CAPITAL FACILITIES AGREEMENT

THIS CAPITAL FACILITIES AGREEMENT (the "Agreement") is by and among the Estate of W.W. Caruth, Jr., the Estate of Mabel P. Caruth, Skorburg Retail Corporation., and the City of Rockwall, Texas.

I.

RECITALS

1. The Estate of W.W. Caruth, Jr. and the Estate of Mabel P. Caruth (collectively, "Caruth"), are the owners of approximately 395 acres of real property (the "Property") located within the corporate limits of the City of Rockwall, Rockwall County, Texas. Skorburg Retail Corporation ("Skorburg"), is a Texas corporation authorized and in good standing to do business in Texas. Skorburg and any successors or assigns of Skorburg or Caruth owning all or a portion of the Property (other than persons acquiring individual lots for development) are sometimes referred to herein as "Developer." The City of Rockwall, Texas ("City" or "Rockwall") is a home rule municipal corporation organized under the laws of the State of Texas. Caruth, the City and Developer are sometimes referred to collectively as the "Parties."

2. Skorburg has a contract to purchase the Property from Caruth for development purposes. The legal description of the Property is attached hereto and incorporated by reference herein as Exhibit A.

3. Skorburg seeks to rezone and subdivide the Property for single-family residential use and certain commercial uses. Skorburg will submit an application to rezone the Property as a planned development (PD) district for a development currently known as Stone Creek (the "PD District").

NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the Parties hereto agree as follows:

II.
ADEQUATE PUBLIC FACILITIES

1. ***General Provisions.***

a. ***Adequacy required.*** Development of the Property shall be supported with adequate levels of public facilities and services. Adequate facilities and services are those that (i) comply with the applicable City regulations, including this Agreement, and (ii) are consistent with generally accepted engineering and planning practices for similar developments. The Parties agree that the dedication and construction of public improvements, or the contribution of proportionate development fees, required to support development of the Property shall precede or be concurrent with the construction of private improvements to the land, in accordance with the phasing provisions incorporated within this section, or as otherwise may be provided through approval of a master plat.

b. ***Proportionality.*** (1) The Parties agree that the dedication or construction of public improvements, or the contributions of development fees, provided for in this Agreement are roughly proportional to the nature and extent of the proposed development of the Property on the City's public facilities systems. Caruth and Skorburg expressly agree that each obligation of Caruth or Skorburg imposed by this Agreement to dedicate, construct or contribute fees for infrastructure improvements and the timing of such obligations is necessary to offset or mitigate the impacts on the City's utility and roadway systems that are directly attributable to developing the Property. Caruth and Skorburg further agree that the City may expressly rely upon the provisions of this paragraph in any certification under section 212.904, or successor statute, and that a court in determining rough proportionality may consider all of the Property. Caruth and

DRAFT ORDINANCE 12.04.2017

Skorburg further agree that the construction of the public infrastructure at the times provided for in this Agreement substantially furthers the public health and safety, and that the City's conditioning of development approval on completion of such facilities is independent of any claim that Caruth's or Skorburg's obligation to construct such improvements is disproportional to the impacts created by development of a proposed plat.

(2) Each of Caruth and Skorburg hereby covenant not to sue the City for any claim, or otherwise consent to participate in any action against the City arising from any claim by such party or by its affiliates, alleging that application of the adequate facilities requirements set forth in this Part II of the Agreement to the development of the Property, or the imposition of conditions to a plat application for a portion of the Property that are consistent with the requirements of this section, are not roughly proportional to the impacts of the development depicted in the Concept Plan, including but not limited to any action premised upon Tex. Loc. Gov't Code sec. 212.904 or successor statute, or any similar claim brought pursuant to Tex. Loc. Gov't Code ch. 395. Such covenant not to sue touches and concerns the Property, and is a covenant running with the land such that it binds successors-in-interest and assigns of Caruth and Skorburg. Should any successor-in-interest or assign of Caruth or Skorburg other than an affiliate of Caruth or Skorburg assert any of the foregoing claims in a court of competent jurisdiction, in violation of this Subsection 1(b), with respect to the development of any portion of the Property, the Parties agree that, with respect to such portion of the Property or all of the Property, at the City's option, this Agreement thereupon shall become null and void and any rights that may otherwise have vested under then existing state law shall be deemed to have been waived upon such event.. Should Caruth, Skorburg or an affiliate of either violate the covenant not to sue contained in this paragraph, the City may either enforce the covenant or pursue the

DRAFT ORDINANCE 12.04.2017

remedies provided for herein that are applicable to successors or assigns other than affiliates. As used in this Agreement, the term "affiliate" means any person, corporation, partnership, or other entity controlled by, controlling, or under common control with Caruth or Skorburg.

c. ***No waiver.*** The requirements in this Part II shall be considered additional standards and conditions applicable to development within the PD District. Except in the event of a conflict between the standards in this Agreement and other standards applicable within the District, nothing in this Agreement shall be construed as superseding any requirement or standard in the City's subdivision or utility regulations relating to provision of adequate public facilities and services.

2. ***Wastewater Services.***

a. ***City as provider.*** The City shall be the supplier of wastewater services to the Property. The City ultimately shall have sufficient wastewater capacity to serve the entirety of the Property. The City anticipates having sufficient wastewater capacity to begin service to the Property during 2009.

b. ***Line extensions.*** The Developer shall extend wastewater mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for wastewater facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall design and construct additional pumps to increase the pumping capacity at the existing Quail Run Lift Station in order to serve the development within the PD District. The Developer shall be entitled to pro rata fees for the costs of oversizing the Quail Run Lift Station from other future developments using the lift station, calculated on an acreage basis, but the Developer shall not receive any reimbursement with respect to the Nelson Lakes and Dalton Ranch and Castle Ridge

DRAFT ORDINANCE 12.04.2017

Estates Subdivisions, as such subdivisions are depicted on preliminary plat applications filed with the City. The installation of additional pumps shall constitute the only improvements required by this Property for the Quail Run Lift Station. Developer also shall be eligible for credits against, wastewater impact fees otherwise due for construction of improvements included in the City's wastewater improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. ***Payment of impact fees***. Wastewater impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

3. ***Water Services***

a. ***City as provider***. The City shall be the supplier of water services to the Property. The City represents that it has sufficient capacity to serve the Property.

b. ***Line extensions***. The Developer shall extend water mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for water facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall pay a pro-rata of $19.75 linear foot of frontage along FM 552 adjacent to the Property for the previously constructed 16" line, and shall construct a minimum a twelve-inch (12") water distribution main (or larger, as may be needed to adequate serve the property) located generally along SH 205 (but constructed within streets internal to the development) from FM 552 to Quail Run Road, and such mains shall connect to the City's existing water distribution system. The installation of these improvements and the payment of the pro-rata along FM 552 shall occur at

DRAFT ORDINANCE 12.04.2017

time of final platting of sections of the Property adjacent to or including such improvements and the completion of the connection from FM 552 to Quail Run is not required until such time as the entire property is final platted and developed. The Developer shall be eligible for City participation in the costs of over sizing water distribution mains or appurtenances that serve other land in addition to the Property, in accordance with the City's standard policies, or for collection of pro rata fees for such facilities. Developer also shall be eligible for credits against, water impact fees otherwise due for construction of improvements included in the City's water improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. ***Payment of impact fees***. Water impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

4. ***Road Improvements***. The Developer shall make the following road improvements.

a. ***Highway 205 Bypass***. Caruth or the Developer shall dedicate rights-of-way for the planned Highway 205 Bypass adjacent to the Property, commencing from the northern boundary of the Property and extending south along the Property line, in accordance with the City's standards and specifications and the planned design of the bypass, and as shown on the Concept Plan for the PD District, which is attached hereto and incorporated herein by reference as Exhibit B. The Developer also shall provide a fifty-foot (50') landscape buffer designed in accordance with the 205 Bypass Overlay District in the City's Unified Development Code, as shown on Appendix "G", and indicated on Exhibit B which is attached hereto and incorporated herein by reference. The Developer shall dedicate rights-of-way for Highway 205 Bypass by separate instrument within sixty (60) calendar days from receipt of the legal description of the right-of-way approved by the City Engineer and consistent with the approved Concept Plan and shall grant right of entry to the City should construction of the Bypass be initiated by the City prior to the completion of the dedication documents. The Developer shall have no obligation with respect to construction of the Highway 205 Bypass other than as outlined herein regarding payment of road impact fees. Developer shall not receive credits or

DRAFT ORDINANCE 12.04.2017

offsets against roadway impact fees specified in subsection (g) for dedication of rights-of-way for the planned Highway 205 Bypass.

b. ***FM 552/SH 205 intersection.*** Developer shall dedicate rights-of-way for and construct a left turn lane with 150 feet of stacking for westbound FM 552 traffic onto South SH 205 in accordance with City and TxDOT standards at the time of approval of the first final plat for any site in the Retail Area shown on the Concept Plan for the PD District. The Developer shall not be responsible for signalization of the intersection.

c. ***FM 552 improvements.*** Following approval by TXDOT, the Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes along FM 552 adjacent to the Retail Area shown on the Concept Plan for the PD District (unless otherwise constructed pursuant to another agreement), concurrent with installation of improvements for the first final plat approved within the Retail Area. Such construction shall be in accordance with City standards and specifications. At time of platting along the roadway or within 60 days of notification that the roadway is scheduled to be widened by the City or by TxDOT, whichever occurs first, Developer will dedicate to the City the necessary right of way to accommodate the widening in accordance with the City's adopted Thoroughfare Plan.

d. ***Business SH 205 improvements.*** Following approval by TXDOT, the Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes along Business SH 205 at intersections created by platting, concurrent with installation of improvements for the plat for land adjacent to the intersection. At time of platting along the roadway or within 60 days of notification that the roadway is scheduled to be widened by the City or by TxDOT, whichever occurs first, Developer will dedicate to the City the necessary

DRAFT ORDINANCE 12.04.2017

right of way to accommodate the widening in accordance with the City's adopted Thoroughfare Plan.

e. ***Hays Road improvements***. The Developer shall dedicate thirty feet (30') of right-of-way for Hays Road and shall construct a twenty-four and one-half foot (24.5') concrete pavement section and appurtenances (including curb and gutter and underground storm drain system to collect existing conditions runoff) adjacent to the east side of the Property from Quail Run Road north to the point where future Hays Road departs from the Property to intersect with the future Highway 205 Bypass, as shown in Exhibit C, section H-1, which is attached hereto and incorporated herein by reference. The Developer shall dedicate thirty feet (30') of right-of-way for Hays Road and shall construct a twenty-four foot (24') of 6" thick , or as designed by the engineer for the roadway, asphalt pavement section and a bar ditch adjacent to the Property from the northeast corner of the Property, or the southeast corner of the Highway 205 Bypass, if the Bypass already has been constructed, south to the new concrete pavement section as shown in Exhibit C, section H-2.

The Developer also shall dedicate and improve a minimum landscape buffer of ten feet (10') adjacent to the right-of-way for Hays Road, designed in accordance with the requirements of the PD District then in effect for a minor collector. Dedication of rights-of-way shall be at the time of final plat approval of lots abutting the planned roadway. The Developer shall construct improvements to Hays Road and to the landscape buffer at the time of installing improvements serving the adjacent lots. The need for the landscape buffer along temporary Hays Road may be evaluated and waived by the City Council at the time of preliminary plat approval. The Developer may construct its initial street connection to Hays Road and final plat lots adjacent to the roadway without triggering the necessity to construct the entire section of Hays

DRAFT ORDINANCE 12.04.2017

Road, provided that such lots lie adjacent to section H-2 of Exhibit C; final platting of lots outside of area H-2 along Hays Road shall require construction of the entire remaining sections of Hays Road with installation of improvements serving such lots. The City shall evaluate whether a landscape buffer is needed along temporary sections of Hays Road at the time of approval for the preliminary plat containing such temporary sections. The City shall obtain the off-site right-of-way for the section of Hays Road from the Property to the proposed SH 205 Bypass.

f. ***Quail Run Road improvements***. Caruth or the Developer shall dedicate forty-two and half feet (42.5') of right-of-way for the north half of the ultimate eighty-five foot (85') right-of-way for Quail Run Road abutting the Property by separate instrument within ninety (90) days of the effective date of this Agreement. The Developer shall construct a twenty-five foot (25') , 8" thick concrete pavement section within such right-of-way, with curb. The foregoing improvements shall be installed in conjunction with improvements serving the lots abutting Quail Run Road. The Developer also shall construct left turn lanes for the Quail Run Road median, as required by the City at approved locations.

g. ***Payment of roadway impact fees***. Roadway impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations. The Developer shall pay to the City $2,000 per single-family dwelling unit for any unit for which a building permit has been issued by the City up to 36 months after the execution of this Agreement, until the City adopts and may impose roadway impact fees. Should the actual roadway impact fee adopted be less that $2,000 per single-family dwelling unit, the Developer shall receive credit against roadway impact fees for future plats equal to the amount that was overpaid. Should the actual roadway impact fee be greater that $2,000 per single-family dwelling unit, the Developer

DRAFT ORDINANCE 12.04.2017

agrees to pay to the City the difference between the actual amount per single-family dwelling unit and $2000 per unit at the time of final platting the next phase of the development.

5. ***Drainage improvements.*** Dedication of rights-of-way for and construction of drainage improvements shall be provided as specified in conditions imposed with approval of the master plat for development within the PD District and in accordance with City standards and specifications.

6. ***Parks and open space.***

a. The Developer or a property owners association shall maintain public parklands and improvements within the development for a period of three (3) months from the completion and acceptance of the improvements. Thereafter, the City shall assume responsibilities for maintenance. All open space and improvements which are not dedicated as parkland to the City shall be maintained as common areas in perpetuity by the property owners association for the PD District. Additionally, the property owners association shall maintain Developer-installed landscaping areas in public rights-of-way and public drainage ways internal to and adjacent to the Property.

7. ***School site.*** The Developer shall reserve an approximately ten-acre tract of land for use as a school site at the location shown on the Concept Plan. The Developer agrees to sell the land to the School District at fair market value for undeveloped single-family land at the time of such sale. The Developer shall provide utilities to the school site with the second phase of development within the PD District, subject to cost-sharing agreed to by the Developer and the School District, if the School District has not commenced construction of the school by that time. In the event that the Developer fails to sell the land to the School District or the School District declines to purchase the land, the Developer shall dedicate approximately five (5) acres of the

DRAFT ORDINANCE 12.04.2017

reserved school site to the City as a public park, and the balance of the site shall be available to Developer for other development as approved by the City Council If Developer elects to propose a different equivalent site for dedication of public parkland, the City Council must first approve the location.

III.

GENERAL PROVISIONS

1. ***Notice on sale.*** The Developer shall provide the City with notice of the sale of any tract or parcel within the District that has not been platted at the following address:

Rockwall City Manager
Rockwall City Hall
385 S. Goliad Street
Rockwall, TX 75087.

2. ***Recording.*** This Agreement is intended to run with the land, and shall be recorded in the Real Property Records, Rockwall County, Texas.

3. ***Term of Agreement.*** This Agreement shall terminate two (2) years following the City's acceptance of the dedication and construction of the public improvements described herein serving the last phase of development within the PD District, after which the City agrees, upon the request of Caruth or Developer, to execute a termination of this Agreement in recordable form.

4. ***Effective Date.*** This Agreement shall take effect upon the date of its execution by the last of the Parties to the Agreement; provided, however, that Skorburg and Caruth shall execute this Agreement no later than five (5) business days following the effective date of the PD zoning ordinance for the Property. If either Skorburg or Caruth fails to execute this Agreement within such period, this Agreement shall become null and void, and unless a subsequent agreement, acceptable to the City and the Developer, is agreed to, the City may

DRAFT ORDINANCE 12.04.2017

thereafter deny any PD site plan, master plat or other plat application on grounds that the application is not supported by adequate public facilities and services.

5. ***Severability.*** Invalidation of any provision of this Agreement by judgment or court order shall not invalidate any of the remaining provisions which shall remain in full force and effect, unless such remaining provisions are an integral part of the invalid provisions or the invalid provision is necessary to give effect to the remaining provisions.

6. ***Enforcement.*** This Agreement may be enforced by the Parties by any proceeding at law or in equity. Failure to do so shall not be deemed a waiver to enforce the provisions of this Agreement thereafter.

7. ***Venue.*** Venue for this Agreement shall be in Rockwall County, Texas.

8. ***Execution.*** This Agreement may be separately executed in individual counterparts, and upon execution, shall constitute one and the same instrument.

9. ***Amendment.*** This Agreement may only be amended in writing upon mutual consent of the City and the Developer.

10. ***Joint preparation***. This Agreement shall be deemed to have been jointly prepared by all Parties hereto, and no ambiguity of this Agreement shall be construed against any party based upon the identity of the author of this Agreement or any portion thereof.

11. ***Recitals incorporated***. Statements and representations contained herein are to be considered contractual in nature and not merely recitations of fact. The Recitals contained in Part I of this Agreement hereby are expressly incorporated into this Agreement by reference.

12. ***Construction***. All references herein in the singular shall be construed to include the plural where applicable, the masculine to include the feminine and neuter genders.

DRAFT ORDINANCE 12.04.2017

13. ***Authority.*** Each of the signatories to this Agreement represents and warrants that he is authorized to execute this Agreement and bind his principals to the terms and provisions hereof. Each Party warrants that any action required to be taken in order for this Agreement to be binding on it has been duly and properly taken prior to the execution of this Agreement. Caruth expressly warrants that no other person or entity other than Skorburg has an executory or contingent interest in the Property affecting the terms of this Agreement. Proof of legal title to the Property in Caruth shall be evidenced by a title commitment presented contemporaneous with the execution of this Agreement by Caruth.

14. ***Conflicts.*** In the event of a conflict between this Agreement and any provision of the Unified Development Code, the City Code, or any City ordinance, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this Agreement, the standards in this Agreement shall control.

15. ***No Waiver.*** Except as to claims relating to road impact fees, as provided in Article II, paragraph 4 of this Agreement, Caruth and Developer retain the right to challenge the application of any City impact fee regulations to the Property solely on the basis that such regulations fail to comply with Chapter 395 of the Texas Local Government Code, as amended. If Caruth or Developer prevail in such a claim, impact fees shall be applied to the development of the Property and paid by Caruth or the Developer, as applicable, in accordance with the court order.

DRAFT ORDINANCE 12.04.2017

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Pat Atkins, *Saddlestar Land Development*

AGENDA ITEM: **Z2017-052**; *The Enclave (AG, C & HC to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [*SH-205*] and Mims Road, and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on May 19, 1986 by *Case No. A1986-005* (*Ordinance No. 1986-37*). The *subject property* is currently zoned Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts, with the Agricultural (AG) District being located east of Mims Road, the Commercial (C) District designation being located adjacent to Mims Road and S. Goliad Street [*SH-205*] and the Heavy Commercial (HC) District designation being located on the interior of the *subject property*. In 2016, the Texas Department of Transportation (TXDOT) established a staging area for the SH-205 improvements at the southwestern corner of the subject property (*i.e. at the corner of Mims Road and S. Goliad Street*).

On October 13, 2017, the applicant -- *Pat Atkins of Saddlestar Land Development* -- submitted an application requesting to rezone the property from Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts to a Planned Development District for single-family, townhome and commercial land uses. Based on the concept plan, this will establish a horizontal mixed use development with commercial/retail on the northwest quadrant of S. Goliad Street and Mims Road, while transitioning to a 198 lot townhome (*i.e. 22' x 75' min. lot size*) development and continuing west to a 65 single-family lot (*i.e. 50' x 120' min. lot size*) development creating the Planned Development District.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the west side of S. Goliad Street [*SH-205*] at the northwest corner of the intersection of S. Goliad Street [*SH-205*] and Mims Road. A more detailed description of the adjacent land uses is as follows:

North: Directly north of the subject property is a vacant, 24.818-acre tract of land zoned Heavy Commercial (HC) and Commercial (C) District. This property is owned by Rayburn Electric Cooperative, Inc. Beyond this are industrial/office/warehouse facilities for Rayburn Electric Cooperation and S&A Systems, and a trucking facility owned by Transam Trucking. These properties are zoned Heavy Commercial (HC), Planned Development District 43 (PD-43), and Planned Development District 44 (PD-44).

South: Directly south of the subject property is Mims Road, which is identified as a M4U (*major collector, four [4] lane, undivided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this thoroughfare is a 140.50-acre tract of land (*i.e. Tract 3 of the G. Wells Survey, Abstract No. 219*) that is zoned Agricultural (AG) District. Also south of Mims Road are several industrial buildings zoned Heavy Commercial (HC) District.

East: Directly east of the subject property is S. Goliad Street [*SH-205*], which is identified as a TXDOT 6D on the City's Master Thoroughfare Plan. Beyond this thoroughfare is Hickory Ridge, Phase 1, which is a 139-lot single-family subdivision, zoned Planned Development District 10 (PD-10).

West: Directly west of the subject property is Highland Meadows, Phase 1, which is a 101-lot single-family subdivision, zoned Single Family 7 (SF-7) District. Beyond this are additional phases of the Highland Meadows and Lynden Park Estates subdivisions.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan and development standards outlining the proposed development. The concept plan shows that an approximately 5.30-acre tract of commercial/retail land -- *identified as Tract 1 on the concept plan* -- will be situated at the hard corner of Mims Road and S. Goliad Street. North and west of the non-residential land uses will be a 16.89-acre tract of land designated for 198, 22' x 75' townhome lots. This is identified as *Tract 2* on the concept plan. Parking for the townhomes will be to the rear of the properties. Additionally, niche parking will be located at the front of the townhomes. East of the townhomes is *Tract 3* on the concept plan, which is composed of a 12.60-acre tract of land and a 2.21-acre tract of land reserved for the construction of 65 single-family home lots that will measure 50' x 150'. This portion of the development will be located adjacent to the Highland Meadows Subdivision.

In addition, the concept plan shows that approximately 21.5-acres of open space will be provided; however, staff should note that the majority of this open space is situated within existing floodplain and would only count at a rate of ½-acre for every acre (*i.e. 50%*) of the 20% open space requirement. The floodplain totals 17.6-acres and will equate to 8.8-acres total open space based on the 50% maximum allowed by the UDC; therefore, the adjusted acreage of open space for the development will equal 12.7-acres (*i.e. 19.9%*) and require a *waiver* to the Unified Development Code (UDC) for not meeting the minimum 20% requirement. Additionally, the applicant has indicated an amenity center at the northeast quadrant, and a proposed eight (8) foot hike and bike trail along the outer edge of the development, which provides access to SH-205 and Mims Road and is generally in conformance with the City Master Trail Plan. A summary of the proposed density and dimensional requirements for the single-family and townhome lots are as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
Tract 2	22' x 75'	1,650 SF	198	75.29%
Tract 3	50' x 120'	6,000 SF	65	24.71%
		Maximum Permitted Units:	*263*	*100.00%*

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***Tract 2***	***Tract 3***
Minimum Lot Width [1]	22'	50'
Minimum Lot Depth	75'	120'
Minimum Lot Area	1,650 SF	6,000 SF
Minimum Front Yard Setback [2]	5'	20'
Minimum Side Yard Setback	0'	5'

Minimum Side Yard Setback (Adjacent to a Street) [2]	5'	10'
Minimum Length of Driveway Pavement	20'	20'
Maximum Height [3]	35'	35'
Minimum Rear Yard Setback [4]	5'	10'
Minimum Area/Dwelling Unit (SF)	1,600 SF	2,000 SF
Maximum Lot Coverage	90%	70%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.
[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the structure.
[4]: As measured from the rear yard property line.

Staff should note that the requested overall density for this development would be 4.50-dwelling units per acre (*i.e. 263-units/63.72-acres – 5.30-commercial acres = 4.50 dwelling units/acre*), with the density of *Tract 2* (*i.e. the Townhomes*) being an estimated 7.50-dwelling units per acre and the density of *Tract 3 (i.e. Single-Family Residential)* being an estimated 2.68 dwelling units per acre.

On *Tract 1* the applicant is requesting limited General Retail (GR) District land uses. Specifically, the applicant is proposing to prohibit the following land uses, which are currently permitted *by-right* or by Specific Use Permit (SUP) within the General Retail (GR) District:

- ☑ Convent or Monastery
- ☑ Hotel or Motel
- ☑ Hotel, Residence
- ☑ Cemetery/Mausoleum
- ☑ Mortuary or Funeral Chapel
- ☑ Social Service Provider
- ☑ Billiard Parlor or Pool Hall
- ☑ Carnival, Circus, or Amusement Ride
- ☑ Commercial Amusement/Recreation (*Outside*)
- ☑ Garden Supply/Plant Nursery
- ☑ Gun Club, Skeet or Target Range (*Indoor*)
- ☑ Astrologer, Hypnotist, or Psychic Art and Science
- ☑ Night Club, Discotheque, or Dance Hall
- ☑ Secondhand Dealer
- ☑ Car Wash, Self Service
- ☑ Retail Store with Gasoline Product Sales (*Any Amount of Dispensers*)
- ☑ Service Station
- ☑ Mining and Extraction (*Sand, Gravel, Oil & Other*)
- ☑ Helipad
- ☑ Railroad Yard or Shop
- ☑ Transit Passenger Facility

This property would be subject to the density and development standards for the General Retail (GR) District and the SH-205 Overlay (SH-205 OV) District. Following is a summary of the proposed density and development standards for this development:

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Area	*6,000 Sq. Ft.*
Minimum Lot frontage	*60-Feet*
Minimum Lot Depth	*100-Feet*
Minimum Front Yard Setback	*15-Feet*
Minimum Rear Yard Setback	*10-Feet*[1]
Minimum Side Yard Setback	*10-Feet*[2]
Maximum Building Height	*36-Ft w/o SUP*[3]
Max Building/Lot Coverage	*40%*

Ordinance Provisions	*Zoning District Standards*
Minimum Masonry Requirement	*90%*
Floor Area Ratio	*2:1*
Minimum Number of Parking Spaces	*28*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*
Minimum Landscaping Percentage	*15%*
Maximum Impervious Coverage	*85 to 90%*

CONFORMANCE WITH THE UNIFIED DEVELOPMENT CODE AND CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*). Currently, the applicant is requesting to allow 100% *Flat Front Entry* garages (*i.e. even with the front façade of the primary structure*) in lieu of alleyways, *J-Swing* and/or recessed garage formats.

- ☑ According to Section 1.2.B Open Space Standards, of Nature of PD Districts and Minimum Standards, of Article X, Planned Development Regulations, of the Unified Development Code (UDC), states:

    - *Public and private open space. Unless otherwise provided by the PD ordinance, a minimum of 20 percent of the gross land area within the entire PD District shall be devoted to open space, except where a floodplain exists in the proposed development in which case the dedicated floodplain shall be allowed to count for up to 50 percent of the 20 percent open space requirement, and shall be consistent with the open space requirements of the city's parks and open space plan. Open space for PD Districts may be satisfied by either public or by a combination of public and private open space. Open space requirements specified in this subsection are in addition to requirements for site landscaping and buffering. Public open space shall be dedicated to the city.*

  The applicant is proposing a total of 12.7-acres of open space (*i.e. 19.9%*), which is primarily flood plain. It should be noted that if the floodplain were calculated at 100% (*as opposed to 50%*) the development would exceed the minimum 20% requirement. With this being said, the proposed open space standard is a discretionary decision for the City Council.

By approving the proposed Planned Development District, the City Council is waiving these standards. Attached to this case memo is a draft ordinance for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The *subject property* is zoned for Agricultural (AG), Commercial (C) and Heavy Commercial (HC) land uses. The Future Land Use Map, adopted with the Comprehensive Plan, designates the majority of the *subject property* for *Commercial/Industrial* land uses and a portion of *Tract 3 (i.e. 2.21-acres) located east of Mims Road* for *Medium Density Residential* land uses. The proposed zoning change would necessitate that the designation of *Tract 1* be changed from a *Commercial/Industrial* designation to a *Commercial* designation, *Tract 2* be changed from a *Commercial/Industrial* designation to a *High Density Residential* designation, and a portion of *Tract 3*

(i.e. 12.60-acre) from a *Commercial/Industrial* designation to a *Medium Density Residential* designation. The 2.21-acre portion of *Tract 3,* located east of Mims Road, would maintain its current designation as *Medium Density Residential*.

With regard to *Tract 1*, and according to the Comprehensive Plan, a *Commercial* land use is defined as an area "where commercial is indicated at the intersection of major roadways and development have not occurred." The Comprehensive Plan goes on to state that "(z)oning should only be allowed where the commercial use is eminent and where it would be planned and integrated with the adjacent residential neighborhoods. Furthermore, the Comprehensive Plan states "(t)he amount of retail and the size of the area to be designated for commercial or mixed use development may be large or small depending on the service area it will serve and the style and quality of development." In this case, the proposed development is adjacent to heavy commercial and single-family residential land uses, which is east of the *subject property* and buffered by S. Goliad Street. These existing land uses may warrant a transition of land uses.

With regard to *Tract 2,* and according to the Comprehensive Plan, a *High Density Residential* land use is defined as any development that exceeds three (3) units per gross acre. In this case, the density of the proposed townhome use is at 7.5-units per gross acre. The Comprehensive Plan goes on to state that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or existing retail*) use, or where it will serve as a logical extension of an existing high density development". In this case, the proposed development is adjacent to the proposed commercial/retail land use. Townhomes "should differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback."

With regard to *Tract 3*, and according to the Comprehensive Plan, a Medium Density Residential land use is defined as an area consisting of residential developments "that have typically been built in Rockwall. They may be 2-3 units per acre, but generally about 3 units per acre." In this case, the density of the proposed single-family lots is at 2.68-units per gross acre. The zoning proposal conforms to the majority of the residential policies and guidelines contained in the Comprehensive Plan for a single-family residential development and the *Medium Density Residential* land use.

With regard to the overall development, the applicant's proposal of a townhome product provides a transition between the commercial/retail land use and the proposed single-family residential home lots. With this being said, the approval of any changes to the Future Land Use Map or the approval of an increased density would be a discretionary decision for the City Council. Should the City Council choose to approve the applicant's request staff has included a condition of approval that would amend the Future Land Use Map to reflect the requested designations.

NOTIFICATION:

On October 27, 2017, staff mailed 160 notices to property owners and residents within 500-feet of the *subject property*. Staff also sent a notice to the Flagstone Estates, Lynden Park, Hickory Ridge, and Hickory Ridge East Homeowner's Association (HOA), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the *subject property*. Additionally, staff posted a sign along S. Goliad Street -- *adjacent to the subject property* -- as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received two (2) notices opposed to the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District, Commercial (C) District, and Heavy Commercial (HC) District to a Planned Development District for limited General Retail (GR) District, Single-Family 7 (SF-7) District and Townhome land uses, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of *Tract 1* from a *Commercial/Industrial* designation to a *Commercial* designation, *Tract 2* from a *Commercial/Industrial* designation to a *High Density Residential* designation, and a portion of *Tract 3 (i.e. 12.60-acre)* from a *Commercial/Industrial* designation to a *Medium Density Residential* designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Neighborhood Notification Program: Notice of zoning request
Attachments: PUBLIC NOTICE.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***October 27, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 11/14/2017at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 11/20/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-052- Zoning Change C & HC to PD**
> **Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-052: The Enclave (C and HC to PD)

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/14/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 11/20/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **11/20/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Subject: RE: Proposed Zoning Change -- Case No. Z2017-052: The Enclave

I plan to attend the P&Z meeting on the 14th but, in reading the instructions again, it looks like I need to email my comments to the Planning Department in general.

Rayburn's address is 950 Sids Road, Rockwall. We own almost all of the property that will be immediately to the north of the proposed subdivision. As described below, we are not currently taking a position on the proposed development but we would like to ensure there are sufficient security measures between us.

Thanks.

Subject: Proposed Zoning Change -- Case No. Z2017-052: The Enclave

Good afternoon Ryan,

We received the notice of the zoning change regarding the property to the south of us. While Rayburn is not necessarily opposed to the development, we do have security concerns with our shared property line. With the various regulatory and compliance requirements we have, we will need to make sure that there is a sufficient barrier between our properties to minimize our security concerns. We are already in the process of constructing a wrought iron fence; however, for a planned development, that may not be sufficient. We would like to visit with the developer to try and address these concerns.

I can attend the PNZ meeting if that would be the best course of action; however, I wasn't sure the proper way to voice our concerns.

Thanks.

DEVELOPMENT OUTLINE

The property consists of 63.72 Acres of Land, adjacent to S.H 205 a 120' Major Thoroughfare, also Mims Road a 65' Major Collector , South of and adjacent to Buffalo Creek consisting of 19 acres of open space. The property is sparsely vegetated on the southern 63 acres with native tree's. The Planned Development will create a pedestrian oriented neighborhood allowing for residential access to retail office and opens pace amenity areas. New homes construction will range from $250K Enclave Villas Townhouse and Enclave Urban Housing $350k and up. The homes will be marketed towards young families, young professionals and empty nesters lifestyle. Creating an additional 129 million dollars to the City of Rockwall tax base. There will be a Master H.O.A. required within the development of the property. We are excited to bring this upscale residential retail-office development to this area which surpasses expectations required in your Comprehensive Master Plan . A master trail system , along with the required Landscape Buffer along S.H. 205 , Mims Road and Buffalo Creek will be implemented which will encourage pedestrian access to all uses.

DESCRIPTION

All that certain lot, tract or parcel of land situated in the W. H. BARNES SURVEY, ABSTRACT NO. 26, City of Rockwall, Rockwall County, Texas, and being part of that tract of land as described in a deed to Edward B. Tomlinson II recorded in Volume 173, Page 984 of the Deed Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner in the Southwest right-of-way of State Highway 205, at the intersection of the North line of a 20' sanitary sewer easement to the City of Rockwall, Texas, and being in the Northeast line of said Tomlinson tract, said point bears S. 29 deg. 35 min. 09 sec. E., 293.84 feet, S. 58 deg. 34 min. 49 sec. W., 8.85 feet and S. 29 deg. 47 min. 09 sec. E., 207.26 feet from a fence corner post at the East corner of a tract of land as described in a Deed to Kip Estep, as recorded in Volume 1098, Page 164 of the Real Property Records of Rockwall County, Texas;

THENCE S. 29 deg. 47 min. 09 sec. E. along said right-of-way line, a distance of 92.89 feet to a 3/8" iron rod found for corner;

THENCE N. 53 deg. 03 min. 52 sec. E. along said right-of-way line, a distance of 9.20 feet to a concrete highway monument found for corner;

THENCE S. 29 deg. 52 min. 01 sec. E. (CONTROLLING BEARING LINE) along said highway a distance of 447.12 feet to a concrete highway monument found for corner;

THENCE in a Southeasterly direction along a curve to the left having a central angle of 10 deg. 37 min. 17 sec., a radius of 5779.90 feet, a tangent of 537.25 feet, a chord of S. 34 deg. 56 min. 28 sec. E. 1069.88 feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner on the Southeast margin of Mims Road at the Southeast corner of said Tomlinson tract;

THENCE S. 89 deg. 58 min. 37 sec. W. along the South margin of Mims Road, a distance of 1352.05 feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner;

THENCE N. 89 deg. 07 min. 24 sec. W. along the South margin of Mims Road, a distance of 1324.28 feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner;

THENCE N. 89 deg. 01 min. 20 sec. W. a distance of 1560.85 feet to a 1/2" iron rod found for corner;

THENCE N. 45 deg. 13 min. 31 sec. E. a distance of 1133.75 feet to 1/2" iron rod found in a creek for corner and being in the Southwest margin of Mims Road;

THENCE S. 53 deg. 21 min. 21 sec. E. a distance of 183.64 feet to a 1/2" iron rod found for corner in the center of Mims Road

THENCE S. 42 deg. 05 min. 37 sec. E. along the center of Mims Road, a distance of 353.08 feet to an "X" set in concrete bridge for corner at the South corner of a 1.54 acres tract of land as described in a Deed to Richard Slaughter as recorded in Volume 1531, Page 145 of the Real Property Records of Rockwall County, Texas;

THENCE N. 43 deg. 52 min. 17 sec. E. a distance of 97.27 feet to a 1/2" iron rod found for corner;

THENCE along the Northeast line of a 20' sanitary sewer easement to the City of Rockwall, Texas, as recorded in Volume 1825, Page 143, of the Real Property Records of Rockwall County, Texas, as follows:

S. 42 deg. 00 min. 04 sec. E. a distance of 84.73 feet to a 1/2" iron rod found for corner;

N. 80 deg. 40 min. 17 sec. E. a distance of 276.11 feet to a 1/2" iron rod found for corner;

N. 72 deg. 31 min. 33 sec. E. a distance of 1106.75 feet to a 1/2" iron rod found for corner;

N. 73 deg. 54 min. 13 sec. E. a distance of 356.75 feet to a 1/2" iron rod found for corner;

N. 37 deg. 15 min. 36 sec. E. a distance of 537.91 feet to the POINT OF BEGINNING and containing 63.72 acres of land, of which 5.0 acres lies within the margins of Mims Road and approximately 21 acres lies within the 100 year flood plain, leaving a net area of 40.82 acres of land.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map, Community Panel No. 480547 0005 C dated June 16, 1992, this property lies in Zone X & A. Part of this property does appear to lie within a 100-year flood plain.

2) BEARING SOURCE: RECORDED DEED IN VOL. 173, PG. 984, D.R.R.C.T.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "R.S.C.I. RPLS 5034."

4) THE FOLLOWING EASEMENT DO NOT LIE ON THIS TRACT: (i) V. 51, PG. 108 (ii) V. 88, PG. 211 (iii) V. 107, PG. 374

SURVEYOR'S CERTIFICATE

I, Harold D. Fetty, III, Registered Professional Land Surveyor No. 5034, do hereby certify that the above plat of the property surveyed for HERITAGE TITLE and VINCENT J. STAGLIANO at STATE HIGHWAY 205 & MIMS ROAD, ROCKWALL County, Texas, is the result of a careful collection of the best evidence available to me and my opinion is based on the facts as found at the time of survey. This survey meets the requirements of the Minimum Standards of Practice as approved and published by the Texas Board of Professional Land Surveying, effective September 1, 1992 and subsequent revisions, and the same was surveyed under my supervision on the ground this the 9th day of April, 2004.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Z2017-054: Text Amendment to Article IX, *Tree Preservation*, of the UDC

At staff's request, the City Council remanded *Case No. Z2017-054* back to the Planning and Zoning Commission on November 20, 2017. The purpose of this request was to allow staff more time to review *HB007* to ensure compliance to all new requirements, and to ensure the City Attorney had proper time to review the amendment prior to adoption. As a result of this review, staff has made some minor changes to the ordinance and sent the revisions to the City Attorney. Due to the holiday, the City Attorney's comments are not included in the attached packet; however, staff will provide a hard copy to the Planning and Zoning Commission at the meeting on Tuesday, November 28, 2017. Attached to this memorandum is a copy of staff's proposed changes and an updated draft ordinance. The projected City Council public hearing will be held on December 4, 2017 pending a recommendation from the Planning and Zoning Commission.

H.B. No. 7

AN ACT

relating to municipal regulation of the removal of trees on private property.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter Z, Chapter 212, Local Government Code, is amended by adding Section 212.905 to read as follows:

Sec. 212.905. REGULATION OF TREE REMOVAL. (a) In this section:

(1) "Residential structure" means:

(A) a manufactured home as that term is defined by Section 1201.003, Occupations Code;

(B) a detached one-family or two-family dwelling, including the accessory structures of the dwelling;

(C) a multiple single-family dwelling that is not more than three stories in height with a separate means of entry for each dwelling, including the accessory structures of the dwelling; or

(D) any other multifamily structure.

(2) "Tree mitigation fee" means a fee or charge imposed by a municipality in connection with the removal of a tree from private property.

(b) A municipality may not require a person to pay a tree mitigation fee for the removed tree if the tree:

(1) is located on a property that is an existing one-family or two-family dwelling that is the person's residence; and

(2) is less than 10 inches in diameter at the point on the trunk 4.5 feet above the ground.

(c) A municipality that imposes a tree mitigation fee for tree removal on a person's property must allow that person to apply for a credit for tree planting under this section to offset the amount of the fee.

(d) An application for a credit under Subsection (c) must be in the form and manner prescribed by the municipality. To qualify for a credit under this section, a tree must be:

(1) planted on property:

(A) for which the tree mitigation fee was assessed; or

(B) mutually agreed upon by the municipality and the person; and

(2) at least two inches in diameter at the point on the trunk 4.5 feet above ground.

(e) For purposes of Subsection (d)(1)(B), the municipality and the person may consult with an academic organization, state agency, or nonprofit organization to identify an area for which tree planting will best address the science-based benefits of trees and other reforestation needs of the municipality.

(f) The amount of a credit provided to a person under this section must be applied in the same manner as the tree mitigation fee assessed against the person and:

(1) equal to the amount of the tree mitigation fee assessed against the person if the property is an existing one-family or two-family dwelling that is the person's residence;

(2) at least 50 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is a residential structure or

pertains to the development, construction, or renovation of a residential structure; and

(B) the person is developing, constructing, or renovating the property not for use as the person's residence; or

(3) at least 40 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is not a residential structure; or

(B) the person is constructing or intends to construct a structure on the property that is not a residential structure.

(g) As long as the municipality meets the requirement to provide a person a credit under Subsection (c), this section does not affect the ability of or require a municipality to determine:

(1) the type of trees that must be planted to receive a credit under this section, except as provided by Subsection (d);

(2) the requirements for tree removal and corresponding tree mitigation fees, if applicable;

(3) the requirements for tree-planting methods and best management practices to ensure that the tree grows to the anticipated height at maturity; or

(4) the amount of a tree mitigation fee.

(h) A municipality may not prohibit the removal of or impose a tree mitigation fee for the removal of a tree that:

(1) is diseased or dead; or

(2) poses an imminent or immediate threat to persons or property.

(i) This section does not apply to property within five miles of a federal military base in active use as of December 1, 2017.

SECTION 2. The changes in law made by this Act apply only to a tree mitigation fee assessed by a municipality on or after the effective date of this Act.

SECTION 3. This Act takes effect December 1, 2017.

_____ _____

President of the Senate Speaker of the House

I certify that H.B. No. 7 was passed by the House on July 28, 2017, by the following vote: Yeas 130, Nays 9, 1 present, not voting; and that the House concurred in Senate amendments to H.B. No. 7 on August 15, 2017, by the following vote: Yeas 119, Nays 23, 1 present, not voting.

_____

Chief Clerk of the House

I certify that H.B. No. 7 was passed by the Senate, with amendments, on August 15, 2017, by the following vote: Yeas 17, Nays 14.

_____

Secretary of the Senate

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. *Purpose.*

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the constructions process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.~~ ~~The purpose of this [this article], the tree preservation ordinance, is to ensure for the preservation of mature, healthy trees and natural areas and to consider protected trees during the design of streets, alleys, utilities, drainage and proposed structures that are part of any development and to require replacement of trees when removal is necessary. It is intended to protect trees during construction, development and redevelopment, and to control the removal of protected trees when necessary. It also establishes rules for replacement and replanting of trees that have been necessarily removed during construction. The [article] shall protect any property from indiscriminate clearing and maintain and enhance a positive image as well as attract new business enterprises to the city.

Section 1.2. Applicability.

The terms and provisions of this article ***shall*** apply to all real property within the City's corporate limits ***that meets one (1) of the following criteria ~~as follows~~***:

1. ***~~All new subdivisions of land at the time of preliminary and or final platting;~~ The establishment of a new subdivision of land.***
2. ***~~All replatting of undeveloped land;~~ The replatting of undeveloped land for the purpose of combining and/or subdividing real property.***
3. ***~~All unplatted and undeveloped residential tracts of land greater than three acres;~~ The development of a residential tract of land that is greater than or equal to three (3) acres.***
4. ***~~All unplatted and undeveloped nonresidential tracts of land greater than one acre;~~ The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.***
5. ***~~All nonresidential parcels of land at the time of site plan approval.~~ A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.***

~~Section 1.2. Plan Required.~~

~~No person, directly or indirectly, shall cut down, destroy, remove or move or effectively destroy through damaging, any protected or feature tree situated on a property regulated by this [article] without first submitting and receiving approval of a treescape plan unless otherwise specified in this [article].~~

~~Section. 1.3. Builders/Contractors.~~

~~All builders/contractors should verify if there is a treescape plan approved on a parcel of land before work begins. All builders/contractors who have not submitted a request for a building permit as of the effective date of the ordinance [from which this article is derived] are subject to the requirements herein.~~

~~Section 2. Exemptions~~

Section 1.3. Exemptions.

~~Tree protection and replacement requirements shall not be required if the following conditions exist.~~ The terms and provisions of this article shall not apply if the following conditions exist:

~~A.~~1. *Agricultural* ***Property***. Property zoned Agricultural (AG) ***District*** and being actively used for agricultural purposes shall be exempt from the requirements ***specified by this article ~~herein.~~; however, ~~C~~***clear-

cutting of land~~, as defined herein,~~ **on property** zoned Agricultural (AG) **District** that is not being actively used for agricultural purposes is prohibited.

~~B.~~2. *Damaged/Diseased Trees.* **If a certified arborist establishes that the ~~The~~** tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling **the tree maybe removed**.

~~C.~~3. **Residential Property ~~Homeowners~~.** The owner of a **~~residence~~ property with an existing single-family home** shall be exempt from the tree protection and replacement requirements **specified by this article ~~of this [article]~~** as it pertains to that property on which the home is located.

~~D.~~4. *Public Safety.* **If the City determines that a ~~The~~** tree **or trees** create**~~s~~** unsafe vision clearance or conflicts with other ordinances or regulations, or the tree **or trees are ~~is~~** determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare **of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance**.

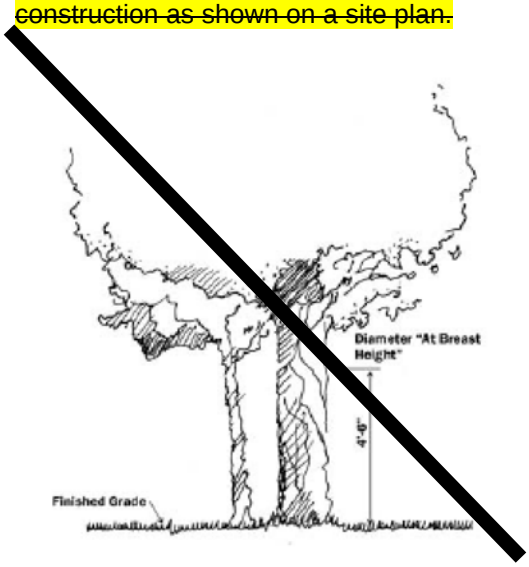
~~E.~~5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree **that ~~which~~** is found necessary to be removed to reestablish and maintain the utility service.

~~F.~~6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this **article ~~[article]~~** when establishing distribution and transmission lines. When establishing new utility service, services should **be** routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of **a** protected **of feature** tree**~~s~~**. All right**~~s~~**-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements **~~in~~ of** this **article ~~[article]~~**.

~~G.~~7. *Public Property.* All right**~~s~~**-of-way, easements or similar types of public property maintained by the city shall not be subject to **the terms and provisions of this article. ~~tree protection or replacement requirements in this [article].~~**

Section **~~3.~~ 2.** Definitions.

~~*Buildable Area.* That portion of a building site exclusive of the required yard areas on which a structure or building improvements may be erected and including the actual structure, driveway, parking lot, pool and other construction as shown on a site plan.~~



~~*Building Pad.* The actual foundation area of a building and a reasonable area around the foundation necessary for construction and grade transition.~~

~~*Construction Drawings.* Engineering or architectural drawings which have been prepared by an authorized individual and approved by the authorized authority, that describe in detail by measurements and specifications the method and manner in which a building, structure, utility, street or physical alteration to land or structure is to be accomplished.~~

Critical Root Zone (CRZ). The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than **a** one **(1)** foot radius for each one **(1)** inch DBH.

Clear-Cutting. The removal of all trees or a significant majority of the trees within an area.

Diameter at Breast Height (DBH). The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

Drip Line. A vertical line run***ning*** through the outermost portion of the crown of a tree and extending down to the ground.

Feature Tree. Any ~~***oak, pecan or elm***~~ ***tree -- excluding non-protected trees --*** that has a DBH of ***greater than 25-inches*** ~~***four inches or greater or any tree that has a dbh of 30 inches or greater***~~. Feature Trees may not be removed without approval of the Planning and Zoning Commission. ~~***Feature Trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry.***~~

Limits of Construction. A delineation on the Treescape Plan ~~***which***~~ ***that*** shows the boundary of the area within which all construction activity will occur.

Non-Protected Tree. All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

Primary Protected Tree. Any tree -- excluding non-protected trees and Hackberry and Cedar trees -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

Protective/Temporary Fencing. Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four ***(4)*** foot approximate height. The Director of Planning and Zoning or his***/her*** designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

Replacement Tree. A tree from the ***Reclamation/Tree Preservation*** ~~***replacement tree***~~ list ***contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code*** with a minimum caliper size of three ***(3)*** inches and height of seven ***(7)*** feet. For the purpose of determining size***,*** replacement trees should be measured at ~~***DBH a point six inches above the ground***~~.

Secondary Protected Tree. Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

Tree. Any self-support***ed*** ~~***ing***~~ woody perennial plant ***that*** ~~***which***~~ will attain a trunk diameter of three ***(3)*** inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one ***(1)*** main stem or trunk and many branches. ~~***It may appear to have stems or trunks as in several varieties of oaks.***~~

~~***Tree, protected. A tree which has a diameter of four inches dbh or larger. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at dbh to one-half the diameter of each additional trunk. Protected or feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry. In addition, Hackberry and Cedar trees that are less than 11 inches dbh shall not be considered a protected tree.***~~

~~***Treescape plan. A graphic representation drawn to the largest scale practical showing the exact location, size (trunk diameter and height) and common name of all protected and feature trees and indication of which trees are to be removed and or replaced. The treescape plan should include the following:***~~

1. ~~***Location of all existing or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to property lines.***~~
2. ~~***Setback and yard requirements.***~~
3. ~~***Existing and proposed site elevations, grades, major contour and limits of construction.***~~
4. ~~***Location of existing or proposed utilities and easements.***~~
5. ~~***Location of all protected trees and trees to be removed from the site and the location of all replacement trees.***~~
6. ~~***Columnar listing of all protected trees by species, location key shown on the plat, diameter breast height (dbh), physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.***~~
7. ~~***Title block stating street address, lot and block, subdivision name, and date.***~~

~~*8. Name, address, and phone number of person preparing the plan.*~~

Section ~~*4.*~~ *3.* ~~*Plan Review and Approval.*~~ *Treescape Plan.*

Section 3.1. Treescape.

A Treescape Plan is a plan showing the exact location, size (i.e. trunk diameter and height), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A Treescape Plan shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. ***The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.***
2. ***The building setbacks.***
3. ***All existing and proposed site elevations, grades, major contour lines and the limits of construction.***
4. ***The location of all existing or proposed utilities and easements.***
5. ***The location of all protected and feature trees.***
6. ***The location of all trees to be removed from the site and the location of all replacement trees.***
7. ***A spreadsheet indicating all trees by species, location key shown on the Treescape Plan, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.***
8. ***A title block stating street address, lot and block, subdivision name, date and project number.***
9. ***The name, address, and phone number of person preparing the plan and the developer/property owner.***

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a Treescape Plan unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, Violations.

Staff may administratively approve any Treescape Plan or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for Treescape Plans shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a Treescape Plan conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A Treescape Plan may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section ~~*4.1.*~~ *3.4.* ~~*Authority of Review and Approval.*~~ *Treescape Plan Review Process.*

The Director of Planning ***and Zoning,*** or his***/her*** designee***, shall*** ~~***will***~~ review the Treescape Plan ***and approve the plan per the requirements of this article***, ***or forward any*** ~~***report and make***~~ recommendations to the Planning and Zoning Commission. As part of the Treescape Plan review ***process***, the city has the right to request changes or adjustments in the layout and design of ***a*** ~~***the***~~ development to save ~~***protected and feature***~~ trees. The Planning and Zoning Commission will review and approve or disapprove the Treescape Plan. The decision of the Planning and Zoning Commission may be appealed to the City Council.

~~***Section 4.2. Treescape Plan Application Required/Application Process.***~~

~~***Consideration of a treescape plan shall be obtained by making application to the director of community development or his designee. The application and treescape plan shall be accompanied by a written***~~

~~*document indicating the reasons for removal of any protected trees. The required treescape plan will accompany all preliminary plats, final plats, site plans and landscape plans. In those instances where very few protected trees exists on a property, the treescape plan can be incorporated and shown on the preliminary plat, site plan or landscape plan and the fee can be waived at the discretion of the staff.*~~

~~*Section 4.3. No Protected Trees.*~~

~~*For property being platted or site planned, the property owner may submit a letter certifying that there are no protected trees on the property. This letter will be submitted with the understanding that if it is determined that there are protected trees on the property, the violation provisions and fines adopted as part of this [article] will be in full force and effect.*~~

~~*Section 4.4. Appeals.*~~

~~*Decisions of the planning and zoning commission may be appealed to the city council.*~~

Section ~~*4.5.*~~ *3.5.* Treescape Plan Expiration.

A Treescape Plan~~*s*~~ shall be valid for two *(2)* years ~~*from after*~~ the approval date. *A* Treescape Plan~~*s which are that is*~~ approved in conjunction with *a* preliminary plat~~*s*~~, final plat~~*s*~~, site plan~~*s*~~, *and/*or building permit~~*s*~~ shall be valid for the same amount of time as ~~*those the*~~ corresponding plan~~*s*~~ and*/or* permit~~*s*~~.

Section ~~*4.6.*~~ *3.6.* ~~*Building Permit.*~~ *Builder/Contractor Responsibility.*

~~*All builders/contractors should determine if there is an approved treescape plan before work begins on a parcel. The city will verify this statement. No building permit shall be issued unless the applicant signs an application for permit request which states that all construction activities shall meet the requirements of the tree preservation ordinance. Before issuing the building permit, the city shall obtain a signature from applicant acknowledging receipt of the tree preservation ordinance.*~~

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved Treescape Plan prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section ~~*5.*~~ *4.* Tree Removal Permit.

~~*Section 5.1. Tree Removal Permit.*~~

Once a Treescape Plan *has been* ~~*is*~~ approved *for a property*, a *Tree Removal Permit* will be required *to remove any tree(s).* ~~*under the following conditions:*~~

~~*A. If it is determined by the property owner that a protected tree needs to be removed; except as covered in section 2.C, Exemptions.*~~
~~*B. An addition to an existing nonresidential structure requires that a protected tree be removed.*~~

Tree Removal Permits ~~*will*~~ *may* be approved administratively by the Director of Planning and Zoning or ~~*a*~~ *his/her* designee*, or forwarded on to the Planning and Zoning Commission for approval*. Feature trees may not be removed without *the* approval of the Planning and Zoning Commission. All trees removed through this process will require *mitigation in accordance with the Sections contained in this article* ~~*replacement as described in section 6 below*~~.

Section ~~*6.*~~ *5.* Tree ~~*Replacement and Planting Requirements.*~~ *Mitigation Requirements.*

~~*If it is necessary to remove protected or feature tree(s), the applicant as condition of approval will be required to replace the tree(s) being removed with trees selected from the list of approved trees on the replacement tree list. Replacement trees must be a minimum of three caliper inches measured six inches above the root ball when planted. The following replacement rules apply:*~~

~~*A. Protected tree(s) measuring four inches through 29 inches dbh shall be replaced with caliper inches equal to the total diameters of the tree(s) removed, except as shown in item F below.*~~
~~*B. Protected feature tree(s) (30 inches dbh and larger) if approved for removal will be replaced with twice the number of inches as the tree(s) removed.*~~

~~C. The replacement tree must be maintained in a healthy growing condition for a minimum of two years after planting.~~

~~D. A replacement tree shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines.~~

~~E. No tree shall be planted within five feet of a fire hydrant, water or sewer line.~~

~~F. Hackberry and Cedar trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed. Protected or feature trees shall not include the following species: Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry. In addition, Hackberry and Cedar trees that are less than 11 inches dbh shall not be considered a protected tree.~~

If a Treescape Plan or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed).*
2. *Secondary Protected Trees. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed).*
3. *Featured Trees. Featured trees (i.e. all trees greater than 25-inches) shall be replaced with twice the number of inches being removed (i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed).*
4. *Non-Protected Tree. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.*

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit).*
6. *Mitigation Balance. The Total Mitigation Balance (i.e. mitigation balance – tree preservation credits = total mitigation balance) may be satisfied through one or a combination of the following:*

   (a) The developer/property owner can provide the required number of trees -- three (3) inch caliper DBH minimum -- on the subject property to offset the total mitigation balance (e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements).

   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- three (3) inch caliper DBH minimum -- to offset the total mitigation balance (e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

   (c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches). In addition, if the developer/property owner plants a tree -- that is above and beyond the required landscaping -- on the property for which the tree preservation credit was assessed, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, Landscape Standards, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Settlement Agreements. In certain cases, the City Council -- upon recommendation from the Planning and Zoning Commission -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the City's Tree Mitigation Fund and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

~~Section 7. Tree Replacement Credits.~~

~~Tree replacement credits may be granted to reduce the number of replacement inches required. The following guidelines apply.~~

~~A. Preservation credits. Each saved oak (any type), pecan or elm tree(s) 24 inches dbh or greater will earn a credit. The maximum credit under this provision is 20 percent of the total replacement inches in the development.~~

~~B. Locations for planting replacement trees. The preferred location for the planting of replacement trees is the development from which trees were removed. However, if the site is too small to accommodate the number of replacement trees required, credits can be earned for trees planted elsewhere within the corporate city limits. Credit on an inch-per-inch basis will be granted for trees planted in parks, medians, street rights-of-way, or other areas determined by the parks and recreation department. The location shall be within one mile of the area where the trees are being removed.~~

~~C. Purchase of credits. Tree replacement credits not exceeding 20 percent of the total replacement inches can also be purchased. Payments of $125.00 per caliper inch may be paid to the City of Rockwall Tree Fund. Funds will be used for the planting of trees, but not limited to city parks, medians, and along street rights-of-way more than one mile from the area where the trees are being removed. Replacement credits purchased in a private community development with no public streets or parks can be used for the planting of trees elsewhere in that development.~~

~~D. Types of trees. Replacement trees shall be selected from the following list and shall be a minimum of three caliper inches as measured six inches above the root ball.~~

~~Canopy Trees~~

~~1. Afghan Pine.~~
~~2. Bald Cypress.~~
~~3. Burr Oak.~~
~~4. Caddo Maple.~~
~~5. Cedar Elm.~~
~~6. Chinquapin Oak.~~
~~7. Eastern Red Cedar.~~
~~8. Homestead Elm.~~
~~9. Lace Bark Elm.~~
~~10. Leyland Cypress.~~
~~11. Little Gem Magnolia.~~
~~12. Live Oak.~~
~~13. October Glory Maple.~~
~~14. Pecan.~~
~~15. Red Oak.~~
~~16. Texas Ash.~~
~~17. Texas Red Oak.~~

~~Accent Trees~~

~~1. Desert Willow.~~
~~2. Downy Hawthorn.~~
~~3. Eastern Redbud.~~
~~4. Eve's Necklace.~~
~~5. Mexican Buckeye.~~
~~6. Possumhaw Holly.~~
~~7. Shantung Maple.~~
~~8. Yaupon Holly.~~

~~*(Ord. No. 15-32, § 3, 12-7-2015)*~~

Section ~~*8. 6.*~~ Tree ***Planting and*** Transplanting ***Requirements***.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. ***All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.***
2. ***Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.***
3. ***Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', Landscape Guidelines and Requirements, of the Unified Development Code.***
4. ***All replacement trees shall be a minimum of three (3) caliper inches DBH.***

Section 6.2. Transplanting Trees.

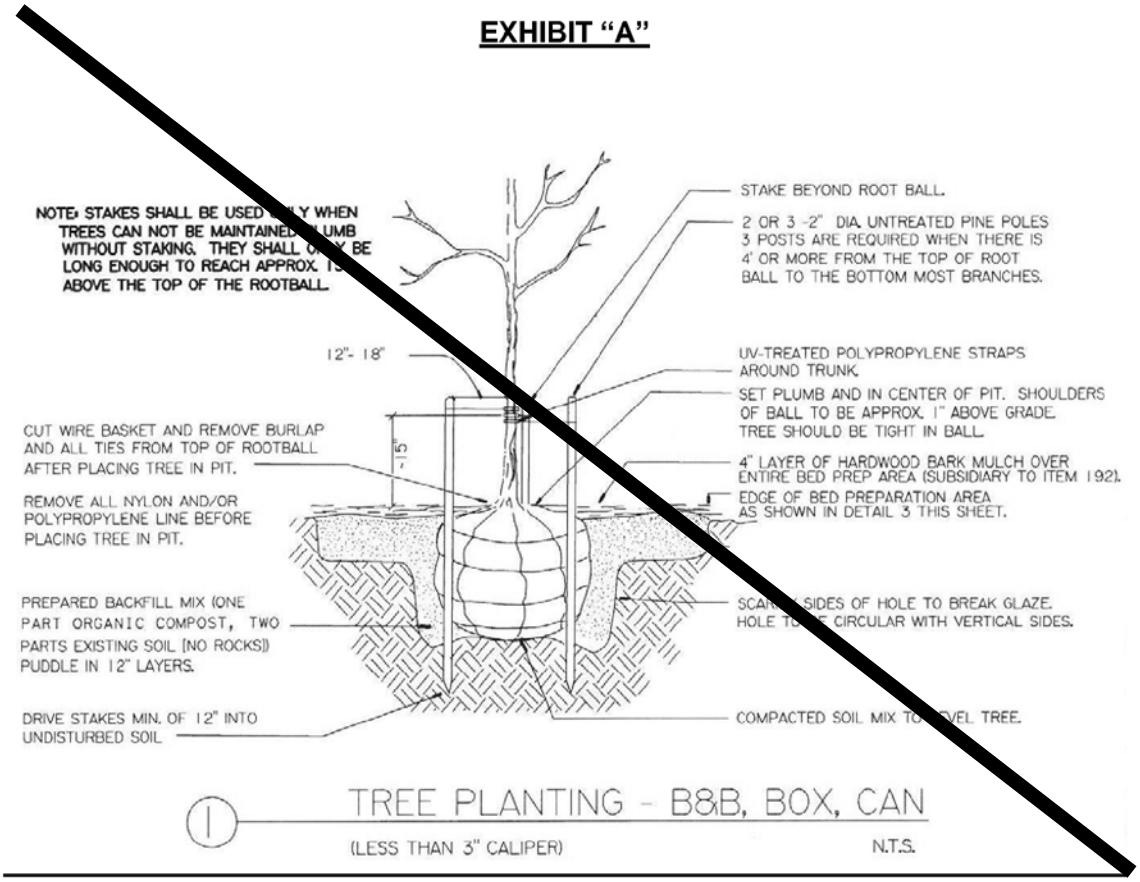
~~***Existing trees of the variety listed in section 7.D above can be transplanted to meet the replacement requirements under the following conditions.***~~

All trees conforming to the species permitted in the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', Landscape Guidelines and Requirements, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

~~***1. Trees of at least three caliper inches but not exceeding six inches dbh are eligible for transplanting.***~~

1. ***All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.***
2. ***All t***ransplanted trees must survive and be ***maintained*** in a healthy condition for a ***minimum*** ~~***period***~~ of two **(2)** years ***from the date of transplanting***. The developer***/property owner*** who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

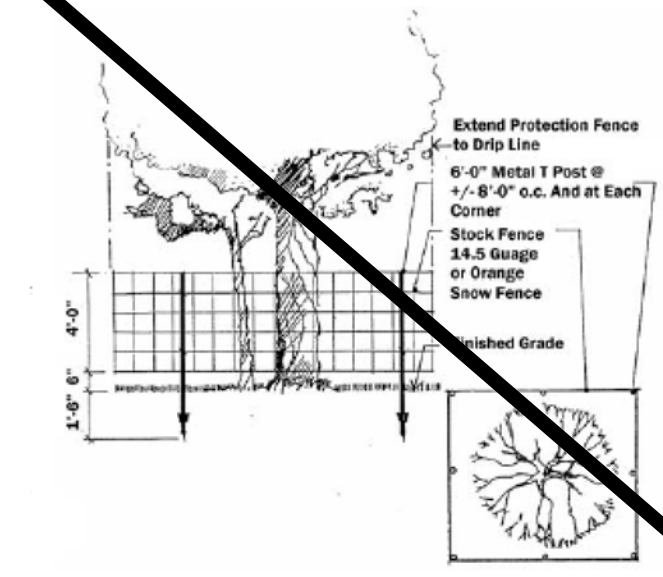
EXHIBIT "A"



(Ord. No. 13-24, § 1, 8-5-2013)

Section ***~~9.~~ 7.*** Tree Protection ***~~Prior To and~~*** During Construction.

Section ***~~9.~~ 7.***1. Tree Protection.



A. Prior to any construction or land development, the developer shall ***clearly*** mark ***all protected and feature trees*** with an aluminum tag ***~~which indicates~~ -- indicating the trees its~~*** relationship to the Treescape Plan ***--*** and ***~~clearly~~*** flag ***~~with~~ (i.e.*** bright fluorescent red vinyl tape***) ~~all protected trees~~***. The red tape should be wrapped around the main trunk of the protected ***and/or feature*** tree at a height of approximately five **(5)** feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

B. ***The developer or p***roperty owner shall be responsible for ***~~protecting~~ preserving all protected and*** feature trees ***during construction. This includes hiring ~~including the use of~~*** an arborist, ***if ~~as~~*** necessary.

Section ***~~9.~~ 7.***2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected ***or featured*** tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of a***ny ~~protected~~*** tree ***scheduled to be preserved on an approve Treescape Plan***. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section ***~~9.~~ 7.***3. Signs.

No signs, wire or other attachments shall be ***~~attached~~ affixed*** to ***~~the~~ any ~~protected~~*** tree***~~s~~ scheduled to be preserved on an approve Treescape Plan.***

Section ***~~9.~~ 7.***4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of a***ny ~~protected~~*** tree ***~~other than on an~~ unless on*** existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section ***~~9.~~ 7.***5. Grade.

No grade change in excess of two ***(2)*** inches shall be allowed within the drip line of any protected ***or featured*** tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two ***[2]*** inches or greater) within the critical root zone of a protected ***or featured*** tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section ***~~9.~~ 7.***6. Tree Flagging.

At the time of submittal of ***~~the~~ a*** Treescape Plan all protected trees ***or feature trees*** should be marked with an aluminum tag which indicates its relationship to the Treescape Plan, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four ***(4)*** feet so that the tape is clearly visible.

Section ***~~9.~~ 7.***7. Boring.

Boring of utilities under protected ***or feature*** trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected ***or feature*** tree. When required, the length of the bore shall be the width of the critical root zone plus two ***(2)*** feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section ***~~9.~~ 7.***8. Damage.

Any physical damage to a tree ***being*** preserved for ***a tree*** credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section ***~~10.~~ 8.*** Tree Pruning.

Section ***~~10.~~ 8.***1. General.

No protected ***or featured*** tree shall be pruned in a manner***~~, which~~ that would*** significantly disfigure***~~s~~*** the tree, or in ***a ~~any~~*** manner ***~~which~~ that*** would ***~~reasonably~~*** lead to the death of the tree.

Section ***~~10.~~ 8.***2. ***~~Permit Requirement.~~ Pruning by Utility Companies.***

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit. ~~***Utility companies shall inform the city of their routine pruning schedules and are encouraged to prune trees in accordance with the National Arborist Association standards for pruning shade trees.***~~

Section ~~***10.***~~ ***8.***3. Allowed Pruning.

A protected ***or featured*** tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected ***or featured*** trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree ***or lead to the death of the tree***.

~~***Section 10.4. Required Pruning.***~~

~~***The owner of all trees adjacent to public rights-of-way shall be required to maintain a minimum clearance of 12 feet above the traveled pavement or curb of a public street. The city shall also have the right to prune trees overhanging the public rights-of-way as necessary to preserve public safety. Trees shall be pruned to allow signs to be seen.***~~

Section ~~***11.***~~ ***9.*** Tree Fund.

Section ~~***11.***~~ ***9.***1. ~~***Tree Fund***~~ Administration ***of the Tree Fund***.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (including the equipment or labor necessary to install the plant materials) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section ~~***11.***~~ ***9.***2. Collection of Money ***for the Tree Fund***.

Money contributed to the tree fund shall be paid prior to the issuance of a~~***ny construction or***~~ building permit and***/or*** prior to ***the*** filing of a Final Plat.

Section ~~***12.***~~ ***10.*** Violation***s***.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this ***article*** ~~***[article]***~~ shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. ~~***A separate offense shall be deemed committed on each day during which a violation occurs.***~~ The unlawful damage, destruction or removal of each ~~***protected***~~ tree shall be considered a separate incident and each ~~***incident***~~ ***offence*** subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this ***article*** ~~***[article]***~~ have been paid to the city.

PROPOSED CHANGES TO:

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.

9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

If a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

   (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).
   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.
   (c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). In addition, if the developer/property owner plants a tree -- *that is above and beyond the required landscaping* -- on the property for which the tree preservation credit was assessed, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.
   (d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. *Alternative Tree Mitigation Settlement Agreements.* In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.

2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape Plan* -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.
2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IX, *TREE PRESERVATION*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IX, *District Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Article IX, *Tree Preservation,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 18TH DAY OF DECEMBER, 2017.

DRAFT ORDINANCE 12.18.2017

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

DRAFT ORDINANCE No. 2017

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

DRAFT ORDINANCE 12.6.2017

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.
9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

DRAFT ORDINANCE 12.18.2017

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

If a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

   (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).

   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

(c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). In addition, if the developer/property owner plants a tree -- *that is above and beyond the required landscaping* -- on the property for which the tree preservation credit was assessed, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Settlement Agreements. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape*

DRAFT ORDINANCE 12-18-2017

Plan -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

DRAFT ORDINANCE 17-23

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be guilty of a misdemeanor and upon conviction hereof shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

DRAFT ORDINANCE 17-23

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/28/2017

APPLICANT: Steven J. Goldberg; *Cogent Realty Advisors, LLC*

AGENDA ITEM: **MIS2017-014**; *4 Emma Jane Lane; Special Request*

SUMMARY:

Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of three (3) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Street and Sam Houston Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for approval of a deviation from the minimum front yard setback, minimum lot depth, and minimum lot size stipulated for properties in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subdivision of two (2) lots into three (3) lots for the construction of three (3) single-family homes. The subject property is located at the southeast corner of Emma Jane Road and Sam Houston Street and situated within the Southside Residential Neighborhood Overlay (SRO) District.

According to the applicant, the lots were purchased after reviewing the ownership lines depicted by the Rockwall Central Appraisal District (RCAD), which makes the properties appear to be in three (3) parcels of land; however, two (2) of the properties were subdivided by metes and bounds, and these lots are not buildable in their current format (i.e. they do not meet the lot depth and lot size requirements). In addition, the lots are currently platted into two (2) lots. Staff should note that this property is located within the Southside Residential Neighborhood Overlay (SRO) District, which allows for less restrictive development standards than a typical single-family, residentially zoned property.

The concept plan submitted by the applicant, Tracts 1 & 2 will each have a single-family home oriented toward Houston Street and Tract 3 will have a single-family home oriented toward Emma Jane Street. The applicant is requesting a special exception to the minimum lot size for the two (2) proposed lots adjacent to Sam Houston Street [*i.e. Tracts 1 & 2*] with the two (2) proposed lots being ~3,360 SF [*i.e. ~1,640 SF smaller than the minimum requireme*nt]. The applicant is also requesting a special exception to the minimum lot depth for Tracts 1 & 2. In its current configuration, Tracts 1 & 2, are ~56-feet to 60-feet deep [*i.e. 40-feet to 44-feet more shallow than the minimum requirement*]. The applicant is requesting a special exception to the side-yard setback from 20-feet to 10-feet for the proposed lot [*i.e. Tract 1*] on the corner of Houston Street and Sam Houston Street. It should be noted that since Tract 1 is on the corner of two (2) streets [*i.e. Sam Houston Street and Emma Street*], it is considered to have dual frontage, therefore subject to the front-yard setback for both frontages. Finally, the applicant is requesting a special exception to construct three (3) single-family homes with front-entry garages. Although this request is typical of neighboring homes, staff should note that this is a discretionary decision.

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential

properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

		Conformance to the Standards		
Ordinance Provisions	*Zoning District Standards*	*Tract 1*	*Tract 2*	*Tract 3*
Minimum Lot Area	*5,000 SF*	*X~3,360 SF; Not In Conformance*	*X~3,360 SF; Not In Conformance*	*X~6,750 SF; In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~56-Feet; In Conformance*	*X~56-Feet; In Conformance*	*X~60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~60-Feet; Not In Conformance*	*X~60-Feet; Not In Conformance*	*X~112-Feet; In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=20-Feet; In Conformance*	*X=20-Feet; In Conformance*	*X=20-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*	*X=10-Feet; In Conformance*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet*[1]	*X=10-Feet; Not In Conformance*	*X=6-Feet; In Conformance*	*X=6-Feet; In Conformance*

NOTES:[1]: Side setback is 6-feet for internal lots and 20-feet when abutting a street.

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC grants the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e. Southside Residential Neighborhood Overlay (SRO) District*]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The property will need to be replatted prior to the issuance of building permits.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

MIS2017-014 304 Emma Jane Lane Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of three (3) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (MIS2017-014) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Worksession for this case is November 28. The Planning and Zoning Meeting for this case is December 12, 2017
I.5 The City Council meeting date for this case is December 18, 2017.
I.6 A representative is required to attend all meetings.

COGENT

November 17, 2017

Mr. Ryan Miller
Director of Planning and Zoning
City of Rockwall Planning & Zoning Department
385 S. Goliad Street
Rockwall, Texas 75032

Re: 304 Emma Jane Street (Southeast corner of Sam Houston and Emma Jane)
Rockwall, Texas 75032

Dear Mr. Miller:

We are requesting consideration of special request in furtherance of neighborhood preservation. The property of concern is situated at the southeast corner of Sam Houston and Emma Jane Streets and per the Rockwall Central Appraisal District consists of three (3) ownership tax parcels that are identified as Account Numbers 14828, 14829 and 14830 (see attached tax map for an illustration of ownership division lines). Our request is to develop each of the three ownership tax parcels with a single family detached residential dwelling unit.

The property was recently purchased with the expressed intent of developing three homes. Due diligence conducted by the current owner prior to acquisition revealed the existence of a water meter and sewer cleanout on each of the ownership tax parcels, suggesting that each parcel was previously improved. Furthermore, a site survey obtained by the current owner illustrates that the overall property is comprised of three ownership parcels (see attached site survey) and discussions with personnel at the planning and zoning department (that took place prior to the current owner's purchase of the property) confirmed that the overall property could be developed with three houses. Subsequent to their purchase of the property, current ownership was informed that although the site is comprised of three ownership parcels, the site consists of only two platted lots that will not allow for the development of three houses.

It is our request that the overall property be re-platted in accordance with the ownership division lines as illustrated in Rockwall Central Appraisal District tax map and attached site survey to allow for the development of three houses. Furthermore, we are requesting a variance to the minimum lot size requirement for the two ownership parcels that front Sam Houston Street, a variance to the front yard setback requirement applicable to the ownership parcel situated at the immediate corner of Sam Houston Street and Emma Jane Street (we are asking for a side yard variance from 20 feet to 10 off Emma Jane Street as illustrated in the attached "Proposed Site Plan") and approval to construct three houses with front entry garages that face the street (as is typical of other existing and under construction houses in the immediate area).

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Proposed Changes to *Section 6.2, Article II, UDC*

At the November 20, 2017 City Council meeting, the City Council directed staff to amend the postponement procedures for public hearings to reduce the number of times an applicant can request the postponement of a public hearing. Section 6.2, *Public Hearing Postponement, Recess and Continuations*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) lays the current procedures for postponing a public hearing stating, "(a) public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin … (i)f a postponement or continuance of a public hearing is to a specific date and time no later than 60 days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required." Under these current procedures, if an applicant requests to postpone a public hearing, staff -- *at the direction of the City Attorney* -- has taken the position that since the public hearing is a posted and advertised meeting, official action is required by the acting body to either accept or deny the postponement request. A denial of the request would allow the acting body to hold a public hearing and take action on the case, as long as the case meets all other procedural requirements stipulated by the UDC. These procedures typically allow an applicant the ability to request up to three (3) to four (4) postponements under the 60-day rule based on the City's typical meeting schedule. At the end of the 60-days staff considers the application to be voluntarily withdrawn and the applicant would need to resubmit a new application to reinstate the case. Staff should note that this process does not have any approvals at the staff level and does not allow staff to initiate a postponement; however, in cases where the applicant has not provided sufficient information to staff to allow the case to move forward staff may ask the applicant or acting body to consider postponing the case to allow more time for the applicant to provide the requested information.

Based on the direction of the City Council, staff has drafted an amendment to the UDC that would reduce the number of times an applicant can request a postponement to two (2) by changing the 60-day rule to 30-days. In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Work Session]: November 28, 2017
Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017
City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff will send out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Possible Code Amendment:

Key:
Additions
~~*Deletions*~~

Section 6.2. Public Hearing Postponement, Recess, and Continuations.

A. A public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin.

B. A public hearing may be recessed and continued any time after the hearing has commenced.

C. If a postponement or continuance of a public hearing is to a specific date and time no later than 30 ~~60~~ days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required.

D. Postponed or continued public hearing shall be presumed to be held in the same location, unless a different location for the hearing is announced at the time of the postponement or continuance.

E. In the event that any request or amendment is being considered, whether or not a public hearing is involved, and it is continued at the request of the applicant more than one time, an additional fee shall be required to cover the reasonable costs to the city, including the cost of any additional advertising cost and the cost of the city's consultants due to the postponement.

F. If the applicant is not present at a meeting where the request is being considered and the request cannot be considered, then an additional fee, as described in 6.2.E above, shall also be required.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.2, *PUBLIC HEARING POSTPONEMENT, RECESS AND CONTINUATIONS*, OF ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 01.02.18

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

_____
Jim Pruitt, *Mayor*

Section 6.2. Public Hearing Postponement, Recess, and Continuations.

A. A public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin.

B. A public hearing may be recessed and continued any time after the hearing has commenced.

C. If a postponement or continuance of a public hearing is to a specific date and time no later than 30 ~~60~~ days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required.

D. Postponed or continued public hearing shall be presumed to be held in the same location, unless a different location for the hearing is announced at the time of the postponement or continuance.

E. In the event that any request or amendment is being considered, whether or not a public hearing is involved, and it is continued at the request of the applicant more than one time, an additional fee shall be required to cover the reasonable costs to the city, including the cost of any additional advertising cost and the cost of the city's consultants due to the postponement.

F. If the applicant is not present at a meeting where the request is being considered and the request cannot be considered, then an additional fee, as described in 6.2.E above, shall also be required.

DRAFT ORDINANCE 01.02.2018

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Proposed Changes to *Subsection 2.1.11, Section 2, Article IV, UDC*

At the November 20, 2017 City Council meeting, the City Council directed staff to prepare a text amendment allowing replacement telecommunications towers in excess of 125-feet by Specific Use Permit (SUP). This direction was the result of an appointment with David Naylor, *President and CEO of Rayburn Electric*, who requested the ordinance change to accommodate the replacement of a 320-foot telecommunications tower on the property at 950 & 980 Sids Road. Section 2.1.11, *Utilities, Communications and Transportation*, of Article IV, *Permissible Uses*, of the UDC an *Antenna, Commercial – Freestanding, Other* requires that the antenna installation comply with the height and area regulations of the applicable zoning district and the support structure not exceed a maximum height of 125-feet. Based on the City Council's direction staff has drafted an amendment that can accommodate Mr. Naylor's request by adding a provision to the current ordinance that would allow a legally recognized, non-conforming telecommunications tower to be replaced with a tower of comparable height by Specific Use Permit (SUP). In addition, staff has further restricted these types of replacements to more intense or industrial zoning districts (*i.e. the Heavy Commercial [HC], Light Industrial [LI] and Heavy Industrial [HI] Districts*).

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Work Session]: November 28, 2017
Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017
City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff will send out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Possible Code Amendment:

Key:
Additions
~~*Deletions*~~

Section 2.1.11. Utilities, Communications and Transportation.

Antenna.

1. *Definitions*.

   ~~For the purpose of this section, an antenna~~ Antenna mast is defined as an antenna, mast or tower, or all or any two of these combined to constitute a structure designed for radio and television reception or transmission.

   Antenna means a device or apparatus consisting of one or more wires or rods arranged to send and receive radio, television, electromagnetic or microwave signals. For purposes of this section, several antenna components may be assembled to perform a single function for a single operator and may be considered one antenna.

   Antenna, accessory, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, electromagnetic or microwave signals as part of and directly related to a principal activity within an office, retail or industrial building and which itself is not a principal use or unrelated to any principal use on the property.

   Antenna, amateur radio, means a radio communication antenna used by a person holding an amateur station license from the Federal Communications Commission (FCC). An amateur radio antenna shall be allowed as an accessory use in any zoning district, under the following guidelines:

   (a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.

   (b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70 feet provided the setback from side and rear setback lines is increased by one foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the city council may consider approval of a specific use permit for any amateur antenna support structure or antenna that is proposed to exceed these height limits.

   (c) Only one amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a specific use permit.

   (Ord. No. 10-14, § 23, 7-6-2010)

   Antenna, commercial, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, cellular, electromagnetic or microwave signals, and any other similar technology, primarily for the purpose of operating a business and/or for financial gain. A commercial antenna may be either mounted or freestanding as described below.

   Antenna, commercial—freestanding, means a commercial antenna supported by or affixed to a freestanding pole, tower, tripod, frame or other similar structure.

   Antenna, commercial—mounted, means a commercial antenna permanently affixed to the roof or other portion of a building.

2. *Antenna standards.*

   (a) Antenna, accessory.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district.

(2) Administrative approval of the antenna installation shall be required.

(b) *Antenna, commercial*. Located entirely within any nonresidential structure allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.

(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color with the principal building and the equipment building.

(3) At least one paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.

(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(5) No more than three separate equipment buildings shall be located on a single lot.

(c) *Antenna, commercial—freestanding*, when attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75 feet but no more than 150 feet.

(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.

(3) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(4) A minimum setback of 20 feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.

(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 square feet in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.

(6) At least one paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.

(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(8) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(d) Antenna, commercial—freestanding, other.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125 feet in height.

(2) The antenna shall not extend more than ten feet above the maximum height of the support structure. (3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(3) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(4) At least one paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(5) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(6) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(e) Antenna, commercial—mounted, 12 feet or less in height, on nonresidential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12 feet.

(2) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(5) At least one paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(f) *Replacement of an existing Antenna, commercial – freestanding, other*. Where an antenna installation has not been permitted under this chapter but that is considered to be a legally recognized, non-conforming structure or facility, the replacement of the antenna installation may be approved by the City Council on a case-by-case basis through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC), Light Industrial (LI) and Heavy Industrial (HI) Districts.

(2) The replacement antenna installation shall be setback a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.

(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.

(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.

(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.

(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.

(7) At least one paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one (1) of the spaces required for the principal use on the property.

3. *Construction and maintenance requirements.* All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the following requirements:

(a) All electrical specifications of such antenna masts, towers and supports shall comply with the National Electrical Code, the electrical code of the city, Standard Building Code, and the building code of the city.

(b) Antenna structures shall be designed in accordance with section 1205.1 of the Standard Building Code. 4. Permit required. Any person desiring to erect or have erected an antenna more than 25 feet in height above ground level, or an antenna mast 25 feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the chief building official, must accompany each application. It shall be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

4. *Restrictions and limitations.* All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(a) No such antenna system shall be more than 99 feet in height.

(b) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.

(Ord. No. 10-14, § 24, 7-6-2010)

(c) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.

(d) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SUBSECTION 2.1.11, *UTILITIES, COMMUNICATIONS AND TRANSPORTATION*, OF SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Section 2.1.11. Utilities, Communications and Transportation.

Antenna.

1. *Definitions*.

~~For the purpose of this section, an antenna~~ Antenna mast is defined as an antenna, mast or tower, or all or any two of these combined to constitute a structure designed for radio and television reception or transmission.

Antenna means a device or apparatus consisting of one or more wires or rods arranged to send and receive radio, television, electromagnetic or microwave signals. For purposes of this section, several antenna components may be assembled to perform a single function for a single operator and may be considered one antenna.

Antenna, accessory, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, electromagnetic or microwave signals as part of and directly related to a principal activity within an office, retail or industrial building and which itself is not a principal use or unrelated to any principal use on the property.

Antenna, amateur radio, means a radio communication antenna used by a person holding an amateur station license from the Federal Communications Commission (FCC). An amateur radio antenna shall be allowed as an accessory use in any zoning district, under the following guidelines:

(a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.

(b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70 feet provided the setback from side and rear setback lines is increased by one foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the city council may consider approval of a specific use permit for any amateur antenna support structure or antenna that is proposed to exceed these height limits.

(c) Only one amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a specific use permit.

(Ord. No. 10-14, § 23, 7-6-2010)

Antenna, commercial, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, cellular, electromagnetic or microwave signals, and any other similar technology, primarily for the purpose of operating a business and/or for financial gain. A commercial antenna may be either mounted or freestanding as described below.

Antenna, commercial—freestanding, means a commercial antenna supported by or affixed to a freestanding pole, tower, tripod, frame or other similar structure.

Antenna, commercial—mounted, means a commercial antenna permanently affixed to the roof or other portion of a building.

2. *Antenna standards.*

DRAFT ORDINANCE 04.02.18

(a) Antenna, accessory.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district.

(2) Administrative approval of the antenna installation shall be required.

(b) *Antenna, commercial*. Located entirely within any nonresidential structure allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.

(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color with the principal building and the equipment building.

(3) At least one paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.

(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(5) No more than three separate equipment buildings shall be located on a single lot.

(c) *Antenna, commercial—freestanding*, when attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75 feet but no more than 150 feet.

(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.

(3) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(4) A minimum setback of 20 feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.

(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 square feet in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.

(6) At least one paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.

DRAFT ORDINANCE 01.02.2018

(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(8) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(d) Antenna, commercial—freestanding, other.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125 feet in height.

(2) The antenna shall not extend more than ten feet above the maximum height of the support structure. (3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(3) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(4) At least one paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(5) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(6) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(e) Antenna, commercial—mounted, 12 feet or less in height, on nonresidential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12 feet.

(2) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(5) At least one paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

DRAFT ORDINANCE 01.02.2018

(f) *Replacement of an existing Antenna, commercial – freestanding, other*. Where an antenna installation has not been permitted under this chapter but that is considered to be a legally recognized, non-conforming structure or facility, the replacement of the antenna installation may be approved by the City Council on a case-by-case basis through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC), Light Industrial (LI) and Heavy Industrial (HI) Districts.

(2) The replacement antenna installation shall be setback a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.

(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.

(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.

(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.

(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.

(7) At least one paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one (1) of the spaces required for the principal use on the property.

3. *Construction and maintenance requirements.* All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the following requirements:

(a) All electrical specifications of such antenna masts, towers and supports shall comply with the National Electrical Code, the electrical code of the city, Standard Building Code, and the building code of the city.

(b) Antenna structures shall be designed in accordance with section 1205.1 of the Standard Building Code. 4. Permit required. Any person desiring to erect or have erected an antenna more than 25 feet in height above ground level, or an antenna mast 25 feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the chief building official, must accompany each application. It shall be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

4. Restrictions and limitations. All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(a) No such antenna system shall be more than 99 feet in height.

DRAFT ORDINANCE

(b) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.

(Ord. No. 10-14, § 24, 7-6-2010)

(c) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.

(d) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

DRAFT ORDINANCE 01.02.2018

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Food Trucks/Trailers

At the November 20, 2017 City Council meeting, the City Council directed staff to prepare a text amendment adding *Food Trucks/Trailers* to the list of *Permissible Uses* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC). Currently, the City allows these types of uses under the *Beverage and/or Food Service Facility, Portable* by Specific Use Permit (SUP) in all non-residential zoning districts with the exception of the Neighborhood Services (NS) and Research and Technology (RT) Districts. The purpose of the change would be to allow *Food Trucks/Trailers* to operate *by-right* in certain zoning districts under a set of operational conditions. The amendment specifically allows the use in all non-residential zoning districts *by-right -- with the exception of the Residential Office (RO) and Neighborhood Services (NS) District which are typically closer to residential properties* -- under the following operational constraints:

1. The Food Truck/Trailer shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid Certificate of Occupancy (CO). Operation within the public right-of-way is prohibited.
2. Food Trucks/Trailers shall only operate between the hours of 7:00 AM and 10:00 PM, and the Food Truck/Trailer shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The Food Truck/Trailer shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The Food Truck/Trailer shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The Food Truck/Trailer shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a Food Truck/Trailer may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the Food Truck/Trailer with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the Food Truck/Trailer.

