

(c) A Master Plat application covering all of the *Subject Property*, other than the area designated on the *Planned Development Concept Plan* as *Retail*, shall be submitted and shall identify each phase of development. No master plat application shall be approved until the *Open Space Master Plan* for all of the Property has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the master plat application.

(d) A *PD Development Plan* must be approved for the area designated on the Concept Plan as *Retail*; however, the PD Development Plan application may be processed by the City concurrently with a *Preliminary Plat* application and a *PD Site Plan* application. No *Master Plat* is required for the area designated on the Concept Plan as *Retail*.

(e) A preliminary plat application shall be submitted for each phase of residential development. A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with a preliminary plat application for that phase of the development.

DRAFT ORD. 2017-04

(f) A *Capital Facilities Agreement* in the form of *Exhibit 'D',* attached hereto and incorporated herein by reference as *Exhibit 'D',* shall be executed by Developer providing for delivery of adequate public facilities and services within the District.

Section 7. A PD Development Plan must be approved for the areas designated as *Retail* on the *Concept Plan* in *Exhibit 'B'*; however, the *PD Development Plan* application may be process by the City of Rockwall concurrently with a preliminary plat application and *PD Site Plan* application.

Section 8. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

Section 9. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 10. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 11. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 12. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 18TH DAY OF DECEMBER, 2017.

3. *Fencing.*

a. *Residential uses.* In areas designated as *Residential* on the *Concept Plan* in *Exhibit B* of the attached ordinance, all individual residential fencing for lots less than 20,000 SF shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property. Lots containing 20,000 SF, lots located along perimeter roadways, and lots abutting open spaces, greenbelts and parks shall be required to install tubular steel fencing. Corner lot fencing (adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear property line corner and terminates ten (10') feet behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear

yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5') feet. The property owner shall maintain that portion of the property outside the fence. Fencing shall be consistent with the language described above and *Figure 1* below.

Figure 1: *Fence Example.*

b. *Common Ground Subdivision.* All fencing in the *Common Ground Subdivision* as depicted in *Exhibit B* of this ordinance shall be a minimum of a six (6) foot wood fence utilizing standard cedar fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property.

4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least three (3) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street or two (2) intervening homes on the opposite side of the street. All chimneys shall be constructed of masonry materials, excluding cementaceous siding.

ii. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). All chimneys shall be constructed of masonry materials, excluding cementaceous siding.

iii. Exterior facade may be composed of 100% cementaceous siding; however, a ***maximum*** of 20% natural stone or brick may be used on exterior walls. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (*to be determined by the ARC*) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). All chimneys shall be constructed of masonry materials, excluding cementaceous siding.

iv. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized. No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens.

v. For front entry driveway access a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. *Streetscape Landscape.* Prior to issuance of a Certificate of Occupancy, yards for all single-family lots on the *Subject Property* shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.

(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot for properties in the areas identified as *Residential* on the *Concept Plan* in *Exhibit B* of this ordinance.

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

DRAFT ORDINANCE 12.04.17

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards as modified by *Street Buffer Strip Elevation and Street Cross-Section Elevations* below in *Figure 2*.