The City Council has asked that the Planning and Zoning Commission review the proposed text amendment and make recommendations concerning the operational conditions. Staff should point out that as part of this text amendment, staff has changed the *Beverage and/or Food Service Facility, Portable* land use to a *Beverage Service Facility, Portable*, to account for the overlap of the two (2) uses. Attached to this case memo is a copy of the proposed amendment to the UDC, a map showing were *Food Trucks/Trailers* would be able to operate within the City, and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Work Session]: November 28, 2017
Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017

City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff will send out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Section 2. Use Standards.
Section 2.1.6. Retail and Personal Service Use Conditions.

Beverage ~~and/or food~~ service facility, portable. A portable beverage ~~and/or food~~ service facility is an establishment that sells beverages ~~and/or food~~ from a structure ~~or trailer~~ that can be moved from place to place but that stays at one location during a normal business day; food sales are prohibited in these facilities~~.~~ A portable beverage ~~and/or food~~ facility shall meet the following minimum conditions:

1. The service shall be limited to snow cone stands, beverage ~~and/or food~~ stands serving nonalcoholic beverages such as coffee, juices or sodas ~~and/or prepared food products~~.
2. The maximum time limit of such temporary use shall not exceed 150 days annually or a time limit otherwise approved by the city council. At the end of the time period, the structure shall be removed from the property.
3. Any temporary power poles will be removed on the date of or immediately following the termination date of the permit.
4. No additional freestanding signage shall be permitted.
5. The temporary portable structure or trailer shall meet all health and electrical codes off the city.
6. Any such temporary facility shall not reduce the number of required parking spaces of any nearby building or use.
7. Any such temporary facility shall have permanent restrooms for employees available within 300 feet of the door of the portable beverage facility. Written permission from the permanent building owner for restroom use must be submitted to the building official; no portable restroom facility is allowed.
8. Any such temporary facility shall be located on an all-weather (asphalt or concrete) parking surface with adequate space for parking and circulation, unless alternatively approved by the city council.

Food Truck/Trailer. A *Food Truck* or *Trailer* is a *Mobile Food Vendor* that sells food and/or beverages that are either pre-packaged or prepared in the confines of a portable truck/trailer, which can be moved from place to place, but is typically in a fixed location for extended periods of time. A *Food Truck/Trailer* shall meet the following conditions:

1. The *Food Truck/Trailer* shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid Certificate of Occupancy (CO). Operation within the public right-of-way is prohibited.
2. *Food Trucks/Trailers* shall only operate between the hours of 7:00 AM and 10:00 PM, and the *Food Truck/Trailer* shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The *Food Truck/Trailer* shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The *Food Truck/Trailer* shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The *Food Truck/Trailer* shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a *Food Truck/Trailer* may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the *Food Truck/Trailer* with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the *Food Truck/Trailer*.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 1, *LAND USE SCHEDULE*, AND SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Z2017-059 (Amendment to PD-8 for Townhomes): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.

M.3 On all future submittals please include the case number (Z2017-059) in the lower right hand corner.

I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on November 28, 2017.

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on December 5, 2017 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 12, 2017 Planning & Zoning Meeting.

I.6 The projected City Council dates for this case are project to be: 1) December 18, 2017 [1st Reading], and 2) January 2, 2018 (Tuesday) [2nd Reading].

METES AND BOUNDS
STATE OF TEXAS
COUNTY OF ROCKWALL

All that certain lot, tract or parcel of land situated in the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and Being a part of that 285.2916 acre tract as conveyed to Clarke-Frates Corporation as recorded in Volume 102, Page 895, Deed Records, Rockwall County, Texas, and being part of Spyglass Hill Condominiums Phase Four as recorded in Cabinet B, Slides 146-147 of the Plat Records, Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a point on the South line of Henry M. Chandler Drive, said point being the Northwest corner of Spyglass Hill Condominiums, Phase Three, and addition to the City of Rockwall, Texas, as recorded in Slide B, Page 175, Map Records, Rockwall County, Texas, a 1/2 inch iron rod set for corner;

THENCE Along the Westerly line of said Spyglass Hill Condominiums, the following:
South 03 degrees 27 minutes 05 seconds East, a distance of 39.65 feet to a 1/2 inch iron rod found for corner;
South 48 degrees 27 minutes 05 seconds East, a distance of 160.16 feet to a 1/2 inch iron rod found for corner;
South 37 degrees 16 minutes 05 seconds West, a distance of 180.50 feet to a 1/2 inch iron rod set for corner;
South 03 degrees 27 minutes 05 seconds East, a distance of 142.73 feet to a 1/2 inch iron rod set for corner;
South 48 degrees 23 minutes 55 seconds West, a distance of 95.59 feet to a 1/2 inch iron rod found for corner;
South 41 degrees 32 minutes 55 seconds West, a distance of 56.00 feet to a 1/2 inch iron rod found for corner;
South 48 degrees 27 minutes 05 seconds East, a distance of 203.00 feet to a 1/2 inch iron rod set for corner on the Northerly line of Windward Slope Addition;

THENCE South 41 degrees 32 minutes 55 seconds West, along the Northerly line of Windward Slope Addition, an addition to the City of Heath, Rockwall County, Texas, a distance of 480.10 feet to a 1/2 inch iron rod set for corner;

THENCE North 14 degrees 35 minutes 26 seconds West, a distance of 407.29 feet to a 1/2 inch iron rod set for corner;

THENCE North 01 degrees 33 minutes 59 seconds West, a distance of 70.75 feet to a 1/2 inch iron rod set for corner;

THENCE North 20 degrees 51 minutes 59 seconds West, a distance of 156.54 feet to a 1/2 inch iron rod set for corner;

THENCE North 31 degrees 30 minutes 08 seconds West, a distance of 109.80 feet to a 1/2 inch iron rod found for corner on the Southerly right-of-way line of Henry M. Chandler Drive;

THENCE along the Southerly line of Henry M. Chandler Drive, the following:
North 58 degrees 29 minutes 50 seconds East, a distance of 90.00 feet to a 1/2 inch iron rod found for corner;
North 45 degrees 29 minutes 10 seconds East, a distance of 54.37 feet to a 1/2 inch iron rod found and being the beginning of a curve to the right having a central angle of 18 degrees 36 minutes 40 seconds and a radius of 471.19 feet;
THENCE along said curve an arc length of 153.06 feet to a 1/2 inch iron rod found and being the beginning of a curve to the left having a central angle of 15 degrees 20 minutes 08 seconds and a radius of 1040.00 feet;

THENCE along said curve an arc length of 278.36 feet to the PLACE OF BEGINNING and containing 300,076 square feet or 6.89 acres of land.

TO:

I, James P. Keene, Registered Professional Land Surveyor No. 5100, do hereby state that the survey map hereon, depicts and describes the results of an actual on the ground survey made on the _____ day of _____, 2017 under my direction and supervision. This survey substantially conforms to the Minimum Standards of Practice as approved by the Texas Board of Professional Land Surveyors. This statement is not a representation of warranty of title or guarantee of ownership. This survey was performed EXCLUSIVELY for the benefit of the above noted parties.

ANY USE OF THIS SURVEY FOR ANY OTHER PURPOSE OR BY OTHER PARTIES SHALL BE AT THEIR RISK AND THE UNDERSIGNED IS NOT RESPONSIBLE FOR ANY LOSS RESULTING THEREOF.

PROJECT NO. 17-2858

SHEET 1 OF 1

RAMSAY & REYES LLC

PROJECT MANAGEMENT · ARCHITECTS · PLANNERS

Project : 6.88 ACRES on Henry M. Chandler Dr., Rockwall, Texas 75032

Owner: Ed Cavendish

Development Standards

Houses are scheduled to be from 1,900 sq. ft. to 2,200 sq. ft., and will sell from $325,000 to $375,000, producing a taxable value of approximately **$16,800,000.**

Description

Project will contain 48 houses - single lots and in groups of 3,4, and 5 with adjacent side walls.

Lot sizes:	Mostly 24' – 27' wide x 105' deep
Units per lot:	(1) One unit per lot
Lot setbacks:	Front - 20' Rear – 10' Side – (Varies) Zero – 25' Maintenance – 5' Minimum
Landscape:	(1) One tree per every 50' along Henry M. Chandler Dr. Wrought Iron Fence along perimeter of site.

The site is 6.88 acres with 2.88 acres of community park and open space (42%).

Highest top of roof elevation is 500' above sea level which is 8'-0" below the 1992 P&Z recommendation of 508' above sea level.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 8 (PD-8) [*ORDINANCE NO. 92-39*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 92-39*, BEING A 6.88-ACRE TRACT OF LAND IDENTIFIED AS LOT 4, BLOCK A, SPYGLASS HILL #4 ADDITION AND TRACT 134-12 OF THE E. TEAL SURVEY, ABSTRACT NO. 207, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by the Ed Cavendish of Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for an amendment to the *Planned Development Concept Plan* and *Development Standards* contained within Planned Development District 8 (PD-8) [*specifically contained within Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 92-39*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 09.06.18

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master Plat
3. Preliminary Plat
4. PD Site Plan
5. Final plats

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 6. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

DRAFT ORDINANCE 01.02.2018

DRAFT ORDINANCE 01.02.2018

Exhibit 'A':
Legal Description

BEING a tract of land situated in the E. *TEAL SURVEY, ABSTRACT NO. 207*, City of Rockwall, Rockwall County, Texas, and being a part of that 285.2916 acre tract as conveyed to Clarke-Frates Corporation, as recorded in Volume 102, Page 895, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point on the South line of Henry M. Chandler Drive, said point being the Northwest corner of Spyglass Hill Condominiums, Phase Three, an addition to the City of Rockwall, as recorded in Slide B, page 175, Map Records, Rockwall County, Texas, a ½" iron stake set for corner;

THENCE Along the Westerly lines of said Spyglass Hill Condominiums, the following:

South 03 deg. 27' 05" East a distance of 39.65 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 160.16 feet to a ½" iron stake set for corner;
South 37 deg. 16' 05" West a distance of 180.50 feet to a ½" iron stake set for corner;
South 03 deg. 27' 05" East a distance of 142.73 feet to a ½" iron stake set for corner;
South 48 deg. 23' 55" West a distance of 95.59 feet to a ½" iron stake set for corner;
South 41 deg. 23 '55" West a distance of 56.00 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 203.00 feet to a ½" iron stake set for a corner;

THENCE South 41 deg. 32' 55" West, along the Northerly line of Windward Slope Addition, and addition to the city of Heath, Rockwall County, Texas, a distance of 480.10 feet to a ½" iron stake found for corner;

THENCE North 14 deg. 35' 26" West, a distance of 407.29 feet to a ½" iron stake set for corner;

THENCE North 1 deg. 33' 59" West a distance of 70.75 feet to a ½" iron stake set for corner;

THENCE North 20 deg. 51' 59" West a distance of 156.54 feet to a ½" iron stake set for corner;

THENCE North 31 deg. 30' 08" West a distance of 109.80 feet to a ½" iron stake found for corner;

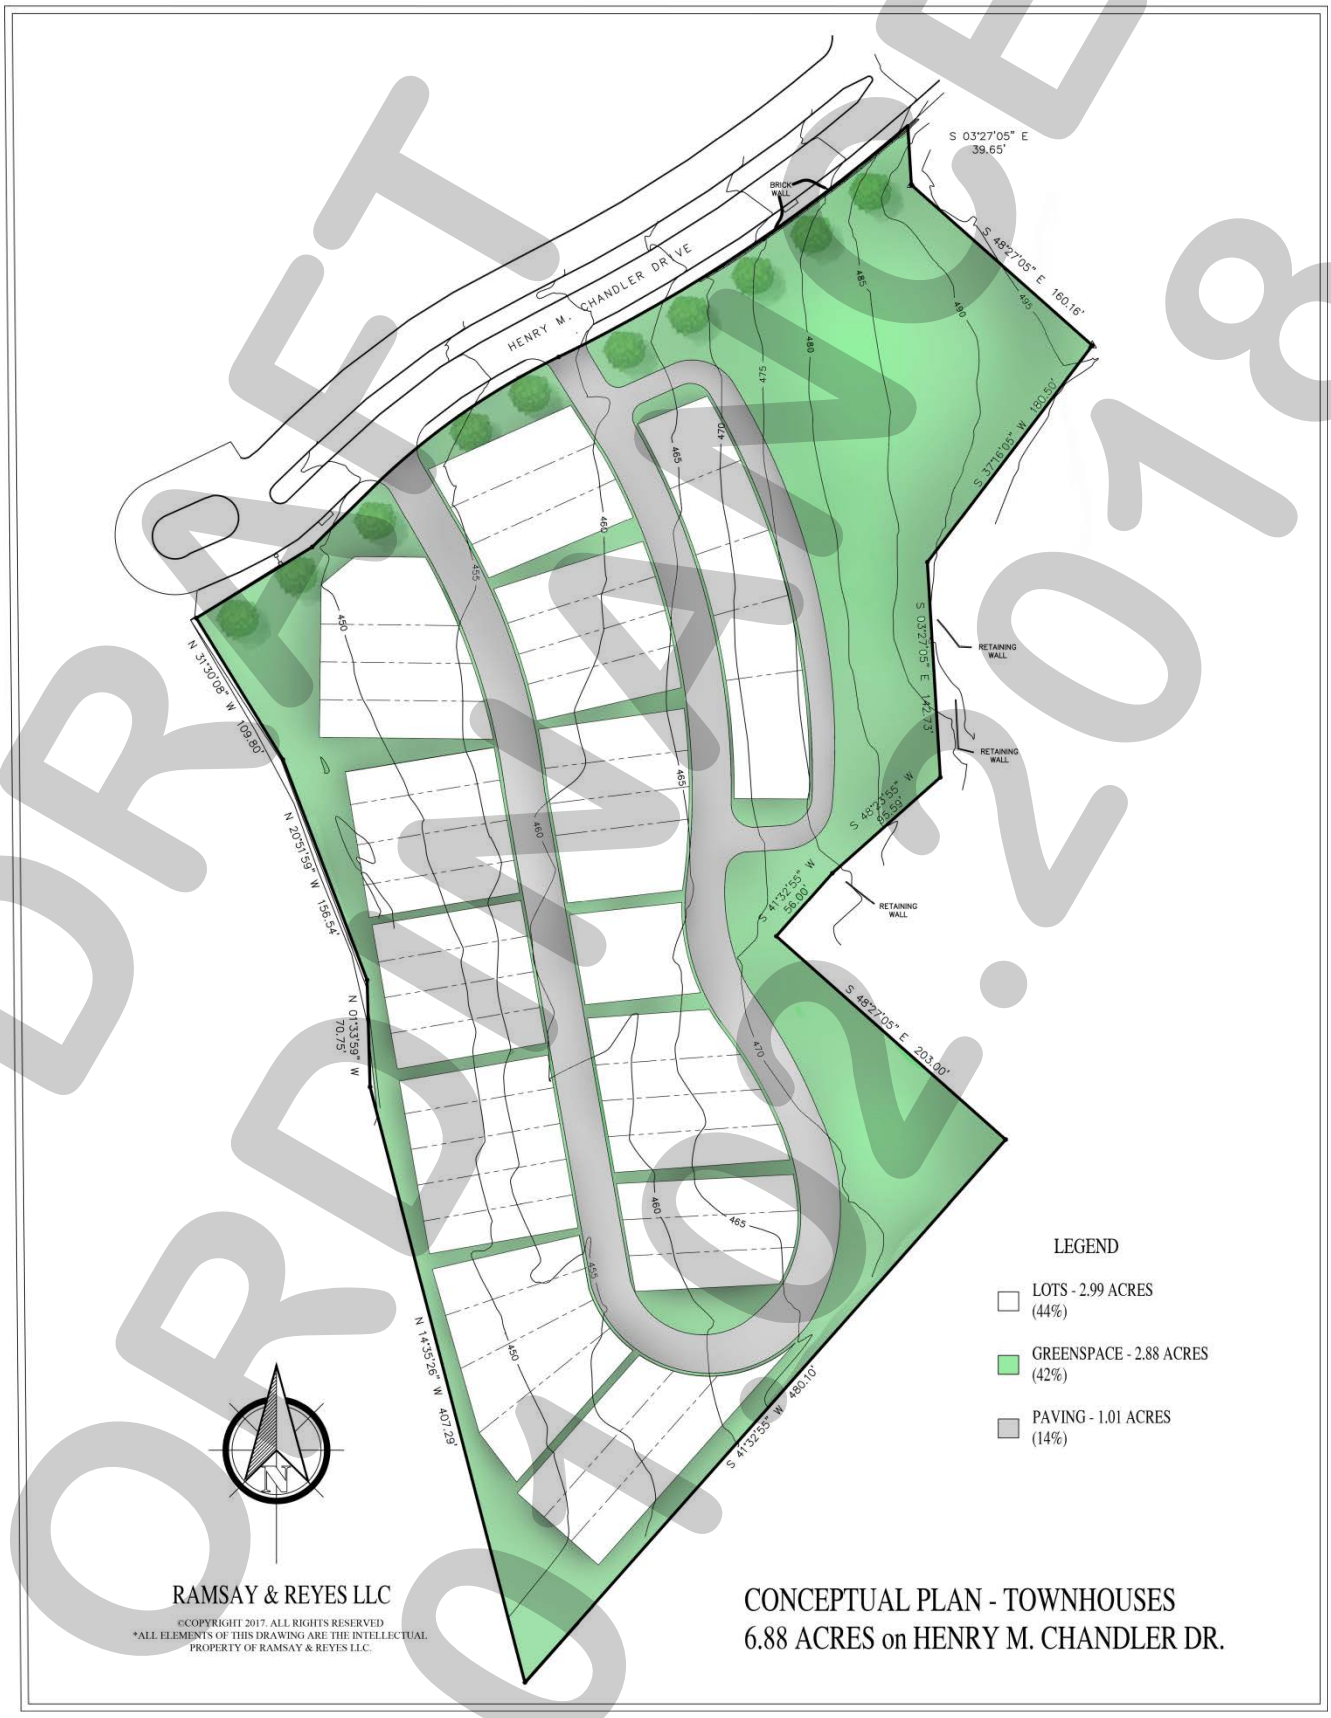
THENCE along the Southerly line of Henry M. Chandler Drive, the following:

North 58 deg. 29' 50" East a distance of 90.00 feet to a ½" iron stake set for corner;
North 45 deg. 29' 10" East a distance of 54.37 feet to the beginning of a curve to the right having a central angle of 18 deg. 36' 41", and a radius of 471.19 feet, a ½" iron stake set for corner;
Around said curve, a distance of 153.06 feet to the beginning of a curve to the left having a central angle of 15 deg. 20' and a radius of 1,040.00 feet, a ½" iron stake set for corner;

Around said curve a distance of 278.32 feet to the *PLACE OF BEGINNING* and containing 6.88 acres of land. This description is based on the Land Title Survey and Plat made by Kenneth E. Brown, Registered Professional Land Surveyor on February 25, 1992.

DRAFT ORDINANCE 01.02.2018

Exhibit 'B':
Concept Plan



DRAFT ORDINANCE 04.02.2018

Exhibit 'C':
PD Development Standards

PD Development Standards.

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the *Subject Property*; however, the following additional land uses shall be permitted *by-right*:

☑ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the *Subject Property* shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. In addition, the maximum permissible density for the *Subject Property* shall be seven (7) dwelling units per gross acre of land; however, in no case should the proposed development exceed 48-units. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	105'
Minimum Lot Area	2,520 SF
Minimum Front Yard Setback [1]	20'
Minimum Side Yard Setback [2]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	36'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into public right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 508-feet above sea level.

(3) *Garage Orientation.* All garages shall be permitted to be forward facing (i.e. facing onto a public street in a front entry configuration) provided they are setback three (3) feet from the front façade of the primary structure.

(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 70% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance. Stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space.

DRAFT ORDINANCE 01.02.2018

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features.

(5) *Anti-Monotony Restrictions*. All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) Landscape Buffers. A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Henry M. Chandler Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Trash Dumpster Enclosure.* If proposed trash dumpster enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures of the townhomes, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

(8) *Fence Standards.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(9) *Open Space.* A minimum of 42% open space shall be provided which generally conforms to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(10) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision

DRAFT ORDINANCE 01.02.2018

Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences and the private roadway, drive aisles and drive approaches for the subject property associated with this development.

(11) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance

Z2017-060 Zoning Change (AG to HC) Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2017-060) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Worksession for this case is November 28. The Planning and Zoning Meeting for this case is December 12, 2017
I.5 The City Council meeting date for this case is December 18, 2017 and January 2, 2018
I.6 A representative is required to attend all meetings.

CITY OF ROCKWALL

ORDINANCE NO. 17-45
SPECIFIC USE PERMIT NO. S-174

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A MUSIC STUDIO IN PLANNED DEVEOPMENT DISTRICT 60 (PD-60), ON A 0.747-ACRE PORTION OF A LARGER 2.49-ACRE PARCEL OF LAND BEING IDENTIFIED AS A PORTION OF LOT 9, BLOCK A, FLAGSTONE CORNERS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Deric Salser of Salsar Development Group on behalf of Russ Porter of Rockwall School of Music, LLC for the approval of a Specific Use Permit (SUP) to allow for a *Music Studio* in Planned Development District 60 (PD-60) on a 0.747-acre portion of a larger 2.49-acre parcel of land being described as a portion of Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and being more specifically described in *Exhibit 'A'* and depicted in *'Exhibit 'B'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 60 (PD-60) [*Ordinance No. 05-05*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *Music Studio* as stipulated by Planned Development District 60 (PD-60) [*Ordinance No. 05-05*] and Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 1, Land Use Schedule,* of *Article IV, Permissible Uses, and Planned Development District 60 (PD-60)* [*Ordinance No. 05-05*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

1) The music studio shall generally conform to the concept plan shown in *Exhibit 'C'* and the concept building elevations shown in *Exhibit 'D'* of this ordinance.

2) A six (6)-foot masonry screening wall shall be provided adjacent to residential properties (*i.e. east and south property lines*).

3) A row of canopy trees a minimum of four (4) caliper-inches in size and spaced 20-feet on center shall be planted adjacent to the residential properties to the northeast and southeast of the subject property.

4) Incidental display/outside storage is prohibited.

5) A shrub row shall be provided as headlight screening for any parking adjacent to residential properties or that face towards Mims Road.

6) The dumpster enclosure doors shall not face towards any residential properties.

7) A Cross-access easement shall be provided adjacent to the property to the northwest of the subject property.

8) Music outside of the studio is prohibited.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of

any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF SEPTEMBER, 2017.

Jim Pruitt, Mayor

Z2017-062 (SUP for TRU by Hilton): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the approval of a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, and located southwest of the intersection of Summer Lee Drive and Horizon Road [FM-3097].
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2017-062) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on November 28, 2017.
I.5 Please note that based on the current submittal the following operational conditions will be contained in the Specific Use Permit (SUP) ordinance:

1) Prior to the submission of a site plan, a PD Development Plan depicting a more detailed Concept Site Plan and Concept Building Elevations than those contained in this Specific Use Permit (SUP) ordinance shall be required to be approved by the City Council pending a recommendation from the Planning and Zoning Commission.
2) Nothing contained in this Specific Use Permit (SUP) ordinance shall be deemed to supersede the requirements of Ordinance No. 17-22.
3) The development of this property shall generally conform to the Concept Site Plan depicted in Exhibit 'B' of this Specific Use Permit (SUP) ordinance where not in conflict with Ordinance No. 17-22.
4) The proposed hotel shall generally conform to the Concept Building Elevations depicted in Exhibit 'C' of this Specific Use Permit (SUP) ordinance where not in conflict with Ordinance No. 17-22 and pending a recommendation from the Architectural Review Board (ARB).
5) This Specific Use Permit (SUP)ordinance shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, Special Use Standards, of Section 6.8, Scenic Overlay (SOV) District, of Article V, District Development Standards, of the Unified Development Code [Ordinance No. 04-38].
6) The proposed hotel shall be limited to non-residence suites, which are considered to be standard hotel rooms that do not contain kitchen facilities.

I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on December 5, 2017 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 12, 2017 Planning & Zoning Meeting.
I.7 The projected City Council dates for this case are project to be: 1) December 18, 2017 [1st Reading], and 2) January 2, 2018 (Tuesday) [2nd Reading].

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP AND PLANNED DEVELOPMENT DISTRICT 32 [*ORDINANCE NO. 17-22*] TO ADOPT A SPECIFIC USE PERMIT (SUP) FOR A HOTEL WITHIN THE INTERIOR AND RESIDENTIAL SUBDISTRICTS OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) ON A 2.166-ACRE PARCEL OF LAND IDENTIFIED AS LOT 2A OF THE ISSAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) to allow a *Hotel* on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], situated within the *Interior* and *Residential Subdistricts* of Planned Development District 32 (PD-32) and the Scenic Overlay (SOV) District, generally located southwest of the intersection of Summer Lee Drive and Horizon Road [*FM-3097*], and more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for *Hotel* within a Planned Development District 32 (PD-32) as stipulated by *Ordinance No. 17-22* on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as set forth in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development

DRAFT 01.02.2018

Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following conditions and compliance standards:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *Hotel* on the *Subject Property* and conformance to these stipulations are required for continued operations:

1) Prior to the submission of a site plan, a *PD Development Plan* depicting a more detailed *Concept Site Plan* and *Concept Building Elevations* than those contained in this Specific Use Permit (SUP) ordinance shall be required to be approved by the City Council pending a recommendation from the Planning and Zoning Commission.

2) Nothing contained in this Specific Use Permit (SUP) ordinance shall be deemed to supersede the requirements of *Ordinance No. 17-22*.

3) The development of this property shall generally conform to the *Concept Site Plan* depicted in *Exhibit 'B'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22.*

4) The proposed hotel shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'C'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22* and pending a recommendation from the Architectural Review Board (ARB).

5) This Specific Use Permit (SUP) ordinance shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

6) The proposed hotel shall be limited to non-residence suites, which are considered to be standard hotel rooms that do not contain kitchen facilities.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City of Rockwall be corrected to reflect the changes described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

DRAFT ORDINANCE 01.02.2018

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section of provision of this ordinance or the application of that section or provision to any person, firm, cooperation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have to adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

_____

Jim Pruitt, *Mayor*

ATTEST:

_____

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____

Frank J. Garza, *City Attorney*

1st Reading: *December 18, 2017*

2nd Reading: *January 2, 2018*

DRAFT ORDINANCE 01.02.2018

Exhibit 'A'
Legal Description

All that certain lot, tract or parcel of land situated in the *EDWARD TEAL SURVEY, ABSTRACT NO. 207*, City of Rockwall, Rockwall County, Texas, and being a part of Lot 2A of *ISAAC BROWN'S LAND PARTITIONED TO HIS HEIRS*, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet A, Slide 57 of the plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at ½" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner in the Southeast right of way line of Summer Lee Drive at its intersection with the Northeast boundary line of said Lot 2A, said point being at the East corner of a 9,569 square foot tract as described in a Deed from William Dale Douglass to the City of Rockwall, Texas, as recorded in Volume 4967, Page 188 of the Real Property Records of Rockwall County, Texas;

THENCE South 45 degrees 00 minutes 00 seconds East along the Northeast line of Said Lot 2A, a distance of 785.78 feet to a ½" iron road with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner at the East corner of said Lot 2A, said point being the Northwest line of Hammer Addition, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet D. Slide 210 of the plat Records of Rockwall County, Texas;

THENCE South 44 degrees 07 minutes 20 seconds West, along the northwest line of Hammer Addition, a distance of 120 feet to a ½" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner at the South corner of Lot 2A and the East corner of Lot 3A;

THENCE North 45 degrees 00 minutes 01 second West along the South line of said Lot 2A, a distance of 785.97 feet to a ½" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner in the Southeast right of way of Summer Lee Drive;

THENCE North 44 degrees 12 minutes 43 seconds East along said right of way line a distance of 120 feet to the *POINT OF BEGINNING* and containing 94,351 square feet or 2.16 acres of land.

Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 5, 2017 (three large copies FOLDED and one PDF version) for subsequent review by staff. For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future submittals please include the Case Number (Z2017-063) in the lower right hand corner.

• Please review the Draft Ordinance prior to the Planning & Zoning Meeting scheduled for December 12, 2017.

• Please make the following corrections/additions to the Concept Plan:
(1) Provide a colorized concept plan indicating lot types (different colors for each type), open space, trails, etc.

• The following are a list of Comprehensive Plan (plan) policies that have not been satisfied or could benefit from clarification:
(1) All residential lots that are 16,000 SF or less should be served by an alley. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the zoning change request. All meetings will be held in the City's Council Chambers and begin at 6:00 p.m. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present case to P&Z for discussion].

Planning - Public Hearing: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Pulblic Hearing: December 18, 2017 (6:00 p.m.) [1st Reading of Ordinance]

City Council - Action Item: January 2, 2018 (6:00 p.m.) [2nd Reading of Ordinance]

DESCRIPTION
98.341 acre
John A. Ramsey Survey AB- 127
City of Rockwall, Rockwall County, Texas

BEING a 98.341 acre tract of land located in the John A. Ramsey Survey AB- 127, in the City of Rockwall, Rockwall County, Texas, being a part of Tracts 1 and 2 as described in a deed to The McClendon Corporation as recorded in, Volume 91 Page 526, Deed Records Rockwall County Texas (DRRCT) and Tract 3 as described in a deed to Iheartmedia Tower Co. I(am), LLC as recorded in, Instrument No. 20150000005151, Deed Records Rockwall County Texas(DRRCT) and more particularly described as follows;

COMMENCING at a found 1/2-inch iron rod for the southwest corner of Sterling Farms Addition, an Addition to the City of Rockwall as recorded Slide C, Page 396, Plat Records Rockwall County Texas (PRRCT), said point being in the common north line of said Tract 2, and being in the East right of way line for Farm to Market Road 543;

THENCE N 88°52'38" E with the common line of said McClendon Tract 2, and said Addition a distance of 665.59 feet to the POINT OF BEGINNING, from said point a found iron rod for the common southerly corner of Lots 17 and 16 of said Sterling Farms Addition bears N 88°52' E, 136.53 feet;

THENCE N 88°04'30" E, a distance of 140.05 feet to a found ½-inch iron rod;

THENCE N 88°52'36" E, a distance of 1773.18 feet to a point for southeast corner of said Sterling Farms Addition, and the westerly southwest corner of Timber Creek Estates, Phase 2 & 3, an Addition to the City of Rockwall as recorded in Cabinet E, Slides 55-57, Plat Records Rockwall County Texas (PRRCT);

THENCE easterly and southerly with the line common to said Timber Creek Estates and said McClendon tract 2 as follows:

N 89°51'04" E, a distance of 523.95 feet to a point for a corner in said common line;

S 01°05'16" E, a distance of 612.61 feet to a 1/2-inch iron rod for the southerly southwest corner of said Timber Creek Estates;

THENCE S 01°01'20" E continuing with the east line of said McClendon tract and with the west line of that West Union Investments, Co. tract as described in Volume 377, Page 273, Deed Records Rockwall County Texas, at 1644.86 feet pass a found 3/8-inch iron rod, continuing for a total distance of 1648.36 feet to a found fence post for corner, being on the north line of Ridge Haven Estates, an Addition to the City of Rockwall as recorded in Book A, Slide 213, (PRRCT);

THENCE N 88°53'47" W with the north line of said Addition, a distance of 284.75 feet to a found 1/2-inch iron rod for the northwest corner of said Addition, same being the northeast corner of Fontanna Ranch Phase II, an Addition to the City of Rockwall as recorded in Instrument No. 20170000010844, Official Public Records Rockwall County Texas (OPRRCT);

THENCE S 89°19'19" W with the north line of Fontanna Ranch, a distance of 447.16 feet to a found 1/2-inch iron rod;

THENCE N 01°00'46" W, a distance of 18.05 feet to a found iron rod with Powell & Powell cap for a corner of said Fontanna Ranch and being the southwesterly corner of that tact described in a Special

Warranty Deed to iHeartMedia Tower Company, I, LLC, as recorded in Instrument No. 20150000005151, (OPRRCT);

THENCE N 48°51'10" W, a distance of 2825.34 feet to a found 5/8-inch iron rod with Powell & Powell cap for the northwest corner of said iHeartMedia Tower Company tract;

THENCE N 48°05'00" E, with the northwesterly line of said iHeartMedia Tower Company tract, a distance of 515.38 feet to the POINT OF BEGINNING, and containing 98.3415 acres of land, more or less.

THIS PLAN WAS PREPARED USING REASONABLY RELIABLE SOURCES AND IS SUBJECT TO CHANGE PENDING A DETAILED BOUDARY SURVEY. THIS PLAN HAS NOT BEEN REVIEWED BY ANY GOVERNMENTAL AGENCY. ADDITIONAL STREETS AND/OR DRAINAGE PROVISIONS MAY BE REQUIRED. THIS PLAN IS AN ARTIST'S CONCEPTION AND IS PROVIDED FOR GENERAL INFORMATION PURPOSES ONLY. ALL PLANS FOR FACILITIES OR LAND USES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Exhibit 'D':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 10 (SF-10) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Maximum Dwelling Units (#)*	*Dwelling Units (%)*
A	65' x 125'	8,125 SF	174	85.29%
B	80' x 125'	10,000 SF	30	14.71%
		Maximum Permitted Units:	*204*	*100%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 10 (SF-10) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.50* dwelling units per gross acre of land; however, in no case should the proposed development exceed *204* dwelling units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1] & [5]	65'	80'
Minimum Lot Depth	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF
Minimum Front Yard Setback [2]	20'	20'
Minimum Side Yard Setback	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'
Minimum Length of Driveway Pavement	25'	25'
Maximum Height [3]	36'	36'
Minimum Rear Yard Setback [4]	10'	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF	2,000 SF
Maximum Lot Coverage	65%	65%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Lots fronting onto a curvilinear street, cul-de-sac or eyebrow may have the lot width reduced by up to 20% as measured at the front property line provided that the lot width is met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows maybe reduced by up to ten (10%) percent, but shall meet the minimum lot size for each lot type.

4. *Building Standards.* All development shall adhere to the following building standards:

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone.

Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

(b) *Roof Pitch.* A minimum of a *6:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) Garage Orientation. Garages maybe oriented toward the street in a front entry configuration; however, the front façade of the garage must be situated equal to or behind the front building façade of the primary structure. All garage configurations that are not front entry shall meet the requirements of Article IV, Parking and Loading, of the Unified Development Code. A minimum of 30% lots must incorporate a Swing, Traditional Swing, or J-Swing garage configuration. Swing, traditional Swing, or J-Swing garages are permitted to have a second single garage door facing the street as long as it is behind the width of the double garage door situated in the Swing configuration. All garage doors are required to be of cedar construction.

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	65' x 125'	(1), (2), (3), (4)
B	80' x 125'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and three (3) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and three (3) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on Rochell Road shall not repeat without at least four (4) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Porch and/or Sunroom Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

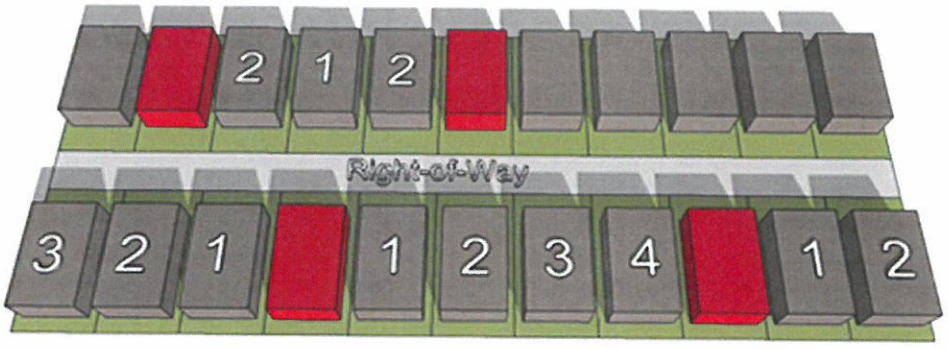

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

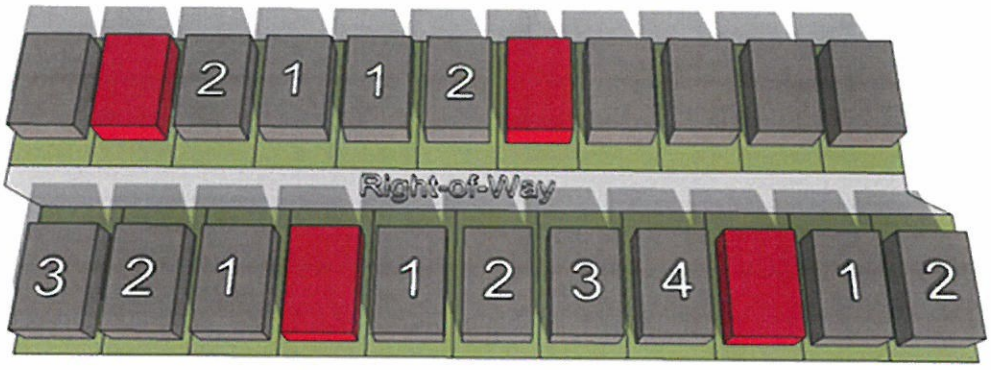

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

   (a) *Wood Fences.* All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

   (b) *Wrought Iron/Tubular Steel.* Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

   (c) *Corner Lots.* Corner lot fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) *Solid Fences (including Wood Fences).* All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. *Landscape and Hardscape Standards.*

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) *Canopy/Shade Trees.* Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) *Accent/Ornamental/Under-Story Trees.* Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) *Landscape Buffer and Sidewalks (Rochell Road).* A minimum of a 15-foot landscape buffer shall be provided along the frontage of Rochell Road (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, at least one canopy tree shall be planted per 50 linear feet of frontage. A minimum of a five (5) foot sidewalk shall be required along Rochell Road.

(3) *Street Trees.* Street trees shall generally be planted in conformance with the *Planned Development Concept Plan* as depicted in *Exhibits 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for the maintenance of all street trees and will be required to maintain a minimum of a 14-foot vertical clearance height for all trees. All street trees shall be planted a minimum of five (5) feet from all water, sanitary sewer and storm lines.

(4) *Irrigation Requirements.* Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Public Park Improvements.* The development shall incorporate a nine (9) acre, fully established natural turf (*e.g. seeding process*) and irrigated public park as generally

depicted in the *Planned Development Park Concept Plan* of *Exhibit 'C'* of this ordinance. This area shall also incorporate the following improvements:

(a) 8-ft. concrete Hike & Bike trail
(b) Playground
(c) Plaza
(d) Covered Pavilion
(e) Picnic Area
(f) Benches
(g) Landscape features including trees and other vegetation

10. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

11. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

12. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3-phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

13. *Open Space.* The development shall consist of a minimum of 23.3% open space (*or 18.97-acres*), and generally conform to the *Planned Development Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Drainage Standards.* The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns (*not lot to lot drainage*), and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances.* The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

Z2017-064 SUP- Accessory Building-4 Soapberry Lane: Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2017-064) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Worksession for this case is November 28. The Planning and Zoning Meeting for this case is December 12, 2017
I.5 The City Council meeting date for this case is December 18, 2017 and January 2, 2018
I.6 A representative is required to attend all meetings.

The purpose of this request is to have permission to enclose an existing shed approved and built in 2003.

It was originally permitted as an "RV Shed". We are requesting permission now to enclose the structure for security purposes for the storage of trailers, tractors, and other yard equipment.

Attached are pictures of the existing structure, and our plans are to enclose it between the existing brick columns with R9 metal panels, with doors on the front of the structure. Plans are to use non-glossy green panels.

Please contact Robert (Bob) Rash with any questions, or other needed information.

(11/20/2017 3:44 PM SH)
Must show proposed water and sewer lines on preliminary plat.
Correct "Final Plat" to "Preliminary Plat."
Include the 25'x25' visibily easement on Block D lot 25.
What is the distance between Block E, Lot 7 and Block E, Lot 9?
Must show flood plane boundaries and studied cross sections.
Must include two GPS coordinates for tie in.
Temporary access easement on the north east corner is not permitted by engineering review. Water line must loop within the subdivision. A temporary access easement is required for a turn-around.

(11/21/2017 3:44 PM SH)
Must add a drainage easement north of Block FF, Lot 42 per engineering comments.

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Stone Creek Balance, LTD. for the approval of a preliminary plat for Stone Creek, Phase IX containing 63 single-family residential lots on a 17.418-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, generally located north of the northwest corner of the intersection of Hays Road and E. Quail Run Road, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

The following staff comments are to be addressed and resubmitted (as a preliminary plat) no later than Tuesday, December 5, 2017. Please provide two FOLDED large copies [24" X 36"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements stipulated by the PD Ordinance (PD-82) as amended.
2. The preliminary plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.
3. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. Approval of a final treescape plan will be required at final plat.
4. Provide a label indicating the width of the lot at the build line for the following Lots: 10, 13, 14, 15, 16, & 17, Block E and Lots 38, 39, & 40, Block FF (must be a minimum of 60-ft lot frontage at the build line for curviliner lots).
5. The preliminary plat shall conform to Park District No. 5 requirements and the recommendations made by the Parks Board at their regularly scheduled meeting to be held on December 5, 2017.
6. Provide a label indicating "Case No. P2017-058" on the lower right corner on all pages of the revised submittal.
7. Submittal and approval of civil engineering plans prior to submittal of final plat.
8. Provide dimensional data for rights-of-way, improvement, easements.
9. Provide a lable indiating the zoning (i.e. PD-70)
10. Provide a lot table indicating lot square footages, meeting PD-70 standards.
11. Provide topo at 2' intervals, any wooded areas, drainage and 100 year floodplain (if applicable).
12. Provide info for all proposed storm drainage - see engr requirements.
13. Provide proposed street names.
14. Re-submit page 1 and page 2 separately for the preliminary plat (24" x 36").
15. Change title block to read Preliminary Plat (not final plat).
16. Provide labels for open space areas indicating "To Be Maintained by HOA."
17. Use a lighter gray scale for all lots outside of plat area.

Although not requried staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Planning - Work Session: November 28, 2017 (6:00 p.m.) [applicant to present case to P&Z for discussion].

Parks Board Meeting: December 5,, 2017 (6:00 p.m.)

Planning - Regular Meeting: December 12, 2017 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)

City Council - Regular Meeting: December 18, 2017(6:00 p.m.) [City Council to take action]

LEGAL DESCRIPTION

BEING, a tract of land situated in the S. King Survey, Abstract No. 131 in the City of Rockwall, Rockwall County, Texas, being part of a tract of land as described in Stone Creek Balance LTD., Clerks File No. 2007-00375394 in the Deed Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING, at a ½ inch iron rod found at the northeast corner of a 28.655 acre tract, as described in Doc. No. 20170000003301, in said Deed Records and being in Hays Road (Variable R.O.W.);

THENCE, South 89° 24'25" West, along the north line of said 28.655 acre tract, for a distance of 448.33 feet, to a ½ inch iron rod found at the point of curvature of a curve to the left, having a radius of 1270.00 feet, a central angle of 11° 10'37", and a tangent of 124.27 feet;

THENCE, continuing along said north line and with said curve to the left for an arc distance of 247.74 feet (Chord Bearing South 83° 49'06" West - 247.35 feet), to a ½ inch iron rod found at the point of reverse curvature of a curve to the right, having a radius of 680.00 feet, a central angle of 14° 11'44", and a tangent of 84.67 feet;

THENCE, continuing along said north line and with said curve to the right for an arc distance of 168.48 feet (Chord Bearing South 85° 19'40" West - 168.05 feet), to a ½ inch iron rod found at the northwest corner of said 28.655 acre tract;

THENCE, South 02° 25'32" West, along the west line of said 28.655 acre tract, for a distance of 120.00 feet, to a ½ inch iron rod found on a non-tangent curve to the right, having a radius of 800.00 feet, a central angle of 01° 08'34", and a tangent of 7.98 feet;

THENCE, continuing along said west line and with said curve to the right for an arc distance of 15.95 feet (Chord Bearing North 87° 00'11" West - 15.95 feet), to a ½ inch iron rod found;

THENCE, South 03° 34'06" West, continuing along said west line, for a distance of 50.00 feet, to a ½ inch iro rod found;

THENCE, South 00° 35'35" East, continuing along said west line, for a distance of 130.98 feet, to a ½ inch rod found at the northeast corner of Stone Creek Phase VII, an addition to the City of Rockwall, as described in Cab. I, Pgs. 392-393 in the Plat Records of Rockwall County, Texas, being on a curve to the right, having a radius of 595.00 feet, a central angle of 12° 04'57", and a tangent of 62.97 feet;

THENCE, departing the west line of said 28.655 acre tract and along the north line of said Stone Creek Phase VII and with said curve to the right for an arc distance of 125.47 feet (Chord Bearing North 79° 24'33" West - 125.24 feet), to a ½ inch iron rod found at the point of reverse curvature of a curve to the left, having a radius of 555.00 feet, a central angle of 48° 39'50", and a tangent of 250.97 feet;

THENCE, continuing along said north line and with said curve to the left for an arc distance of 471.39 feet (Chord Bearing South 82° 18'00" West - 457.35 feet), to a ½ inch iron rod found;

THENCE, North 32° 01'55" West, continuing along said north line, for a distance of 120.00 feet, to a ½ inch iron rod found on a non-tangent curve to the right, having a radius of 625.00 feet, a central angle of 03° 13'55", and a tangent of 19.40 feet;

THENCE, continuing along said north line and with said curve to the right for an arc distance of 38.08 feet (Chord Bearing North 59° 35'03" East - 38.07 feet), to a ½ inch iron rod found;

THENCE, North 28° 47'59" West, continuing along said north line, for a distance of 170.00 feet, to a ½ inch iron rod found at the most northerly corner of said Stone Creek Phase VII, being on a curve to the left, having a radius of 845.00 feet, a central angle of 25° 32'12", and a tangent of 191.49 feet;

THENCE, continuing along said north line and with said curve to the left for an arc distance of 376.62 feet (Chord Bearing South 48° 25'55" West - 373.51 feet), to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the point of tangency;

THENCE, South 35° 39'49" West, continuing along said north line, for a distance of 120.00 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, North 54° 20'11" West, continuing along said north line, for a distance of 51.41 feet, to a ½ inch iron rod found being in the easterly line of Stone Creek Phase IV, an addition to City of Rockwall as described in Cab. H, Pg. 317-318, in said Plat Records;

THENCE, North 32° 48'57" East, departing the north line of said Stone Creek Phase VII and along the easterly line of said Stone Creek Phase IV, for a distance of 596.94 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, South 61° 26'29" East, departing said easterly line, for a distance of 201.15 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", on a non-tangent curve to the left, having a radius of 475.00 feet, a central angle of 01° 01'09", and a tangent of 4.23 feet;

THENCE, along said curve to the left for an arc distance of 8.45 feet (Chord Bearing South 28° 02'57" West - 8.45 feet), to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", on a curve to the left, having a radius of 880.00 feet, a central angle of 36° 03'38", and a tangent of 286.44 feet;

THENCE, continuing along said curve to the left for an arc distance of 553.85 feet (Chord Bearing South 81° 12'30" East - 544.75 feet), to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the point of reverse curvature of a curve to the right, having a radius of 1560.00 feet, a central angle of 08° 38'43", and a tangent of 117.92 feet;

THENCE, along said curve to the right for an arc distance of 235.39 feet (Chord Bearing North 85° 05'03" East -235.16 feet), to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the point of tangency;

THENCE, North 89° 24'25" East, for a distance of 218.33 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, North 00° 35'35" West, for a distance of 29.20 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, North 89° 24'25" East, for a distance of 230.00 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", in the east line of said Stone Creek Balance Ltd. tract, being in said Hays Road;

THENCE, South 00° 35'35" East, along the east line of said Stone Creek Balance Ltd. tract and with said Hays Road, for a distance of 319.20 feet, to the POINT OF BEGINNING and containing 17.371 acres of land.

SURVEYOR CERTIFICATE

I, WARREN L. CORWIN, do hereby certify that the plat shown hereon accurately represents the results of an on-the-ground survey made under my direction and supervision and all corners are as shown thereon and there are no encroachments, conflicts, protrusions or visible utilities on the ground except as shown and said plat has been prepared in accordance with the platting rules and regulations of the City Plan Commission of the City of Rockwall, Texas.

DATED the this_____day of_____, 2017.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the STONE CREEK PHASE IX, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the STONE CREEK PHASE VIII, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

Two means of fire apparatus access shall be provided for developments of one or two-family dwellings where the number of dwelling units exceeds 30. (Exception: Where there are more than 30 dwelling units on a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3 of the International Fire Code, access from two directions shall not be required.)

Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses.

If utilizing emergency access as secondary access point, it shall be installed and approved prior to releasing of any lots in the development. Fire Marshal shall approve any access control devices being utilized across access points.

Please submit new replacement name for Victory Av. since we already have a Victory in the City.
All other proposed names are approved.

During final platting: Submitt cad file with parcels and street centerlines , closure report, and tie two corners to State Plane Coordinate system (NAD83 North Central Texas 4202).
Addressing of lots will begin at this phase.

PLANNING	Korey Brooks	11/16/2017	11/23/2017	11/22/2017	6	COMMENTS	Comments

P2017-59 The Standard Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 47 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S. SH-205] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2017-059) in the lower right hand corner of all pages on future submittals.
M.4 Will need to provide tree screening at the north property line (adjacent to Lots 11-19)
M.5 Since this development will be done in one phase, no master plat is needed.
M.6 The 60-foot ROW between Lots 4 and 6 needs to be a public access, fire lane, utilities easement
M.7 Please provide an openspace master plan.
M.8 Please check the graphic scale. It seems to be off.
I.9 The min SF for each Lot is 5,330 SF—Please review the PD-68 Ordinance.
M.10 The min lot depth is 82-feet. Please check Lot 1, Block B
M.11 The min side yard setback adjacent to a street is 13-feet. Please check Lots 1, 8, 9 and 15, Block B and Lots 1, 5, 6, and 9, Block C.
M.12 The min lot width is 65-feet. Please check your lots in the curves and ensure that you are measuring the frontage at the front yard setback.
M.13 Are you building a wall in the ROW?
M.14 You are required to connect to the adjacent lot for Emergency Access. Your plat shows “Emergency Accessbut the Landscape Plans show “Openspace”
M.15 Your PD Ordinance limits you to no more than 46 units at 3.6 DU/Acre. You are showing 47 Units at 3.61 DU/Acre. You will need to subtract one lot or open the PD to ask for the additional lot and density.
M.16 Your Utility Plan title block says “Proposed Utility Utility Services”. Please remove the second “Utility”
M.17 Please provide a legend for the symbols on the Utility Plan.
M.18 On your Treescape Plan, Tree 3041 is 14 caliper inches and should be mitigated at 7-inches. You are showing 6-inches. Trees 3026 and 4021 are feature trees and require P&Z Approval to be removed. Additionally, they are Protected Feature Trees and require mitigation at twice the number of inches removed. Tre 3026 should be mitigated at 12-inches and tree 4021 should be mitigated at 20-inches.
M.19 There shall be a minimum of one tree for each 750 square feet of dry land area for the detention pond.
I.20 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning and Zoning Worksession for this case is November 28, 2017. The Planning and Zoning Meeting for this case is December 12, 2017. The Park Board Meeting for this case is December 5, 2017. The City Council Date for this case is December 18.

See mark ups.
All easements must be a minimum of 20' wide.
The driveway entrance to the property line must match the design of Yellowjacket.
Fire lanes are required to be 24' wide.
Label curb inlets.
Min. spacing between sewer and inlet is 10'.
No curbs in fire lane.
Is the divide between drive-thru lanes striped or raised? If raised, the lanes must be min. 11' wide.
Required TxDOT driveway permit on S Goliad.
No trees within 5' of any public utility.
Move bushes away from the meters.
4% engineering fees
Impact fees

SP2017-037 Chick-Fil-A: Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-037) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Commercial (C) District and situated in the SH 205 Overlay (SH205 OV) District.

M.6 Site Plan. Please provide Lot Coverage Percentage as well as pervious v.s. impervious % on the Site Data Table.

M.7 Site Plan. Please check your driveway width—24-feet is the minimum

M.8 Site Plan. Try to angle the dumpsters more toward the building. They cannot face SH-205. As shown, they may face SH-205.

M.9 Site Plan. Please indicate if there will be a walk-up window and label, showing access to the window.

M.10 Site Plan. Please check with franchise utilities before any easements can be abandoned. This will be taken care of at final plat.

M.11 Site Plan. Please show property linetype in legend.

M.12 Site Plan. Please provide elevation of dumpster enclosure. Note that in an overlay district, the enclosure is 8-feet high.

M.13 Landscape Plan. Please provide the same Site Data Table as provided on the Site Plan.

M.14 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.15 Landscape Plan. Please indicate the landscape buffer. You refer to it in the landscape requirements, however it is not shown. Additionally, it appears that you will not be able to meet the 20-foot landscape buffer requirement.

M.16 Landscape Plan. The canopy tree shown adjacent to Yellow Jacket Lane appears to be outside of the landscape buffer. Additionally, you do not appear to be meeting the canopy tree requirement along Yellow Jacket. Please check the SH-205 Overlay (SH-205 OV) District standards as well as the Commercial (C) District standards.

M.17 Landscape Plan. Please “call out” the sod by name on the landscape plan and show it as a hatch pattern.

M.18 Landscape Plan. Please show centerlines for Yellow Jacket Lane and Goliad.

M.19 Landscape Plan. No parking space shall be more than 80-feet away from a canopy tree. Please show an 80-foot circular buffer from the three trees closest to the parking to ensure that each space is adequately covered.

M.20 Landscape Plan. Please show visibility triangles at drive entrances.

M.21 Landscape Plan. Please ensure the monument sign is not in an easement.

M.22 Photometric Plan. Please show and indicate property line on photometric plan.

M.23 Photometric Plan. Please show centerline of Yellow Jacket and Goliad.

M.24 Building Elevations. Please show non-rendered, B/W building elevations in addition to the elevations provided.

M.25 Building Elevations. Please note that as shown, the building will require a variance to 4 sided architecture and stone requirements. Additionally, a variance may be required for the amount of secondary material (red metal panel)

M.26 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.27 Building Elevations.Please indicate the elevation that faces the street.

M.28 Building Elevations. Please provide dumpster enclosure elevation and perspective renderings of the building.

M.29 Building Elevations. Please remove “Chick-Fil-A” from the side of the building and indicate “Signage”. Signage approval is done through a separate process through Building Inspections.

I.30 The Architectural Review Board (ARB) meeting for this case will be held on November 28, 2017 at 5:00 p.m.

I.31 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
additional information that is requested. Revisions for this case will be due on December 5, 2016. The Planning and Zoning Worksession for this case will be November 28, 2014 at 6:00 p.m. The Planning and Zoning Meeting will be December 12, 2017. A representative is required to attend all meetings.							
I.32 If necessary the projected City Council meeting date for this case will be December 18, 2017.

Re: Chick-fil-A # 04222 at the SWC of SH 205 & Yellow Jacket Variance Request

Dear Planning Department,

In conjunction with our Site Plan submittal package, we request the following two (2) variances for the proposed Chick-fil-A drive-thru restaurant at the southwest corner of SH 205 (Goliad Street) and West Yellow Jacket Lane:

Landscape Buffer along SH 205
Section 6.7.E.1 of the Unified Land Development Code (ULDC) requires that sites within the SH 205 Overlay District provide a minimum 20-ft wide buffer strip along SH 205. The former uses that existed on this site included a convenience store/gas station and a restaurant, both of which provided minimal ground cover and landscaping along SH 205.

The development plan for the proposed Chick-fil-A provides a minimum 10-ft wide buffer strip along SH 205. Within this buffer, a variety of trees and shrubs are provided to enhance the frontage of this lot.

We request a variance to provide a 10-ft landscape buffer along SH 205 in lieu of the 20-ft landscape buffer specified in Section 6.7.E.1 of the ULDC.

Roof Design Standard
Section 6.7.C.2 of the Unified Land Development Code requires that structures with less than a 6,000 sf footprint be constructed with a pitched roof system.

The typical Chick-fil-A restaurant model prototype provides a flat roof as illustrated in the provided Building Elevations.

We request a variance to provide a flat roof system per the Chick-fil-A standard in lieu of the pitched roof system specified in Section 6.7.C.2 of the ULDC.

We appreciate your acceptance of our Site Plan submittal, and request your recommendation to the Planning and Zoning Commission and City Council for the approval of these variances. If you have any questions or comments, please feel free to contact me at 817-467-7700 or RandyE@WierAssociates.com.

Truly yours,

Randy Eardley, PE
Wier & Associates, Inc.
Texas Firm Registration No. F-2776

NOTES

1. ALL ON-SITE CONSTRUCTION SHALL BE IN ACCORDANCE WITH CURRENT CHICK-FIL-A SPECIFICATIONS, WHICHEVER IS MORE RESTRICTIVE.
2. ALL CONSTRUCTION IN CITY RIGHT-OF-WAYS AND/OR EASEMENT SHALL BE IN ACCORDANCE WITH THE CITY'S STANDARD SPECIFICATIONS.
3. PRIOR TO STARTING CONSTRUCTION, THE CONTRACTOR SHALL MAKE CERTAIN THAT ALL REQUIRED PERMITS AND APPROVALS HAVE BEEN OBTAINED. NO CONSTRUCTION OR FABRICATION SHALL BEGIN UNTIL THE CONTRACTOR HAS RECEIVED AND THOROUGHLY REVIEWED ALL PLANS AND OTHER DOCUMENTS AS APPROVED BY ALL OF THE PERMITTING AUTHORITIES.
4. THE CONTRACTOR IS RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING UTILITIES DURING THE CONSTRUCTION OF THIS PROJECT.
5. IF CONTRACTOR FINDS A DISCREPANCY WITH THE TOPOGRAPHIC INFORMATION ON THESE PLANS, HE/SHE SHALL CONTACT THE CONSTRUCTION MANAGER/SUPERVISOR IMMEDIATELY.
6. ALL DIMENSIONS SHOWN ARE TO FACE OF CURB, BRICK, OR AS OTHERWISE NOTED.
7. REFER TO ARCHITECTURAL PLANS FOR EXACT BUILDING DIMENSIONS.
8. ALL RADII ARE 2' UNLESS OTHERWISE NOTED.
9. ALL PARKING STALLS SHALL BE STRIPED IN ACCORDANCE W/APPLICABLE GOVERNING AUTHORITIES.
10. BUILDING IS PARALLEL & PERPENDICULAR TO SOUTH & WEST PROPERTY LINES.

CALL BEFORE YOU DIG 1-800-245-4545 TEXAS ONE CALL SYSTEM

CAUTION !!

EXISTING UTILITIES ARE INDICATED ON THE PLANS FROM AVAILABLE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY THE LOCATION OF ALL UTILITIES, TO NOTIFY ALL UTILITY COMPANIES OF THE CONTRACTORS OPERATIONS, TO PROTECT ALL UTILITIES FROM DAMAGE, TO REPAIR ALL UTILITIES DAMAGED DUE TO THE CONTRACTORS OPERATIONS, AND TO NOTIFY THE ENGINEER PROMPTLY OF ALL CONFLICTS OF THE WORK WITH EXISTING UTILITIES.

EXISTING TREE TO REMAIN

LANDSCAPE NOTES

1. Landscape Contractor to read and understand the Landsacpe Specifications (sheet L-102) prior to finalizing bids. The Landscape Specifications shall be adhered to throughout the construction process.
2. Contractor is responsible for locating and protecting all underground utilities prior to digging.
3. Contractor is responsible for protecting existing trees from damage during construction.
4. All tree protection devices to be installed prior to the start of land disturbance, and maintained until final landscaping.
5. All tree protection areas to be protected from sedimentation.
6. All tree protection fencing to be inspected daily, and repaired or replaced as needed.
7. No parking, storage or other construction activities are to occur within tree protection areas.
8. All planting areas shall be cleaned of construction debris (ie. concrete, rock, rubble, building materials, etc) prior to adding and spreading of the topsoil.
9. General Contractor is responsible for adding a min of 4" clean friable topsoil in all planting beds and all grassed areas. Graded areas to be held down the appropriate elevation to account for topsoil depth. See Landscape Specifications for required topsoil characteristics.
10. In all parking lot islands, the General Contractor is responsible to remove all debris, fracture/loosen subrade to a min. 24" depth. Add topsoil to a 6"-8" berm height above island curbing; refer to landscape specifications and landscape island detail.
11. Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve topsoil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.
12. Any deviations from the approved set of plans are to be approved by the Landscape Architect.
13. Landscaping shall be installed in conformance with ANSI Z60.1 the "American Standard for Nursery Stock" and the accepted standards of the American Association of Nurserymen.
14. Existing grass in proposed planting areas shall be killed and removed. Hand rake to remove all rocks and debris larger than 1 inch in diameter, prior to adding topsoil and planting shrubs.
15. Soil to be tested to determine fertilizer and lime requirements prior to laying sod.
16. Annual and perennial beds: add min. 4 inch layer of organic material and till to a min. depth of 12 inches. Mulch annual and perennial beds with 2-3 inch depth of mini nuggets.
17. All shrubs beds (existing and new) to be mulched with a min. 3 inch layer of rock mulch.
18. Planting holes to be dug a minimum of twice the width of the root ball, for both shrub and tree. Set plant material 2-3" above finish grade. Backfill planting pit with topsoil and native excavated soil.
19. Sod to be delivered fresh (Cut less than 24 hours prior to arriving on site), laid immediately, rolled, and watered thoroughly immediately after planting. Edge of sod at planting beds are to be "V" trenched; see Landscape Details.
20. Any existing grass disturbed during construction to be fully removed, regraded and replaced. All tire marks and indentions to be repaired.
21. Water thoroughly twice in first 24 hours and apply mulch immediately.
22. The Landscape Contractor shall guarantee all plants installed for one full year from date of acceptance by the owner. All plants shall be alive and at a vigorous rate of growth at the end of the guarantee period. The Landscape Contractor shall not be responsible for acts of God or vandalism. See Landscape Specifications for Warranty requirements/expectations.
23. Any plant that is determined dead, in an unhealthy, unsightly condition, lost its shape due to dead branches, or other symptoms of poor, non-vigorous growth, shall be replaced by the Landscape Contractor. See Landscape Specifications for warranty requirements/expectations.
24. Site to be 100% irrigated in all planting beds and grass area by an automatic underground Irrigation System. See Irrigation Plan L-200 for design. Irrigation as-built shall be provided to the Landscape Architect within 24 hours of irrigation install completion.
25. Stake all evergreen and deciduous trees as shown in the planting detail and as per the Landscape Specifications.
26. Remove stakes and guying from all trees after one year from planting.

	Groundcovers			
71	Melampodium leucanthum	Blackfoot Daisy	Min. 1 Gal.	
2438	Cynodon dactylon	Hybrid Bermuda Grass	SF; Sod	

LANDSCAPE REQUIREMENTS

A. SH 205 OVERLAY DISTRICY

REQUIRED

1. 20' buffer strip with 2 Canopy and 4 Accent Trees along street frontage.
   W. Yellow Jacket Ln: 99 LF / 100 = 2 Canopy, 4 Accent Trees
   S. Goliad St (SH 205): 145 LF / 100 = 3 Canopy, 6 Accent Trees
2. Continuous screen hedge required along street frontage
3. Canopy trees min. 4" Cal; Accent trees min. 4' hgt
4. Deciduous shrubs min. 15" hgt, min. 2 gal.; Evergreen shrubs min. 12" hgt, min. 2 gal.

PROVIDED

1. W. Yellow Jacket Ln: 8 Yaupon Holly (overhead power present)
   S. Goliad St (SH 205): 3 Maple, 6 Yaupon Holly
2.
3. Trees specified at minimum required sizes
4. Shrubs specified at minimum required sizes

B. PARKING LOT

REQUIRED

1. Min. 5% of VUA must be interior landscape area.
   18,240 SF x 5% = 912 SF Required
2. Min. 15% of total site to be landscape area
   28,562 SF x 15% = 4,284 SF Required

PROVIDED

1. 3,084 SF interior landscape area provided
2. 6,562 SF of total landscape area provided

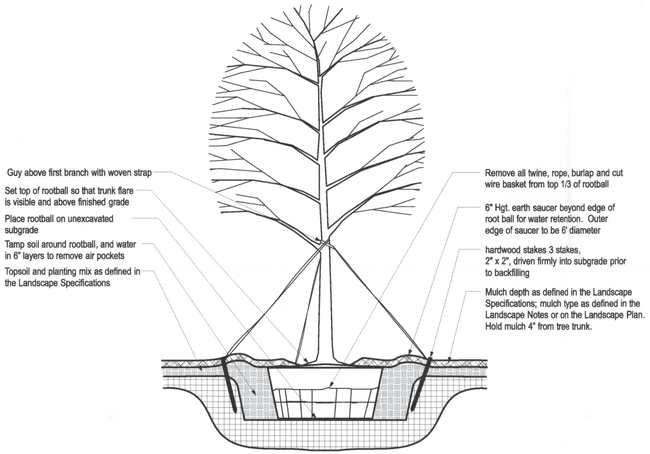
Landscape Plan

SHEET NUMBER

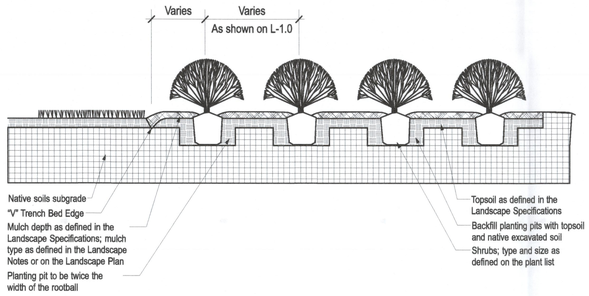
L-100



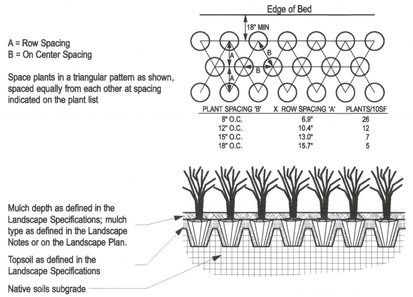
NOTE

1. Hole to be twice the width of the rootball.
2. Do not heavily prune tree at planting. Prune only crossover limbs, broken or dead branches; Do not remove the terminal buds of branches that extend to the edge of the crown.
3. Each tree must be planted such that the trunk flare is visible at the top of the rootball. Trees where the trunk flare is not visible shall be rejected. Do not cover the top of the rootball with soil. Mulch to be held back 4" away from trunk.
4. Remove Guy Wires and Staking when warranty period has expired (after one year).

1 TREE PLANTING AND STAKING DETAIL
SCALE: NTS



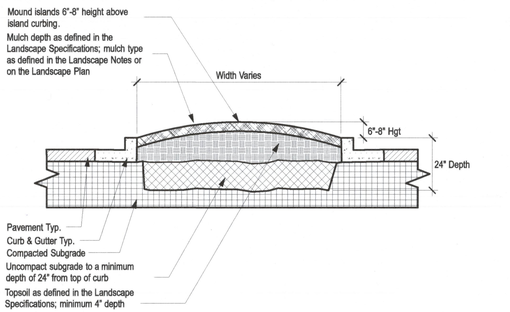
2 SHRUB BED PLANTING DETAIL
SCALE: NTS



NOTE

1. Space groundcover plants in accordance with indicated spacing listed on the plant list, or as shown on the landscape plan.
2. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants.
3. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

3 GROUNDCOVER PLANTING DETAIL
SCALE: NTS



NOTE

1. Clean construction debris from within landscape island areas (ie. concrete, rocks, rubble, building materials, ect), prior to installing topsoil and plant material.
2. Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum bermed 6"-8" height above island curbing.
3. Island plant material as per the Landscape Plan.
4. Install plant material as per tree, shrub and ground cover planting details, and as defined in the Landsacpe Specifications.
5. Install mulch or sod as specified on the Landscape Plan, and as defined in the Landscape Specifications.

Landscape Details

SHEET NUMBER

L-101

LANDSCAPE SPECIFICATIONS

PART 1 - GENERAL

DESCRIPTION
Provide trees, shrubs, ground covers, sod, and annuals/perennials as shown and specified on the landscape plan. The work includes:

1. Soil preparation.
2. Trees, shrubs, ground covers, and annuals/perennials.
3. Planting mixes.
4. Top Soil, Mulch and Planting accessories.
5. Maintenance.
6. Decorative stone.

Related Work:

1. Irrigation System; see irrigation specifications (sheet L-2.2)

QUALITY ASSURANCE
Plant names indicated; comply with "Standardized Plant Names" as adopted by the latest edition of the American Joint Committee of Horticultural Nomenclature. Names of varieties not listed conform generally with names accepted by the nursery trade. Provide stock true to botanical name and legibly tagged.

Comply with sizing and grading standards of the latest edition of "American Standard for Nursery Stock". A plant shall be dimensioned as it stands in its natural position.

All plants shall be nursery grown under climatic conditions similar to those in the locality of the project for a minimum of 2 years.

Nursery Stock furnished shall be at least the minimum size indicated. Larger stock is acceptable, at no additional cost, and providing that the larger plants will not be cut back to size indicated. Provide plants indicated by two measurements so that only a maximum of 25% are of the minimum size indicated and 75% are of the maximum size indicated.

Before submitting a bid, the Contractor shall have investigated the sources of supply and be satisfied that they can supply the listed plants in the size, variety and quality as specified. Failure to take this precaution will not relieve the Contractor from their responsibility for furnishing and installing all plant materials in strict accordance with the Contract Documents without additional cost to the Owner. The Landscape Architect shall approve any substitutes of plant material, or changes in plant material size, prior to the Landscape Contractor submitting a bid.

DELIVER, STORAGE AND HANDLING
Take all precautions customary in good trade practice in preparing plants for moving. Workmanship that fails to meet the highest standards will be rejected. Spray deciduous plants in foliage with an approved "Anti-Desiccant" immediately after digging to prevent dehydration. Dig, pack, transport, and handle plants with care to ensure protection against injury. Inspection certificates required by law shall accompany each shipment invoice or order to stock. Protect all plants from drying out. If plants cannot be planted immediately upon delivery, properly protect them with soil, wet peat moss, or in a manner acceptable to the Landscape Architect. Water heeled-in plantings daily. No plant shall be bound with rope or wire in a manner that could damage or break the branches. Cover plants transported on open vehicles with a protective covering to prevent wind burn.

PROJECT CONDITIONS
Protect existing utilities, paving, and other facilities from damage caused by landscape operations.

A complete list of plants, including a schedule of sizes, quantities, and other requirements are shown on the drawings. In the event that quantity discrepancies or material omissions occur in the plant materials list, the planting plans shall govern.

The irrigation system will be installed prior to planting. Locate, protect and maintain the irrigation system during planting operations. Repair irrigation system components damaged during planting operations; at the Contractor's expense. Refer to the irrigation specifications, irrigation plan and irrigation details.

Do not begin landscape accessory work before completion of final grading or surfacing.

WARRANTY
Warrant plant material to remain alive, be healthy and in a vigorous condition for a period of 1 year after completion and final acceptance of entire project.

Replace, in accordance with the drawings and specifications, all plants that are dead or, are in an unhealthy, or unsightly condition, and have lost their natural shape due to dead branches, or other causes due to the Contractor's negligence. The cost of such replacement(s) is at the Contractor's expense. Warrant all replacement plants for 1 year after installation.

Warranty shall not include damage, loss of trees, plants, or ground covers caused by fires, floods, freezing rains, lightning storms, winds over 75 miles per hour, winter kill caused by extreme cold, severe winter conditions not typical of planting area, and/or acts of vandalism or negligence on a part of the Owner.

Remove and immediately replace all plants, found to be unsatisfactory during the initial planting installation.

Maintain and protect plant material, lawns, and irrigation until final acceptance is made.

ACCEPTANCE
Inspection of planted areas will be made by the Owner's representative.

1. Planted areas will be accepted provided all requirements, including maintenance, have been complied with and plant materials are alive and in a healthy, vigorous condition.

Upon acceptance, the Contractor shall commence the specified plant maintenance.

CODES, PERMITS AND FEES
Obtain any necessary permits for this Section of Work and pay any fees required for permits.

The entire installation shall fully comply with all local and state laws and ordinances, and with all established codes applicable thereto; also as depicted on the landscape and irrigation construction set.

PART 2 - PRODUCTS

MATERIALS
Plants: Provide typical of their species or variety; with normal, densely developed branches and vigorous, fibrous root systems. Provide only sound, healthy, vigorous plants free from defects, disfiguring knots, sun scald injuries, frost cracks, abrasions of the bark, plant diseases, insect eggs, borers, and all forms of infestation. All plants shall have a fully developed form without voids and open spaces. Plants held on storage will be rejected if they show signs of growth during the storage period.

1. Balled and plants wrapped with burlap, to have firm, natural balls of earth of sufficient diameter and depth to encompass the fibrous and feeding root system necessary for full recovery of the plant. Provide ball sizes complying with the latest edition of the "American Standard for Nursery Stock". Cracked or mushroomed balls, or signs of circling roots are not acceptable.
2. Container- grown stock: Grown in a container for sufficient length of time for the root system to have developed to hold its soil together, firm and whole.
   a. No plants shall be loose in the container.
   b. Container stock shall not be pot bound.
3. Plants planted in rows shall be matched in form.
4. Plants larger than those specified in the plant list may be used when acceptable to the Landscape Architect.
   a. If the use of larger plants is acceptable, increase the spread of roots or root ball in proportion to the size of the plant.
5. The height of the trees, measured from the crown of the roots to the top of the top branch, shall not be less than the minimum size designated in the plant list.
6. No pruning wounds shall be present with a diameter of more than 1" and such wounds must show vigorous bark on all edges.
7. Evergreen trees shall be branched to the ground or as specified in plant list.
8. Shrubs and small plants shall meet the requirements for spread and height indicated in the plant list.
   a. The measurements for height shall be taken from the ground level to the height of the top of the plant and not the longest branch.
   b. Single stemmed or thin plants will not be accepted.
   c. Side branches shall be generous, well-twigged, and the plant as a whole well-bushed to the ground.
   d. Plants shall be in a moist, vigorous condition, free from dead wood, bruises, or other root or branch injuries.

ACCESSORIES
Topsoil: Shall be Fertile, friable, natural topsoil of loamy character, without admixture of subsoil material, obtained from a well-drained arable site, reasonably free from clay, lumps, coarse sands, stones, roots, sticks, and other foreign materials, with acidity range of between pH 6.0 and 6.8.

Note: All planting areas shall be cleaned of construction debris (ie. Concrete, rubble, stones, building material, etc.) prior to adding and spreading of the top soil.

1. *Sod Areas:* Spread a minimum 4" layer of top soil and rake smooth.
2. *Planting bed areas:* Spread a minimum 4" layer of top soil and rake smooth.
3. *Landscape Islands/Medians:* Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum berm 6"-8" height above island curbing.
4. *Annual/Perennial bed areas:* Add a minimum of 4" organic matter and till to a minimum 12" depth.

Mulch: Type selected dependent on region and availability; see landscape plans for type of much to be used. Hold mulch 4" from tree trunks and shrub stems.

1. Hardwood: 6 month old well rotted double shredded native hardwood bark mulch not larger than 4" in length and ½" in width, free of wood chips and sawdust. Install minimum depth of 3".
2. Pine Straw: Pine straw to be fresh harvest, free of debris, bright in color. Bales to be wired and tightly bound. Needles to be dry. Install minimum depth of 3".
3. River Rock: (color) light gray to buff to dark brown, washed river rock, 1" – 3" in size. Install in shrub beds to an even depth of 3". Weed control barrier to be installed under all rock mulch areas. Use caution during installation not to damage plant material.
4. Mini Nuggets: Install to a minimum depth of 2"-3" at all locations of annual and perennial beds. Lift the stems and leaves of the annuals and carefully spread the mulch to avoid injuring the plants. Gently brush the mulch off the plants.

Guying/Staking:

1. Arbortie: Green (or white) staking and guying material to be flat, woven, polypropylene material, ¾" wide 900 lb. break strength. Arbortie shall be fastened to stakes in a manner which permits tree movement and supports the tree.
2. Remove Guying/Staking after one year from planting.

Tree Wrap: Tree wraps should be used on young, newly planted thin-barked trees (Cherry, Crabapple, Honey Locust, Linden, Maple, Mountain Ash, Plum) that are most susceptible to sun scald/Sunburn. Standard waterproofed tree wrapping paper, 2-1/2" wide, made of 2 layers of crepe Draft paper weighing not less than 30 lbs. per ream, cemented together with asphalt. Wrap the tree in the fall and leave the wrap in place throughout the winter and early spring. Tree wraps are temporary and no longer needed once trees develop corky bark.

PART 3 – EXECUTION

INSPECTION
Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve top soil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, and work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.

PREPARATION
Planting shall be performed only by experienced workmen familiar with planting procedures under the supervision of a qualified supervisor.

Locate plants as indicated on the plans or as approved in the field after staking by the Landscape Contractor. If obstructions are encountered that are not shown on the drawings, do not proceed with planting operations until alternate plant locations have been selected and approved by the Landscape Architect; spacing of plant material shall be as shown on the landscape plan.

Excavate circular plant pits with vertical sides, except for plants specifically indicated to be planted in beds. Provide shrub pits at least 12" greater than the diameter of the root system and 24" greater for trees. Depth of pit shall accommodate the root system. Provide undisturbed sub grade to hold root ball at nursery grade as shown on the drawings.

INSTALLATION
Set plant material in the planting pit to proper grade and alignment. Set plants upright, plumb, and faced to give the best appearance or relationship to each other or adjacent structure. Set plant material 2" – 3" above the finish grade. No filling will be permitted around trunks or stems. Backfill the pit with topsoil mix and excavated material. Do not use frozen or muddy mixtures for backfilling. Form a ring of soil around the edge of each planting pit to retain water.

After balled and wrapped in burlap plants are set, muddle planting soil mixture around bases of balls and fill all voids.

1. Remove all burlap, ropes, and wires from the top 1/3 of the root ball

Space ground covar plants in accordance with indicated dimensions. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

Mulching:

1. Mulch tree and shrub planting pits and shrub beds with required mulching material (see landscape plan for mulch type); depth of mulch as noted above. **Hold mulch back 4" away from tree trunks and shrub stems.** Thoroughly water mulched areas. After watering, rake mulch to provide a uniform finished surface.

Decorative Stone: (where indicated on landscape plan)

1. Install weed control barrier over sub-grade prior to installing stone. Lap 6" on all sides.
2. Place stone without damaging weed barrier.
3. Arrange stones for best appearance and to cover all weed barrier fabric.

Wrapping, guying, staking:

1. Inspect trees for injury to trunks, evidence of insect infestation, and improper pruning before wrapping.
2. Wrapping:
   a. Wrap trunks of all young newly planted trees known to have thin bark. Wrap spirally from bottom to top with specified tree wrap and secure in place.
   b. Overlap ¼ the width of the tree wrap strip and cover the trunk from the ground to the height of the second branch.
   c. Secure tree wrap in place with twine wound spirally downward in the opposite direction, tied around the tree in at least 3 places in addition to the top and bottom.
   d. Wrap the trees in the fall and leave the wrap in place throughout the winter and early spring.
   e. Tree wraps are temporary and no longer needed once the trees develop corky bark.
3. Staking/Guying:
   a. Stake/guy all trees immediately after lawn sodding operations and prior to acceptance.
   b. Stake deciduous trees 2" caliper and less. Stake evergreen trees under 7'-0" tall.
      1. Stakes are placed in line with prevailing wind direction and driven into undisturbed soil.
      2. Ties are attached to the tree, usually at the lowest branch.
   c. Guy deciduous trees over 2" caliper. Guy evergreen trees 7'-0" tall and over.
      1. Guy wires to be attached to three stakes driven into undisturbed soil, with one stake placed in the direction of the prevailing wind.
      2. Ties are attached to the tree as high as practical.
      3. The axis of the stake should be at 90 degree angle to the axis on the pull of the guy wire.
4. **Remove all guying and staking after one year from planting.**

Pruning:

1. Prune deciduous trees and evergreens only to remove broken or damaged branches.

WORKMANSHIP
During landscape/irrigation installation operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of installation operations, all excess materials, equipment, debris and waste material shall be cleaned up and removed from the site; unless provisions have been granted by the owner to use on-site trash receptacles. Sweep parking and walks clean of dirt and debris. Remove all plant tags and other debris from lawns and planting areas.

Any damage to the landscape, the structure, or the irrigation system caused by the landscape contractor shall be repaired by the landscape contractor without charge to the owner.

MAINTENANCE
Contractor shall provide maintenance until work has been accepted by the Owner's Representative.

Maintenance shall include mowing, fertilizing, mulching, pruning, cultivation, weeding, watering, and application of appropriate insecticides and fungicides necessary to maintain plants and lawns free of insects and disease.

1. Re-set settled plants to proper grade and position. Restore planting saucer and adjacent material and remove dead material.
2. repair guy wires and stakes as required. Remove all stakes and guy wires after 1 year.
3. Correct defective work as soon as possible after deficiencies become apparent and weather and season permit.
4. Water trees, plants and ground cover beds within the first 24 hours of initial planting, and not less than twice per week until final acceptance.

LANDSCAPE MAINTENANCE SPECIFICATIONS

The Contractor shall provide as a separate bid, maintenance for a period of **1 year** after final acceptance of the project landscaping. The Contractor must be able to provide continued maintenance if requested by the Owner or provide the name of a reputable landscape contractor who can provide maintenance.

STANDARDS
All landscape maintenance services shall be performed by trained personnel using current, acceptable horticultural practices.

All work shall be performed in a manner that maintains the original intent of the landscape design.

All chemical applications shall be performed in accordance with current county, state and federal laws, using EPA registered materials and methods of application. These applications shall be performed under the supervision of a Licensed Certified applicator.

APPROVALS
Any work performed in addition to that which is outlined in the contract shall only be done upon written approval by the Owner's Representative (General Manager of the restaurant).

All seasonal color selections shall be approved by the General Manager prior to ordering and installation.

SOIL TESTING
The maintenance contractor shall perform soil tests as needed to identify imbalances or deficiencies causing plant material decline. The owner shall be notified of the recommendation for approval, and the necessary corrections made at an additional cost to the owner.

Acceptable Soil Test Results

	Landscape Trees and Shrubs	Turf
pH Range	5.0-7.0	6.0-7.0
Organic Matter	>1.5%	>2.5%
Magnesium (Mg)	100+lbs./acre	100+lbs./acre
Phosphorus (P2O5)	150+lbs./acre	150+lbs./acre
Potassium (K2O)	120+lbs./acre	120+lbs./acre
Soluble salts/ Conductivity	Not to exceed 900ppm/1.9 mmhos/cm in soil; not to exceed 1400 ppm/2.5 mmhos/cm in high organic mix	Not to exceed 750ppm/0.75 mmhos/cm in soil; not to exceed 2000 ppm/2.0 mmhos/cm in high organic mix

For unusual soil conditions, the following optional tests are recommended with levels not to exceed:

Boron	3 pounds per acre
Manganese	50 pounds per acre
Potassium (K2O)	450 pounds per acre
Sodium	20 pounds per acre

WORKMANSHIP
During landscape maintenance operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of maintenance operations, all debris and waste material shall be cleaned up and removed from the site, unless provisions have been granted by the owner to use on-site trash receptacles.

Any damage to the landscape, the structure, or the irrigation system caused by the maintenance contractor, shall be repaired by the maintenance contractor without charge to the owner.

TURF

GENERAL CLEAN UP
Prior to mowing, all trash, sticks, and other unwanted debris shall be removed from lawns, plant beds, and paved areas.

MOWING
Warm season grasses (i.e. Bermuda grass) shall be maintained at a height of 1" to 2" during the growing season.

Cool season grasses, including blue grass, tall fescue, perennial ryegrass, etc., shall be maintained at a height of 2" to 3" in spring and fall. From June through September, mowing height shall be maintained at no less than 3".

The mowing operation includes trimming around all obstacles, raking excessive grass clippings and removing debris from walks, curbs, and parking areas. Caution: Weed eaters should NOT be used around trees because of potential damage to the bark.

EDGING
Edging of all sidewalks, curbs and other paved areas shall be performed once every other mowing. Debris from the edging operations shall be removed and the areas swept clean. Caution shall be used to avoid flying debris.

LIMING & FERTILIZING
A soil test shall be taken to determine whether an application of limestone in late fall is necessary. If limestone is required, the landscape contractor shall specify the rate, obtain approval from the owner and apply it at an additional cost. A unit price for liming of turf shall accompany the bid based on a rate of 50 pounds per 1000 square feet.

Fertilizer shall be applied in areas based on the existing turf species.

LAWN WEED CONTROL: HERBICIDES
Selection and proper use of herbicides shall be the landscape contractor's responsibility. All chemical applications shall be performed under the supervision of a Licensed Certified Applicator. **Read the label prior to applying any chemical.**

INSECT & DISEASE CONTROL FOR TURF
The contractor shall be responsible for monitoring the site conditions on each visit to determine if any insect pest or disease problems exist. The contractor shall identify the insect pest or disease, as well as the host plant, and then consult the most current edition of the Cooperative Extension Service's "Commercial Insecticide Recommendation for Turf" for control. The licensed applicator shall be familiar with the label provided for the selected product prior to application.

Inspection and treatment to control insect pests shall be included in the contract price.

TREES, SHRUBS, & GROUND COVER

PRUNING
All ornamental trees, shrubs and ground cover shall be pruned when appropriate to remove dead or damaged branches, develop the natural shapes. **Do not shear trees or shrubs**. If previous maintenance practice has been to shear and ball, then a natural shape will be restored gradually.

Pruning Guidelines:

1. Prune those that flower before the end of June immediately after flowering. Flower buds develop during the previous growing season. Fall, winter or spring pruning would reduce the spring flowering display.
2. Prune those that flower in summer or autumn in winter or spring before new growth begins, since these plants develop flowers on new growth.
3. Delay pruning plants grown for ornamental fruits, such as cotoneasters, pyracanthas and viburnums.
4. Hollies and other evergreens may be pruned during winter in order to use their branches for seasonal decoration. However, severe pruning of evergreens should be done in early spring only.
5. Broadleaf evergreen shrubs shall be hand-pruned to maintain their natural appearance after the new growth hardens off.
6. Hedges or shrubs that require shearing to maintain a formal appearance shall be pruned as required. Dead wood shall be removed from sheared plants before the first shearing of the season.
7. Conifers shall be pruned, if required, according to their genus.
   A. Yews, junipers, hemlocks, arborvitae, and false-cypress may be pruned after new growth has hardened off in late summer. If severe pruning is necessary, it must be done in early spring.
   B. Firs and spruces may be lightly pruned in late summer, fall, or winter after completing growth. Leave side buds. Never cut central leader.
   C. Pines may be lightly pruned in early June by reducing candles.
8. Groundcover shall be edged and pruned as needed to contain it within its borders.
9. Thinning: Remove branches and water sprouts by cutting them back to their point of origin on parent stems. This method results in a more open plant, without stimulating excessive growth. Thinning is used on crepe myrtles, illacs, viburnums, smoke bush,etc.
10. Renewal pruning: Remove oldest branches of shrub at ground, leaving the younger, more vigorous branches. Also remove weak stems. On overgrown plants, this method may be best done over a three-year period. Renewal pruning may be used on abelia, forsythia, deutzia, spiraea, etc.

Plants overhanging passageways and parking areas and damaged plants shall be pruned as needed.

Shade trees that cannot be adequately pruned from the ground shall not be included in the Maintenance Contract. A certified arborist under a separate contract shall perform this type of work.

SPRING CLEANUP
Plant beds shall receive a general cleanup before fertilizing and mulching. Cleanup includes removing debris and trash from beds and cutting back herbaceous perennials left standing through winter, e.g. ornamental grasses, Sedum Autumn Joy.

FERTILIZING
For trees, the rate of fertilization depends on the tree species, tree vigor, area available for fertilization, and growth stage of the tree. Mature specimens benefit from fertilization every 3 to 4 years; younger trees shall be fertilized more often during rapid growth stages.

The current recommendation is based on the rate of 1000 square feet of area under the tree to be fertilized. For deciduous trees, 2 to 6 pounds of Nitrogen per 1000 square feet; for narrow-leaf evergreens, 1 to 4 pounds of Nitrogen per 1000 square feet; for broadleaf evergreens, 1 to 3 pounds of Nitrogen per 1000 square feet.

Shrubs and groundcover shall be top-dressed with compost 1" deep, or fertilized once in March with 10-6-4 analysis fertilizer at the rate of 3 pounds per 100 square feet of bed area. Ericaceous material shall be fertilized with an ericaceous fertilizer at the manufacturer's recommendation rate. If plants are growing poorly, a soil sample should be taken.

MULCHING
Annually, all tree and shrub beds will be prepared and mulched, to a minimum depth of 3" with quality mulch to match existing. Bed preparation shall include removing all weeds, cleaning up said bed, edging and cultivating decayed mulch into the soil. Debris from edging is to be removed from beds where applicable. If deemed necessary, a pre-emergent herbicide may be applied to the soil to inhibit the growth of future weeds.

Organically maintained gardens shall not receive any pre-emergent herbicides. Mulch in excess of 4" will be removed from the bed areas. SPECIAL CARE shall be taken in the mulching operation not to over-mulch or cover the base of trees and shrubs. This can be detrimental to the health of the plants.

WEEDING
All beds shall be weeded on a continuous basis throughout the growing season to maintain a neat appearance at all times.

Pre-emergent (soil-applied) and post-emergent (foliar-applied) herbicides shall be used where and when applicable and in accordance with the product's label.

INSECT & DISEASE CONTROL: TREES, SHRUBS & GROUNDCOVER

The maintenance contractor shall be responsible for monitoring the landscape site on a regular basis. The monitoring frequency shall be monthly except for growing season, which will be every other week. Trained personnel shall monitor for plant damaging insect activity, plant pathogenic diseases and potential cultural problems in the landscape. The pest or cultural problem will be identified under the supervision of the contractor.

For plant damaging insects and mites identified in the landscape, the contractor shall consult and follow the recommendations of the most current edition of the state Cooperative Service publication on insect control on landscape plant material.

Plant pathogenic disease problems identified by the contractor that can be resolved by pruning or physical removal of damaged plant parts will be performed as part of the contract. For an additional charge, plant pathogenic diseases that can be resolved through properly timed applications of fungicides shall be made when the owner authorizes it.

If the contractor notes an especially insect-or disease-prone plant species in the landscape, he/she will suggest replacement with a more pest-resistant cultivar or species that is consistent with the intent of the landscape design.

NOTE: For identification of plant-damaging insects and mites, a reference textbook that can be used is *Insects that feed on Trees and Shrubs* by Johnson and Lyon, Comstock Publishing Associates. For plan pathogenic diseases, two references are suggested: *Scouting and Controlling Woody Ornamental Diseases in Landscapes and Nurseries*, authorized by Gary Moorman, published by Penn State College of Agricultural Sciences, and *Diseases of Trees and Shrubs* by Sinclair and Lyon, published by Comstock Publishing Press.

TRASH REMOVAL
The maintenance contractor shall remove trash from all shrub and groundcover beds with each visit.

LEAF REMOVAL
All fallen leaves shall be removed from the site in November and once in December. If requested by the owner, the maintenance contractor, at an additional cost to the owner shall perform supplemental leaf removals.

WINTER CLEAN-UP
The project shall receive a general clean-up once during each of the winter months, i.e., January, February, and March.

Clean-up includes:

- Cleaning curbs and parking areas
- Removing all trash and unwanted debris
- Turning mulch where necessary
- Inspection of grounds

SEASONAL COLOR: PERENNIALS, ANNUALS, AND BULBS

The installation of perennials, annuals, and bulbs, unless specified herein, shall be reviewed with the owner, and, if accepted, installed and billed to the owner.

SEASONAL COLOR MAINTENANCE

Perennialization of Bulbs:

1. After flowering, cut off spent flower heads.
2. Allow leaves of daffodils and hyacinths to remain for six weeks after flowers have faded. Cut off at base.
3. Allow leaves of other bulbs to yellow naturally and then cut off at base.
4. Apply fertilizer after flowering in spring, possibly again in fall. Apply 10-10-10 at the rate of 2 pounds per 1000 square feet, or top-dress with compost 1" deep. Fall fertilization with a bulb fertilizer or mulching with 1" of compost is optional.

Flower Rotation:

1. Bulbs: Remove the entire plant and bulb after flowers have faded or at the direction of the owner, and install new plants if included in contract.
2. Summer Annuals or Fall Plants:
   a. Dead heading: Pinch and remove dead flowers on annuals as necessary.
   b. Fertilizing Summer Annuals: Fertilize using one or two methods: Apply a slow-release fertilizer in May following manufacturer's recommendations. A booster such as 10-10-10 may be necessary in late summer. Or, apply liquid fertilizations of 20-20-20 water-soluble fertilizers, not to exceed 2 pounds of 20-20-20 per 100 gallons of water, monthly; or mulch with compost 1" deep.
   c. Removal: If fall plants are to be installed, summer annuals shall be left in the ground until the first killing frost and then removed, unless otherwise directed by the owner.

Perennials:

1. After initial installation, if a time-released fertilizer has been incorporated during plant installation, no more fertilizer need be applied the first growing season.
2. The following year:
   a. Fertilize perennials with a slow-release fertilizer or any 50% organic fertilizer, or mulch perennials with compost 1" deep.
   b. Cut all deciduous perennials flush to the ground by March 1, if this was not done the previous fall, to allow new growth to develop freely.
   c. Mulch the perennial bed once in early spring at 1"-2" depth. If soil is bared in late fall, re-mulch lightly after ground is frozen to protect perennials.
   d. Inspect for insect or disease problems on perennials. Monitor and control slugs on hostas and ligularias. Powdery mildew on phlox, monardas, and asters can be prevented with properly timed fungicides or use of disease-resistant varieties.
   e. Weed perennial bed as specified in "WEEDING" above.
   f. Prune branching species to increase density. Cut only the flowering stems after blooming. Do not remove the foliage.
3. The following fall cut back deteriorating plant parts unless instructed to retain for winter interest, e.g. Sedum Autumn Joy and ornamental grasses.
4. Long-term Care:
   a. Divide plants that overcrowd the space provided. Divide according to the species. Some need frequent dividing, e.g. asters and yarrow every two years; other rarely, if ever, e.g. peonies, hostas, and astilbe.
   b. For detailed information regarding the care of specific perennials, refer to *All About Perennials* by Ortho; *Perennials: How to Select, Grow and Enjoy* by Pamela Harper and Frederick McGourty, Hp Books Publisher; *Herbaceous Perennial Plants: A Treatise on their Identification, Culture and Garden Attributes* by Allan Armitage, Stipes Pub LLC.

SUMMARY OF MAINTENANCE

LAWN MAINTENANCE

1. Soil analysis performed annually to determine pH. If pH does not fall within specified range, adjust according to soil test recommendations.
2. Maintain proper fertility and pH levels of the soil to provide an environment conducive to turf vitality for cool season grasses
3. Mow warm and cool season on a regular basis and as season and weather dictates. Remove no more than the top 1/3 of leaf blade. Clippings on paved and bed areas will be removed.
4. Aerate warm season turf areas to maintain high standards of turf appearance.
5. Apply pre-emergent to turf in two applications in early February and early April to extend barrier.
6. Apply post emergent as needed to control weeds.
7. Mechanically edge curbs and walks.
8. Apply non-selective herbicide, to mulched bed areas and pavement and remove excess runners to maintain clean defined beds.

TREE, GROUNDCOVER, AND SHRUB BED MAINTENANCE

1. Prune shrubs, trees and groundcover to encourage healthy growth and create a natural appearance.
2. Mulch to be applied in February/March with a half rate in late summer to top dress.
3. Apply pre-emergent herbicides in February and April.
4. Manual weed control to maintain clean bed appearance.
5. Apply fungicides and insecticides as needed to control insects and disease.
6. Ornamental shrubs, trees and groundcovers to be fertilized three (3) times per year with a balanced material (January/February, April/May, and October/November)
7. Edge all mulched beds.
8. Remove all litter and debris.

GENERAL MAINTENANCE

1. Remove all man-made debris, blow edges.
2. Inspect grounds on a monthly basis and schedule inspection with Unit Operator.

EXISTING TREE TO REMAIN

LANDSCAPE NOTES

1. Landscape Contractor to read and understand the Landsacpe Specifications (sheet L-102) prior to finalizing bids. The Landscape Specifications shall be adhered to throughout the construction process.
2. Contractor is responsible for locating and protecting all underground utilities prior to digging.
3. Contractor is responsible for protecting existing trees from damage during construction.
4. All tree protection devices to be installed prior to the start of land disturbance, and maintained until final landscaping.
5. All tree protection areas to be protected from sedimentation.
6. All tree protection fencing to be inspected daily, and repaired or replaced as needed.
7. No parking, storage or other construction activities are to occur within tree protection areas.
8. All planting areas shall be cleaned of construction debris (ie. concrete, rock, rubble, building materials, etc) prior to adding and spreading of the topsoil.
9. General Contractor is responsible for adding a min of 4" clean friable topsoil in all planting beds and all grassed areas. Graded areas to be held down the appropriate elevation to account for topsoil depth. See Landscape Specifications for required topsoil characteristics.
10. In all parking lot islands, the General Contractor is responsible to remove all debris, fracture/loosen subrade to a min. 24" depth. Add topsoil to a 6"-8" berm height above island curbing; refer to landscape specifications and landscape island detail.
11. Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve topsoil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.
12. Any deviations from the approved set of plans are to be approved by the Landscape Architect.
13. Landscaping shall be installed in conformance with ANSI Z60.1 the "American Standard for Nursery Stock" and the accepted standards of the American Association of Nurserymen.
14. Existing grass in proposed planting areas shall be killed and removed. Hand rake to remove all rocks and debris larger than 1 inch in diameter, prior to adding topsoil and planting shrubs.
15. Soil to be tested to determine fertilizer and lime requirements prior to laying sod.
16. Annual and perennial beds: add min. 4 inch layer of organic material and till to a min. depth of 12 inches. Mulch annual and perennial beds with 2-3 inch depth of mini nuggets.
17. All shrubs beds (existing and new) to be mulched with a min. 3 inch layer of rock mulch.
18. Planting holes to be dug a minimum of twice the width of the root ball, for both shrub and tree. Set plant material 2-3" above finish grade. Backfill planting pit with topsoil and native excavated soil.
19. Sod to be delivered fresh (Cut less than 24 hours prior to arriving on site), laid immediately, rolled, and watered thoroughly immediately after planting. Edge of sod at planting beds are to be "V" trenched; see Landscape Details.
20. Any existing grass disturbed during construction to be fully removed, regraded and replaced. All tire marks and indentions to be repaired.
21. Water thoroughly twice in first 24 hours and apply mulch immediately.
22. The Landscape Contractor shall guarantee all plants installed for one full year from date of acceptance by the owner. All plants shall be alive and at a vigorous rate of growth at the end of the guarantee period. The Landscape Contractor shall not be responsible for acts of God or vandalism. See Landscape Specifications for Warranty requirements/expectations.
23. Any plant that is determined dead, in an unhealthy, unsightly condition, lost its shape due to dead branches, or other symptoms of poor, non-vigorous growth, shall be replaced by the Landscape Contractor. See Landscape Specifications for warranty requirements/expectations.
24. Site to be 100% irrigated in all planting beds and grass area by an automatic underground Irrigation System. See Irrigation Plan L-200 for design. Irrigation as-built shall be provided to the Landscape Architect within 24 hours of irrigation install completion.
25. Stake all evergreen and deciduous trees as shown in the planting detail and as per the Landscape Specifications.
26. Remove stakes and guying from all trees after one year from planting.

PLANT LIST

LANDSCAPE REQUIREMENTS

A. SH 205 OVERLAY DISTRICY

REQUIRED

1. 20' buffer strip with 2 Canopy and 4 Accent Trees along street frontage.
   W. Yellow Jacket Ln: 99 LF / 100 = 2 Canopy, 4 Accent Trees
   S. Goliad St (SH 205): 145 LF / 100 = 3 Canopy, 6 Accent Trees
2. Continuous screen hedge required along street frontage
3. Canopy trees min. 4" Cal; Accent trees min. 4' hgt
4. Deciduous shrubs min. 15" hgt, min. 2 gal.; Evergreen shrubs min. 12" hgt, min. 2 gal.

PROVIDED

1. W. Yellow Jacket Ln: 8 Yaupon Holly (overhead power present)
   S. Goliad St (SH 205): 3 Maple, 6 Yaupon Holly
2.
3. Trees specified at minimum required sizes
4. Shrubs specified at minimum required sizes

B. PARKING LOT

REQUIRED

1. Min. 5% of VUA must be interior landscape area.
   18,240 SF x 5% = 912 SF Required
2. Min. 15% of total site to be landscape area
   28,562 SF x 15% = 4,284 SF Required

PROVIDED

1. 3,084 SF interior landscape area provided
2. 6,562 SF of total landscape area provided

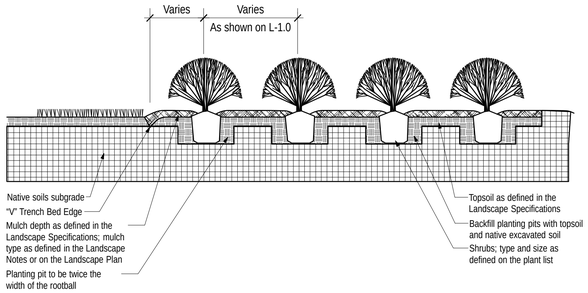
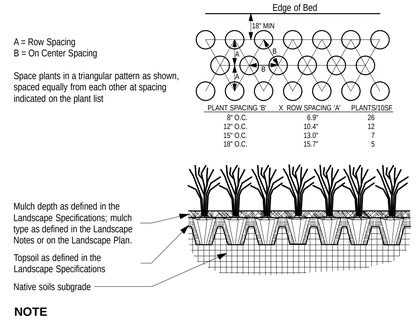
NOTE

1. Hole to be twice the width of the rootball.
2. Do not heavily prune tree at planting. Prune only crossover limbs, broken or dead branches; Do not remove the terminal buds of branches that extend to the edge of the crown.
3. Each tree must be planted such that the trunk flare is visible at the top of the rootball. Trees where the trunk flare is not visible shall be rejected. Do not cover the top of the rootball with soil. Mulch to be held back 4" away from trunk.
4. Remove Guy Wires and Staking when warranty period has expired (after one year).

1 TREE PLANTING AND STAKING DETAIL
SCALE: NTS



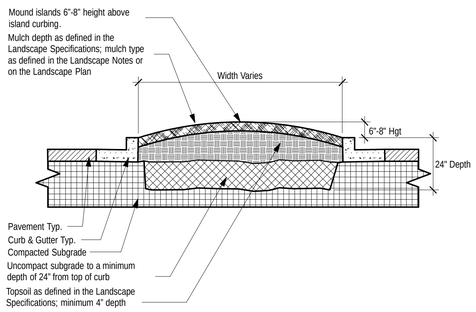
2 SHRUB BED PLANTING DETAIL
SCALE: NTS



NOTE

1. Space groundcover plants in accordance with indicated spacing listed on the plant list, or as shown on the landscape plan.
2. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants.
3. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

3 GROUNDCOVER PLANTING DETAIL
SCALE: NTS



NOTE

1. Clean construction debris from within landscape island areas (ie. concrete, rocks, rubble, building materials, ect), prior to installing topsoil and plant material.
2. Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum bermed 6"-8" height above island curbing.
3. Island plant material as per the Landscape Plan.
4. Install plant material as per tree, shrub and ground cover planting details, and as defined in the Landsacpe Specifications.
5. Install mulch or sod as specified on the Landscape Plan, and as defined in the Landscape Specifications.

LANDSCAPE SPECIFICATIONS

PART 1 - GENERAL

DESCRIPTION
Provide trees, shrubs, ground covers, sod, and annuals/perennials as shown and specified on the landscape plan. The work includes:

1. Soil preparation.
2. Trees, shrubs, ground covers, and annuals/perennials.
3. Planting mixes.
4. Top Soil, Mulch and Planting accessories.
5. Maintenance.
6. Decorative stone.

Related Work:

1. Irrigation System; see irrigation specifications (sheet L-2.2)

QUALITY ASSURANCE
Plant names indicated; comply with "Standardized Plant Names" as adopted by the latest edition of the American Joint Committee of Horticultural Nomenclature. Names of varieties not listed conform generally with names accepted by the nursery trade. Provide stock true to botanical name and legibly tagged.

Comply with sizing and grading standards of the latest edition of "American Standard for Nursery Stock". A plant shall be dimensioned as it stands in its natural position.

All plants shall be nursery grown under climatic conditions similar to those in the locality of the project for a minimum of 2 years.

Nursery Stock furnished shall be at least the minimum size indicated. Larger stock is acceptable, at no additional cost, and providing that the larger plants will not be cut back to size indicated. Provide plants indicated by two measurements so that only a maximum of 25% are of the minimum size indicated and 75% are of the maximum size indicated.

Before submitting a bid, the Contractor shall have investigated the sources of supply and be satisfied that they can supply the listed plants in the size, variety and quality as specified. Failure to take this precaution will not relieve the Contractor from their responsibility for furnishing and installing all plant materials in strict accordance with the Contract Documents without additional cost to the Owner. The Landscape Architect shall approve any substitutes of plant material, or changes in plant material size, prior to the Landscape Contractor submitting a bid.

DELIVER, STORAGE AND HANDLING
Take all precautions customary in good trade practice in preparing plants for moving. Workmanship that fails to meet the highest standards will be rejected. Spray deciduous plants in foliage with an approved "Anti-Desiccant" immediately after digging to prevent dehydration. Dig, pack, transport, and handle plants with care to ensure protection against injury. Inspection certificates required by law shall accompany each shipment invoice or order to stock. Protect all plants from drying out. If plants cannot be planted immediately upon delivery, properly protect them with soil, wet peat moss, or in a manner acceptable to the Landscape Architect. Water heeled-in plantings daily. No plant shall be bound with rope or wire in a manner that could damage or break the branches. Cover plants transported on open vehicles with a protective covering to prevent wind burn.

PROJECT CONDITIONS
Protect existing utilities, paving, and other facilities from damage caused by landscape operations.

A complete list of plants, including a schedule of sizes, quantities, and other requirements are shown on the drawings. In the event that quantity discrepancies or material omissions occur in the plant materials list, the planting plans shall govern.

The irrigation system will be installed prior to planting. Locate, protect and maintain the irrigation system during planting operations. Repair irrigation system components damaged during planting operations; at the Contractor's expense. Refer to the irrigation specifications, irrigation plan and irrigation details.

Do not begin landscape accessory work before completion of final grading or surfacing.

WARRANTY
Warrant plant material to remain alive, be healthy and in a vigorous condition for a period of 1 year after completion and final acceptance of entire project.

Replace, in accordance with the drawings and specifications, all plants that are dead or, are in an unhealthy, or unsightly condition, and have lost their natural shape due to dead branches, or other causes due to the Contractor's negligence. The cost of such replacement(s) is at the Contractor's expense. Warrant all replacement plants for 1 year after installation.

Warranty shall not include damage, loss of trees, plants, or ground covers caused by fires, floods, freezing rains, lightning storms, winds over 75 miles per hour, winter kill caused by extreme cold, severe winter conditions not typical of planting area, and/or acts of vandalism or negligence on a part of the Owner.

Remove and immediately replace all plants, found to be unsatisfactory during the initial planting installation.

Maintain and protect plant material, lawns, and irrigation until final acceptance is made.

ACCEPTANCE
Inspection of planted areas will be made by the Owner's representative.

1. Planted areas will be accepted provided all requirements, including maintenance, have been complied with and plant materials are alive and in a healthy, vigorous condition.

Upon acceptance, the Contractor shall commence the specified plant maintenance.

CODES, PERMITS AND FEES
Obtain any necessary permits for this Section of Work and pay any fees required for permits.

The entire installation shall fully comply with all local and state laws and ordinances, and with all established codes applicable thereto; also as depicted on the landscape and irrigation construction set.

PART 2 - PRODUCTS

MATERIALS
Plants: Provide typical of their species or variety; with normal, densely developed branches and vigorous, fibrous root systems. Provide only sound, healthy, vigorous plants free from defects, disfiguring knots, sun scald injuries, frost cracks, abrasions of the bark, plant diseases, insect eggs, borers, and all forms of infestation. All plants shall have a fully developed form without voids and open spaces. Plants held on storage will be rejected if they show signs of growth during the storage period.

1. Balled and plants wrapped with burlap, to have firm, natural balls of earth of sufficient diameter and depth to encompass the fibrous and feeding root system necessary for full recovery of the plant. Provide ball sizes complying with the latest edition of the "American Standard for Nursery Stock". Cracked or mushroomed balls, or signs of circling roots are not acceptable.
2. Container- grown stock: Grown in a container for sufficient length of time for the root system to have developed to hold its soil together, firm and whole.
   a. No plants shall be loose in the container.
   b. Container stock shall not be pot bound.
3. Plants planted in rows shall be matched in form.
4. Plants larger than those specified in the plant list may be used when acceptable to the Landscape Architect.
   a. If the use of larger plants is acceptable, increase the spread of roots or root ball in proportion to the size of the plant.
5. The height of the trees, measured from the crown of the roots to the top of the top branch, shall not be less than the minimum size designated in the plant list.
6. No pruning wounds shall be present with a diameter of more than 1" and such wounds must show vigorous bark on all edges.
7. Evergreen trees shall be branched to the ground or as specified in plant list.
8. Shrubs and small plants shall meet the requirements for spread and height indicated in the plant list.
   a. The measurements for height shall be taken from the ground level to the height of the top of the plant and not the longest branch.
   b. Single stemmed or thin plants will not be accepted.
   c. Side branches shall be generous, well-twigged, and the plant as a whole well-bushed to the ground.
   d. Plants shall be in a moist, vigorous condition, free from dead wood, bruises, or other root or branch injuries.

ACCESSORIES
Topsoil: Shall be Fertile, friable, natural topsoil of loamy character, without admixture of subsoil material, obtained from a well-drained arable site, reasonably free from clay, lumps, coarse sands, stones, roots, sticks, and other foreign materials, with acidity range of between pH 6.0 and 6.8.

Note: All planting areas shall be cleaned of construction debris (ie. Concrete, rubble, stones, building material, etc.) prior to adding and spreading of the top soil.

1. *Sod Areas:* Spread a minimum 4" layer of top soil and rake smooth.
2. *Planting bed areas:* Spread a minimum 4" layer of top soil and rake smooth.
3. *Landscape Islands/Medians:* Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum berm 6"-8" height above island curbing.
4. *Annual/Perennial bed areas:* Add a minimum of 4" organic matter and till to a minimum 12" depth.

Mulch: Type selected dependent on region and availability; see landscape plans for type of much to be used. Hold mulch 4" from tree trunks and shrub stems.

1. Hardwood: 6 month old well rotted double shredded native hardwood bark mulch not larger than 4" in length and ½" in width, free of wood chips and sawdust. Install minimum depth of 3".
2. Pine Straw: Pine straw to be fresh harvest, free of debris, bright in color. Bales to be wired and tightly bound. Needles to be dry. Install minimum depth of 3".
3. River Rock: (color) light gray to buff to dark brown, washed river rock, 1" – 3" in size. Install in shrub beds to an even depth of 3". Weed control barrier to be installed under all rock mulch areas. Use caution during installation not to damage plant material.
4. Mini Nuggets: Install to a minimum depth of 2"-3" at all locations of annual and perennial beds. Lift the stems and leaves of the annuals and carefully spread the mulch to avoid injuring the plants. Gently brush the mulch off the plants.

Guying/Staking:

1. Arbortie: Green (or white) staking and guying material to be flat, woven, polypropylene material, ¾" wide 900 lb. break strength. Arbortie shall be fastened to stakes in a manner which permits tree movement and supports the tree.
2. Remove Guying/Staking after one year from planting.

Tree Wrap: Tree wraps should be used on young, newly planted thin-barked trees (Cherry, Crabapple, Honey Locust, Linden, Maple, Mountain Ash, Plum) that are most susceptible to sun scald/Sunburn. Standard waterproofed tree wrapping paper, 2-1/2" wide, made of 2 layers of crepe Draft paper weighing not less than 30 lbs. per ream, cemented together with asphalt. Wrap the tree in the fall and leave the wrap in place throughout the winter and early spring. Tree wraps are temporary and no longer needed once trees develop corky bark.

PART 3 – EXECUTION

INSPECTION
Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve top soil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, and work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.

PREPARATION
Planting shall be performed only by experienced workmen familiar with planting procedures under the supervision of a qualified supervisor.

Locate plants as indicated on the plans or as approved in the field after staking by the Landscape Contractor. If obstructions are encountered that are not shown on the drawings, do not proceed with planting operations until alternate plant locations have been selected and approved by the Landscape Architect; spacing of plant material shall be as shown on the landscape plan.

Excavate circular plant pits with vertical sides, except for plants specifically indicated to be planted in beds. Provide shrub pits at least 12" greater than the diameter of the root system and 24" greater for trees. Depth of pit shall accommodate the root system. Provide undisturbed sub grade to hold root ball at nursery grade as shown on the drawings.

INSTALLATION
Set plant material in the planting pit to proper grade and alignment. Set plants upright, plumb, and faced to give the best appearance or relationship to each other or adjacent structure. Set plant material 2" – 3" above the finish grade. No filling will be permitted around trunks or stems. Backfill the pit with topsoil mix and excavated material. Do not use frozen or muddy mixtures for backfilling. Form a ring of soil around the edge of each planting pit to retain water.

After balled and wrapped in burlap plants are set, muddle planting soil mixture around bases of balls and fill all voids.

1. Remove all burlap, ropes, and wires from the top 1/3 of the root ball

Space ground cover plants in accordance with indicated dimensions. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

Mulching:

1. Mulch tree and shrub planting pits and shrub beds with required mulching material (see landscape plan for mulch type); depth of mulch as noted above. **Hold mulch back 4" away from tree trunks and shrub stems.** Thoroughly water mulched areas. After watering, rake mulch to provide a uniform finished surface.

Decorative Stone: (where indicated on landscape plan)

1. Install weed control barrier over sub-grade prior to installing stone. Lap 6" on all sides.
2. Place stone without damaging weed barrier.
3. Arrange stones for best appearance and to cover all weed barrier fabric.

Wrapping, guying, staking:

1. Inspect trees for injury to trunks, evidence of insect infestation, and improper pruning before wrapping.
2. Wrapping:
   a. Wrap trunks of all young newly planted trees known to have thin bark. Wrap spirally from bottom to top with specified tree wrap and secure in place.
   b. Overlap ½ the width of the tree wrap strip and cover the trunk from the ground to the height of the second branch.
   c. Secure tree wrap in place with twine wound spirally downward in the opposite direction, tied around the tree in at least 3 places in addition to the top and bottom.
   d. Wrap the trees in the fall and leave the wrap in place throughout the winter and early spring.
   d. Tree wraps are temporary and no longer needed once the trees develop corky bark.
3. Staking/Guying:
   a. Stake/guy all trees immediately after lawn sodding operations and prior to acceptance.
   b. Stake deciduous trees 2" caliper and less. Stake evergreen trees under 7'-0" tall.
      1. Stakes are placed in line with prevailing wind direction and driven into undisturbed soil.
      2. Ties are attached to the tree, usually at the lowest branch.
   c. Guy deciduous trees over 2" caliper. Guy evergreen trees 7'-0" tall and over.
      1. Guy wires to be attached to three stakes driven into undisturbed soil, with one stake placed in the direction of the prevailing wind.
      2. Ties are attached to the tree as high as practical.
      3. The axis of the stake should be at 90 degree angle to the axis on the pull of the guy wire.
4. **Remove all guying and staking after one year from planting.**

Pruning:

1. Prune deciduous trees and evergreens only to remove broken or damaged branches.

WORKMANSHIP
During landscape/irrigation installation operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of installation operations, all excess materials, equipment, debris and waste material shall be cleaned up and removed from the site; unless provisions have been granted by the owner to use on-site trash receptacles. Sweep parking and walks clean of dirt and debris. Remove all plant tags and other debris from lawns and planting areas.

Any damage to the landscape, the structure, or the irrigation system caused by the landscape contractor shall be repaired by the landscape contractor without charge to the owner.

MAINTENANCE
Contractor shall provide maintenance until work has been accepted by the Owner's Representative.

Maintenance shall include mowing, fertilizing, mulching, pruning, cultivation, weeding, watering, and application of appropriate insecticides and fungicides necessary to maintain plants and lawns free of insects and disease.

1. Re-set settled plants to proper grade and position. Restore planting saucer and adjacent material and remove dead material.
2. repair guy wires and stakes as required. Remove all stakes and guy wires after 1 year.
3. Correct defective work as soon as possible after deficiencies become apparent and weather and season permit.
4. Water trees, plants and ground cover beds within the first 24 hours of initial planting, and not less than twice per week until final acceptance.

LANDSCAPE MAINTENANCE SPECIFICATIONS

The Contractor shall provide as a separate bid, maintenance for a period of ***1 year*** after final acceptance of the project landscaping. The Contractor must be able to provide continued maintenance if requested by the Owner or provide the name of a reputable landscape contractor who can provide maintenance.

STANDARDS
All landscape maintenance services shall be performed by trained personnel using current, acceptable horticultural practices.

All work shall be performed in a manner that maintains the original intent of the landscape design.

All chemical applications shall be performed in accordance with current county, state and federal laws, using EPA registered materials and methods of application. These applications shall be performed under the supervision of a Licensed Certified applicator.

APPROVALS
Any work performed in addition to that which is outlined in the contract shall only be done upon written approval by the Owner's Representative (General Manager of the restaurant).

All seasonal color selections shall be approved by the General Manager prior to ordering and installation.

SOIL TESTING
The maintenance contractor shall perform soil tests as needed to identify imbalances or deficiencies causing plant material decline. The owner shall be notified of the recommendation for approval, and the necessary corrections made at an additional cost to the owner.

Acceptable Soil Test Results

	Landscape Trees and Shrubs	Turf
pH Range	5.0-7.0	6.0-7.0
Organic Matter	>1.5%	>2.5%
Magnesium (Mg)	100+lbs./acre	100+lbs./acre
Phosphorus (P2O5)	150+lbs./acre	150+lbs./acre
Potassium (K2O)	120+lbs./acre	120+lbs./acre
Soluble salts/ Conductivity	Not to exceed 900ppm/1.9 mmhos/cm in soil; not to exceed 1400 ppm/2.5 mmhos/cm in high organic mix	Not to exceed 750ppm/0.75 mmhos/cm in soil; not to exceed 2000 ppm/2.0 mmhos/cm in high organic mix

For unusual soil conditions, the following optional tests are recommended with levels not to exceed:

Boron	3 pounds per acre
Manganese	50 pounds per acre
Potassium (K2O)	450 pounds per acre
Sodium	20 pounds per acre

WORKMANSHIP
During landscape maintenance operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of maintenance operations, all debris and waste material shall be cleaned up and removed from the site, unless provisions have been granted by the owner to use on-site trash receptacles.

Any damage to the landscape, the structure, or the irrigation system caused by the maintenance contractor, shall be repaired by the maintenance contractor without charge to the owner.

TURF

GENERAL CLEAN UP
Prior to mowing, all trash, sticks, and other unwanted debris shall be removed from lawns, plant beds, and paved areas.

MOWING
Warm season grasses (i.e. Bermuda grass) shall be maintained at a height of 1" to 2" during the growing season.

Cool season grasses, including blue grass, tall fescue, perennial ryegrass, etc., shall be maintained at a height of 2" to 3" in spring and fall. From June through September, mowing height shall be maintained at no less than 3".

The mowing operation includes trimming around all obstacles, raking excessive grass clippings and removing debris from walks, curbs, and parking areas. Caution: Weed eaters should NOT be used around trees because of potential damage to the bark.

EDGING
Edging of all sidewalks, curbs and other paved areas shall be performed once every other mowing. Debris from the edging operations shall be removed and the areas swept clean. Caution shall be used to avoid flying debris.

LIMING & FERTILIZING
A soil test shall be taken to determine whether an application of limestone in late fall is necessary. If limestone is required, the landscape contractor shall specify the rate, obtain approval from the owner and apply it at an additional cost. A unit price for liming of turf shall accompany the bid based on a rate of 50 pounds per 1000 square feet.

Fertilizer shall be applied in areas based on the existing turf species.

LAWN WEED CONTROL: HERBICIDES
Selection and proper use of herbicides shall be the landscape contractor's responsibility. All chemical applications shall be performed under the supervision of a Licensed Certified Applicator. **Read the label prior to applying any chemical.**

INSECT & DISEASE CONTROL FOR TURF
The contractor shall be responsible for monitoring the site conditions on each visit to determine if any insect pest or disease problems exist. The contractor shall identify the insect pest or disease, as well as the host plant, and then consult the most current edition of the Cooperative Extension Service's "Commercial Insecticide Recommendation for Turf" for control. The licensed applicator shall be familiar with the label provided for the selected product prior to application.

Inspection and treatment to control insect pests shall be included in the contract price.

TREES, SHRUBS, & GROUND COVER

PRUNING
All ornamental trees, shrubs and ground cover shall be pruned when appropriate to remove dead or damaged branches, develop the natural shapes. **Do not shear trees or shrubs**. If previous maintenance practice has been to shear and ball, then a natural shape will be restored gradually.

Pruning Guidelines:

1. Prune those that flower before the end of June immediately after flowering. Flower buds develop during the previous growing season. Fall, winter or spring pruning would reduce the spring flowering display.
2. Prune those that flower in summer or autumn in winter or spring before new growth begins, since these plants develop flowers on new growth.
3. Delay pruning plants grown for ornamental fruits, such as cotoneasters, pyracanthas and viburnums.
4. Hollies and other evergreens may be pruned during winter in order to use their branches for seasonal decoration. However, severe pruning of evergreens should be done in early spring only.
5. Broadleaf evergreen shrubs shall be hand-pruned to maintain their natural appearance after the new growth hardens off.
6. Hedges or shrubs that require shearing to maintain a formal appearance shall be pruned as required. Dead wood shall be removed from sheared plants before the first shearing of the season.
7. Conifers shall be pruned, if required, according to their genus.
   A. Yews, junipers, hemlocks, arborvitae, and false-cypress may be pruned after new growth has hardened off in late summer. If severe pruning is necessary, it must be done in early spring.
   B. Firs and spruces may be lightly pruned in late summer, fall, or winter after completing growth. Leave side buds. Never cut central leader.
   C. Pines may be lightly pruned in early June by reducing candles.
8. Groundcover shall be edged and pruned as needed to contain it within its borders.
9. Thinning: Remove branches and water sprouts by cutting them back to their point of origin on parent stems. This method results in a more open plant, without stimulating excessive growth. Thinning is used on crepe myrtles, lilacs, viburnums, smoke bush,etc.
10. Renewal pruning: Remove oldest branches of shrub at ground, leaving the younger, more vigorous branches. Also remove weak stems. On overgrown plants, this method may be best done over a three-year period. Renewal pruning may be used on abelia, forsythia, deutzia, spiraea, etc.

Plants overhanging passageways and parking areas and damaged plants shall be pruned as needed.

Shade trees that cannot be adequately pruned from the ground shall not be included in the Maintenance Contract. A certified arborist under a separate contract shall perform this type of work.

SPRING CLEANUP
Plant beds shall receive a general cleanup before fertilizing and mulching. Cleanup includes removing debris and trash from beds and cutting back herbaceous perennials left standing through winter, e.g. ornamental grasses, Sedum Autumn Joy.

FERTILIZING
For trees, the rate of fertilization depends on the tree species, tree vigor, area available for fertilization, and growth stage of the tree. Mature specimens benefit from fertilization every 3 to 4 years; younger trees shall be fertilized more often during rapid growth stages.

The current recommendation is based on the rate of 1000 square feet of area under the tree to be fertilized. For deciduous trees, 2 to 6 pounds of Nitrogen per 1000 square feet; for narrow-leaf evergreens, 1 to 4 pounds of Nitrogen per 1000 square feet; for broadleaf evergreens, 1 to 3 pounds of Nitrogen per 1000 square feet.

Shrubs and groundcover shall be top-dressed with compost 1" deep, or fertilized once in March with 10-6-4 analysis fertilizer at the rate of 3 pounds per 100 square feet of bed area. Ericaceous material shall be fertilized with an ericaceous fertilizer at the manufacturer's recommendation rate. If plants are growing poorly, a soil sample should be taken.

MULCHING
Annually, all tree and shrub beds will be prepared and mulched, to a minimum depth of 3" with quality mulch to match existing. Bed preparation shall include removing all weeds, cleaning up said bed, edging and cultivating decayed mulch into the soil. Debris from edging is to be removed from beds where applicable. If deemed necessary, a pre-emergent herbicide may be applied to the soil to inhibit the growth of future weeds.

Organically maintained gardens shall not receive any pre-emergent herbicides. Mulch in excess of 4" will be removed from the bed areas. SPECIAL CARE shall be taken in the mulching operation not to over-mulch or cover the base of trees and shrubs. This can be detrimental to the health of the plants.

WEEDING
All beds shall be weeded on a continuous basis throughout the growing season to maintain a neat appearance at all times.

Pre-emergent (soil-applied) and post-emergent (foliar-applied) herbicides shall be used where and when applicable and in accordance with the product's label.

INSECT & DISEASE CONTROL: TREES, SHRUBS & GROUNDCOVER

The maintenance contractor shall be responsible for monitoring the landscape site on a regular basis. The monitoring frequency shall be monthly except for growing season, which will be every other week. Trained personnel shall monitor for plant damaging insect activity, plant pathogenic diseases and potential cultural problems in the landscape. The pest or cultural problem will be identified under the supervision of the contractor.

For plant damaging insects and mites identified in the landscape, the contractor shall consult and follow the recommendations of the most current edition of the state Cooperative Service publication on insect control on landscape plant material.

Plant pathogenic disease problems identified by the contractor that can be resolved by pruning or physical removal of damaged plant parts will be performed as part of the contract. For an additional charge, plant pathogenic diseases that can be resolved through properly timed applications of fungicides shall be made when the owner authorizes it.

If the contractor notes an especially insect-or disease-prone plant species in the landscape, he/she will suggest replacement with a more pest-resistant cultivar or species that is consistent with the intent of the landscape design.

NOTE: For identification of plant-damaging insects and mites, a reference textbook that can be used is *Insects that feed on Trees and Shrubs* by Johnson and Lyon, Comstock Publishing Associates. For plan pathogenic diseases, two references are suggested: *Scouting and Controlling Woody Ornamental Diseases in Landscapes and Nurseries*, authorized by Gary Moorman, published by Penn State College of Agricultural Sciences, and *Diseases of Trees and Shrubs* by Sinclair and Lyon, published by Comstock Publishing Press.

TRASH REMOVAL
The maintenance contractor shall remove trash from all shrub and groundcover beds with each visit.

LEAF REMOVAL
All fallen leaves shall be removed from the site in November and once in December. If requested by the owner, the maintenance contractor, at an additional cost to the owner shall perform supplemental leaf removals.

WINTER CLEAN-UP
The project shall receive a general clean-up once during each of the winter months, i.e., January, February, and March.

Clean-up includes:

- Cleaning curbs and parking areas
- Removing all trash and unwanted debris
- Turning mulch where necessary
- Inspection of grounds

SEASONAL COLOR: PERENNIALS, ANNUALS, AND BULBS

The installation of perennials, annuals, and bulbs, unless specified herein, shall be reviewed with the owner, and, if accepted, installed and billed to the owner.

SEASONAL COLOR MAINTENANCE

Perennialization of Bulbs:

1. After flowering, cut off spent flower heads.
2. Allow leaves of daffodils and hyacinths to remain for six weeks after flowers have faded. Cut off at base.
3. Allow leaves of other bulbs to yellow naturally and then cut off at base.
4. Apply fertilizer after flowering in spring, possibly again in fall. Apply 10-10-10 at the rate of 2 pounds per 1000 square feet, or top-dress with compost 1" deep. Fall fertilization with a bulb fertiilizer or mulching with 1" of compost is optional.

Flower Rotation:

1. Bulbs: Remove the entire plant and bulb after flowers have faded or at the direction of the owner, and install new plants if included in contract.
2. Summer Annuals or Fall Plants:
   a. Dead heading: Pinch and remove dead flowers on annuals as necessary.
   b. Fertilizing Summer Annuals: Fertilize using one or two methods: Apply a slow-release fertilizer in May following manufacturer's recommendations. A booster such as 10-10-10 may be necessary in late summer. Or, apply liquid fertilizations of 20-20-20 water-soluble fertilizers, not to exceed 2 pounds of 20-20-20 per 100 gallons of water, monthly; or mulch with compost 1" deep.
   c. Removal: If fall plants are to be installed, summer annuals shall be left in the ground until the first killing frost and then removed, unless otherwise directed by the owner.

Perennials:

1. After initial installation, if a time-released fertilizer has been incorporated during plant installation, no more fertilizer need be applied the first growing season.
2. The following year:
   a. Fertilize perennials with a slow-release fertilizer or any 50% organic fertilizer, or mulch perennials with compost 1" deep.
   b. Cut all deciduous perennials flush to the ground by March 1, if this was not done the previous fall, to allow new growth to develop freely.
   c. Mulch the perennial bed once in early spring at 1"-2" depth. If soil is bared in late fall, re-mulch lightly after ground is frozen to protect perennials.
   d. Inspect for insect or disease problems on perennials. Monitor and control slugs on hostas and ligularias. Powdery mildew on phlox, monardas, and asters can be prevented with properly timed fungicides or use of disease-resistant varieties.
   e. Weed perennial bed as specified in "WEEDING" above.
   f. Prune branching species to increase density. Cut only the flowering stems after blooming. Do not remove the foliage.
3. The following fall cut back deteriorating plant parts unless instructed to retain for winter interest, e.g. Sedum Autumn Joy and ornamental grasses.
4. Long-term Care:
   a. Divide plants that overcrowd the space provided. Divide according to the species. Some need frequent dividing, e.g. asters and yarrow every two years; other rarely, if ever, e.g. peonies, hostas, and astilbe.
   b. For detailed information regarding the care of specific perennials, refer to *All About Perennials* by Ortho; *Perennials: How to Select, Grow and Enjoy* by Pamela Harper and Frederick McGouty, Hp Books Publisher; *Herbaceous Perennial Plants: A Treatise on their Identification, Culture and Garden Attributes* by Allan Armitage, Stipes Pub LLC.

SUMMARY OF MAINTENANCE

LAWN MAINTENANCE

1. Soil analysis performed annually to determine pH. If pH does not fall within specified range, adjust according to soil test recommendations.
2. Maintain proper fertility and pH levels of the soil to provide an environment conducive to turf vitality for cool season grasses
3. Mow warm and cool season on a regular basis and as season and weather dictates. Remove no more than the top 1/3 of leaf blade. Clippings on paved and bed areas will be removed.
4. Aerate warm season turf areas to maintain high standards of turf appearance.
5. Apply pre-emergent to turf in two applications in early February and early April to extend barrier.
6. Apply post emergent as needed to control weeds.
7. Mechanically edge curbs and walks.
8. Apply non-selective herbicide, to mulched bed areas and pavement and remove excess runners to maintain clean defined beds.

TREE, GROUNDCOVER, AND SHRUB BED MAINTENANCE

1. Prune shrubs, trees and groundcover to encourage healthy growth and create a natural appearance.
2. Mulch to be applied in February/March with a half rate in late summer to top dress.
3. Apply pre-emergent herbicides in February and April.
4. Manual weed control to maintain clean bed appearance.
5. Apply fungicides and insecticides as needed to control insects and disease.
6. Ornamental shrubs, trees and groundcovers to be fertilized three (3) times per year with a balanced material (January/February, April/May, and October/November)
7. Edge all mulched beds.
8. Remove all litter and debris.

GENERAL MAINTENANCE

1. Remove all man-made debris, blow edges.
2. Inspect grounds on a monthly basis and schedule inspection with Unit Operator.

Discuss and consider a request by Arnaldo Cotto of J. Houser Construction on behalf of Jerry Kissick of Jerry Kissick Custom Homes for the approval of a site plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [FM-3097], and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.22.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 5, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-038" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.
4. Irrigation Plan submitted is not considered an accepted plan with the site plan and has not been reviewed. This would be submitted during the building permit process.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure. Provide a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as 24-ft firelane, public access, & drainage easements for site.

Landscape Plan:
1. Plan meets or exceeds UDC standards as submitted.

Photometric Plan:
1. Provide a photometric plan for all exterior lighting and cut sheets of all exterior light fixtures.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures).
3. Maximum intensity of exterior lighing is not to exceed 0.2-FC at the property lines.

BuildingElevations:
1. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: November 28, 2017 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
Architectural Review Board: December 12, 2017 (5:00 p.m.) [Subsequent meeting if necessary]							
Planning - Action: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

STATE OF TEXAS
COUNTY OF ROCKWALL

OWNER'S CERTIFICATE & DEDICATION

WHEREAS JERRY KISSICK CUSTOM HOMES, INC. PROFIT SHARING TRUST, BEING THE OWNER OF a tract of land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING a 9.695 acre tract of land situated in the William M. Ford Survey, Abstract 80, Rockwall County, Texas, and being all of Lots 13 and 15 and part of Lots 3 and 4, Rainbo Acres, an addition to Rockwall County, as recorded in Cabinet A, Slide 20, Plat Records Rockwall County, Texas and also being all of a called 3.685 acre tract of land described in deed to Jerry Kissick Custom Homes Profit Sharing Trust., as recorded in Volume 3492, Page 150, Deed Records Rockwall County, Texas and all of a called 6.010 acre tract of land described in deed to Jerry Kissick Custom Homes Profit Sharing Trust., as recorded in Volume 3500, Page 48, of said Deed Records, said 9.695 acre tract being more particularly described by metes and bounds as follows:

BEGINNING at a 1/2-inch iron rod set for the south corner of said 3.685 acre tract, said corner being on the northeast right-of-way line of Horizon Road (FM 3097), a 100 ft. right-of-way and the southeast boundary line of said Lot 4;

THENCE North 45 degrees 31 minutes 02 seconds West, with the northeast right-of-way line of said Horizon Road and the southwest boundary line of said 3.668 acre tract, a distance of 405.61 feet to a 1/2-inch iron rod with cap set for the west corner of said 3.685 acre tract, said corner being in the common boundary line of said Lot 3 and Lot 2 of said Rainbo Acres;

THENCE North 44 degrees 13 minutes 37 seconds East, with the common boundary line of said Lot 2 and said Lot 3 and the northwest boundary line of said 3.685 acre tract, a distance of 503.36 feet to a 1/2-inch iron rod set for the north corner of said Lot 3, the east corner of said Lot 2 and the north corner of said 3.685 acre tract, said corner being in the southwest boundary line of said Lot 13 and said 3.010 acre tract;

THENCE North 45 degrees 48 minutes 21 seconds West, with the common boundary lines of said Lots 13, Lot 2 and Lot 1 of said Rainbo Acres and the southwest boundary line of said 6.010 acre tract, a distance of 394.16 feet to a 1/2-inch iron rod with cap stamped "3963" found for the north corner of said Lot 1, the west corner of said Lot 13 and the west corner of said 6.010 acre tract, said corner being in the southeast boundary line of a called 8.84 acre tract described in deed recorded in Volume 1717, Page 53 of said Deed Records;

THENCE North 44 degrees 12 minutes 56 seconds East, with the northwest boundary lines of said Lot 13, said Lot 15 and said 6.010 acre tract and the southeast boundary lines of said 8.84 acre tract, a called 1.13 acre tract described in deed recorded in Volume 3482, Page 27 of said Deed Records and a called 3.87 acre tract described in deed recorded in deed recorded in Volume 5207, Page 234, a distance of 1125.50 feet to a PK Nail found for the north corner of said Lot 15 and said 6.010 acre tract and the east corner of said 3.87 acre tract, said corner being near the center of County Line Road and being in the westerly right-of-way line of Ranch Trail, a 50 ft. right-of-way;

THENCE Southwesterly, with the westerly right-of-way lines of said Ranch Trail and the easterly boundary lines of said Lots 3, 4, 13 and 15, and the easterly boundary lines of said 3.685 acre tract and said 6.010 acre tract the following courses and distances;

South 35 degrees 07 minutes 19 seconds West, a distance of 185.00 feet to a 1/2-inch iron rod found for the beginning of a curve to the left having a radius of 491.62 feet, a chord bearing of South 26 degrees 01 minutes 16 seconds West and a chord distance of 155.52 feet;

Southwesterly, with said curve to the left, through a central angle of 18 degrees 12 minutes 05 seconds, an arc distance of 156.18 feet to a 1/2-inch iron rod with cap set for the end of said curve;

South 17 degrees 35 minutes 54 seconds West, a distance of 91.36 feet to a 1/2-inch iron rod with cap set for the beginning of a curve to the left having a radius of 1741.73 feet, a chord bearing of South 14 degrees 18 minutes 31 seconds West and a chord distance of 199.89 feet;

Southwesterly, with said curve to the left, through a central angle of 18 degrees 12 minutes 05 seconds, an arc distance of 200.00 feet to a 1/2-inch iron rod with cap set for the end of said curve;

South 10 degrees 33 minutes 28 seconds West, a distance of 899.66 feet to a 1/2-inch iron rod with cap set for corner;

South 28 degrees 37 minutes 59 seconds West, a distance of 307.70 feet to the POINT OF BEGINNING AND CONTAINING 422,311 square feet or 9.695 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I, the undersigned owner of the land shown on this plat, and designated herein as MAVERICK RANCH, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in MAVERICK RANCH, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any wa endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

PLANNING	David Gonzales	11/18/2017	11/25/2017	11/20/2017	2	COMMENTS	See comnents

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Frank of Hacienda Car Wash for the approval of a site plan for a carwash within the Scenic Overlay (SOV) District on a 2.008-acre tract of land being identified as Lots 1 & 2-01, Block A, the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located south of the intersection of W. Yellow Jacket Lane and Ridge Road [FM-740], and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 5, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-039" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
-- As a note, all variances to Scenic OV Districts require approval by a 3/4 majority vote of City Council:

The following is considered to be a request to the Scenic OV Districts:

1. Per Sec. 6.8.D.1.a, of Article V, of the UDC, Stucco is limited to a maximum of 50% of the exteriors finish. The front elevation indicates 55% and exceeds this requirement for the OV district.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as 24-ft firelane, public access, drainage & utility easements (as appropriate) for entire site. You may want to hatch or use heavier gray scale to better delineate.
3. The parking for this site should be calculated as 1:250 sq. ft. Provide adjustment, if necessary.
4. Indicate parking spaces under the covered parking areas.
5. Where are the HAVC units? Dash-in RTU's.

Landscape Plan:
1. Per SUP Ordinance - provide a wrought irion fence with live screening along the southern property boundary.
2. Provide number of trees being planted. This will also help reduce the total number of inches being mitigated.

Treescape Plan:
1. Reduce the total mitigation balance for on site plantings from landscape plan. Current Mitigation Balance = 1,224 caliper inches. 30 inches added due to tree no. 5759 being a 30" Oak -- requires double mitigation or 60 inches. The mitigation balance may be satisfied by either purchaseing tree credits equal to 20% of the

mitigation balance at $125 per inch with the remainder balance due by establishing a delivery method for trees (get with the Parks Dept. for logistics). Or you may request an alternative tree mitigation plan to be approved by the City Council.

Photometric Plan:
1. Provide cut sheets of all exterior light fixtures.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures) provide lighting pole detail.
3. Maximum intensity of exterior lighing is not to exceed 0.2-FC at the property lines. Light levels along the south and southeastern property lines exceed 0.2-FC - must be reduced.

Building Elevations:
1. Provide Elevations for covered parking. Standards to meet building design materials for overlay district. Provide elevations and indicate materials to be used.
1. See compliance standards for variance as listed above.
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Metal roof "R" panel is prohibited within the Scenic Overlay district is visible from the rights-of-way. Provide site study indicating compliance or submit approved roofing material.
4. Provide a materials sample board with small samples of the exterior materials to be used. (eletronic copy does not meet this requirement).
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: November 28, 2017 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Architectural Review Board: December 12, 2017 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: December 18, 2017 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

See mark ups.
Must design an 8" sewer line from east to west across the site. Include a 20' easement.
Area under canopy and dumpster to drain to an oil/water separator.
Extand fire lane to FM 549.
Parking spaces must be 20'x9'.
Pole sign is not allowed.
No structures in easements. Curbs included.
Stripe the south drive isle as no parking.
No vertical walls in detention. Max. side slope is 4:1. Need a variance if wanting to use vertical walls.
Upgrade water line to fire hydrant to 8". Include a 20' easement.
Add an O to "Proposed Fire Lane."
Will need to complete a TIA.
TxDOT permits required.
Impact fees.
4% Engineering

Engineering fees.
Sewer pro-rata 979.14/acre.
Must upgrade Mims Lift Station or pro-rata, whoever builds first.

(11/21/2017 4:32 PM AA) Fire lanes shall be clearly indicated width, radii, and construction details. Update plans to reflect the 2015 I-codes An approved water supply capable of supplying the required fire flow for fire protection shall be provided. A water flow test verifying capabilities shall be witnessed by the Fire Marshal Division prior to vertical construction. (1,000 gpm) Presence of automatic fire sprinkler system shall be indicated on the plans. Size and location of the underground water line servicing the fire sprinkler system shall be indicated on the plans. The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant. A minimum of a 5-foot wide sidewalk or other approved "all-weather" pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway. Location of Backflow prevention device on the fire sprinkler water supply line shall be indicated on the plans.

(11/22/2017 9:43 AM LS) Address assignments will be: 2210 STATE HIGHWAY 276 (Gas Station), ROCKWALL, TX 75032 2220 STATE HIGHWAY 276 (Retail Strip), ROCKWALL, TX 75032 (*use ascending 1XX suite numbers such as 102, 104, 106 etc..)							
PLANNING	David Gonzales	11/18/2017	11/25/2017	11/20/2017	2	COMMENTS	See comments

Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 5, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-040" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
*** As a note, all variances to the SH-276 OV and FM-549 OV Districts require approval by a 3/4 majority vote of City Council:

The following are considered to be a request to Sec. 6.13 & Sec. 6.14 (Overlay District Standards), of Article V, of the UDC:

1. Secondary materials are not to exceed 10% on any facade. On both buildings, the front facade as submitted indicates the use of 31% EIFS and does not meet the standard establihed for the OV districts.
2. A minimum of 20% natural (or quarried) stone is required on all facades. The south elevation of the Retail Center building indicates 12% and does not meet the standards for the OV districts.
3. Building design is to be architecturally finished on all four (4) sides (i.e. same materials, detail, and features) with a row of trees at the rear. The front elevation of both building meet this requirement; however, the remaining facades for both buildings do not meet this standard (south, east & west elevations). Also, provide a row of trees at the rear of both buildings.
4. Building design is to provide Vertical and Horizontal articulation on all facades. Both buildings do not meet the intent of this requirement for the front and rear facades. (requires approval by a simple majority vote of City Council)

EXCEPTIONS TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 6.13 & Sec. 6.14, of Article V, of the UDC, a natural or quarried stone product is required on all facades.
The applicant is requesting the use of a cultured stone product (i.e. Dutch Quality Stone). The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

* That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size and detail of natural stone;

* That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

* That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

* That the use of the highest quality synthetic mineral oxides should be used to infuse the surface with rich, authentic tones; and

* That the manufactured stone product shall have a minimum warranty of 75 years.

The request to allow for a cultured stone product requires a recommendation from the Architectural Review Board. Please provide a manufacures cut sheet/product description indicating compliance with the standards as listed above.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure detail. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as 24-ft firelane, public access, drainage & utility easements (as appropriate) for entire site.
3. Pole sige requries a separate permit through the building inspections department.

Landscape Plan:
1. Add tree icons to the Plant Schedule to easily identfy each tree species on the plan.
2. Minimum tree size within the overlay districts are four (4) inch trees. Change table to reflect 4-inches.
3. Overlay district standards require 2 large canopy trees (4-inch) per 100 linear feet within the landscape buffer. SH-276 requires a minimum of 9 - 4" trees. Provide one (1) additional tree.
4. Overlay district standards require 4 accent trees (4-ft height) per 100 linear feet within the landscape buffer. SH-276 & FM-549 do not indicate accent trees - provide the minimums required within each landscape buffer.
5. Provide one row large canopy trees at the rear of the the property.
6. Parking lot landscapeing requires 1 large canopy tree per 10 parking spaces. 84 parking spaces requires a minimum of 9 trees. Provide additional trees within the site.
7. Provide a row of shrubs along Hwy 276 and FM-549 for head light screening.
8. Will there be any additionallandscape materials around the building (e.g. flowers, shrubs, etc.)?

Photometric Plan:
1. Provide foot candle readings for the entire site to the property lines. Maximum intensity of the lighing is not to exceed 0.2-FC at the property lines. Will re-evaluate new plan for compliance.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures). Provide detail.
3. Maximum under canopy light levels are not to exceed 35-FC. Reduce canopy lighting. Also, all lighting fixtures are to be recessed into thecanopy.
4. Maximum light levels for the site not to exceed 20-FC in order to control glare. Reduce all light levels exceeding this standard.

Building Elevations:
1. See compliance standards for all Variances and Exception as listed above.
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: November 28, 2017 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Architectural Review Board: December 12, 2017 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: December 18, 2017 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

NOTES:
1. ALL WORK MUST CONFORM TO THE CITY OF ROCKWALL &NCTCOG STANDARDS AND DETAILS.
2. ALL WORK IN PUBLIC RIGHT-OF-WAY SHALL CONFORM TO THE CITY OF ROCKWALL STANDARDS AND DETAILS.

GENERAL NOTES:

1. HANDICAPPED PARKING AREAS SHALL BE DESIGNED AND PROVIDED PER CITY STANDARDS.
2. APPROVAL OF THE SITE PLAN IS NOT FINAL UNTIL ALL ENGINEERING PLANS ARE APPROVED.
3. FIRE LANES SHALL BE DESIGNED AS PER CITY STANDARDS.
4. ALL ELECTRICAL TRANSMISSION, DISTRIBUTION AND SERVICE LINES MUST BE UNDERGROUND.
5. PLEASE CONTACT THE BUILDING INSPECTION DEPARTMENT TO DETERMINE THE TYPE OF CONSTRUCTION AND OCCUPANCY GROUP.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING THE LOCATION OF ALL EXISTING UTILITIES ANS EASEMENT PRIOR TO START OF OPERATIONS. CONTRACTOR SHALL PRESERVE AND PROTECT ALL EXISTING UTILITIES FROM DAMAGE DURING CONSTRUCTION.

CPY Series

CPY250™ LED Canopy/Soffit Luminaire

Product Description

The CPY250™ LED Canopy/Soffit Luminaire has an extremely thin profile constructed of rugged cast aluminum. It can be surface mounted easily from below the canopy deck and can be pendant mounted. Direct imaging of the LEDs is eliminated with a highly efficient patterned flat or 0.91" (23mm) drop glass lens.

Applications: Petroleum canopies, CNG fueling stations, low-medium bay general lighting, soffits

Performance Summary

Made in the U.S.A. of U.S. and imported parts

Initial Delivered Lumens: Up to 20,784

Efficacy: Up to 143 LPW

CRI: Minimum 70 CRI

CCT: 4000K (+/- 300K), 5700K (+/- 300K) Standard

Limited Warranty*: 10 years on luminaire/10 years on Colorfast DeltaGuard® finish

IP66 Rated (Direct Mount only)

Class I, Division 2 Hazardous Location for select models

*See http://lighting.cree.com/warranty for warranty terms

Accessories

Field-Installed

Direct Mount Luminaires
Canopy Upgrade Kits (10 ga. steel)
XA-EDCCWW – for use with Jet-Pt/Bpt, 31.49" (800mm) square
XA-EDCCWH – for use with Class Frenciaan, 22.04" (560mm H) square
XA-EDCCPW – for use with LSI Dakota or Mantare, 22.05" (572mm) square
XA-EDCCDW – for use with Wh Heavy Riviera or Rig-A-Lite, 20.40" (520mm) square
XA-EDCCDH – for use with Elaco Merrit, 18.54" (485mm) square
XA-EDCCDW – for use with LSI Richmond or Wh Heavy Chic, 23.00" (584mm) L x 13.39" (330mm) W
Direct Mount Junction Box/Stem Kit
XA-EDCCJBDE – 4.0" (102mm) H x 3/4" (19 mm) NPT Stem
- Watertight
- Rated for feed through 6 (4 in, 4 and) #12 AWG conductors

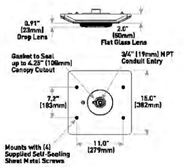
Direct Mount Beauty Plates
XA-EDCBPW – 24.11" (645mm) Beauty Plate (18 ga. steel)
XA-EDCBPB12W – 24.13" (645mm) Beauty Plate (18 ga. steel) w/12" (305mm) Boxer Plate (16 ga. steel)
- For use in canopies where deck opening is larger than what is required for mounting the CPY250 luminaire. Maximum deck opening 10.75" x 13" (183mm x 329mm)

XA-EDCBPB16W – 24.13" (645mm) Beauty Plate (18 ga. steel) w/16" (406mm) Boxer Plate (16 ga. steel)
- For use in canopies where deck opening is larger than what is required for mounting the CPY250 luminaire. Maximum deck opening 12" x 13" (305mm x 329mm)

Pendant Mount Luminaires
Pendant Mount Kits
XA-PS12X3T* – 9" (229mm) pendant
XA-PS18X3T* – 11" (279mm) pendant
XA-PS22X3T* – 15" (381mm) pendant
- Includes two conduit fittings and 3/4–14 NPT x pe threaded on two ends

Hand-Held Remote
XA-SENSREM
- For successful implementation of the programmable multi-level option, a minimum of one hand-held remote is required

DM Mount



Weight
12.5 Lbs. (5.7kg)

Product Specifications

CONSTRUCTION & MATERIALS
- Slim, low profile design
- Easy mounting and servicing from below the deck
- Luminaire housing is constructed of rugged cast aluminum with integral heat sink specifically designed for LED
- Flat lens is 0.125" tempered Solite® glass
- Drop lens is 0.157" molded borosilicate glass
- Direct mount is suitable for use in single or double skin canopies with a minimum 4.7" (102mm) wide panels and a minimum 22 gauge, 0.030" (0.7mm) canopy thickness
- Direct mount luminaire mounts directly to the canopy deck with the drilling of a single 2" to 4" (51mm to 102mm) mounting hole, is secured in place with self-sealing screws that provide a weathertight seal and includes 3/4" (19mm) conduit entry for direct wire feed
- Standard pendant mount includes a mounting bracket and a J-Box for customer wiring and is intended to be mounted by 3/4 IP pendant (by others)
- Hazardous location pendant mount has a threaded hub which accepts 3/4" NPT conduit (by others) and secures with a 1/4"–20 set screw
- Exclusive ColorBest DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Black, bronze, silver and white are available
- Weight: 12.5 lbs. (5.7kg)

ELECTRICAL SYSTEM
- **Input Voltage:** 120-277V or 347-480V, 50/60 Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 6kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **10V Source Current:** 0.15mA
- **Operating Temperature Range:** Applications Requiring Class I, Division 2 Hazardous Location Ratings: -40 °C – +25 °C: A Input Power Designator -40 °C – +40 °C (direct mount to plywood), -40 °C – +45 °C (direct mount to sheet metal/suspended): B & E Input Power Designators: -40 °C – +35 °C (plywood), -40 °C – +40 °C (sheet metal/suspended), C Input Power Designator: -40 °C – +45 °C (plywood), -40 °C – +50 °C (sheet metal/suspended), D Input Power Designators: -40 °C – +35 °C (sheet metal/suspended only)

WARNING: Exceeding maximum operating temperature may result in thermal foldback

REGULATORY & VOLUNTARY QUALIFICATIONS
- cULus Listed
- Suitable for wet locations when ordered with DM mount
- Suitable for damp locations when ordered with PD mount
- Suitable for wet locations when ordered with PD mount and HZ option
- Enclosure rated IP66 per IEC 60529 when ordered with DM mount
- Consult factory for CE Certified products
- 6kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15, Subpart B, Class A standards for conducted and radiated emissions
- DLC and DLC Premium qualified versions available. Please refer to www.designlights.org/QPL for most current information
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- RoHS compliant. Consult factory for additional details
- Class I, Division 2 Hazardous Location rated when ordered with the HZ option. Not available with DIM, ML, NSF or PML options. Consult factory for additional details
- NSF Certified when ordered with DM mount. Not available with HZ, ML or PML options. Refer to http://info.nsf.org/Certified/Food/ for additional details

†Lumen maintenance values at 25°C (77°F) are calculated per TM-21 based on LM-80 data and in-situ luminaire testing as shown above.
‡In accordance with IESNA TM-21-11, Projected Values represent interpolated values based on time durations that are within up to two (2) times (2X) the IESNA LM-80-08 total test duration (in hours) for the device under testing (DUT) i.e. the packaged LED chip.
*In accordance with IESNA TM-21-11, Calculated Values represent time durations that exceed six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing (DUT) i.e. the packaged LED chip.

Cree Edge™ Series

LED Area/Flood Luminaire

Product Description

The Cree Edge™ Series has a slim, low profile design. Its rugged cast aluminum housing minimizes wind load requirements and features an integral, weathertight LED driver compartment and high performance aluminum heat sinks. Various mounting choices: Adjustable Arm, Direct Arm, Direct Arm Long, or Side Arm (details on page 2). Includes a leaf/debris guard.

Applications: Parking lots, walkways, campuses, car dealerships, office complexes, and internal roadways

Performance Summary

Patented NanoOptic® Product Technology

Made in the U.S.A. of U.S. and imported parts

CRI: Minimum 70 CRI

CCT: 4000K (+/- 300K), 5700K (+/- 300K) standard

Limited Warranty*: 10 years on luminaire/10 years on Colorfast DeltaGuard® finish

*See www.cree.com/lighting/products/warranty for warranty terms

NOTE: Pole adder may apply depending on configuration

Product Specifications

CONSTRUCTION & MATERIALS
- Slim, low profile, minimizing wind load requirements
- Luminaire sides are rugged die cast aluminum with integral, weathertight LED driver compartment and high performance heat sinks
- DA and DL mount utilize a convenient, interlocking mounting method. Mounting is rugged die cast aluminum. It mounts to 3-4" (76-102mm) square or round pole and secures to pole with 5/16-18 UNC bolts spaced on 2" (51mm) centers
- AA and SA mounts are rugged die cast aluminum and mount to 2" (51 mm) IP 2.375" (60mm) O.D. tenons
- Includes leaf/debris guard
- Exclusive ColorBest DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Black, bronze, silver, and white are available
- Weight: See Dimensions and Weight Charts on pages 1 and 22

ELECTRICAL SYSTEM
- **Input Voltage:** 120-277V or 347-480V, 50/60 Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- DA and DL mounts designed with integral weathertight electrical box with terminal strips (120V–208V) for easy power hookup
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- Maximum 10V Source Current: 20 LED (350mA): 16mA; 20 LED (525 & 700mA) and 40-80 LED: 0.15mA; 100-160 LED: 0.30mA

REGULATORY & VOLUNTARY QUALIFICATIONS
- cULus Listed
- Suitable for wet locations
- Enclosure rated IP66 per IEC 60529 when ordered without P or R options
- Consult factory for CE Certified products
- Certified to ANSI C136.31-2001, 3G bridge and overpass vibration standards when ordered with AA, SA and DL mounts
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15 standards for conducted and radiated emissions
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- DLC qualified. Exceptions apply when ordered with 0-10 backlight control or 3MP optic with 20 LEDs. Please refer to www.designlights.org/QPL for most current information
- Meets Buy American requirements within ARRA

LR6-18L

6" LED Downlight

Product Description

The LR6-18L LED downlight delivers 1800 lumens of exceptional 90+ CRI light while achieving 90 lumens per watt. This breakthrough performance is achieved by combining the high efficacy and high-quality light of Cree TrueWhite® Technology, with an integrated driver and thermal management design. The LR6-18L is available in warm or neutral color temperatures and has a variety of trim options. It easily installs into Cree six-inch GU24 housings or may be retrofitted with a GU24 whip adapter.

Applications: Commercial new construction and retrofit

Performance Summary

UL®Cree CREE TrueWhite® Technology

Active Color Management

Delivered Light Output: 1800 lumens

Input Power: 20 watts

CRI: 90

CCT: 2700K, 3000K, 3500K, 4000K

Limited Warranty*: 10 years

Lifetime: Designed to last 50,000 hours

Dimming: Dimmable to 5%+

Suitable for non-insulated ceilings only

Product Specifications

CREE TRUEWHITE® TECHNOLOGY
A revolutionary way to generate high-quality white light, Cree TrueWhite® technology is a patented approach that delivers an exclusive combination of 90+ CRI, beautiful light characteristics, and lifelong color consistency, all while maintaining high luminous efficacy - a true no-compromise solution.

CONSTRUCTION & MATERIALS
- Durable aluminum housing protects the light source. Adjustable flip clips provide robust retention for flush ceiling fit
- Thermal management system uses integral heat sink to conduct heat away from LEDs for optimal performance. LED junction temperatures stay below specified maximum even when installed in with worst case installations
- Suitable for non-insulated ceilings only
- One-piece aluminum lower reflector redirects light while also conducting heat away from LEDs. It creates a comfortable visual transition from the lens to the ceiling plane and easily accommodates LT6 snap-in trims

OPTICAL SYSTEM
- Unique combination of reflective and refractive optical components achieves a uniform, comfortable appearance while eliminating pixelation, hot spots and minimizing glare
- Components work together to optimize distribution, balancing the delivery of high illuminance levels on horizontal surfaces with an ideal amount of light on walls and vertical surfaces. This increases the perception of spaciousness
- Deep set diffusing lens shields direct view of LEDs and provides greater visual cut-off

ELECTRICAL SYSTEM
- Integral, high-efficiency driver and power supply
- Power Factor: > 0.9
- Input Voltage: 120V, 60Hz
- Dimming: Dimmable to 5% with certain incandescent dimmers*

REGULATORY & VOLUNTARY QUALIFICATIONS
- ENERGY STAR® qualified
- cULus Listed
- Exceeds California Title 24 high efficacy luminaire requirements
- Suitable for damp locations

*Reference www.cree.com/lighting for recommended dimmers

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
December 12, 2017
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **P2017-059** (Korey)
   Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 47 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [*S. SH-205*] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

APPOINTMENTS

2. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

3. **Z2017-052** (David) **[*Request to Postpone to January 9, 2017*]**
   Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [*SH-205*] and Mims Road, and take any action necessary.

4. **Z2017-054** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Article IX, *Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of making general corrections and clarifications to the code, and take any action necessary.

5. **Z2017-056** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 6.2, *Public Hearing Postponement, Recess and Continuations*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of amending the time period for postponing or continuing a public hearing, and take any action necessary.

6. **Z2017-057** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1.11, *Utilities, Communications and Transportation*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of changing the antenna standards to allow replacement telecommunications towers in excess of 125-feet by Specific Use Permit (SUP), and take any action necessary.

7. **Z2017-058** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of creating a land use and use standards for the *Food Truck/Trailer* land use, and take any action necessary.

8. **Z2017-059** (Ryan)
   Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an

amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

9. **Z2017-060** **(Korey)**
   Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

10. **Z2017-061** **(Korey)**
    Hold a public hearing to discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of an amendment to Specific Use Permit (SUP) No. 174 (*S-174*) [*Ordinance No. 17-45*] being a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.

11. **Z2017-062** **(Ryan)**
    Hold a public hearing to discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located southwest of the intersection of Summer Lee Drive and Horizon Road [FM-3097], and take any action necessary.

12. **Z2017-063** **(David)**
    Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

13. **Z2017-064** **(Korey)**
    Hold a public hearing to discuss and consider a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane, and take any action necessary.

ACTION ITEMS

14. **Z2017-055** **(Ryan)**
    Hold a public hearing and consider a request by Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a PD Development Plan amending Ordinance 13-16 and in accordance with Ordinance No. 10-21, for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 (IH-30) Overlay District, located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail, and take any action necessary.

15. **MIS2017-015** **(Korey)**
    Discuss and consider a special request by Michael Hunter of the North East Texas Community Development Corporation for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a duplex on a 0.1120-acre tract of land identified as a portion of Lot 4B, Block H, Sanger Addition, City of Rockwall, Rockwall County, Texas, zoned Multi Family 14 (MF-14) District, situated within the Southside Residential Neighborhood

Overlay (SRO) District, located at the northeast corner of Peters Colony and E. Bourn Street, and take any action necessary.

16. **MIS2017-016** (Korey)
Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

17. **SP2017-037** (Korey)
Discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [*SH-205*], and take any action necessary.

18. **SP2017-038** (David) **[*Postponed to December 26, 2017*]**
Discuss and consider a request by Arnaldo Cotto of J. Houser Construction on behalf of Jerry Kissick of Jerry Kissick Custom Homes for the approval of a site plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [*FM-3097*], and take any action necessary.

19. **SP2017-039** (David)
Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Frank of Hacienda Car Wash for the approval of a site plan for a carwash within the Scenic Overlay (SOV) District on a 2.008-acre tract of land being identified as Lots 1 & 2-01, Block A, the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located south of the intersection of W. Yellow Jacket Lane and Ridge Road [*FM-740*], and take any action necessary.

20. **SP2017-040** (David) **[*Postponed to December 26, 2017*]**
Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

DISCUSSION ITEMS

21. Director's Report of post Council meeting outcomes of Planning & Zoning cases (Ryan).

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Dub Duphrate; *Duphrate & Associates, Inc.*

AGENDA ITEM: **P2017-059**; *The Standard Subdivision*

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 46 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S. SH-205] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

☑ The objective of this request is to preliminary plat a 13.097-acre tract of land [*i.e. Lots 5 & 7, Block A, Eastshore Addition*] into 46 single-family lots for the purpose of establishing the necessary fire lane, utility, public access, detention and drainage easements, master open space plan, and lot layout for the proposed 46 lots. The site is located on the east side of S. Goliad Street [S. SH-205], north of the intersection of S. Goliad Street and Justin Road. A summary of the density and dimensional requirements is as follows:

Lot Dimensional Requirements:

Minimum Lot Width [1]	65’
Minimum Lot Depth	82’
Minimum Lot Area	5,330 SF
Minimum Front Yard Setback [2]	20’
Minimum Side Yard Setback	6’
Minimum Side Yard Setback (Adjacent to a Street)	13’
Minimum Length of Driveway Pavement (Rear and Side Yard Only)	20’
Maximum Height [3]	36’
Minimum Rear Yard Setback [4]	10’
Minimum Area/Dwelling Unit (SF) [5]	1,300 SF
Maximum Lot Coverage	45%
Minimum Number of Paved Off-Street Parking Spaces	2 Spaces
Minimum Distance Between Buildings	10’

General Notes:
[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.
[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.
[4]: As measured from the rear yard property line.
[5]: The minimum area/dwelling unit only includes air conditioned square space.

☑ On December 5, 2017, the Park Board reviewed the preliminary plat and the master open space plan and made a recommendation to approve the plat with the following condition:

1) The developer is to pay pro-rata equipment fees in the amount of $51,244.00 [*i.e. $1,114.00 x 46 lots*] and cash-in-lieu of land fees in the amount of $38,318.00 [*i.e. $833.00 x 46 lots*] for a total amount of $88,562.00. This amount will be due at time of final plat.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for preliminary plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this preliminary plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *preliminary plat* for *The Standard Subdivision,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(11/21/2017 4:37 PM AA)
Two means of fire apparatus access shall be provided for developments of one or two-family dwellings where the number of dwelling units exceeds 30. (Exception: Where there are more than 30 dwelling units on a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3 of the International Fire Code, access from two directions shall not be required.)

Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses.

If utilizing emergency access as secondary access point, it shall be installed and approved prior to releasing of any lots in the development. Fire Marshal shall approve any access control devices being utilized across access points.

Please submit new replacement name for Victory Av. since we already have a Victory in the City.
All other proposed names are approved.

During final platting: Submitt cad file with parcels and street centerlines , closure report, and tie two corners to State Plane Coordinate system (NAD83 North Central Texas 4202).
Addressing of lots will begin at this phase.

P2017-59 The Standard Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 47 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S. SH-205] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2017-059) in the lower right hand corner of all pages on future submittals.
M.4 Will need to provide tree screening at the north property line (adjacent to Lots 11-19)
M.5 Since this development will be done in one phase, no master plat is needed.
M.6 The 60-foot ROW between Lots 4 and 6 needs to be a public access, fire lane, utilities easement
M.7 Please provide an openspace master plan.
M.8 Please check the graphic scale. It seems to be off.
I.9 The min SF for each Lot is 5,330 SF—Please review the PD-68 Ordinance.
M.10 The min lot depth is 82-feet. Please check Lot 1, Block B
M.11 The min side yard setback adjacent to a street is 13-feet. Please check Lots 1, 8, 9 and 15, Block B and Lots 1, 5, 6, and 9, Block C.
M.12 The min lot width is 65-feet. Please check your lots in the curves and ensure that you are measuring the frontage at the front yard setback.
M.13 Are you building a wall in the ROW?
M.14 You are required to connect to the adjacent lot for Emergency Access. Your plat shows “Emergency Accessbut the Landscape Plans show “Openspace”
M.15 Your PD Ordinance limits you to no more than 46 units at 3.6 DU/Acre. You are showing 47 Units at 3.61 DU/Acre. You will need to subtract one lot or open the PD to ask for the additional lot and density.
M.16 Your Utility Plan title block says “Proposed Utility Utility Services”. Please remove the second “Utility”
M.17 Please provide a legend for the symbols on the Utility Plan.
M.18 On your Treescape Plan, Tree 3041 is 14 caliper inches and should be mitigated at 7-inches. You are showing 6-inches. Trees 3026 and 4021 are feature trees and require P&Z Approval to be removed. Additionally, they are Protected Feature Trees and require mitigation at twice the number of inches removed. Tre 3026 should be mitigated at 12-inches and tree 4021 should be mitigated at 20-inches.
M.19 There shall be a minimum of one tree for each 750 square feet of dry land area for the detention pond.
I.20 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning and Zoning Worksession for this case is November 28, 2017. The Planning and Zoning Meeting for this case is December 12, 2017. The Park Board Meeting for this case is December 5, 2017. The City Council Date for this case is December 18.

Mr. Ryan Miller
Director of Planning
City of Rockwall
Rockwall, Texas 75087

Re: The Standard- Rockwall Tree Preservation Plan

Dear Ryan,

Our client Merritt Capital, Ltd., who is developing the Standard – Rockwall, a single-family senior living community, respectfully requests for our current Tree Preservation Plan application to be reviewed and evaluated based on the proposed Updated Tree Ordinance of which will soon become adopted by the City of Rockwall.

Your consideration of this request will be greatly appreciated.

Sincerely,

W.L. Douphrate II, P.E.

President

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: Z2017-052; Zoning Change for The Enclave (*C and HC to PD*)

The applicant, Pat Atkins, is requesting to postpone the public hearing for *Case No. Z2017-052*, which is scheduled for December 12, 2017. As you may recall from the last meeting held on November 28, 2017, the Planning and Zoning Commission tabled this item for the purpose of allowing the applicant time to provide a *Traffic Impact Analysis* (TIA) for the proposed development. Mr. Atkins has notified staff that he is need of additional time to prepare the TIA and should have the report ready for the January 9, 2018 meeting. If granted, this means that the projected Planning and Zoning Commission public hearing would be held on *Tuesday, January 9, 2018* and the City Council public hearing would be held on *Monday, January 16, 2018.*

According to Section 6.2, *Public Hearing Postponements, Recess, and Continuations*, of the Article II, Authority and Administrative Procedures, of the Unified Development Code (UDC), a public hearing may be postponed by announcing the postponement at the public hearing and indicating the time and place the new hearing is scheduled to begin. The announcement of a postponement shall be sufficient notice and no additional notice shall be required.

RE: P&Z MEETING 12-12-17

DEAR MR. GONZALES ,

AS AUTHORIZED REPRESENATIVE AND APPLICANT FOR THE 63.72 ACRES , WE ARE HEREBY FORMALLY REQUESTING TABLING OF SAID ITEM UNTIL THE FIRST MEETING IN JANUARY.

WE WERE TABLED AT OUR LAST MEETING SUBJECT TO T.I.A. STUDY WHICH WE ARE IN NEED OF MORE TIME TO COMPLETE THE STUDY WITH OUR TRAFFIC ENGINEER .

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: Z2017-054: Text Amendment to Article IX, *Tree Preservation*, of the UDC

At the December 4, 2017 City Council meeting, the City Council remanded the Tree Preservation ordinance back to the Planning and Zoning Commission for the purpose of allowing staff to make three (3) changes. These changes are as follows:

1) Section 5.6.(C) staff removed the following statement: "… that is above and beyond the required landscaping …". This means that if the developer/property owner plants a tree on site -- *required or not* -- they will be eligible for the *Tree Preservation Credit*.

2) Section 1.3.4 was changed from:

   If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance.

   to:

   If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a diseased, dead, hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City or property owner may remove the tree or trees without being required to follow the terms and provisions of this ordinance.

   This change will address the ability of a property owner to remove a tree that: (1) is diseased or dead, or (2) poses an imminent or immediate threat to persons or property.

3) Section 10 was changed to remove "… shall be guilty of a misdemeanor and upon conviction here of …" This section now reads:

   Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

Attached to this memorandum is a copy of staff's proposed changes and an updated draft ordinance. The projected City Council public hearing will be held on *December 18, 2017* pending a recommendation from the Planning and Zoning Commission.

H.B. No. 7

AN ACT

relating to municipal regulation of the removal of trees on private property.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter Z, Chapter 212, Local Government Code, is amended by adding Section 212.905 to read as follows:

Sec. 212.905. REGULATION OF TREE REMOVAL. (a) In this section:

(1) "Residential structure" means:

(A) a manufactured home as that term is defined by Section 1201.003, Occupations Code;

(B) a detached one-family or two-family dwelling, including the accessory structures of the dwelling;

(C) a multiple single-family dwelling that is not more than three stories in height with a separate means of entry for each dwelling, including the accessory structures of the dwelling; or

(D) any other multifamily structure.

(2) "Tree mitigation fee" means a fee or charge imposed by a municipality in connection with the removal of a tree from private property.

(b) A municipality may not require a person to pay a tree mitigation fee for the removed tree if the tree:

(1) is located on a property that is an existing one-family or two-family dwelling that is the person's residence; and

(2) is less than 10 inches in diameter at the point on the trunk 4.5 feet above the ground.

(c) A municipality that imposes a tree mitigation fee for tree removal on a person's property must allow that person to apply for a credit for tree planting under this section to offset the amount of the fee.

(d) An application for a credit under Subsection (c) must be in the form and manner prescribed by the municipality. To qualify for a credit under this section, a tree must be:

(1) planted on property:

(A) for which the tree mitigation fee was assessed; or

(B) mutually agreed upon by the municipality and the person; and

(2) at least two inches in diameter at the point on the trunk 4.5 feet above ground.

(e) For purposes of Subsection (d)(1)(B), the municipality and the person may consult with an academic organization, state agency, or nonprofit organization to identify an area for which tree planting will best address the science-based benefits of trees and other reforestation needs of the municipality.

(f) The amount of a credit provided to a person under this section must be applied in the same manner as the tree mitigation fee assessed against the person and:

(1) equal to the amount of the tree mitigation fee assessed against the person if the property is an existing one-family or two-family dwelling that is the person's residence;

(2) at least 50 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is a residential structure or

pertains to the development, construction, or renovation of a residential structure; and

(B) the person is developing, constructing, or renovating the property not for use as the person's residence; or

(3) at least 40 percent of the amount of the tree mitigation fee assessed against the person if:

(A) the property is not a residential structure; or

(B) the person is constructing or intends to construct a structure on the property that is not a residential structure.

(g) As long as the municipality meets the requirement to provide a person a credit under Subsection (c), this section does not affect the ability of or require a municipality to determine:

(1) the type of trees that must be planted to receive a credit under this section, except as provided by Subsection (d);

(2) the requirements for tree removal and corresponding tree mitigation fees, if applicable;

(3) the requirements for tree-planting methods and best management practices to ensure that the tree grows to the anticipated height at maturity; or

(4) the amount of a tree mitigation fee.

(h) A municipality may not prohibit the removal of or impose a tree mitigation fee for the removal of a tree that:

(1) is diseased or dead; or

(2) poses an imminent or immediate threat to persons or property.

(i) This section does not apply to property within five miles of a federal military base in active use as of December 1, 2017.

SECTION 2. The changes in law made by this Act apply only to a tree mitigation fee assessed by a municipality on or after the effective date of this Act.

SECTION 3. This Act takes effect December 1, 2017.

_____ _____

President of the Senate Speaker of the House

I certify that H.B. No. 7 was passed by the House on July 28, 2017, by the following vote: Yeas 130, Nays 9, 1 present, not voting; and that the House concurred in Senate amendments to H.B. No. 7 on August 15, 2017, by the following vote: Yeas 119, Nays 23, 1 present, not voting.

Governor

PROPOSED CHANGES TO:

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a diseased, dead, hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City or property owner may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.

7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.
9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

The Tree Mitigation requirements shall apply for all properties that do not fall under the exemptions listed in Section 1.3, *Exemptions*, of this Article. In addition, if a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

   (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).
   (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.
   (c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). In addition, if the developer/property owner plants a tree on (i) the property for which the tree preservation credit was assessed or (ii) a location that is mutually agreed upon by the City and the developer/property owner, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.
   (d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. *Alternative Tree Mitigation Settlement Agreements.* In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape Plan* -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.
2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IX, *TREE PRESERVATION*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IX, *District Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Article IX, *Tree Preservation,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY 2018.

1st Reading: December 18, 2017

2nd Reading: January 2, 2018

DRAFT ORDINANCE 12.12.2017

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a diseased, dead, hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City or property owner may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

DRAFT ORDINANCE 4.26.17

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

DRAFT ORDINANCE 12.12.2017

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.
9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

DRAFT ORDINANCE 11.27.2017

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

The Tree Mitigation requirements shall apply for all properties that do not fall under the exemptions listed in Section 1.3, *Exemptions*, of this Article. In addition, if a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

    (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).

    (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

(c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). In addition, if the developer/property owner plants a tree on (i) the property for which the tree preservation credit was assessed or (ii) a location that is mutually agreed upon by the City and the developer/property owner, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Settlement Agreements. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape*

DRAFT ORDINANCE 12-20-17

Plan -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

DRAFT ORDINANCE 12-2017

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

DRAFT ORDINANCE 12.20.17

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: Proposed Changes to *Section 6.2, Article II, UDC*

At the November 20, 2017 City Council meeting, the City Council directed staff to amend the postponement procedures for public hearings to reduce the number of times an applicant can request the postponement of a public hearing. Section 6.2, *Public Hearing Postponement, Recess and Continuations*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) lays the current procedures for postponing a public hearing stating, "(a) public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin … (i)f a postponement or continuance of a public hearing is to a specific date and time no later than 60 days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required." Under these current procedures, if an applicant requests to postpone a public hearing, staff -- *at the direction of the City Attorney* -- has taken the position that since the public hearing is a posted and advertised meeting, official action is required by the acting body to either accept or deny the postponement request. A denial of the request would allow the acting body to hold a public hearing and take action on the case, as long as the case meets all other procedural requirements stipulated by the UDC. These procedures typically allow an applicant the ability to request up to three (3) to four (4) postponements under the 60-day rule based on the City's typical meeting schedule. At the end of the 60-days staff considers the application to be voluntarily withdrawn and the applicant would need to resubmit a new application to reinstate the case. Staff should note that this process does not have any approvals at the staff level and does not allow staff to initiate a postponement; however, in cases where the applicant has not provided sufficient information to staff to allow the case to move forward staff may ask the applicant or acting body to consider postponing the case to allow more time for the applicant to provide the requested information.

Based on the direction of the City Council, staff has drafted an amendment to the UDC that would reduce the number of times an applicant can request a postponement to two (2) by changing the 60-day rule to 30-days. In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017
City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff has sent a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Possible Code Amendment:

Additions
~~*Deletions*~~

Section 6.2. Public Hearing Postponement, Recess, and Continuations.

A. A public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin.

B. A public hearing may be recessed and continued any time after the hearing has commenced.

C. If a postponement or continuance of a public hearing is to a specific date and time no later than 30 ~~60~~ days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required.

D. Postponed or continued public hearing shall be presumed to be held in the same location, unless a different location for the hearing is announced at the time of the postponement or continuance.

E. In the event that any request or amendment is being considered, whether or not a public hearing is involved, and it is continued at the request of the applicant more than one time, an additional fee shall be required to cover the reasonable costs to the city, including the cost of any additional advertising cost and the cost of the city's consultants due to the postponement.

F. If the applicant is not present at a meeting where the request is being considered and the request cannot be considered, then an additional fee, as described in 6.2.E above, shall also be required.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.2, *PUBLIC HEARING POSTPONEMENT, RECESS AND CONTINUATIONS*, OF ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

Section 6.2. Public Hearing Postponement, Recess, and Continuations.

A. A public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin.

B. A public hearing may be recessed and continued any time after the hearing has commenced.

C. If a postponement or continuance of a public hearing is to a specific date and time no later than 30 ~~60~~ days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required.

D. Postponed or continued public hearing shall be presumed to be held in the same location, unless a different location for the hearing is announced at the time of the postponement or continuance.

E. In the event that any request or amendment is being considered, whether or not a public hearing is involved, and it is continued at the request of the applicant more than one time, an additional fee shall be required to cover the reasonable costs to the city, including the cost of any additional advertising cost and the cost of the city's consultants due to the postponement.

F. If the applicant is not present at a meeting where the request is being considered and the request cannot be considered, then an additional fee, as described in 6.2.E above, shall also be required.