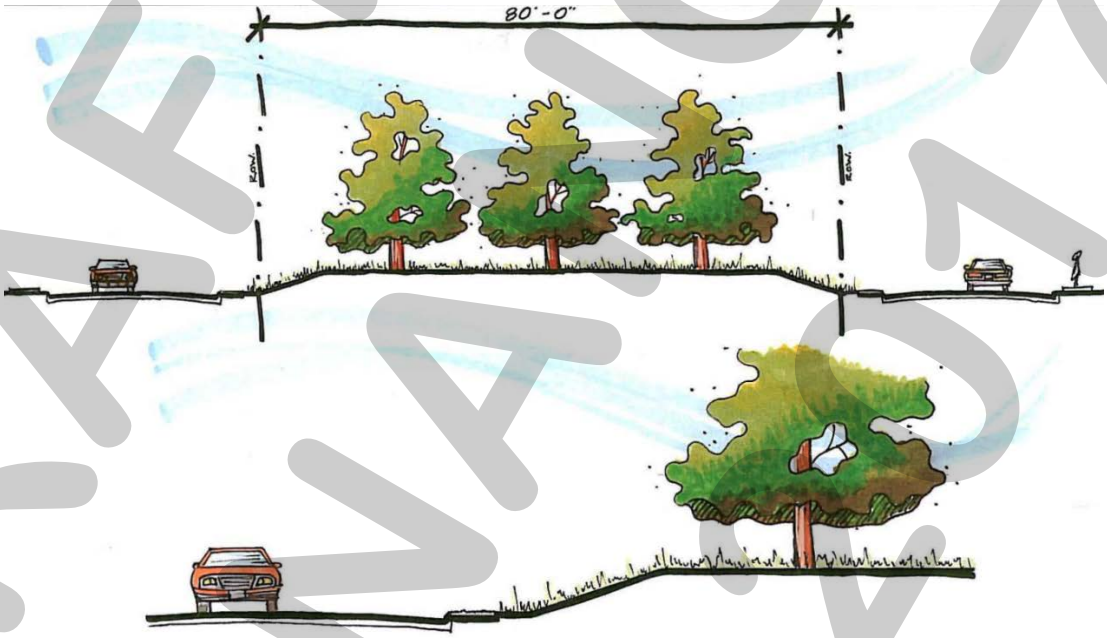

Figure 2: *Street Buffer Strip Elevation and Street Cross-Section Elevations.*

a. *Buffer-Strip for the North SH-205 Overlay (N. SH-205 OV) District.* The landscape buffer strip shall be as described in Section E, *Landscape Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), and be a minimum width of 60-feet as illustrated below in *Figures 3 & 4* and as indicated on the PD Concept Plan. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

b. *Buffer-Strip for the SH-205 By-Pass Overlay (SH-205 BY-OV) District.* The landscape buffer strip shall be as described in Section E, *Landscape Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), and be a minimum width of 50-feet as below in *Figures 3 & 4* and as indicated on the PD Concept Plan. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

DRAFT ORDINANCE 12.04.17

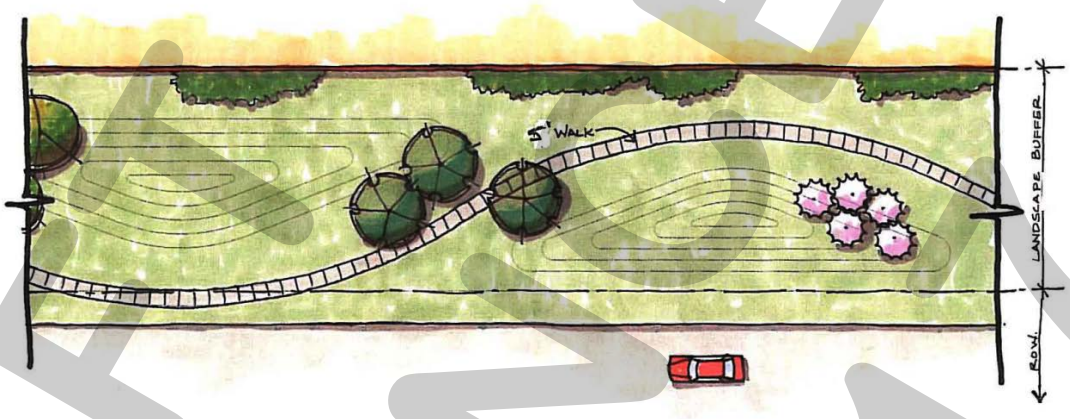

Figure 3: *Landscape Buffer Plan*

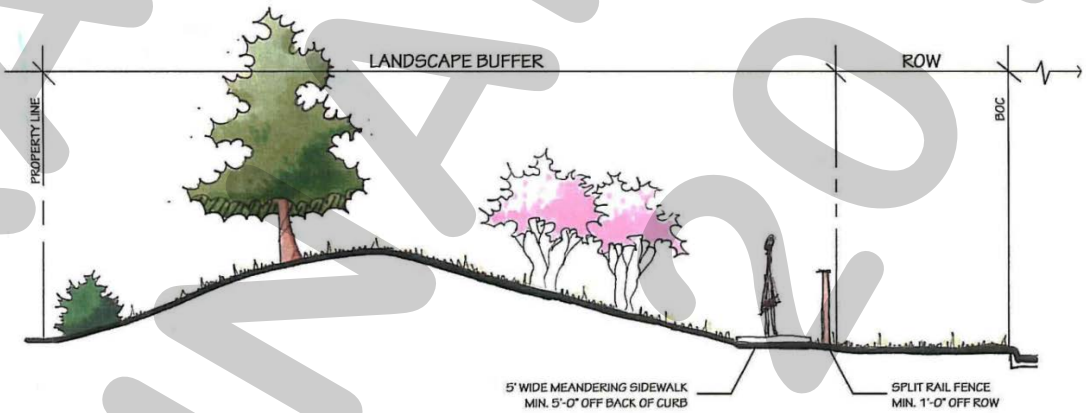

Figure 4: *Landscape Buffer Cross Section*

c. *Buffer-Strip (Outside of Overlay Districts)*. The landscape buffer strip shall be a minimum of ten (10) feet on Hays Road and Quail Run Road. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

d. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.

e. *HOA Maintained Fencing.* The Homeowner's Association will maintain all common area and perimeter fencing surrounding the *Subject Property*. Such perimeter fencing shall be composed of a six (6) foot tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.

f. *Curvilinear Walks. Curvilinear Walks* are to be a minimum of five (5) feet in width and a maximum of six (6) feet in width (*i.e. Hike & Bike Trails*) consistent with the approved *Open Space Master Plan*. *Collector Streets*, with or without center medians, may incorporate sidewalks six (6) feet in width adjacent to or within the *front yard* landscape easements. *Curvilinear Walks* may meander within the

DRAFT ORDINANCE 04.2017

parkway and common areas; however, the edge of the walk shall be no closer than four (4) feet from the back-of-curb.

g. *Medians.* Any proposed median openings shall meet the City standards at the time of *PD Site Plan* approval.