DRAFT ORDINANCE 01.02.2018

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: Proposed Changes to *Subsection 2.1.11, Section 2, Article IV, UDC*

At the November 20, 2017 City Council meeting, the City Council directed staff to prepare a text amendment allowing replacement telecommunications towers in excess of 125-feet by Specific Use Permit (SUP). This direction was the result of an appointment with David Naylor, *President and CEO of Rayburn Electric*, who requested the ordinance change to accommodate the replacement of a 320-foot telecommunications tower on the property at 950 & 980 Sids Road. Section 2.1.11, *Utilities, Communications and Transportation*, of Article IV, *Permissible Uses*, of the UDC states an *Antenna, Commercial – Freestanding, Other* requires that the antenna installation comply with the height and area regulations of the applicable zoning district and the support structure not exceed a maximum height of 125-feet. Based on the City Council's direction staff has drafted an amendment that can accommodate Mr. Naylor's request by adding a provision to the current ordinance that would allow a legally recognized, non-conforming telecommunications tower to be replaced with a tower of comparable height by Specific Use Permit (SUP). In addition, staff has further restricted these types of replacements to more intense or industrial zoning districts (*i.e. the Heavy Commercial [HC], Light Industrial [LI] and Heavy Industrial [HI] Districts*).

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017
City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff has sent a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Possible Code Amendment:

~~*Deletions*~~

Section 2.1.11. Utilities, Communications and Transportation.

Antenna.

1. *Definitions*.

   ~~For the purpose of this section, an antenna~~ Antenna mast is defined as an antenna, mast or tower, or all or any two of these combined to constitute a structure designed for radio and television reception or transmission.

   Antenna means a device or apparatus consisting of one or more wires or rods arranged to send and receive radio, television, electromagnetic or microwave signals. For purposes of this section, several antenna components may be assembled to perform a single function for a single operator and may be considered one antenna.

   Antenna, accessory, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, electromagnetic or microwave signals as part of and directly related to a principal activity within an office, retail or industrial building and which itself is not a principal use or unrelated to any principal use on the property.

   Antenna, amateur radio, means a radio communication antenna used by a person holding an amateur station license from the Federal Communications Commission (FCC). An amateur radio antenna shall be allowed as an accessory use in any zoning district, under the following guidelines:

   (a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.

   (b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70 feet provided the setback from side and rear setback lines is increased by one foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the city council may consider approval of a specific use permit for any amateur antenna support structure or antenna that is proposed to exceed these height limits.

   (c) Only one amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a specific use permit.

   (Ord. No. 10-14, § 23, 7-6-2010)

   Antenna, commercial, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, cellular, electromagnetic or microwave signals, and any other similar technology, primarily for the purpose of operating a business and/or for financial gain. A commercial antenna may be either mounted or freestanding as described below.

   Antenna, commercial—freestanding, means a commercial antenna supported by or affixed to a freestanding pole, tower, tripod, frame or other similar structure.

   Antenna, commercial—mounted, means a commercial antenna permanently affixed to the roof or other portion of a building.

2. *Antenna standards.*

   (a) Antenna, accessory.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district.

(2) Administrative approval of the antenna installation shall be required.

(b) *Antenna, commercial*. Located entirely within any nonresidential structure allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.

(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color with the principal building and the equipment building.

(3) At least one paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.

(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(5) No more than three separate equipment buildings shall be located on a single lot.

(c) *Antenna, commercial—freestanding*, when attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75 feet but no more than 150 feet.

(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.

(3) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(4) A minimum setback of 20 feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.

(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 square feet in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.

(6) At least one paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.

(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(8) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(d) Antenna, commercial—freestanding, other.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125 feet in height.

(2) The antenna shall not extend more than ten feet above the maximum height of the support structure. (3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(3) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(4) At least one paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(5) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(6) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(e) Antenna, commercial—mounted, 12 feet or less in height, on nonresidential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12 feet.

(2) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(5) At least one paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(f) *Replacement of an existing Antenna, commercial – freestanding, other*. Where an antenna installation has not been permitted under this chapter but that is considered to be a legally recognized, non-conforming structure or facility, the replacement of the antenna installation may be approved by the City Council on a case-by-case basis through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC), Light Industrial (LI) and Heavy Industrial (HI) Districts.

(2) The replacement antenna installation shall be setback a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.

(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.

(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.

(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.

(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.

(7) At least one paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one (1) of the spaces required for the principal use on the property.

3. *Construction and maintenance requirements.* All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the following requirements:

(a) All electrical specifications of such antenna masts, towers and supports shall comply with the National Electrical Code, the electrical code of the city, Standard Building Code, and the building code of the city.

(b) Antenna structures shall be designed in accordance with section 1205.1 of the Standard Building Code. 4. Permit required. Any person desiring to erect or have erected an antenna more than 25 feet in height above ground level, or an antenna mast 25 feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the chief building official, must accompany each application. It shall be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

4. *Restrictions and limitations.* All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(a) No such antenna system shall be more than 99 feet in height.

(b) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.

(Ord. No. 10-14, § 24, 7-6-2010)

(c) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.

(d) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SUBSECTION 2.1.11, *UTILITIES, COMMUNICATIONS AND TRANSPORTATION*, OF SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Section 2.1.11. Utilities, Communications and Transportation.

Antenna.

1. *Definitions*.

~~For the purpose of this section, an antenna~~ Antenna mast is defined as an antenna, mast or tower, or all or any two of these combined to constitute a structure designed for radio and television reception or transmission.

Antenna means a device or apparatus consisting of one or more wires or rods arranged to send and receive radio, television, electromagnetic or microwave signals. For purposes of this section, several antenna components may be assembled to perform a single function for a single operator and may be considered one antenna.

Antenna, accessory, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, electromagnetic or microwave signals as part of and directly related to a principal activity within an office, retail or industrial building and which itself is not a principal use or unrelated to any principal use on the property.

Antenna, amateur radio, means a radio communication antenna used by a person holding an amateur station license from the Federal Communications Commission (FCC). An amateur radio antenna shall be allowed as an accessory use in any zoning district, under the following guidelines:

(a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.

(b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70 feet provided the setback from side and rear setback lines is increased by one foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the city council may consider approval of a specific use permit for any amateur antenna support structure or antenna that is proposed to exceed these height limits.

(c) Only one amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a specific use permit.

(Ord. No. 10-14, § 23, 7-6-2010)

Antenna, commercial, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, cellular, electromagnetic or microwave signals, and any other similar technology, primarily for the purpose of operating a business and/or for financial gain. A commercial antenna may be either mounted or freestanding as described below.

Antenna, commercial—freestanding, means a commercial antenna supported by or affixed to a freestanding pole, tower, tripod, frame or other similar structure.

Antenna, commercial—mounted, means a commercial antenna permanently affixed to the roof or other portion of a building.

2. *Antenna standards.*

DRAFT ORDINANCE 04.02.18

(a) Antenna, accessory.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district.

(2) Administrative approval of the antenna installation shall be required.

(b) *Antenna, commercial*. Located entirely within any nonresidential structure allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.

(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color with the principal building and the equipment building.

(3) At least one paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.

(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(5) No more than three separate equipment buildings shall be located on a single lot.

(c) *Antenna, commercial—freestanding*, when attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75 feet but no more than 150 feet.

(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.

(3) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(4) A minimum setback of 20 feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.

(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 square feet in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.

(6) At least one paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.

DRAFT ORDINANCE 01.02.2018

(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(8) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(d) Antenna, commercial—freestanding, other.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125 feet in height.

(2) The antenna shall not extend more than ten feet above the maximum height of the support structure. (3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(3) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(4) At least one paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(5) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(6) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(e) Antenna, commercial—mounted, 12 feet or less in height, on nonresidential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12 feet.

(2) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(5) At least one paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

DRAFT ORDINANCE 01.02.2018

(f) *Replacement of an existing Antenna, commercial – freestanding, other*. Where an antenna installation has not been permitted under this chapter but that is considered to be a legally recognized, non-conforming structure or facility, the replacement of the antenna installation may be approved by the City Council on a case-by-case basis through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC), Light Industrial (LI) and Heavy Industrial (HI) Districts.

(2) The replacement antenna installation shall be setback a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.

(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.

(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.

(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.

(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.

(7) At least one paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one (1) of the spaces required for the principal use on the property.

3. *Construction and maintenance requirements.* All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the following requirements:

(a) All electrical specifications of such antenna masts, towers and supports shall comply with the National Electrical Code, the electrical code of the city, Standard Building Code, and the building code of the city.

(b) Antenna structures shall be designed in accordance with section 1205.1 of the Standard Building Code. 4. Permit required. Any person desiring to erect or have erected an antenna more than 25 feet in height above ground level, or an antenna mast 25 feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the chief building official, must accompany each application. It shall be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

4. Restrictions and limitations. All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(a) No such antenna system shall be more than 99 feet in height.

DRAFT ORDINANCE

(b) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.

(Ord. No. 10-14, § 24, 7-6-2010)

(c) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.

(d) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

DRAFT ORDINANCE 01.02.2018

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 28, 2017

SUBJECT: Food Trucks/Trailers

At the November 20, 2017 City Council meeting, the City Council directed staff to prepare a text amendment adding *Food Trucks/Trailers* to the list of *Permissible Uses* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC). Currently, the City allows these types of uses under the *Beverage and/or Food Service Facility, Portable* by Specific Use Permit (SUP) in all non-residential zoning districts with the exception of the Neighborhood Services (NS) and Research and Technology (RT) Districts. The purpose of the change would be to allow *Food Trucks/Trailers* to operate *by-right* in certain zoning districts under a set of operational conditions. The amendment specifically allows the use in all non-residential zoning districts *by-right -- with the exception of the Residential Office (RO) and Neighborhood Services (NS) District which are typically closer to residential properties* -- under the following operational constraints:

1. The Food Truck/Trailer shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid Certificate of Occupancy (CO). Operation within the public right-of-way is prohibited.
2. Food Trucks/Trailers shall only operate between the hours of 7:00 AM and 10:00 PM, and the Food Truck/Trailer shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The Food Truck/Trailer shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The Food Truck/Trailer shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The Food Truck/Trailer shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a Food Truck/Trailer may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the Food Truck/Trailer with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the Food Truck/Trailer.

The City Council has asked that the Planning and Zoning Commission review the proposed text amendment and make recommendations concerning the operational conditions. Staff should point out that as part of this text amendment, staff has changed the *Beverage and/or Food Service Facility, Portable* land use to a *Beverage Service Facility, Portable*, to account for the overlap of the two (2) uses. In addition, per staff's conversation with the Planning and Zoning Commission at the November 28, 2017 Work Session meeting, staff has included a map showing the locations that a *Food Truck/Trailer* would be permitted under the proposed ordinance (*i.e. the areas indicated in red and blue*). Staff has also depicted a 300-foot buffer of all existing restaurants on the map to give the Planning and Zoning Commission an idea about what the inclusion of a proximity requirement would do to the permissible areas. Should the

Planning and Zoning Commission choose to incorporate this requirement into the attached ordinance this will need to be added to any motion for approval. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. The schedule for this text amendment is as follows:

Planning and Zoning Commission [Public Hearing]: December 12, 2017
City Council [Public Hearing/1st Reading of the Ordinance]: December 18, 2017
City Council [2nd Reading of the Ordinance]: January 2, 2018

Staff sent a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Section 2. Use Standards.
Section 2.1.6. Retail and Personal Service Use Conditions.

Beverage ~~and/or food~~ service facility, portable. A portable beverage ~~and/or food~~ service facility is an establishment that sells beverages ~~and/or food~~ from a structure ~~or trailer~~ that can be moved from place to place but that stays at one location during a normal business day; food sales are prohibited in these facilities~~.~~ A portable beverage ~~and/or food~~ facility shall meet the following minimum conditions:

1. The service shall be limited to snow cone stands, beverage ~~and/or food~~ stands serving nonalcoholic beverages such as coffee, juices or sodas ~~and/or prepared food products~~.
2. The maximum time limit of such temporary use shall not exceed 150 days annually or a time limit otherwise approved by the city council. At the end of the time period, the structure shall be removed from the property.
3. Any temporary power poles will be removed on the date of or immediately following the termination date of the permit.
4. No additional freestanding signage shall be permitted.
5. The temporary portable structure or trailer shall meet all health and electrical codes off the city.
6. Any such temporary facility shall not reduce the number of required parking spaces of any nearby building or use.
7. Any such temporary facility shall have permanent restrooms for employees available within 300 feet of the door of the portable beverage facility. Written permission from the permanent building owner for restroom use must be submitted to the building official; no portable restroom facility is allowed.
8. Any such temporary facility shall be located on an all-weather (asphalt or concrete) parking surface with adequate space for parking and circulation, unless alternatively approved by the city council.

Food Truck/Trailer. A *Food Truck* or *Trailer* is a *Mobile Food Vendor* that sells food and/or beverages that are either pre-packaged or prepared in the confines of a portable truck/trailer, which can be moved from place to place, but is typically in a fixed location for extended periods of time. A *Food Truck/Trailer* shall meet the following conditions:

1. The *Food Truck/Trailer* shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid Certificate of Occupancy (CO). Operation within the public right-of-way is prohibited.
2. *Food Trucks/Trailers* shall only operate between the hours of 7:00 AM and 10:00 PM, and the *Food Truck/Trailer* shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The *Food Truck/Trailer* shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The *Food Truck/Trailer* shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The *Food Truck/Trailer* shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a *Food Truck/Trailer* may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the *Food Truck/Trailer* with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the *Food Truck/Trailer*.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 1, *LAND USE SCHEDULE*, AND SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

2. *Food Trucks/Trailers* shall only operate between the hours of 7:00 AM and 10:00 PM, and the *Food Truck/Trailer* shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The *Food Truck/Trailer* shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The *Food Truck/Trailer* shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The *Food Truck/Trailer* shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a *Food Truck/Trailer* may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the *Food Truck/Trailer* with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the *Food Truck/Trailer*.

DRAFT ORDINANCE 01.02.2018

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: ED Cavendish, *Cavendish Homes/VPS Construction*

AGENDA ITEM: **Z2017-059**; *Amendment to PD-8 for Townhomes*

SUMMARY:

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on October 29, 1973 (*Ordinance No. 73-43*). On November 12, 1973, the subject property was rezoned to Planned Development District 8 (PD-8) and designated for a *Multi-Family Structure or Condominium* by *Ordinance No. 73-48*. This designation was amended on October 19, 1992 by *Ordinance No. 92-39* (*Case No. PZ1992-008-01*), which re-designated the subject property to allow 44 *zero-lot-line*, single-family homes. The subject property is an un-platted 6.88-acre tract of land located on Henry M. Chandler Drive, adjacent to the Chandler's Landing Marina and the Spyglass Condominiums, in the Chandler's Landing community.

On October 13, 2017, the applicant requested to reinstate the preliminary plat that was approved in 1992 in accordance with *Ordinance No. 92-39*. This preliminary plat depicted the proposed layout for the 44 *zero-lot-line*, single-family homes. The Planning and Zoning Commission approved the reinstatement request October 24, 2017; however, the applicant ultimately choose to submit an application on November 17, 2017 requesting to amend *Ordinance No. 92-39* to allow for a 48-unit townhome development.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the south side of Henry M. Chandler Drive west of the intersection of Henry M. Chandler Drive and Ridge Road [*FM-740*]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Henry M. Chandler Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan* contained in the Comprehensive Plan. Beyond this are *Phases 1 & 2* of the Harbor Landing Subdivision, which are located within the Chandler's Landing Community and zoned Planned Development District 8 (PD-8).

South: Directly south of the subject property is the corporate boundary between the City of Rockwall and the City of Heath. Situated in the City of Heath adjacent to the subject property are several single-family homes.

East: Directly east of the subject property is *Phase 3* of the Spyglass Hill Subdivision, which is composed of 46-condominiums and zoned Planned Development District 8 (PD-8). Beyond this are *Phases 1 & 2* of the Spyglass Hill Subdivision, which are composed of 110-condominiums (*i.e. Phase 1 has 67-condominiums and Phase 2 has 43-condominiums*) and zoned Planned Development District 8 (PD-8).

West: Directly west of the subject property is the Chandler's Landing Marina, which is located within the *takeline* for Lake Ray Hubbard (*i.e. owned by the City of Dallas and leased by the City of Rockwall*). Beyond this is Lake Ray Hubbard.

CHARACTERISTICS OF THE REQUEST:

According to the concept plan provided by the applicant the proposed townhome development will consist of 48-single family attached lots that will be broken up into blocks of three (3) to five (5) homes. The development will incorporate approximately 42% open space, the majority of which will be used to create a buffer between the proposed development and *Spyglass, Phase 3* (*which is located directly east of the subject property*). The concept plan also shows that about half of the proposed lots will have *front entry* garages. The remainder of the lots will incorporate rear entry garages (*i.e. accessible from an alleyway*). Staff should note that the applicant has requested that the streets be private and maintained by the Homeowner's Association (HOA). Staff has included this condition in the proposed draft ordinance with the stipulation that the applicant provide a 29-foot *back-to-back* concrete street built to the City's standards. A summary of the proposed density and dimensional requirements for this project are as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [1]	20'
Minimum Side Yard Setback [2]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 508-feet above sea level.

The applicant has not provided examples of the proposed building elevations; however, staff has incorporated anti-monotony standards that require a minimum of two (2) intervening homes of differing appearance be used before the same material blend/building elevation is utilized. In addition, staff should note that when *Ordinance No. 92-39* was approved, the City Council established maximum finished floor elevations for each building pad on the proposed concept plan. The purpose of these maximums was to ensure that the views of the properties located directly east (*i.e. Spyglass, Phase 3*) of the subject property would not be affected by the proposed development. In conformance with these requirements the applicant has stated that the highest roof elevation of any townhome will be at an elevation of 500-feet above sea level. This is eight (8) feet below the

highest elevation permitted under *Ordinance No. 92-39*. Staff has included this in the conditions of approval for this case.

CONFORMANCE WITH THE CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ *Garages.* The applicant is proposing to incorporate approximately 50% front entry garages that will incorporate a recess of three (3) feet. The remaining garages will be accessible from an alleyway or rear entry garage. According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*).

- ☑ *Masonry Requirements.* The applicant is proposing to allow up to 70% cementaceous fiberboard and/or stucco in the design of the townhomes. The general residential standards outlined in Section 3, *Residential Districts*, of Article V, *District Development Standards*, of the UDC states, that residential structures should incorporate a minimum of 80% masonry materials of which 50% is permitted to be cementaceous. This equates to an overall permissible percentage of 60% cementaceous materials. The applicant's request would require the City Council to increase this by ten (10) percent.

- ☑ *Lot Size.* Currently, the City of Rockwall does not have standards or a zoning district that would permit a townhome product with the exception of the Two Family (2F) or Multi-Family 14 (MF-14) Districts. In addition, the City's smallest single-family lot size permitted by the UDC is 5,000 SF, which is permitted in the Zero Lot Line (ZL-5) District. The Two Family (2F) District -- *which could accommodate a Townhouse based on the permitted side yard setbacks* -- requires a minimum lot size of 7,000 SF. In this case, the applicant is proposing a minimum lot size of 2,250 SF.

By approving the proposed Planned Development District, the City Council is waiving these standards.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained in the Comprehensive Plan, designates the subject property for *High Density Residential* land uses, which is defined as any development that exceeds three (3) units per gross acre. In this case, the applicant is proposing a density of 6.98 dwelling units per gross acre, which is conformance with the *High Density Residential* land use designation. Staff should note that the proposed density would be a 0.58 unit increase to the current density of 6.39 dwelling units per gross acre. The Comprehensive Plan states that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or [an] existing retail*) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) The proposed development is adjacent to the Spyglass Condominiums (*adjacent to the eastern property line*), which carry the following densities by phase: (1) *Phase 1*: 18.99 dwelling units per gross acre, (2) *Phase 2*: 14.23 dwelling units per gross acre, and (3) *Phase 3*: 15.38 dwelling units per gross acre. These densities may warrant a consideration of the proposed development; however, any increase in density is a discretionary decision for the City Council. Should the City Council approve the applicant's request no change would be required to the Future Land Use Map.

NOTIFICATION:

On November 30, 2017, staff mailed 269 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Chandler's Landing, The Cabana's at Chandler's Landing, Matchpoint Townhomes, Cutter Hill (*Phases 1-3*), and the Spyglass Homeowner's Associations (HOA's), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the subject property. Additionally, staff posted a sign along Henry M. Chandler Drive as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received two (2) notices in opposition of the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 8 (PD-8) to allow townhomes, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) The highest roof elevation permitted for all townhomes in the development shall be 500-feet above sea level; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Neighborhood Notification Program: Notice of zoning request
Date: Friday, December 01, 2017 3:33:29 PM
Attachments: PUBLIC NOTICE.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-059- Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales
Planning & Zoning Coordinator

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/12/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/18/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/18/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

☒ I am opposed to the request for the reasons listed below.

The Town Homes that are there now are falling down and are a fire Hazard. They will lower home value's and Bring in lower income residents. Spy Glass and Bent tree Condos are in horrible condition.

Name: Constable Trey Chaney

Address: 305 Harborview Dr Rockwall TX

Tex. Loc. Gov. ☒ I am opposed to the request for the reasons listed below.

Our preference is for the zoning to remain for single family structures. Traffic should also be a consideration on Henry M. Chandler drive with stoplight on 740 exct from present residents.

Name: Leland D. Peterson

Address: 203 Harbor Landing Drive, Rockwall, 75032

PROJECT NO. 17-2858

SHEET 1 OF 1

RAMSAY & REYES LLC

PROJECT MANAGEMENT · ARCHITECTS · PLANNERS

Project : 6.88 ACRES on Henry M. Chandler Dr., Rockwall, Texas 75032

Owner: Ed Cavendish

Development Standards

Houses are scheduled to be from 1,900 sq. ft. to 2,200 sq. ft., and will sell from $325,000 to $375,000, producing a taxable value of approximately **$16,800,000.**

Description

Project will contain 48 houses - single lots and in groups of 3,4, and 5 with adjacent side walls.

Lot sizes:	Mostly 24' – 27' wide x 105' deep
Units per lot:	(1) One unit per lot
Lot setbacks:	Front - 20' Rear – 10' Side – (Varies) Zero – 25' Maintenance – 5' Minimum
Landscape:	(1) One tree per every 50' along Henry M. Chandler Dr. Wrought Iron Fence along perimeter of site.

The site is 6.88 acres with 2.88 acres of community park and open space (42%).

Highest top of roof elevation is 500' above sea level which is 8'-0" below the 1992 P&Z recommendation of 508' above sea level.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 8 (PD-8) [*ORDINANCE NO. 92-39*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 92-39*, BEING A 6.88-ACRE TRACT OF LAND IDENTIFIED AS LOT 4, BLOCK A, SPYGLASS HILL #4 ADDITION AND TRACT 134-12 OF THE E. TEAL SURVEY, ABSTRACT NO. 207, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Ed Cavendish of Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for an amendment to the *Planned Development Concept Plan* and *Development Standards* contained within Planned Development District 8 (PD-8) [*specifically contained within Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 92-39*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 12.12.17

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master Plat
3. Preliminary Plat
4. PD Site Plan
5. Final plats

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 6. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

DRAFT ORDINANCE 12.21.17

Jim Pruitt, *Mayor*

ATTEST:

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

Frank J. Garza, *City Attorney*

1st Reading: *December 18, 2017*

2nd Reading: *January 2, 2018*

DRAFT ORDINANCE 12.12.2017

Exhibit 'A':
Legal Description

BEING a tract of land situated in the E. *TEAL SURVEY, ABSTRACT NO. 207*, City of Rockwall, Rockwall County, Texas, and being a part of that 285.2916 acre tract as conveyed to Clarke-Frates Corporation, as recorded in Volume 102, Page 895, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point on the South line of Henry M. Chandler Drive, said point being the Northwest corner of Spyglass Hill Condominiums, Phase Three, an addition to the City of Rockwall, as recorded in Slide B, page 175, Map Records, Rockwall County, Texas, a ½" iron stake set for corner;

THENCE Along the Westerly lines of said Spyglass Hill Condominiums, the following:

South 03 deg. 27' 05" East a distance of 39.65 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 160.16 feet to a ½" iron stake set for corner;
South 37 deg. 16' 05" West a distance of 180.50 feet to a ½" iron stake set for corner;
South 03 deg. 27' 05" East a distance of 142.73 feet to a ½" iron stake set for corner;
South 48 deg. 23' 55" West a distance of 95.59 feet to a ½" iron stake set for corner;
South 41 deg. 23 '55" West a distance of 56.00 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 203.00 feet to a ½" iron stake set for a corner;

THENCE South 41 deg. 32' 55" West, along the Northerly line of Windward Slope Addition, and addition to the city of Heath, Rockwall County, Texas, a distance of 480.10 feet to a ½" iron stake found for corner;

THENCE North 14 deg. 35' 26" West, a distance of 407.29 feet to a ½" iron stake set for corner;

THENCE North 1 deg. 33' 59" West a distance of 70.75 feet to a ½" iron stake set for corner;

THENCE North 20 deg. 51' 59" West a distance of 156.54 feet to a ½" iron stake set for corner;

THENCE North 31 deg. 30' 08" West a distance of 109.80 feet to a ½" iron stake found for corner;

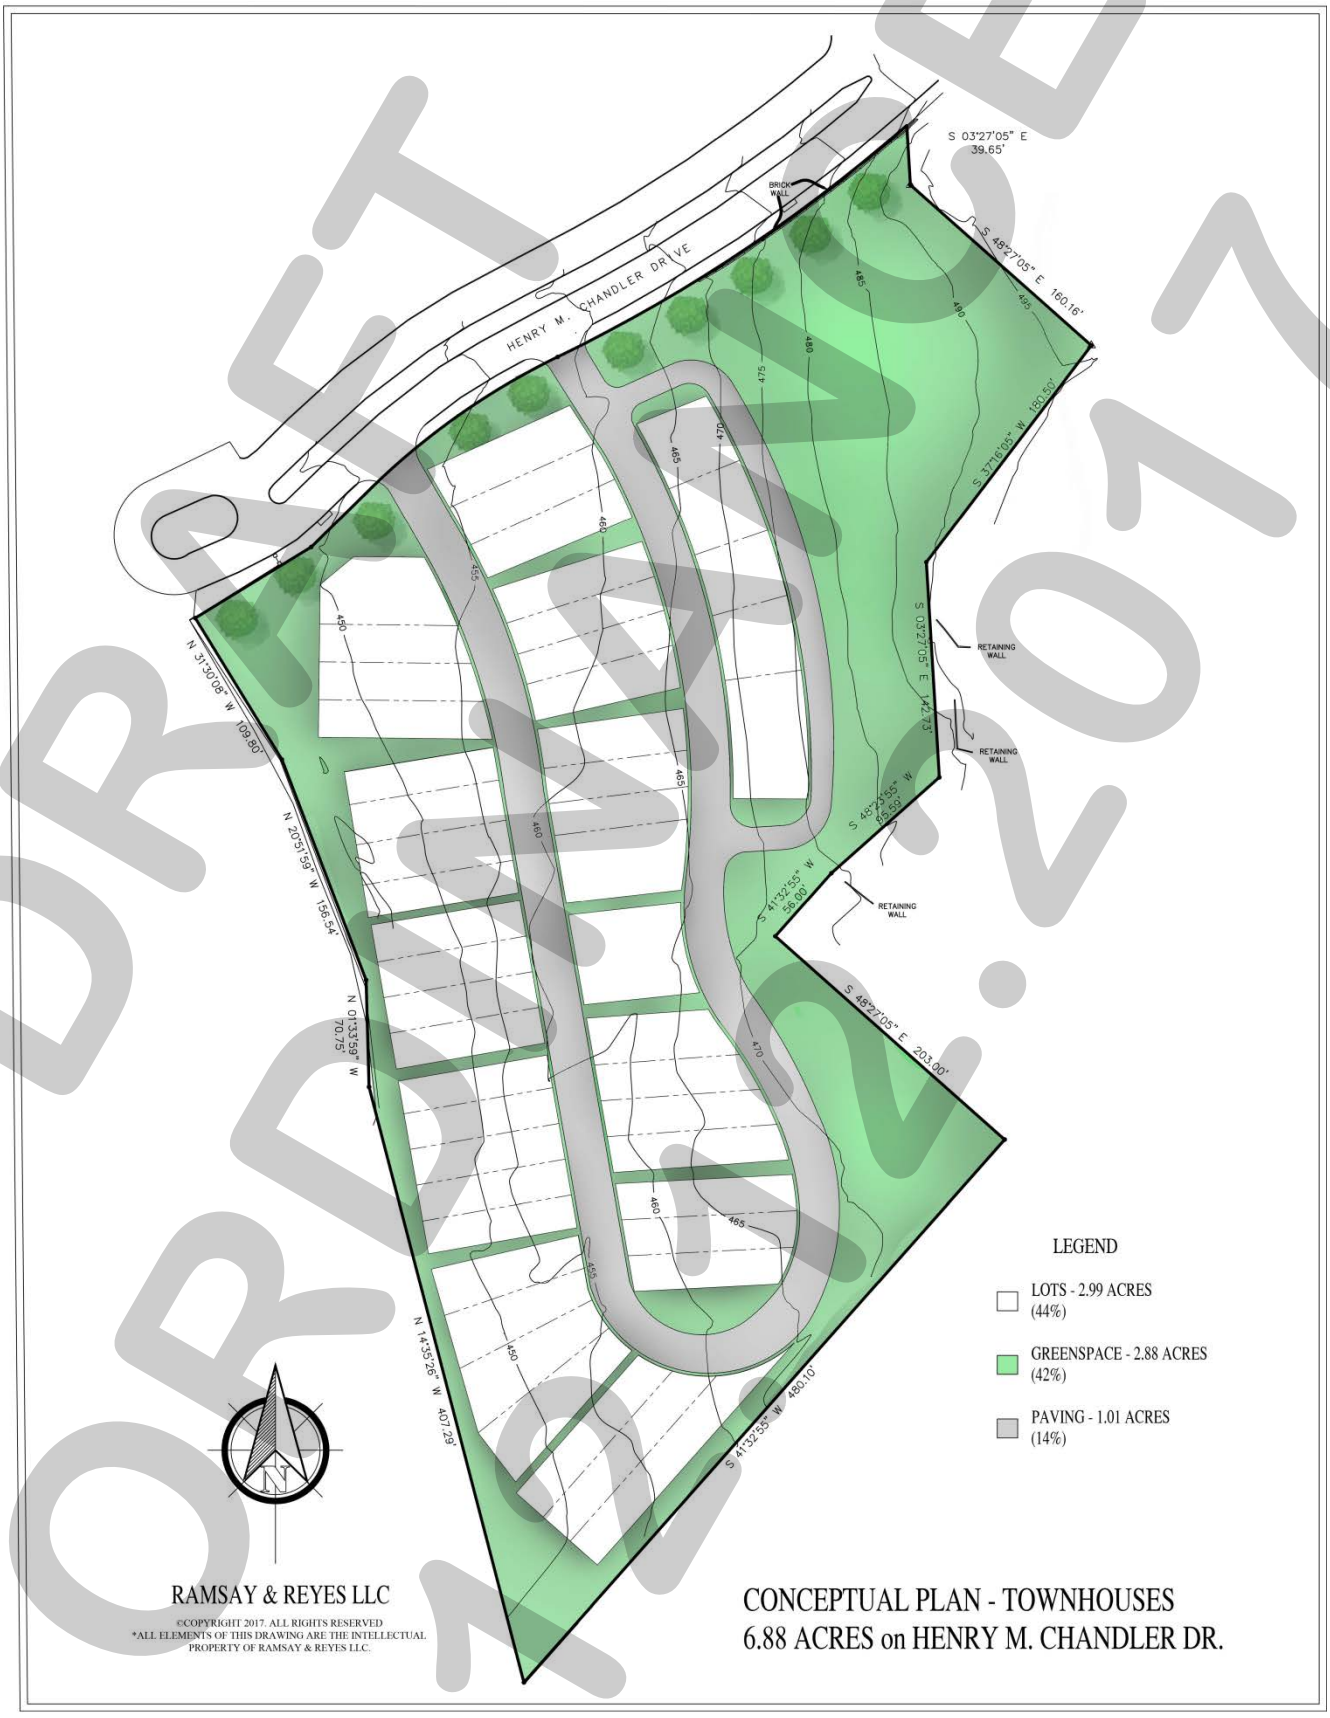
THENCE along the Southerly line of Henry M. Chandler Drive, the following:

North 58 deg. 29' 50" East a distance of 90.00 feet to a ½" iron stake set for corner;
North 45 deg. 29' 10" East a distance of 54.37 feet to the beginning of a curve to the right having a central angle of 18 deg. 36' 41", and a radius of 471.19 feet, a ½" iron stake set for corner;
Around said curve, a distance of 153.06 feet to the beginning of a curve to the left having a central angle of 15 deg. 20' and a radius of 1,040.00 feet, a ½" iron stake set for corner;

Around said curve a distance of 278.32 feet to the *PLACE OF BEGINNING* and containing 6.88 acres of land. This description is based on the Land Title Survey and Plat made by Kenneth E. Brown, Registered Professional Land Surveyor on February 25, 1992.

DRAFT ORDINANCE 12.12.2017

Exhibit 'B':
Concept Plan



DRAFT ORDINANCE 12.2017

Exhibit 'C':
PD Development Standards

PD Development Standards.

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the *Subject Property*; however, the following additional land uses shall be permitted *by-right*:

☑ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the *Subject Property* shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. In addition, the maximum permissible density for the *Subject Property* shall be seven (7) dwelling units per gross acre of land; however, in no case should the proposed development exceed 48-units. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [1]	20'
Minimum Side Yard Setback [2]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 508-feet above sea level.

(3) *Garage Orientation.* All garages shall be permitted to be forward facing (*i.e. facing onto the private street in a front entry configuration*) provided they are setback three (3) feet from the front façade of the primary structure.

(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 70% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance.

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features.

(5) *Anti-Monotony Restrictions*. All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) Landscape Buffers. A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Henry M. Chandler Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Trash Dumpster Enclosure.* If proposed trash dumpster enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures of the townhomes, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

(8) *Fence Standards.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(9) *Open Space.* A minimum of 42% open space shall be provided which generally conforms to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(10) *Private Right-of-Way.* The proposed private right-of-way shall be a minimum of a 29-foot *back-to-back* concrete street built to the City's standards.

DRAFT ORDINANCE 12.12.2017

(11) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences and the private roadways, drive aisles and drive approaches for the subject property associated with this development.

(12) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance

DRAFT ORDINANCE 12.12.2017

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: David Naylor; *Rayburn Country Electric Cooperative*

AGENDA ITEM: **Z2017-060**; Zoning Change (*AG to HC)*

SUMMARY:

Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The subject property is a 3.277-acre tract of land identified as a Lot 3, Block A, Rayburn Country Electric Cooperative Addition, City of Rockwall, Rockwall County, Texas. The applicant is requesting to rezone the property from an Agricultural (AG) District to a Heavy Commercial (HC) District for the purpose of expanding an existing electric utilities facility [*i.e. Rayburn Country Electric Cooperative*]. On December 4, 2017, the City Council approved a replat [*Case No. P2017-063*] to replat four (4) parcels of land into three (3) parcels of land [*i.e. Lots 4-7, Block A, Rayburn Country Addition*] to establish Lot 4 and to combine Lots 5-7. According to Subsection 4.7, *Heavy Commercial (HC) District*, of Section 4, *Commercial Districts*, of Article V, District Development Standards, a utilities facility is permitted with a Specific Use Permit (SUP) in a Heavy Commercial (HC) District. Should the zoning change be approved, the applicant would be required to apply for a Specific Use Permit (SUP) to allow for the expansion of the existing electric utilities facility. Should the Specific Use Permit (SUP) be approved, the applicant would be required to submit a site plan for the facility expansion.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

North: Directly north of the subject property is Sids Road, which is identified as a M4U [*i.e. major collector, 4-lane, undivided highway*] on the City's Master Thoroughfare Plan. Beyond this are several light-industrial businesses [*e.g. Campers 4 Rent, Rodd Hanna's Air Performance, etc.*]. This area is zoned Heavy Commercial (HC) District.

South: Directly south of the subject property is a large vacant tract of land that is zoned Heavy Commercial (HC) District and Commercial (C) District. Beyond this is Mims Road, which is identified as an M4U [*i.e. major collector, 4-lane, undivided highway*] on the City's Master Thoroughfare Plan. This thoroughfare is followed by a large vacant tract of land that is zoned Agricultural (AG) District.

East: Directly east of the subject property is a manufacturing business [*i.e. S&A Systems*] zoned Planned Development District 43 (PD-43) for commercial, warehousing, and

light assembly uses. Beyond this is a logistics company [*i.e. Transam Trucking*] followed by SH-205. This area is zoned Planned Development District 44 (PD-44) for commercial, commercial trucking operation, and outdoor storage of vehicles used in association with the trucking operation land uses.

West: Directly west of the subject property is a business that is zoned Planned Development District 38 (PD-38) for Heavy Commercial (HC) District land uses. Beyond this is a large tract of land that is zoned (AG) Agricultural District.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for *Heavy Commercial* land uses, which is defined as commercial uses that involve large volumes of truck traffic, outside operation and storage of vehicles, or excessive noise. The applicant's request is in conformance with the Future Land Use Map and the Comprehensive Plan.

NOTIFICATION:

On December 1, 2017, staff sent 13 notices to property owners and residents within 500-feet of the subject property. Staff also notified the Flagstone Estates, Meadow Creek Estates, Hickory Ridge, and Lynden Park Homeowner's Associations (HOA's) which are the only HOA's/Neighborhood Associations within 1,500 feet. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices concerning this case.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District to a Heavy Commercial (HC) District then staff would propose the following conditions of approval:

1) Approval of a Specific Use Permit (SUP) shall be required for the expansion of the existing facility.

2) An approved site plan shall be required for the expansion of the existing facility.

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2017-060 Zoning Change (AG to HC) Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2017-060) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Worksession for this case is November 28. The Planning and Zoning Meeting for this case is December 12, 2017
I.5 The City Council meeting date for this case is December 18, 2017 and January 2, 2018
I.6 A representative is required to attend all meetings.

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A HEAVY COMMERCIAL (HC) DISTRICT FOR A 3.227-ACRE TRACT OF LAND IDENTIFIED AS LOT 3, BLOCK A, RAYBURN COUNTRY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DESCRIBED IN EXHIBIT *'A'* AND DEPICTED IN EXHIBIT '*B*' OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from David Naylor of Rayburn Country Electric Cooperative for the approval of an amendment to the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall to adopt a change in zoning from an Agricultural (AG) District to a Heavy Commercial (HC) for a 3.227-acre tract of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, and more specifically depicted in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agricultural (AG) District to a Heavy Commercial (HC) District; and

SECTION 2. That the *Subject Property* shall be used and developed only in the manner and for the purposes provided for a *Heavy Commercial (HC) District* as stipulated by Subsection 4.7*, Heavy Commercial (HC) District,* of Section 4*, Commercial Districts,* of Article V*, District Development Standards,* of the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

DRAFT ORDINANCE 01.02.18

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

SECTION 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

SECTION 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Deric Salser; *Salser Development Group*

AGENDA ITEM: **Z2017-061**; *Amended SUP for Music Studio*

SUMMARY:

Hold a public hearing to discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of an amendment to Specific Use Permit (SUP) No. 174 (S-174) [Ordinance No. 17-45] being a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant is requesting the approval of an amendment to Specific Use Permit (SUP) No. 174 [*Ordinance No. 17-45*]. The subject property is zoned Planned Development District 60 (PD-60) for Residential Office (RO) District land uses and is situated adjacent to Mims Road on a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition. This property is addressed as 1830 and 1842 Mims Road.

On September 5, 2017, the City Council approved a Specific Use Permit (SUP) to allow a music studio on the subject property. At that time, the Specific Use Permit (SUP) included an operational condition that a six (6)-foot masonry screening wall along with a row of canopy trees a minimum of four (4) caliper-inches in size and spaced 20-feet on center to be provided adjacent to the residential properties adjacent to the northeast and southeast property lines. This requirement was added in accordance to Subsection 5.6, *Screening from Residential Uses*, of Section 5, *Mandatory Provisions*, of Article VIII, *Landscape Standards*, of the Unified Development Code (UDC), that states that any commercial use that has a side or rear contiguous to a residential district shall be screened with a six (6)-foot masonry fence. The UDC further states that as an alternative, berms in conjunction with a minimum six (6)-foot wrought iron fence and a combination of trees and shrubs can be utilized to meet the screening requirements should the Planning and Zoning Commission determine that the proposed alternative will provide sufficient screening. In this case, there is an existing wrought iron fence, six (6)-foot tall trees [*i.e. Nellie R. Stevens*], and an existing wooden fence along the property lines adjacent to residential properties.

The applicant is requesting to remove the requirement of a six (6)-foot masonry wall adjacent to the residential properties [*i.e. northeast and southeast property lines*]. The applicant feels there will be sufficient screening from the adjacent residential properties utilizing the existing wrought iron fence, wood fence, existing trees, along with the proposed row of canopy trees required to be planted with the existing SUP. Staff should note that although similar screening requests have previously been approved, since this is in a Specific Use Permit (SUP) request, it is a discretionary decision for both the Planning and Zoning Commission and the City Council.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

Northeast: Northeast of the subject property is an assisted living facility [*i.e. Rock Ridge Assisted Living*]. Beyond this is E. Ralph Hall Parkway, which is identified as a M4-D (*major collector, four (4)-lane, divided roadway)* on the City's Master Thoroughfare Plan. This area is zoned Planned Development District 54 (PD-54) for Single-Family 10 (SF-10) District and Commercial (C) District land uses.

Southeast: Southeast of the subject property is a single-family residential subdivision *[i.e. Flagstone Estates*]. Beyond this is vacant land. Both areas are zoned Planned Development District 54 (PD-54) for Single-Family 10 (SF-10) land uses.

Southwest: Southwest of the subject property is a residential subdivision [*i.e. Highland Meadows*] zoned Single-Family 7 (SF-7) District. Beyond this is a single-family residential subdivision [*i.e. Lynden Park Estates*] that is zoned Planned Development District 17 (PD-17) for single-family detached residential.

Northwest: Northwest of the subject property is a vacant tract of land. Beyond this is E. Ralph Hall Parkway which is identified as a M4-D (*major collector, 4-lane, divided roadway)* on the City's Master Thoroughfare Plan. This area is zoned Planned Development District (PD-54) for Commercial (C) District land uses.

NOTIFICATION:

On December 1, 2017, staff sent 92 notices to property owners and residents within 500-feet of the subject property. Additionally, staff notified the Lynden Park and Flagstone Estates HOA's which are the only Neighborhood Associations/HOA's located within 1,500-feet of the subject property. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff received one (1) email in favor of the request and one (1) notice in opposition of the request.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the specific use permit request, staff would offer the following conditions of approval:

1. The applicant shall be responsible for maintaining compliance with the operational conditions contained in the SUP ordinance and summarized as follows:

    a) The music studio shall generally conform to the concept plan shown in *Exhibit 'C*' and the concept building elevations shown in *Exhibit 'D'* of the attached ordinance.

    b) A row of canopy trees a minimum of four (4) caliper-inches in size and spaced 20-feet on center shall be planted adjacent to the residential properties to the northeast and southeast of the subject property.

    c) Incidental display/outside storage is prohibited.

    d) A shrub row shall be provided as headlight screening for any parking adjacent to residential properties or that face towards Mims Road.

e) The dumpster enclosure doors shall not face towards any residential properties.

f) A Cross-access easement shall be provided adjacent to the property to the northwest of the subject property.

g) Music outside of the studio is prohibited.

2. Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-061- Hold a public hearing to discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of an amendment to Specific Use Permit (SUP) No. 174 (S-174) [Ordinance No. 17-45] being a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.**

CITY OF ROCKWALL

ORDINANCE NO. 17-45
SPECIFIC USE PERMIT NO. S-174

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A MUSIC STUDIO IN PLANNED DEVEOPMENT DISTRICT 60 (PD-60), ON A 0.747-ACRE PORTION OF A LARGER 2.49-ACRE PARCEL OF LAND BEING IDENTIFIED AS A PORTION OF LOT 9, BLOCK A, FLAGSTONE CORNERS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Deric Salser of Salsar Development Group on behalf of Russ Porter of Rockwall School of Music, LLC for the approval of a Specific Use Permit (SUP) to allow for a *Music Studio* in Planned Development District 60 (PD-60) on a 0.747-acre portion of a larger 2.49-acre parcel of land being described as a portion of Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and being more specifically described in *Exhibit 'A'* and depicted in *'Exhibit 'B'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 60 (PD-60) [*Ordinance No. 05-05*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *Music Studio* as stipulated by Planned Development District 60 (PD-60) [*Ordinance No. 05-05*] and Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 1, Land Use Schedule,* of *Article IV, Permissible Uses, and Planned Development District 60 (PD-60)* [*Ordinance No. 05-05*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

1) The music studio shall generally conform to the concept plan shown in *Exhibit 'C'* and the concept building elevations shown in *Exhibit 'D'* of this ordinance.

2) A six (6)-foot masonry screening wall shall be provided adjacent to residential properties (*i.e. east and south property lines*).

3) A row of canopy trees a minimum of four (4) caliper-inches in size and spaced 20-feet on center shall be planted adjacent to the residential properties to the northeast and southeast of the subject property.

4) Incidental display/outside storage is prohibited.

5) A shrub row shall be provided as headlight screening for any parking adjacent to residential properties or that face towards Mims Road.

6) The dumpster enclosure doors shall not face towards any residential properties.

7) A Cross-access easement shall be provided adjacent to the property to the northwest of the subject property.

8) Music outside of the studio is prohibited.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of

any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF SEPTEMBER, 2017.

Jim Pruitt, Mayor

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Cameron Slown; *FC Cuny Corporation*

AGENDA ITEM: **Z2017-062**; *SUP for TRU Hotel by Hilton*

SUMMARY:

Hold a public hearing to discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located southwest of the intersection of Summer Lee Drive and Horizon Road [*FM-3097*], and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant is requesting a Specific Use Permit (SUP) for the purpose of establishing a *Hotel* on the 2.166-acre subject property. The property is located approximately 315-feet southwest of the intersection of Summer Lee Drive and Horizon Road, and is zoned Planned Development District 32 (PD-32). According to *Ordinance No. 17-22* the subject property is partially located within the *Horizon/Summer Lee* and the *Residential Subdistricts* of Planned Development District 32 (PD-32), and according to the *Subdistrict Land Use Chart -- contained in this ordinance* -- a *Hotel* requires a Specific Use Permit (SUP) in all of the *Subdistricts* in Planned Development District 32 (PD-32). The applicant has stated that the proposed *Hotel* will consist of four (4) floors with 98 rooms, and be under a Hilton brand (*i.e. TRU*). The applicant also stated that the hotel will be targeted at the mid-scale market and be comparable to the *Hampton Inn*. In addition, the Specific Use Permit (SUP) ordinance includes a stipulation that the hotel cannot be utilized as an *Extended Stay, Transient* or *Residence Hotel*. An *Extended Stay, Transient* or *Residence Hotel* in this case is understood to be any hotel facility in which the majority of the rooms contain facilities (*i.e. storage, refrigeration, food preparation area, and etcetera*) that accommodate long-term inhabitance and which are advertised, designed and utilized for weekly or monthly occupancy.

Staff should note that the subject property is located within the Scenic Overlay (SOV) District, and according to this overlay district any structure that exceeds 36-feet in height requires a Specific Use Permit (SUP). Staff has included a provision in the Specific Use Permit (SUP) ordinance addressing this stipulation. Staff should also note that the applicant has stated that there is a potential that the hotel area could change if a proposed land swap with the adjacent property owner to the south (*i.e. the 36-unit townhome project*) is approved; however, this will not significantly change the proposed Specific Use Permit (SUP) location depicted in the provided concept plan. In addition, if this case is approved the applicant will need to submit a PD Development Plan (*which is a zoning process*), and any changes to the Specific Use Permit (SUP) ordinance can be handled through this process. As with any Specific Use Permit (SUP), the approval of the applicant's request is a discretionary decision for the Planning and Zoning Commission and City Council.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are several parcels of vacant land and a strip retail center zoned Planned Development District 32 (PD-32). In addition, there is a retail building (*i.e. CVS Pharmacy*) zoned General Retail (GR) District. Beyond this is Horizon Road [*FM-3097*], which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan contained in the Comprehensive Plan.

South: Directly south of the subject property is a 6.915-acre tract of land that is currently vacant, and that has been approved for a 245-unit condominium and 36-unit townhome development. Beyond this is a 7.58-acre tract of land that is currently vacant, and that has been approved for a 265-unit condominium building. All land in this area is zoned Planned Development District 32 (PD-32).

East: Directly east of the subject property is Summer Lee Drive, which is identified as a Minor Collector on the City's Master Thoroughfare Plan contained in the Comprehensive Plan. Beyond this are several parcels of land zoned Planned Development District 32 (PD-32).

West: Directly west of the subject property two (2) strip retail centers zoned General Retail (GR) District. Beyond this is Ridge Road [*FM-740*], which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan contained in the Comprehensive Plan.

NOTIFICATION:

On November 30, 2017, staff mailed 39 notices to property owners and residents within 500-feet of the subject property. Additionally, staff sent a notice to the Lago Vista Homeowner's Association (HOA), which is the only HOA/Neighborhood Organization participating in the Neighborhood Notification Program within 1,500-feet of the subject property. Staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had not received any notifications.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the applicant's request for a Specific Use Permit (SUP) to allow a *Hotel* on the subject property then staff would recommend the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the operational conditions contained in the SUP ordinance and summarized as follows:

    (a) Prior to the submission of a site plan, a *PD Development Plan* depicting a more detailed *Concept Site Plan* and *Concept Building Elevations* than those contained in the Specific Use Permit (SUP) ordinance shall be required to be approved by the City Council pending a recommendation from the Planning and Zoning Commission.
    (b) Nothing contained in the Specific Use Permit (SUP) ordinance shall be deemed to supersede the requirements of *Ordinance No. 17-22*.
    (c) The development of this property shall generally conform to the *Concept Site Plan* depicted in *Exhibit 'B'* of the Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22.*

(d) The proposed hotel shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'C'* of the Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22* and pending a recommendation from the Architectural Review Board (ARB).

(e) This Specific Use Permit (SUP) ordinance shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

(f) The proposed hotel shall be prohibited from being utilized as an *Extended Stay*, *Transient* or *Residence Hotel*, which are considered to be standard hotel rooms that do not contain kitchen facilities.

2) The applicant shall comply with all Planning, Engineering and Fire comments prior to the approval of a site plan; and,

3) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall *Municipal Code of Ordinances*, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject:	Neighborhood Notification Program: Notice of zoning request
Date:	Friday, December 01, 2017 3:53:36 PM
Attachments:	PUBLIC NOTICE.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-062- Hold a public hearing to discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located southwest of the intersection of Summer Lee Drive and Horizon Road [FM-3097], and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP AND PLANNED DEVELOPMENT DISTRICT 32 [*ORDINANCE NO. 17-22*] TO ADOPT A SPECIFIC USE PERMIT (SUP) FOR A HOTEL WITHIN THE INTERIOR AND RESIDENTIAL SUBDISTRICTS OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) ON A 2.166-ACRE PARCEL OF LAND IDENTIFIED AS LOT 2A OF THE ISSAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) to allow a *Hotel* on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], situated within the *Interior* and *Residential Subdistricts* of Planned Development District 32 (PD-32) and the Scenic Overlay (SOV) District, generally located southwest of the intersection of Summer Lee Drive and Horizon Road [*FM-3097*], and more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for *Hotel* within a Planned Development District 32 (PD-32) as stipulated by *Ordinance No. 17-22* on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as set forth in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development

DRAFT ORDINANCE 12.12.2017

Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following conditions and compliance standards:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *Hotel* on the *Subject Property* and conformance to these stipulations are required for continued operations:

1) Prior to the submission of a site plan, a *PD Development Plan* depicting a more detailed *Concept Site Plan* and *Concept Building Elevations* than those contained in this Specific Use Permit (SUP) ordinance shall be required to be approved by the City Council pending a recommendation from the Planning and Zoning Commission.

2) Nothing contained in this Specific Use Permit (SUP) ordinance shall be deemed to supersede the requirements of *Ordinance No. 17-22*.

3) The development of this property shall generally conform to the *Concept Site Plan* depicted in *Exhibit 'B'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22.*

4) The proposed hotel shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'C'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22* and pending a recommendation from the Architectural Review Board (ARB).

5) This Specific Use Permit (SUP) ordinance shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

6) The proposed hotel shall be prohibited from being utilized as an *Extended Stay*, *Transient* or *Residence Hotel*, which are considered to be standard hotel rooms that do not contain kitchen facilities.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City of Rockwall be corrected to reflect the changes described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this

DRAFT ORDINANCE 12.5.17

ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section of provision of this ordinance or the application of that section or provision to any person, firm, cooperation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have to adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Jim Douglas of *Douglas Properties, Inc.*

AGENDA ITEM: **Z2017-063**; *Amendment to PD-82 (AG to PD-82)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

PURPOSE AND BACKGROUND:

On November 6, 2017, the City Council denied a request by the applicant, Jim Douglas of Douglas Properties, Inc. to change the zoning of a 59.065-acre tract of land -- *located adjacent to the western boundary of Planned Development District 82 (PD-82)* -- from an Agricultural (AG) District to Planned Development District 82 (PD-82) for single-family residential land uses [*Case No. Z2017-046*]. On November 28, 2017, the Planning and Zoning Commission approved a request allowing the applicant to resubmit a zoning change request based on a substantial change to the original request by incorporating an additional 39-acre of open space (*i.e. the antenna tower park*), providing larger lots, and the addition of a 2.24-acre private park. Additionally, the applicant indicated the overall density of the development to be reduced from 2.5 units per acre to 1.5 units per acre. With this in mind and on November 15, 2017, the applicant has submitted a subsequent application requesting an amendment to Planned Development District 82 (PD-82) [*i.e. Terracina Estates Subdivision*] proposing to incorporate the additional 98.341-acre tract of land into the existing 81.49-acre tract of land (*i.e. PD-82*) and creating a 179.831-acre single-family residential development. It should be noted that a Master Plat [*Case No. P2017-054*] and Preliminary Plat [*Case No. P2017-055*] were approved on November 20, 2017 establishing Phase I and Phase II for the existing PD-82 (*i.e. 81.49-acre tract*).

If approved, the new 179.831-acre Planned Development District 82 (PD-82) will consist of 352 single-family residential lots. The applicant intends to develop the property in individual phases, which will be identified at the time of master plat. The *subject property*, which was annexed into the City on July 21, 1997 by *Ordinance No. 97-14*, is located west side of Rochelle Road south of SH-276, adjacent to Timber Creek Estates Subdivision. With the exception of the antenna tower park (*i.e. 39-acres open space*), the 98.341-acre *subject property* is currently vacant land and is zoned Agricultural (AG) District, while the 81.49-acre tract is zoned PD-82.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the *subject property* are the Sterling Farms and Timber Creek Subdivisions. These properties are zoned Single Family Estate (SFE-1.5) and Single Family 10 (SF-10) Districts.

South: Directly south of the *subject property* is a portion of the Fontana Ranch, Phase II Addition and the corporate limits of the City. The adjacent properties contain single-family home sites that front onto their respective neighborhood streets.

East: Directly east of the *subject property* is an Rochell Road, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is the City's corporate limits.

West: Directly west of the *subject property* and adjacent to the 39.26-acre tract of land containing multiple radio tower antenna's for the IHeartMedia Tower Company are several single family homes setting on large lots and zoned Agricultural (AG) District, with two of the lots zoned SFE-4.0. Also adjacent to the southern portion of the antenna tower park is the Fontanna Ranch Subdivision, Phase I & Phase II, which is zoned PD-64.

CHARACTERISTICS OF THE REQUEST:

According to the concept plan for the *subject property* [*i.e.Terracina Estates, Phase II Addition*], it is the intent of the applicant to provide an additional 148 single-family residential lots to the existing 204 single-family homes permitted by Planned Development District 82 (PD-82). This amendment would allow for a total of 352 single-family lots [*i.e. 148 proposed lots (as requested)*] *plus 204 lots (Approved with PD-82)*]. The lot mix will be comprised of a minimum lot size of 8,125 SF (*i.e. 65' x 125' lots*), mid-sized lots of 10,000 SF (i.e. 80' x 120'), and ten (10) larger lots containing a minimum of 25,000 SF. It should be noted that the additional *Concept Plan* submitted by the applicant indicates the larger 25,000 SF lots (*i.e. 80' x 120'*) will be located along the northern boundary of the *subject property*, adjacent to the Sterling Farms Addition. The 8,125 SF lots will be located in the center of the addition, and along the eastern boundary of the *subject property* creating a transition of the lots, while lining up with those in *Phase I*. Furthermore, the applicant intends to purchase the property from IHeartMedia for the purpose of dedicating the 39-acre property as open space and providing a meandering trail wrapping around the property. Additionally, the applicant intends to dedicate right-of way connecting the minor collector street (*Street H*) to Guadalupe Drive in the Fontanna Ranch Subdivision, which is located at the southern piece of the property. This will create access for the neighborhoods to the elementary school, all parks, and conforms to the City's *Master Thoroughfare Plan*.

The proposed development of the *subject property* will provide an additional 2.24–acre private park with amenities such as a playground, Dog Park, benches, and an eight (8) foot meandering trail that also provides access to the nine (9) acre public park amenity provided by the developer that was approved with PD-82. The *Concept Plan* indicates the addition of 50.46-acres of open space (*or 51%*) and will combine the 18.97-acres of open space (*or 23.3%)* from the existing PD-82 for a total of 69.43-acres of open space for the development, which exceeds the 20% requirement. With the inclusion of the *subject property*, the location of the park and open space

along the western boundary of the development will provide an additional buffer from the IHeartMedia Tower Company's antenna park. The applicant has also indicated that a minimum of a ten (10) foot landscape buffer along the proposed minor collector street (*Street H*) will include large canopy trees planted along the perimeter of the roadway and park trails at a minimum of 50-ft intervals. The applicant will also be required to provide a minimum of a five (5) foot sidewalk that will be constructed within the rights-of-way of the development. Staff has included these as development requirements within the Planned Development District Ordinance.

A summary of the requested density and dimensional requirements is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***	***C***
Minimum Lot Width [1] & [5]	65'	80'	80'
Minimum Lot Depth	125'	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF	25,000 SF
Minimum Front Yard Setback [2]	20'	20'	20'
Minimum Side Yard Setback	5'	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'	10'
Minimum Length of Driveway Pavement	25'	25'	25'
Maximum Height [3]	36'	36'	36'
Minimum Rear Yard Setback [4]	10'	10'	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF	2,000 SF	2,000 SF
Maximum Lot Coverage	65%	65%	65%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Lots fronting onto a curvilinear street, cul-de-sac or eyebrow may have the lot width reduced by up to 20% as measured at the front property line provided that the lot width is met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows maybe reduced by up to ten (10%) percent, but shall meet the minimum lot size for each lot type.

CONFORMANCE WITH THE CODE OF ORDINANCES & UDC:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Engineering Department's Standards of Design and Construction Manual and the Unified Development Code (UDC) in the following ways:

1) According to the Engineering Department's Standards of Design and Construction Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." Currently, the applicant is requesting to allow J-Swing and/or Front Entry garages that comply with *Article VI, Parking and Loading*, of the Unified Development Code (UDC) in lieu of alleys. This requirement has been waived for other subdivisions throughout the City when the PD Ordinance conforms to the requirements stipulated by the UDC.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained within the Comprehensive Plan designates the subject property for *Low Density Residential* land uses. According to the Comprehensive Plan, the *Low Density Residential* designation is generally defined as single family development consisting of less than two (2) units per acre; however, a density up to 2.5 units per gross acre may be

allowed within a Planned Development district that includes the dedication and/or development of additional amenities that exceed the minimum standards for residential Planned Developments. These amenities may include but not limited to parks and open space, neighborhood amenity centers, development of trails and parks in flood plains, municipal parks and/or recreation facilities, etc. In this case, the applicant is proposing a density of 1.50 units per gross acre and is proposing an approximately 2.24-acre Private Park, incorporating concrete hike and bike trail system, and other features as depicted on the *Concept Plan*. This is exclusive of the 9.0-acre public park that was approved with the original PD-82 request and that has already been preliminary platted with the current PD-82. This means that the applicant is proposing to incorporate ~11.24-acres of total parkland. The proposed zoning does conform to the majority of the Comprehensive Plan's residential policies.

NOTIFICATION:

On December 1, 2017, staff mailed 211 notices to property owners and residents within 500-feet of the *subject property*. Staff also emailed notices to the Lofland Farms, Timber Creek, and Fontana Ranch Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the *subject property* participating in the notification program. Additionally, staff posted a sign adjacent to the *subject property* along Rochell Road and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received two (2) notices opposed to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission and City Council choose to approve the applicant's request to amend PD-82 to add the *subject property*, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Neighborhood Notification Program: Notice of zoning request
Attachments: PUBLIC NOTICE.pdf

Follow Up Flag: Follow up
Flag Status: Flagged

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-063- Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-063: Amendment to PD-82

Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/12/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/18/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/18/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

RE: TERRACINA ESTATES TRACT II
98.341 acres
ROCKWALL, TX

Dear Mr. Miller:

We hereby request an appointment with the planning and zoning commission to reconsider our application for the zoning of Terracina Estates Tract Two. We have added additional acreage and made substantial revisions to the lay-out. We will not be requesting any exceptions to the requirements of PD-82 which we are developing. The PD revisions include larger lots, additional open space, and an additional park area. The density has been reduced to 1.5 units per acre.

If you have any questions or if we can be of any further assistance, please do not hesitate to contact our office.

Sincerely,

Richard Hovas, P.E.

Case Number Z2016-013

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 82 (PD-82) [*ORDINANCE NO. 16-43*], AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE PLANNED DEVELOPMENT DISTRICT TO INCORPORATE A 98.341-ACRE TRACT OF LAND INTO THE EXISTING 81.49-ACRE TRACT OF LAND, CREATING A 179.831-ACRE PLANNED DEVELOPMENT DISTRICT IDENTIFIED AS PLANNED DEVELOPMENT DISTRICT 82 (PD-82) AND BEING TRACT 3, TRACT 8 AND TRACT 16, OF THE J. A. RAMSEY SURVEY, ABSTRACT NO. 186, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company, for the purpose of amending Planned Development District 82 (PD-82) [*Ordinance No. 16-43*], by incorporating an additional 98.341-acre tract of land into the existing 81.49-acre tract of land, for the purpose of developing a residential subdivision on a 179.831-acre tract of land identified as Tract 3,Tract 8, and Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 82 (PD-82) [*Ordinance No. 16-43*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in Planned Development District 82 (PD-82) [*Ordinance No. 16-43*];

Section 2. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described within this *Planned Development District Ordinance*, and unless specifically modified within this ordinance the *Subject Property* shall adhere to all development standards stipulated by the Single Family 10 (SF-10) District as specified in Section 3.4, *Single*

DRAFT 12.19.2017

Family Residential (SF-10) District, of Article V, District Development Standards, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Phasing Plan*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the park areas on the *Subject Property* shall generally be in accordance with the *Parks Concept Plan*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 6. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'E'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'E'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 7. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 7(b) through 7(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

DRAFT ORDINANCE 12.4.17

(d) *Master Plat*. A *Master Plat* application covering all of the Subject Property shall be submitted and shall identify each phase of the development. The *Master Plat* application shall not be approved until the *Open Space Master Plan* may be processed by the City concurrently with the Master Plat Application.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features as depicted in *Exhibit 'D'* (*Park Concept Plan and Amenity Package*). A *PD Site Plan* application, including a plan for improvements for the parkland and/or trails, may be processed by the City concurrently with a *Preliminary Plat Application* for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application, including a plan for improvements for the parkland and/or trails as identified in Section 6(d) above, may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 8. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 9. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 10. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 11. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

DRAFT

DRAFT ORDINANCE 12.12.2017

Exhibit 'E':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 10 (SF-10) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plans* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Maximum Dwelling Units (#)*	*Dwelling Units (%)*
A	65' x 125'	8,125 SF	296	84.09%
B	80' x 125'	10,000 SF	46	13.06%
C	80' x 125'	25,000 SF	10	2.85%
		Maximum Permitted Units:	*352*	*100%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 10 (SF-10) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed ***1.96*** dwelling units per gross acre of land; however, in no case should the proposed development exceed ***352*** dwelling units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***	***C***
Minimum Lot Width [1] & [5]	65'	80'	80'
Minimum Lot Depth	125'	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF	25,000 SF
Minimum Front Yard Setback [2]	20'	20'	20'
Minimum Side Yard Setback	5'	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'	10'
Minimum Length of Driveway Pavement	25'	25'	25'
Maximum Height [3]	36'	36'	36'
Minimum Rear Yard Setback [4]	10'	10'	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF	2,000 SF	2,000 SF
Maximum Lot Coverage	65%	65%	65%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Lots fronting onto a curvilinear street, cul-de-sac or eyebrow may have the lot width reduced by up to 20% as measured at the front property line provided that the lot width is met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows maybe reduced by up to ten (10%) percent, but shall meet the minimum lot size for each lot type.

4. *Building Standards.* All development shall adhere to the following building standards:

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone.

DRAFT NOT FOR ORIGINAL

Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

(b) *Roof Pitch.* A minimum of a *6:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) *Garage Orientation.* A minimum of 30% of garages shall be oriented in a *traditional swing* (or *j-swing*) configuration for *Phase I* and *Phase II* of the *subject property* as depicted in *Exhibit 'C'* of this ordinance. The remainder of garages in *Phase I* and *Phase II* may be configured in a front entry configuration where the front of the garage is flush with (*or recessed behind*) the front façade of the home and the driveway has a minimum length of 25-feet. However, 100% of the garages in *Phase III -- as depicted in Exhibit 'C' of this ordinance* -- shall be oriented in a *traditional swing* (or *j-swing*) configuration. All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code. All garage doors are required to be of cedar construction.

5. Anti-Monotony Restrictions. The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	65' x 125'	(1), (2), (3), (4)
B	80' x 125'	(1), (2), (3), (4)
C	80' x 125'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and three (3) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and three (3) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on Rochell Road shall not repeat without at least four (4) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Porch and/or Sunroom Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

DRAFT ORDINANCE 12.4.17

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

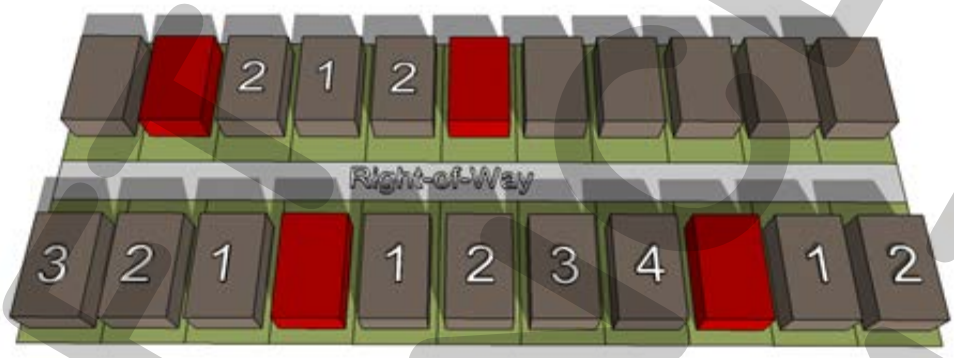

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the following design standards:

   (a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

   (b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

   (c) Corner Lots. Corner lot fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

   (d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

DRAFT ORDINANCE

7. *Landscape and Hardscape Standards.*

   (1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

   (a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

   (b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

   (2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

   (a) Landscape Buffer and Sidewalks (Rochell Road). A minimum of a 15-foot landscape buffer shall be provided along the frontage of Rochell Road (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, at least one canopy tree shall be planted per 50 linear feet of frontage. A minimum of a five (5) foot sidewalk shall be required along Rochell Road.

   (3) *Street Trees.* Street trees shall generally be planted in conformance with the *Planned Development Concept Plan* as depicted in *Exhibits 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for the maintenance of all street trees and will be required to maintain a minimum of a 14-foot vertical clearance height for all trees. All street trees shall be planted a minimum of five (5) feet from all water, sanitary sewer and storm lines.

   (4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

   (5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Park Improvements.* All parks within this development -- *including all features outlined in Section 'A' & 'B' below* -- shall be maintained by the *Home Owners Association (HOA)*.

DRAFT ORDINANCE 12.4.2017

Exhibit 'E':
Development Standards

A) The development of *Phase I* and *Phase II* -- *as depicted in Exhibit 'C' of this ordinance* -- shall incorporate a nine (9) acre, fully established natural turf (*e.g. seeding process*) and irrigated park as generally depicted in the *Planned Development Park Concept Plan* of *Exhibit 'D'* of this ordinance. This area shall also incorporate the following improvements:

1. Eight (8) Foot Concrete *Hike & Bike Trail*
2. Playground
3. Plaza
4. Covered Pavilion
5. Picnic Area
6. Benches
7. Landscape Features (*e.g. Trees and Other Vegetation*)

B) The development of *Phase III* -- *as depicted in Exhibit 'C' of this ordinance* -- shall incorporate a 2.24-acre, fully established natural turf (*e.g. seeding process*) and irrigated private park as generally depicted in the *Planned Development Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

10. Lighting. Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

11. Sidewalks. At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

12. Buried Utilities. New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

13. Open Space. All phases of the development (*i.e. Phase I, Phase II, and Phase III as depicted in Exhibit 'C' of this ordinance*) shall adhere to *Exhibits 'B' & 'D'* and all private parks and open space areas shall be maintained by the Homeowners Association (HOA).

14. Neighborhood Signage. Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. Drainage Standards. The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow

DRAFT ORDINANCE 2017

through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns (*not lot to lot drainage*), and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all private parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 12.12.2017

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Robert Rash

AGENDA ITEM: **Z2017-064**; SUP for 4 Soapberry Lane

SUMMARY:

Hold a public hearing to discuss and consider a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant, Robert Rash, is requesting the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meet the minimum masonry requirements on the subject property. The accessory building is an existing 20-foot tall and 45' x 20' [*i.e. 900 SF*] carport that is not enclosed. The existing accessory building is located across Soapberry Lane, adjacent to the side property line. The applicant is proposing to enclose the carport utilizing metal and add doors to the front of the structure to convert it into a detached garage. According to the applicant's letter, the applicant plans to utilize the proposed accessory building to store *personal* trailers, tractors, and other yard equipment.

According to Subsection 2.1.2, *Residential and Lodging Use Conditions*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), in all residential districts, one (1) detached garage, as an accessory use, shall be allowed provided that that does not exceed 900 SF or 15-feet in height, and contains the same exterior materials as found on the main structure. The Unified Development Code (UDC) further states that accessory buildings/detached garages not meeting those standards shall require the approval of a Specific Use Permit (SUP). On November 9, 2017, the Board of Adjustments (BOA) approved a request [*Order No. BOA 2017-6-V*] from the applicant to allow the change of an existing legal non-conforming use [*i.e. a carport*] to another legal non-conforming use [*i.e. a garage*].
Staff should note, although the approval of a Specific Use Permit (SUP) is a discretionary decision for the Planning and Zoning Commission and the City Council, the Board of Adjustments (BOA) has approved a request to allow the change of an existing legal non-conforming use to another legal non-conforming use, which allowed the applicant to submit an application for a Specific Use Permit (SUP).

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are single-family homes that are zoned Single-Family 10 (SF-10) District. Beyond this are additional single-family homes zoned Planned Development District 41 (PD-41) for Single-Family 10 (SF-10) District land uses.

South: Directly south of the subject property is the Lake Way Hubbard takeline, which is located within the City of Dallas. Beyond this is the Lake Ray Hubbard.

East: Directly east of the subject property are several single-family homes zoned Single-Family 10 (SF-10) District. Beyond this are several businesses [*e.g. Bank of America, Chase Bank, Wal-Mart Neighborhood Market, etc.*] that are zoned Planned Development District 48 (PD-48) and Planned Development District 49 (PD-49) for General Retail (GR) District land uses.

West: Directly west of the subject property are several single-family homes that are zoned Single-Family 10 (SF-10) District. Beyond this is the Lake Ray Hubbard takeline, which is located within the City of Dallas.

NOTIFICATION:

On December 1, 2017, staff mailed 65 notices to property owners and occupants within 500-feet of the subject property. Staff also notified The Preserve Homeowner's Association (HOA), which is the only HOA and/or Neighborhood Organization within 1,500-feet of the subject property participating in the notification program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff received two (2) notices in opposition of this request.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The detached garage be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    a) The accessory building shall generally conform to the site plan depicted in *Exhibit 'B'* and the concept building elevations depicted in *Exhibit 'C'* of the attached ordinance.

    b) The accessory building shall not exceed a maximum size of 900 SF.

    c) The accessory building shall not exceed a maximum overall height of 20-feet.

    d) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2017-064 SUP- Accessory Building-4 Soapberry Lane: Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2017-064) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 5, 2017. The Planning & Zoning Worksession for this case is November 28. The Planning and Zoning Meeting for this case is December 12, 2017
I.5 The City Council meeting date for this case is December 18, 2017 and January 2, 2018
I.6 A representative is required to attend all meetings.

EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-064: 4 Soapberry Lane

Hold a public hearing to discuss and consider a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/12/2017 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 12/18/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/18/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

The purpose of this request is to have permission to enclose an existing shed approved and built in 2003.

It was originally permitted as an "RV Shed". We are requesting permission now to enclose the structure for security purposes for the storage of trailers, tractors, and other yard equipment.

Attached are pictures of the existing structure, and our plans are to enclose it between the existing brick columns with R9 metal panels, with doors on the front of the structure. Plans are to use non-glossy green panels.

Please contact Robert (Bob) Rash with any questions, or other needed information.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 1.144-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS LOT 8, BLOCK A, GRADY RASH SUBDIVISION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Robert Rash for the approval of a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements, and exceeds the maximum height requirements as stipulated by the Unified Development Code (UDC), situated on 1.144-acre tract of land, zoned Single-Family 10 (SF-10) District, and being identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, addressed as 4 Soapberry Lane, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements and maximum height requirements for accessory buildings in a Single-Family 10 (SF-10) District as stipulated by Section 2.1.2, *Residential Lodging Use Conditions,* of Article IV*, Permissible Uses,* and Section 3.2 of Article V*, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in Subsection 3.4*, Single-Family 10 (SF-10) District,* of Section 3*, Residential Districts*, of Article V*, District Development Standards,* and Section 2.1.2, *Residential Lodging Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be

DRAFT ORDINANCE 04.02.18

amended in the future, and shall be subject to the following operational conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the construction of an accessory building on the *Subject Property*, and conformance to these operations is required for continued operation:

1) The accessory building shall generally conform to the site plan depicted in *Exhibit 'B'* and the concept building elevations depicted in *Exhibit 'C'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 900 SF.

3) The accessory building shall not exceed a maximum overall height of 20-feet.

4) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: Z2017-055; *Amended PD Development Plan for PD-32*

On November 20, 2017, the City Council reviewed a request to add an additional 51 *urban residential units* to an existing PD Development Plan [*Ordinance No. 13-16*] that was originally allocated 399 *urban residential units*. Upon review of the case, the City Council made a motion to approve the amended PD Development Plan, allocating an additional 26 *urban residential units* to the existing concept plan (*i.e. 425 urban residential units overall*), and adding a proviso stating that the ordinance could be reviewed on June 1, 2019 for revocation if a building permit had not been issued for the building adjacent to Lake Front Trail (*i.e. the building allocated 375 urban residential units*). This motion was approved by a vote of 5-1, with Councilmember Macalik absent and Councilmember Hohenshelt abstaining.

At the second reading of the ordinance on December 4, 2017, the City Council choose to remand the case back to the Planning and Zoning Commission directing staff to add a provision that all 51 *urban residential units* requested by the applicant be allocated through the PD Development Plan if a proviso allowing the Planning and Zoning Commission and City Council the ability to review the progress of the developer was added to the draft ordinance. Specifically, the City Council wanted the ability to review and revoke the additional units if the building adjacent to Lake Front Trail had not been granted a building permit by June 1, 2019 and the building adjacent to the Harbor Fountain had not been issued a building permit by June 1, 2020, or if either building did not commence construction within six (6) months of being issued a building permit. In addition, the City Council wanted a requirement that the project – *once issued a building permit and commencement of construction had begun* -- did not abandon or delay construction. Staff has made the requested changes and the City Attorney has reviewed the revised draft ordinance. Should the Planning and Zoning Commission recommend approval of this case, the second reading of the ordinance would be held on December 18, 2017 pending approval by the City Council.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 11-43 & ORDINANCE NO. 13-16*, PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN ON APPROXIMATELY 7.344-ACRES FOR PROPERTY IDENTIFIED AS LOT 9, BLOCK A, HARBOR-ROCKWALL ADDITION AND TRACT 16 OF THE M. J. BARKSDALE SURVEY, ABSTRACT NO. 11, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF *TWO THOUSAND DOLLARS ($2,000.00)* FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a Planned Development (PD) Development Plan within Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that *Ordinance No.'s 11-43 & 13-16*, Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That any portion of *Ordinance No.'s 11-43 & 13-16* in conflict with this ordinance shall be subject to the requirements of this ordinance;

SECTION 2. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the PD Development Plans approved with *Ordinance No.'s 11-43 & 13-16* and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

SECTION 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

DRAFT ORDINANCE 12.18.17

4.1 CONSTRUCTION SCHEDULE

Building Adjacent to Lakefront Trail (i.e. Building 1)

This *PD Development Plan* shall be subject to review by City Staff and/or the Planning and Zoning Commission and City Council on June 1, 2019. At the time of review, if a building permit has not been issued for the proposed multi-family development adjacent to Lakefront Trail (*indicated as 1 on Exhibit 'B' of this ordinance and consisting of 375 condominium units*), City Staff shall provide a report, with the assistance of the developer, to the Planning and Zoning Commission and City Council indicating the progress of the development. Upon review of the report, the Planning and Zoning Commission shall provide a recommendation to the City Council concerning the possible revocation of the additional 26 allocated condominium units (*i.e. reducing the number of units for the multi-family development adjacent to Lakefront Trail -- indicated as 1 on Exhibit 'B' of this ordinance -- to 349 condominium units*), and after review of the report and recommendation of the Planning and Zoning Commission the City Council may -- *after proper notice* -- initiate public hearings for the revocation of the additional 26 allocated condominium units.

Building Adjacent to the Harbor Fountain (i.e. Building 2)

This *PD Development Plan* shall be subject to review by City Staff and/or the Planning and Zoning Commission and City Council on June 1, 2020. At the time of review, if a building permit has not been issued for the proposed multi-family development adjacent to the Harbor Fountain (*indicated as 2 on Exhibit 'B' of this ordinance and consisting of 75 condominium units*), City Staff shall provide a report, with the assistance of the developer, to the Planning and Zoning Commission and City Council indicating the progress of the development. Upon review of the report, the Planning and Zoning Commission shall provide a recommendation to the City Council concerning the possible revocation of the additional 25 allocated condominium units (*i.e. reducing the number of units for the multi-family development adjacent to the Harbor Fountain -- indicated as 2 on Exhibit 'B' of this ordinance -- to 50 condominium units*), and after review of the report and recommendation of the Planning and Zoning Commission the City Council may -- *after proper notice* -- initiate public hearings for the revocation of the additional 25 allocated condominium units.

Commencement of Construction and Continuous Construction

Once a building permit has been issued for either property (*i.e. Building 1 or Building 2*), the developer/property owner shall have six (6) months to commence construction on the site in accordance with Section 10-116 of Article III, *Building Code*, of Chapter 10, *Buildings and Building Regulations*, of the Municipal Code of Ordinances (*i.e. Section [A] 105.5, Expiration, of the International Building Code*). Once construction has commenced, construction must be continuous during the regular workweek unless construction is delayed due to delays beyond the control of the developer/property owner. Such delays shall include, but not be limited to, fires, floods, labor disputes, epidemics, abnormal weather conditions, acts of God or any preference, priority or allocation order duly issued by the Federal Government. Abnormal weather delays are those that are beyond what is normal for the climate and time of year. If construction of the site has not commenced within six (6) months of the issuance of a building permit, or construction is not continuous, City staff shall provide a report, to the Planning and Zoning Commission and City Council indicating the progress of the development and possible revocation of the permit. Upon review of the report, the Planning and Zoning Commission shall provide a recommendation to the City Council concerning the possible revocation of the permit for additional allocated condominium units (*i.e. reducing the number of units for either project back to the numbers approved under Ordinance No. 13-16*), and after review of the report and recommendation of the Planning and Zoning Commission the City Council may -- *after proper notice* -- initiate public hearings for the revocation of the additional allocated condominium units.

4.2 DEVELOPMENT CONDITIONS

1) Development of this property shall generally conform to the *PD Development Plan* depicted in

DRAFT ORDINANCE

Exhibit 'B' of this ordinance;

2) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed PD Site Plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

3) The proposed multi-family development adjacent to Lakefront Trail (*indicated as* 1 *on Exhibit 'B' of this ordinance*) shall be permitted to consist of a maximum of 375 condominium units. The proposed multi-family development adjacent to the Harbor Fountain (*indicated as* 2 *on Exhibit 'B' of this ordinance*) shall be permitted to consist of a maximum of 75 condominium units.

4) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a subdivision plat;

5) The architectural design of all buildings within the two (2) affected Subdistricts (*i.e. the Harbor Residential Subdistrict and the Harbor Link Mixed-Use Subdistrict*) shall conform to the Harbor District Guidelines (*i.e. Resolution 10-40]*), all applicable ordinances associated with Planned Development District 32 (PD-32) [*as amended*], and to the Unified Development Code;

6) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB);

7) The pedestrian access extending from Lakefront Trail to the Harbor Fountain will be required to be located within a *Pedestrian Access Easement* to be shown of the final plat; and

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development to support their use.

SECTION 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

SECTION 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Michael Hunter; *NE Texas Community Development Corporation*

AGENDA ITEM: **MIS2017-015***; Special Request for 409 E. Bourn Street*

SUMMARY:

Discuss and consider a special request by Michael Hunter of the North East Texas Community Development Corporation for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a duplex on a 0.1120-acre tract of land identified as a portion of Lot 4B, Block H, Sanger Addition, City of Rockwall, Rockwall County, Texas, zoned Multi Family 14 (MF-14) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northeast corner of Peters Colony and E. Bourn Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for the approval of a deviation from the minimum front yard setback, minimum lot size and minimum lot depth for properties in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subject property to platted as shown the by the ownership lines depicted on the Rockwall County Appraisal District (RCAD) website. The purpose for the replat is for the construction of a duplex. The property is situated at the northeast corner of Peters Colony and E. Bourn Street.

The concept plan submitted by the applicant shows that the subject property will have a duplex oriented toward Peters Colony. The applicant is requesting a special exception to the minimum front yard setback adjacent to Peters Colony to reduce it from 20-feet to 15-feet. Additionally, the applicant is requesting a special exception to the minimum lot size to allow a reduction from 5,000 SF to 4,896 SF. Finally, the applicant is requesting a special exception to the minimum lot depth to reduce it from 100-feet to 70-feet. Staff should note that a duplex is allowed by-right in a Multi-Family 14 (MF-14) District.

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*5,000 SF*	*X~4,896 SF; Not In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~70-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~70-Feet; Not In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=15-Feet; Not In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet[1]*	*X=10-Feet; Not In Conformance*

NOTES: 1. Side setback is 6-feet for internal lots and 20-feet when abutting a street.

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC grants the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e. Southside Residential Neighborhood Overlay (SRO) District*]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The property will need to be replatted prior to the issuance of building permits.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Ryan Miller
Planning Director
City of Rockwall
385 South Goliad
Rockwall, Texas 75087

Ryan:

Per our conversation last week, I am requesting, on the behalf of the North East Texas Community Development Corporation (a d/b/a of Rockwall Housing Development Corporation), an appointment with the Planning and Zoning Commission and a subsequent meeting with the City Council to consider the following variance requests regarding a vacant lot located at 509 Bourn Street, more specifically located at the corner of Bourn Street and Peters Colony.

1. A variance to the lot size requirement of 100' to 70' to enable construction to occur on the lot, and
2. A variance of the front yard setback requirements from 20' to 15' to allow for the construction of a duplex on said lot.

As we have a contingency to purchase this lot that expires in December, urgency in scheduling the appointments is requested.

If you have any questions or desire further comment, please call me.

Thank you for your assistance in this matter.

Sincerely,

Michael Hunter
Executive Director

JONATHAN M. QUILL
R.P.L.S. NO. 5882

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Steven J. Goldberg; *Cogent Realty Advisors, LLC*

AGENDA ITEM: **MIS2017-016**; *Special Request for 4 Emma Jane Lane*

SUMMARY:

Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

On November 28, 2017, the Planning and Zoning Commission recommended denial of a request for approval of a deviation from the minimum front yard setback, minimum lot depth, and minimum lot size for the purpose of constructing three (3) single-family homes. After the Planning and Zoning Commission's recommendation, the applicant chose to withdraw the request. Since that time, the applicant has changed his request and is seeking approval of a deviation from the minimum front yard setback stipulated for properties in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subdivision of three (3) tracts of land into two (2) lots for the construction of two (2) single-family homes. The subject property is located at the southeast corner of Emma Jane Road and Sam Houston Street and situated within the Southside Residential Neighborhood Overlay (SRO) District.

According to the applicant, the lots were purchased after reviewing the ownership lines depicted by the Rockwall Central Appraisal District (RCAD), which makes the properties appear to be in three (3) parcels of land; however, two (2) of the properties were subdivided by metes and bounds, and these lots are not buildable in their current format (i.e. they do not meet the lot depth and lot size requirements). In addition, the lots are currently platted into two (2) lots. Staff should note that this property is located within the Southside Residential Neighborhood Overlay (SRO) District, which allows for less restrictive development standards than a typical single-family, residentially zoned property.

The concept plan submitted by the applicant shows that two tracts of land [*i.e. Tracts 1 and 2 combined and Tract 3*] will have two (2) single-family homes oriented toward Emma Jane Street. The applicant is requesting a special exception to the side yard setback from 20-feet to 10-feet for the proposed lot adjacent to Sam Houston Street [*i.e. Tracts 1 & 2 combined*]. It should be noted that since Tracts 1 and 2 are on the corner of two (2) streets [*i.e. Sam Houston Street and Emma Jane Road*], it is considered to have dual frontage, therefore, subject to the front-yard setback for both frontages. The applicant is also requesting a special exception to construct two (2) single-family homes with front-entry garages. The applicant has provided a site plan showing the footprint of an ~1,800 SF single-family home. Although this request is typical of neighboring homes, staff should note that this is a discretionary decision for the Planning and Zoning Commission and the City Council.

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood. According to Subsection 6.4,

Southside Residential Neighborhood Overlay (SRO) District, of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

		Conformance to the Standards	
Ordinance Provisions	*Zoning District Standards*	*Tract 1 and 2 Combined*	*Tract 3*
Minimum Lot Area	*5,000 SF*	*X~6,720 SF; In Conformance*	*X~6,750 SF; In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~60-Feet; In Conformance*	*X~60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~112-Feet; In Conformance*	*X~112-Feet; In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=20-Feet; In Conformance*	*X=20-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet*[1]	*X=10-Feet; Not In Conformance*	*X=6-Feet; In Conformance*

NOTES: 1. Side setback is 6-feet for internal lots and 20-feet when abutting a street.

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC grants the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e. Southside Residential Neighborhood Overlay (SRO) District*]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The property will need to be replatted prior to the issuance of building permits.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Randy Eardley, P.E.; *Weir & Associates*

AGENDA ITEM: **SP2017-037**; *Chick-Fil-A*

SUMMARY:

Discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for a *restaurant, 2,000 SF or more, w/ drive-through* [*i.e. Chick-Fil-A*]. The proposed restaurant is ~2,200 SF and situated on a 0.656-acre parcel of land [*i.e. Lots 1 & 2, Block A, Billy Peoples #1 Addition*], is zoned General Retail (GR) District and is addressed as 1902 & 2000 S. Goliad Street [SH-205].

According to the submitted site plan, the proposed restaurant will be a drive-through only [*i.e. no inside seating*] restaurant with a walk-up window. In addition, it will incorporate five (5) tables [*i.e. seating for ~20 customers*] on the patio. There is an existing vacant convenient store [*i.e. E-Z Mart*] and a vacant restaurant [*i.e. Pizza Hut*] that will need to be demolished in order to develop the site. According to Subsection 2.1.6, *Retail and Personal Service Use Conditions*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) a restaurant with a drive-through shall not have access to local residential streets. Additionally, the UDC states that stacking lanes for drive-through service windows shall accommodate at least six (6) vehicles per lane. In this case, the submitted site plan shows stacking to accommodate ~19 vehicles with dual lanes.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use *(i.e. restaurant, 2,000 SF or more, w/ drive-through*) is permitted with a Specific Use Permit (SUP) in a General Retail (GR) District. The applicant has submitted a request for approval for a Specific Use Permit (SUP) for a *restaurant, 2,000 SF or more, w/ drive-through* and the approval of the site plan is contingent upon approval of Specific Use Permit (SUP). The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*X=28,562 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X~140-190-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~170-190-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*X~25-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X~10-Feet; In Conformance*
Minimum Side Yard Setback	*25-Feet*	*X~25-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Building Height	*60-Feet*[1]	*X=20-Feet; In Conformance*
Max Building/Lot Coverage	*40%*	*X~7%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*
Minimum Number of Parking Spaces	*9*	*15 Provided; In Conformance*
Minimum Stone Requirement (IH-30 OV)	*20% ea facade*	*X=27%-48%*
Minimum Landscaping Percentage	*15%*	*41%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*X=80%; In Conformance*

NOTES: 1. Any structure over 36-feet shall require a Specific Use Permit (SUP).

VARIANCES:

Based on the applicant's submittal, staff has identified the following variances:

A) *Four (4) Sided Architecture:* According to Section 6.7, *SH-205 Overlay (SH-205 OV) District*, of Article V, *District Development Standards*, of the UDC, commercial buildings shall be architecturally finished on all four (4) sides (i.e. incorporating the same materials detailing, and features). Included in the four (4) sided architecture requirements are the following:

a. *Vertical articulation.* According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards,* of the Unified Development Code (UDC) no horizontal wall shall extend for a distance greater than three times the height of the wall without changing height by a minimum of 25 percent of the wall's height. In this case, the change in height would be five (5)-feet. Although the building elevations do not meet this requirement, the applicant has provided a change in height of ~1.5-feet. In addition, the building facades incorporate additional features that provides articulation.

B) *SH-205 Overlay (SH-205 OV) District Standards.*

a. *Pitched Roof*. According to Subsection 6.7, S*H-205 Overlay (SH-205 OV) District*, of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), all structures having a footprint of 6,000 SF or less shall be constructed with a pitched roof system. In this case, the applicant is requesting a variance to the pitched roof requirement as stipulated in the Unified Development Code (UDC) in order to utilize a flat roof design.

b. *Landscaping Standards*. According to Subsection 6.7, S*H-205 Overlay (SH-205 OV) District*, of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the landscape buffer shall be a minimum of 20-feet wide along the entire length of the property adjacent to SH-205. In this case, the applicant is requesting a variance to the landscaping standards as stipulated in the Unified Development Code (UDC). Staff should note that there is an existing parking lot that encroaches the 20-foot landscape buffer and the applicant is requesting to utilize the existing parking lot. According to the site plan submitted, a ten (10)-foot landscape buffer with all of the required landscaping is being provided adjacent to SH-205.

All variances will require a ¾ majority vote of the City Council members present to be approved.

ARCHITECTURAL REVIEW BOARD

On November 28, 2017, the Architectural Review Board (ARB) reviewed the submitted building elevations and made recommendation to incorporate vertical and horizontal articulation on the south and west elevations. The applicant has submitted revised building elevations and the Architectural Review Board (ARB) will review the revised building elevations and forward a recommendation at the December 12, 2017 Planning and Zoning Meeting.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) A Specific Use Permit (SUP) shall be approved allowing the restaurant with a drive-through prior to the acceptance of this site plan;

3) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2017-037 Chick-Fil-A: Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2017-037) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is zoned Commercial (C) District and situated in the SH 205 Overlay (SH205 OV) District.

M.6 Site Plan. Please provide Lot Coverage Percentage as well as pervious v.s. impervious % on the Site Data Table.

M.7 Site Plan. Please check your driveway width—24-feet is the minimum

M.8 Site Plan. Try to angle the dumpsters more toward the building. They cannot face SH-205. As shown, they may face SH-205.

M.9 Site Plan. Please indicate if there will be a walk-up window and label, showing access to the window.

M.10 Site Plan. Please check with franchise utilities before any easements can be abandoned. This will be taken care of at final plat.

M.11 Site Plan. Please show property linetype in legend.

M.12 Site Plan. Please provide elevation of dumpster enclosure. Note that in an overlay district, the enclosure is 8-feet high.

M.13 Landscape Plan. Please provide the same Site Data Table as provided on the Site Plan.

M.14 Landscape Plan. Please provide a note indicating that the irrigation will meet the requirements of the UDC.

M.15 Landscape Plan. Please indicate the landscape buffer. You refer to it in the landscape requirements, however it is not shown. Additionally, it appears that you will not be able to meet the 20-foot landscape buffer requirement.

M.16 Landscape Plan. The canopy tree shown adjacent to Yellow Jacket Lane appears to be outside of the landscape buffer. Additionally, you do not appear to be meeting the canopy tree requirement along Yellow Jacket. Please check the SH-205 Overlay (SH-205 OV) District standards as well as the Commercial (C) District standards.

M.17 Landscape Plan. Please “call out” the sod by name on the landscape plan and show it as a hatch pattern.

M.18 Landscape Plan. Please show centerlines for Yellow Jacket Lane and Goliad.

M.19 Landscape Plan. No parking space shall be more than 80-feet away from a canopy tree. Please show an 80-foot circular buffer from the three trees closest to the parking to ensure that each space is adequately covered.

M.20 Landscape Plan. Please show visibility triangles at drive entrances.

M.21 Landscape Plan. Please ensure the monument sign is not in an easement.

M.22 Photometric Plan. Please show and indicate property line on photometric plan.

M.23 Photometric Plan. Please show centerline of Yellow Jacket and Goliad.

M.24 Building Elevations. Please show non-rendered, B/W building elevations in addition to the elevations provided.

M.25 Building Elevations. Please note that as shown, the building will require a variance to 4 sided architecture and stone requirements. Additionally, a variance may be required for the amount of secondary material (red metal panel)

M.26 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Up to 50% can be Hardi Board. Please provide material percentages for each façade.

M.27 Building Elevations.Please indicate the elevation that faces the street.

M.28 Building Elevations. Please provide dumpster enclosure elevation and perspective renderings of the building.

M.29 Building Elevations. Please remove “Chick-Fil-A” from the side of the building and indicate “Signage”. Signage approval is done through a separate process through Building Inspections.

I.30 The Architectural Review Board (ARB) meeting for this case will be held on November 28, 2017 at 5:00 p.m.

I.31 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
additional information that is requested. Revisions for this case will be due on December 5, 2016. The Planning and Zoning Worksession for this case will be November 28, 2014 at 6:00 p.m. The Planning and Zoning Meeting will be December 12, 2017. A representative is required to attend all meetings.							
I.32 If necessary the projected City Council meeting date for this case will be December 18, 2017.							

NOTES

1. ALL ON-SITE CONSTRUCTION SHALL BE IN ACCORDANCE WITH CURRENT CHICK-FIL-A SPECIFICATIONS, WHICHEVER IS MORE RESTRICTIVE.
2. ALL CONSTRUCTION IN CITY RIGHT-OF-WAYS AND/OR EASEMENT SHALL BE IN ACCORDANCE WITH THE CITY'S STANDARD SPECIFICATIONS.
3. PRIOR TO STARTING CONSTRUCTION, THE CONTRACTOR SHALL MAKE CERTAIN THAT ALL REQUIRED PERMITS AND APPROVALS HAVE BEEN OBTAINED. NO CONSTRUCTION OR FABRICATION SHALL BEGIN UNTIL THE CONTRACTOR HAS RECEIVED AND THOROUGHLY REVIEWED ALL PLANS AND OTHER DOCUMENTS AS APPROVED BY ALL OF THE PERMITTING AUTHORITIES.
4. THE CONTRACTOR IS RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING UTILITIES DURING THE CONSTRUCTION OF THIS PROJECT.
5. IF CONTRACTOR FINDS A DISCREPANCY WITH THE TOPOGRAPHIC INFORMATION ON THESE PLANS, HE/SHE SHALL CONTACT THE CONSTRUCTION MANAGER/SUPERVISOR IMMEDIATELY.
6. ALL DIMENSIONS SHOWN ARE TO FACE OF CURB, BRICK, OR AS OTHERWISE NOTED.
7. REFER TO ARCHITECTURAL PLANS FOR EXACT BUILDING DIMENSIONS.
8. ALL RADII ARE 2' UNLESS OTHERWISE NOTED.
9. ALL PARKING STALLS SHALL BE STRIPED IN ACCORDANCE W/APPLICABLE GOVERNING AUTHORITIES.
10. BUILDING IS PARALLEL & PERPENDICULAR TO SOUTH & WEST PROPERTY LINES.

CALL BEFORE YOU DIG 1-800-245-4545 TEXAS ONE CALL SYSTEM

CAUTION !!

EXISTING UTILITIES ARE INDICATED ON THE PLANS FROM AVAILABLE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY THE LOCATION OF ALL UTILITIES, TO NOTIFY ALL UTILITY COMPANIES OF THE CONTRACTORS OPERATIONS, TO PROTECT ALL UTILITIES FROM DAMAGE, TO REPAIR ALL UTILITIES DAMAGED DUE TO THE CONTRACTORS OPERATIONS, AND TO NOTIFY THE ENGINEER PROMPTLY OF ALL CONFLICTS OF THE WORK WITH EXISTING UTILITIES.

EXISTING TREE TO REMAIN

LANDSCAPE NOTES

1. Landscape Contractor to read and understand the Landsacpe Specifications (sheet L-102) prior to finalizing bids. The Landscape Specifications shall be adhered to throughout the construction process.
2. Contractor is responsible for locating and protecting all underground utilities prior to digging.
3. Contractor is responsible for protecting existing trees from damage during construction.
4. All tree protection devices to be installed prior to the start of land disturbance, and maintained until final landscaping.
5. All tree protection areas to be protected from sedimentation.
6. All tree protection fencing to be inspected daily, and repaired or replaced as needed.
7. No parking, storage or other construction activities are to occur within tree protection areas.
8. All planting areas shall be cleaned of construction debris (ie. concrete, rock, rubble, building materials, etc) prior to adding and spreading of the topsoil.
9. General Contractor is responsible for adding a min of 4" clean friable topsoil in all planting beds and all grassed areas. Graded areas to be held down the appropriate elevation to account for topsoil depth. See Landscape Specifications for required topsoil characteristics.
10. In all parking lot islands, the General Contractor is responsible to remove all debris, fracture/loosen subrade to a min. 24" depth. Add topsoil to a 6"-8" berm height above island curbing; refer to landscape specifications and landscape island detail.
11. Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve topsoil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.
12. Any deviations from the approved set of plans are to be approved by the Landscape Architect.
13. Landscaping shall be installed in conformance with ANSI Z60.1 the "American Standard for Nursery Stock" and the accepted standards of the American Association of Nurserymen.
14. Existing grass in proposed planting areas shall be killed and removed. Hand rake to remove all rocks and debris larger than 1 inch in diameter, prior to adding topsoil and planting shrubs.
15. Soil to be tested to determine fertilizer and lime requirements prior to laying sod.
16. Annual and perennial beds: add min. 4 inch layer of organic material and till to a min. depth of 12 inches. Mulch annual and perennial beds with 2-3 inch depth of mini nuggets.
17. All shrubs beds (existing and new) to be mulched with a min. 3 inch layer of rock mulch.
18. Planting holes to be dug a minimum of twice the width of the root ball, for both shrub and tree. Set plant material 2-3" above finish grade. Backfill planting pit with topsoil and native excavated soil.
19. Sod to be delivered fresh (Cut less than 24 hours prior to arriving on site), laid immediately, rolled, and watered thoroughly immediately after planting. Edge of sod at planting beds are to be "V" trenched; see Landscape Details.
20. Any existing grass disturbed during construction to be fully removed, regraded and replaced. All tire marks and indentions to be repaired.
21. Water thoroughly twice in first 24 hours and apply mulch immediately.
22. The Landscape Contractor shall guarantee all plants installed for one full year from date of acceptance by the owner. All plants shall be alive and at a vigorous rate of growth at the end of the guarantee period. The Landscape Contractor shall not be responsible for acts of God or vandalism. See Landscape Specifications for Warranty requirements/expectations.
23. Any plant that is determined dead, in an unhealthy, unsightly condition, lost its shape due to dead branches, or other symptoms of poor, non-vigorous growth, shall be replaced by the Landscape Contractor. See Landscape Specifications for warranty requirements/expectations.
24. Site to be 100% irrigated in all planting beds and grass area by an automatic underground Irrigation System. See Irrigation Plan L-200 for design. Irrigation as-built shall be provided to the Landscape Architect within 24 hours of irrigation install completion.
25. Stake all evergreen and deciduous trees as shown in the planting detail and as per the Landscape Specifications.
26. Remove stakes and guying from all trees after one year from planting.

PLANT LIST

Qty	Botanical Name	Common Name	Scheduled Size	Remarks
	Trees

LANDSCAPE REQUIREMENTS

A. SH 205 OVERLAY DISTRICY

REQUIRED

1. 20' buffer strip with 2 Canopy and 4 Accent Trees along street frontage.
   W. Yellow Jacket Ln: 99 LF / 100 = 2 Canopy, 4 Accent Trees
   S. Goliad St (SH 205): 145 LF / 100 = 3 Canopy, 6 Accent Trees
2. Continuous screen hedge required along street frontage
3. Canopy trees min. 4" Cal; Accent trees min. 4' hgt
4. Deciduous shrubs min. 15" hgt, min. 2 gal.; Evergreen shrubs min. 12" hgt, min. 2 gal.

PROVIDED

1. W. Yellow Jacket Ln: 8 Yaupon Holly (overhead power present)
   S. Goliad St (SH 205): 3 Maple, 6 Yaupon Holly
2.
3. Trees specified at minimum required sizes
4. Shrubs specified at minimum required sizes

B. PARKING LOT

REQUIRED

1. Min. 5% of VUA must be interior landscape area.
   18,240 SF x 5% = 912 SF Required
2. Min. 15% of total site to be landscape area
   28,562 SF x 15% = 4,284 SF Required

PROVIDED

1. 3,084 SF interior landscape area provided
2. 6,562 SF of total landscape area provided

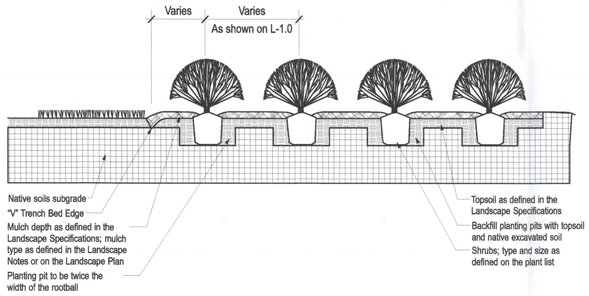
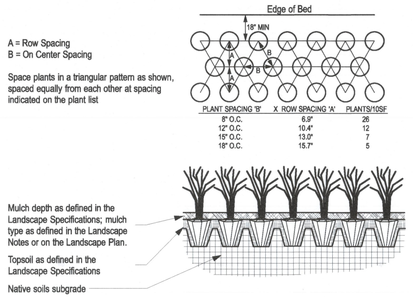
NOTE

1. Hole to be twice the width of the rootball.
2. Do not heavily prune tree at planting. Prune only crossover limbs, broken or dead branches; Do not remove the terminal buds of branches that extend to the edge of the crown.
3. Each tree must be planted such that the trunk flare is visible at the top of the rootball. Trees where the trunk flare is not visible shall be rejected. Do not cover the top of the rootball with soil. Mulch to be held back 4" away from trunk.
4. Remove Guy Wires and Staking when warranty period has expired (after one year).

1 TREE PLANTING AND STAKING DETAIL
SCALE: NTS



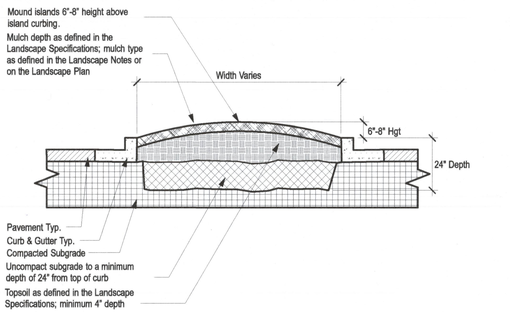
2 SHRUB BED PLANTING DETAIL
SCALE: NTS



NOTE

1. Space groundcover plants in accordance with indicated spacing listed on the plant list, or as shown on the landscape plan.
2. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants.
3. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

3 GROUNDCOVER PLANTING DETAIL
SCALE: NTS



NOTE

1. Clean construction debris from within landscape island areas (ie. concrete, rocks, rubble, building materials, ect), prior to installing topsoil and plant material.
2. Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum bermed 6"-8" height above island curbing.
3. Island plant material as per the Landscape Plan.
4. Install plant material as per tree, shrub and ground cover planting details, and as defined in the Landsacpe Specifications.
5. Install mulch or sod as specified on the Landscape Plan, and as defined in the Landscape Specifications.

L-101

LANDSCAPE SPECIFICATIONS

PART 1 - GENERAL

DESCRIPTION
Provide trees, shrubs, ground covers, sod, and annuals/perennials as shown and specified on the landscape plan. The work includes:

1. Soil preparation.
2. Trees, shrubs, ground covers, and annuals/perennials.
3. Planting mixes.
4. Top Soil, Mulch and Planting accessories.
5. Maintenance.
6. Decorative stone.

Related Work:

1. Irrigation System; see irrigation specifications (sheet L-2.2)

QUALITY ASSURANCE
Plant names indicated; comply with "Standardized Plant Names" as adopted by the latest edition of the American Joint Committee of Horticultural Nomenclature. Names of varieties not listed conform generally with names accepted by the nursery trade. Provide stock true to botanical name and legibly tagged.

Comply with sizing and grading standards of the latest edition of "American Standard for Nursery Stock". A plant shall be dimensioned as it stands in its natural position.

All plants shall be nursery grown under climatic conditions similar to those in the locality of the project for a minimum of 2 years.

Nursery Stock furnished shall be at least the minimum size indicated. Larger stock is acceptable, at no additional cost, and providing that the larger plants will not be cut back to size indicated. Provide plants indicated by two measurements so that only a maximum of 25% are of the minimum size indicated and 75% are of the maximum size indicated.

Before submitting a bid, the Contractor shall have investigated the sources of supply and be satisfied that they can supply the listed plants in the size, variety and quality as specified. Failure to take this precaution will not relieve the Contractor from their responsibility for furnishing and installing all plant materials in strict accordance with the Contract Documents without additional cost to the Owner. The Landscape Architect shall approve any substitutes of plant material, or changes in plant material size, prior to the Landscape Contractor submitting a bid.

DELIVER, STORAGE AND HANDLING
Take all precautions customary in good trade practice in preparing plants for moving. Workmanship that fails to meet the highest standards will be rejected. Spray deciduous plants in foliage with an approved "Anti-Desiccant" immediately after digging to prevent dehydration. Dig, pack, transport, and handle plants with care to ensure protection against injury. Inspection certificates required by law shall accompany each shipment invoice or order to stock. Protect all plants from drying out. If plants cannot be planted immediately upon delivery, properly protect them with soil, wet peat moss, or in a manner acceptable to the Landscape Architect. Water heeled-in plantings daily. No plant shall be bound with rope or wire in a manner that could damage or break the branches. Cover plants transported on open vehicles with a protective covering to prevent wind burn.

PROJECT CONDITIONS
Protect existing utilities, paving, and other facilities from damage caused by landscape operations.

A complete list of plants, including a schedule of sizes, quantities, and other requirements are shown on the drawings. In the event that quantity discrepancies or material omissions occur in the plant materials list, the planting plans shall govern.

The irrigation system will be installed prior to planting. Locate, protect and maintain the irrigation system during planting operations. Repair irrigation system components damaged during planting operations; at the Contractor's expense. Refer to the irrigation specifications, irrigation plan and irrigation details.

Do not begin landscape accessory work before completion of final grading or surfacing.

WARRANTY
Warrant plant material to remain alive, be healthy and in a vigorous condition for a period of 1 year after completion and final acceptance of entire project.

Replace, in accordance with the drawings and specifications, all plants that are dead or, are in an unhealthy, or unsightly condition, and have lost their natural shape due to dead branches, or other causes due to the Contractor's negligence. The cost of such replacement(s) is at the Contractor's expense. Warrant all replacement plants for 1 year after installation.

Warranty shall not include damage, loss of trees, plants, or ground covers caused by fires, floods, freezing rains, lightning storms, winds over 75 miles per hour, winter kill caused by extreme cold, severe winter conditions not typical of planting area, and/or acts of vandalism or negligence on a part of the Owner.

Remove and immediately replace all plants, found to be unsatisfactory during the initial planting installation.

Maintain and protect plant material, lawns, and irrigation until final acceptance is made.

ACCEPTANCE
Inspection of planted areas will be made by the Owner's representative.

1. Planted areas will be accepted provided all requirements, including maintenance, have been complied with and plant materials are alive and in a healthy, vigorous condition.

Upon acceptance, the Contractor shall commence the specified plant maintenance.

CODES, PERMITS AND FEES
Obtain any necessary permits for this Section of Work and pay any fees required for permits.

The entire installation shall fully comply with all local and state laws and ordinances, and with all established codes applicable thereto; also as depicted on the landscape and irrigation construction set.

PART 2 - PRODUCTS

MATERIALS
Plants: Provide typical of their species or variety; with normal, densely developed branches and vigorous, fibrous root systems. Provide only sound, healthy, vigorous plants free from defects, disfiguring knots, sun scald injuries, frost cracks, abrasions of the bark, plant diseases, insect eggs, borers, and all forms of infestation. All plants shall have a fully developed form without voids and open spaces. Plants held on storage will be rejected if they show signs of growth during the storage period.

1. Balled and plants wrapped with burlap, to have firm, natural balls of earth of sufficient diameter and depth to encompass the fibrous and feeding root system necessary for full recovery of the plant. Provide ball sizes complying with the latest edition of the "American Standard for Nursery Stock". Cracked or mushroomed balls, or signs of circling roots are not acceptable.
2. Container- grown stock: Grown in a container for sufficient length of time for the root system to have developed to hold its soil together, firm and whole.
   a. No plants shall be loose in the container.
   b. Container stock shall not be pot bound.
3. Plants planted in rows shall be matched in form.
4. Plants larger than those specified in the plant list may be used when acceptable to the Landscape Architect.
   a. If the use of larger plants is acceptable, increase the spread of roots or root ball in proportion to the size of the plant.
5. The height of the trees, measured from the crown of the roots to the top of the top branch, shall not be less than the minimum size designated in the plant list.
6. No pruning wounds shall be present with a diameter of more than 1" and such wounds must show vigorous bark on all edges.
7. Evergreen trees shall be branched to the ground or as specified in plant list.
8. Shrubs and small plants shall meet the requirements for spread and height indicated in the plant list.
   a. The measurements for height shall be taken from the ground level to the height of the top of the plant and not the longest branch.
   b. Single stemmed or thin plants will not be accepted.
   c. Side branches shall be generous, well-twigged, and the plant as a whole well-bushed to the ground.
   d. Plants shall be in a moist, vigorous condition, free from dead wood, bruises, or other root or branch injuries.

ACCESSORIES
Topsoil: Shall be Fertile, friable, natural topsoil of loamy character, without admixture of subsoil material, obtained from a well-drained arable site, reasonably free from clay, lumps, coarse sands, stones, roots, sticks, and other foreign materials, with acidity range of between pH 6.0 and 6.8.

Note: All planting areas shall be cleaned of construction debris (ie. Concrete, rubble, stones, building material, etc.) prior to adding and spreading of the top soil.

1. *Sod Areas:* Spread a minimum 4" layer of top soil and rake smooth.
2. *Planting bed areas:* Spread a minimum 4" layer of top soil and rake smooth.
3. *Landscape Islands/Medians:* Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum berm 6"-8" height above island curbing.
4. *Annual/Perennial bed areas:* Add a minimum of 4" organic matter and till to a minimum 12" depth.

Mulch: Type selected dependent on region and availability; see landscape plans for type of much to be used. Hold mulch 4" from tree trunks and shrub stems.

1. Hardwood: 6 month old well rotted double shredded native hardwood bark mulch not larger than 4" in length and ½" in width, free of wood chips and sawdust. Install minimum depth of 3".
2. Pine Straw: Pine straw to be fresh harvest, free of debris, bright in color. Bales to be wired and tightly bound. Needles to be dry. Install minimum depth of 3".
3. River Rock: (color) light gray to buff to dark brown, washed river rock, 1" – 3" in size. Install in shrub beds to an even depth of 3". Weed control barrier to be installed under all rock mulch areas. Use caution during installation not to damage plant material.
4. Mini Nuggets: Install to a minimum depth of 2"-3" at all locations of annual and perennial beds. Lift the stems and leaves of the annuals and carefully spread the mulch to avoid injuring the plants. Gently brush the mulch off the plants.

Guying/Staking:

1. Arbortie: Green (or white) staking and guying material to be flat, woven, polypropylene material, ¾" wide 900 lb. break strength. Arbortie shall be fastened to stakes in a manner which permits tree movement and supports the tree.
2. Remove Guying/Staking after one year from planting.

Tree Wrap: Tree wraps should be used on young, newly planted thin-barked trees (Cherry, Crabapple, Honey Locust, Linden, Maple, Mountain Ash, Plum) that are most susceptible to sun scald/Sunburn. Standard waterproofed tree wrapping paper, 2-1/2" wide, made of 2 layers of crepe Draft paper weighing not less than 30 lbs. per ream, cemented together with asphalt. Wrap the tree in the fall and leave the wrap in place throughout the winter and early spring. Tree wraps are temporary and no longer needed once trees develop corky bark.

PART 3 – EXECUTION

INSPECTION
Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve top soil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, and work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.

PREPARATION
Planting shall be performed only by experienced workmen familiar with planting procedures under the supervision of a qualified supervisor.

Locate plants as indicated on the plans or as approved in the field after staking by the Landscape Contractor. If obstructions are encountered that are not shown on the drawings, do not proceed with planting operations until alternate plant locations have been selected and approved by the Landscape Architect; spacing of plant material shall be as shown on the landscape plan.

Excavate circular plant pits with vertical sides, except for plants specifically indicated to be planted in beds. Provide shrub pits at least 12" greater than the diameter of the root system and 24" greater for trees. Depth of pit shall accommodate the root system. Provide undisturbed sub grade to hold root ball at nursery grade as shown on the drawings.

INSTALLATION
Set plant material in the planting pit to proper grade and alignment. Set plants upright, plumb, and faced to give the best appearance or relationship to each other or adjacent structure. Set plant material 2" – 3" above the finish grade. No filling will be permitted around trunks or stems. Backfill the pit with topsoil mix and excavated material. Do not use frozen or muddy mixtures for backfilling. Form a ring of soil around the edge of each planting pit to retain water.

After balled and wrapped in burlap plants are set, muddle planting soil mixture around bases of balls and fill all voids.

1. Remove all burlap, ropes, and wires from the top 1/3 of the root ball

Space ground covar plants in accordance with indicated dimensions. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

Mulching:

1. Mulch tree and shrub planting pits and shrub beds with required mulching material (see landscape plan for mulch type); depth of mulch as noted above. **Hold mulch back 4" away from tree trunks and shrub stems.** Thoroughly water mulched areas. After watering, rake mulch to provide a uniform finished surface.

Decorative Stone: (where indicated on landscape plan)

1. Install weed control barrier over sub-grade prior to installing stone. Lap 6" on all sides.
2. Place stone without damaging weed barrier.
3. Arrange stones for best appearance and to cover all weed barrier fabric.

Wrapping, guying, staking:

1. Inspect trees for injury to trunks, evidence of insect infestation, and improper pruning before wrapping.
2. Wrapping:
   a. Wrap trunks of all young newly planted trees known to have thin bark. Wrap spirally from bottom to top with specified tree wrap and secure in place.
   b. Overlap ¼ the width of the tree wrap strip and cover the trunk from the ground to the height of the second branch.
   c. Secure tree wrap in place with twine wound spirally downward in the opposite direction, tied around the tree in at least 3 places in addition to the top and bottom.
   d. Wrap the trees in the fall and leave the wrap in place throughout the winter and early spring.
   e. Tree wraps are temporary and no longer needed once the trees develop corky bark.
3. Staking/Guying:
   a. Stake/guy all trees immediately after lawn sodding operations and prior to acceptance.
   b. Stake deciduous trees 2" caliper and less. Stake evergreen trees under 7'-0" tall.
      1. Stakes are placed in line with prevailing wind direction and driven into undisturbed soil.
      2. Ties are attached to the tree, usually at the lowest branch.
   c. Guy deciduous trees over 2" caliper. Guy evergreen trees 7'-0" tall and over.
      1. Guy wires to be attached to three stakes driven into undisturbed soil, with one stake placed in the direction of the prevailing wind.
      2. Ties are attached to the tree as high as practical.
      3. The axis of the stake should be at 90 degree angle to the axis on the pull of the guy wire.
4. **Remove all guying and staking after one year from planting.**

Pruning:

1. Prune deciduous trees and evergreens only to remove broken or damaged branches.

WORKMANSHIP
During landscape/irrigation installation operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of installation operations, all excess materials, equipment, debris and waste material shall be cleaned up and removed from the site; unless provisions have been granted by the owner to use on-site trash receptacles. Sweep parking and walks clean of dirt and debris. Remove all plant tags and other debris from lawns and planting areas.

Any damage to the landscape, the structure, or the irrigation system caused by the landscape contractor shall be repaired by the landscape contractor without charge to the owner.

MAINTENANCE
Contractor shall provide maintenance until work has been accepted by the Owner's Representative.

Maintenance shall include mowing, fertilizing, mulching, pruning, cultivation, weeding, watering, and application of appropriate insecticides and fungicides necessary to maintain plants and lawns free of insects and disease.

1. Re-set settled plants to proper grade and position. Restore planting saucer and adjacent material and remove dead material.
2. repair guy wires and stakes as required. Remove all stakes and guy wires after 1 year.
3. Correct defective work as soon as possible after deficiencies become apparent and weather and season permit.
4. Water trees, plants and ground cover beds within the first 24 hours of initial planting, and not less than twice per week until final acceptance.

LANDSCAPE MAINTENANCE SPECIFICATIONS

The Contractor shall provide as a separate bid, maintenance for a period of **1 year** after final acceptance of the project landscaping. The Contractor must be able to provide continued maintenance if requested by the Owner or provide the name of a reputable landscape contractor who can provide maintenance.

STANDARDS
All landscape maintenance services shall be performed by trained personnel using current, acceptable horticultural practices.

All work shall be performed in a manner that maintains the original intent of the landscape design.

All chemical applications shall be performed in accordance with current county, state and federal laws, using EPA registered materials and methods of application. These applications shall be performed under the supervision of a Licensed Certified applicator.

APPROVALS
Any work performed in addition to that which is outlined in the contract shall only be done upon written approval by the Owner's Representative (General Manager of the restaurant).

All seasonal color selections shall be approved by the General Manager prior to ordering and installation.

SOIL TESTING
The maintenance contractor shall perform soil tests as needed to identify imbalances or deficiencies causing plant material decline. The owner shall be notified of the recommendation for approval, and the necessary corrections made at an additional cost to the owner.

Acceptable Soil Test Results

	Landscape Trees and Shrubs	Turf
pH Range	5.0-7.0	6.0-7.0
Organic Matter	>1.5%	>2.5%
Magnesium (Mg)	100+lbs./acre	100+lbs./acre
Phosphorus (P2O5)	150+lbs./acre	150+lbs./acre
Potassium (K2O)	120+lbs./acre	120+lbs./acre
Soluble salts/ Conductivity	Not to exceed 900ppm/1.9 mmhos/cm in soil; not to exceed 1400 ppm/2.5 mmhos/cm in high organic mix	Not to exceed 750ppm/0.75 mmhos/cm in soil; not to exceed 2000 ppm/2.0 mmhos/cm in high organic mix

For unusual soil conditions, the following optional tests are recommended with levels not to exceed:

Boron	3 pounds per acre
Manganese	50 pounds per acre
Potassium (K2O)	450 pounds per acre
Sodium	20 pounds per acre

WORKMANSHIP
During landscape maintenance operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of maintenance operations, all debris and waste material shall be cleaned up and removed from the site, unless provisions have been granted by the owner to use on-site trash receptacles.

Any damage to the landscape, the structure, or the irrigation system caused by the maintenance contractor, shall be repaired by the maintenance contractor without charge to the owner.

TURF

GENERAL CLEAN UP
Prior to mowing, all trash, sticks, and other unwanted debris shall be removed from lawns, plant beds, and paved areas.

MOWING
Warm season grasses (i.e. Bermuda grass) shall be maintained at a height of 1" to 2" during the growing season.

Cool season grasses, including blue grass, tall fescue, perennial ryegrass, etc., shall be maintained at a height of 2" to 3" in spring and fall. From June through September, mowing height shall be maintained at no less than 3".

The mowing operation includes trimming around all obstacles, raking excessive grass clippings and removing debris from walks, curbs, and parking areas. Caution: Weed eaters should NOT be used around trees because of potential damage to the bark.

EDGING
Edging of all sidewalks, curbs and other paved areas shall be performed once every other mowing. Debris from the edging operations shall be removed and the areas swept clean. Caution shall be used to avoid flying debris.

LIMING & FERTILIZING
A soil test shall be taken to determine whether an application of limestone in late fall is necessary. If limestone is required, the landscape contractor shall specify the rate, obtain approval from the owner and apply it at an additional cost. A unit price for liming of turf shall accompany the bid based on a rate of 50 pounds per 1000 square feet.

Fertilizer shall be applied in areas based on the existing turf species.

LAWN WEED CONTROL: HERBICIDES
Selection and proper use of herbicides shall be the landscape contractor's responsibility. All chemical applications shall be performed under the supervision of a Licensed Certified Applicator. **Read the label prior to applying any chemical.**

INSECT & DISEASE CONTROL FOR TURF
The contractor shall be responsible for monitoring the site conditions on each visit to determine if any insect pest or disease problems exist. The contractor shall identify the insect pest or disease, as well as the host plant, and then consult the most current edition of the Cooperative Extension Service's "Commercial Insecticide Recommendation for Turf" for control. The licensed applicator shall be familiar with the label provided for the selected product prior to application.

Inspection and treatment to control insect pests shall be included in the contract price.

TREES, SHRUBS, & GROUND COVER

PRUNING
All ornamental trees, shrubs and ground cover shall be pruned when appropriate to remove dead or damaged branches, develop the natural shapes. **Do not shear trees or shrubs**. If previous maintenance practice has been to shear and ball, then a natural shape will be restored gradually.

Pruning Guidelines:

1. Prune those that flower before the end of June immediately after flowering. Flower buds develop during the previous growing season. Fall, winter or spring pruning would reduce the spring flowering display.
2. Prune those that flower in summer or autumn in winter or spring before new growth begins, since these plants develop flowers on new growth.
3. Delay pruning plants grown for ornamental fruits, such as cotoneasters, pyracanthas and viburnums.
4. Hollies and other evergreens may be pruned during winter in order to use their branches for seasonal decoration. However, severe pruning of evergreens should be done in early spring only.
5. Broadleaf evergreen shrubs shall be hand-pruned to maintain their natural appearance after the new growth hardens off.
6. Hedges or shrubs that require shearing to maintain a formal appearance shall be pruned as required. Dead wood shall be removed from sheared plants before the first shearing of the season.
7. Conifers shall be pruned, if required, according to their genus.
   A. Yews, junipers, hemlocks, arborvitae, and false-cypress may be pruned after new growth has hardened off in late summer. If severe pruning is necessary, it must be done in early spring.
   B. Firs and spruces may be lightly pruned in late summer, fall, or winter after completing growth. Leave side buds. Never cut central leader.
   C. Pines may be lightly pruned in early June by reducing candles.
8. Groundcover shall be edged and pruned as needed to contain it within its borders.
9. Thinning: Remove branches and water sprouts by cutting them back to their point of origin on parent stems. This method results in a more open plant, without stimulating excessive growth. Thinning is used on crepe myrtles, illacs, viburnums, smoke bush,etc.
10. Renewal pruning: Remove oldest branches of shrub at ground, leaving the younger, more vigorous branches. Also remove weak stems. On overgrown plants, this method may be best done over a three-year period. Renewal pruning may be used on abelia, forsythia, deutzia, spiraea, etc.

Plants overhanging passageways and parking areas and damaged plants shall be pruned as needed.

Shade trees that cannot be adequately pruned from the ground shall not be included in the Maintenance Contract. A certified arborist under a separate contract shall perform this type of work.

SPRING CLEANUP
Plant beds shall receive a general cleanup before fertilizing and mulching. Cleanup includes removing debris and trash from beds and cutting back herbaceous perennials left standing through winter, e.g. ornamental grasses, Sedum Autumn Joy.

FERTILIZING
For trees, the rate of fertilization depends on the tree species, tree vigor, area available for fertilization, and growth stage of the tree. Mature specimens benefit from fertilization every 3 to 4 years; younger trees shall be fertilized more often during rapid growth stages.

The current recommendation is based on the rate of 1000 square feet of area under the tree to be fertilized. For deciduous trees, 2 to 6 pounds of Nitrogen per 1000 square feet; for narrow-leaf evergreens, 1 to 4 pounds of Nitrogen per 1000 square feet; for broadleaf evergreens, 1 to 3 pounds of Nitrogen per 1000 square feet.

Shrubs and groundcover shall be top-dressed with compost 1" deep, or fertilized once in March with 10-6-4 analysis fertilizer at the rate of 3 pounds per 100 square feet of bed area. Ericaceous material shall be fertilized with an ericaceous fertilizer at the manufacturer's recommendation rate. If plants are growing poorly, a soil sample should be taken.

MULCHING
Annually, all tree and shrub beds will be prepared and mulched, to a minimum depth of 3" with quality mulch to match existing. Bed preparation shall include removing all weeds, cleaning up said bed, edging and cultivating decayed mulch into the soil. Debris from edging is to be removed from beds where applicable. If deemed necessary, a pre-emergent herbicide may be applied to the soil to inhibit the growth of future weeds.

Organically maintained gardens shall not receive any pre-emergent herbicides. Mulch in excess of 4" will be removed from the bed areas. SPECIAL CARE shall be taken in the mulching operation not to over-mulch or cover the base of trees and shrubs. This can be detrimental to the health of the plants.

WEEDING
All beds shall be weeded on a continuous basis throughout the growing season to maintain a neat appearance at all times.

Pre-emergent (soil-applied) and post-emergent (foliar-applied) herbicides shall be used where and when applicable and in accordance with the product's label.

INSECT & DISEASE CONTROL: TREES, SHRUBS & GROUNDCOVER

The maintenance contractor shall be responsible for monitoring the landscape site on a regular basis. The monitoring frequency shall be monthly except for growing season, which will be every other week. Trained personnel shall monitor for plant damaging insect activity, plant pathogenic diseases and potential cultural problems in the landscape. The pest or cultural problem will be identified under the supervision of the contractor.

For plant damaging insects and mites identified in the landscape, the contractor shall consult and follow the recommendations of the most current edition of the state Cooperative Service publication on insect control on landscape plant material.

Plant pathogenic disease problems identified by the contractor that can be resolved by pruning or physical removal of damaged plant parts will be performed as part of the contract. For an additional charge, plant pathogenic diseases that can be resolved through properly timed applications of fungicides shall be made when the owner authorizes it.

If the contractor notes an especially insect-or disease-prone plant species in the landscape, he/she will suggest replacement with a more pest-resistant cultivar or species that is consistent with the intent of the landscape design.

NOTE: For identification of plant-damaging insects and mites, a reference textbook that can be used is *Insects that feed on Trees and Shrubs* by Johnson and Lyon, Comstock Publishing Associates. For plan pathogenic diseases, two references are suggested: *Scouting and Controlling Woody Ornamental Diseases in Landscapes and Nurseries*, authorized by Gary Moorman, published by Penn State College of Agricultural Sciences, and *Diseases of Trees and Shrubs* by Sinclair and Lyon, published by Comstock Publishing Press.

TRASH REMOVAL
The maintenance contractor shall remove trash from all shrub and groundcover beds with each visit.

LEAF REMOVAL
All fallen leaves shall be removed from the site in November and once in December. If requested by the owner, the maintenance contractor, at an additional cost to the owner shall perform supplemental leaf removals.

WINTER CLEAN-UP
The project shall receive a general clean-up once during each of the winter months, i.e., January, February, and March.

Clean-up includes:

- Cleaning curbs and parking areas
- Removing all trash and unwanted debris
- Turning mulch where necessary
- Inspection of grounds

SEASONAL COLOR: PERENNIALS, ANNUALS, AND BULBS

The installation of perennials, annuals, and bulbs, unless specified herein, shall be reviewed with the owner, and, if accepted, installed and billed to the owner.

SEASONAL COLOR MAINTENANCE

Perennialization of Bulbs:

1. After flowering, cut off spent flower heads.
2. Allow leaves of daffodils and hyacinths to remain for six weeks after flowers have faded. Cut off at base.
3. Allow leaves of other bulbs to yellow naturally and then cut off at base.
4. Apply fertilizer after flowering in spring, possibly again in fall. Apply 10-10-10 at the rate of 2 pounds per 1000 square feet, or top-dress with compost 1" deep. Fall fertilization with a bulb fertilizer or mulching with 1" of compost is optional.

Flower Rotation:

1. Bulbs: Remove the entire plant and bulb after flowers have faded or at the direction of the owner, and install new plants if included in contract.
2. Summer Annuals or Fall Plants:
   a. Dead heading: Pinch and remove dead flowers on annuals as necessary.
   b. Fertilizing Summer Annuals: Fertilize using one or two methods: Apply a slow-release fertilizer in May following manufacturer's recommendations. A booster such as 10-10-10 may be necessary in late summer. Or, apply liquid fertilizations of 20-20-20 water-soluble fertilizers, not to exceed 2 pounds of 20-20-20 per 100 gallons of water, monthly; or mulch with compost 1" deep.
   c. Removal: If fall plants are to be installed, summer annuals shall be left in the ground until the first killing frost and then removed, unless otherwise directed by the owner.

Perennials:

1. After initial installation, if a time-released fertilizer has been incorporated during plant installation, no more fertilizer need be applied the first growing season.
2. The following year:
   a. Fertilize perennials with a slow-release fertilizer or any 50% organic fertilizer, or mulch perennials with compost 1" deep.
   b. Cut all deciduous perennials flush to the ground by March 1, if this was not done the previous fall, to allow new growth to develop freely.
   c. Mulch the perennial bed once in early spring at 1"-2" depth. If soil is bared in late fall, re-mulch lightly after ground is frozen to protect perennials.
   d. Inspect for insect or disease problems on perennials. Monitor and control slugs on hostas and ligularias. Powdery mildew on phlox, monardas, and asters can be prevented with properly timed fungicides or use of disease-resistant varieties.
   e. Weed perennial bed as specified in "WEEDING" above.
   f. Prune branching species to increase density. Cut only the flowering stems after blooming. Do not remove the foliage.
3. The following fall cut back deteriorating plant parts unless instructed to retain for winter interest, e.g. Sedum Autumn Joy and ornamental grasses.
4. Long-term Care:
   a. Divide plants that overcrowd the space provided. Divide according to the species. Some need frequent dividing, e.g. asters and yarrow every two years; other rarely, if ever, e.g. peonies, hostas, and astilbe.
   b. For detailed information regarding the care of specific perennials, refer to *All About Perennials* by Ortho; *Perennials: How to Select, Grow and Enjoy* by Pamela Harper and Frederick McGourty, Hp Books Publisher; *Herbaceous Perennial Plants: A Treatise on their Identification, Culture and Garden Attributes* by Allan Armitage, Stipes Pub LLC.

SUMMARY OF MAINTENANCE

LAWN MAINTENANCE

1. Soil analysis performed annually to determine pH. If pH does not fall within specified range, adjust according to soil test recommendations.
2. Maintain proper fertility and pH levels of the soil to provide an environment conducive to turf vitality for cool season grasses
3. Mow warm and cool season on a regular basis and as season and weather dictates. Remove no more than the top 1/3 of leaf blade. Clippings on paved and bed areas will be removed.
4. Aerate warm season turf areas to maintain high standards of turf appearance.
5. Apply pre-emergent to turf in two applications in early February and early April to extend barrier.
6. Apply post emergent as needed to control weeds.
7. Mechanically edge curbs and walks.
8. Apply non-selective herbicide, to mulched bed areas and pavement and remove excess runners to maintain clean defined beds.

TREE, GROUNDCOVER, AND SHRUB BED MAINTENANCE

1. Prune shrubs, trees and groundcover to encourage healthy growth and create a natural appearance.
2. Mulch to be applied in February/March with a half rate in late summer to top dress.
3. Apply pre-emergent herbicides in February and April.
4. Manual weed control to maintain clean bed appearance.
5. Apply fungicides and insecticides as needed to control insects and disease.
6. Ornamental shrubs, trees and groundcovers to be fertilized three (3) times per year with a balanced material (January/February, April/May, and October/November)
7. Edge all mulched beds.
8. Remove all litter and debris.

GENERAL MAINTENANCE

1. Remove all man-made debris, blow edges.
2. Inspect grounds on a monthly basis and schedule inspection with Unit Operator.

Re: Chick-fil-A # 04222 at the SWC of SH 205 & Yellow Jacket Variance Request

Dear Planning Department,

In conjunction with our Site Plan submittal package, we request the following two (2) variances for the proposed Chick-fil-A drive-thru restaurant at the southwest corner of SH 205 (Goliad Street) and West Yellow Jacket Lane:

Landscape Buffer along SH 205
Section 6.7.E.1 of the Unified Land Development Code (ULDC) requires that sites within the SH 205 Overlay District provide a minimum 20-ft wide buffer strip along SH 205. The former uses that existed on this site included a convenience store/gas station and a restaurant, both of which provided minimal ground cover and landscaping along SH 205.

The development plan for the proposed Chick-fil-A provides a minimum 10-ft wide buffer strip along SH 205. Within this buffer, a variety of trees and shrubs are provided to enhance the frontage of this lot.

We request a variance to provide a 10-ft landscape buffer along SH 205 in lieu of the 20-ft landscape buffer specified in Section 6.7.E.1 of the ULDC.

Roof Design Standard
Section 6.7.C.2 of the Unified Land Development Code requires that structures with less than a 6,000 sf footprint be constructed with a pitched roof system.

The typical Chick-fil-A restaurant model prototype provides a flat roof as illustrated in the provided Building Elevations.

We request a variance to provide a flat roof system per the Chick-fil-A standard in lieu of the pitched roof system specified in Section 6.7.C.2 of the ULDC.

We appreciate your acceptance of our Site Plan submittal, and request your recommendation to the Planning and Zoning Commission and City Council for the approval of these variances. If you have any questions or comments, please feel free to contact me at 817-467-7700 or RandyE@WierAssociates.com.

Truly yours,

Randy Eardley, PE
Wier & Associates, Inc.
Texas Firm Registration No. F-2776

SITE DATA	
SITE ADDRESS	2000 S. GOLIAD STREET, ROCKWALL, TX 75087
ZONING/EXISTING LAND USE	Commercial (C) District W/ SH 205 Overlay (SH205 OV) District
PROPOSED USE	Fast Food Restaurant, Drive-Thru Only
LOT AREA	0.656 Acres 28,562 Sq. Ft.
PROPOSED R.O.W. DEDICATION	706 Sq. Ft.±
TOTAL BUILDING AREA	2,173 Sq. Ft.±

CAUTION ! !

EXISTING UTILITIES ARE INDICATED ON THE PLANS FROM AVAILABLE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY THE LOCATION OF ALL UTILITIES, TO NOTIFY ALL UTILITY COMPANIES OF THE CONTRACTORS OPERATIONS, TO PROTECT ALL UTILITIES FROM DAMAGE, TO REPAIR ALL UTILITIES DAMAGED DUE TO THE CONTRACTORS OPERATIONS, AND TO NOTIFY THE ENGINEER PROMPTLY OF ALL CONFLICTS OF THE WORK WITH EXISTING UTILITIES.

NOTES

1. ALL ON-SITE CONSTRUCTION SHALL BE IN ACCORDANCE WITH CURRENT CHICK-FIL-A SPECIFICATIONS, WHICHEVER IS MORE RESTRICTIVE.
2. ALL CONSTRUCTION IN CITY RIGHT-OF-WAYS AND/OR EASEMENT SHALL BE IN ACCORDANCE WITH THE CITY'S STANDARD SPECIFICATIONS.
3. PRIOR TO STARTING CONSTRUCTION, THE CONTRACTOR SHALL MAKE CERTAIN THAT ALL REQUIRED PERMITS AND APPROVALS HAVE BEEN OBTAINED. NO CONSTRUCTION OR FABRICATION SHALL BEGIN UNTIL THE CONTRACTOR HAS RECEIVED AND THOROUGHLY REVIEWED ALL PLANS AND OTHER DOCUMENTS AS APPROVED BY ALL OF THE PERMITTING AUTHORITIES.
4. THE CONTRACTOR IS RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING UTILITIES DURING THE CONSTRUCTION OF THIS PROJECT.
5. IF CONTRACTOR FINDS A DISCREPANCY WITH THE TOPOGRAPHIC INFORMATION ON THESE PLANS, HE/SHE SHALL CONTACT THE CONSTRUCTION MANAGER/SUPERVISOR IMMEDIATELY.
6. ALL DIMENSIONS SHOWN ARE TO FACE OF CURB, BRICK, OR AS OTHERWISE NOTED.
7. REFER TO ARCHITECTURAL PLANS FOR EXACT BUILDING DIMENSIONS.
8. ALL RADII ARE 2' UNLESS OTHERWISE NOTED.
9. ALL PARKING STALLS SHALL BE STRIPED IN ACCORDANCE W/APPLICABLE GOVERNING AUTHORITIES.
10. BUILDING IS PARALLEL & PERPENDICULAR TO SOUTH & WEST PROPERTY LINES.

EXISTING TREE TO REMAIN

LANDSCAPE NOTES

1. Landscape Contractor to read and understand the Landsacpe Specifications (sheet L-102) prior to finalizing bids. The Landscape Specifications shall be adhered to throughout the construction process.
2. Contractor is responsible for locating and protecting all underground utilities prior to digging.
3. Contractor is responsible for protecting existing trees from damage during construction.
4. All tree protection devices to be installed prior to the start of land disturbance, and maintained until final landscaping.
5. All tree protection areas to be protected from sedimentation.
6. All tree protection fencing to be inspected daily, and repaired or replaced as needed.
7. No parking, storage or other construction activities are to occur within tree protection areas.
8. All planting areas shall be cleaned of construction debris (ie. concrete, rock, rubble, building materials, etc) prior to adding and spreading of the topsoil.
9. General Contractor is responsible for adding a min of 4" clean friable topsoil in all planting beds and all grassed areas. Graded areas to be held down the appropriate elevation to account for topsoil depth. See Landscape Specifications for required topsoil characteristics.
10. In all parking lot islands, the General Contractor is responsible to remove all debris, fracture/loosen subrade to a min. 24" depth. Add topsoil to a 6"-8" berm height above island curbing; refer to landscape specifications and landscape island detail.
11. Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve topsoil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.
12. Any deviations from the approved set of plans are to be approved by the Landscape Architect.
13. Landscaping shall be installed in conformance with ANSI Z60.1 the "American Standard for Nursery Stock" and the accepted standards of the American Association of Nurserymen.
14. Existing grass in proposed planting areas shall be killed and removed. Hand rake to remove all rocks and debris larger than 1 inch in diameter, prior to adding topsoil and planting shrubs.
15. Soil to be tested to determine fertilizer and lime requirements prior to laying sod.
16. Annual and perennial beds: add min. 4 inch layer of organic material and till to a min. depth of 12 inches. Mulch annual and perennial beds with 2-3 inch depth of mini nuggets.
17. All shrubs beds (existing and new) to be mulched with a min. 3 inch layer of rock mulch.
18. Planting holes to be dug a minimum of twice the width of the root ball, for both shrub and tree. Set plant material 2-3" above finish grade. Backfill planting pit with topsoil and native excavated soil.
19. Sod to be delivered fresh (Cut less than 24 hours prior to arriving on site), laid immediately, rolled, and watered thoroughly immediately after planting. Edge of sod at planting beds are to be "V" trenched; see Landscape Details.
20. Any existing grass disturbed during construction to be fully removed, regraded and replaced. All tire marks and indentions to be repaired.
21. Water thoroughly twice in first 24 hours and apply mulch immediately.
22. The Landscape Contractor shall guarantee all plants installed for one full year from date of acceptance by the owner. All plants shall be alive and at a vigorous rate of growth at the end of the guarantee period. The Landscape Contractor shall not be responsible for acts of God or vandalism. See Landscape Specifications for Warranty requirements/expectations.
23. Any plant that is determined dead, in an unhealthy, unsightly condition, lost its shape due to dead branches, or other symptoms of poor, non-vigorous growth, shall be replaced by the Landscape Contractor. See Landscape Specifications for warranty requirements/expectations.
24. Site to be 100% irrigated in all planting beds and grass area by an automatic underground Irrigation System. See Irrigation Plan L-200 for design. Irrigation as-built shall be provided to the Landscape Architect within 24 hours of irrigation install completion.
25. Stake all evergreen and deciduous trees as shown in the planting detail and as per the Landscape Specifications.
26. Remove stakes and guying from all trees after one year from planting.

PLANT LIST

Qty	Botanical Name	Common Name	Scheduled Size	Remarks
	Trees

LANDSCAPE REQUIREMENTS

A. SH 205 OVERLAY DISTRICY

REQUIRED

1. 20' buffer strip with 2 Canopy and 4 Accent Trees along street frontage.
   W. Yellow Jacket Ln: 99 LF / 100 = 2 Canopy, 4 Accent Trees
   S. Goliad St (SH 205): 145 LF / 100 = 3 Canopy, 6 Accent Trees
2. Continuous screen hedge required along street frontage
3. Canopy trees min. 4" Cal; Accent trees min. 4' hgt
4. Deciduous shrubs min. 15" hgt, min. 2 gal.; Evergreen shrubs min. 12" hgt, min. 2 gal.

PROVIDED

1. 15' buffer strip provided along Yellow Jacket LN; 10' buffer strip provided along S. Goliad St.
   W. Yellow Jacket Ln: 2 Freeman Maple and 4 Redbud (overhead power present)
   S. Goliad St (SH 205): 3 Maple, 6 Yaupon Holly
2. Dwarf Burford Holly hedge provided
3. Trees specified at minimum required sizes
4. Shrubs specified at minimum required sizes

B. PARKING LOT

REQUIRED

1. Min. 5% of VUA must be interior landscape area.
   18,240 SF x 5% = 912 SF Required
2. Min. 15% of total site to be landscape area
   28,562 SF x 15% = 4,284 SF Required

PROVIDED

1. 3,084 SF interior landscape area provided
2. 6,562 SF of total landscape area provided

NOTE:

1. THE IRRIGATION WILL MEET THE REQUIREMENTS OF THE UDC.
2. NO TREE SHALL BE PLANTED WITHIN 5' OF A UTILITY LINE.

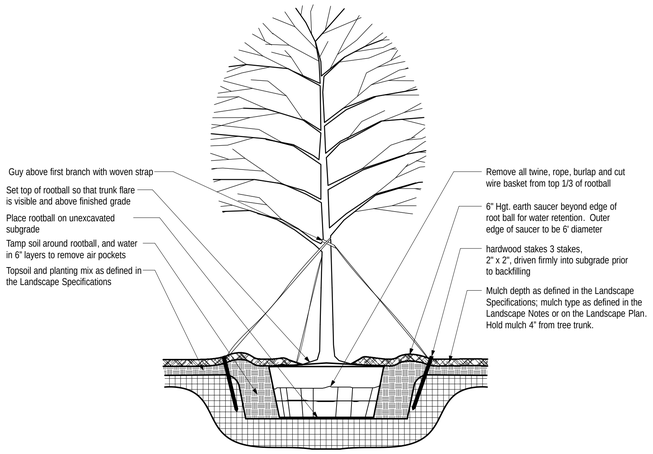
Landscape Plan

SHEET NUMBER

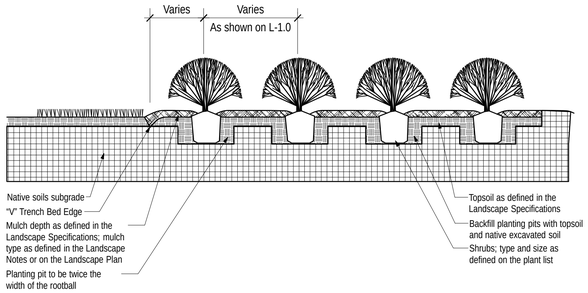
L-100



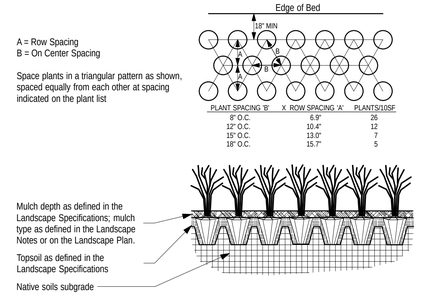
NOTE

1. Hole to be twice the width of the rootball.
2. Do not heavily prune tree at planting. Prune only crossover limbs, broken or dead branches; Do not remove the terminal buds of branches that extend to the edge of the crown.
3. Each tree must be planted such that the trunk flare is visible at the top of the rootball. Trees where the trunk flare is not visible shall be rejected. Do not cover the top of the rootball with soil. Mulch to be held back 4" away from trunk.
4. Remove Guy Wires and Staking when warranty period has expired (after one year).

1 TREE PLANTING AND STAKING DETAIL
SCALE: NTS



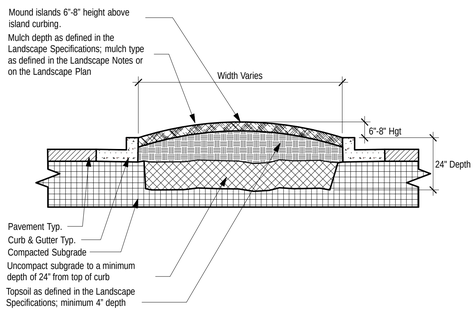
2 SHRUB BED PLANTING DETAIL
SCALE: NTS



NOTE

1. Space groundcover plants in accordance with indicated spacing listed on the plant list, or as shown on the landscape plan.
2. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants.
3. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

3 GROUNDCOVER PLANTING DETAIL
SCALE: NTS



NOTE

1. Clean construction debris from within landscape island areas (ie. concrete, rocks, rubble, building materials, ect), prior to installing topsoil and plant material.
2. Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum bermed 6"-8" height above island curbing.
3. Island plant material as per the Landscape Plan.
4. Install plant material as per tree, shrub and ground cover planting details, and as defined in the Landsacpe Specifications.
5. Install mulch or sod as specified on the Landscape Plan, and as defined in the Landscape Specifications.

Information contained on this drawing and in all digital files produced for above named project may not be reproduced in any manner without express written or verbal consent from authorized project representatives.

SHEET

Permit Landscape Details

SHEET NUMBER

L-101

LANDSCAPE SPECIFICATIONS

PART 1 - GENERAL

DESCRIPTION
Provide trees, shrubs, ground covers, sod, and annuals/perennials as shown and specified on the landscape plan. The work includes:

1. Soil preparation.
2. Trees, shrubs, ground covers, and annuals/perennials.
3. Planting mixes.
4. Top Soil, Mulch and Planting accessories.
5. Maintenance.
6. Decorative stone.

Related Work:

1. Irrigation System; see irrigation specifications (sheet L-2.2)

QUALITY ASSURANCE
Plant names indicated; comply with "Standardized Plant Names" as adopted by the latest edition of the American Joint Committee of Horticultural Nomenclature. Names of varieties not listed conform generally with names accepted by the nursery trade. Provide stock true to botanical name and legibly tagged.

Comply with sizing and grading standards of the latest edition of "American Standard for Nursery Stock". A plant shall be dimensioned as it stands in its natural position.

All plants shall be nursery grown under climatic conditions similar to those in the locality of the project for a minimum of 2 years.

Nursery Stock furnished shall be at least the minimum size indicated. Larger stock is acceptable, at no additional cost, and providing that the larger plants will not be cut back to size indicated. Provide plants indicated by two measurements so that only a maximum of 25% are of the minimum size indicated and 75% are of the maximum size indicated.

Before submitting a bid, the Contractor shall have investigated the sources of supply and be satisfied that they can supply the listed plants in the size, variety and quality as specified. Failure to take this precaution will not relieve the Contractor from their responsibility for furnishing and installing all plant materials in strict accordance with the Contract Documents without additional cost to the Owner. The Landscape Architect shall approve any substitutes of plant material, or changes in plant material size, prior to the Landscape Contractor submitting a bid.

DELIVER, STORAGE AND HANDLING
Take all precautions customary in good trade practice in preparing plants for moving. Workmanship that fails to meet the highest standards will be rejected. Spray deciduous plants in foliage with an approved "Anti-Desiccant" immediately after digging to prevent dehydration. Dig, pack, transport, and handle plants with care to ensure protection against injury. Inspection certificates required by law shall accompany each shipment invoice or order to stock. Protect all plants from drying out. If plants cannot be planted immediately upon delivery, properly protect them with soil, wet peat moss, or in a manner acceptable to the Landscape Architect. Water heeled-in plantings daily. No plant shall be bound with rope or wire in a manner that could damage or break the branches. Cover plants transported on open vehicles with a protective covering to prevent wind burn.

PROJECT CONDITIONS
Protect existing utilities, paving, and other facilities from damage caused by landscape operations.

A complete list of plants, including a schedule of sizes, quantities, and other requirements are shown on the drawings. In the event that quantity discrepancies or material omissions occur in the plant materials list, the planting plans shall govern.

The irrigation system will be installed prior to planting. Locate, protect and maintain the irrigation system during planting operations. Repair irrigation system components damaged during planting operations; at the Contractor's expense. Refer to the irrigation specifications, irrigation plan and irrigation details.

Do not begin landscape accessory work before completion of final grading or surfacing.

WARRANTY
Warrant plant material to remain alive, be healthy and in a vigorous condition for a period of 1 year after completion and final acceptance of entire project.

Replace, in accordance with the drawings and specifications, all plants that are dead or, are in an unhealthy, or unsightly condition, and have lost their natural shape due to dead branches, or other causes due to the Contractor's negligence. The cost of such replacement(s) is at the Contractor's expense. Warrant all replacement plants for 1 year after installation.

Warranty shall not include damage, loss of trees, plants, or ground covers caused by fires, floods, freezing rains, lightning storms, winds over 75 miles per hour, winter kill caused by extreme cold, severe winter conditions not typical of planting area, and/or acts of vandalism or negligence on a part of the Owner.

Remove and immediately replace all plants, found to be unsatisfactory during the initial planting installation.

Maintain and protect plant material, lawns, and irrigation until final acceptance is made.

ACCEPTANCE
Inspection of planted areas will be made by the Owner's representative.

1. Planted areas will be accepted provided all requirements, including maintenance, have been complied with and plant materials are alive and in a healthy, vigorous condition.

Upon acceptance, the Contractor shall commence the specified plant maintenance.

CODES, PERMITS AND FEES
Obtain any necessary permits for this Section of Work and pay any fees required for permits.

The entire installation shall fully comply with all local and state laws and ordinances, and with all established codes applicable thereto; also as depicted on the landscape and irrigation construction set.

PART 2 - PRODUCTS

MATERIALS
Plants: Provide typical of their species or variety; with normal, densely developed branches and vigorous, fibrous root systems. Provide only sound, healthy, vigorous plants free from defects, disfiguring knots, sun scald injuries, frost cracks, abrasions of the bark, plant diseases, insect eggs, borers, and all forms of infestation. All plants shall have a fully developed form without voids and open spaces. Plants held on storage will be rejected if they show signs of growth during the storage period.

1. Balled and plants wrapped with burlap, to have firm, natural balls of earth of sufficient diameter and depth to encompass the fibrous and feeding root system necessary for full recovery of the plant. Provide ball sizes complying with the latest edition of the "American Standard for Nursery Stock". Cracked or mushroomed balls, or signs of circling roots are not acceptable.
2. Container- grown stock: Grown in a container for sufficient length of time for the root system to have developed to hold its soil together, firm and whole.
   a. No plants shall be loose in the container.
   b. Container stock shall not be pot bound.
3. Plants planted in rows shall be matched in form.
4. Plants larger than those specified in the plant list may be used when acceptable to the Landscape Architect.
   a. If the use of larger plants is acceptable, increase the spread of roots or root ball in proportion to the size of the plant.
5. The height of the trees, measured from the crown of the roots to the top of the top branch, shall not be less than the minimum size designated in the plant list.
6. No pruning wounds shall be present with a diameter of more than 1" and such wounds must show vigorous bark on all edges.
7. Evergreen trees shall be branched to the ground or as specified in plant list.
8. Shrubs and small plants shall meet the requirements for spread and height indicated in the plant list.
   a. The measurements for height shall be taken from the ground level to the height of the top of the plant and not the longest branch.
   b. Single stemmed or thin plants will not be accepted.
   c. Side branches shall be generous, well-twigged, and the plant as a whole well-bushed to the ground.
   d. Plants shall be in a moist, vigorous condition, free from dead wood, bruises, or other root or branch injuries.

ACCESSORIES
Topsoil: Shall be Fertile, friable, natural topsoil of loamy character, without admixture of subsoil material, obtained from a well-drained arable site, reasonably free from clay, lumps, coarse sands, stones, roots, sticks, and other foreign materials, with acidity range of between pH 6.0 and 6.8.

Note: All planting areas shall be cleaned of construction debris (ie. Concrete, rubble, stones, building material, etc.) prior to adding and spreading of the top soil.

1. *Sod Areas:* Spread a minimum 4" layer of top soil and rake smooth.
2. *Planting bed areas:* Spread a minimum 4" layer of top soil and rake smooth.
3. *Landscape Islands/Medians:* Fracture/loosen existing subgrade to a minimum 24" depth. Remove and replace any subgrade unsuitable for planting. Once subgrade is clean of debris and loosened, add topsoil to a minimum berm 6"-8" height above island curbing.
4. *Annual/Perennial bed areas:* Add a minimum of 4" organic matter and till to a minimum 12" depth.

Mulch: Type selected dependent on region and availability; see landscape plans for type of much to be used. Hold mulch 4" from tree trunks and shrub stems.

1. Hardwood: 6 month old well rotted double shredded native hardwood bark mulch not larger than 4" in length and ½" in width, free of wood chips and sawdust. Install minimum depth of 3".
2. Pine Straw: Pine straw to be fresh harvest, free of debris, bright in color. Bales to be wired and tightly bound. Needles to be dry. Install minimum depth of 3".
3. River Rock: (color) light gray to buff to dark brown, washed river rock, 1" – 3" in size. Install in shrub beds to an even depth of 3". Weed control barrier to be installed under all rock mulch areas. Use caution during installation not to damage plant material.
4. Mini Nuggets: Install to a minimum depth of 2"-3" at all locations of annual and perennial beds. Lift the stems and leaves of the annuals and carefully spread the mulch to avoid injuring the plants. Gently brush the mulch off the plants.

Guying/Staking:

1. Arbortie: Green (or white) staking and guying material to be flat, woven, polypropylene material, ¾" wide 900 lb. break strength. Arbortie shall be fastened to stakes in a manner which permits tree movement and supports the tree.
2. Remove Guying/Staking after one year from planting.

Tree Wrap: Tree wraps should be used on young, newly planted thin-barked trees (Cherry, Crabapple, Honey Locust, Linden, Maple, Mountain Ash, Plum) that are most susceptible to sun scald/Sunburn. Standard waterproofed tree wrapping paper, 2-1/2" wide, made of 2 layers of crepe Draft paper weighing not less than 30 lbs. per ream, cemented together with asphalt. Wrap the tree in the fall and leave the wrap in place throughout the winter and early spring. Tree wraps are temporary and no longer needed once trees develop corky bark.

PART 3 – EXECUTION

INSPECTION
Prior to beginning work, the Landscape Contractor shall inspect the subgrade, general site conditions, verify elevations, utility locations, irrigation, approve top soil provided by the General Contractor and observe the site conditions under which the work is to be done. Notify the General Contractor of any unsatisfactory conditions, and work shall not proceed until such conditions have been corrected and are acceptable to the Landscape Contractor.

PREPARATION
Planting shall be performed only by experienced workmen familiar with planting procedures under the supervision of a qualified supervisor.

Locate plants as indicated on the plans or as approved in the field after staking by the Landscape Contractor. If obstructions are encountered that are not shown on the drawings, do not proceed with planting operations until alternate plant locations have been selected and approved by the Landscape Architect; spacing of plant material shall be as shown on the landscape plan.

Excavate circular plant pits with vertical sides, except for plants specifically indicated to be planted in beds. Provide shrub pits at least 12" greater than the diameter of the root system and 24" greater for trees. Depth of pit shall accommodate the root system. Provide undisturbed sub grade to hold root ball at nursery grade as shown on the drawings.

INSTALLATION
Set plant material in the planting pit to proper grade and alignment. Set plants upright, plumb, and faced to give the best appearance or relationship to each other or adjacent structure. Set plant material 2" – 3" above the finish grade. No filling will be permitted around trunks or stems. Backfill the pit with topsoil mix and excavated material. Do not use frozen or muddy mixtures for backfilling. Form a ring of soil around the edge of each planting pit to retain water.

After balled and wrapped in burlap plants are set, muddle planting soil mixture around bases of balls and fill all voids.

1. Remove all burlap, ropes, and wires from the top 1/3 of the root ball

Space ground cover plants in accordance with indicated dimensions. Adjust spacing as necessary to evenly fill planting bed with indicated quantity of plants. Plant to within 24" of the trunks of trees and shrubs within planting bed and to within 18" of edge of bed.

Mulching:

1. Mulch tree and shrub planting pits and shrub beds with required mulching material (see landscape plan for mulch type); depth of mulch as noted above. **Hold mulch back 4" away from tree trunks and shrub stems.** Thoroughly water mulched areas. After watering, rake mulch to provide a uniform finished surface.

Decorative Stone: (where indicated on landscape plan)

1. Install weed control barrier over sub-grade prior to installing stone. Lap 6" on all sides.
2. Place stone without damaging weed barrier.
3. Arrange stones for best appearance and to cover all weed barrier fabric.

Wrapping, guying, staking:

1. Inspect trees for injury to trunks, evidence of insect infestation, and improper pruning before wrapping.
2. Wrapping:
   a. Wrap trunks of all young newly planted trees known to have thin bark. Wrap spirally from bottom to top with specified tree wrap and secure in place.
   b. Overlap ½ the width of the tree wrap strip and cover the trunk from the ground to the height of the second branch.
   c. Secure tree wrap in place with twine wound spirally downward in the opposite direction, tied around the tree in at least 3 places in addition to the top and bottom.
   d. Wrap the trees in the fall and leave the wrap in place throughout the winter and early spring.
   d. Tree wraps are temporary and no longer needed once the trees develop corky bark.
3. Staking/Guying:
   a. Stake/guy all trees immediately after lawn sodding operations and prior to acceptance.
   b. Stake deciduous trees 2" caliper and less. Stake evergreen trees under 7'-0" tall.
      1. Stakes are placed in line with prevailing wind direction and driven into undisturbed soil.
      2. Ties are attached to the tree, usually at the lowest branch.
   c. Guy deciduous trees over 2" caliper. Guy evergreen trees 7'-0" tall and over.
      1. Guy wires to be attached to three stakes driven into undisturbed soil, with one stake placed in the direction of the prevailing wind.
      2. Ties are attached to the tree as high as practical.
      3. The axis of the stake should be at 90 degree angle to the axis on the pull of the guy wire.
4. **Remove all guying and staking after one year from planting.**

Pruning:

1. Prune deciduous trees and evergreens only to remove broken or damaged branches.

WORKMANSHIP
During landscape/irrigation installation operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of installation operations, all excess materials, equipment, debris and waste material shall be cleaned up and removed from the site; unless provisions have been granted by the owner to use on-site trash receptacles. Sweep parking and walks clean of dirt and debris. Remove all plant tags and other debris from lawns and planting areas.

Any damage to the landscape, the structure, or the irrigation system caused by the landscape contractor shall be repaired by the landscape contractor without charge to the owner.

MAINTENANCE
Contractor shall provide maintenance until work has been accepted by the Owner's Representative.

Maintenance shall include mowing, fertilizing, mulching, pruning, cultivation, weeding, watering, and application of appropriate insecticides and fungicides necessary to maintain plants and lawns free of insects and disease.

1. Re-set settled plants to proper grade and position. Restore planting saucer and adjacent material and remove dead material.
2. repair guy wires and stakes as required. Remove all stakes and guy wires after 1 year.
3. Correct defective work as soon as possible after deficiencies become apparent and weather and season permit.
4. Water trees, plants and ground cover beds within the first 24 hours of initial planting, and not less than twice per week until final acceptance.

LANDSCAPE MAINTENANCE SPECIFICATIONS

The Contractor shall provide as a separate bid, maintenance for a period of ***1 year*** after final acceptance of the project landscaping. The Contractor must be able to provide continued maintenance if requested by the Owner or provide the name of a reputable landscape contractor who can provide maintenance.

STANDARDS
All landscape maintenance services shall be performed by trained personnel using current, acceptable horticultural practices.

All work shall be performed in a manner that maintains the original intent of the landscape design.

All chemical applications shall be performed in accordance with current county, state and federal laws, using EPA registered materials and methods of application. These applications shall be performed under the supervision of a Licensed Certified applicator.

APPROVALS
Any work performed in addition to that which is outlined in the contract shall only be done upon written approval by the Owner's Representative (General Manager of the restaurant).

All seasonal color selections shall be approved by the General Manager prior to ordering and installation.

SOIL TESTING
The maintenance contractor shall perform soil tests as needed to identify imbalances or deficiencies causing plant material decline. The owner shall be notified of the recommendation for approval, and the necessary corrections made at an additional cost to the owner.

Acceptable Soil Test Results

	Landscape Trees and Shrubs	Turf
pH Range	5.0-7.0	6.0-7.0
Organic Matter	>1.5%	>2.5%
Magnesium (Mg)	100+lbs./acre	100+lbs./acre
Phosphorus (P2O5)	150+lbs./acre	150+lbs./acre
Potassium (K2O)	120+lbs./acre	120+lbs./acre
Soluble salts/ Conductivity	Not to exceed 900ppm/1.9 mmhos/cm in soil; not to exceed 1400 ppm/2.5 mmhos/cm in high organic mix	Not to exceed 750ppm/0.75 mmhos/cm in soil; not to exceed 2000 ppm/2.0 mmhos/cm in high organic mix

For unusual soil conditions, the following optional tests are recommended with levels not to exceed:

Boron	3 pounds per acre
Manganese	50 pounds per acre
Potassium (K2O)	450 pounds per acre
Sodium	20 pounds per acre

WORKMANSHIP
During landscape maintenance operations, all areas shall be kept neat and clean. Precautions shall be taken to avoid damage to existing structures. All work shall be performed in a safe manner to the operators, the occupants and any pedestrians.

Upon completion of maintenance operations, all debris and waste material shall be cleaned up and removed from the site, unless provisions have been granted by the owner to use on-site trash receptacles.

Any damage to the landscape, the structure, or the irrigation system caused by the maintenance contractor, shall be repaired by the maintenance contractor without charge to the owner.

TURF

GENERAL CLEAN UP
Prior to mowing, all trash, sticks, and other unwanted debris shall be removed from lawns, plant beds, and paved areas.

MOWING
Warm season grasses (i.e. Bermuda grass) shall be maintained at a height of 1" to 2" during the growing season.

Cool season grasses, including blue grass, tall fescue, perennial ryegrass, etc., shall be maintained at a height of 2" to 3" in spring and fall. From June through September, mowing height shall be maintained at no less than 3".

The mowing operation includes trimming around all obstacles, raking excessive grass clippings and removing debris from walks, curbs, and parking areas. Caution: Weed eaters should NOT be used around trees because of potential damage to the bark.

EDGING
Edging of all sidewalks, curbs and other paved areas shall be performed once every other mowing. Debris from the edging operations shall be removed and the areas swept clean. Caution shall be used to avoid flying debris.

LIMING & FERTILIZING
A soil test shall be taken to determine whether an application of limestone in late fall is necessary. If limestone is required, the landscape contractor shall specify the rate, obtain approval from the owner and apply it at an additional cost. A unit price for liming of turf shall accompany the bid based on a rate of 50 pounds per 1000 square feet.

Fertilizer shall be applied in areas based on the existing turf species.

LAWN WEED CONTROL: HERBICIDES
Selection and proper use of herbicides shall be the landscape contractor's responsibility. All chemical applications shall be performed under the supervision of a Licensed Certified Applicator. **Read the label prior to applying any chemical.**

INSECT & DISEASE CONTROL FOR TURF
The contractor shall be responsible for monitoring the site conditions on each visit to determine if any insect pest or disease problems exist. The contractor shall identify the insect pest or disease, as well as the host plant, and then consult the most current edition of the Cooperative Extension Service's "Commercial Insecticide Recommendation for Turf" for control. The licensed applicator shall be familiar with the label provided for the selected product prior to application.

Inspection and treatment to control insect pests shall be included in the contract price.

TREES, SHRUBS, & GROUND COVER

PRUNING
All ornamental trees, shrubs and ground cover shall be pruned when appropriate to remove dead or damaged branches, develop the natural shapes. **Do not shear trees or shrubs**. If previous maintenance practice has been to shear and ball, then a natural shape will be restored gradually.

Pruning Guidelines:

1. Prune those that flower before the end of June immediately after flowering. Flower buds develop during the previous growing season. Fall, winter or spring pruning would reduce the spring flowering display.
2. Prune those that flower in summer or autumn in winter or spring before new growth begins, since these plants develop flowers on new growth.
3. Delay pruning plants grown for ornamental fruits, such as cotoneasters, pyracanthas and viburnums.
4. Hollies and other evergreens may be pruned during winter in order to use their branches for seasonal decoration. However, severe pruning of evergreens should be done in early spring only.
5. Broadleaf evergreen shrubs shall be hand-pruned to maintain their natural appearance after the new growth hardens off.
6. Hedges or shrubs that require shearing to maintain a formal appearance shall be pruned as required. Dead wood shall be removed from sheared plants before the first shearing of the season.
7. Conifers shall be pruned, if required, according to their genus.
   A. Yews, junipers, hemlocks, arborvitae, and false-cypress may be pruned after new growth has hardened off in late summer. If severe pruning is necessary, it must be done in early spring.
   B. Firs and spruces may be lightly pruned in late summer, fall, or winter after completing growth. Leave side buds. Never cut central leader.
   C. Pines may be lightly pruned in early June by reducing candles.
8. Groundcover shall be edged and pruned as needed to contain it within its borders.
9. Thinning: Remove branches and water sprouts by cutting them back to their point of origin on parent stems. This method results in a more open plant, without stimulating excessive growth. Thinning is used on crepe myrtles, lilacs, viburnums, smoke bush,etc.
10. Renewal pruning: Remove oldest branches of shrub at ground, leaving the younger, more vigorous branches. Also remove weak stems. On overgrown plants, this method may be best done over a three-year period. Renewal pruning may be used on abelia, forsythia, deutzia, spiraea, etc.

Plants overhanging passageways and parking areas and damaged plants shall be pruned as needed.

Shade trees that cannot be adequately pruned from the ground shall not be included in the Maintenance Contract. A certified arborist under a separate contract shall perform this type of work.

SPRING CLEANUP
Plant beds shall receive a general cleanup before fertilizing and mulching. Cleanup includes removing debris and trash from beds and cutting back herbaceous perennials left standing through winter, e.g. ornamental grasses, Sedum Autumn Joy.

FERTILIZING
For trees, the rate of fertilization depends on the tree species, tree vigor, area available for fertilization, and growth stage of the tree. Mature specimens benefit from fertilization every 3 to 4 years; younger trees shall be fertilized more often during rapid growth stages.

The current recommendation is based on the rate of 1000 square feet of area under the tree to be fertilized. For deciduous trees, 2 to 6 pounds of Nitrogen per 1000 square feet; for narrow-leaf evergreens, 1 to 4 pounds of Nitrogen per 1000 square feet; for broadleaf evergreens, 1 to 3 pounds of Nitrogen per 1000 square feet.

Shrubs and groundcover shall be top-dressed with compost 1" deep, or fertilized once in March with 10-6-4 analysis fertilizer at the rate of 3 pounds per 100 square feet of bed area. Ericaceous material shall be fertilized with an ericaceous fertilizer at the manufacturer's recommendation rate. If plants are growing poorly, a soil sample should be taken.

MULCHING
Annually, all tree and shrub beds will be prepared and mulched, to a minimum depth of 3" with quality mulch to match existing. Bed preparation shall include removing all weeds, cleaning up said bed, edging and cultivating decayed mulch into the soil. Debris from edging is to be removed from beds where applicable. If deemed necessary, a pre-emergent herbicide may be applied to the soil to inhibit the growth of future weeds.

Organically maintained gardens shall not receive any pre-emergent herbicides. Mulch in excess of 4" will be removed from the bed areas. SPECIAL CARE shall be taken in the mulching operation not to over-mulch or cover the base of trees and shrubs. This can be detrimental to the health of the plants.

WEEDING
All beds shall be weeded on a continuous basis throughout the growing season to maintain a neat appearance at all times.

Pre-emergent (soil-applied) and post-emergent (foliar-applied) herbicides shall be used where and when applicable and in accordance with the product's label.

INSECT & DISEASE CONTROL: TREES, SHRUBS & GROUNDCOVER

The maintenance contractor shall be responsible for monitoring the landscape site on a regular basis. The monitoring frequency shall be monthly except for growing season, which will be every other week. Trained personnel shall monitor for plant damaging insect activity, plant pathogenic diseases and potential cultural problems in the landscape. The pest or cultural problem will be identified under the supervision of the contractor.

For plant damaging insects and mites identified in the landscape, the contractor shall consult and follow the recommendations of the most current edition of the state Cooperative Service publication on insect control on landscape plant material.

Plant pathogenic disease problems identified by the contractor that can be resolved by pruning or physical removal of damaged plant parts will be performed as part of the contract. For an additional charge, plant pathogenic diseases that can be resolved through properly timed applications of fungicides shall be made when the owner authorizes it.

If the contractor notes an especially insect-or disease-prone plant species in the landscape, he/she will suggest replacement with a more pest-resistant cultivar or species that is consistent with the intent of the landscape design.

NOTE: For identification of plant-damaging insects and mites, a reference textbook that can be used is *Insects that feed on Trees and Shrubs* by Johnson and Lyon, Comstock Publishing Associates. For plan pathogenic diseases, two references are suggested: *Scouting and Controlling Woody Ornamental Diseases in Landscapes and Nurseries*, authorized by Gary Moorman, published by Penn State College of Agricultural Sciences, and *Diseases of Trees and Shrubs* by Sinclair and Lyon, published by Comstock Publishing Press.

TRASH REMOVAL
The maintenance contractor shall remove trash from all shrub and groundcover beds with each visit.

LEAF REMOVAL
All fallen leaves shall be removed from the site in November and once in December. If requested by the owner, the maintenance contractor, at an additional cost to the owner shall perform supplemental leaf removals.

WINTER CLEAN-UP
The project shall receive a general clean-up once during each of the winter months, i.e., January, February, and March.

Clean-up includes:

- Cleaning curbs and parking areas
- Removing all trash and unwanted debris
- Turning mulch where necessary
- Inspection of grounds

SEASONAL COLOR: PERENNIALS, ANNUALS, AND BULBS

The installation of perennials, annuals, and bulbs, unless specified herein, shall be reviewed with the owner, and, if accepted, installed and billed to the owner.

SEASONAL COLOR MAINTENANCE

Perennialization of Bulbs:**

1. After flowering, cut off spent flower heads.
2. Allow leaves of daffodils and hyacinths to remain for six weeks after flowers have faded. Cut off at base.
3. Allow leaves of other bulbs to yellow naturally and then cut off at base.
4. Apply fertilizer after flowering in spring, possibly again in fall. Apply 10-10-10 at the rate of 2 pounds per 1000 square feet, or top-dress with compost 1" deep. Fall fertilization with a bulb fertilizer or mulching with 1" of compost is optional.

Flower Rotation:

1. Bulbs: Remove the entire plant and bulb after flowers have faded or at the direction of the owner, and install new plants if included in contract.
2. Summer Annuals or Fall Plants:
   a. Dead heading: Pinch and remove dead flowers on annuals as necessary.
   b. Fertilizing Summer Annuals: Fertilize using one or two methods: Apply a slow-release fertilizer in May following manufacturer's recommendations. A booster such as 10-10-10 may be necessary in late summer. Or, apply liquid fertilizations of 20-20-20 water-soluble fertilizers, not to exceed 2 pounds of 20-20-20 per 100 gallons of water, monthly; or mulch with compost 1" deep.
   c. Removal: If fall plants are to be installed, summer annuals shall be left in the ground until the first killing frost and then removed, unless otherwise directed by the owner.

Perennials:

1. After initial installation, if a time-released fertilizer has been incorporated during plant installation, no more fertilizer need be applied the first growing season.
2. The following year:
   a. Fertilize perennials with a slow-release fertilizer or any 50% organic fertilizer, or mulch perennials with compost 1" deep.
   b. Cut all deciduous perennials flush to the ground by March 1, if this was not done the previous fall, to allow new growth to develop freely.
   c. Mulch the perennial bed once in early spring at 1"-2" depth. If soil is bared in late fall, re-mulch lightly after ground is frozen to protect perennials.
   d. Inspect for insect or disease problems on perennials. Monitor and control slugs on hostas and ligularias. Powdery mildew on phlox, monardas, and asters can be prevented with properly timed fungicides or use of disease-resistant varieties.
   e. Weed perennial bed as specified in "WEEDING" above.
   f. Prune branching species to increase density. Cut only the flowering stems after blooming. Do not remove the foliage.
3. The following fall cut back deteriorating plant parts unless instructed to retain for winter interest, e.g. Sedum Autumn Joy and ornamental grasses.
4. Long-term Care:
   a. Divide plants that overcrowd the space provided. Divide according to the species. Some need frequent dividing, e.g. asters and yarrow every two years; other rarely, if ever, e.g. peonies, hostas, and astilbe.
   b. For detailed information regarding the care of specific perennials, refer to *All About Perennials* by Ortho; *Perennials: How to Select, Grow and Enjoy* by Pamela Harper and Frederick McGouty, Hp Books Publisher; *Herbaceous Perennial Plants: A Treatise on their Identification, Culture and Garden Attributes* by Allan Armitage, Stipes Pub LLC.

SUMMARY OF MAINTENANCE

LAWN MAINTENANCE

1. Soil analysis performed annually to determine pH. If pH does not fall within specified range, adjust according to soil test recommendations.
2. Maintain proper fertility and pH levels of the soil to provide an environment conducive to turf vitality for cool season grasses
3. Mow warm and cool season on a regular basis and as season and weather dictates. Remove no more than the top 1/3 of leaf blade. Clippings on paved and bed areas will be removed.
4. Aerate warm season turf areas to maintain high standards of turf appearance.
5. Apply pre-emergent to turf in two applications in early February and early April to extend barrier.
6. Apply post emergent as needed to control weeds.
7. Mechanically edge curbs and walks.
8. Apply non-selective herbicide, to mulched bed areas and pavement and remove excess runners to maintain clean defined beds.

TREE, GROUNDCOVER, AND SHRUB BED MAINTENANCE

1. Prune shrubs, trees and groundcover to encourage healthy growth and create a natural appearance.
2. Mulch to be applied in February/March with a half rate in late summer to top dress.
3. Apply pre-emergent herbicides in February and April.
4. Manual weed control to maintain clean bed appearance.
5. Apply fungicides and insecticides as needed to control insects and disease.
6. Ornamental shrubs, trees and groundcovers to be fertilized three (3) times per year with a balanced material (January/February, April/May, and October/November)
7. Edge all mulched beds.
8. Remove all litter and debris.

GENERAL MAINTENANCE

1. Remove all man-made debris, blow edges.
2. Inspect grounds on a monthly basis and schedule inspection with Unit Operator.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: SP2017-038; Ranch Trail Retail Center

The site plan submitted for the Ranch Trial Retail Center [*Case No. SP2017-038*], scheduled for action at the December 12, 2017 meeting, will be tabled to allow the applicant requiring additional time to address staff comments. This means that the projected Planning and Zoning Commission meeting will be held on *Tuesday, December 26, 2018.* No action will be required on this item.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: Dub Douphrate; *Douphrate & Associates, Inc.*

AGENDA ITEM: **SP2017-039;** Hacienda Car Wash

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Frank of Hacienda Car Wash for the approval of a site plan for a carwash within the Scenic Overlay (SOV) District on a 2.008-acre tract of land being identified as Lots 1 & 2-01, Block A, the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located south of the intersection of W. Yellow Jacket Lane and Ridge Road [*FM-740*], and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting the approval of a *site plan* for the purpose of constructing a single-story, 4,396 SF car wash facility. The proposed car wash will be situated on a 2.008-acre tract of land identified as Lots 1 & 2-01, Block A, The Woods at Rockwall Addition that is located south of the intersection of W. Yellow Jacket Lane and Ridge Road [*FM-740*], is situated within the Scenic Overlay (*SOV*) District, and is zoned *Commercial* (C) *District*.