2. *Lighting.* Light poles shall not exceed 20-feet in height, and all light fixtures shall direct light downward and be contained within the *Subject Property*.

3. *Sidewalks.* At a minimum, sidewalks located on streets shall begin four (4) feet behind the back of curb and shall be five (5) feet in overall width.

4. *Curbing.* Within *Lot Types A & B*, *roll-up-curbing* may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity. These *roll-up-curbs* shall be approved by the City of Rockwall Engineering Department with the approval of the final plat application.

5. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*i.e. 3-phase lines*), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*, except along the SH-205 By-Pass (*i.e. John King Boulevard*). Additionally, if such above ground lines are installed along the perimeter of the *Subject Property* and adjacent to non-residential uses, then the lines shall be installed behind the non-residential buildings where the installation is possible. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.

6. *Parks and Open Space.* Allowing inclusion of approximately 50% of the school sites and floodplain shown on the *Development Plan* and approximately 20.0% of the land on the *Subject Property* shall constitute open space, which is hereby deemed sufficient if supported by the following standards and conditions.

a. The *Subject Property* shall contain not less than 79-acres of open space including approximately 26.6-acres of floodplain as shown on *Exhibit B* of this ordinance.

b. Allowable open space may include but is not limited to public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (*including any Homeowner's Association recreation center or similar facilities*) and other features depicted on the *Concept Plan*, as set forth in the *Open Space Master Plan* prepared in accordance with subparagraph (c) below. Street right-of-way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within 800-feet of a public or

DRAFT ORDINANCE 12.04.17

private open space. In order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than 50-feet in width.

c. The *Developer* shall prepare the *Open Space Master Plan* to be consistent with the approved *Concept Plan*. The purpose of an *Open Space Master Plan* is to supplement the *Concept Plan* by providing an additional level of detail for public and private open space areas. The *Open Space Master Plan* shall identify the locations of and improvements to public parks, school sites and other public and private open space or common areas, taking into consideration the proximity of single-family dwellings, as required by subparagraph (a), and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the *Subject Property* to parks and open space within the *Subject Property* and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's *Master Park and Recreation Plan*. The *Open Space Master Plan* shall clearly differentiate public parks from private facilities and common lands to be maintained by the Homeowner's Association. The locations of public parks, school sites and other public and private open space or common areas shown on the *Open Space Master Plan* shall be in conformance with the *Concept Plan*, except as otherwise provided in Section 7 of Article II of the *Capital Facilities Agreement* pertaining to school sites. The *Open Space Master Plan* shall include a phasing plan for construction of all trails and parks, and common open space and facilities. The *Open Space Master Plan* shall be considered for approval if it complies with this section, the applicable City regulations, the *Concept Plan*, and generally accepted park-planning practices.

d. The District shall contain not less than 7.8 acres of land to be used as public or private parkland. A minimum of 7.8 contiguous acres shall be dedicated to the City in accordance with the City's *Neighborhood Parkland Dedication Ordinance* on approval of the final plat for the first phase of the development. This dedication shall include the dedication of a five (5) foot wide parcel to connect the *City Park* within the *Subject Property* to the existing City property to the east of the middle school. The remaining area will be retained as a private park within the *District*. Park improvements shall be constructed in accordance with the approved *Open Space Master Plan*. The site plan incorporating the design of park improvements and hike /bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's *Neighborhood Parkland Dedication Ordinance* regarding land dedication. At the time of recordation of final plats for each phase, *Developer* shall pay park improvement fees to the City. These fees shall be held in an escrow account until the commencement of *Phase 3*, at which time the *Developer* shall inform the City if the *Developer* wishes to use the escrowed fees as well as future fees to construct park improvements. Said improvements shall be approved by *Parks Director*, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to *Parks Director* for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's *Neighborhood Parkland Dedication Ordinance* regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire *District*

DRAFT ORDINANCE

applicable at that time, or improvement fees are paid. Thereafter, the *Developer* shall not be responsible for additional parkland dedication or park development fees associated with the *Subject Property*, except as otherwise may be provided in a *Capital Facilities Agreement* approved by the City.

The *Developer* shall provide a minimum of four (4) retention ponds in the *District* with hard edges and fountain features as generally shown on the *Concept Plan*. The exact configuration and location of the ponds will be determined at development. All retention pond hardedges shall be similar to the hardedge shown in *Figure 5* below.

Figure 5: *Retention Pond with Hardedge.*

8. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage elevations and plan shown below in *Figures 6 & 7*. Final design of entry features to be determined with the Planned Development Site Plan.

9. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code (UDC) shall apply to any application for variance(s) to this ordinance.

10. *Amenity Center.* Developer shall construct an amenity center in approximate size and detail as shown below in *Figure 8*.