On February 6, 2017, the City Council approved a Specific Use Permit (*SUP No. S-162*) [*Ordinance No. 17-09*] to allow for a car wash facility within the Scenic Overlay (SOV) District. The SUP also established operational conditions requiring the car wash tunnel to be setback a minimum of 50-ft from Ridge Road and that the facility is required to provide screening adjacent to the southern boundary (*i.e. Lot 1, Block A, Lakewood Park Addition*) that consists of a wrought iron fence and landscaping. The applicant's site plan meets both of these conditions. Additionally, the SUP stipulates that the development shall generally be in conformance with the concept plan as established in the ordinance.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 6.8, C.2, *Special Use Standards,* of Article V, *District Development Standards*, of the Unified Development Code (*UDC*), a car wash is a use permitted by SUP within the Scenic Overlay (SOV) District and the SUP for this car wash [*Case No. Z2016-044*] was approved on February 6, 2017. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within *SUP Ordinance No. S-162* and the Unified Development Code (*UDC*) for a property located within the Scenic Overlay (*SOV*) District and zoned Commercial (C) District. A summary of the density and dimensional requirements of the *subject property* are as follows:

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: December 12, 2017

SUBJECT: SP2017-040; DFW Distributor Petroleum, Inc.

The site plan submitted for the retail gas station and convenience center [*Case No. SP2017-040*], scheduled for action at the December 12, 2017 meeting, will be tabled to allow the applicant additional time to address staff comments. This means that the projected Planning and Zoning Commission meeting will be held on *Tuesday, December 26, 2018.* No action will be required on this item.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*x=2.008-Acres; In Conformance*
Minimum Lot frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet*[1]	*x>28-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*x=20-Foot; In Conformance*
Maximum Building Height	*36-Ft w/o SUP*[2]	*X<36 Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*x=0.05%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*21*	*21 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x<20%; Rear Elevation Variance Required*
Minimum Landscaping Percentage	*15%*	*x>15%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=4.36%; In Conformance*

NOTES: a. Abutting nonresidentially zoned property, with fire retardant wall and alley separating: zero feet.
b. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.

TREESCAPE PLAN:

The applicant has provided a treescape plan indicating a total of 1,194 caliper inches being removed from the site, the majority of which are Oak trees. As a note Cedar and Hackberry trees that are 11-inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, if less than 11 inches dbh shall not be considered a protected tree. Feature trees (*i.e. Oaks, Pecans, and Elms*) may not be removed without approval of the Planning and Zoning Commission and are required to be replaced on an inch-for-inch basis; however, tree no. 5759 is a 30-inch caliper Oak tree and is required to be mitigated at twice the number of inches being removed, therefore an additional 30-inches will be added to the mitigation balance. The applicant's landscape plan depicts the provision of 28 caliper inches being added to the site. Taking this into account, the total mitigation required for the site is 1,196 caliper inches. The applicant will work with staff to satisfy the tree mitigation balance prior to construction.

VARIANCE REQUESTS:

1) The applicant is requesting variances to the Unified Development Code (UDC) for the sections outlined below. As a note, a variance request to the Scenic Overlay (SOV) District requires passage by a ¾ majority vote of those City Council members present, while a simple majority vote is required for a variance to the standards of the UDC. The requests are as follows:

   a) Article V, Section 6.8, Scenic Overlay (SOV) District Standards – A variance to allow for not meeting the 20% natural or quarried stone requirement for the rear (*i.e. east facing*) building elevations as established in *Sec. 6.6, C.1* of *Article V,* of the *Unified Development Code* (UDC) by allowing for 6% on the rear (*i.e. east facing*) elevation as depicted on the building elevations submitted. Staff should note that this elevation faces the rear of the adjacent Wal-Mart Building and will not be visible from any public rights-of-way or open space. ***[¾ Majority Vote]***

b) Article V, Section 6.6 IH-30 Overlay (IH-30 OV) District Standards – A variance to allow for exceeding more than 50% use of a cementaceous product (*i.e. 3-part stucco*) for the front (*i.e. west facing*) elevation as established in *Section 6.6, C.1.a,* of *Article V,* of the *Unified Development Code* (UDC) by allowing 55% on the front (*i.e. west facing*) elevation as depicted on the building elevations submitted. The applicant has stated the purpose of this variance is to accommodate the mission architectural style used for the building. ***[¾ Majority Vote]***

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On November 28, 2017, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The ARB requested the applicant provide a materials sample board and recommended the applicant lighten the proposed colors of the stucco on the building making them more neutral. The applicant has made the changes as requested by the ARB. The ARB will provide a recommendation to the Planning and Zoning Commission during their next meeting on December 12, 2017.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 12.07.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 19, 2017. Please provide two large copies [24" X 36" FOLDED] and one PDF version for a subsequent and final review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
-- As a note, all variances to Scenic OV Districts require approval by a 3/4 majority vote of City Council:

The following is considered to be a request to the Scenic OV Districts:

1. Per Sec. 6.8.D.1, of Article V, of the UDC, A minimum of 20% natural or quarried stone is required on all exterior walls. The rear elevation indicates 6% and does not meet the minimum requirement for the OV district.
2. Per Sec. 6.8.D.1.a, of Article V, of the UDC, Stucco is limited to a maximum of 50% of the exteriors finish. The front elevation indicates 55% and exceeds this requirement for the OV district.

Please address the following subsequent Planning Comments for each plan submitted:

Site Plan:
1. Provide Detail -- Trash dumpster enclosure. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque.

Landscape Plan:
1. The plan as submitted meets or exceeds the requirements of the UDC and the SOV.

Treescape Plan:
1. The applicant's landscape plan depicts the provision of 28 caliper inches being added to the site. Taking this into account, the total mitigation required for the site is 1,196 caliper inches. The applicant will work with staff to satisfy the tree mitigation balance prior to construction.

Photometric Plan:
1. The plan as submitted meets or exceeds the requirements of the UDC and the SOV.

Building Elevations:
1. Provide Elevations for covered parking. Standards to meet building design materials for overlay district. Provide elevations and indicate materials to be used.
2. See compliance standards for variance as listed above.
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745. PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 5, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-039" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
-- As a note, all variances to Scenic OV Districts require approval by a 3/4 majority vote of City Council:

The following is considered to be a request to the Scenic OV Districts:

1. Per Sec. 6.8.D.1.a, of Article V, of the UDC, Stucco is limited to a maximum of 50% of the exteriors finish. The front elevation indicates 55% and exceeds this requirement for the OV district.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as 24-ft firelane, public access, drainage & utility easements (as appropriate) for entire site. You may want to hatch or use heavier gray scale to better delineate.
3. The parking for this site should be calculated as 1:250 sq. ft. Provide adjustment, if necessary.
4. Indicate parking spaces under the covered parking areas.
5. Where are the HAVC units? Dash-in RTU's.

Landscape Plan:
1. Per SUP Ordinance - provide a wrought irion fence with live screening along the southern property boundary.
2. Provide number of trees being planted. This will also help reduce the total number of inches being mitigated.

Treescape Plan:
1. Reduce the total mitigation balance for on site plantings from landscape plan. Current Mitigation Balance = 1,224 caliper inches. 30 inches added due to tree no. 5759 being a 30" Oak -- requires double mitigation or 60 inches. The mitigation balance may be satisfied by either purchaseing tree credits equal to 20% of the

mitigation balance at $125 per inch with the remainder balance due by establishing a delivery method for trees (get with the Parks Dept. for logistics). Or you may request an alternative tree mitigation plan to be approved by the City Council.

Photometric Plan:
1. Provide cut sheets of all exterior light fixtures.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures) provide lighting pole detail.
3. Maximum intensity of exterior lighing is not to exceed 0.2-FC at the property lines. Light levels along the south and southeastern property lines exceed 0.2-FC - must be reduced.

Building Elevations:
1. Provide Elevations for covered parking. Standards to meet building design materials for overlay district. Provide elevations and indicate materials to be used.
1. See compliance standards for variance as listed above.
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Metal roof "R" panel is prohibited within the Scenic Overlay district is visible from the rights-of-way. Provide site study indicating compliance or submit approved roofing material.
4. Provide a materials sample board with small samples of the exterior materials to be used. (eletronic copy does not meet this requirement).
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: November 28, 2017 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Architectural Review Board: December 12, 2017 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: December 18, 2017 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

Re: Hacienda Car Wash Tree Preservation Plan

Dear Ryan,

Our client Russell Frank, who is the owner of Hacienda Car Wash, respectfully requests for our current Site Plan / Tree Preservation Plan application to be reviewed and evaluated based on the proposed Updated Tree Ordinance of which will soon become adopted by the City of Rockwall.

Your consideration of this request will be greatly appreciated.

Sincerely,

W.L. Douphrate II, P.E.

President

TREE MITIGATION

TOTAL NUMBER OF TREES PROVIDED:
(7) CANOPY TREES @ 4" = 28"
(7) ORNAMENTAL TREES @ 2" = 14"

LANDSCAPE ORDINANCE FOR CITY OF ROCKWALL

REQUIRED	PROVIDED
MINIMUM SQUARE FOOTAGE REQUIREMENTS FOR LANDSCAPING SHALL BE PROVIDED FOR BUILDINGS OR GROUPS OF BUILDINGS ON A LOT FOR MULTIPLE USES, COMMERCIAL USES OR INDUSTRIAL USES, AS FOLLOWS:	7,700 SQ. FT. OR 15% OF TOTAL AREA OF THE LANDSCAPE AREA PROVIDED.
ANY PARKING AREA WHERE PARKED CARS SHALL BE VISIBLE FROM THE STREET SHALL BE SCREENED BY EITHER A BERM OR SHRUB HEDGE. SUCH SCREENING SHALL BE LOCATED TOWARD THE REAR OF THE LANDSCAPE AREA.	7,122 SQ. FT. OF TOTAL LANDSCAPE AREA
ALL REQUIRED LANDSCAPE AREAS SHALL BE DEVELOPED ALONG THE BUILDING OR ALONG THE PROPERTY LINES AND SHALL BE PROVIDED ALONG THE PERIMETER OF THE PROPERTY EXCLUSIVE OF ANY ACCESS POINTS. ALL REQUIRED LANDSCAPE AREAS ALONG STREET FRONTAGE SHALL BE LOCATED BEHIND THE PROPERTY LINE, EXCLUSIVE OF DRIVEWAYS AND ACCESS WAYS.	
ALL PROPERTIES ZONED C, LI, OR HI SHALL PROVIDE A MINIMUM OF TWENTY (20) SQUARE FEET OF LANDSCAPING PER EACH LINEAR FOOT OF STREET FRONTAGE.	ALL PROPOSED ROAD FRONTAGE WILL BE PROVIDED A MINIMUM OF TWENTY (20) SQUARE FEET OF LANDSCAPING PER EACH LINEAR FOOT OF STREET FRONTAGE. PROPOSED 1,800 L.F.
NO PARKING SPACE SHALL BE FARTHER THAN SIXTY FEET (60') FROM A LANDSCAPED AREA.	ALL PARKING SPACES ARE WITHIN SIXTY (60') FEET OF AN EXISTING OR PROPOSED TREE.
TREES MUST BE PLANTED IN LANDSCAPED AREAS THAT ARE AT LEAST FIVE (5') FEET FROM PAVED, CURBED AND/OR SCREENED AREAS.	TREES ARE LOCATED IN LANDSCAPED AREAS THAT ARE AT LEAST FIVE (5') FEET FROM PAVED, CURBED AND/OR SCREENED AREAS.
NO LESS THAN EIGHTY (80%) OF THE TOTAL LANDSCAPED AREA REQUIRED SHALL BE LOCATED BEHIND OR ALONG THE FRONT BUILDING LINE OF THE PROPERTY. LANDSCAPE AREA REQUIRED = 15,000 SF x 15% = 2,250 SF LANDSCAPE AREA PROVIDED = 49,273 SF x 15% = 7,391 SF	LANDSCAPE AREA PROVIDED = 15,000 SF x 15% = 2,250 SF
LANDSCAPE BUFFERS SHALL BE PROVIDED ALONG THE LENGTH OF PUBLIC STREET.	LANDSCAPE BUFFERS ARE PROVIDED ALONG FM 740
LANDSCAPE BUFFERS SHALL CONSIST OF THE FOLLOWING: (1) ONE (1) CANOPY TREE PER FORTY (40') FEET OF LINEAR FRONTAGE. (2) FIVE (5) GALLON SHRUBS SPACED THREE (3') FEET ON CENTER ALONG THE STREET FRONTAGE.	2,800 L.F. FRONTAGE ALONG FM 740 (70) CANOPY TREES PROVIDED + NO TREES WITHIN 3' OF UTILITIES (140) FIVE (5) GALLON SHRUBS PROVIDED
ORNAMENTAL TREES MAY BE USED IN LIEU OF CANOPY TREES WHERE OVERHEAD UTILITY LINES EXIST. ONE (1) ORNAMENTAL TREE SHALL BE EQUIVALENT TO TWO (2) CANOPY TREES.	ORNAMENTAL TREES ARE NOT BEING PROPOSED ALONG FM 740

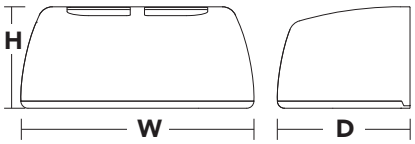
Weight (max): 30 lbs *(13.6 kg)*



Introduction

The Contour® Series luminaires offer traditional square dayforms with softened edges for a versatile look that complements many applications.

The CSXW LED combines the latest in LED technology with the familiar aesthetic of the Contour® Series for stylish, high-performance illumination that lasts. It is ideal for replacing 100-400W metal halide in wall-mounted applications with typical energy savings of 80% and expected service life of over 100,000 hours.

Accessories

Ordered and shipped separately.

CSXWBBW DDBXD U	Back box accessory (specify finish)
CSXWWG U	Wire guard accessory
CSXWVG U	Vandal guard accessory

NOTES

1. Configured with 4000K (/40K) provides the shortest lead times. Consult factory for 5000K (/50K) lead times.
2. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with fusing (SF, DF options) or photocontrol (PE option).
3. Available with 700 mA options only (30C 700).
4. Also available as a separate accessory; see Accessories information at left.
5. Photocontrol (PE) requires 120, 208, 240, 277 or 347 voltage option.
6. Must be ordered with fixture; cannot be field installed.
7. Single fuse (SF) requires 120, 277 or 347 voltage option. Double fuse (DF) requires 208, 240 or 480 voltage option.

Performance Data

Lumen Output

Lumen values are from photometric tests performed in accordance with IESNA LM-79-08. Data is considered to be representative of the configurations shown, within the tolerances allowed by Lighting Facts. Contact factory for performance data on any configurations not shown here.

LEDs	Drive Current (mA)	Performance Package	System Watts	Dist. Type	40K					50K				
					Lumens	B	U	G	LPW	Lumens	B	U	G	LPW
30C	700 mA	30C 700 --K	69W	T2M	7,561	2	0	2	110	7,608	2	0	2	110
				T3M	7,981	2	0	2	116	8,031	2	0	2	116
				T4M	7,924	1	0	2	115	7,973	2	0	2	116
				TFTM	8,083	1	0	2	117	8,134	1	0	2	118

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient		Lumen Multiplier
0°C	32°F	1.02
10°C	50°F	1.01
20°C	68°F	1.00
25°C	**77°F**	**1.00**
30°C	86°F	1.00
40°C	104°F	0.99

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the **CSXW LED** platform in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	0	25,000	50,000	100,000
Lumen Maintenance Factor	1.0	0.94	0.91	0.85

Electrical Load

Number of LEDs	Drive Current (mA)	System Watts	Current (A)					
			120V	208V	240V	277V	347V	480V
30C	700	69W	0.695	0.412	0.367	0.331	0.247	0.186
	1000	104W	1.034	0.599	0.528	0.472	0.382	0.302

FEATURES & SPECIFICATIONS

INTENDED USE

The Contour Series Wall LED luminaire is ideal for commercial building mounted applications from over-the-door to 20 ft mounting heights.

CONSTRUCTION

Rugged, die-cast, single-piece aluminum housing. Unique flow-through design for optimized thermal management. Modularity allows for ease of maintenance and potential for future system upgrades. Metallic screen covers the top of the housing, preventing debris build-up while allowing for air flow. Housing is completely sealed against moisture and environmental contaminants.

FINISH

Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling.

OPTICS

Precision-molded acrylic lenses provide optimal luminaire spacing and improved uniformity. Lenses are indexed to the circuit board to ensure consistent optical alignment and delivering repeatable photometric performance. Light engines are available in standard 4000K (70 CRI) or optional 5000K (67 CRI) configurations. The CSXW has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL

Light engine consists of 30 high-efficacy LEDs mounted to a metal-core circuit board to maximize heat dissipation and promote long life (100,000 hrs at 40°C, L70). Class 1 electronic driver has a power factor >90%, THD <20%, and has an expected life of 100,000 hours with <1% failure rate. Easily-serviceable surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

INSTALLATION

Universal mounting mechanism with integral mounting support allows fixture to hinge down. Bubble level provides correct alignment with every installation.

LISTINGS

CSA Certified to U.S. and Canadian standards. Rated for -40°C minimum ambient. Light engine is IP66 rated. Luminaire is IP65 rated.

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY

5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Specifications subject to change without notice.
Actual performance may differ as a result of end-user environment and application.
All values are design or typical values, measured under laboratory conditions at 25 °C.

GE
Lighting

Evolve™ LED Area Light

Scalable Area Light (EASC)

imagination at work

Product Features

The next evolution of the GE Evolve™ LED Area Light continues to deliver outstanding features, while adding greater flexibility, style and scalability. This latest design offers higher lumen outputs and provides photometric combinations with high efficacy, providing the ability to meet even a wider range of area lighting needs. Additionally, the new EASC Evolve Luminaire comes with a specially designed auto dealership optic for exceptional illuminance on the dealership's front row. Optional programmable motion sensing for Title 24 compliance is available.

Applications

- Site, area, and general lighting applications utilizing advanced LED optical system providing high uniformity, excellent vertical light distribution, reduced offsite visibility, reduced on-site glare and effective security light levels.
- Ideal for small to large retailers, commercial to medical properties, and big box retailers.

Housing

- Die-cast aluminum housing.
- Slim architectural design incorporates an integral heat sink and light engine, ensuring maximum heat transfer, long LED life, and a reduced Effective Projected Area (EPA).
- Meets 3G vibration standards per ANSI C136.31-2010 for Slipfitter and Mounting Arm configurations. Meets 1.5G vibration standards for Knuckle Slipfitter Mounting.

LED & Optical Assembly

- Structured LED arrays for optimized area light photometric distribution.
- Evolve light engine with directional reflectors designed to optimize application efficiency and minimize glare.
- Utilizes high brightness LEDs, 70 CRI at 4000K and 5000K typical.

Lumen Maintenance

- Projected L90>100,000 hours per IES TM-21
- Projected Lxx per IES TM-21 at 25°C for reference:

Optical Code	Lxx (10k) @ Hours*		
	25,000 hr	50,000 hr	100,000 hr
All (up to 398 Watts)	L98	L95	L91

Note:
- *Projected Lxx based on LM80 (10,000 hour testing). **Projected Lxx based on LM80 (6,000 hour testing).
- DOE Lighting Facts Verification Testing Tolerances apply to initial luminous flux and lumen maintenance measurements.

Lumen Ambient Temperature Factors:

Ambient Temperature: (°C)	Initial Flux Factor
10	1.02
20	1.01
25	1.00
30	0.99
40	0.98

DLC Standard qualified models available. Please refer to http://www.designlights.org/QPL for complete information.

Ratings

- UL listed, suitable for wet locations.
- cUL listed with option code "J" SKUs.
- IP65 rated optical enclosure per ANSI C136.25-2009.
- Temperature rated at –40° to 50°C (–40° to 35°C for fixtures over 390 watts).
- Upward Light Output Ratio (ULOR) = 0.
- Title 24 compliant with "H" motion sensor option.
- Compliant with the material restriction requirements of RoHS.

Mounting

Option A
- 10-inch (254mm) mounting arm for square pole prewired with 24-inch (610mm) leads.

Option B
- 10-inch (254mm) mounting arm for round pole prewired with 24-inch (610mm) leads.

Option C
- Slipfitter mounting for 2 3/8-inch (60mm) O.D. pipe prewired with 24-inch (610mm) leads.

Option D
- 10-inch (254mm) mounting arm for round or square pole prewired with 24-inch (610mm) leads.

Option S
- Knuckle Slipfitter mounting for 2.3-3" O.D. pipe, pre-wired with 24-inch (610mm) leads.

Finish

- Corrosion resistant polyester powder painted, minimum 2.0 mil. thickness.
- Standard colors: Black & Dark Bronze.
- RAL & custom colors available.

Electrical

- 120-277 volt and 347-480 volt available.
- System power factor is >90% and THD <20%.*
- Class "A" sound rating.
- Photo electric sensors (PE) available for all voltages.
- ANSI C136.41 dimmable PE receptacle is available making the unit "adaptive controls ready."
- Surge Protection Options:
  For 120-277VAC and 347-480VAC per IEEE/ANSI C136.2-2015.
  - 6kV/3kA "Basic" surge protection, standard.
  - 10kV/5kA "Enhanced" surge protection available with R option.

** System power factor and THD is tested and specified at 120V input and maximum load conditions.*

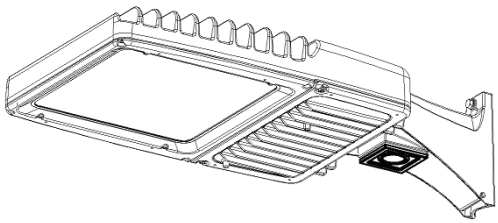
H-Motion Sensing Option:



- Intended for high mounting applications, between 15-30ft (4.57-9.14m). For mounting heights exceeding 30ft, pole mounted sensors are recommended.
- Provides a coverage area radius for walking motion of 15-20ft (4.57-6.10m).
- Provides 270° of coverage (~90° is blocked by the pole).
- Comes standard with 50% dimmed light output with no occupancy, and full power at occupancy.
- Comes standard with photocell function. Note: It is not necessary to also purchase PE receptacle or control.
- Comes standard with a 5 minute occupancy time delay and a 5 minute ramp-down to the 50% dimmed level.
- Must order with decorative mounting arm options "A" or "B".
- Fixture power increase of 1W expected with sensor use.

Note: Standard options may be reprogrammed in the field. Reprogramming instructions included in product shipment.

OLP3090 (Rev 01/24/17) Based on 03/24/16 Revision

RTSP Round Tapered Steel Poles

Pole Shaft
The pole shaft is one or two section design, each section being fabricated from standard 11 gauge (0.1196"), 7 gauge (0.1793"), or 3 gauge (0.2391") steel. The pole shaft material is a weldable grade hot rolled commercial quality carbon steel with a guaranteed minimum yield strength of 55,000 psi after fabrication. Each section is one-piece construction with a full length longitudinal weld and is cylindrical in cross-section having a uniform taper of 0.14 inches of diameter change per foot of length.

Base Plate
The anchor base is fabricated from structural quality hot rolled carbon steel plate that meets or exceeds a minimum yield strength of 36,000 psi. The anchor base telescopes the pole shaft and is circumferentially welded top and bottom. All welds are performed in accordance with the American Welding Society specification AWS D1.1, latest edition.

Anchor Bolts
Anchor bolts are fabricated from commercial quality hot rolled carbon steel bar that meets or exceeds a minimum yield strength of 55,000 psi. Four properly sized anchor bolts, each with two regular hex nuts and washers, are furnished and shipped with all poles unless otherwise specified. Anchor bolts shall have the threaded end galvanized a minimum of 8 inches in accordance with ASTM A-153. Fully galvanized anchor bolts are available upon request.

Handhole
An oval reinforced gasketed handhole, having a nominal 3" x 5" or 4" x 6-1/2" inside opening, located 1'-6" above base, is standard on all poles. Optional 5" x 8" and 4" x 10" handholes are available (see options). A grounding provision is located inside the handhole ring.

Finishes
The **Standard Finish** is a polyester thermosetting powder coating applied to the surface of the substrate to a minimum of 3 mils for all color finishes. **Hot dip Galvanized** finish to a ASTM A-123 specification or primed finish is also available. For optional finishes, see **K-KLAD** and **K-KLAD Over Galvanizing**.

HOW TO ORDER
When ordering KW lighting standards, mounting adaptors and accessories, be sure to specify the complete catalog number. Our catalog numbers reflect the precise specifications of the item ordered to ensure our customers will receive the product which meets their exact requirements.
The following explanation of the catalog numbers will be helpful in placing orders:

Poles ordered with climbing steps will include provisions for safety cable mounting.
Poles ordered with safety cable will be provided with one safety device and belt per order unless otherwise requested.

Optional Handholes

58HH	5'' x 8'' Handhole*
410HH	4'' x 10'' Handhole*

Extra Handholes

XHH	Extra Handhole*

Embedment Pole Options

E	Embedded Pole
GS	Ground Sleeve
CTE	Coal Tar Epoxy

Additional Simplex

1S	1 @ 0º *
2S	2 @ 180º *
3S	3 @ 90º *
4S	4 @ 90º *

For Embedment Poles:

Recommended Mounting Height	Recommended Embedment Depth
Less than 20'	4'
20' - 33'	6'
34' - 39'	7'
40' - 60'	10'

Greater embedment depths are available upon request.
Embedment poles greater than 60' are not available.

* Please advise size, location, and orientation. (Handholes are restricted by size of pole shaft diameter)
** Located 24" above baseplate and same side as handhole. (No electrical included)

PACKAGING

Immediately after coating, the lighting standard including the baseplate shall be wrapped in heavy corrugation specially designed and sized to achieve maximum protection in transit.

KW Industries, Inc. coating process system and stringent quality control procedures provide our customer the finest quality lighting standards in the industry.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
December 26, 2017
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *December 12, 2017* Planning and Zoning Commission meeting.

2. **P2017-069** (Korey)
   Consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a amending plat for Phase 1 of the Somerset Park Subdivision, containing 152 single-family residential lots on a 56.247-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Blocks 1-12, of the Somerset Park Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

3. **P2017-071** (Korey)
   Consider a request by Jeremy Upton for the approval of a final plat for Lot 1, Block A, Epton Addition being a 4.95-acre tract of land identified as Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 2075 Airport Road, and take any action necessary.

4. **P2017-072** (Korey)
   Consider a request by James Zaferis on behalf of Pete Koulos of Astrocheif Texas LLC (*DBA Pegasus Food*) for the approval of a replat for Lot 6, Block C, Rockwall Technology Park being a 8.482-acre parcel of land identified as Lot 5, Block C, Rockwall Technology Park, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1635 Innovation Drive, and take any action necessary.

5. **P2017-073** (Korey)
   Consider a city initiated request for the approval of a final plat for Lots 1, 2 & 3, Block A, Fannin Addition being a 4.01-acre tract of land identified as a portion of Lot AA, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, generally located on the west side of Fannin Street south of the intersection of Fanning Street and Heath Street, and take any action necessary.

APPOINTMENTS

6. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

7. **Z2017-059** (Ryan) **[*Request to Postpone to January 30, 2018*]**
   Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

ACTION ITEMS

8. **SP2017-038** (David) **[*Postponed to January 9, 2018*]**
   Discuss and consider a request by Arnaldo Cotto of J. Houser Construction on behalf of Jerry Kissick of Jerry Kissick Custom Homes for the approval of a site plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [*FM-3097*], and take any action necessary.

9. **SP2017-040** (David)
   Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

10. **MIS2017-017** (David)
    Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a single-family home on a 0.0172-acre tract of land identified as a portion of Lot 53 of the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

11. **MIS2017-018** (Korey)
    Discuss and consider a request by Peter Muhl of Rockwall Habitat for Humanity for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street, and take any action necessary.

DISCUSSION ITEMS

12. **Z2017-065** (Korey)
    Hold a public hearing to discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a Specific Use Permit (SUP) for a restaurant with a drive-through or drive-in on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary.

13. **Z2017-066** (Korey)
    Hold a public hearing to discuss and consider a request by Trent Hyde for the approval of a Specific Use Permit (SUP) to allow for a detached garage that does not meet the minimum requirements as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code for a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 218 W. Quail Run Road, and take any action necessary.

14. **Z2017-067** (Korey)
    Hold a public hearing to discuss and consider a request by Katherine Crane for the approval of a zoning change from a Single Family 10 (SF-10) District to a Residential-Office (RO) District for a 0.210-acre parcel of land identified as Lot 17, Block 14, Highwood Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 302 W. Kaufman Street, and take any action necessary.

15. **P2017-046** (Korey)
    Hold a public hearing to discuss and consider a request Theresa Briones for the approval of a replat for Lots 1 & 2, Block A, Briones Addition being a 0.25-acre parcel of land identified as portion of Block 7 of the Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 905 N. Alamo Street, and take any action necessary.

16. P2017-066 (David)
Discuss and consider a request by Matt Atkins of Engineering Concepts on behalf of Scott Lewis of RRDC, LTD. for the approval of a preliminary plat for the Whisper Rock Subdivision containing 28 single-family lots on a 9.477-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 3231 Ridge Road, and take any action necessary.

17. P2017-067 (Korey)
Hold a public hearing to discuss and consider a request by Blake Sudduth of R-Delta Engineers, Inc. on behalf of Peter Muhl of Rockwall Habitat for Humanity for the approval of a replat for Lots 1 & 2, Block A, Lamar Street Habitat No. 1 Addition being a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street, and take any action necessary.

18. P2017-068 (David)
Discuss and consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of a preliminary plat for Lot 1, Block A, Ladera Rockwall being a 28.011-acre tract of land identified as Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District , located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

19. P2017-070 (David)
Discuss and consider a request by Cameron Slown of F. C. Cuny Corporation on behalf of Robert S. Whittle for the approval of a final plat for the Highlands Subdivision containing 46 single-family residential lots on a 11.655-acre tract of land identified as Tract 2 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 5 (PD-5) for Zero Lot Line (ZL-5) District land uses, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located at the northwest corner of the intersection of SH-66 and FM-1141, and take any action necessary.

20. SP2017-041 (David)
Discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a site plan for an addition to an existing facility on an 18.875-acre tract of land identified as Lots 1, 2 & 3, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary.

21. SP2017-042 (David)
Discuss and consider a request by Bob Leimberg of Clayco Construction on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [*FM-3549*] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

22. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2017-059: Preliminary Plat for the Standard Subdivision [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of December, 2017 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
December 26, 2017
5:00 PM

ACTION ITEMS

1. **SP2017-038** (David) **[*Postponed to January 9, 2018*]**
   Discuss and consider a request by Arnaldo Cotto of J. Houser Construction on behalf of Jerry Kissick of Jerry Kissick Custom Homes for the approval of a site plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [*FM-3097*], and take any action necessary.

2. **SP2017-040** (David)
   Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

3. **SP2017-041** (David)
   Discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a site plan for an addition to an existing facility on an 18.875-acre tract of land identified as Lots 1, 2 & 3, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary.

4. **SP2017-042** (David)
   Discuss and consider a request by Bob Leimberg of Clayco Construction on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [*FM-3549*] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of December, 2017, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
December 12, 2017
6:00 P.M.

I. CALL TO ORDER

Chairman Lyons called the meeting to order at 6:04 p.m. The Commissioners present at the meeting were, Patrick Trowbridge, Eric Chodun, Mark Moeller, Tracey Logan and Jerry Welch. Absent from the meeting was Commissioner Annie Fishman. Staff members present were Planning Director, Ryan Miller, Senior Planner David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, Civil Engineers Jeremy White Sarah Hager.

II. CONSENT AGENDA

1. P2017-059

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 47 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S*. SH-205*] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

Commissioner Trowbridge made a motion to approve the consent agenda. Commissioner Logan seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

III. APPOINTMENTS

2. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

IV. PUBLIC HEARING ITEMS

3. Z2017-052 **[*Request to Postpone to January 9, 2017*]**

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [*SH-205*] and Mims Road, and take any action necessary.

Chairman Lyons advised the Commission that the applicant is requesting to postpone the agenda item to the January 9, 2017 meeting, and indicated that a motion would need to be made to approve or deny the postponement.

Commissioner Trowbridge made a motion to approve the postponement. Commissioner Chodun seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

Chairman Lyons advised the Commission that agenda items #13 and #8 would be moved up.

4. Z2017-054

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Article IX, *Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of making general corrections and clarifications to the code, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that at the December 4, 2017 City Council meeting, the City Council remanded the Tree Preservation ordinance back to the Planning and Zoning Commission for the purpose of allowing staff to make three changes. The changes are pretty minor but are as follows: 1) Section 5.6.(C) staff removed the following statement: "… that is above and beyond the required landscaping …". This means that if the developer/property owner plants a tree on site -- required or not -- they will be eligible for the Tree Preservation Credit. 2 Section 1.3.4 was changed from: If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City may remove the tree or trees without being required to follow the terms and provisions of this ordinance. To: If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a diseased, dead, hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City or property owner may remove the tree or trees without being required to follow the terms and provisions of this ordinance. This change will address the ability of a property owner to remove a tree that: (1) is diseased or dead, or (2) poses an imminent or immediate threat to persons or property. And lastly, 3) Section 10 was changed to remove "… shall be guilty of a misdemeanor and upon conviction here of …" This section now reads: Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

Mr. Miller stated the agenda item was a public hearing item and a copy of the draft ordinance was provided for the Commission and staff was available for questions.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so, there being no one indicating such, Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Trowbridge made a motion to approve Z2017-054. Commissioner Welch seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

5. Z2017-056

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 6.2, *Public Hearing Postponement, Recess and Continuations*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of amending the time period for postponing or continuing a public hearing, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that the text amendment would essentially decrease the amount of time an applicant has to postpone a case going for public hearing from sixty days to thirty days, this effectively decreases the number of times they are able to postpone a zoning case from four to two.

Mr. Miller stated the item was a public hearing and staff was available for questions.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so, there being no one indicating such; Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Commissioner Moeller made a motion to approve Z2017-056 with staff recommendations. Commissioner Welch seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

6. Z2017-057

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1.11, *Utilities, Communications and Transportation*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of changing the antenna standards to allow replacement telecommunications towers in excess of 125-feet by Specific Use Permit (SUP), and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating the amendment would change the Article IV Permissible Uses Section specifically to the Utilities, Communications and Transportation section to allow a provision in the Code that would allow a legally recognized, non-conforming telecommunications tower to be replaced with a tower of comparable height by Specific Use Permit. Currently the height is capped out at 125 feet however sometimes the City annexes, and in the case that was presented to Council, the City annexed a 320 foot tower and they want the ability to demolish that tower to put up a safer tower.

Mr. Miller stated the item was a public hearing and staff would be available for questions.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so.

David Naylor
(No address given)

Mr. Naylor came forward and stated he is President and CEO of Rayburn Electric, and they are the ones who asked for the request and would be available to answer any question the Commission may have.

Chairman Lyons asked if there was anyone else wishing to speak to come forward and do so, there being no one indicating such Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Commissioner Trowbridge made a motion to approve Z2017-057 with staff recommendations. Commissioner Chodun seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

7. Z2017-058

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of creating a land use and use standards for the *Food Truck/Trailer* land use, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that at the November 20, 2017 City Council meeting, the City Council directed staff to prepare a text amendment adding Food Trucks/Trailers to the list of Permissible Uses contained in the UDC. Currently, the City allows these types of uses under the Beverage and/or Food Service Facility, Portable by Specific Use Permit in all non-residential zoning districts with the exception of the Neighborhood Services and Research and Technology Districts. The purpose of the change would be to allow Food Trucks/Trailers to operate by-right in certain zoning districts under a set of operational conditions. The amendment specifically allows the use in all non-residential zoning districts by-right with the exception of the Residential Office and Neighborhood Services District which are typically closer to residential properties under certain operational constraints. In addition Mr. Miller noted that as part of this text amendment, staff has changed the Beverage and/or Food Service Facility, Portable land use to a Beverage Service Facility, Portable, to account for the overlap of the two uses.

Mr. Miller further noted that the conditions would include that the Food Truck/Trailer be located on an improved surface such as concrete or asphalt on private property where an existing business is currently operating with a valid CO and only operate between the hours of 7:00 AM and 10:00 PM, and will be required to be removed from the property during non-operation hours. The Food Truck/Trailer has to be equipped with trash receptacles approved by the City Health Inspector and comply with all other applicable City codes. The outside storage of trash will be prohibited. They will also have to provide permanent restrooms whether it be public or private

for employees available within 300-feet of the facility and portable restrooms facilities are not permitted to meet this requirement. Additionally they will be required to have access to a minimum of two dedicated parking spaces and not reduce the required parking for the existing building/land use and all noise and lighting will be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a Food Truck/Trailer may be directed towards an adjacent property or onto a public right-of-way. And lastly all signage must be attached to the Food Truck/Trailer with the exception of one free standing menu board no greater than eight square feet placed adjacent to the Food Truck/Trailer. Mr. Miller also provided a map that depicted a 300-foot buffer of all existing restaurants on the map to give the Planning and Zoning Commission an idea about what the inclusion of a proximity requirement would do to the permissible areas. If the Commission choose to incorporate this requirement into the attached ordinance it will need to be added to any motion for approval.

Mr. Miller stated it was a public hearing and staff was available for questions.

Commissioner Welch asked staff to give more detail concerning the restroom requirement. Mr. Miller explained that the way that staff has structured the permitting process for these types of facilities is that currently they have a program for mobile food vendors but they're not allowed to park or set up on any private property they have to remain moving. However there is currently a mobile vendor permitting where the City Health inspector where they get a tag and once they're certified as a mobile food vendor then they would be able to register property with the property owners consent. The reason for the permanent restroom facilities is because the City will only track it at the point where it is issued to a property, therefore if portable restrooms were to be allowed those facilities could be moved and then would not have access to restrooms. Basically what is being required is for them to be either 200 feet from a public restroom or a restroom on the property in which they are operating from.

Commissioner Welch asked if this would impact the Special Event permit which allows business to have four special events a year. Mr. Miller stated it would not, the Special Event Permit would still allow for each individual business to pull a special event permit which would allow them to host an event fourteen days four times a year.

Commissioner Chodun asked if the 300 foot buffer is incorporated could the Commission also say that an exception could be made to the buffer incorporation by an SUP. Mr. Miller stated that could be incorporated into the Ordinance.

Chairman Lyons added that a 300 foot buffer really limits where they can set up, and a big concern was how this would interfere with the Downtown District, therefore another option could be to do away with the 300 foot buffer and go to not allowing them in the Downtown District.

Chairman Lyons opened up the public hearing and asked if there was anyone wishing to speak to come forward and do so, there being no one indicating such; Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Commissioner Trowbridge made a motion to approve Z2017-058 with the condition to prohibit it within the Downtown Square but waived by approval of a Specific Use Permit. Commissioner Chodun seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

Chairman Lyons called a recess at 7:27 p.m.

Chairman Lyons called the meeting back to order at 7:40 p.m.

8. Z2017-059

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land

uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that Planning Director, Ryan Miller, gave a brief explanation of the request stating that the subject property was annexed into the City zoned Agricultural District on October 29, 1973. On November 12, 1973, the subject property was rezoned to Planned Development District 8 and designated for a Multi-Family Structure or Condominium by Ordinance No. 73-48. This designation was amended on October 19, 1992 by Ordinance No. 92-39, which re-designated the subject property to allow 34 zero-lot-line, single-family homes. The subject property is an un-platted 6.88-acre tract of land located on Henry M. Chandler Drive, adjacent to the Chandler's Landing Marina and the Spyglass Condominiums, in the Chandler's Landing community. On October 13, 2017, the applicant requested to reinstate the preliminary plat that was approved in 1992 in accordance with Ordinance No. 92-39. This preliminary plat depicted the proposed layout for the 44 zero-lot-line, single-family homes. The Planning and Zoning Commission approved the reinstatement request October 24, 2017; however, the applicant ultimately choose to submit an application on November 17, 2017 requesting to amend Ordinance No. 92-39 to allow for a 48-unit townhome development. According to the concept plan provided by the applicant the proposed townhome development will consist of 48-single family attached lots that will be broken up into blocks of three to five homes. The development will incorporate approximately 42% open space, the majority of which will be used to create a buffer between the proposed development and Spyglass, Phase 3 which is located directly east of the subject property. The concept plan also shows that about half of the proposed lots will have front entry garages and the remainder of the lots will incorporate rear entry garages that would be accessible from an alleyway. The applicant has also requested that the streets be private and maintained by the Homeowner's Association. The applicant has not provided examples of the proposed building elevations; however, staff has incorporated anti-monotony standards that require a minimum of two intervening homes of differing appearance be used before the same material blend/building elevation is utilized. In addition, when Ordinance No. 92-39 was approved, the City Council established maximum finished floor elevations for each building pad on the proposed concept plan. The purpose of these maximums was to ensure that the views of the properties located directly east, Spyglass, Phase 3, of the subject property would not be affected by the proposed development. In conformance with these requirements the applicant has stated that the highest roof elevation of any townhome will be at an elevation of 500-feet above sea level. This is eight feet below the highest elevation permitted under Ordinance No. 92-39 and that was included this in the conditions of approval for the case.

Mr. Miller went on to explain that the Future Land Use Map contained in the Comprehensive Plan, designates the subject property for High Density Residential land uses, which is defined as any development that exceeds three units per gross acre. In this case, the applicant is proposing a density of 6.98 dwelling units per gross acre, which is conformance with the High Density Residential land use designation. The proposed density would be a 0.58 unit increase to the current density of 6.39 dwelling units per gross acre. The Comprehensive Plan states that high density residential land uses should be used as a transitional use from commercial (or [an] existing retail use, or where it will serve as a logical extension of an existing high density development." The proposed development is adjacent to the Spyglass Condominiums (adjacent to the eastern property line), which carry the following densities by phase: (1) Phase 1: 18.99 dwelling units per gross acre, (2) Phase 2: 14.23 dwelling units per gross acre, and (3) Phase 3: 15.38 dwelling units per gross acre. These densities may warrant a consideration of the proposed development; however, any increase in density is a discretionary decision for the City Council and should the City Council approve the applicant's request no change would be required to the Future Land Use Map.

Mr. Miller further noted that on November 30, 2017, staff mailed 269 notices to property owners and residents within 500-feet of the subject property and also sent a notice to the Chandler's Landing, The Cabana's at Chandler's Landing, Matchpoint Townhomes, Cutter Hill (Phases 1-3), and the Spyglass Homeowner's Associations, which are the only HOA/Neighborhood Organizations located within 1,500 feet of the subject property. Of the notices sent out staff received five notices in opposition to the request.

Mr. Miller advised the Commission the applicant is present and available for questions as well as staff.

Chairman Lyons opened up the public hearing and asked the applicant to come forward and speak.

Ross Ramsey
2235 Ridge Road
Rockwall, TX

Mr. Ramsey came forward and stated that they are the planners for the project has been on the table other times but they feel that the way they are proposing it is the proper way to do it, they are certain there is a market for this type of product. Mr. Rash provided a concept plan showing the overall layout of the townhomes where they will be built at what heights which would not impede view to any of the existing condominiums. They will be plotted lots for sale, and they will have two car garages, fenced in rear yard and the Home Owner's Association would maintain all the yards. Mr. Ramsey went on to talk about the green space that would be provided as well as the general overall view it would have from a depiction he provided that also showed conceptually the view coming down the hill in respect of how the houses would be built and how they would affect the existing condos. He advised the Commission Mr. Cavendish who would be the builder was available as well and would like to speak.

Ed Cavendish
Cavendish Homes
1017 Navy Trail
Heath, TX

Mr. Cavendish came forward and spoke of the concept plan they are proposing. He showed concept site plan which was approved in 1992 and they feel that that concept would not be fitting anymore as it is too busy too close, he provided a concept plan of the current concept plan which depicted the green space they are proposing and he spoke as Mr. Ramsey did of the view coming down the hill in respect to the heights of the homes they're proposing to build. It will be 42% green space and they will be building a playground which more or less has them using approximately half the land as opposed to the original approved plan. Mr. Cavendish went on to say that he has built houses in Rockwall Communities for many years and he plans on building this development as a very special and unique addition to the City.

Chairman Lyons asked for question from the Commission.

Commissioner Logan asked if they would be building multi story coming down the hill. Mr. Cavendish stated they would be townhomes no higher than two stories max.

Chairman Lyons asked anyone who wished to speak to come forward and do so.

Kevin Ballard
1907 Lakeview
Rockwall, TX

Mr. Ballard came forward and stated he owns two condos within the subject property, one that is on a ground floor which houses his elderly father. He believes the map that the applicant showed of the elevations is somewhat misleading he feels it is probably an accurate slope determination on about half of the area however the two condos he owns are on flat land and therefore if even a one story is built they would be looking out there patio into somebody's garage. He feels the elevation depiction that the applicant is proposing is not accurate, and it will impact the great lake view from his condo entirely which would in turn affect his home value. He is in opposition of the request.

Phil Bishop
333 Columbia Drive
Rockwall, TX

Mr. Bishop came forward and stated he is the property manager of Spyglass Hill Phase 3 and stated several of the home owners were present and asked he speak on behalf of them. The biggest concern they all have is that the view of the lake will be affected. They feel their view shouldn't be sacrificed just to allow someone else to make money. Although it appears to be a good plan, as Mr. Ramsey does good work, however in mentioning the previous plan that was

approved in 1992 at least left view corridors between a good number of the homes. They feel in looking at the presented documentation and presentation that the applicants have provided, where 500 feet above sea level is in relationship to the existing condominiums, and with such short notice they feel they don't have enough time to really determine how it will impact the views from their condominiums. They are in opposition of the request.

Scott Mason
275 Henry Chandler Drive
Rockwall, TX

Mr. Mason came forward and generally expressed not being in favor of the request due how his view will be obscured. He realizes there will be something developed there, they would however like to see concrete plans of what they're proposing, to be sure of the heights before any approval is done, and until then he is opposed to the request. Mr. Mason asked how the height was measured.

Mr. Miller explained that the maximum height listed by the applicant is 30 feet and the way that is written in the ordinance states that the maximum height shall be measured to the midpoint of the roof of a single family home which is standard how heights are measured in all zoning districts.

Chuck Nixon
174 Henry M. Chandler
Rockwall, TX

Mr. Nixon came forward and stated he is the developer of Chandlers Landing back in the early 80's and at the time they developed they retained an architect Jerry Stewart and a lot of effort was put into making sure that every condominium had a view, whether it be direct views or corridor views. They did three phases but were unfortunately unable to complete the last phase. He would like to ask on behalf of the owners if they could have the time to have the original architect, Mr. Stewart, to review the proposed plan and advise the owners as to what extent it would still allow for a view.

Chairman Lyons asked the applicant to come forward for any rebuttal.

Mr. Ramsey came forward and stated they understand the concerns the residents have concerning the view, and they are aware of those; however they have carefully reviewed the contours of the land and he provided the depiction which shows how the heights will be and how they believe will not pose an issue once built. The depiction he showed that showed the 500 feet above sea level and he spoke of how that showed it to be a maximum. They are not restricting any view corridors of the existing condominiums; they made sure of that from the very beginning of the project. He stated he and Mr. Cavendish would gladly meet with any of the homeowners that are concerned, and they will explain in further detail; however he feels he can assure them they will not inhibit any view.

Chairman Lyons asked if the Engineering staff had reviewed the depiction of the topography and elevation that the applicant provided. Mr. Miller explained that the drawing the applicant has been referring to in his presentation was not provided to staff, however it is currently in a zoning phase and therefore do not require a grading plan until site plan and engineering. Currently it is a conceptual plan, if the zoning is approved, then they would move into preliminary plat which would start that process followed by master plat site plan, engineering and then final plat. However Mr. Miller clarified that view corridors are not looked, only grading plans how the earth will be graded. Chairman Lyons asked how the heights would be looked at. Mr. Miller stated heights would be looked at on a permit to permit basis and the Building Inspections Department would be looking at those permits.

Commissioner Welch asked for clarification of what is being approved, was it the change of use from single family zero lot line to townhome. Mr. Miller explained that all that was being looked at is the Planned Development Ordinance which provides the regulating language, it would change the use if approved from Single Family zero lot lines, to the townhome use.

Chairman Lyons closed the public hearing and brought the item back to the Commission for action or discussion.

Commissioner Chodun expressed generally being in favor with the request; he feels it is compelling the amount of homeowners who showed up to speak. However something does and will be developed on the property, and if the general concerns from the citizens were that the change from single family to townhomes, it might be more compelling. Commissioner Chodun went on to express his general favor of the request due to the rational that the property owners who feel their view will be obscured had to have realized at some point or other the inevitable of something being developed would eventually happen.

Chairman Lyons generally also expressed being in favor of the request, although he understands the concerns of the citizens, what was being expressed was not what was before them to approve which is to change from single family to townhomes he feels that the developer appears to be willing to work with the concerns of those property owners and believes townhomes would be a good fit to that area.

Chairman Lyons generally expressed the same views of Commissioner Chodun and generally expressed being in favor of the request. Although she understands the concerns of the homeowners who feel they may be affected, the realization is that something inevitably will be developed there and what the applicant is proposing doesn't appear that it will affect them.

Commissioner Moeller expressed concern over the elevations that the citizens expressed concern over, however he appreciates the depiction the applicant has shown; he's still concerned with the elevation change and how that will fit.

Commissioner Trowbridge made a motion to approve Z2017-059 with staff recommendations. Commissioner Chodun seconded the motion which passed by a vote of 5-1, with Commissioner Moeller dissenting and Commissioner Fishman absent.

9. Z2017-060

Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant is requesting to rezone the property from an Agricultural District to a Heavy Commercial District for the purpose of expanding an existing electric utilities facility, Rayburn Country Electric Cooperative. On December 4, 2017, the City Council approved a replat to replat four parcels of land into three parcels of land to establish Lot 4 and to combine Lots 5-7. According to Subsection 4.7, Heavy Commercial District, of Section 4, Commercial Districts, of Article V, District Development Standards, a utilities facility is permitted with a Specific Use Permit in a Heavy Commercial District. Should the zoning change be approved, the applicant would be required to apply for a Specific Use Permit to allow for the expansion of the existing electric utilities facility and should the Specific Use Permit be approved, the applicant would be required to submit a site plan for the facility expansion. The Future Land Use Map designates the subject property for Heavy Commercial land uses, which is defined as commercial uses that involve large volumes of truck traffic, outside operation and storage of vehicles, or excessive noise and the applicant's request is in conformance with the Future Land Use Map and the Comprehensive Plan.

Mr. Brooks went on to state that on December 1, 2017, staff sent 13 notices to property owners and residents within 500-feet of the subject property and staff also notified the Flagstone Estates, Meadow Creek Estates, Hickory Ridge, and Lynden Park Homeowner's Associations which are the only HOA's/Neighborhood Associations within 1,500 feet. Staff received one notice in favor of the request.

Chairman Lyons opened up the public hearing and asked the applicant to come forward and speak.

Bill Thomas
201 Winco Circle
Wylie, TX

Mr. Thomas came forward and stated he was requesting the zoning change and should it be approved will come in next to site plan with the plan to expand the facility.

Chairman Lyons asked if anyone wished to speak to come forward and do so, there being no one indicating such; Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Chairman Chodun made a motion to approve Z2017-060 with staff recommendations. Commissioner Welch seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

10. Z2017-061

Hold a public hearing to discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of an amendment to Specific Use Permit (SUP) No. 174 (*S-174*) [*Ordinance No. 17-45*] being a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant is requesting the approval of an amendment to Specific Use Permit. On September 5, 2017, the City Council approved a Specific Use Permit to allow a music studio on the subject property. At that time, the Specific Use Permit included an operational condition that a six foot masonry screening wall along with a row of canopy trees a minimum of four caliper-inches in size and spaced 20-feet on center to be provided adjacent to the residential properties adjacent to the northeast and southeast property lines. This requirement was added in accordance to Subsection 5.6, Screening from Residential Uses, of Section 5, Mandatory Provisions, of Article VIII, Landscape Standards, of the Unified Development Code that states that any commercial use that has a side or rear contiguous to a residential district shall be screened with a six foot masonry fence. The UDC further states that as an alternative, berms in conjunction with a minimum six foot wrought iron fence and a combination of trees and shrubs can be utilized to meet the screening requirements should the Planning and Zoning Commission determine that the proposed alternative will provide sufficient screening. In this case, there is an existing wrought iron fence, six foot tall trees, and an existing wooden fence along the property lines adjacent to residential properties. The applicant is requesting to remove the requirement of a six foot masonry wall adjacent to the residential properties. The applicant feels there will be sufficient screening from the adjacent residential properties utilizing the existing wrought iron fence, wood fence, existing trees, along with the proposed row of canopy trees required to be planted with the existing SUP. Staff should note that although similar screening requests have previously been approved, since this is in a Specific Use Permit request, it is a discretionary decision for both the Planning and Zoning Commission and the City Council.

Mr. Brooks went on to state that on December 1, 2017, staff sent 92 notices to property owners and residents within 500-feet of the subject property and notified the Lynden Park and Flagstone Estates HOA's which are the only Neighborhood Associations/HOA's located within 1,500-feet of the subject property. Staff received one notice in favor of the request and two notices in opposition of the request and one email with three residents being in favor of the request.

Chairman Lyons asked the applicant to come forward and do so.

Russ Porter
3318 Ridge Road
Rockwall, TX

Mr. Porter came forward and stated that they have made contact with the three residents that expressed their opposition and they have had good conversations with them and they have expressed wanting to leave the existing greenery because by putting a wall would make it hard to maintain that greenery.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so there being no one indicating such; Chairman Lyons closed the public hearing for discussion or a motion.

Commissioner Logan made a motion to approve Z2017-061. Commissioner Moeller seconded the motion. Commissioner Chodun asked Commissioner Logan to amend the motion with the condition for the live screening to be maintained. Commissioner Logan accepted the amendment. The motion passed by a vote of 6-0, with Commissioner Fishman absent.

11. Z2017-062

Hold a public hearing to discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located southwest of the intersection of Summer Lee Drive and Horizon Road [FM-3097], and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that the applicant is requesting a Specific Use Permit for the purpose of establishing a Hotel on the 2.166-acre subject property. The property is located approximately 315-feet southwest of the intersection of Summer Lee Drive and Horizon Road, and is zoned Planned Development District 32 (PD-32). According to Ordinance No. 17-22 the subject property is partially located within the Horizon/Summer Lee and the Residential Subdistricts of Planned Development District 32 and according to the Subdistrict Land Use Chart that is contained in this ordinance a Hotel requires a Specific Use Permit in all of the Subdistricts in PD-32. The applicant has stated that the proposed Hotel will consist of four floors with 98 rooms, and be under a Hilton brand TRU. The applicant also stated that the hotel will be targeted at the mid-scale market and be comparable to the Hampton Inn. In addition, the Specific Use Permit ordinance includes a stipulation that the hotel cannot be utilized as an Extended Stay, Transient or Residence Hotel. The subject property is located within the Scenic Overlay District, and according to this overlay district any structure that exceeds 36-feet in height requires a Specific Use Permit. The applicant has stated that there is a potential that the hotel area could change if a proposed land swap with the adjacent property owner to the south is approved; however, this will not significantly change the proposed Specific Use Permit location depicted in the provided concept plan. In addition, if this case is approved the applicant will need to submit a PD Development Plan, and any changes to the Specific Use Permit ordinance can be handled through this process and the approval of the applicant's request is a discretionary decision for the Planning and Zoning Commission and City Council.

Mr. Miller further noted that on November 30, 2017, staff mailed 39 notices to property owners and residents within 500-feet of the subject property. Additionally, staff sent a notice to the Lago Vista Homeowner's Association), which is the only HOA/Neighborhood Organization participating in the Neighborhood Notification Program within 1,500-feet of the subject property. Staff received one notice in favor from the property owner.

Mr. Miller advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward.

Chris Cuny
2 Horizon Court
Heath, TX

Mr. Cuny came forward and gave a brief power point presentation of the request which showed the renderings. He stated they are very excited to bring this product into the City of Rockwall. He respectfully asked the Commission for their approval and stated he was open to any questions the Commission may have.

Commissioner Trowbridge asked how many hotels currently are entitled within the City. Mr. Miller explained that currently entitled there are 560 units and existing there are 550 units for a total of 1,110.

General discussion took place between the Commission and the applicant concerning the adjacent land and the planned development that will be coming into that property and where that would line up to not cause an issue with overcrowding or affecting the views as well as how the parking would be integrated within those properties.

Chairman Lyons opened up the public hearing and asked if anyone wished to speak to come forward and do so; there being no one indicating such Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Commissioner Welch made a motion to approve with staff recommendations. Commissioner Moeller seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

12. Z2017-063

Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an amendment to Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the request stating that the applicant is requesting an amendment to PD-82 to allow for an additional 148 single-family residential lots to the existing 204 single-family homes permitted by PD-82. This amendment would allow for a total of 352 single-family lots. The lot mix will be comprised of a minimum lot size of 8,125 square feet, 65' x 125' lots, mid-sized lots of 10,000 square feet, 80' x 120', and ten larger lots containing a minimum of 25,000 square feet. The additional Concept Plan submitted by the applicant indicates the larger 25,000 square feet lots to be 80' x 120' will be located along the northern boundary of the subject property, adjacent to the Sterling Farms Addition. The 8,125 SF lots will be located in the center of the addition, and along the eastern boundary of the subject property creating a transition of the lots, while lining up with those in Phase I. Furthermore, the applicant intends to purchase the property from IHeartMedia for the purpose of dedicating the 39-acre property as open space and providing a meandering trail wrapping around the property. Additionally, the applicant intends to dedicate right-of way connecting the minor collector street (Street H) to Guadalupe Drive in the Fontanna Ranch Subdivision, which is located at the southern piece of the property. This will create access for the neighborhoods to the elementary school, all parks, and conforms to the City's Master Thoroughfare Plan. The proposed development of the subject property will provide an additional 2.24 acre private park with amenities such as a playground, Dog Park, benches, and an eight foot meandering trail that also provides access to the nine acre public park amenity provided by the developer that was approved with PD-82. The Concept Plan indicates the addition of 50.46-acres of open space or 51% and will combine the 18.97-acres of open space or 23.3% from the existing PD-82 for a total of 69.43-acres of open space for the development, which exceeds the 20% requirement. With the inclusion of the subject property, the location of the park and open space along the western boundary of the development will provide an additional buffer from the IHeartMedia Tower Company's antenna park. The applicant has also indicated that a minimum of a ten (10) foot landscape buffer along the proposed minor collector street (Street H) will include large canopy trees planted along the perimeter of the roadway and park trails at a minimum of 50-ft intervals. The applicant will also be required to provide a minimum of a five) foot sidewalk that will be constructed within the rights-of-way of the development and staff included these as development requirements within the Planned Development District Ordinance.

Mr. Gonzales went on to state that the Future Land Use Map designates the subject property for Low Density Residential land uses and according to the Comprehensive Plan, the Low Density Residential designation is generally defined as single family development consisting of less than two units per acre; however, a density up to 2.5 units per gross acre may be allowed within a Planned Development district that includes the dedication and/or development of additional amenities that exceed the minimum standards for residential Planned Developments. These amenities may include but not limited to parks and open space, neighborhood amenity centers, development of trails and parks in flood plains, municipal parks and/or recreation facilities. In

this case, the applicant is proposing a density of 1.50 units per gross acre and is proposing an approximately 2.24-acre Private Park, incorporating concrete hike and bike trail system, and other features as depicted on the Concept Plan. This is exclusive of the 9.0 acre public park that was approved with the original PD-82 request and that has already been preliminary platted with the current PD-82. This means that the applicant is proposing to incorporate11.24 acres of total parkland. The proposed zoning does conform to the majority of the Comprehensive Plan's residential policies.

Mr. Gonzales further noted that on December 1, 2017, staff mailed 211 notices to property owners and residents within 500-feet of the subject property and also emailed notices to the Lofland Farms, Timber Creek, and Fontana Ranch Homeowner's Associations, which are the only HOA's located within 1,500 feet of the subject property participating in the notification program. Staff has received two notices opposed to the request.

Mr. Gonzales advised the Commission that the applicants were present and available for questions as well as staff.

Chairman Logan asked for further clarification of the open space in relation to the antenna park how much of that will be usable land. Mr. Gonzales explained that it will be used as open space and the antennas will be fenced off and dressed up for them not to be so visible.

Commissioner Chodun asked if the 39 acres of open space is being used in the equation of the density. Mr. Gonzales stated open space is included with the gross acres.

Chairman Lyons asked the applicant to come forward.

Jim Douglas
Douglas Properties
2309 Avenue K
Plano, TX

Mr. Douglas came forward and stated staff did a good job in explaining the request and provided a brief power presentation detailing the request. They will be providing additional amenities on top of the ones that were originally approved with the PD-82, and with respect to the tower site they were able to reach an agreement with the people purchasing the land that the towers are on. The towers will stay but they will be bringing in rod iron fencing and adding landscaping around the base of the towers to allow people to use the park. There will be trail systems around and in the northern portion which is Phase III they will add additional amenities that will include a pavilion and another playground and will be maintained by the HOA. Mr. Douglas went on to speak of the concern that was expressed at the work session concerning traffic, and street H as Mr. Gonzales explained, which runs left to right is on the Master Thoroughfare Plan and the subdivision is designed where that will be the major access point getting in and out this project and will not only give the residents in this neighborhood but some of the other residents easier access to the school as well as easier access in and out of their subdivisions. They will also be improving two lanes of Rochell Road. Mr. Douglas went on to state that they feel this triangular piece is on an island and they feel having low density is the best use of the land and they ask the Commission to consider approval and are available for any questions they have.

Chairman Lyons asked for questions from the Commission.

Commissioner Chodun asked if the open space becomes part of the PD can it be sold later. Mr. Gonzales explained that in order for that to occur they would have to amend the PD. Mr. Miller added that it could not, once it is dedicated as open space it would then be in the HOA's hands which would make it very difficult if not impossible.

Commissioner Welch asked if the area that is landscaped around the base of the towers would be irrigated. Mr. Douglas stated at the base of the towers they would run irrigation there and for the larger open spaces they would do like the golf course type heads that spray larger areas.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so.

Greg Coleman
3157 Diamond Way
Rockwall, TX

Mr. Coleman came forward and stated he is an adjacent property owner to the north and feels that from what he has seen the applicant has presented is better than what he anticipated it would be. However he does have several concerns and questions he would like answered. His questions were if there would be an easement along the north property line between his and the subject property and would there be any screening along the north corner which is where his property is located. Also, will the homes be multi-story homes and is there any plan to make additional lanes since the traffic in the area is already an issue and would that cause issues with emergency services having access.

Mr. Miller explained that concerning the screening since it is a residential adjacency there would not be any screening requirement. Concerning emergency access and transportation planning the City has a Master Thoroughfare Plan which is based on the Future Land Use Map which the use that is being proposed is confirming to that Future Land Use Map meaning that no change or no additional studies would need to be required. Basically it should not cause any issues with emergency services or traffic as this area was planned however street H will alleviate a lot of the traffic.

Mr. Coleman went on to ask concerning the drainage on the site where will it drain in case of a large rain event. Mr. Miller explained that they will be required full engineering and they will provide on-site detention areas that will collect their storm water and release it at the same rate.

Janice Novotny
3581 Rochelle Road
Rockwall, TX

Ms. Novotny came forward and stated she lives in the County but expressed her concern with the traffic issues adding another development will cause. She is very concerned in how the City is not maintaining the road and would like for it to be addressed.

Pamela Coleman
3157 Diamond Way
Rockwall, TX

Mrs. Coleman came forward and generally expressed being in opposition of the request and asked concerning the existing fence that adjoins the property to theirs and the trees along it would those be removed. She expressed her concern with the traffic this development will cause as well as her desire to see bigger lots.

Chairman Lyons asked the applicant to come forward for rebuttal.

Mr. Douglas came forward and stated they would be providing the homes they build with a wooden privacy fence and would not be taking down any trees by the fence Ms. Coleman was referring to. Concerning the question of the easement, there is an access easement and that is to allow the tower company to access the towers.

Chairman Lyons closed the public hearing and brought the item back to the Commission for action or discussion.

Chairman Lyons made a motion to approve Z2017-063 with staff recommendations. Commissioner Moeller seconded the motion, which passed by a vote of 5-1, with Commissioner Chodun dissenting and Chairman Fishman absent.

13. Z2017-064
Hold a public hearing to discuss and consider a request by Robert Rash for the approval of a Specific Use Permit (SUP) to allow a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant is requesting the approval of a Specific Use Permit to allow a detached garage that does not meet the minimum masonry requirements on the subject property. The accessory building is an existing 20-foot tall and 45' x 20' carport that is not enclosed. The existing accessory building is located across Soapberry Lane, adjacent to the side property line. The applicant is proposing to enclose the carport utilizing metal and add doors to the front of the structure to convert it into a detached garage. According to the applicant's letter, the applicant plans to utilize the proposed accessory building to store personal trailers, tractors, and other yard equipment.

Mr. Brooks went on to state that according the Unified Development Code in all residential districts, one detached garage, as an accessory use, shall be allowed provided that that does not exceed 900 SF or 15-feet in height, and contains the same exterior materials as found on the main structure. The UDC further states that accessory buildings/detached garages not meeting those standards shall require the approval of a Specific Use Permit. On November 9, 2017, the Board of Adjustments approved a request from the applicant to allow the change of an existing legal non-conforming use, carport to another legal non-conforming use, a garage. Mr. Brooks further noted that although the approval an SUP is a discretionary decision for the Planning and Zoning Commission and the City Council, the Board of Adjustments has approved a request to allow the change of an existing legal non-conforming use to another legal non-conforming use, which allowed the applicant to submit an application for the Specific Use Permit.

Mr. Brooks further stated that on December 1, 2017, staff mailed 65 notices to property owners and occupants within 500-feet of the subject property and also notified The Preserve Homeowner's Association, which is the only HOA and/or Neighborhood Organization within 1,500-feet of the subject property participating in the notification program. Staff received two notices in opposition of this request and four notices in favor of the request.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.
Chairman Lyons asked the applicant to come forward and speak.

Robert Rash
3Soapberry
Rockwall, TX

Mr. Rash came forward and stated he feels it is a unique subdivision as there are only four homes on it and all four are in favor of his request. There is no City of Rockwall street that is attached to the property and is completely surrounded by allies and the entrance to the property within the subdivision is a private road that is maintained by those four residences.

Chairman Lyons asked the Commission for any questions for staff or the applicant.

Commissioner Logan asked if any comments that were received in opposition included concerns with the view of the lake being obscured by the carport. Mr. Brooks stated that of the two notices received that was not a reason.

Chairman Lyons opened up the public hearing and asked anyone who wished to speak to come forward and do so, there being no one indicating such; Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion or a motion.

Commissioner Trowbridge made a motion to approve Z2017-064. Commissioner Chodun seconded the motion which passed by a vote of 5-1, with Commissioner Logan dissenting and Commissioner Fishman absent.

V. ACTION ITEMS

14. Z2017-055
Hold a public hearing and consider a request by Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of a PD Development Plan amending Ordinance 13-16 and in accordance with Ordinance No. 10-21, for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall,

Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 (IH-30) Overlay District, located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that the item is being remanded back to the Commission after City Council's second reading in which they wanted to add a provision that would control the construction schedule which the applicants have agreed to. Basically the new provision would require that the building adjacent to Lakefront Trail be granted a building permit by June 1, 2019 and the building adjacent to the Harbor Fountain be issued a building permit by June 1, 2020. Should they not meet those benchmarks the Ordinance would revert back to the original allocated units meaning they would lose the units allocated through this Ordinance. Since this was a substantial change the City Council wanted to remand the item back to the Commission to allow them to review.

Mr. Miller advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked for questions from the Commission.

Commissioner Trowbridge asked how many units would be left after these that have been allocated. Mr. Miller stated there would be 182 units remaining.

Commissioner Welch asked the difference in the year. Mr. Miller explained that the first project they've indicated that their projected start date is 2019 and the Mayor put the additional year and that was agreed to by the applicant.

Commissioner Logan asked if the parking garage would fall within the first time limitation. Mr. Miller stated yes, the parking garage would be built with project along Lakefront Trail. The applicant has indicated that there is currently an agreement that the parking garage if they were to build they would be required to build the parking garage for the commercial side.

Chairman Lyons asked the applicant to come forward.

Kevin Aikman
9474 Gagehill Drive
Dallas, TX

Mr. Aikman came forward and stated and gave a brief explanation of the request and stated that it is very similar to what was presented before with the difference being the time restraints they understand that the City wants to see progress they have made the commitment that once they break ground they will continue to make progress. He stated he would answer any additional questions the Commission may have.

Commissioner Trowbridge asked what the height would be. Mr. Aikman stated they will be up to five stories in certain places, they have a 14-16 foot requirement per the PD along Lakefront Drive and with the grade change along the project it could potentially just be four stories along the drive and then give them the ability to do five stories. They currently have only done a preliminary site plan but they will get all those details taken care of during their formal site planning process.

Chairman Lyons brought the item back to the Commission for action or discussion.

Commissioner Welch made a motion to approve Z2017-055 with staff recommendations. Commissioner Moeller seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

15. MIS2017-015

Discuss and consider a special request by Michael Hunter of the North East Texas Community Development Corporation for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a duplex on a 0.1120-acre tract of land identified as a portion of Lot 4B, Block H, Sanger Addition, City of Rockwall, Rockwall County, Texas, zoned Multi Family 14 (MF-14) District, situated within the Southside Residential

Neighborhood Overlay (SRO) District, located at the northeast corner of Peters Colony and E. Bourn Street, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant has submitted a special request for the approval of a deviation from the minimum front yard setback, minimum lot size and minimum lot depth for properties in the Southside Residential Neighborhood Overlay District as stipulated by the Unified Development Code. The purpose of this request is to allow for the subject property to platted as shown the by the ownership lines depicted on the Rockwall County Appraisal District website and the purpose for the replat is for construction of a duplex. The concept plan submitted by the applicant shows that the subject property will have a duplex oriented toward Peters Colony. The applicant is requesting a special exception to the minimum front yard setback adjacent to Peters Colony to reduce it from 20-feet to 15-feet. Additionally, the applicant is requesting a special exception to the minimum lot size to allow a reduction from 5,000 square feet to 4,896 square feet and a special exception to the minimum lot depth to reduce it from 100-feet to 70-feet and lastly the applicant is requesting a masonry exception to allow up to 60% Hardiboard. Additionally Mr. Brooks added that a duplex is allowed by-right in a Multi-Family 14 District.

Mr. Brooks went on to state that the Southside Residential Overlay District was created to provide flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood and he provided the Commission with the development standards with that District for their review. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward.

Michael Hunter
787 Hail Drive
Rockwall, TX

Mr. Hunter came forward and gave a brief explanation of the request stating that they look for land where they can build and rent for affordable housing for low income people, which is working class people, people that have jobs that are looking for an affordable place to live. Mr. Hunter stated they came before the Commission on another lot on the same block where they have since built a duplex. They feel they build a quality product but are limited to the small lots that are remaining that allow the right zoning. They believe they can build a duplex on the subject property, they own the property to the west which is a triplex and they are proposing to do a combination drive to allow for the both of them to allow for the parking. Concerning the request for the masonry exception the problem that they ran into on the duplex they recently completed was that on the separation of hardiboard and brick or stone when they came to the façade that had the gables the slit between the second floor and the first floor didn't hit 50% and it didn't look right, they feel it would look better if they have the first floor masonry stone and the second floor hardiboard and include the gables in that, that is the reason behind the request for the 0%. He respectfully asked the Commission's approval and stated he would answer any questions the Commission may have.

Commissioner Logan expressed concern with a duplex being built that will house two families on a lot that has been deemed small for one. She feels that although she understands the need for the housing that thy provide it would be better suited for just one home as opposed to a duplex.

Mr. Hunter stated they feel that the way this lot is shaped would be better suited for the duplex and at the same time give two families the opportunity of housing.

Commissioner Chodun asked for clarification if there would be shared parking. Mr. Hunter stated it would not be shared parking, since they own both properties the best thing to do to accommodate the tenants would be to widening the drive.

General discussion took place concerning the parking and the size of the lot and if it is suited for the duplex.

Commissioner Welch made a motion to approve MIS2017-015 with staff recommendations. Commissioner Trowbridge seconded the motion which passed by a vote passed with a vote of 4-2, with Commissioners Logan and Chodun dissenting and Commissioner Fishman absent.

16. MIS2017-016

Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that on November 28, 2017, the Planning and Zoning Commission recommended denial of a request for approval of a deviation from the minimum front yard setback, minimum lot depth, and minimum lot size for the purpose of constructing three single-family homes. After the Planning and Zoning Commission's recommendation, the applicant chose to withdraw the request. Since that time, the applicant has changed his request and is seeking approval of a deviation from the minimum front yard setback stipulated for properties in the Southside Residential Neighborhood Overlay District as stipulated by the Unified Development Code. The purpose of this request is to allow for the subdivision of three tracts of land into two lots for the construction of two single-family homes. The subject property is located at the southeast corner of Emma Jane Road and Sam Houston Street and situated within the Southside Residential Neighborhood Overlay District. According to the applicant, the lots were purchased after reviewing the ownership lines depicted by the Rockwall Central Appraisal District, which makes the properties appear to be in three parcels of land; however, two of the properties were subdivided by metes and bounds, and these lots are not buildable in their current format, they do not meet the lot depth and lot size requirements. In addition, the lots are currently platted into two lots. Staff should note that this property is located within the Southside Residential Neighborhood Overlay District, which allows for less restrictive development standards than a typical single-family, residentially zoned property. The concept plan submitted by the applicant shows that two tracts of land will have two single-family homes oriented toward Emma Jane Street. The applicant is requesting a special exception to the side yard setback from 20-feet to 10-feet for the proposed lot adjacent to Sam Houston Street which would be tracts 1 & 2 combined. Since Tracts 1 and 2 are on the corner of two streets being Sam Houston Street and Emma Jane Road, it is considered to have dual frontage, therefore, subject to the front-yard setback for both frontages. The applicant is also requesting a special exception to construct two single-family homes with front-entry garages. The applicant has provided a site plan showing the footprint of an 1,800 square feet single-family home. Although this request is typical of neighboring homes, it is a discretionary decision for the Planning and Zoning Commission and the City Council.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward.

Steve Goldberg
7117 Stephanie Drive
Dallas, TX

Mr. Goldberg came forward and gave a brief explanation of the request and stated they heard the Commissions concerns when they were before them at the last meeting and they have since drawn up a new plan, which they feel will fit to the existing homes in the area.

General discussion took place concerning street orientation and setbacks.

Commissioner Trowbridge made a motion to approve MIS2017-016 with staff recommendations. Commissioner Moeller seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

17. SP2017-037

Discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [*SH-205*], and take any action necessary.

Planner, Korey Brooks, gave a brief explanation of the request stating that the applicant is requesting approval of a site plan for a restaurant, 2,000 SF or more, w/ drive-through and the proposed restaurant is 2,200 square feet. According to the submitted site plan, the proposed restaurant will be a drive-through only and have no inside seating and will have a walk-up window. In addition, it will incorporate five tables on the patio. There is an existing vacant convenient store, E-Z Mart, and a vacant restaurant, Pizza Hut, that will need to be demolished in order to develop the site. According to the Unified Development Code a restaurant with a drive-through shall not have access to local residential streets. Additionally, the UDC states that stacking lanes for drive-through service windows shall accommodate at least 6 vehicles per lane. In this case, the submitted site plan shows stacking to accommodate 19 vehicles with dual lanes.

Mr. Brooks further noted that in a General Retail District a Specific Use Permit is required for a restaurant with a drive-through therefore should this site plan be approved an SUP would have to be submitted. The applicant has already submitted an application for an SUP and approval of the site plan is conditional on approval of the Specific Use Permit.

Mr. Brooks went on to state that there are a few variances associated with the request the first being to the four sided Architecture and with that is included in vertical articulation and the UDC provides a formula for determining how much of a height change a building is required based upon how long the wall is. In this case the height change would need to be five feet although the applicant is not meeting that they are providing a height change from the drive-through elevation of about a foot and a half. Additionally there are other elements that are being provided that will provide vertical articulation. Secondly the applicant is seeking a variance for the pitched roof requirement according to the UDC all structures having a footprint of 6,000 square feet or less need to be constructed with a pitched roof system, however the applicant is requesting a variance to use a flat roof system. And lastly, the applicant is requesting a variance to the landscaping standards. According to the Unified Development Code UDC, the landscape buffer shall be a minimum of 20-feet wide along the entire length of the property adjacent to SH-205. In this case, t there is an existing parking lot that encroaches the 20-foot landscape buffer and the applicant is requesting to utilize the existing parking lot. According to the site plan submitted, a ten (10)-foot landscape buffer with all of the required landscaping is being provided adjacent to SH-205. All variances will require a ¾ majority vote of the City Council members present to be approved.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.

Chairman Lyons asked the applicant to come forward.

Priya Acharya
Wier & Associates
2201 E. Lammar Blvd.
Arlington, TX

Ms. Acharya stated she did not have anything to add from what Mr. Brooks presented however she wanted to acknowledge staff has been very helpful to them during the process.

Chairman Lyons asked for questions from the Commission.

Commissioner Logan expressed concern over the traffic flow. Ms. Acharya stated there would be two points of exit one being Yellow Jacket and the other SH-205.

Chairman Lyons made a motion to approve SP2017-037 with staff recommendations. Commissioner Trowbridge seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

18. SP2017-038 **[*Postponed to December 26, 2017*]**

Discuss and consider a request by Arnaldo Cotto of J. Houser Construction on behalf of Jerry Kissick of Jerry Kissick Custom Homes for the approval of a site plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [*FM-3097*], and take any action necessary.

Chairman Lyons noted this agenda item was postponed and no action was necessary.

19. SP2017-039

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Frank of Hacienda Car Wash for the approval of a site plan for a carwash within the Scenic Overlay (SOV) District on a 2.008-acre tract of land being identified as Lots 1 & 2-01, Block A, the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located south of the intersection of W. Yellow Jacket Lane and Ridge Road [*FM-740*], and take any action necessary.

Senior Planner David Gonzales, gave a brief explanation of the request that the applicant is requesting the approval of a site plan for the purpose of constructing a single-story, 4,396 square foot car wash facility which will be situated on a 2.008-acre tract of land. On February 6, 2017, the City Council approved a Specific Use Permit to allow for a car wash facility within the Scenic Overlay District. The SUP also established operational conditions requiring the car wash tunnel to be setback a minimum of 50-ft from Ridge Road and that the facility is required to provide screening adjacent to the southern boundary that consists of a wrought iron fence and landscaping. The applicant's site plan meets both of these conditions and additionally, the SUP stipulates that the development shall generally be in conformance with the concept plan as established in the ordinance. The SUP also stipulates that they provide screening along the south boundary next to the Lakewood Park Addition and the applicant has updated their landscaping plan that shows they will be providing the necessary screening for that portion of the property. Concerning the site plan, landscape plan and the building elevations they all technically conform to the technical requirements stipulated in the UDC as well as the Scenic Overlay District with the exception of the building elevations. The applicants have provided updated building elevations from the recommendations they received from the Architectural Review Board at the previous meeting. The ARB had concerns with the colors they brought forward at that meeting and they have since toned those colors down however the updated building elevations they have provided is still not representative of the materials that they have submitted. Mr. Gonzales provided the Commission with a material sample board that shows the colors that will be on the building. However the ARB at this time still recommended that the applicant come back with a different color and also to change the stone to be more of a linear type of appearance. The applicant has provided a treescape plan indicating a total of 1,194 caliper inches being removed from the site, the majority of which are Oak trees. As a note Cedar and Hackberry trees that are 11-inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, if less than 11 inches dbh shall not be considered a protected tree. Feature trees such as Oaks, Pecans, and Elms may not be removed without approval of the Planning and Zoning Commission and are required to be replaced on an inch-for-inch basis; however, tree no. 5759 is a 30-inch caliper Oak tree and is required to be mitigated at twice the number of inches being removed, therefore an additional 30-inches will be added to the mitigation balance. The applicant's landscape plan depicts the provision of 28 caliper inches being added to the site and taking this into account, the total mitigation required for the site is 1,196 caliper inches. The applicant will work with staff to satisfy the tree mitigation balance prior to construction.

Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Lyons asked if due to the applicant still working with the ARB with some of the recommendations that they had would the case be postponed to ensure those get taken care of or would the Commission still take action. Mr. Gonzales explained that it would not need to be postponed and action could be taken if the Commission chose to, the ARB wants staff to take a look at those, and staff has decided that it can be reviewed and make sure that it meets the intent of ARB's recommendations and if staff sees any issues with what they provide they will let the applicant know it will need to be reviewed by the ARB again and the Commission.

Chairman Lyons asked the applicant to come forward.

Russell Frank
2400 South Goliad
Rockwall, TX

Mr. Frank came forward and stated they are still working on the color and will provide staff with the updated colors as soon as they have them.

Chairman Lyons asked concerning the stone that the ARB recommended. Mr. Gonzales clarified that ARB did not like the random stone that it appears to be, they prefer it to be something more patterned.

Commissioner Welch made a motion to approve SP2017-039 with staff recommendations and to include approval for the variances requested to the Scenic Overlay District standards to allow for not meeting the 20% stone requirement for the rear building elevation and to allow for stucco to exceed 50% of the standard, as depicted on the building elevations. Commissioner Moeller seconded the motion which passed by a vote of 5-1, with Commissioner Logan dissenting and Commissioner Fishman absent.

20. SP2017-040 **(David)** **[*Postponed to December 26, 2017*]**
Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

Chairman Lyons noted this agenda item was postponed and no action was necessary.

VI. DISCUSSION ITEMS

21. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2017-060: Lot 4, Block A, Briscoe/Hillcrest Addition [*Approved*]
- ✓ P2017-061: Lot 4, Block A, Wal-Mart Addition [*Approved*]
- ✓ P2017-062: Lots 4 & 5, Block A, Dalton Goliad Addition [*Approved*]
- ✓ P2017-063: Lots 4-7, Block A, Rayburn Country Addition [*Approved*]
- ✓ P2017-064: Lot 27, Block C, Harbor Landing, Phase 2 Addition [*Approved*]
- ✓ P2017-050: Lots 22 & 23 of the Rainbo Acres Addition [*Approved*]
- ✓ Z2017-043: Amendment to PD-70 (*1st Reading*) [*Denied*]
- ✓ Z2017-052: Zoning Change (C & HC to PD) (*1st Reading*) [*Postponed to December 18, 2017*]
- ✓ Z2017-054: Amendment to Article IX, *Tree Preservation* of the UDC (*1st Reading*) [*Remanded Back to P&Z*]
- ✓ Z2017-055: Amendment to PD Development Plan [*Ordinance No. 13-16*] (*2nd Reading*) [*Remanded Back to P&Z*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced cases at the City Council meeting.

VII. ADJOURNMENT

Chairman Lyons adjourned the meeting at 9:37 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2017.

_____
Johnny Lyons, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: Christopher Orr, *Arcadia Lakes of Somerset Holdings, LLC*

AGENDA ITEM: **P2016-069**; *Somerset Park Subdivision, Phase I*

SUMMARY:

Consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a amending plat for Phase 1 of the Somerset Park Subdivision, containing 152 single-family residential lots on a 56.247-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Blocks 1-12, of the Somerset Park Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

PLAT INFORMATION:

- ☑ On November 21, 2016, the City Council approved a request to final plat 144 of the proposed 309 residential lots, private park, and open space.

- ☑ The purpose of this request is to *replat* Phase I [*i.e. 144 of the 309 single-family residential lots*] and 5.998-acres of private park and open space for the purpose of establishing the necessary franchise utility easements for development of a single-family residential subdivision. The lot mix has not changed from the final plat.

- ☑ The *replat* conforms to Planned Development District 63 (PD-63) [*Ordinance No. 14-49*], which was approved by the City Council on November 17, 2014 under *Case No. Z2014-025*.

- ☑ The Surveyor/Engineer has completed the majority of the technical revisions requested by staff, and this *replat* conforming to the requirements for *replats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *replat* for the *Somerset Park Subdivision* staff would recommend the following conditions of approval:

1) The *replat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-69 Somerset Park, Phase I

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a amending plat for Phase 1 of the Somerset Park Subdivision, containing 152 single-family residential lots on a 56.247-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Blocks 1-12, of the Somerset Park Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205).

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-069) in the lower right hand corner of all pages on future submittals.

M.4 Please show the lot frontage at the build line for all lots.

M.5 Please change title block to “Somerset Park, Phase I”.

I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.

I.7 The projected City Council meeting date and subsequent approval for this plat is January 2, 2018.

LEGEND

IRF = Iron rod found
(C.M.) = Controlling monument
(TYP.) = Typical
W/ = With
B.L. = Building Line
H.O.A. = Homeowners Association
D.E. = Drainage Easement
U.E. = Utility Easement
S.S.E. = Sanitary Sewer Easement
S.W.E. = Sidewalk Easement
MIN. = Minimum
FF = Finished Floor

NOTES:

1. *FLOOD STATEMENT:* ACCORDING TO **MAP NO. 48397C0045 L**, DATED SEPTEMBER 26, 2008, OF THE NATIONAL FLOOD INSURANCE RATE MAP PREPARED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY, A PORTION OF THIS PROPERTY IS IN ZONE "A", AND IS SHOWN BY GRAPHIC SCALE FOR INFORMATIONAL PURPOSES ONLY. THIS FLOOD STATEMENT SHALL NOT CREATE LIABILITY ON THE SURVEYOR.
2. *BASIS OF BEARING:* THE BASIS OF BEARING FOR THIS SURVEY IS THE TEXAS STATE PLANE, NORTH CENTRAL ZONE, GEODETIC BEARING ESTABLISHED BY GPS MEASUREMENTS TAKEN ON THE GROUND November, 2014 AND COMPUTED BY Online Positioning User Service (OPUS) OFFERED BY THE NATIONAL GEODETIC SURVEY.
3. THE SURVEYOR HAS MADE NO INVESTIGATION OR INDEPENDENT SEARCH FOR EASEMENTS, ENCUMBRANCES, OR ANY OTHER FACTS THAT AN ACCURATE AND CURRENT TITLE SEARCH MAY DISCLOSE.
4. ALL CORNERS ARE A 5/8 INCH IRON ROD WITH CAP STAMPED "R.P.L.S. 5430" UNLESS OTHERWISE NOTED.
5. H.O.A. TO MAINTAIN ALL DRAINAGE IN THE MEDIANS ON STABLE GLEN DRIVE.
6. H.O.A. AND PROPERTY OWNERS TO MAINTAIN ALL LOT TO LOT DRAINAGE.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as the AMENDING PLAT OF SOMERSET PARK to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

OWNERS CERTIFICATE

STATE OF TEXAS}
COUNTY OF ROCKWALL}

WHEREAS, Somerset Park Development, LLC, and Arcadia Lakes of Somerset Holdings, LLC. are the owner's of a tract of land in the Abner Johnson Survey, Abstract No. 123, situated in the City of Rockwall, in Rockwall County, Texas, being a portion of a tract of land to Somerset Park Development, LLC, as recorded in Instrument Number 20160000010169 of the Official Public Records of Rockwall County, Texas and a portion of a remainder of a tract of land to Arcadia Lakes of Somerset Holdings, LLC. recorded in Instrument Number 20130000500385 of the Official Public Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a 1/2 inch iron rod found for the southeast corner of said Somerset Park tract, lying on the north Right of Way of Farm to Market (F.M.) 549, a variable width right-of-way;

THENCE South 88 degrees 45 minutes 27 seconds West along the south line of said Somerset Park tract and the north line of said F.M. 549, a distance of 1321.87 feet to a 3 inch T.X.D.O.T. right-of-way disk found for the southwest corner of said Somerset Park tract, said point also lying on the east line of State Highway (S.H.) 205 a called 100 feet wide right-of-way and at the beginning of a curve to the right;

THENCE with said curve to the right and along the east line of said S.H. 205, having a radius of 5005.59 feet, a central angle of 01 degrees 25 minutes 19 seconds, an arc length of 124.23 feet, a chord bearing of North 43 degrees 10 minutes 28 seconds West, a distance of, 124.23 feet to a 5/8 inch iron rod found for the most northerly southwest corner of said Somerset Park tract, same being the south corner of a tract of land to N.L. Lofland & Annie Lofland as recorded in Volume 28, Page 487 of the Deed Records of Rockwall County, Texas;

THENCE North 00 degrees 40 minutes 31 seconds West along the common line of said N.L. Lofland & Annie Lofland tract and said Somerset Park tract, a distance of 1062.07 feet to a 1/2 inch iron rod found at an angle point in same;

THENCE North 00 degrees 59 minutes 21 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 869.90 feet to a 60-D nail found at the northerly base of a fence corner post for the northeast corner of said N.L. Lofland & Annie Lofland tract and at an inner ell corner of said Somerset Park tract;

THENCE North 85 degrees 28 minutes 38 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 10.57 feet to a 1/2 inch iron rod found for the southeast corner of a tract of land to N.L. Lofland recorded in Volume 30, Page 548, of the Deed Records of Rockwall County, Texas, same point lying on the north line of said N.L. Lofland & Annie Lofland tract and on the west line of said Somerset Park tract;

THENCE North 00 degrees 08 minutes 29 seconds East along the common line of said N.L. Lofland tract and said Somerset Park tract, a distance of 428.94 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for the northwest corner of said Somerset Park tract;

THENCE departing the east line of said N.L. Lofland tract, along the north/east lines of said Somerset Park tract and partially through the interior of said Arcadia tract the following courses and distances;

THENCE North 64 degrees 22 minutes 07 seconds East, a distance of 255.05 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 40 minutes 50 seconds, an arc length of 137.05 feet,a chord bearing of South 32 degrees 28 minutes 18 seconds East, a distance of 136.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE North 86 degrees 43 minutes 34 seconds East, a distance of 11.91 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1040.00 feet, a central angle of 01 degrees 26 minutes 00 seconds, an arc length of 26.02 feet, a chord bearing of North 34 degrees 15 minutes 20 seconds East a distance of 26.02 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 55 degrees 02 minutes 34 seconds East a distance of 80.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 960.00 feet, a central angle of 02 degrees 27 minutes 29 seconds, an arc length of 41.19 feet, a chord bearing of South 33 degrees 44 minutes 40 seconds West a distance of 41.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 08 degrees 23 minutes 58 seconds East a distance of 15.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 44 minutes 06 seconds, an arc length of 137.60 feet, a chord bearing of South 56 degrees 22 minutes 56 seconds East a distance of 137.27 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the right;

THENCE with said reverse curve to the right having a radius of 606.00 feet, a central angle of 19 degrees 54 minutes 48 seconds, an arc length of 210.62 feet, a chord bearing of South 53 degrees 17 minutes 35 seconds East, a distance of, 209.56 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the left;

THENCE with said reverse curve to the left having a radius of 424.00 feet, a central angle of 50 degrees 39 minutes 01 seconds, an arc length of 374.82 feet, a chord bearing of South 68 degrees 39 minutes 41 seconds East, a distance of, 362.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 03 degrees 59 minutes 12 seconds East, a distance of 52.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 00 degrees 57 minutes 49 seconds East, a distance of 142.77 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 06 degrees 11 minutes 04 seconds East, a distance of 184.22 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1000.00 feet, a central angle of 23 degrees 47 minutes 40 seconds, an arc length of 415.29 feet, a chord bearing of South 05 degrees 42 minutes 46 seconds West, a distance of 412.31 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 71 degrees 47 minutes 52 seconds East, a distance of 173.23 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1476.00 feet, a central angle of 00 degrees 54 minutes 00 seconds, an arc length of 23.18 feet, a chord bearing of South 18 degrees 39 minutes 08 seconds West, a distance of, 23.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a compound curve continuing to the right;

THENCE with said compound curve continuing to the right having a radius of 406.00 feet, a central angle of 00 degrees 41 minutes 12 seconds, an arc length of 4.86 feet, a chord bearing of South 19 degrees 26 minutes 43 seconds West, a distance of, 4.86 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 70 degrees 12 minutes 41 seconds East, a distance of 120.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 526.00 feet, a central angle of 48 degrees 44 minutes 05 seconds, an arc length of 447.41 feet, a chord bearing of South 44 degrees 09 minutes 22 seconds West, a distance of, 434.04 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 118.21 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 63 degrees 53 minutes 02 seconds East a distance of 14.08 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 52.01 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 26 degrees 04 minutes 50 seconds West a distance of 9.95 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 321.00 feet, a central angle of 40 degrees 44 minutes 09 seconds, an arc length of 228.22 feet, a chord bearing of South 39 degrees 07 minutes 20 seconds East a distance of 223.45 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 59 degrees 29 minutes 25 seconds East a distance of 26.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 364.00 feet, a central angle of 09 degrees 37 minutes 01 seconds, an arc length of 61.10 feet, a chord bearing of South 54 degrees 40 minutes 54 seconds East a distance of 61.03 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 49 degrees 52 minutes 23 seconds East a distance of 61.12 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 443.00 feet, a central angle of 48 degrees 37 minutes 50 seconds, an arc length of 376.00 feet, a chord bearing of South 25 degrees 33 minutes 28 seconds East a distance of 364.82 feet;

THENCE South 01 degrees 14 minutes 33 seconds East a distance of 8.08 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 46 degrees 14 minutes 32 seconds East a distance of 24.04 feet to the POINT OF BEGINNING containing 2,457,949 square Feet, or 56.427 acres of land.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: Jeremy Epton

AGENDA ITEM: **P2017-071;** *Lot 1, Block A, Epton Addition*

SUMMARY:

Consider a request by Jeremy Upton for the approval of a final plat for Lot 1, Block A, Epton Addition being a 4.95-acre tract of land identified as Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 2075 Airport Road, and take any action necessary.

PLAT INFORMATION:

☑ The objective of this request is to final plat a 4.95-acre tract of land [*i.e. Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77*] into one (1) parcel of land [*Lot 1, Block A, Epton Addition*] for the purpose of combining one (1) lot into two (2) lots for the expansion of an existing single-family home.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the *final plat* for *Lot 1 Block A, Epton Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-71 Lot 1, Block A, Epton Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Jeremy Upton for the approval of a final plat for Lot 1, Block A, Epton Addition being a 4.95-acre tract of land identified as Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 2075 Airport Road

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-071) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.

I.5 The projected City Council meeting date and subsequent approval for this plat is January 2, 2018.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS Jeremy Epton and Kristi Helmer, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the E.M. ELLIOTT SURVEY, ABSTRACT NO. 77, City of Rockwall, Rockwall County, Texas, and being a part of a tract of land as described in a Warranty deed from Arvel Gray and Lena Gray to J.E. Parker and Deloris Estelle Parker, dated August 19, 1967 and being recorded in Volume 80, Page 41 of the Deed Records of Rockwall County, Texas, and also a part of a tract of land as described in a Special Warranty deed from Bobby H. Douglas to Deloris Estelle Douglas, dated August 26, 2000 and being recorded in Volume 2011, Page 267 of the Real Property Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the east boundary line of said Parker tract and the west boundary line of a tract of land as described in a Warranty deed to Billy W. Peoples, as recorded in Volume 1464, Page 321 of the Real Property Records of Rockwall County, Texas, said point being N. 00 deg. 46 min. 36 sec. E., 24.91 feet from the southeast corner of said Parker tract and in the north right-of-way line of Airport Road, per deed recorded in Volume 6245, Page 280 of the Official Public Records of Rockwall County, Texas;

THENCE N. 88 deg. 38 min. 34 sec. W. along the north right-of-way line of Airport Road, a distance of 418.64 feet to a 1/2" iron rod found for corner in the east boundary line of a tract of land as described in a Warranty deed to Jennifer Douglas, as recorded in Volume 4429, Page 286 of the Real Property Records of Rockwall County, Texas;

THENCE N. 01 deg. 09 min. 28 sec. E. along the east line of said Jennifer Douglas tract, a distance of 323.57 feet to a 1/2" iron rod found for corner at the northeast corner of same;

THENCE N. 88 deg. 34 min. 38 sec. W. along the north line of said tract, a distance of 125.00 feet to a 1/2" iron rod found for corner at the northwest corner of same;

THENCE N. 01 deg. 09 min. 28 sec. E. a distance of 232.64 feet to a 1/2" iron rod found for corner at the northwest corner of said Deloris Estelle Douglas tract;

THENCE S. 88 deg. 55 min. 35 sec. E. a distance of 378.89 feet to a 1/2" iron rod found for corner at the northeast corner of said Deloris Estelle Douglas tract;

THENCE S. 01 deg. 13 min. 24 sec. W. a distance of 285.38 feet to a 1/2" iron rod found for corner at the northwest corner of said Parker tract;

THENCE S. 89 deg. 24 min. 35 sec. E. a distance of 163.26 feet to a 1/2" iron pipe found for corner at the northeast corner of said Parker tract and northwest corner of said Peoples tract;

THENCE S. 00 deg. 46 min. 36 sec. W. a distance of 275.04 feet to the POINT OF BEGINNING and containing 215,528 square feet or 4.95 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as EPTON ADDITION, LOT 1, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in EPTON ADDITION, LOT 1, BLOCK A, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY CASE P2017-

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: James Zaferis

AGENDA ITEM: **P2017-072;** *Lot 6, Block C, Rockwall Technology Park Addition*

SUMMARY:

Consider a request by James Zaferis on behalf of Pete Koulos of Astrocheif Texas LLC (DBA Pegasus Food) for the approval of a replat for Lot 6, Block C, Rockwall Technology Park Addition being a 8.482-acre parcel of land identified as Lot 5, Block C, Rockwall Technology Park, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1635 Innovation Drive, and take any action necessary.

PLAT INFORMATION:

☑ The objective of this request is to replat an 8.482-acre parcel of land [*i.e*. *Lot 5, Block C, Rockwall Technology Park Addition*] into one (1) parcel of land [*i.e. Lot 6, Block C, Rockwall Technology Park Addition*] for the purpose of adding the necessary fire lane and utility easements for an existing building that is being converted to a frozen food manufacturing facility [*i.e. Pegasus Food*].

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the *replat* for *Lot 6 Block C, Rockwall Technology Park Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-72 Lot 6, Block C, Rockwall Technology Park Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by James Zaferis on behalf of Pete Koulos of Astrocheif Texas LLC (DBA Pegasus Food) for the approval of a replat for Lot 6, Block C, Rockwall Technology Park being a 8.482-acre parcel of land identified as Lot 5, Block C, Rockwall Technology Park, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1635 Innovation Drive.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-072) in the lower right hand corner of all pages on future submittals.

M.4 Please note that the lot and block designation is Lot 6, Block C

M.5 This is not an amended plat, this is a replat. Please use the standard City Signature Block.

M.6 Please check your wording in the title block. It is typically:

Amended Plat
Rockwall Technology Park
Lot 6, Block C
Being a replat of…."

M.7 Please provide SF of lot in addition to the acreage.

M.8 Please provide graphic scale in addition to numeric scale.

M.9 Please provide a vicinity map.

I.10 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.

I.11 The projected City Council meeting date and subsequent approval for this plat is January 2, 2018.

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS **EVANGELOS AND VASILIKI AMBATIELOS,** BEING THE OWNERS OF A TRACT OF LAND within the City of Rockwall, County of Rockwall, State of Texas, said tract being described as follows:

LEGAL DESCRIPTION

BEING a tract or parcel of land situated in Rockwall County, Texas, being part of the J.M. Allen Survey, Abstract No. 2, being all of Lot 5, Block C of the AMENDED REPLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK, an addition to the City of Rockwall as recorded in Cabinet E on Slides 329-330 of the Plat Records of Rockwall County, Texas and being further described as follows:

BEGINNING at a capped "DCA" 1/2 inch iron rod found for a corner at the southeast corner of Lot 5 in Innovation Drive;
THENCE N 71°59'40" W along the south line of Lot 5, a distance of 442.20 feet to a capped "DCA" 1/2 inch iron rod found for a corner at the southwest corner of Lot 5;
THENCE N 01°32'36" W along the west line of Lot 5, a distance of 1026.15 feet to a 1/2 inch iron rod set for a corner at the northwest corner of Lot 5;
THENCE S 46°51'29" E along the northeast line of Lot 5, a distance of 573.26 feet to a 1/2 inch iron rod found for a corner at the northeast corner of Lot 5 in Innovation Drive, said corner being at the beginning of a curve to the left, having a central angle of 94°19'57", a radius of 70.00 feet and a chord bearing of S 04°07'00" E and a chord length of 102.67 feet;
THENCE in the Southeasterly direction, along said curve to the left and along Innovation Drive, an arc length of 115.25 feet to a 1/2 inch iron rod set for a corner, said corner being at the beginning of a curve to the right, having a central angle of 50°28'59", a radius of 20.50 feet and a chord bearing of S 26°02'37" E and a chord length of 17.48 feet;
THENCE in the Southeasterly direction, along said curve to the right and along Innovation Drive, an arc length of 18.06 feet to a capped "DCA" 1/2 inch iron rod found for a corner,
THENCE S 00°46'48" E along the east line of Lot 5 and Innovation Drive, a distance of 548.01 feet to an "x" found in concrete for a corner, said corner being at the beginning of a curve to the left, having a central angle of 06°27'04", a radius of 930.00 feet and a chord bearing of S 04°02'56" E and a chord length of 104.66 feet;
THENCE in the Southeasterly direction, along said curve to the left and along Innovation Drive, an arc length of 104.71 feet returning to the Point of Beginning and containing 8.482 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as the **REPLAT OF LOT 5, BLOCK C OF THE AMENDED PLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK,** a subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **REPLAT OF LOT 5, BLOCK C OF THE AMENDED PLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit , should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exactions made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made hereon.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: City of Rockwall

AGENDA ITEM: **P2017-073;** *Lots 1, 2, & 3, Fannin Addition*

SUMMARY:

Consider a city initiated request for the approval of a final plat for Lots 1, 2, & 3, Block A, Fannin Addition being a 4.01-acre tract of land identified as a portion of Lot AA, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, generally located on the west side of Fannin Street south of the intersection of Fanning Street and Heath Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a 4.01-acre tract of land [*i.e. a portion of Lot AA, Block 122, B. F. Boydston Addition*] into three (3) parcels of land [*Lots 1, 2, & 3 Block A, Fannin Addition*] in order to subdivide one (1) lot into three (3) lots for the purpose of conveying Lots 1 and 2. Lot 3 contains a 20-inch water line and is being retained by the City of Rockwall in order to provide sufficient access to the water line. Staff should note that Lot 3 does not meet the technical requirements of the Unified Development Code, however, since the City of Rockwall is maintaining ownership of the lot, the City Council has the ability to waive the requirements.
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the *final plat* for *Lots 1, 2, & 3, Block A, Fannin Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2017-73 Lots 1, 2, & 3, Fannin Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a city initiated request for the approval of a final plat for Lots 1, 2 & 3, Block A, Fannin Addition being a 4.01-acre tract of land identified as a portion of Lot AA, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, generally located on the west side of Fannin Street south of the intersection of Fanning Street and Heath Street.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-073) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.

I.5 The projected City Council meeting date and subsequent approval for this plat is January 2, 2018.

THENCE S. 12 deg. 55 min. 00 sec. W. a distance of 200.01 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 78 deg. 53 min. 38 sec. W. a distacne of 103.94 feet to a 1/2" iron rod found for corner;

THENCE N. 19 deg. 22 min. 15 sec. E. a distance of 200.66 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 18 deg. 35 min. 41 sec. E. a distance of 492.51 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 89 deg. 05 min. 44 sec. E. a distance of 40.29 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 12 deg. 31 min. 28 sec. E. a distance of 153.68 to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE S. 86 deg. 26 min. 11 sec. E. a distance of 187.96 feet to the POINT OF BEGINNING and containing 174,707 square feet or 4.01 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as FANNIN ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in FANNIN ADDITION, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 26, 2017

SUBJECT: Z2017-059; *Amendment to PD-8 for Townhomes*

On December 18, 2017, the City Council remanded *Case No. Z2017-059* back to the Planning and Zoning Commission to allow the applicant to make changes to concept plan. As a result of this action, the applicant, Ross Ramsay, is requesting to postpone the public hearing for this case to the ***January 30, 2017*** Planning and Zoning Commission meeting. The purpose of this request is to allow the applicant time to modify the request to address the concerns stated in the City Council meeting and to meet with the Chandler's Landing Homeowner's Association (HOA). If granted the new City Council public hearing would be ***February 5, 2018***.

According to Section 6.2, *Public Hearing Postponements, Recess, and Continuations*, of the Article II, Authority and Administrative Procedures, of the Unified Development Code (UDC), a public hearing may be postponed by announcing the postponement at the public hearing and indicating the time and place the new hearing is scheduled to begin. The announcement of a postponement shall be sufficient notice and no additional notice shall be required.

From: Ross Ramsay
To: Miller, Ryan
Subject: Plannign and Zoning Case No.
Date: Wednesday, December 20, 2017 11:06:58 AM

Ryan Miller:

We would like to request a postponement before Planning & Zoning until Tuesday, Jan. 30, 2018. We would like this time to make amendments to the plan and to gather support from the neighbors.

Thank you.

Ross Ramsay

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/12/2017

APPLICANT: ED Cavendish, *Cavendish Homes/VPS Construction*

AGENDA ITEM: **Z2017-059**; *Amendment to PD-8 for Townhomes*

SUMMARY:

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on October 29, 1973 (*Ordinance No. 73-43*). On November 12, 1973, the subject property was rezoned to Planned Development District 8 (PD-8) and designated for a *Multi-Family Structure or Condominium* by *Ordinance No. 73-48*. This designation was amended on October 19, 1992 by *Ordinance No. 92-39* (*Case No. PZ1992-008-01*), which re-designated the subject property to allow 36 *zero-lot-line*, single-family homes. The subject property is an un-platted 6.88-acre tract of land located on Henry M. Chandler Drive, adjacent to the Chandler's Landing Marina and the Spyglass Condominiums, in the Chandler's Landing community.

On October 13, 2017, the applicant requested to reinstate the preliminary plat that was approved in 1992 in accordance with *Ordinance No. 92-39*. This preliminary plat depicted the proposed layout for the 36 *zero-lot-line*, single-family homes. The Planning and Zoning Commission approved the reinstatement request October 24, 2017; however, the applicant ultimately choose to submit an application on November 17, 2017 requesting to amend *Ordinance No. 92-39* to allow for a 48-unit townhome development.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the south side of Henry M. Chandler Drive west of the intersection of Henry M. Chandler Drive and Ridge Road [*FM-740*]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Henry M. Chandler Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan* contained in the Comprehensive Plan. Beyond this are *Phases 1 & 2* of the Harbor Landing Subdivision, which are located within the Chandler's Landing Community and zoned Planned Development District 8 (PD-8).

South: Directly south of the subject property is the corporate boundary between the City of Rockwall and the City of Heath. Situated in the City of Heath adjacent to the subject property are several single-family homes.

East: Directly east of the subject property is *Phase 3* of the Spyglass Hill Subdivision, which is composed of 46-condominiums and zoned Planned Development District 8 (PD-8). Beyond this are *Phases 1 & 2* of the Spyglass Hill Subdivision, which are composed of 110-condominiums (*i.e. Phase 1 has 67-condominiums and Phase 2 has 43-condominiums*) and zoned Planned Development District 8 (PD-8).

West: Directly west of the subject property is the Chandler's Landing Marina, which is located within the *takeline* for Lake Ray Hubbard (*i.e. owned by the City of Dallas and leased by the City of Rockwall*). Beyond this is Lake Ray Hubbard.

CHARACTERISTICS OF THE REQUEST:

According to the concept plan provided by the applicant the proposed townhome development will consist of 48-single family attached lots that will be broken up into blocks of three (3) to five (5) homes. The development will incorporate approximately 42% open space, the majority of which will be used to create a buffer between the proposed development and *Spyglass, Phase 3* (*which is located directly east of the subject property*). The concept plan also shows that about half of the proposed lots will have *front entry* garages. The remainder of the lots will incorporate rear entry garages (*i.e. accessible from an alleyway*). Staff should note that the applicant has requested that the streets be private and maintained by the Homeowner's Association (HOA). Staff has included this condition in the proposed draft ordinance with the stipulation that the applicant provide a 29-foot *back-to-back* concrete street built to the City's standards. A summary of the proposed density and dimensional requirements for this project are as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [1]	20'
Minimum Side Yard Setback [2]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 508-feet above sea level.

The applicant has not provided examples of the proposed building elevations; however, staff has incorporated anti-monotony standards that require a minimum of two (2) intervening homes of differing appearance be used before the same material blend/building elevation is utilized. In addition, staff should note that when *Ordinance No. 92-39* was approved, the City Council established maximum finished floor elevations for each building pad on the proposed concept plan. The purpose of these maximums was to ensure that the views of the properties located directly east (*i.e. Spyglass, Phase 3*) of the subject property would not be affected by the proposed development. In conformance with these requirements the applicant has stated that the highest roof elevation of any townhome will be at an elevation of 500-feet above sea level. This is eight (8) feet below the

highest elevation permitted under *Ordinance No. 92-39*. Staff has included this in the conditions of approval for this case.

CONFORMANCE WITH THE CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ *Garages.* The applicant is proposing to incorporate approximately 50% front entry garages that will incorporate a recess of three (3) feet. The remaining garages will be accessible from an alleyway or rear entry garage. According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*).

- ☑ *Masonry Requirements.* The applicant is proposing to allow up to 70% cementaceous fiberboard and/or stucco in the design of the townhomes. The general residential standards outlined in Section 3, *Residential Districts*, of Article V, *District Development Standards*, of the UDC states, that residential structures should incorporate a minimum of 80% masonry materials of which 50% is permitted to be cementaceous. This equates to an overall permissible percentage of 60% cementaceous materials. The applicant's request would require the City Council to increase this by ten (10) percent.

- ☑ *Lot Size.* Currently, the City of Rockwall does not have standards or a zoning district that would permit a townhome product with the exception of the Two Family (2F) or Multi-Family 14 (MF-14) Districts. In addition, the City's smallest single-family lot size permitted by the UDC is 5,000 SF, which is permitted in the Zero Lot Line (ZL-5) District. The Two Family (2F) District -- *which could accommodate a Townhouse based on the permitted side yard setbacks* -- requires a minimum lot size of 7,000 SF. In this case, the applicant is proposing a minimum lot size of 2,250 SF.

By approving the proposed Planned Development District, the City Council is waiving these standards.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained in the Comprehensive Plan, designates the subject property for *High Density Residential* land uses, which is defined as any development that exceeds three (3) units per gross acre. In this case, the applicant is proposing a density of 6.98 dwelling units per gross acre, which is conformance with the *High Density Residential* land use designation. Staff should note that the proposed density would be a 1.75-unit increase to the current density of 5.23 dwelling units per gross acre. The Comprehensive Plan states that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or [an] existing retail*) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) The proposed development is adjacent to the Spyglass Condominiums (*adjacent to the eastern property line*), which carry the following densities by phase: (1) *Phase 1*: 18.99 dwelling units per gross acre, (2) *Phase 2*: 14.23 dwelling units per gross acre, and (3) *Phase 3*: 15.38 dwelling units per gross acre. These densities may warrant a consideration of the proposed development; however, any increase in density is a discretionary decision for the City Council. Should the City Council approve the applicant's request no change would be required to the Future Land Use Map.

NOTIFICATION:

On November 30, 2017, staff mailed 269 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Chandler's Landing, The Cabana's at Chandler's Landing, Matchpoint Townhomes, Cutter Hill (*Phases 1-3*), and the Spyglass Homeowner's Associations (HOA's), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the subject property. Additionally, staff posted a sign along Henry M. Chandler Drive as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received 13 notices and one (1) email in opposition of the applicant's request. In addition, the City has received a letter from the Chandler's Landing Environmental Committee stating opposition to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 8 (PD-8) to allow townhomes, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) The highest roof elevation permitted for all townhomes in the development shall be 500-feet above sea level; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***November 24, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 12/12/2017at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 12/18/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2017-059- Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/12/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/18/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/18/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:	
Address:	

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

The Town Homes that are there now are falling down and are a fire Hazard. They will lower home value's and Bring in lower income residents. Spy Glass and Bent tree Condos are in horrible condition.

Name: Constable Trey Chaney

Address: 305 Harborview Dr Rockwall TX

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.**

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

Our preference is for the zoning to remain for single family structures. Traffic should also be a consideration on Henry M. Chandler drive with stoplight on 740 exct from present residents.

Name: Leland D. Peterson

Address: 203 Harbor Landing Drive, Rockwall, 75032

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. Case No. Z2017-059: Amendment to PD 8 for Townhomes

Please place a check mark on the appropriate line below:

☐ I am ~~in favor~~ of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

I believe we have enough apartment housing approved in Rockwall. Single family homes will greatly enhance the land behind the Marina. The homes on Harborview are a great testimony!

Name: Elizabeth Marsh

Address: 6109 Volunteer Pl.

* Apartment/townhomes in this area will damage our home values — There are enough!

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. CITY COUNCIL

Case No.:Z2017-59
Case Name: Amendment to PD-8
Case Type Zoning
Zoning: PD-8
Case Address: Henry M. Chandler Dr

Dear Mr. Miller:
Ladies and Gentlemen:

I am in receipt of the hearing notice created 8/21/17, not mailed until 12-1-17. Received 12-4-17 P&Z setting 12-12-17 and City Council setting 12-18-17. The notice was addressed to my Dallas address with Rockwall as the city.

I request the hearings be reset until after the holidays due to the short notice and the fact Additional time is needed to prepare for the hearings.

This is the third time this matter has been set before the P&Z and City Council. The second rezoning provided a continued lake view corridor. Obstruction of the lake view reduces the value and Desirability of the Spyglass Condos. I request rezoning be denied.

Sincerely,

Kenneth E. Blassingame
Owner 260 HM Chandler

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

Zero lot townhouses block the view of the lake, their height will block the overview and without extensive excavation to lower the townhouses you cannot see over them. Blocking the lake view greatly reduces the value and desirability of the Spyglass Cross. attached here to and made a part here of is a letter.

To: Planning
Subject: Case No. Z2017-059

Dear P&Z,

I am opposed to this because I prefer zero lot line homes vs townhomes.

I find zero lot line homes more visually appealing.

Thanks,

Jeff Macalik

Rockwall Planning and Zoning Commission

Re: Case Number Z2017-059 Amendment to PD-8 for Townhomes

The Environmental Committee of Chandlers Landing is opposed to any action that would increase density in and around our community. Accordingly, we ask the members of the council to deny the request for zoning change on Henry Chandler Dr.

PROJECT NO. 17-2858

SHEET 1 OF 1

RAMSAY & REYES LLC

PROJECT MANAGEMENT · ARCHITECTS · PLANNERS

Project : 6.88 ACRES on Henry M. Chandler Dr., Rockwall, Texas 75032

Owner: Ed Cavendish

Development Standards

Houses are scheduled to be from 1,900 sq. ft. to 2,200 sq. ft., and will sell from $325,000 to $375,000, producing a taxable value of approximately **$16,800,000.**

Description

Project will contain 48 houses - single lots and in groups of 3,4, and 5 with adjacent side walls.

Lot sizes:	Mostly 24' – 27' wide x 105' deep
Units per lot:	(1) One unit per lot
Lot setbacks:	Front - 20' Rear – 10' Side – (Varies) Zero – 25' Maintenance – 5' Minimum
Landscape:	(1) One tree per every 50' along Henry M. Chandler Dr. Wrought Iron Fence along perimeter of site.

The site is 6.88 acres with 2.88 acres of community park and open space (42%).

Highest top of roof elevation is 500' above sea level which is 8'-0" below the 1992 P&Z recommendation of 508' above sea level.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 8 (PD-8) [*ORDINANCE NO. 92-39*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 92-39*, BEING A 6.88-ACRE TRACT OF LAND IDENTIFIED AS LOT 4, BLOCK A, SPYGLASS HILL #4 ADDITION AND TRACT 134-12 OF THE E. TEAL SURVEY, ABSTRACT NO. 207, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Ed Cavendish of Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for an amendment to the *Planned Development Concept Plan* and *Development Standards* contained within Planned Development District 8 (PD-8) [*specifically contained within Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 92-39*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 10.18.17

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master Plat
3. Preliminary Plat
4. PD Site Plan
5. Final plats

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 6. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

DRAFT ORDINANCE 12.18.17

DRAFT ORDINANCE 12.18.2017

Exhibit 'A':
Legal Description

BEING a tract of land situated in the E. *TEAL SURVEY, ABSTRACT NO. 207*, City of Rockwall, Rockwall County, Texas, and being a part of that 285.2916 acre tract as conveyed to Clarke-Frates Corporation, as recorded in Volume 102, Page 895, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point on the South line of Henry M. Chandler Drive, said point being the Northwest corner of Spyglass Hill Condominiums, Phase Three, an addition to the City of Rockwall, as recorded in Slide B, page 175, Map Records, Rockwall County, Texas, a ½" iron stake set for corner;

THENCE Along the Westerly lines of said Spyglass Hill Condominiums, the following:

South 03 deg. 27' 05" East a distance of 39.65 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 160.16 feet to a ½" iron stake set for corner;
South 37 deg. 16' 05" West a distance of 180.50 feet to a ½" iron stake set for corner;
South 03 deg. 27' 05" East a distance of 142.73 feet to a ½" iron stake set for corner;
South 48 deg. 23' 55" West a distance of 95.59 feet to a ½" iron stake set for corner;
South 41 deg. 23 '55" West a distance of 56.00 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 203.00 feet to a ½" iron stake set for a corner;

THENCE South 41 deg. 32' 55" West, along the Northerly line of Windward Slope Addition, and addition to the city of Heath, Rockwall County, Texas, a distance of 480.10 feet to a ½" iron stake found for corner;

THENCE North 14 deg. 35' 26" West, a distance of 407.29 feet to a ½" iron stake set for corner;

THENCE North 1 deg. 33' 59" West a distance of 70.75 feet to a ½" iron stake set for corner;

THENCE North 20 deg. 51' 59" West a distance of 156.54 feet to a ½" iron stake set for corner;

THENCE North 31 deg. 30' 08" West a distance of 109.80 feet to a ½" iron stake found for corner;

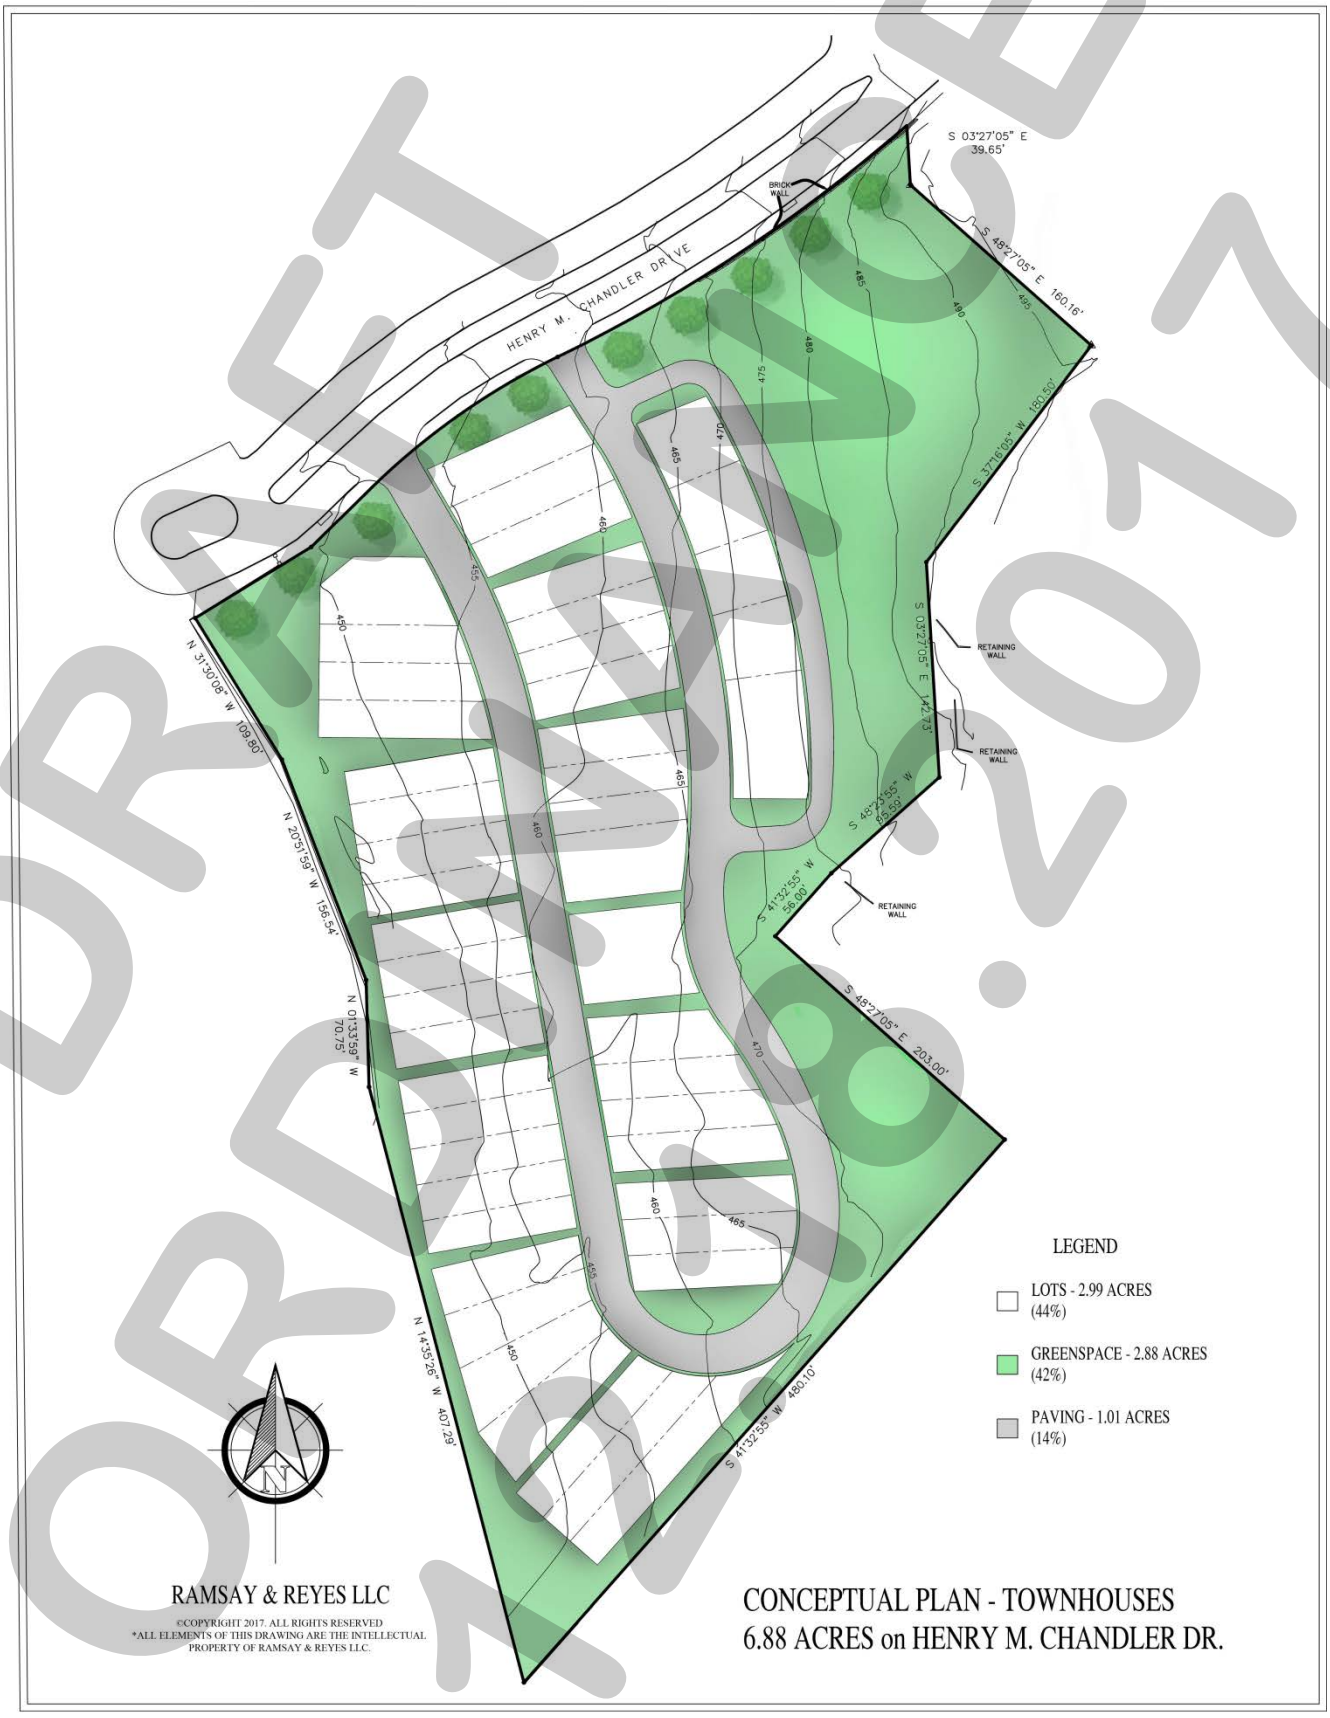
THENCE along the Southerly line of Henry M. Chandler Drive, the following:

North 58 deg. 29' 50" East a distance of 90.00 feet to a ½" iron stake set for corner;
North 45 deg. 29' 10" East a distance of 54.37 feet to the beginning of a curve to the right having a central angle of 18 deg. 36' 41", and a radius of 471.19 feet, a ½" iron stake set for corner;
Around said curve, a distance of 153.06 feet to the beginning of a curve to the left having a central angle of 15 deg. 20' and a radius of 1,040.00 feet, a ½" iron stake set for corner;

Around said curve a distance of 278.32 feet to the *PLACE OF BEGINNING* and containing 6.88 acres of land. This description is based on the Land Title Survey and Plat made by Kenneth E. Brown, Registered Professional Land Surveyor on February 25, 1992.

DRAFT ORDINANCE 12.18.2017

Exhibit 'B':
Concept Plan



DRAFT ORDINANCE 2017

Exhibit 'C':
PD Development Standards

PD Development Standards.

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the *Subject Property*; however, the following additional land uses shall be permitted *by-right*:

☑ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the *Subject Property* shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. In addition, the maximum permissible density for the *Subject Property* shall be seven (7) dwelling units per gross acre of land; however, in no case should the proposed development exceed 48-units. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [(1)]	20'
Minimum Side Yard Setback [(2)]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [(3)]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 500-feet above sea level.

(3) *Garage Orientation.* Garages adjacent to the Marina (*i.e. adjacent to the western property line*) shall be permitted to be forward facing (*i.e. facing onto the private street in a front entry configuration*) provided they are setback three (3) feet from the front façade of the primary structure. All other garages shall be rear entry or accessible from an alleyway.

(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 70% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance.

DRAFT ORDINANCE 12.18.17

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features.

(5) *Anti-Monotony Restrictions*. All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) Landscape Buffers. A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Henry M. Chandler Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Trash Dumpster Enclosure.* If proposed trash dumpster enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures of the townhomes, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

(8) *Fence Standards.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(9) *Open Space.* A minimum of 42% open space shall be provided which generally conforms to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(10) *Private Right-of-Way.* The proposed private right-of-way shall incorporate a minimum of a 29-foot *back-to-back* concrete street built to the City's standards.

DRAFT ORD 12.18.2017

(11) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences and the private roadways, drive aisles and drive approaches for the subject property associated with this development.

(12) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance

DRAFT ORDINANCE 12.18.2017

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: December 26, 2017

SUBJECT: SP2017-038; Ranch Trail Retail Center

The site plan submitted for the Ranch Trial Retail Center [*Case No. SP2017-038*], scheduled for action at the December 26, 2017 meeting, will be tabled to allow the applicant requiring additional time to address staff comments. This means that the projected Planning and Zoning Commission meeting will be held on *Tuesday, January 9, 2018.* No action will be required on this item.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: Sami Ibrahim; *DFW Distributor Petroleum, Inc.*

AGENDA ITEM: **SP2017-040;** *Retail Center & Convenience Store with Gasoline Sales*

SUMMARY:

Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting the approval of a *site plan* for the purpose of constructing two (2) single-story [*i.e. 11,550 SF retail center & 5,000 SF gas station*] buildings. The proposed retail center and gas station will be situated on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract No. 186 that is located at the southeast corner of the intersection of SH-276 and FM-549, is within the SH-276 Overlay (S*H-276 OV*) and FM-549 (FM-549 OV) Districts , and is zoned *Commercial* (C) *District*.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1*, Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a retail store with more than two (2) dispensers is a permitted by right use in a Commercial (C) District. The proposed site plan indicates a total of eight (8) dispensers. The *subject property* proposes two (2) ingress and egress access points, one along SH-276 and one located at the southwest corner of the property. The submitted site plan, landscape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the SH-276 Overlay (SH-276 OV) and FM-549 (FM-549 OV) Districts, and zoned Commercial (C) District. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*x=2.47-Acres; In Conformance*
Minimum Lot frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*20-Feet + 1/2*[1]	*x>28-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*x=10-Foot; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Building Height	*60-Ft w/o SUP[2]*	*x<60 Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*x=15%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*67*	*92 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x< 20%; Not In Conformance Variance Required*
Minimum Landscaping Percentage	*15%*	*x=25.5%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=15.5%; In Conformance*

NOTES: 1 Abutting residentially zoned property: 20 feet plus one-half the building height over 36 feet.
2. Maximum building height: 240 feet. Any structure over 36 feet shall require a specific use permit.

VARIANCE REQUESTS:

1) The applicant is requesting variances to the Unified Development Code (UDC) for the sections outlined below. As a note, a variance request to the SH-276 OV and the FM-549 OV Districts requires passage by a ¾ majority vote of those City Council members present, while a simple majority vote is required for a variance to the standards of the UDC. The requests are as follows:

   a) Section 6.13 (i.e. FM-549) and Sec. 6.14 (i.e. SH-276) Overlay District, of Article V, of the UDC – A variance to allow for not meeting the 20% natural or quarried stone requirement for the north building elevations of both buildings as established in Sec. 6.13.C.1 and 6.14.C.1 of Article V, of the Unified Development Code (UDC) by allowing for 12% on the north elevation of both buildings as depicted on the building elevations submitted. The north elevations are located at the rear of the property and are blocked from view by a 6-foot masonry wall. The variance would allow for 12% stone on the rear elevations of both buildings and requires approval by a 3/4 majority vote of the City Council. **[¾ *Majority Vote*]**

   b) Section 6.13 (i.e. FM-549) and Sec. 6.14 (i.e. SH-276) Overlay District, of Article V, of the UDC – A variance to allow for the buildings to not meet the four (4) side architecture requirements which requires all four sides of the building be finished with the same materials, detailing, and features primary elevation of both buildings. As established in Section 6.13.C.5, and Section 6.14.C.5, of Article V, of the Unified Development Code (UDC) the east and west elevations of the retail center and the south, east and west elevations of the convenience store do not incorporate the same elements (e.g. awnings, canopies) as the primary elevation. The variance would allow the retail center and convenience stores to be constructed as depicted on the elevations submitted. Furthermore, the approval would allow for no trees to be located behind the convenience store. This requires approval of a 3/4 majority vote of the City Council. **[¾ *Majority Vote*]**

   c) Article V, Section. 5.1.C, of the Unified Development Code (UDC) Standards - A variance to allow for not meeting the vertical and horizontal articulation standards for both buildings as follows: Retail Center - by allowing the north and south building elevations to not meet these standards and the Convenience Center – by allowing the north elevation to not meet these standards. **[*Simple Majority Vote*]**

2) Based on staff's review of the site plan the applicant will need to provide vertical walls in their detention areas, and according to the Engineering's Standards of Design and Construction Manual the City does not allow vertical walls. This means that the applicant will need to either request a variance to the City's detention requirements or provide underground detention. Staff has requested the applicant provide a written response addressing how they propose to address this issue. However as of the date of this report, the applicant has failed to reply to staff's request. Therefore staff has listed this as a variance for the for the Planning and Zoning Commission and City Council review.
[*Simple Majority Vote*]

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On November 28, 2017, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB requested the applicant provide a materials sample board and provide a perspective of the buildings. The ARB also recommended the applicant make changes to the building elevations so that the retail building matches the gas station building and creates more of a unified appearance between the architecture of the two (2) buildings. The ARB will provide a recommendation to the Planning and Zoning Commission during their next meeting on December 26, 2017.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The convenience store/gas station cannot incorporate a public paging system in conformance to the residential adjacency standards.

3) The gas station shall not incorporate a drive-through or walk-up window in conformance to the residential adjacency standards.

4) No outside storage or display shall be permitted for the gas station unless the applicant revises the site plan.

5) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

See Markups
Will need to request a variance for vertical walls in detention system
Add notes on sack mix for concrete
Add "fire lane" to one of the 24' public access easements
Need to show utilities on plan to ensure 5' clearance from all public utilities
Add note: No trees within 5' of any public utilites
Sewer pro-rata $1001.79/acre

The following reviews for Project SP2017-040 have been added: e-mail from Amy 12.07.2017 - See attachment -- dg

Here are my markups…again. They are going to need a variance for the vertical walls in the detention. Please add that to their case.

Thank you,
Amy Williams, P.E.

(11/22/2017 9:16 AM SH)
See mark ups.
Must design an 8" sewer line from east to west across the site. Include a 20' easement.
Area under canopy and dumpster to drain to an oil/water separator.
Extand fire lane to FM 549.
Parking spaces must be 20'x9'.
Pole sign is not allowed.
No structures in easements. Curbs included.
Stripe the south drive isle as no parking.
No vertical walls in detention. Max. side slope is 4:1. Need a variance if wanting to use vertical walls.
Upgrade water line to fire hydrant to 8". Include a 20' easement.
Add an O to "Proposed Fire Lane."
Will need to complete a TIA.
TxDOT permits required.
Impact fees.
4% Engineering

Engineering fees.
Sewer pro-rata 979.14/acre.
Must upgrade Mims Lift Station or pro-rata, whoever builds first.

(12/7/2017 8:37 AM AA) Fire lanes shall be clearly indicated width, radii, and construction details. Update plans to reflect the 2015 I-codes An approved water supply capable of supplying the required fire flow for fire protection shall be provided. A water flow test verifying capabilities shall be witnessed by the Fire Marshal Division prior to vertical construction. (1,000 gpm) Presence of automatic fire sprinkler system shall be indicated on the plans. Size and location of the underground water line servicing the fire sprinkler system shall be indicated on the plans. The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant. A minimum of a 5-foot wide sidewalk or other approved “all-weather” pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway. Location of Backflow prevention device on the fire sprinkler water supply line shall be indicated on the plans.

Comments to Address are on the Following Page

PLANNING COMMENTS -- Revised Plans - DAVID GONZALES - 12.20.2017

All staff comments are to be addressed for revised plans and resubmitted by Thursday, January 3, 2017. Please provide one (1) large copy [24" X 36" FOLDED] and one PDF version for a subsequent/final review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Provide label for all site plan documents with "Case No. SP2017-040" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
*** As a note, all variances to the SH-276 OV and FM-549 OV Districts require approval by a 3/4 majority vote of City Council:

The following are considered to be a request to Sec. 6.13 & Sec. 6.14 (Overlay District Standards), of Article V, of the UDC:

1. A minimum of 20% natural (or quarried) stone is required on all facades. The south elevation of both buildings [i.e. Retail Center & Convenience Store] building indicates 12% and does not meet the standards for the OV districts. The north elevations are located at the rear of the property and would be block from view by a 6-foot masonry wall. The variance would allow for 12% stone on the rear elevations of both buildings and requries approval of a 3/4 majority vote of the City Council.

2. Building design is to be architecturally finished on all four (4) sides (i.e. same materials, detail, and features) with a row of trees at the rear. The front elevation of both building meet this requirement; however, the east & west elevations of the retail center does not meet this standard, nor does the remaining facades of the convenience store (i.e. south, east & west elevations). There is a row of trees behind the retail center; however no trees are indicated along the rear of the convenience. The variance would allow the retial center and convenience stores to be constructed as depicted on the elevations submitted. Futhermore, the approval would allow for no trees to be located behing the convenience store. This requries approval of a 3/4 majority vote of the City Council.

3. Building design is to provide Vertical and Horizontal articulation on all facades. Both buildings do not meet the intent of this requirement for the front and rear facades. (requires approval by a simple majority vote of City Council).

EXCEPTION TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 1.5.2, of Article V, of the UDC, The access area of all refuse storage areas for trash dumpsters shall be screened with an opaque gate and shall not face a public street unless otherwise approved during site plan approval process. The trash dumpster is located at the rear of the retail center and is facing FM-549; however, it is approximately 265-ft from the property line.

Please address the following Planning Comments for each plan of the following plans submitted:

Site Plan:
1. Provide trash dumpster enclosure detail indicating the following: Enclosure walls are to be a minimum of 8-ft in height (overlay district requirement) with matchin exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. This revised plans did not provide the detail.
2. Dumpster location requires approval of the Planning and Zoning Commission -- not to face a public street.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
3. Provide label for all driveways as '24-ft firelane, public access, drainage & utility easements (as appropriate)' for entire site. I do not see the 24-ft firelane, public access easements on this revision (at a minimum). 4. Remove the box indicating 'Typical Paving Section'. Not to be on Site Plan submittal. Landscape Plan: 1. The plan as submitted meets or exceeds the intent of the UDC and the overlaydistrict standards as established. Photometric Plan: 1. Re-label the plan indicating 'Photometric Plan' and remove site plan from the heading. 2. With the exception relabeling the plan to Phototomeric Plan, the plan as submitted meets or exceeds the intent of the UDC and the overlay district standards as established. Building Elevations: 1. See compliance standards for all Variances and Exception as listed above. 2. Elevations require a recommendation of the Architectural Reivew Board (ARB) forwarded to the Planning and Zoning Commission. See scheduled meeting date anc timebelow to meet with the ARB regarding the revised elevations. The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745. Meeting Dates to Attend: Architectural Review Board: December 26, 2017 (5:00 p.m.) [For recommedation to P&Z or (Subsequent meeting if necessary)] Planning - Action: December 26, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)] City Council - Action: January 2, 2018 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]							
PLANNING	David Gonzales	11/18/2017	11/25/2017	11/20/2017	2	COMMENTS	See comments

Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of a site plan for a gas station on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.20.2017

All staff comments are to be addressed and resubmitted by Tuesday, December 5, 2017. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed are as follows:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Re-label revised site plan documents with "Case No. SP2017-040" at the lower right corner of each plan.
3. All exterior signage requires submittal and approval of a separate building permit through the building inspections department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
*** As a note, all variances to the SH-276 OV and FM-549 OV Districts require approval by a 3/4 majority vote of City Council:

The following are considered to be a request to Sec. 6.13 & Sec. 6.14 (Overlay District Standards), of Article V, of the UDC:

1. Secondary materials are not to exceed 10% on any facade. On both buildings, the front facade as submitted indicates the use of 31% EIFS and does not meet the standard establihed for the OV districts.
2. A minimum of 20% natural (or quarried) stone is required on all facades. The south elevation of the Retail Center building indicates 12% and does not meet the standards for the OV districts.
3. Building design is to be architecturally finished on all four (4) sides (i.e. same materials, detail, and features) with a row of trees at the rear. The front elevation of both building meet this requirement; however, the remaining facades for both buildings do not meet this standard (south, east & west elevations). Also, provide a row of trees at the rear of both buildings.
4. Building design is to provide Vertical and Horizontal articulation on all facades. Both buildings do not meet the intent of this requirement for the front and rear facades. (requires approval by a simple majority vote of City Council)

EXCEPTIONS TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 6.13 & Sec. 6.14, of Article V, of the UDC, a natural or quarried stone product is required on all facades.
The applicant is requesting the use of a cultured stone product (i.e. Dutch Quality Stone). The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

* That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size and detail of natural stone;

* That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

* That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

* That the use of the highest quality synthetic mineral oxides should be used to infuse the surface with rich, authentic tones; and

* That the manufactured stone product shall have a minimum warranty of 75 years.

The request to allow for a cultured stone product requires a recommendation from the Architectural Review Board. Please provide a manufacures cut sheet/product description indicating compliance with the standards as listed above.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Trash dumpster enclosure detail. Enclosure walls are to be a minimum of 8-ft in height with matching exterior materials as the primary building and includes a self-latching gate mechanism. Gate to be opaque. Provide Detail.
2. Re-label all easements as 24-ft firelane, public access, drainage & utility easements (as appropriate) for entire site.
3. Pole sige requries a separate permit through the building inspections department.

Landscape Plan:
1. Add tree icons to the Plant Schedule to easily identfy each tree species on the plan.
2. Minimum tree size within the overlay districts are four (4) inch trees. Change table to reflect 4-inches.
3. Overlay district standards require 2 large canopy trees (4-inch) per 100 linear feet within the landscape buffer. SH-276 requires a minimum of 9 - 4" trees. Provide one (1) additional tree.
4. Overlay district standards require 4 accent trees (4-ft height) per 100 linear feet within the landscape buffer. SH-276 & FM-549 do not indicate accent trees - provide the minimums required within each landscape buffer.
5. Provide one row large canopy trees at the rear of the the property.
6. Parking lot landscapeing requires 1 large canopy tree per 10 parking spaces. 84 parking spaces requires a minimum of 9 trees. Provide additional trees within the site.
7. Provide a row of shrubs along Hwy 276 and FM-549 for head light screening.
8. Will there be any additionallandscape materials around the building (e.g. flowers, shrubs, etc.)?

Photometric Plan:
1. Provide foot candle readings for the entire site to the property lines. Maximum intensity of the lighing is not to exceed 0.2-FC at the property lines. Will re-evaluate new plan for compliance.
2. Maximum overall height of the lighting pole standard is not to exceed 20-ft (includes base, light pole, and fixtures). Provide detail.
3. Maximum under canopy light levels are not to exceed 35-FC. Reduce canopy lighting. Also, all lighting fixtures are to be recessed into thecanopy.
4. Maximum light levels for the site not to exceed 20-FC in order to control glare. Reduce all light levels exceeding this standard.

Building Elevations:
1. See compliance standards for all Variances and Exception as listed above.
2. Dash in RTU's. Must be screened from rights-of-way and adjacent properties.
3. Elevation requires a recommendation of the Architectural Reivew Board (ARB). See scheduled meeting date below.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. Ifyou have any quesitons regarding this case, please feel free to contact DavidGonzales, AICP with thePlanning Department at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: November 28, 2017 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: November 28, 2017 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Architectural Review Board: December 12, 2017 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: December 12, 2017 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: December 18, 2017 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

NOTES:
1. ALL WORK MUST CONFORM TO THE CITY OF ROCKWALL &NCTCOG STANDARDS AND DETAILS.
2. ALL WORK ~~IN PUBLIC RIGHT-OF-WAY~~ SHALL CONFORM TO THE CITY OF ROCKWALL STANDARDS AND DETAILS.

All work shall conform to City of Rockwall Standards and Details and TXDOT

GENERAL NOTES:
1. HANDICAPPED PARKING AREAS SHALL BE DESIGNED AND PROVIDED PER CITY STANDARDS.
2. APPROVAL OF THE SITE PLAN IS NOT FINAL UNTIL ALL ENGINEERING PLANS ARE APPROVED.
3. FIRE LANES SHALL BE DESIGNED AS PER CITY STANDARDS.
4. ALL ELECTRICAL TRANSMISSION, DISTRIBUTION AND SERVICE LINES MUST BE UNDERGROUND.
5. PLEASE CONTACT THE BUILDING INSPECTION DEPARTMENT TO DETERMINE THE TYPE OF CONSTRUCTION AND OCCUPANCY GROUP.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING THE LOCATION OF ALL EXISTING UTILITIES ANS EASEMENT PRIOR TO START OF OPERATIONS. CONTRACTOR SHALL PRESERVE AND PROTECT ALL EXISTING UTILITIES FROM DAMAGE DURING CONSTRUCTION.
7. AREA UNDER THE CANOPY WILL DRAIN TO AN OIL/WATER SEPARATOR

CPY Series

CPY250™ LED Canopy/Soffit Luminaire

Product Description

The CPY250™ LED Canopy/Soffit Luminaire has an extremely thin profile constructed of rugged cast aluminum. It can be surface mounted easily from below the canopy deck and can be pendant mounted. Direct imaging of the LEDs is eliminated with a highly efficient patterned flat or 0.91° [23mm] drop glass lens.

Applications: Petroleum canopies, CNG fueling stations, low-medium bay general lighting, soffits

Performance Summary

- Made in the U.S.A. of U.S. and imported parts
- Initial Delivered Lumens: Up to 31,784
- Efficacy: Up to 142 LPW
- CRI: Minimum 70 CRI
- CCT: 4000K (+/- 300K), 5700K (+/- 300K) standard
- **Limited Warranty*:** 10 years on luminaire/10 years on ColorNext SolidGuard™ finish
- IP66 Rated Direct Mount only!
- Class I, Division 2 Hazardous Location for select models

*See http://lighting.cree.com/warranty for warranty terms

Accessories

Field-installed

Direct Mount Luminaires
Canopy Upgrade Kits (1 Required, order separately)
- MA-KBC250W – for use with Jet-Fit(tm), 3"x6" [152mm] square
- MA-KBC250W – for use with Jet-Fit(tm), 6"x6" [152mm] square
- MA-KBC250W – for use with LCE Sidearm or Versatec, 10.25" [260mm] square
- MA-KBC250W – for use with 4in Canopy Sidearm or Big-4 Lite, 8"x8" [203mm] square
- MA-KBC250W – for use with Flare Max-N, 14.50" [368mm] square
- MA-KBC250W – for use with LCE Sidearm or 4M Versatec Clad, 23.25" [590mm] square, or 15.25" [388mm] X
- **Direct Mount Junction Box/Base Kit**
- MA-BKC-BOX – 6.5" [165mm] x 6.5" [165mm] NPT [mm] Base Kit
- Direct Mount Canopy Plate
- MA-KBC250PM – 24.17" [614mm] Heavy Plate Only [10 ga. wall]
- MA-KBC250PMTEM – 24.17" [614mm] Heavy Plate [10 ga. wall] w/12" [305mm] Stover Point [16 ga. steel]
- NOTE: Minimum canopy deck opening is larger than what is required for mounting the CPY250 luminaire. Minimum deck opening 8.19" x 11" [208mm x 279mm]
- MA-KBC250PMTEMX – 24.17" [614mm] Heavy Plate [10 ga. wall] w/16" [406mm] Stover Point [16 ga. steel]
- NOTE: Minimum canopy deck opening is larger than what is required for mounting the CPY250 luminaire. Minimum deck opening 12" x 16" [305mm x 406mm]

*Must specify color

Pendant Mount Luminaires
Pendant Mount Kits
- MA-PKBC250** – 4' [1219mm] pendant
- MA-PKBC250** – 8' [2438mm] pendant
- MA-PKBC250** – 12' [3658mm] pendant
- Includes two conduit fittings and 120 V NPT 4-pin threaded on two ends

Small Field Remote
- MA-REMSMRM
- For successful implementation of the proximity-enable small-sphere, a minimum of one field-tested remote is required

CREE

Cree Edge™ Series

LED Area/Flood Luminaire

Product Description

The Cree Edge™ Series has a slim, low profile design. Its rugged cast aluminum housing minimizes wind load requirements and features an integral, weathertight LED driver compartment and high performance aluminum heat sinks. Various mounting choices: Adjustable Arm, Direct Arm, Direct Arm Long, or Slip Arm (details on page 3). Includes a wall/glare guard.

Applications: Parking lots, walkways, campuses, car dealerships, office complexes, and internal roadways

Performance Summary

- Patented InterOptic® Product Technology
- Made in the U.S.A. of U.S. and imported parts
- CRI: Minimum 70 CRI
- CCT: 4000K (+/- 300K), 5700K (+/- 300K) standard
- **Limited Warranty*:** 10 years on luminaire/10 years on ColorNext SolidGuard™ finish

LR5-18L

6" LED Downlight

Product Description

The LR5-18L LED downlight delivers 1800 Lumens of exceptional 90+ CRI light while achieving 90 lumens per watt! This breakthrough performance is achieved by combining the high efficacy and high-quality light of Cree TrueWhite® Technology, with an integrated driver and thermal management design. The LR5-18L is available in warm or neutral color temperatures and has a variety of trim options. It easily installs into Cree slim-can 6 LEN housings or may be retrofitted with a CLD5 adapter.

Applications: Commercial new construction and retrofit

Performance Summary

- 90Cree Cree TrueWhite® Technology
- Active Color Management
- Delivered Light Output, 1800 lumens
- Input Power: 20 watts
- CRI: 90
- CCT: 2700K, 3000K, 3500K, 4000K
- **Limited Warranty*:** 10 years
- **Lifetime:** Designed to last 50,000 hours
- **Shielding:** Dimmable to 5%
- Suitable for non-insulated ceilings only

CPY250™ LED Canopy/Soffit Luminaire

Product Specifications

CONSTRUCTION & MATERIALS
- 10in. low profile design
- Easy mounting and servicing from below the deck
- Luminaire housing is constructed of rugged cast aluminum with integral, heat sink specifically designed for LED
- Flat lens is 0.125" tempered Soltre® glass
- Drop lens is 0.125" molded borosilicate glass
- Direct mount is available for use in single or double skin canopies with a minimum 6.5" [165mm] wide panels and a minimum .33 gauge, 0.030" [0.7mm] canopy thickness
- Direct mount luminaire mounts directly to the canopy deck with the drilling of a single 2" to 4" [51mm to 102mm] round hole, is secured in place with self-sealing screws that provide a weather-tight seal and includes 3/4" [19mm] conduit entry for direct wire feed
- Standard pendant mount includes a mounting bracket and a J-Box for customer wiring and is intended to be mounted by 3/8-3" standard [by others]
- Hazardous location pendant mount has a threaded hub which accepts 3/4" NPT conduit [by others] and secures with a 1/4"-20 set screw
- Exclusive Cree ColorSelect® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Black, bronze, silver and white are available

WEIGHT: 17.8 lbs. [8.1kg]

ELECTRICAL SYSTEM
- **Input Voltage:** 120-277V or 347-480V (A, B, D and E Input Power Designators only), 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 4kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **10V Source Current:** 0.15mA
- **Operating Temperature Range:** Applications Requiring Class 1 Division 2 Hazardous Location Ratings: -40°C – +25°C, 4-Input Power Designators: -40°C – +40°C (direct mount to pipework), -40°C – +45°C (direct mount to sheet metal/suspended) B & E Input Power Designators: -40°C – +25°C (pipework), -40°C – +40°C(direct metal/suspended), C Input Power Designator: -40°C – +40°C (pipework), -40°C – +40°C (direct metal/suspended), D Input Power Designators: -40°C – +5°C (direct metal/suspended)

WARNING: Exceeding maximum operating temperature may result in thermal fallback

REGULATORY & VOLUNTARY QUALIFICATIONS
- cULus Listed
- Suitable for wet locations when ordered with DM mount
- Suitable for damp locations when ordered with PC mount
- Suitable for wet locations when ordered with PC mount and HZ option
- Enclosure rated IP66 per IEC 60529 when ordered with DM mount
- Consult factory for CE Certified products
- 6kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15, Subpart B, Class A standards for conducted and radiated emissions
- cULus and CLC Premium qualified versions available. Please refer to www.designlights.org/QPL for most current information
- Luminaire and finish exclusively tested to withstand 1,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy America(n) requirements within ARRA
- RoHS compliant. Consult factory for additional details
- Class I, Division 2 Hazardous Location rated when ordered with the HZ option. Not available with DM, HL, MSO* or PWL options. Consult factory for additional details.
- NSF Certified when ordered with DM mount. Not available with HZ, HL or PWL options. Refer to http://info.nsf.org/Certified/Food/ for additional details

Cree Edge™ LED Area/Flood Luminaire

Product Specifications

CONSTRUCTION & MATERIALS
- 10in. low profile, slide/plug and tool requirements
- Luminaire sides are rugged die cast aluminum with integral, weatherlight LED driver compartment and high performance aluminum heat sinks
- Slip and DL mount utilizes conservative interlocking mounting method. Mounting is rugged die cast aluminum, mounts to 3-4" [76-102mm] diameter round pole and secures to pole with (2) 5/16-18 HEX bolts spaced at 2" [51mm] centers
- AA and DA mounts are rugged die cast aluminum and mount to 3" [3 inch] IP.D.S.P.P. [76mm] O.D. tenons
- Includes tool-less tilt adjustment
- Luminaire Color-Set ColorSelect® Finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, chemical degradation and abrasion. Black, bronze, silver, and white are available
- **Weight:** See Dimensions and Weight Charts on pages 1 and 32

ELECTRICAL SYSTEM
- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- DA and DL mounts are rugged die cast aluminum and mount to 3" [3 inch] O.D.S.P.P. [76mm] O.D. tenons
- Includes tool-less tilt adjustment
- Luminaire Color-Set ColorSelect® Finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, chemical degradation and abrasion. Black, bronze, silver, and white are available
- **Weight:** See Dimensions and Weight Charts on pages 1 and 32

ELECTRICAL SYSTEM
- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- DA and DL mounts designed with integral weather-light electrical box with terminal strips (120w-700w) for easy power hookup
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **Maximum VA* (Series Current):** 31 (0.26Amp) 10mA, 60 (0.5A) 350mA and 40-80 (0.33-0.66a), 100-160 (0.83-1.33Amp)

REGULATORY & VOLUNTARY QUALIFICATIONS
- cULus Listed
- Suitable for wet locations
- Enclosure rated IP66 per IEC 60529 when ordered without P1 arm options
- Consult factory for CE Certified products
- Certified to ANSI C136.31-2001, 3G bridge test even-pass vibration standards when ordered with HA, TA and TS mounts
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15 standards for conducted and radiated emissions
- Luminaire and finish exclusively tested to withstand 3,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- DLC qualified. Exceptions apply when ordered with full backlight control or DNF option with 21 LEDs. Please refer to www.designlights.org/QPL for most current information
- Meets Buy American requirements within ARRA

CREE

LR6-18L

Product Specifications

CREE TRUEWHITE® TECHNOLOGY
A revolutionary way to promise high-quality white light, Cree TrueWhite® technology is a patented approach that delivers an exclusive combination of 90+ CRI, min-R9, light chromaticity tolerance, and lifelong color consistency, all while maintaining high luminous efficacy – a true no-compromise solution.

CONSTRUCTION & MATERIALS
- Durable all-aluminum housing protects the light source. Adjustable flip-door provides visual access for field cabling fit
- Thermal management system uses integral heat sink to conduct heat away from LEDs; for optimal performance, LED junction temperature stays below specified maximum even when installed in still, unventilated installations
- Suitable for non-insulated ceilings only
- One-piece aluminum lower reflector with matte finish white also conceals ring tool away from LEDs. It creates a comfortable visual transition from the lens to the ceiling plane and easily accommodates 2.5 in. [64 mm] trims

OPTICAL SYSTEM
- Unique combination of reflective and refractive optical components achieves a smooth, comfortable appearance while eliminating glare-ative, hot spots and shadowing gaps
- Carefully engineered together to optimize distribution, balancing the delivery of high-performance beam on horizontal surfaces with an ideal amount of light on walls and vertical surfaces. This minimizes the perception of hotspots on walls
- Deep set diffusing lens shields direct view of LEDs and provides greater visual cut-off

ELECTRICAL SYSTEM
- Integral, high-efficiency driver and power supply
- Power Factor: > 0.9
- Input Voltage: 120V, 50/60 HZ
- Dimming: Dimmable to 5% with certain (broadcast) dimmers*

REGULATORY & VOLUNTARY QUALIFICATIONS
- **ENERGY STAR® qualified**
- cULus Listed
- Exceeds California Title 24 high efficacy luminaire requirements
- Suitable for damp locations

*Reference www.cree.com/lighting for recommended dimmers

Installation

- Designed to easily install in standard 6" housings from One and other manufacturer
- Quick-mount system utilizes a unique retention button. Simply attach socket to LR6-18L, then light to easily position and slide into housing

NOTE: Reference www.cree.com/lighting for detailed installation instructions. Reference www.cree.com/lighting for a list of compatible housings.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: Steven J. Goldberg *of Cogent Realty Advisors, LLC.*

AGENDA ITEM: **MIS2017-017;** Special Request – *Emma Jane & Sam Houston*

SUMMARY:

Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a single-family home on a 0.0172-acre tract of land identified as a portion of Lot 53 of the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for the approval of a deviation from the minimum front yard setback and minimum lot depth for a property located within the Southside Residential Neighborhood Overlay (SRO) District and as stipulated by the Unified Development Code (UDC). The purpose for the request is to allow for the construction of a single family residential home as depicted on the proposed site plan. The property is situated at the northwest corner of Emma Jane Street and Sam Houston Street.

It should be noted that the *subject property* is considered to be a double frontage lot and requires a minimum setback of 20-ft along both frontages [*i.e. Emma Jane & Sam Houston*]. The proposed site plan submitted by the applicant shows that the *subject property* will have a single family home oriented towards Emma Jane Street, which would allow for a lot depth of less than 100-ft [*i.e. 49-ft 6 inches*]. The applicant has stated in his letter of request that the purpose for this orientation of the home is due to numerous utility service improvements [*i.e. utility poles, telephone connection box, fire hydrant, etc.*] located along the Sam Houston Street frontage. With this being said, the applicant is requesting a special exception to the minimum front yard setback adjacent to Emma Jane Street, requesting to reduce this setback from 20-feet to 10-feet. This is being requested due to the lot depth of approximately 49-feet. If both front yard setbacks were used, this would create an approximately 23-foot depth building envelop. With this being said, the applicant is requesting a special exception to the minimum lot depth to reduce it from 100-feet to 49-feet as depicted on the proposed site plan. Finally, the applicant is requesting to reduce the driveway length from the required 20-feet to 10-feet. The SRO requires a minimum of two (2) off-street parking spaces and states that "(a)n enclosed garage shall not be considered in meeting the off-street parking requirements."

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for the development of the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*5,000 SF*	*X= 7,772 SF; In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~156-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~49-Feet; Not In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=10-Feet; Not In Conformance*
Minimum Side Yard Setback	*6-Feet*[1]	*X=6-Feet; In Conformance*
Minimum number of off street parking spaces required	*Two (2)*[2]	*X=0; Not In Conformance*

NOTES: 1. Side setback is 6-feet for internal lots and 20-feet when abutting a street.
2. (a) One single-family dwelling unit: Two (2) Parking Spaces. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All other uses: see article VI, Parking and Loading, of the Unified Development Code.

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC grants the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e. Southside Residential Neighborhood Overlay (SRO) District*]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approvals of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The property will need to be replatted prior to the issuance of building permits.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

December 15, 2017

Mr. Ryan Miller
Director of Planning and Zoning
City of Rockwall Planning & Zoning Department
385 S. Goliad Street
Rockwall, Texas 75032

Re: Lot 53 Emma Jane Street (Northwest corner of Sam Houston and Emma Jane)
Rockwall, Texas 75032

Dear Mr. Miller:

We are requesting consideration of special request in furtherance of neighborhood preservation. The property of concern is situated at the northwest corner of Sam Houston and Emma Jane Streets and per the Rockwall Central Appraisal District consists of one parcel measuring 49.6 feet along Sam Houston Street by 159 feet along Emma Jane Street. Our desire is to develop the site with a single family detached residential dwelling unit with the front oriented toward Emma Jane Street.

As you will note in the attached photos, numerous utility service improvements including two wood utility poles with overhead lines, metal telephone connection box and fire hydrant exist along the parcel's Sam Houston Street frontage. We feel as though the aesthetics of any home built upon the subject parcel would be greatly enhanced if the front is oriented toward Emma Jane Street and away the unsightly utility improvements that line the site's frontage along Sam Houston Street.

In order to facilitate development of a house oriented toward Emma Jane Street, we are requesting various waivers to the requirements stipulated for property situated in the Southside Residential Neighborhood Overlay (SRO) District. Specifically, we are requesting special exceptions to the minimum lot depth requirement from 100 feet to 49.6 feet, waiver of the dual front yard setback requirement for the Emma Jane frontage from 20 feet to 10 feet and rear yard setback requirement from 10 feet to 6 feet. Furthermore, we are seeking approval to construct the house with a front entry garage that faces the street (as is typical of other existing and under construction houses in the immediate area). It is specifically noted that if the site was free of unsightly utility improvements and there were no impediments in orienting the house toward Sam Houston Street, we would not be seeking approval for most of the requested special exceptions noted above.

Attached please find photographs of the subject site, proposed site plan with requested setbacks and foot print of an approximate 1,800 square foot house oriented toward Emma Jane Street and sample front elevation for a home that could be built upon the subject site.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/26/2017

APPLICANT: Peter Muhl; *Rockwall Habitat for Humanity*

AGENDA ITEM: **MIS2017-018***; Special Request for 801 Lamar Street*

SUMMARY:

Discuss and consider a request by Peter Muhl of Rockwall Habitat for Humanity for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for the approval of a deviation from the minimum lot size and minimum lot depth for a property in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subject property to be subdivided for the construction of a single-family home on Lot 2. The subject property has an existing single-family home situated on it. The applicant has submitted a replat [*P2017-067*] to subdivide one (1) lot into two (2) lots for the construction of a second single-family home on Lot 2. The applicant is requesting a special exception to the minimum lot size to allow a reduction from 5,000 SF to 4,435 SF on Lot 2; Lot 1 conforms to the requirements stipulated in the Unified Development Code (UDC). Additionally, the applicant is requesting a special exception to the minimum lot depth to reduce it from 100-feet to 75-feet for Lots 1 and 2. Staff should note that the proposed single-family home is allowed by right in a Single-Family 7 (SF-7) District.

The Southside Residential Overlay (SRO) District was created to provide the flexibility necessary for infill and redevelopment within the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

		Conformance to the Standards	
Ordinance Provisions	*Zoning District Standards*	*Lot 1*	*Lot 2*
Minimum Lot Area	*5,000 SF*	*X~5,312 SF; In Conformance*	*X~4,435 SF; Not In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~130-Feet; In Conformance*	*X~58-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~75-Feet; Not In Conformance*	*X~75-Feet; Not In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=20-Feet; In Conformance*	*X=20-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet*	*X=6-Feet; In Conformance*	*X=6-Feet; In Conformance*

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC allows the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e.*

Southside Residential Neighborhood Overlay (SRO) District]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) Prior to developing Lot 2, Lamar Street will need to be extended [*i.e. 20-foot reinforced concrete access*] to the south property line of Lot 2 in order to provide access.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

MIS2017-018 801 Lamar Street
Please address the following comments (M= Mandatory Comments; I = Informational Comments).
I.1 This is a request by Peter Muhl of Rockwall Habitat for Humanity for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (MIS2017-018) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.
I.5 The projected City Council meeting date and subsequent approval for this request is January 2, 2018.

BEGINNING at an "X" found chiseled in concrete on the easterly line of Lamar Street (20–foot right–of–way) dedicated in the Sanger Bros' Addition and recorded in Cabinet Q, at Page 100 of the Deed Records of Rockwall County, Texas, at the northwest corner of said Rockwall Habitat of Humanity Tract and at the southwest corner of a 0.14–acre tract land as described in a General Warranty Deed from Paul Ray Dabney to Rockwall Habitat for Humanity, dated August 15, 2008 and being recorded in County Clerk File Number 20080000403715, in the County of Rockwall, Texas, said "X" having coordinates of:
X= 2,595,528.24
Y= 7,024,839.66;

THENCE N 88°58'25"W with the common line between the said 0.14–acre tract and the said 0.22–acre tract a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the northeast corner of said 0.22–acre tract;

THENCE S 00°19'02"E a distance of 130.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the southeast corner of said 0.22–acre tract;

THENCE N 88°58'25"W a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found on the easterly right–of–way line of aforementioned Lamar Street;

THENCE N 00°19'02"W with the the said easterly right–of–way line of said Lamar Street for a distance of 130.00 feet to the PLACE OF BEGINNING and containing 0.22 acres of land.

STATE OF TEXAS §
§
COUNTY OF ROCKWALL §

NOW THEREFORE, KNOW ALL BY THESE PRESENTS:

I the undersigned owner of the land shown on this plat, and designated herein as the LAMAR STREET HABITAT No. 1 subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have mortgage or lien interest in the LAMAR STREET HABITAT No. 1 subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accomidation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or paced upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective systems on any of these easement strips; and any public utility shall at all times have the right of ingress and egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I,my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

EXECUTED this the _____ day of _____, 2016.

Before me, the undersigned authority, on this day personally appeared _____, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same for the purposes and consideration therein stated.

GIVEN under my hand and seal of office this _____ day of _____, 2017.

_____
Notary Public for and in the State of Texas

My commission expires: _____

SURVEYOR'S CERTIFICATE

NOW THEREFORE, KNOW ALL BY THESE PRESENTS:

That I Wayne C. Terry, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly places under my personal supervision.

_____
Wayne C. Terry
Registered Professional Land Surveyor
Registration No. 4184

APPROVED

I hereby certify that the above and forgoing plat of an addition to the City of Rockwall, Texas, was approved by the City Planning Director of the City of Rockwall on the _____ day of _____, 2017.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the County Clerk of Rockwall, County, Texas, within one hundred eighty (180) days from said date of final approval.

Said addition shall be subject to all the requirements of the Subdivision Regulations of the City of Rockwall.

Z2017-065 Chick-Fil-A

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a Specific Use Permit (SUP) for a restaurant with a drive-through or drive-in on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205].

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (Z2017-065) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Worksession for this case is December 26, 2017. The Planning and Zoning Meeting for this case is January 9, 2018.

I.5 The projected City Council meeting date and subsequent approval for this request is January 16, 2018 and February 5, 2018.

FIELD NOTES

TRACT 1:
BEING A TRACT OF LAND LOCATED IN THE J. CADLE SURVEY, ABSTRACT No. 65, ROCKWALL COUNTY, TEXAS, ALL OF LOT 1 AND A PORTION OF 2, BILLY PEOPLE'S ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET A, SLIDE 277, PLAT RECORDS, ROCKWALL COUNTY, TEXAS (P.R.R.C.T.) AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING AT A POINT IN THE SOUTHEAST LINE OF WEST YELLOWJACKET LANE, (A VARIABLE WIDTH RIGHT-OF-WAY), SAID POINT BEING THE WEST CORNER OF SAID LOT 2;

THENCE N 45°05'27" E, ALONG THE SOUTHEAST RIGHT-OF-WAY LINE OF SAID WEST YELLOWJACKET LANE AND THE NORTHWEST LINE OF SAID LOT 2, A DISTANCE OF 138.69 FEET TO A POINT, BEING THE WEST END OF A RIGHT-OF-WAY CORNER CLIP AT THE INTERSECTION OF THE SOUTHEAST RIGHT-OF-WAY LINE OF SAID WEST YELLOWJACKET LANE WITH THE SOUTHWEST RIGHT-OF-WAY LINE OF SOUTH GOLIAD STREET (A VARIABLE WIDTH RIGHT-OF-WAY);

THENCE S 83°00'35" E, ALONG SAID RIGHT-OF-WAY CLIP, A DISTANCE OF 19.59 FEET TO A POINT IN THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET, AND THE NORTHEAST LINE OF SAID LOT 2, SAID POINT BEING THE EAST END OF SAID RIGHT-OF-WAY CLIP;

THENCE S 30°50'38" E, ALONG THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET AND THE NORTHEAST LINE OF SAID LOT 2, AT A DISTANCE OF 94.11 FEET, PASSING THE EAST CORNER OF SAID LOT 2 AND THE NORTH CORNER OF SAID LOT 1, CONTINUING ALONG THE NORTHEAST LINE OF SAID LOT 1, IN ALL A TOTAL DISTANCE OF 194.11 FEET TO A POINT BEING THE EAST CORNER OF SAID LOT 1 AND THE NORTH CORNER OF LOT 2, LORETTA ANDERSON ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET C, SLIDE 153, P.R.R.C.T.;

THENCE S 59°08'10" W, DEPARTING THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET, ALONG THE SOUTHEAST LINE OF SAID LOT 1 AND THE NORTHWEST LINE OF SAID LOT 2 LORETTA ANDERSON ADDITION, A DISTANCE OF 150.00 FEET TO A POINT, BEING THE SOUTH CORNER OF SAID LOT 1 AND THE EAST CORNER OF LOT 1R MUCKLEROY ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET D, SLIDE 185, P.R.R.C.T.;

THENCE N 30°50'38" W, DEPARTING THE NORTHWEST LINE OF SAID LOT 2 LORETTA ANDERSON ADDITION, ALONG THE SOUTHWEST LINE OF SAID LOT 1 AND THE NORTHEAST LINE OF SAID LOT 1R, AT A DISTANCE OF 100.00 FEET, PASSING THE WEST CORNER OF SAID LOT 1 AND THE SOUTH CORNER OF SAID LOT 2, BLOCK A, CONTINUING ALONG THE SOUTHWEST LINE OF SAID LOT 2, BLOCK A, AT A DISTANCE OF 167.31 FEET, PASSING AN "X" CUT FOUND BEING THE NORTH CORNER OF SAID LOT 1R, CONTINUING IN ALL A TOTAL DISTANCE OF 172.47 FEET TO THE PLACE OF BEGINNING AND CONTAINING 0.658 ACRES (28,662 SQUARE FEET) OF LAND, MORE OR LESS.

TITLE NOTES

THIS SURVEY WAS PREPARED WITH BENEFIT OF A COPY OF COMMITMENT FOR TITLE INSURANCE PREPARED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, GF. No. 4715001926, EFFECTIVE DATE SEPTEMBER 6, 2017, ISSUED DATE SEPTEMBER 19, 2017.

10d. THE 25' BUILDING SETBACK LINE SHOWN ON THE PLAT RECORDED IN CAB. A, SL. 277, P.R.R.C.T., IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON.

10e. THE UNIDENTIFIED 10'X10' EASEMENT SHOWN ON THE PLAT RECORDED IN CAB. A, SL. 277, P.R.R.C.T., IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON.

10f. THE EASEMENT RECORDED IN VOL. 65, PG. 50, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT.

10g. THE SUBJECT TRACT IS A PORTION OF THE LANDS DESCRIBED IN THE DEED RECORDED IN VOL. 46, PG. 41, D.R.R.C.T.

SURVEYOR'S NOTES

1. ACCORDING TO SURVEYOR'S INTERPRETATION OF INFORMATION SHOWN ON THE NATIONAL FLOOD INSURANCE PROGRAM (NFIP) "FLOOD INSURANCE RATE MAP" (FIRM), MAP No. 48397C0040L, MAP REVISED SEPTEMBER 26, 2008, ALL OF THE SUBJECT TRACT LIES WITHIN ZONE "X", DEFINED BY THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, FEDERAL INSURANCE ADMINISTRATION, OR THE FEDERAL EMERGENCY MANAGEMENT AGENCY AS BEING "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOOD PLAIN."

2. THE ABOVE REFERENCED "FIRM" MAP IS FOR USE IN ADMINISTERING THE "NFIP"; IT DOES NOT NECESSARILY SHOW ALL AREAS SUBJECT TO FLOODING, PARTICULARLY FROM LOCAL SOURCES OF SMALL SIZE, WHICH COULD BE FLOODED BY SEVERE, CONCENTRATED RAINFALL COUPLED WITH INADEQUATE LOCAL DRAINAGE SYSTEMS. THERE MAY BE OTHER STREAMS, CREEKS, LOW AREAS, DRAINAGE SYSTEMS OR OTHER SURFACE OR SUBSURFACE CONDITIONS EXISTING ON OR NEAR THE SUBJECT PROPERTY WHICH ARE NOT STUDIED OR ADDRESSED AS PART OF THE "NFIP".

3. THE UNDERGROUND UTILITIES SHOWN HEREON ARE FROM FIELD SURVEY INFORMATION MARKED BY UTILITY LOCATORS, VISIBLE IMPROVEMENTS AND/OR EXISTING DRAWINGS. THIS SURVEYOR MAKES NO GUARANTEE THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN SERVICE OR ABANDONED. THIS SURVEYOR FURTHER DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN HEREON ARE IN THE EXACT LOCATION INDICATED. THIS SURVEYOR HAS NOT PHYSICALLY LOCATED OR DESIGNATED THE UNDERGROUND UTILITIES.

4. ALL BEARINGS SHOWN HEREON ARE CORRELATED TO THE TEXAS STATE PLANE COORDINATE SYSTEM, NORTH CENTRAL ZONE 4202, NAD OF 1983, AS DERIVED BY FIELD OBSERVATIONS UTILIZING THE RTK NETWORK ADMINISTRATED BY WESTERN DATA SYSTEMS.

5. THIS SURVEY WAS PREPARED WITH BENEFIT OF A COPY OF COMMITMENT FOR TITLE INSURANCE PREPARED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, GF. No. 4715001926, EFFECTIVE DATE SEPTEMBER 6, 2017, ISSUED DATE SEPTEMBER 19, 2017.

6. THE SUBJECT TRACT CONTAINS STRIPED PARKING SPACES, HOWEVER, AT THE TIME OF THE SURVEY, MANY STRIPES HAVE BECOME TOO OLD AND/OR DESTROYED AND FOR AN ACCURATE COUNT.

7. ACCORDING TO DEVELOPMENT INVESTIGATION REPORT PREPARED FOR CHICK-FIL-A, INC., PREPARED BY SITE DEVELOPMENT, INC., PROJECT No. 04222, DATED OCTOBER, 10, 2017, THE SUBJECT TRACT IS ZONED "GR", GENERAL RETAIL, WITH STATE HIGHWAY 205 OVERLAY. SEE ZONING TABLE SHOWN HEREON.

8. ALL MATTERS SHOWN ON RECORDED PLAT PROVIDED TO THE SURVEYOR ARE SHOWN ON THE SURVEY.

9. AT THE TIME OF THE SURVEY, THERE WAS NO EVIDENCE OF CURRENT EARTH MOVING WORK OBSERVED IN THE PROCESS OF CONDUCTING THE FIELDWORK.

10. AT THE TIME OF THE SURVEY, SURVEYOR WAS NOT AWARE OF ANY PROPOSED CHANGES IN STREET RIGHT-OF-WAY. THERE WAS NO EVIDENCE OF RECENT STREET OR SIDEWALK CONSTRUCTION OBSERVED IN THE PROCESS OF CONDUCTING THE FIELDWORK.

11. AT THE TIME OF THE SURVEY, THERE WAS NO OBSERVABLE EVIDENCE OF SITE USE AS A SOLID WASTE DUMP, SUMP OR SANITARY LANDFILL.

12. THE SUBJECT TRACT HAS ACCESS TO SOUTH GOLIAD STREET ALONG THE SOUTHEAST LINE AND EAST YELLOWJACKET LANE ALONG THE NORTH LINE.

13. PROFESSIONAL LIABILITY INSURANCE POLICY OBTAINED BY THE SURVEYOR IN THE MINIMUM AMOUNT OF $2,000,000 TO BE IN EFFECT THROUGHOUT CONTRACT TERM. CERTIFICATE OF INSURANCE TO BE FURNISHED UPON REQUEST.

14. THE SQUARE FOOTAGE OF THE BUILDING IS BASED ON THE EXTERIOR DIMENSIONS AS MEASURED AT GROUND LEVEL.

ZONING INFORMATION:
THE SUBJECT TRACT IS CURRENTLY ZONED "GR"
GENERAL RETAIL, WITH STATE HIGHWAY 205 OVERLAY

ADJACENT PROPERTIES ARE ZONED:

Front (NW):	GR	W Yellow Jacket Lane
Left Side (NE):	GR	S Goliad Street
Right Side (SW):	GR	Commercial
Rear (SE):	GR	Restaurant

MINIMUM LOT WIDTH IS N/A
MINIMUM LOT DEPTH IS N/A
MAXIMUM FLOOR AREA N/A.
MAXIMUM BUILDING HEIGHT IS 30 FEET.

BUILDING SETBACKS ARE:

Front: (W Yellow Jacket Ln)	15'
Front: (S Goliad Street)	25' (per SH 205 Overlay)
Right Side: (Commercial)	0'
Rear: (Restaurant)	0'

LANDSCAPE SETBACKS ARE:

Front: (W Yellow Jacket Ln)	10'
Left Side: (S Goliad Street)	20'
Right Side: (Commercial)	0'
Rear: (Restaurant)	0'

THE PARKING FORMULA FOR MINIMUM REQUIREMENTS:
one (1) space per each 100 square feet of gross floor area.

POLE SIGNS ARE NOT PERMITTED

CITY OF ROCKWALL

ORDINANCE NO. 18-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A RESTAURANT WITH A DRIVE-THROUGH IN A GENERAL RETAIL (GR) DISTRICT, ON A 0.656-ACRE TRACT OF LAND BEING IDENTIFIED AS LOTS 1 & 2, BLOCK A, BILLY PEOPLES #1 ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Randy Eardlet, P.E. of Wier & Associates, Inc. on behalf of Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a Specific Use Permit (SUP) to allow for a *restaurant, 2,000 SF or more with a drive-through,* in a General Retail (GR) District on a 0.656-acre tract of land being described as a Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *restaurant, 2,000 SF or more with a drive-through* as stipulated by Section 1, *Land Use Schedule* of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in Subsection *4.4, General Retail (GR) District,* Section 4*, Commercial Districts,* of Article V*, District Development Standards,* of the Unified Development Code (UDC) as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *restaurant, 2,000 SF or more with a drive-*

DRAFT ORDINANCE 02-20-18

through on the *Subject Property* and conformance to these stipulations is required for continued operations:

1) The restaurant shall generally conform to the concept plan shown in *Exhibit 'B'* and the concept building elevations shown in *Exhibit 'C'* of this ordinance.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF FEBRUARY, 2018.

Z2017-066 218 W. Quail Run

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Trent Hyde for the approval of a Specific Use Permit (SUP) to allow for a detached garage that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 218 W. Quail Run Road.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (Z2017-066) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Worksession for this case is December 26, 2017. The Planning and Zoning Meeting for this case is January 9, 2018.

I.5 The projected City Council meeting date and subsequent approval for this request is January 16, 2018 and February 5, 2018.

To Whom It May Concern:

I, Trent Hyde, the property owner at 218 West Quail Run Road in Rockwall, Texas, is requesting permits to build a 700 square foot outdoor metal building to be used for additional storage at my residence.

Being that my property is almost an acre in size, I would like to construct this permanent building in my residential backyard.

Please provide your approval at your earliest convenience.

Thank you!

Trent Hyde

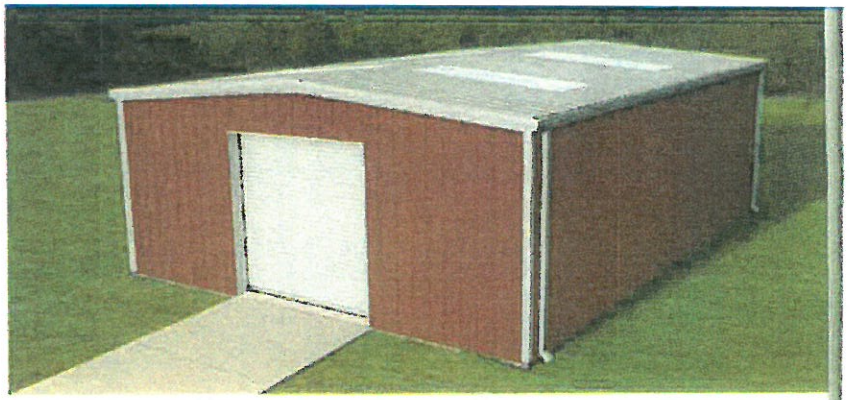
OPTIONAL ITEMS:

- Roll-up doors
- Windows
- Ridge vents
- Insulation
- Walk doors
- Additional colors



STANDARD SERIES KITS

Raising the bar for quality, flexibility and ease of assembly.

When considering quality and value, our Standard Series Kits are the finest pre-designed steel buildings you can buy. They're built of heavy-duty, 26-gauge commercial grade steel and set the standard for ease of assembly and flexibility. Whether you need a workshop, garage, barn or large storage space, you can't go wrong with the Standard Series. Available in six sizes, they can be assembled with bolts and screws – no welding required.

AVAILABLE SIZES

WORKSHOP
24' x 24' x 10' –
One 10' x 7'4" framed opening

GARAGE
24' x 30' x 11' –
One 16' x 8' framed opening

BIG WORKSHOP
30' x 40' x 12' –
One 10' x 10' framed opening

SMALL BARN
30' x 50' x 12' –
One 12' x 10' framed opening

BIG BARN
40' x 50' x 14' –
One 12' x 12' framed opening

BIG BARN XL
40' x 60' x 16' –
Two 14' x 14' framed openings

Note: Please check local building codes before ordering

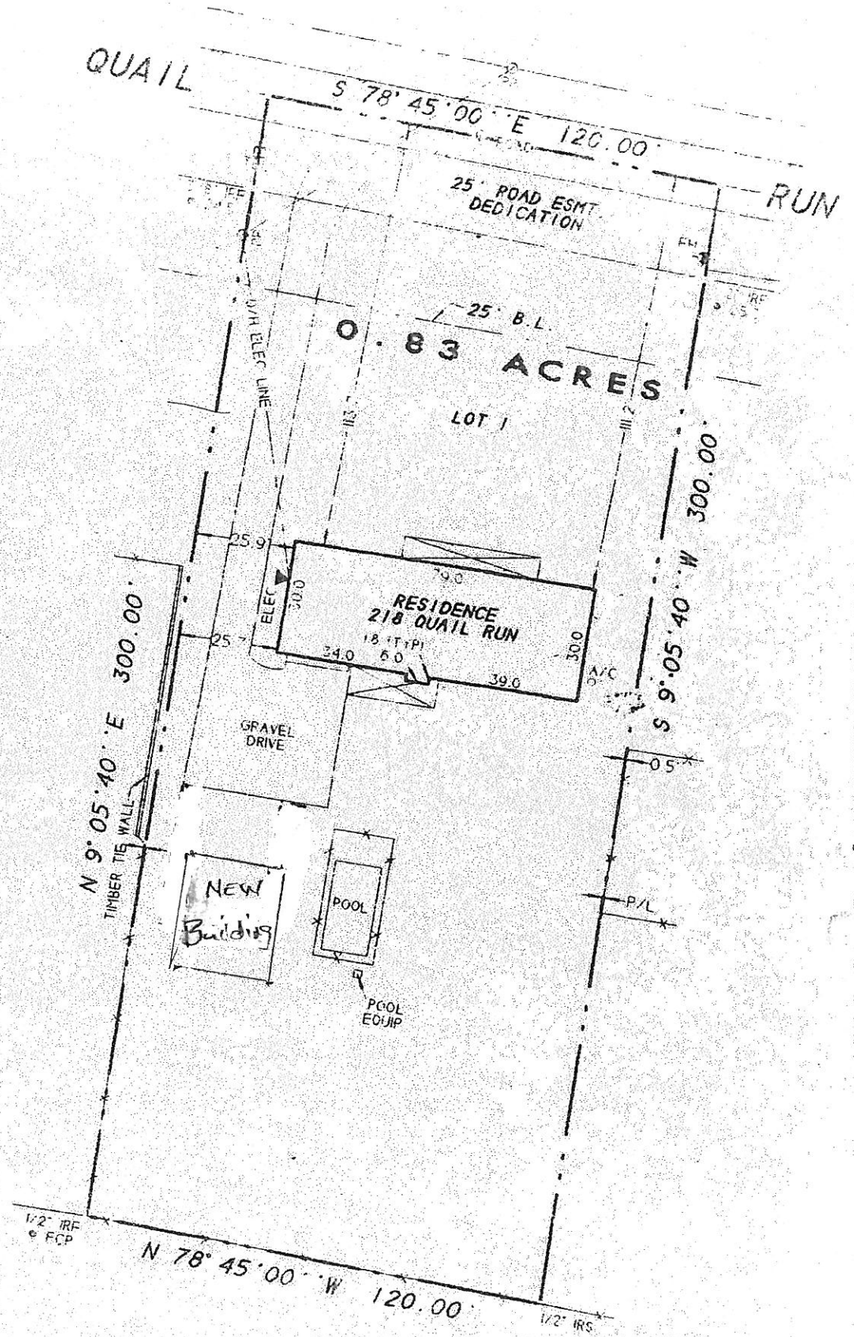
EACH KIT INCLUDES:

- Bolt-together frame
- Coldform end walls
- 26-gauge Galvalume roof with 20-year limited warranty
- 26-gauge colored walls with 30-year limited warranty (white, tan, light stone, light gray)
- Basic trim package
- Anchor bolt plans and erection drawings

LOAD OPTIONS AVAILABLE:

- Utility 20/10/115 mph frame load (IBC 12)
- Basic 20/20/140 mph frame load (IBC 12)
- TWI 20/10/120 mph frame load (IBC 06)
- Snow 20/30/130 mph frame load (IBC 12)
- Premium 20/10/150 mph frame load (IBC 12)

<< Roof: White; Walls: Charcoal; Trim: White; Roll-up Door: White; Top Left - Roof: Burnished Slate; Walls: Light Stone; Trim: Burnished Slate; Roll-up Door: Burnished Slate; Top Right - Roof: White; Walls: Rustic Red; Trim: White; Roll-up Door: White



DESCRIPTION

BEING LOT 1, of the WILSON ADDITION, an Addition to the City of Rockwall, Rockwall County, Texas, according to the plat thereof, recorded in Cabinet A, Slide 275, of the Plat Records of Rockwall County, Texas.

NOTES

1) According to F.E.M.A Flood Insurance Rate Map, Community Panel No. 480543 0005 C dated June 16, 1992, this property lies in Zone X. This property does not appear to lie within a 100 - year flood plain.

2) BEARING SOURCE: RECORDED PLAT.

SURVEYOR'S CERTIFICATE

I, Harold D. Fetty, III, Registered Professional Land Surveyor, State of Texas, do hereby certify that the above plat of the property surveyed for HERITAGE TITLE COMPANY, GREAT WESTERN FINANCIAL, and TRENT & DEBRA HYDE at 218 QUAIL RUN, ROCKWALL, Texas, is true and correct, there are no visible or apparent encroachments, protrusions or conflicts from adjoining owners or easements (other than shown) and the same was surveyed by me on the ground the 10th day of February, 1999.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW A DETACHED GARAGE THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 0.830-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS THE WILSON ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Trent Hyde for the approval for a Specific Use Permit (SUP) for the purpose of constructing a detached that does not meet the minimum masonry requirements as stipulated by the Unified Development Code (UDC), situated on 0.830-acre tract of land, zoned Single-Family 10 (SF-10) District, and being identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, addressed as 218 West Quail Run Road, and being more specifically depicted in *Exhibit 'A'*, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal detached garage that does not conform to the minimum masonry requirements and maximum size requirements for detached garages in a Single-Family 10 (SF-10) District as stipulated by Subsection *2.1.2, Residential and Lodging Use Conditions,* of Section 2, *Use Standards*, of Article IV*, Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in Subsection 3.4*, Single-Family 10 (SF-10) District,* of Section 3*, Residential Districts*, of Article V*, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the following operational conditions:

DRAFT ORDINANCE 09.26.18

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the construction of a detached garage on the subject property, and conformance to these operations is required for continued operation:

1) The detached garage shall generally conform to the site plan depicted in *Exhibit 'B'* and building elevations depicted in *Exhibit 'C'* of this ordinance.

2) The detached garage shall not exceed a maximum size of 900 SF.

3) The detached garage shall not exceed a maximum overall height of 15-feet.

4) The subject property shall have no more than two (2) accessory buildings.

5) The detached garage is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF FEBRUARY, 2018.

Z2017-067 Zoning Change 302 W Kaufman Street
Please address the following comments (M= Mandatory Comments; I = Informational Comments).
I.1 This is a request by Katherine Crane for the approval of a zoning change from a Single Family 10 (SF-10) District to a Residential-Office (RO) District for a 0.210-acre parcel of land identified as Lot 17, Block 14, Highwood Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 302 W. Kaufman Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2017-067) in the lower right hand corner of all pages on future submittals.
I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Worksession for this case is December 26, 2017. The Planning and Zoning Meeting for this case is January 9, 2018.
I.5 The projected City Council meeting date and subsequent approval for this request is January 16, 2018 and February 5, 2018.

THIS IS TO DECLARE that on this date a survey was made on the ground, under my direction and supervision of the property located at 302 W. KAUFMAN STREET, and Being Lot 17, Block 14, of HIGHWOOD ADDITION, FIRST SECTION, an Addition to the City of Rockwall, ROCKWALL County, Texas, according to the map or plat thereof recorded in Volume 50, Page 618, of the Plat Records of ROCKWALL County, Texas.

There are no visible conflicts or protrusions, except as shown.

The subject property does not appear to lie within the limits of a 100-year flood hazard zone according to the map published by the Federal Emergency Management Agency, and has a Zone "X" Rating as shown by Map No. 48113C0265 J, dated AUGUST 23, 2001. The statement that the property does or does not lie within a 100-year flood zone is not to be taken as a representation that the property will or will not flood. This survey is not to be used for construction purposes and is for the exclusive use of the hereon named purchaser, mortgage company, and title company only and this survey is made pursuant to that one certain title commitment under the GF number shown hereon, provided by the title company named hereon and that this date the easements, rights-of-way or other locatable matters of record of which the undersigned has knowledge or has been advised are as shown or noted hereon.

STATE OF TEXAS
REGISTERED

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM A SINGLE-FAMILY 10 (SF-10) DISTRICT TO A RESIDENTIAL-OFFICE (RO) DISTRICT FOR A 0.210-ACRE PARCEL OF LAND IDENTIFIED AS LOT 17, BLOCK 14, HIGHWOOD ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DEPICTED IN EXHIBIT *'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Katherine Crane for the approval of an amendment to the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall to adopt a change in zoning from a Single-Family 10 (SF-10) District to a Residential-Office (RO) District for a 0.210-acre parcel of land identified as Lot 17, Block 14, Highwood Addition, City of Rockwall, Rockwall County, Texas, and more specifically depicted in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from a Single-Family 10 (SF-10) District to a Residential-Office (RO) District; and

SECTION 2. That the *Subject Property* shall be used and developed only in the manner and for the purposes provided for a *Residential Office (RO) District* as stipulated by Subsection 4.2*, Residential-Office District,* of Section 4*, Commercial Districts,* of Article V*, District Development Standards,* of the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

DRAFT ORDINANCE 04-08-18

SECTION 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

SECTION 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 5TH DAY OF FEBRUARY, 2018.

P2017-46 Lots 1 &2, Block A, Briones Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Theresa Briones for the approval of a replat for Lots 1 & 2, Block A, Briones Addition being a 0.25-acre tract of land identified as a portion of Block 7, Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 905 Alamo Street and 906 West Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2017-046) in the lower right hand corner of all pages on future submittals.
M.4 Please add General Note: "It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.
I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by September 5, 2017. The Planning and Zoning Meeting for this case is August 29, 2017.
I.6 The City Council meeting date and subsequent approval for this plat is September 5, 2017

All that certain lot, tract or parcel of land situated in the J.H.B. JONES SURVEY, ABSTRACT NO. 124, City of Rockwall, Rockwall County, Texas, and being a part of Block 7, Garner Addition, an Addition to the City of Rockwall, Texas, and being described in a Warranty deed from WWSW Properties, LLC to Ronald Briones and Theresa Briones, dated November 7, 2014 and being recorded in Document number 20140000016289 of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the west right-of-way line of N. Alamo Street 50' R.O.W. said point being at the southeast corner of said tract, said point being NORTH, 156.1 feet from the intersection of said right-of-way line with the north right-of-way line of Heath Street, and also being the northeast corner of a tract of land as described in a Warranty deed to Maria Aguado, as recorded in Volume 6076, Page 28 of the Official Public Records of Rockwall County, Texas;

THENCE S. 88 deg. 39 min. 09 sec. W. along the south line of said tract, passing a 1/2" iron rod found at 112.60 feet and continuing for a total distance of 212.66 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner in the east right-of-way line fo West Street and at the southwest corner of said tract of land and at the northwest corner of a tract of land as described in a Deed to Johnetta Pritchett, as recorded in Volume 509, Page 125 of the Real Property Records of Rockwall County, Texas;

THENCE N. 00 deg. 24 min. 42 sec. E. along the east line of said West Street, a distance of 52.05 feet to a 1/2" iron rod found for corner at the southwest corner of a tract of land as described in a Deed to Nicole Martinkus, as recorded in Volume 6777, Page 254, of the Official Public Records of Rockwall County, Texas;

THENCE N. 89 deg. 09 min. 34 sec. E. along the south line of said Martinkus tract, at 103.10 feet pass a 1/2" iron rod found at the southeast corner of said and continuing for a total distance of 212.28 feet to a 1/2" iron rod found for corner in the west right-of-way line of N. Alamo Street;

THENCE S.00 deg. 02 min. 10 sec. W. along said right-of-way line, a distance of 50.17 feet to the POINT OF BEGINNING and containing 10,856 square feet or 0.25 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner of the land shown on this plat, and designated herein as BRIONES ADDITION, LOTS 1 AND 2, BLOCK A, an Addition to the City of Rockwall, Texas and whose name is subscribed hereto, hereby dedicated to the use of public forever all streets, alleys parks water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in BRIONES ADDITION, LOTS 1 AND 2, BLOCK A, have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasional by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CITY CASE NO P2017-

ORDER OF THE BOARD OF ADJUSTMENT
OF THE CITY OF ROCKWALL, TEXAS

ORDER NO. BOA 2017-5-V

WHEREAS, the Board of Adjustment held a public hearing on the 9th day of November, 2017, to consider the application of Ronald and Theresa Briones, as owner for the tract of land described below, for a variance from the zoning, which requires a minimum 80' lot frontage and 10,000sf lot size and

WHEREAS, the applicant requested a variance from the said zoning to reduce the lot frontage from 80 feet to 50 feet and reduce the lot size from 10,000sf to 5000sf in order to subdivide the lot on Part 7, at 905 West St and

WHEREAS, after due consideration and discussion it appears that the granting of such a variance would not cause an adverse effect on the surrounding properties and would not be contrary to the public interest.

NOW, THEREFORE BE IT ORDERED BY THE BOARD OF ADJUSTMENT OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this order as if copied in their entirety.

Section 2. That the request from the applicant for this Board to grant a variance from the zoning, be and in the same is hereby granted so as to subdivide on said lot with a 50 foot lot frontage and 5000sf lot size.

Section 3. That the Building Official of the City is hereby authorized and directed to issue the appropriate permits, if any, for the above described property under the terms and conditions of this Order.

Section 4. That this Order was passed by the concurring vote of at least four (4) members of the Board of Adjustment and is effective as of the 9th day of November, 2017.

See markups
-Retaining walls to be on one lot...not split on the property. If you want retaining wall easements they must be private easements and not to the City. The City doesn't maintain, repair, or replace walls.
-All easement to be a minimum of 20'
-Add drainage easement on lot 18
-20' off-site sewer easement can't be in drainage and/or detention easement
-Need 20' off-site drainage easement
-Add note: 7. Property owners responsible for maintenance, repair, and replacement of all retaining walls and drainage and detention systems in easements.
-Paving must meet engineering standards
-All easements to be 20' minimum
-May need to detain prior to draining into TXDOT system
-Must meet TXDOT new drainage process for permitting
-Min. 20' off-site drainage and sewer easements required
- No utilities are allowed in detention and drainage easements
- All water and sewer mains to be 6' from back of curb
- All utilities and drainage to be centered in easement
- Add 2-45 degree bends in water line a the intersection of Street A and Street B
- TXDOT permit/TIA required

Discuss and consider a request by Matt Atkins of Engineering Concepts on behalf of Scott Lewis of RRDC, LTD. for the approval of a preliminary plat for the Whisper Rock Subdivision containing 28 single-family lots on a 9.477-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 3231 Ridge Road, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 12.20.2017

The following staff comments are to be addressed and resubmitted no later than Wednesday, January 3, 2018. Please provide two FOLDED large copies [24" X 36"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements stipulated by the Planned Development District 47 (Ord. No. 99-17).

2. When revised, please resubmit the preliminary plat on 24" x 36" bonded paper for a subsequent review by staff.

3. The preliminary plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.

4. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. The treescape plan needs to be separate from the landscape plan. Provide a detail of all trees on the property per the treescape ordinance. Provide a tree list indicating trees to remain, trees being removed, tree type and inches. Provide how mitigation of removed trees will be accomplished. Approval of a final treescape plan will be required at final plat.

5. Provide labels for all open space area's indicating "Open Space - To Be Maintained by the HOA". Include total acres of open space area and assign it a lot number (e.g. Lot 1, Block X).

6. Correct Title Block by adding Lots 1-28, Block A and Zoned PD-47.

7. All residential lots are to meetthe standards established for an SF-10 zoning district (PD-47 requirement) with regard to the minimum lot frontage of 80-ft. The following curaliner lots do not appear to meet the minimum standard and must be a minimum of 80-ft at the build line: Lots 6, 7, 12, & 13. Delineate and label each of these lots meeting this standard.

8. All residential lots are to meet the standards established for an SF-10 zoning district (PD-47 requirement) with regard to the minimum lot area of 10,000 SF. The following lots do not appear to meet the minimum standard and requires adjustments to meet the 10,000 SF area standard: Lots 8, 9, 10, 11, 14, 15, 16, & 17. Delineate and label each of these lots meeting this standard.

9. Delineate and label visibility clips.

10. The preliminary plat shall conform to Park District No. 16 requirements and the recommendations made by the Parks Board at their regularly scheduled meeting on January 3, 2018.

11. Provide a label indicating "Case No. P2017-066" on the lower right corner on all pages of the revised preliminary plat submittal.

12. Submittal and approval of civil engineering plans prior to submittal of final plat.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Please be sure that you and/or you representative are present for the following meetings. All meeting are held in the City's Council Chambers. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Planning - Work Session: December 26, 2017 (6:00 p.m.) [applicant to present case to P&Z for discussion].

Parks Board Meeting: January 3, 2017 (6:00 p.m.)

Planning - Regular Meeting: January 9, 2018 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)

City Council - Regular Meeting: January 16, 2018 (Tuesday at 6:00 p.m.) [City Council to take action]

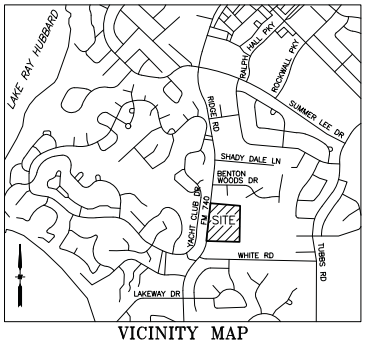
Retaining walls to be on one lot...not split on the property
If you want retaining wall easements they must be private easements and not to the City. The City doesn't maintain, repair, or replace walls.



VICINITY MAP
N.T.S.

Notes:

1. Bearings and grid coordinates are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83-NCF).

2. Unless otherwise noted, a 5/8" iron rod with a yellow cap stamped "RPLS 3963" will be set at all lot corners, whenever possible, after all construction for this subdivision is completed.

3. According to my interpretations of the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map Number 48397C0040L, dated September 26, 2008, the subject property lies within flood Zone "X" and is not shown to be within a Special Flood Hazard Area. This statement does not imply that the property and/or structures thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This statement shall not create liability on the part of the surveyor.

OWNER'S CERTIFICATE & DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS GEORGE AND JULIA ROLAND, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING a a 9.477 acre tract of land situated in the Edward Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and being all of a called 9.4769 acre tract of land described in a deed to George R. Roland, and Julia M. Roland, Trustees of the George and Julia Roland Living Trust recorded in Volume 6642, Page 192, Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for corner in the east right-of-way line of Ridge Road (FM 740) at the northwest corner of said 9.4769 acre tract;

THENCE South 85 degrees 43 minutes 42 seconds East along the north line thereof and partly with the south lines of the original Benton Court Addition, an Addition to the City of Rockwall recorded in Cabinet D, Slide 69, and Benton Woods, an Addition to the City of Rockwall recorded in Cabinet C, Slide 254, all recorded in the Plat Records of Rockwall County, Texas (PRRCT), for a total distance of 559.60 feet to a point for corner near the base of a steel fence post at the northeast corner of said 9.4769 acre tract, common to the southwest corner of a called 12.000 acre tract described in a deed to Craig Duhon et ux, recorded in Volume 693, Page 228, (DRRCT), from which a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for reference bears South 65 degrees 09 minutes 20 seconds West, a distance of 39.51 feet;

THENCE South 00 degrees 11 minutes 18 seconds West, along the common line of last mentioned tracts, a distance of 679.81 feet to a point for corner near the base of a plastic fence post at the southeast corner of said 9.4769 acre tract, common to the northeast corner of Lot 1, Block A, First Christian Church, Disciples of Christ, an Addition to the City of Rockwall recorded in Cabinet E, Slide 361 (PRRCT), from which a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for reference bears South 61 degrees 43 minutes 15 seconds West, a distance of 37.49 feet;

THENCE North 89 degrees 09 minutes 00 seconds West with the common line of said 9.4769 acre tract and said Lot 1, a distance of 625.70 feet to a point for corner at the common west corner thereof, and also being in the east line of said Ridge Road, from which a 3 1/4"TXDOT Aluminum Disk found for reference bears South 49 degrees 53 minutes 40 seconds West, a distance of 0.50 feet;

THENCE North 06 degrees 03 minutes 52 seconds East with the East Right-of-Way line of said Ridge Road, a distance of 14.12 feet to a 3 1/4"TXDOT Aluminum Disk found at an angle point thereof;

THENCE North 05 degrees 35 minutes 24 seconds East continuing with the East Right -of-way line of said Ridge Road, a distance of 701.50 feet to the POINT OF BEGINNING and containing 412,801 square feet or 9.477 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL
WE, GEORGE AND JULIA ROLAND I, the undersigned owners of the land shown on this plat, and designated herein as the ROLAND FARMS, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the ROLAND FARMS subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

Roland, Trustees of the George and Julia Roland Living Trust recorded in Volume 6642, Page 192, Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for corner in the east right-of-way line of Ridge Road (FM 740) at the northwest corner of said 9.4769 acre tract;

THENCE South 85 degrees 43 minutes 42 seconds East along the north line thereof and partly with the south lines of the original Benton Court Addition, an Addition to the City of Rockwall recorded in Cabinet D, Slide 69, and Benton Woods, an Addition to the City of Rockwall recorded in Cabinet C, Slide 254, all recorded in the Plat Records of Rockwall County, Texas (PRRCT), for a total distance of 559.60 feet to a point for corner near the base of a steel fence post at the northeast corner of said 9.4769 acre tract, common to the southwest corner of a called 12.000 acre tract described in a deed to Craig Duhon et ux, recorded in Volume 693, Page 228, (DRRCT), from which a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for reference bears South 65 degrees 09 minutes 20 seconds West, a distance of 39.51 feet;

THENCE South 00 degrees 11 minutes 18 seconds West, along the common line of last mentioned tracts, a distance of 679.81 feet to a point for corner near the base of a plastic fence post at the southeast corner of said 9.4769 acre tract, common to the northeast corner of Lot 1, Block A, First Christian Church, Disciples of Christ, an Addition to the City of Rockwall recorded in Cabinet E, Slide 361 (PRRCT), from which a 5/8"iron rod with a yellow plastic cap stamped "RPLS 3963"set for reference bears South 61 degrees 43 minutes 15 seconds West, a distance of 37.49 feet;

THENCE North 89 degrees 09 minutes 00 seconds West with the common line of said 9.4769 acre tract and said Lot 1, a distance of 625.70 feet to a point for corner at the common west corner thereof, and also being in the east line of said Ridge Road, from which a 3 1/4" TXDOT Aluminum Disk found for reference bears South 49 degrees 53 minutes 40 seconds West, a distance of 0.50 feet;

THENCE North 06 degrees 03 minutes 52 seconds East with the East Right-of-Way line of said Ridge Road, a distance of 14.12 feet to a 3 1/4" TXDOT Aluminum Disk found at an angle point thereof;

THENCE North 05 degrees 35 minutes 24 seconds East continuing with the East Right -of-way line of said Ridge Road, a distance of 701.50 feet to the POINT OF BEGINNING and containing 412,801 square feet or 9.477 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL
WE, GEORGE AND JULIA ROLAND I, the undersigned owners of the land shown on this plat, and designated herein as the ROLAND FARMS, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the ROLAND FARMS subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

P2017-67 Lots 1 & 2, Block A, Lamar Street Habitat No. 1 Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Blake Sudduth of R-Delta Engineers, Inc. on behalf of Peter Muhl of Rockwall Habitat for Humanity for the approval of a replat for Lots 1 & 2, Block A, Lamar Street Habitat No. 1 Addition being a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street,

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-067) in the lower right hand corner of all pages on future submittals.

M.4 This is not a “Minor Plat” This is a Replat.

M.5 Please use the standard City Signature Block. The signature block shown is for administratively approved plats.

M.6 You will need a special exception to lot size for Lot 2. Min area is 5,000 SF

M.7 You will need a special exception to lot depth for both lots. Min depth is 100-feet

M.8 You will need to extend Lamar Street with 20-foot reinforce concrete to the end of the property line of Lot 2.

I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2018. The Planning and Zoning Worksession for this case is December 26, 2017. The Planning and Zoning Meeting for this case is January 9, 2018. The Park Board Meeting for this case is January 2, 2018

I.10 The projected City Council meeting date and subsequent approval for this plat is January 16, 2018.

OWNER'S CERTIFICATE

STATE OF TEXAS §
§
COUNTY OF ROCKWALL §

WHEREAS ROCKWALL HABITAT FOR HUMANITY, TEXAS, is the owner of a 0.22–acre tract of land situated within the City of Rockwall, in the N. M. Ballard Survey, Abstract No. 48, Rockwall County, Texas, and being all of the called 0.22–acre tract of land described in the Cash Warranty Deed executed on the 25th day of August, 2009, from Mary Madgelene Price, Individually and as Independent Executrix of the Estate of Ronnie Fulton Price Deceased, and accepted by Rockwall Habitat for Humanity, and filed under County Clerk File Number 20090000421452, in the County of Rockwall, Texas, and being more particularly described as follows:

BEGINNING at an "X" found chiseled in concrete on the easterly line of Lamar Street (20–foot right–of–way) dedicated in the Sanger Bros' Addition and recorded in Cabinet Q, at Page 100 of the Deed Records of Rockwall County, Texas, at the northwest corner of said Rockwall Habitat of Humanity Tract and at the southwest corner of a 0.14–acre tract land as described in a General Warranty Deed from Paul Ray Dabney to Rockwall Habitat for Humanity, dated August 15, 2008 and being recorded in County Clerk File Number 20080000403715, in the County of Rockwall, Texas, said "X" having coordinates of:
X= 2,595,528.24
Y= 7,024,839.66;

THENCE N 88°58'25"W with the common line between the said 0.14–acre tract and the said 0.22–acre tract a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the northeast corner of said 0.22–acre tract;

THENCE S 00°19'02"E a distance of 130.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the southeast corner of said 0.22–acre tract;

THENCE N 88°58'25"W a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found on the easterly right–of–way line of aforementioned Lamar Street;

THENCE N 00°19'02"W with the the said easterly right–of–way line of said Lamar Street for a distance of 130.00 feet to the PLACE OF BEGINNING and containing 0.22 acres of land.

STATE OF TEXAS §
§
COUNTY OF ROCKWALL §

NOW THEREFORE, KNOW ALL BY THESE PRESENTS:

I the undersigned owner of the land shown on this plat, and designated herein as the LAMAR STREET HABITAT No. 1 subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have mortgage or lien interest in the LAMAR STREET HABITAT No. 1 subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accomidation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or paced upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective systems on any of these easement strips; and any public utility shall at all times have the right of ingress and egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I,my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

EXECUTED this the _____ day of _____, 2016.

P2017-73 Lots 1, 2, & 3, Fannin Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a city initiated request for the approval of a final plat for Lots 1, 2 & 3, Block A, Fannin Addition being a 4.01-acre tract of land identified as a portion of Lot AA, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, generally located on the west side of Fannin Street south of the intersection of Fanning Street and Heath Street.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2017-073) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by January 2, 2017. The Planning and Zoning Meeting for this case is December 26, 2017.

I.5 The projected City Council meeting date and subsequent approval for this plat is January 2, 2018.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, City of Rockwall, Texas, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.F. BOYDSTON SURVEY, ABSTRACT NO. 14, City of Rockwall, Rockwall County, Texas, and being all of a called 3.998 tract of land as described in a Warranty deed to Cityof Rockwall, Texas, as recorded in Volume 237, Page 426 of the Real Property Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" ion rod found for corner in the west right-of-way line of Fannin Street, at the northeast corner of of said 3.998 acres tract of land and also at the southeast corner of a 0.212 acres tract of land as described in a Deed to Enrique A. Ortiz, as recorded in Volume 840, Page 259 of the Real Property Records of Rockwall County, Texas;

THENCE S. 12 deg. 09 min. 12 sec. W. along the west right-of-way line of Fannin Street, a distance of 673.83 feet to a 5/8" iron rod found for corner;

THENCE N. 78 deg. 53 min. 38 sec. W. a distance of 200.00 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE S. 12 deg. 55 min. 00 sec. W. a distance of 200.01 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 78 deg. 53 min. 38 sec. W. a distacne of 103.94 feet to a 1/2" iron rod found for corner;

THENCE N. 19 deg. 22 min. 15 sec. E. a distance of 200.66 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 18 deg. 35 min. 41 sec. E. a distance of 492.51 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 89 deg. 05 min. 44 sec. E. a distance of 40.29 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE N. 12 deg. 31 min. 28 sec. E. a distance of 153.68 to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE S. 86 deg. 26 min. 11 sec. E. a distance of 187.96 feet to the POINT OF BEGINNING and containing 174,707 square feet or 4.01 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as FANNIN ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in FANNIN ADDITION, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

(12/20/2017 1:49 PM AW)
See markups
Tie at least 2 corners of the property to City of Rockwall monumentation (x and y coordinates)
Need to show and label the erosion hazard setback. The sewer line can be in the erosion setback
Need 12.5' utility easement where ever the water line is constructed along the private streets
Detention ponds to be in a drainage and detention easement at the 2' free board elevation
No utilities in drainage and detention easement
10' easement along SH 66
20' easement along John King
All mutual access easements will need to be fire lane as well
Add note to the plat that the property owner/HOA is responsible for all maintenance, repair, and replacement for all systems in drainage and detention easment
Label flood plain/drainage easement to be maintained by the property owner/HOA
Main entrance to be 24' wide paving each direction
TXDOT permit and TIA
May need an acceleration lane due to driveway close to the crest of SH 66...dangerous
No trees to be planted within 5' of any public utility (water, etc.) so trees in front of the houses, along John King, and SH 66 will need to be moved

Need wetland/WOUS determination on the pond

(12/20/2017 8:47 AM LS) 1. We will need 1 additional street name for the most southern street segment off of SH66. 2. Should read North John King Blvd and State Hwy 66. 3. Tie two corners to State Plane Coordinate System (NAD83 North Central TX 4202) and provide closure report. 4. Submit a CAD (.dwg) file of lot lines and road centerlines so addressing can begin. 5. Check w/ USPS for centralized mail delivery system requirements.

Discuss and consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of a preliminary plat for Lot 1, Block A, Ladera Rockwall being a 28.011-acre tract of land identified as Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development 85 (PD-85) District, situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District , located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 12.20.2017

The following staff comments are to be addressed and resubmitted no later than Wednesday, January 3, 2018. Please provide two FOLDED large copies [24" X 36"] and one PDF version for a subsequent review by staff:

1. The preliminary plat shall conform to all requirements stipulated by the Planned Development District 47 (Ord. No. 99-17).

2. The preliminary plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.

3. Proposed street names to be approved by the GIS Department.

4. A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits. The treescape plan submitted does not indicate the location of trees on the property, the tree type, size in inches, whether removed or saved. Provide a detail of all trees on the property per the treescape ordinance.

5. In order to determine the overall mitigation of the site, provide a tree list indicating trees to remain, trees being removed, tree type and inches of each tree. Indicate the overall mitigation balance due (if any) for the trees being removed. Approval of a final treescape plan will be required at final plat.

6. Provide labels for all open space area's and indicating "Open Space - To Be Maintained by the HOA".

7. All residential units are to meet the standards established in PD-85 [Ord. No. 17-55] for unit mix/composition. Provide a table indicating the unit mix/compostion and label each of the units dimensions and minimum square footage meeting these standards and on the Preliminary Site Plan.

8. Tie at least two (2) corners to city monumentation.

10. The preliminary plat shall conform to Park District No. 8 requirements and the recommendations made by the Parks Board at their regularly scheduled meeting on January 3, 2018.

11. Provide a label indicating "Case No. P2017-068" on the lower right corner on all pages of the revised preliminary plat submittal.

12. Submittal and approval of civil engineering plans prior to submittal of final plat.

Please be sure that you and/or you representative are present for the following meetings. All meeting are held in the City's Council Chambers. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

LEGAL DESCRIPTION

BEING all that certain lot, tract or parcel of land situated in the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, and being a portion of a called 41.921 acre tract of land described as Tract 3, in deed to John H. Cullins, recorded in Instrument No. 2008-00396743, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2 inch rebar found at the southeast corner of said 41.921 acre tract, and being the southwest corner of a called 73.2744 acre tract of land described in deed to Mike L. People, recorded in Volume 850, Page 15, Deed Records, Rockwall County, Texas, and being in the north line of U. S. Highway 66;

THENCE S 88°18'19"W, with the north line of U. S. Highway 66, a distance of 490.46 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the most southeasterly corner of a called 3.989 acre tract of land being titled as "Highway 205 Bypass R.O.W." in City of Rockwall vs. John Cullins and Burks T. Payne, Jr., Cause No. 180-633, recorded in Instrument No. 2009-00410863, Deed Records, Rockwall County, Texas, also known as John King Boulevard;

THENCE Northwesterly with the east line of said 3.989 acre tract and John King Boulevard, the following seven (7) calls:

N 30°39'57" W, a distance of 19.44 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

S 59°20'03" W, a distance of 21.30 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS

N 30°39'57" W, a distance of 211.63 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

Northwesterly with a curve to the right having a radius of 1940.00 feet, a central angle of 25°25'15", and an arc length of 860.73 feet, whose chord bears N 17°57'20" W, a distance of 853.69 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 05°14'42" W, a distance of 158.73 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 84°45'18" E, a distance of 20.00 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 05°14'42" W, a distance of 136.88 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS" in the south line of a called 10.942 acre tract of land described in deed to City of Rockwall, recorded in Instrument No. 2007-00389123, Deed Records, Rockwall County, Texas;

THENCE N 89°26'01" E, with the south line of said 10.942 acre tract, a distance of 15.52 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southeast corner thereof;

THENCE N 00°10'47" W, with the east line of said 10.942 acre tract, a distance of 271.63 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southwest corner of a 16.000 acre tract of land described as Tract 2 in deed to Betty Bogard, recorded in Instrument No. 2008-00396742, Deed Records, Rockwall County, Texas;

THENCE N 89°54'11" E, with the south line of said 16.000 acres, a distance of 842.15 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southeast corner thereof and being in the west line of said 73.2744 acre tract;

THENCE S 01°28'09" E, with the west line of said 73.2744 acre tract of land, a distance of 1555.42 feet to the POINT OF BEGINNING and containing approximately 28.011 acres of land.

STATE OF TEXAS :

COUNTY OF DENTON : WHEREAS We, RW Ladera, LLC, are the owners of the hereinabove described property, and, acting by and through our duly authorized representative, do hereby adopt this Preliminary Plat designating the same as Ladera Rockwall, an addition to the City of Rockwall, and do hereby dedicate to the public use forever by fee simple title, free and clear of all liens and encumbrances, all streets, thoroughfares, alleys, parks, trails, water courses, storm drainage facilities, easements, rights-of-way and public places, "and any other property necessary to serve the plat and to implement the requirements of the Subdivision Ordinance and Design Criteria thereon shown" for the purpose and consideration therein expressed.

WITNESS OUR HAND this _____ day of _____, 2017.

_____
John Delin, Authorized Representative

STATE OF TEXAS :
COUNTY OF DENTON : BEFORE ME, THE UNDERSIGNED AUTHORITY personally appeared Pat O'Brien, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged that he executed the same for the purpose and consideration therein expressed and in the capacity therein stated.

GIVEN UNDER MY HAND AND SEAL OF OFFICE this _____ day of _____, 2017.

_____
Notary Public

My commission expires the _____ day of _____, 2017.

Recommended for Preliminary Approval

_____ _____
Chairman, Planning & Zoning Commission Date

Approved for preparation of Final Plat

_____ _____
Mayor, City of Rockwall, Texas Date

SURVEYOR'S STATEMENT

I, W. Thad Murley III, a Registered Professional Land Surveyor in the State of Texas, have prepared this plat of the above property from an actual survey on the ground, and this plat represents that survey made by me or under my supervision.

PRELIMINARY DOCUMENT:
THIS DOCUMENT SHALL NOT BE RECORDED FOR ANY PURPOSE AND SHALL NOT BE USED OR VIEWED OR RELIED UPON AS A FINAL SURVEY DOCUMENT.

TREE PRUNING, REMOVAL AND PROTECTION MEASURES

A. QUALITY ASSURANCE
1) Comply with applicable Federal, state, county and local regulations governing landscape work.
2) employ only experienced personnel. Provide adequate supervision by qualified foreman.

B. JOB CONDITIONS
1) Coordination: Coordinate and cooperate with other contractors to enable the work to proceed as rapidly and efficiently as possible.
2) In order to minimize conflict, secure from the Construction Manager copies of layout drawings showing the location of all underground utility lines and other structures

C. PRODUCTS
1) MULCH: Double shredded hardwood mulch free of sticks, dirt and other debris and derived from the site clearing.

D. DEFINITIONS
1) CRZ: Critical Root Zone: The area of undisturbed natural soil around a tree defined by a concentric circle with a radius in feet equal to the the number of inches of trunk diameter.
2) TPF: Tree Protection Fence: The orange safety barrier netting that shall extend around the entire circumference of the tree at the CRZ or as shown on approved plans.

E. PRE-CONSTRUCTION TREE PRUNING
1) Personnel Qualifications: All pruning shall be performed under the supervision of an International Society of Arboriculture (ISA) Certified Arborist.
2) All trees within the project area shall be pruned to:
(i) Clear the crown of diseased, crossing, weak and dead wood to a minimum of 1 ½ inches in diameter
(ii) Provide 14 feet of vertical clearance over streets and 8 feet over sidewalks.
(iii) Remove stubs, cutting outside the woundwood tissue that has formed around the branch.
(iv) Reduce end weight on heavy, horizontal branches by selectively removing small diameter branches, no greater than 2 to 3 inches, near the ends of the scaffolds.
3) Pruning cuts shall be made in accordance with ANSI 300 Pruning Standard and work shall be performed in accordance with ANSI Z133.1 Safety Standards. Pruning shall be in accordance with ISA's Best Management Practices: Tree Pruning
4) No more than 20 percent of live foliage shall be removed from any tree.
5) Brush shall be chipped and chips shall be spread underneath trees within the tree protection zone to a maximum depth of 4 inches, leaving the trunk clear of mulch.

F. TREE REMOVAL
1) Tree preservation requires a commitment to preserving and maintaining retained trees, as well as removal of any unsuited trees within the Project Area.
2) All wood debris from all tree removals at the Project Site is to be chipped and stored on site for use in the tree preservation efforts at the discretion of the Landscape Architect.
3) The limits of all tree protection zones shall be staked in the field and observed by all contractors,
4) Any brush clearing required within the tree protection zone shall be accomplished with hand operated equipment.
5) Trees to be removed from within the tree protection zone shall be removed under the supervision of a Certified Arborist. The trees shall be cut near ground level and the stump ground out.

G. TREE PROTECTION
1) Before beginning work, the Project Manager, Landscape Architect and/or Owner of their agents are required to meet at the site to review all work procedures, access routes, storage areas, and tree protection measures. Any intended construction activities inside the TPZ shall be clearly outlines.
2) Fences shall be erected to protect trees to be preserved prior to construction equipment arriving on the Project Site. Fences will define the specific protection zone for each tree or group trees.
3) Fences are to be maintained and remain until all site work has been completed and final landscape operations begin. Fences may not be relocated or removed without written permission from the Landscape Architect. Fences may be constructed from 6 "1" stakes and orange web fence material
4) All trees to be preserved shall have 4 inches of hardwood mulch applied inside the tree protection zone. This hardwood mulch shall be replenished as necessary to maintain a 4 inch depth.
5) Construction trailers, traffic and storage areas must remain outside fenced areas at all times.
6) Tree roots extend out in a straight, radial direction from the tree much like spokes on a wheel (to a depth generally not exceeding 24"). All underground utilities and drain or irrigation lines shall be routed outside the tree protection zone. If lines must traverse the protection area, they shall be tunneled or bored under the tree. Trenches "airdug" with Air Spade (registered trademark) or similar technology are the exceptions. Irrigation line may routed in any direction outside the dripline of retained trees. Irrigation lines inside the dripline must be in a straight, radial direction towards the tree trunk and terminate in a dead end sprinkler head no grater than 7 feet from a tree trunk (irrigation lines shall not in any way bisect and therefore damage the "spoke-like" root system).
7) No materials, equipment, spoil, or waste or washout water may be deposited, stored, or parked within the tree protection zone.
8) If unintentional injury should occur to any tree during construction, It shall be reported to the Landscape Architect within six hours so that remedial action can be taken, Timeliness is critical to tree health. The cost of any remedial treatments will become the burden of the offending contracting company.
9) Any grading, construction, demolition, or other work that in expected to encounter tree roots must be monitored by the Landscape Architect. Specific locations or tree tag numbers should be identified

CITY OF ROCKWALL

Final landscape plan will meet all City of Rockwall development ordinances.
All landscape will be maintained according to city standards.
All required landscape will be 100% watered by an underground irrigation system.

SITE LANDSCAPE

REQUIRED: All canopy/Shade trees planted within this development shall be a minimum of 4 caliper inches in size and all Accent/Ornamental trees shall be a minimum of 4 feet in total height.

PROVIDED: All canopy trees are 4 caliper inches

REQUIRED: A minimum of 20% (5.6 acres) open space. Floodplain acreage may comay count for up to 50% of the 20% open space requirement.

PROVIDED: 10% Floodplain + 16.5% Landscaped area = 26.5% Open Space

BUFFER LANDSCAPE

REQUIRED: A minimum 20' landscape street buffer shall be required along Hwy 66 street frontage and a 50' landscape street buffer shall be required along John King Blvd. street frontage.

PROVIDED: 20' landscape buffer along Hwy 66 and 50' landscape buffer along John King Blvd.

REQUIRED: Three large shade 3 and 2 small ornamental trees shall be required per 100 linear feet of street buffer frontage.

John King Blvd. : 1,231 l.f. of street frontage / 100 l.f. = 12.31
12.31 x 3 = 37 large shade trees
12.31 x 2 = 25 small ornamental trees

PROVIDED: 37 shade trees + 25 ornamental trees

Hwy 66: 461 l.f. of street frontage / 100 l.f. = 4.61
4.61 x 3 = 14 large shade trees
4.61 x 2 = 9 small ornamental trees

PROVIDED: 14 shade trees + 9 ornamental trees

LANDSCAPE NOTES:
1) Contractor shall stake out tree locations and bed configuration for approval approval by owner prior to installation.
2) Contractor is responsible for verifying location of all underground utilities prior to construction.
3) It is the responsibility of the contractor to advise the owners representative of any condition found on site which prohibits installation as shown on these plans
4) All shrub and groundcover beds shall have a minimum of 3" of hardwood bark mulch
5) Landscape edging shall be located as noted on plan.
6) Trees overhanging walks and parking areas shall have a clear trunk height of seven feet.
7) Multi trunk and ornamental trees will be allowed in the city's right of way with staff approval only. Must be outside any visibility triangles.
8) A visibility triangle must be provided at all intersections as required by the thoroughfare standards code. Trees will have a minimum clear trunk branching height of nine feet.
9) All plant material shall be maintained in a healthy and growing condition,and must be replaced with plant material of similar variety and size if damaged, destroyed, or removed.
10) Landscape areas shall be kept free of trash, litter and weeds.
11) An automatic irrigation system shall be provided to maintain all landscape areas. Over spray on streets and walks is prohibited. A permit from the building inspection department is required for each irrigation system. Impact fees must be paid to the development services department for separate irrigation meters prior to any permit release.
12) Irrigation Controller to have a Rain and Freeze Stat.
13) All landscape is to be greater than 8 feet from all underground utilities.
14) All areas of grading disturbance are to have grass reestablished at 75% coverage prior to letter of acceptance from the city. Means and methods of grass establishment and application of water for grass establishment are at the discretion of the owner and contractor.

RE: Ladera Rockwall – Preliminary Plat Application Letter of Intent
G&A Job Number: 17191

Mr. Miller,

Please accept this letter, on behalf of Integrity Group, as an explanation of the proposed application. We are submitting a Preliminary Plat application for review and approval on approximately 28 acres on the eastern edge Rockwall. The property is generally located along John King Blvd, directly north of Highway 66 and east of 1141.

Ladera Rockwall will be completed in one phase, and with this submittal we show the offsite utilities that will be required.

We are also conducting a flood study to determine the effects of the improvements to John King Blvd, and this flood line will be depicted once completed.

Sincerely,

Michael Duval, E.I.T.

LEGAL DESCRIPTION

BEING all that certain lot, tract or parcel of land situated in the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, and being a portion of a called 41.921 acre tract of land described as Tract 3, in deed to John H. Cullins, recorded in Instrument No. 2008-00396743, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2 inch rebar found at the southeast corner of said 41.921 acre tract, and being the southwest corner of a called 73.2744 acre tract of land described in deed to Mike L. People, recorded in Volume 850, Page 15, Deed Records, Rockwall County, Texas, and being in the north line of U. S. Highway 66;

THENCE S 88°18'19"W, with the north line of U. S. Highway 66, a distance of 490.46 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the most southeasterly corner of a called 3.989 acre tract of land being titled as "Highway 205 Bypass R.O.W." in City of Rockwall vs. John Cullins and Burks T. Payne, Jr., Cause No. 180-633, recorded in Instrument No. 2009-00410863, Deed Records, Rockwall County, Texas, also known as John King Boulevard;

THENCE Northwesterly with the east line of said 3.989 acre tract and John King Boulevard, the following seven (7) calls:

N 30°39'57" W, a distance of 19.44 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

S 59°20'03" W, a distance of 21.30 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS

N 30°39'57" W, a distance of 211.63 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

Northwesterly with a curve to the right having a radius of 1940.00 feet, a central angle of 25°25'15", and an arc length of 860.73 feet, whose chord bears N 17°57'20" W, a distance of 853.69 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 05°14'42" W, a distance of 158.73 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 84°45'18" E, a distance of 20.00 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS";

N 05°14'42" W, a distance of 136.88 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS" in the south line of a called 10.942 acre tract of land described in deed to City of Rockwall, recorded in Instrument No. 2007-00389123, Deed Records, Rockwall County, Texas;

THENCE N 89°26'01" E, with the south line of said 10.942 acre tract, a distance of 15.52 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southeast corner thereof;

THENCE N 00°0'47" W, with the east line of said 10.942 acre tract, a distance of 271.63 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southwest corner of a 16.000 acre tract of land described as Tract 2 in deed to Betty Bogard, recorded in Instrument No. 2008-00396742, Deed Records, Rockwall County, Texas;

THENCE N 89°54'11" E, with the south line of said 16.000 acres, a distance of 842.15 feet to a 1/2 inch rebar set with cap stamped "G&A CONSULTANTS", being the southeast corner thereof and being in the west line of said 73.2744 acre tract;

THENCE S 01°28'09" E, with the west line of said 73.2744 acre tract of land, a distance of 1555.42 feet to the POINT OF BEGINNING and containing approximately 28.011 acres of land.

STATE OF TEXAS :

COUNTY OF DENTON : WHEREAS We, RW Ladera, LLC, are the owners of the hereinabove described property, and, acting by and through our duly authorized representative, do hereby adopt this Preliminary Plat designating the same as Ladera Rockwall, an addition to the City of Rockwall, and do hereby dedicate to the public use forever by fee simple title, free and clear of all liens and encumbrances, all streets, thoroughfares, alleys, parks, trails, water courses, storm drainage facilities, easements, rights-of-way and public places, "and any other property necessary to serve the plat and to implement the requirements of the Subdivision Ordinance and Design Criteria thereon shown" for the purpose and consideration therein expressed.

WITNESS OUR HAND this _____ day of _____, 2017.

_____
John Delin, Authorized Representative

STATE OF TEXAS :
COUNTY OF DENTON : BEFORE ME, THE UNDERSIGNED AUTHORITY personally appeared Pat O'Brien, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged that he executed the same for the purpose and consideration therein expressed and in the capacity therein stated.

GIVEN UNDER MY HAND AND SEAL OF OFFICE this _____ day of _____, 2017.

_____
Notary Public

My commission expires the _____ day of _____, 2017.

Recommended for Preliminary Approval

_____ _____
Chairman, Planning & Zoning Commission Date

Approved for preparation of Final Plat

_____ _____
Mayor, City of Rockwall, Texas Date

SURVEYOR'S STATEMENT

I, W. Thad Murley III, a Registered Professional Land Surveyor in the State of Texas, have prepared this plat of the above property from an actual survey on the ground, and this plat represents that survey made by me or under my supervision.

PRELIMINARY DOCUMENT:
THIS DOCUMENT SHALL NOT BE RECORDED FOR ANY PURPOSE AND SHALL NOT BE USED OR VIEWED OR RELIED UPON AS A FINAL SURVEY DOCUMENT. W. THAD MURLEY III, R.P.L.S. 5802 12/15/17

LANDSCAPE NOTES:
1) Contractor shall stake out tree locations and bed configuration for approval approval by owner prior to installation.
2) Contractor is responsible for verifying location of all underground utilities prior to construction.
3) It is the responsibility of the contractor to advise the owners representative of any condition found on site which prohibits installation as shown on these plans
4) All shrub and groundcover beds shall have a minimum of 3" of hardwood bark mulch
5) Landscape edging shall be located as noted on plan.
6) Trees overhanging walks and parking areas shall have a clear trunk height of seven feet.
7) Multi trunk and ornamental trees will be allowed in the city's right of way with staff approval only. Must be outside any visibility triangles.
8) A visibility triangle must be provided at all intersections as required by the thoroughfare standards code. Trees will have a minimum clear trunk branching height of nine feet.
9) All plant material shall be maintained in a healthy and growing condition,and must be replaced with plant material of similar variety and size if damaged, destroyed, or removed.
10) Landscape areas shall be kept free of trash, litter and weeds.
11) An automatic irrigation system shall be provided to maintain all landscape areas. Over spray on streets and walks is prohibited. A permit from the building inspection department is required for each irrigation system. Impact fees must be paid to the development services department for separate irrigation meters prior to any permit release.
12) Irrigation Controller to have a Rain and Freeze Stat.
13) All landscape is to be greater than 8 feet from all underground utilities.
14) All areas of grading disturbance are to have grass reestablished at 75% coverage prior to letter of acceptance from the city. Means and methods of grass establishment and application of water for grass establishment are at the discretion of the owner and contractor.

TREE PRUNING, REMOVAL AND PROTECTION MEASURES

A. QUALITY ASSURANCE
1) Comply with applicable Federal, state, county and local regulations governing landscape work.
2) employ only experienced personnel. Provide adequate supervision by qualified foreman.

B. JOB CONDITIONS
1) Coordination: Coordinate and cooperate with other contractors to enable the work to proceed as rapidly and efficiently as possible.
2) In order to minimize conflict, secure from the Construction Manager copies of layout drawings showing the location of all underground utility lines and other structures

C. PRODUCTS
1) MULCH: Double shredded hardwood mulch free of sticks, dirt and other debris and derived from the site clearing.

D. DEFINITIONS
1) CRZ: Critical Root Zone: The area of undisturbed natural soil around a tree defined by a concentric circle with a radius in feet equal to the the number of inches of trunk diameter.
2) TPF: Tree Protection Fence: The orange safety barrier netting that shall extend around the entire circumference of the tree at the CRZ or as shown on approved plans.

E. PRE-CONSTRUCTION TREE PRUNING
1) Personnel Qualifications: All pruning shall be performed under the supervision of an International Society of Arboriculture (ISA) Certified Arborist.
2) All trees within the project area shall be pruned to:
(i) Clear the crown of diseased, crossing, weak and dead wood to a minimum of 1 ½ inches in diameter
(ii) Provide 14 feet of vertical clearance over streets and 8 feet over sidewalks.
(iii) Remove stubs, cutting outside the woundwood tissue that has formed around the branch.
(iv) Reduce end weight on heavy, horizontal branches by selectively removing small diameter branches, no greater than 2 to 3 inches, near the ends of the scaffolds.
3) Pruning cuts shall be made in accordance with ANSI 300 Pruning Standard and work shall be performed in accordance with ANSI Z133.1 Safety Standards. Pruning shall be in accordance with ISA's Best Management Practices: Tree Pruning
4) No more than 20 percent of live foliage shall be removed from any tree.
5) Brush shall be chipped and chips shall be spread underneath trees within the tree protection zone to a maximum depth of 4 inches, leaving the trunk clear of mulch.

F. TREE REMOVAL
1) Tree preservation requires a commitment to preserving and maintaining retained trees, as well as removal of any unsuited trees within the Project Area.
2) All wood debris from all tree removals at the Project Site is to be chipped and stored on site for use in the tree preservation efforts at the discretion of the Landscape Architect.
3) The limits of all tree protection zones shall be staked in the field and observed by all contractors,
4) Any brush clearing required within the tree protection zone shall be accomplished with hand operated equipment.
5) Trees to be removed from within the tree protection zone shall be removed under the supervision of a Certified Arborist. The trees shall be cut near ground level and the stump ground out.

G. TREE PROTECTION
1) Before beginning work, the Project Manager, Landscape Architect and/or Owner of their agents are required to meet at the site to review all work procedures, access routes, storage areas, and tree protection measures. Any intended construction activities inside the TPZ shall be clearly outlines.
2) Fences shall be erected to protect trees to be preserved prior to construction equipment arriving on the Project Site. Fences will define the specific protection zone for each tree or group trees.
3) Fences are to be maintained and remain until all site work has been completed and final landscape operations begin. Fences may not be relocated or removed without written permission from the Landscape Architect. Fences may be constructed from 6 "1" stakes and orange web fence material
4) All trees to be preserved shall have 4 inches of hardwood mulch applied inside the tree protection zone. This hardwood mulch shall be replenished as necessary to maintain a 4 inch depth.
5) Construction trailers, traffic and storage areas must remain outside fenced areas at all times.
6) Tree roots extend out in a straight, radial direction from the tree much like spokes on a wheel (to a depth generally not exceeding 24"). All underground utilities and drain or irrigation lines shall be routed outside the tree protection zone. If lines must traverse the protection area, they shall be tunneled or bored under the tree. Trenches "airdug" with Air Spade (registered trademark) or similar technology are the exceptions. Irrigation line may routed in any direction outside the dripline of retained trees. Irrigation lines inside the dripline must be in a straight, radial direction towards the tree trunk and terminate in a dead end sprinkler head no grater than 7 feet from a tree trunk (irrigation lines shall not in any way bisect and therefore damage the "spoke-like" root system).
7) No materials, equipment, spoil, or waste or washout water may be deposited, stored, or parked within the tree protection zone.
8) If unintentional injury should occur to any tree during construction, it shall be reported to the Landscape Architect within six hours so that remedial action can be taken. Timeliness is critical to tree health. The cost of any remedial treatments will become the burden of the offending contracting company.
9) Any grading, construction, demolition, or other work that in expected to encounter tree roots must be monitored by the Landscape Architect. Specific locations or tree tag numbers should be identified

(12/20/2017 2:23 PM AW)
See markups
Add 10' utility easements to the front of each lot
Side yard setbacks?
Tie 2 corners to City monumentation (x,y)
Need to add all 20' sewer and drainage easements
Need to show and label the detention and drainage easement
Lot 4 doesn't look correct per engineering plans
Need off-site sewer easement prior to final plat mylars. Will need to have the filing information on the plat.
Need to show minimum finished floor on all lots adjacent to flood plain
Need to show and label the flood plain cross sections with elevations
Need to move the lot line so that the erosion hazard setback is not in the lots but still needs to show it has an "item" on the plat in the drainage, utility, and flood plain easement
Need to add a note: Property owner/HOA is responsible for all maintenance, repair, and replacement of all systems in the detention and drainage easements.
Need to show gas easement. Will need a letter of approval from the gas company prior to engineering approval.

Discuss and consider a request by Cameron Slown of F. C. Cuny Corporation on behalf of Robert S. Whittle for the approval of a final plat for the Highlands Subdivision containing 46 single-family residential lots on a 11.655-acre tract of land identified as Tract 2 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 5 (PD-5) for Zero Lot Line (ZL-5) District land uses, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located at the northwest corner of the intersection of SH-66 and FM-1141, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 12.20.2017

The following staff comments are to be addressed and resubmitted (as a preliminary plat) no later than Wednesday, January 3, 2018. Please provide two FOLDED large copies [18" X 24"] and one PDF version for a subsequent review by staff:

1. The final plat shall conform to all requirements stipulated by the PD Ordinance (PD-5) as amended.
2. The final plat shall conform to all standards and requirements of the Planning, Engineering and Fire Departments.
3. A treescape plan for the entire development shall be submitted and approved at final plan. Resubmit the treescape indicating all trees to be removed from the site and ghost in the lot lines to better delineate where the trees are located.
4. Provide a label indicating the width of the lot at the build line meeting the minimum 50-ft lot frontage for the following Lots: 2, 3, 6, 15, 20, 24, 25, 26, 33, & 34, of Block A (must be a minimum of 50-ft lot frontage at the build line for curvilinear lots).
5. The final plat shall conform to Park District No. 9 requirements and the recommendations made by the Parks Board from the May 2, 2017 meeting as listed below, and at their regularly scheduled meeting to be held on January 3, 2018:

• The development will include a public trail dedication and construction along the north side of “street A” along the westside of FM 1141 in the area indicated as open space adjacent to the northern most parcel in addition to allowing a public access and trail easement in the area north of “street A’ within the flood plain and the adjacent areas indicated as open space and connecting to the City’s existing trail system per the Parks Master Plan.
• The proposed trail system shall be a minimum of eight (8) feet wide and be constructed with concrete. Where this is not possible the trail system may be a minimum of six (6) feet wide and be constructed with concrete. This trail system should be depicted on the preliminary plat.
• Playground equipment shall meet or exceed all ASTM and CPSC playground safety guidelines for design, installation, fall zones and maintenance.
• Cash-in-lieu of land fees shall be paid at the time of final plat.
• The preliminary plat should indicate that all private parkland, opens space, and playground equipment is to be maintained by the HOA, and that the trails and playground shall remain open to the public.
• The developer must provide proof that the trail and playground amenity costs meet or exceed the required pro-rata equipment fees at the time of final plat in accordance with the Mandatory Park Land Dedication Ordinance.

6. Provide a label indicating "Case No. P2017-070" on the lower right corner on all pages of the revised final plat submittal.
7. Submittal and approval of civil engineering plans prior to submittal of final plat.
8. Provide labels for all open space areas indicating "To Be Maintained by HOA."
9. Provide calculation for square footage and area of the dedicated right-of-way along SH-66.
10. Change on dates on page 2 to indicate year ‘2018’.

Staff would recommend that someone be present for the following meeting dates. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

GENERAL NOTES

1. THE BASIS OF BEARING FOR THIS SURVEY IS THE TEXAS COORDINATE SYSTEM of 1983, NORTH CENTRAL ZONE (4202), GEODETIC BEARING ESTABLISHED BY GPS MEASUREMENTS TAKEN ON THE GROUND AND COMPUTED BY ONLINE POSITIONING USER SERVICE (OPUS) OFFERED BY THE NATIONAL GEODETIC SURVEY.
2. ALL CORNERS ARE 5/8" IRON RODS WITH CAP STAMPED "R.P.L.S. 5430" UNLESS OTHERWISE NOTED.
3. THE SURVEYOR, AS REQUIRED BY STATE LAW, IS RESPONSIBLE FOR SURVEYING INFORMATION ONLY AND BEARS NO RESPONSIBILITY FOR THE ACCURACY OF THE ENGINEERING DATA ON THIS PLAT.
4. THE SURVEYOR HAS MADE NO INVESTIGATION OR INDEPENDENT SEARCH FOR EASEMENTS, ENCUMBRANCES, OR ANY OTHER FACTS THAT AN ACCURATE AND CURRENT TITLE SEARCH MAY DISCLOSE.
5. THE PROPERTY SHOWN HEREON BY GRAPHIC SCALE IS LOCATED IN ZONE "X" WHICH IS NOT A FLOOD HAZARD AREA AND ZONE "A" NO BASE FLOOD ELEVATION DETERMINED ACCORDING TO MAP NO. 48397C0030 L AND 48397C0040 L, DATED SEPTEMBER 26, 2008 OF THE NATIONAL INSURANCE RATE MAP PREPARED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY.THIS FLOOD STATEMENT DOES NOT IMPLY THAT THE PROPERTY AND/OR THE STRUCTURE THEREON WILL BE FREE FROM FLOODING OR FLOOD DAMAGE. ON RARE OCCASIONS, GREATER FLOODS CAN AND WILL OCCUR AND FLOOD HEIGHTS MAY BE INCREASED BY MAN-MADE OR NATURAL CAUSES. THIS FLOOD STATEMENT SHALL NOT CREATE LIABILITY ON THE PART OF THE SURVEYOR.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as THE HIGHLANDS to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in THE HIGHLANDS addition have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwalls West regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

My Commission Expires:

OWNERS CERTIFICATE

STATE OF TEXAS}
COUNTY OF ROCKWALL}

WHEREAS Robert S. Whittle is the owner of a tract of land located in the M.B. Jones Survey, Abstract No. 122, Rockwall County, Texas, and being a portion of a tract of land described by deed to Robert S. Whittle recorded in Volume 694, Page 47 of the Deed Records of Rockwall County, Texas, and being more particularly described by metes and bounds as follows;

BEGINNING at a Wood R.O.W. marker found at the intersection of the north line of State Highway 66, (a called 60' R.O.W.) and the west line of F.M. 1141, (a called 80' R.O.W.);

THENCE South 88 degrees 21 minutes 55 seconds West, along the north line of said State Highway 66, a distance of 1271.19 feet to a 5/8 inch iron rod found for the southeast corner of a tract of land described by deed to the State of Texas (called Tract 1 for right-of-way purposes) recorded in Volume 30, Page 569 of the Deed Records of Rockwall County, Texas;

THENCE North 02 degrees 49 minutes 40 seconds East, along said State of Texas tract, a distance of 119.82 feet to a 5/8 inch iron rod found for the northeast corner of said State of Texas tract (called Tract 2 for Roadside Park purposes);

THENCE South 88 degrees 25 minutes 41 seconds West, along the north line of said Tract 2, a distance of 203.03 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430 set for corner lying on the east line of Lot 8-A, Common Area and Drainage Easement shown on Caruth Lake Phase 5, an addition to the City of Rockwall recorded in Cabinet D, Slide 29 of the Plat Records of Rockwall County, Texas;

THENCE North 00 degrees 29 minutes 21 seconds East, along the east line of said Lot 8-A, a distance of 38.78 feet to a 5/8 inch iron rod found for the south corner of tract of land described by deed to the City of Rockwall recorded in Volume 2770, Page 151 of the Deed Records of Rockwall County, Texas;

THENCE North 63 degrees 54 minutes 25 seconds East, along the southeast line of said City of Rockwall tract, a distance of 952.58 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

THENCE departing the southeast line of said City of Rockwall tract and through the interior of said Whittle tract the following courses and distances;

South 75 degrees 35 minutes 32 seconds East, a distance of 22.29 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 70 degrees 44 minutes 53 seconds East, a distance of 27.78 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 64 degrees 23 minutes 19 seconds East, a distance of 44.01 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 53 degrees 34 minutes 24 seconds East, a distance of 56.57 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 57 degrees 49 minutes 01 seconds East, a distance of 27.38 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 49 degrees 39 minutes 42 seconds East, a distance of 18.09 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 31 degrees 07 minutes 46 seconds East, a distance of 33.96 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 42 degrees 38 minutes 26 seconds East, a distance of 49.05 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 66 degrees 20 minutes 25 seconds East, a distance of 46.25 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 71 degrees 57 minutes 43 seconds East, a distance of 51.77 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 67 degrees 14 minutes 43 seconds East, a distance of 50.82 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 64 degrees 06 minutes 26 seconds East, a distance of 50.39 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 59 degrees 21 minutes 50 seconds East, a distance of 50.05 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 55 degrees 43 minutes 58 seconds East, a distance of 50.01 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 57 degrees 12 minutes 14 seconds East, a distance of 111.06 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 53 degrees 20 minutes 36 seconds East, a distance of 48.73 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 46 degrees 28 minutes 44 seconds East, a distance of 37.54 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 32 degrees 58 minutes 31 seconds East, a distance of 25.68 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner;

South 67 degrees 23 minutes 26 seconds East, a distance of 20.42 feet to a 5/8 inch iron rod with cap stamped "R.P.LS. 5430" set for corner lying on the aforementioned west line of F.M. 1141;

THENCE South 34 degrees 11 minutes 01 seconds West along the west line of said F.M. 1141, a distance of 123.80 feet to the POINT OF BEGINNING containing 507,711 square Feet, or 11.655 acres of land.

SURVEYORS CERTIFICATE

I, HEREBY CERTIFY, THAT I PREPARED THIS SURVEY PLAT SHOWN HEREON FROM AN ACTUAL SURVEY ON THE GROUND BY ME AND THAT ALL CORNERS ARE MARKED, AND THAT ALL DIMENSIONS SHOWN THEREON ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF, AND FURTHERMORE THERE ARE NO ENCROACHMENTS, PROTRUSIONS, IMPROVEMENTS, EASEMENTS, RIGHT-OF- WAY, OR 100 YEAR FLOOD PLAIN AFFECTING THE PROPERTY EXCEPT AS SHOWN THEREON.

WITNESS UNDER MY HAND THIS THE _____ DAY OF _____, 2017.

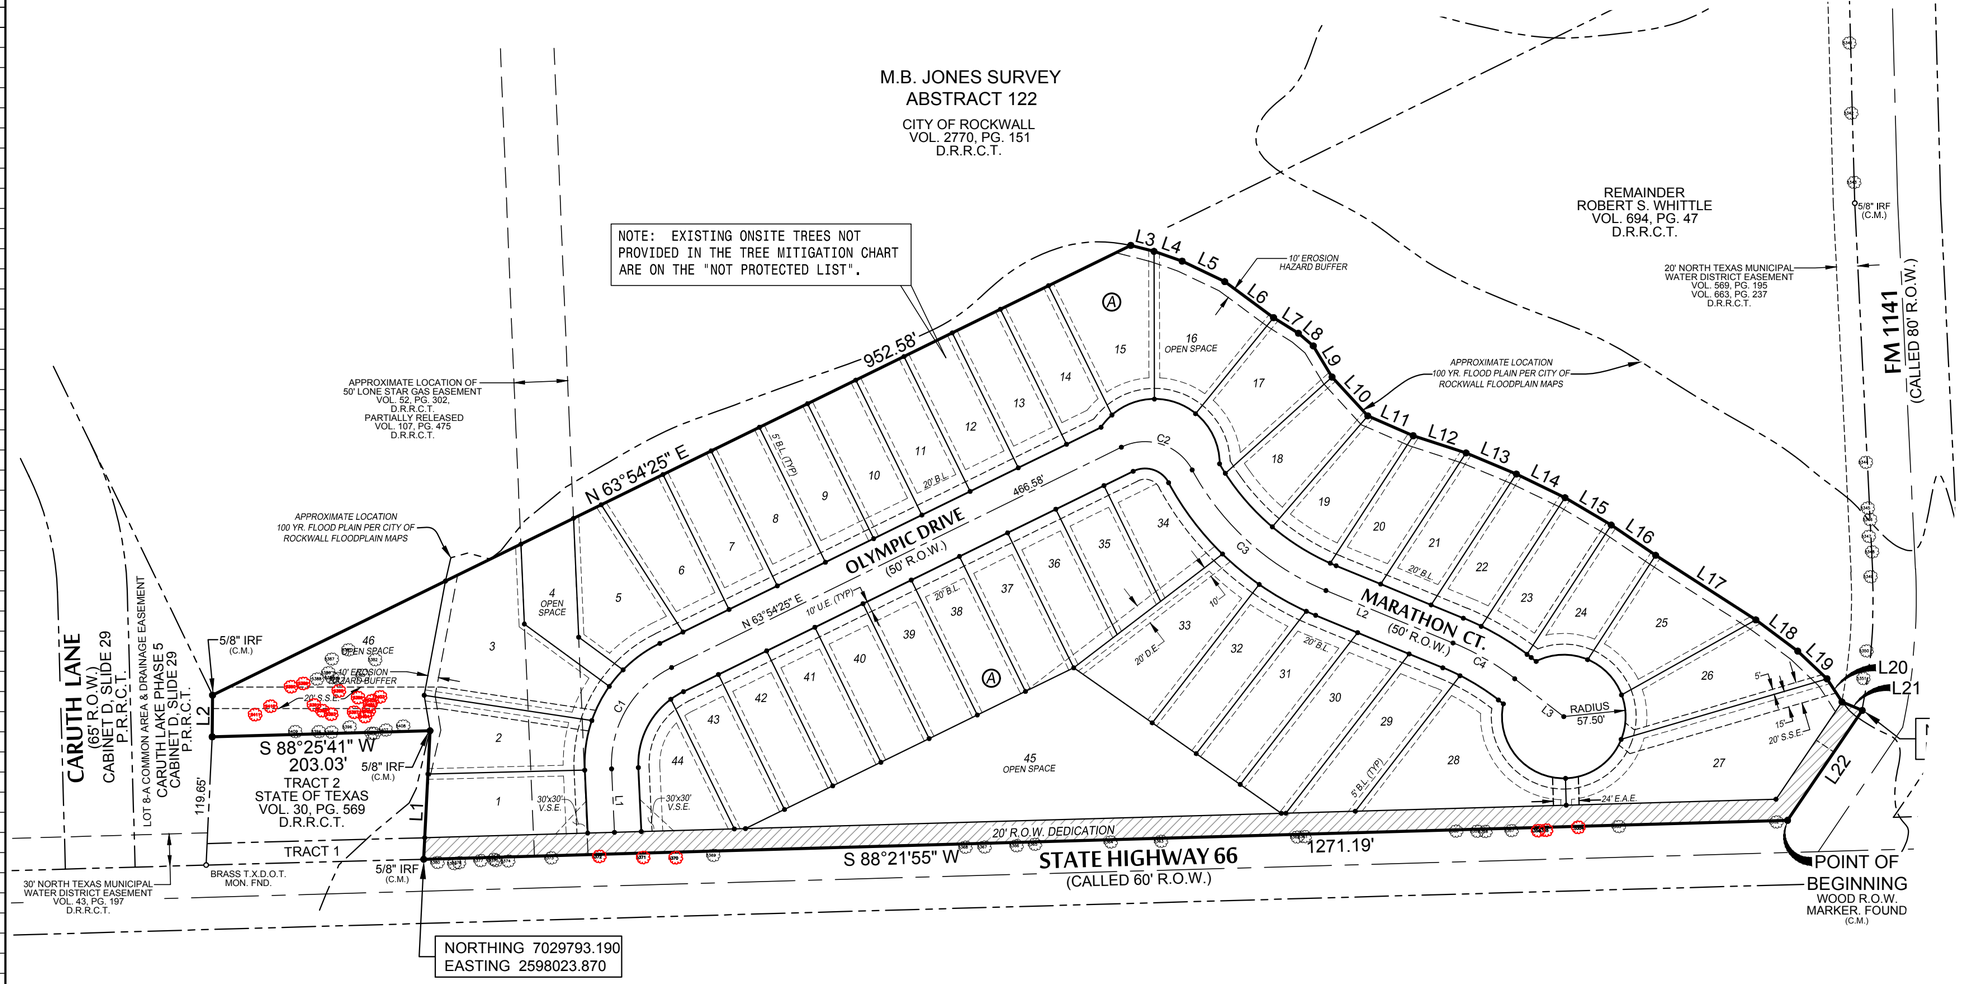
TOTAL CALIPER INCHES TO BE REPLACED==>				189

* NOTE: ONSITE TREES NOT PROVIDED IN THE TREE MITIGATION CHART ARE ON THE "NOT PROTECTED LIST".



TREE MITIGATION NOTE

1. THERE WILL BE A MINIMUM OF TWO, THREE INCH (3") CALIPER TREES PLANTED PER LOT ON LOTS 1-45. ALL TREES PLANTED ARE TO BE FROM THE LIST OF CANOPY AND ACCENT TREES PROVIDED IN ARTICLE 9, SECTION 7.D OF THE CITY OF ROCKWALL UNIFIED LAND DEVELOPMENT CODE.

See Markups
4% engineering inspection fees
Impact fees
$170,162.51 to be paid in proportionality on Sids or build 24' of roadway along the property
Mims lift station pro-rata = $401.89/acre for the additional acreage over 2.792 acres
Water/Sewer line to be 10' from edge of easement (centered in 20' easement)
Fire hydrants to have 5' clear around (see markup)
Need to show existing flood plain with elevations until new flood study is approved
Fuel area drainage to drain to oil/water separator prior to storm
Test existing paving strength to be able to use as fire lane
Add note: No trees within 5' of any public utility
Need to show trees in detention area
Need to show public utilities on landscape plan to ensure 5' clearance

Please let staff know if you would prefer individual addresses issued for the new buildings or if you would prefer campus addressing (i.e. 980 Sids Rd, Buildings, A, B, and C)

PLANNING	David Gonzales	12/15/2017	12/22/2017	12/20/2017	5	COMMENTS	See comments

Discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a site plan for an addition to an existing facility on an 18.875-acre tract of land identified as Lots 1, 2 & 3, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Wednesday, January 3, 2018. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label all revised site plan documents with "Case No. SP2017-042" at the lower right corner of each plan.
4. All exterior signage requires submittal and approval of a separate building permit through the Building Inspections Department.

VARIANCES AND EXCEPTIONS TO BE CONSIDERED BY CITY COUNCIL:
** The following requests require approval by a simple majority vote of Council**

1. Sec. 6.5.B. Table 3, of Art. VI, of the UDC requires a minimum parking standard of one (1) parking space for each 300 square feet of the gross building area for an office use and one (1) park space for each 1,000 SF of gross building area for a warehouse use. The applicant is providing 69 parking spaces with the remainder [i.e. 65 parking spaces] to be considered for future needs of the operation and requires a variance to the standards as prescribed in the UDC to allow for the future parking to be installed at a later date.

2. Sec. 4.1.A.1, of Art. V, of the UDC – requires exterior walls to consist of 90 percent masonry materials…and shall have exterior walls constructed of stone, brick, glass block, tile, cast metal, cast or cultured stone, or a combination of those materials. The use of other cementaceous products (e.g., stucco, Hardy Plank, or other similar materials approved by the building official) shall be limited to 50 percent of the building's exterior…The applicant is using tilt-up wall construction for both buildings and exceeds the 50% use of a cementaceous product on the following elevations as follows: a) Office – south elevation = 66.7% & east elevation = 67.1% and b) Warehouse – north = 59.2%, south = 82.4%, east = 79%, and west = 54%. Exceptions to this requirement may be permitted on a case by case basis by the council upon submission and approval of elevation drawings.

3. Sec. 5.12.C, of Art. VIII, of the UDC requires detention basins to be landscaped in a natural manner using ground cover, grasses, shrubs and trees in all dry land areas. There shall be a minimum of one tree for each 750 square feet of dry land area.

Please address the following Planning Comments for each plan and resubmit revised plans by date requested above:

Site Plan:
1. Re-label all firelanes as "24-ft Firelane, Public Access & Utility Easement".
2. Parking calculations are based on gross building area. There is a conflict between the table and building footprint. Correct table or label of building footprint for the gross area of each building and provide correct parking calculations. Parking required based on the building footprint = 134 spaces. If this amount does to increase by seven (7) spaces, provide the additions parking on the site plan meeting this standard.
3. Based on the parking provided, a variance will be required in order to reduce the minimum amount required. Provide a schedule as to when these parking spaces

will be installed. Variance Required.
4. Delineate and label the required landscape buffer strip along Sids Road.
5. Sec. 2.1.10.1outside storage and/or outside display, of Art. IV, of the UDC requires outdoor storage to be screened to the height of what is being stored from streets and public open space, and from abutting residentially zoned districts, and from an NS, GR, C, DT or RT district. Provide detail of screening fence.

Landscape Plan:
1. Article VIII, Sec. 5.12,C. - requires a minimum of 1 tree per 750 sq. ft. of dry area within the detention pond. Label the detention pond area. Provide the required trees for this area or a variance will be required for not meeting this standard.
2. Delineate and label the required landscape buffer along Sids Road.
3. Provide three (3) caliper inch trees spaced at a minimum of 50-ft intervals along Sids Road.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall height of 20-ft includes pole, base, fixtures, etc.) per the standards of the UDC. Provide lighting pole detail.
2. In order to reduce glare, foot candle readings are not to exceed 0.2-FC at the property lines. The readings along the east property line exceed this standard. Reduce to meet the UDC standard of 0.2-FC or less.
3. Provide a heavier gray scale that illustrates the property line on plan.

Building Elevations:
1. All mechanical equipment requires screening from rights-of-way and adjacent properties. Indicate location of units and provide detail of screening mechanism to be used.
2. The following requires approval by the City Council as indicated above:
A) To allow for the use of concrete tilt-up wall construction (cementaceous product)
3. The CMU lightweight block is prohibited by the UDC. Provide a different material for mechanical equipment yard.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: December 26, 2017 (6:00p.m.) [Applicant to present case to P&Z for Discussion]

Architectural Review Board: December 26, 2017 (5:00 p.m.) [Recommendations to applicant for Subsequent meeting]

Planning - Action: January 9, 2018 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

Architectural Review Board: January 9, 2017 (5:00 p.m.) [Recommendation to P&Z or (Subsequent meeting if necessary)]

City Council - Action: Tuesday, January 16, 2018 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

SHEET 04 OF 16

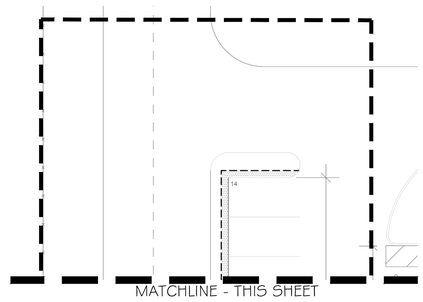
1 LAYOUT PLAN
1" = 30'-0"



LAYOUT & DIMENSION GENERAL NOTES

1. WRITTEN DIMENSIONS SHALL GOVERN OVER SCALED DIMENSIONS.
2. ALL IMPROVEMENTS SHALL BE STAKED IN THE FIELD BY THE CONTRACTOR AND APPROVED BY THE OWNER'S REPRESENTATIVE PRIOR TO CONSTRUCTION OR INSTALLATION. NOTIFICATION SHALL BE PROVIDED TO THE LANDSCAPE ARCHITECT ONE WEEK PRIOR TO REVIEW.
3. CONTRACTOR SHALL VERIFY ALL UTILITIES SHOWN ON THE PLANS AS WELL HAVE THE SITE UTILITIES LOCATED ON THE GROUND PRIOR TO THE START OF CONSTRUCTION ACTIVITIES. IN THE EVENT THAT THE CONTRACTOR DISCOVERS AN UNDERGROUND UTILITY THAT IS NOT REPRESENTED WITHIN THE CONSTRUCTION DOCUMENTS OR AS MARKED ON THE SITE, HE SHALL IMMEDIATELY CONTACT THE OWNER'S REPRESENTATIVE TO DETERMINE NEXT STEPS PRIOR TO ANY CONSTRUCTION ACTIVITIES WITHIN THE AREA OF THE NEWLY DISCOVERED UNDERGROUND UTILITY.
4. THE CONTRACTOR SHALL EXAMINE THE SPECIFICATIONS FOR ADDITIONAL REQUIREMENTS AND DETAILS.
5. ALL DIMENSIONS ARE TO BACK OF CURB AND FACE OF BUILDING UNLESS OTHERWISE NOTED.
6. HANDICAP RAMPS TO BE LOCATED AND INSTALLED AS SHOWN IN DRAWINGS. CONTRACTOR SHALL ENSURE THAT ALL TAS/ADA GUIDELINES ARE FOLLOWED.
7. REINFORCEMENT SHALL BE PROVIDED IN THE CONCRETE IMPROVEMENTS AS SHOWN WITHIN THE CONSTRUCTION DETAILS AND SPECIFICATIONS AND SHALL BE INSTALLED CONTINUOUS THROUGH CONTROL JOINTS, AND PER DETAIL DRAWINGS FOR THE EXPANSION JOINTS.
8. EXPANSION JOINT AND CONTROL JOINT SPACING SHALL BE LOCATED AS SHOWN ON PLANS AND DETAILS.
9. CONTRACTOR SHALL PROVIDE AN EXPANSION JOINT WHERE PROPOSED CONCRETE MEETS EXISTING WALKS OR CURBS.
10. GRADING IMPROVEMENTS HAVE BEEN DESIGNED WITH THE INTENT OF THE FOLLOWING GUIDELINES:
    - ALL WALKS SHALL HAVE A MAXIMUM CROSS SLOPE OF 2% IN THE DIRECTION OF THE DOWNHILL SIDE.
    - THE RUNNING SLOPE OF THE WALKS SHALL BE NO GREATER THAN 5%.
    - ALL GRADES SHALL BE FINISHED TO A SMOOTH, FLOWING CONTOUR, MAINTAINING FLOW PATTERNS THAT ALLOW THE WATER TO FLOW FROM PLANTED AREAS, ACROSS PAVED AREAS TO DRAINAGE COLLECTION POINTS AS DEPICTED IN THE CONSTRUCTION DOCUMENTS.
11. THE CONTRACTOR SHALL ENSURE POSITIVE DRAINAGE THROUGHOUT CONSTRUCTION ACTIVITIES FOR THE PROJECT. ACCUMULATION OF STANDING WATER WILL NOT BE PERMITTED.
12. THE CONTRACTOR IS TO LOCATE, DOCUMENT, AND PROTECT ALL CONTROL BENCH MARKS THROUGHOUT THE DURATION OF CONSTRUCTION ACTIVITIES.
13. ALL QUANTITIES PROVIDED ARE TO BE VERIFIED AND ARE THE RESPONSIBILITY OF THE CONTRACTOR.
14. IF DISCREPANCIES BETWEEN PLANS, SPECIFICATIONS AND MATERIAL/FURNISHING SCHEDULES SHOULD OCCUR, THE CONTRACTOR IS RESPONSIBLE TO VERIFY ANSWER WITH LANDSCAPE ARCHITECT, PRIOR TO START OF CONSTRUCTION.

HARDSCAPE NOTES SCHEDULE

SYMBOL	DESCRIPTION	DETAIL
1	MINI COBBLE (2"-4") BY DFW STONE SUPPLY OR APPROVED EQUAL 3" DEPTH	5/L1.2
2	4" REINFORCED PEDESTRIAN CONCRETE BROOM FINISH	1/L1.2
3	SAWN CUT STONE 2'X3'X3" MATTED FINISH, NATURAL CONTRACTOR SHALL PROVIDE MOCK-UP	2/L1.2
4	NON-STABILIZED DECOMPOSED GRANITE BY DFW STONE SUPPLY OR APPROVED EQUAL	3/L1.2
5	LEUDER BLOCK (LIMESTONE) 18"W"X9"L 18" H BY DFW STONE SUPPLY OR APPROVED EQUAL	4/L1.2
6	CUSTOM GRATE `JANIS` POWDER COAT WITH BAKED ON OIL FINISH BY IRON AGE DESIGNS OR APPROVED EQUAL	10/L1.2
7	CORTEN PLANTER CONTRACTOR TO SUBMIT SHOP DRAWING	8/L1.2
8	12" CONCRETE MOW CURB	5/L3.2
9	DECORATIVE LANDSCAPE BOULDERS 3'X3'X3' (SANDSTONE) BY DFW STONE SUPPLY OR APPROVED EQUAL	
11	RELOCATED GRILL, EMBEDED IN 3` HEIGHT WALL VENEER TO MATCH BUILDING	
12	STEEL EDGING	7/L3.2
13	8" CONCRETE MOW CURB @ BIOSWALE	6/L3.2
14	ANOVA BH1840SB [42"] SQUARE TABLE WITH BAMBOO PLANKS AND FOUR SWIVEL SEATS, PORTABLE/ SURFACE MOUNT

LANDSCAPE REQUIREMENTS TABLE

SITE DATA - CITY OF ROCKWALL (OFFICE)		
GROSS LOT AREA: (MAIN LANDSCAPE IMPROVEMENTS): 136,730 SF		
MANDATORY REQUIREMENTS	REQUIRED	PROVIDED
LANDSCAPE BUFFER STRIP	N/A	N/A
SCREENING OF OFF STREET LOADING DOCKS	N/A	N/A
ACCEPTABLE LANDSCAPE MATERIALS		
*LARGE TREES MINIMUM 3" CALIPER, SHRUBS MINIMUM 3 GAL.	YES	YES
SCREENING FROM RESIDENTIAL USES	N/A	N/A
STREET LANDSCAPING / R.O.W. LANDSCAPING	N/A	N/A
PARKING LOT LANDSCAPING		
ANY PARKING LOT MORE THAN TWO ROWS OF SPACES SHALL HAVE A MINIMUM OF 5 PERCENT OF INTERIOR LOT LANDSCAPING (8,257 SF X .05)	413 SF	2,014 SF
MINIMUM SQUARE FOOTAGE OF LANDSCAPING: 10 PERCENT (136,730 SF X .10) = 13,673 SF	13,673 SF	25,380 SF

*ALL TREES ARE TRANSPLANT TREES. SEE SHEET LO.1 TREESCAPE PLAN

PLANTING GENERAL NOTES

1. ALL PLANTS SHALL BE SET OUT FOR APPROVAL BY THE OWNER'S REPRESENTATIVE PRIOR TO INSTALLATION.
2. FINE GRADING SHALL BE PERFORMED IN ALL AREAS TO BE LANDSCAPED. FINE GRADING SHALL INCLUDE THE REMOVAL OF DEBRIS, ROCKS, ETC. FROM THE SITE AND INSURE POSITIVE DRAINAGE IN ALL AREAS.
3. THE CONTRACTOR SHALL LOCATE ALL UTILITIES AND EASEMENTS IN THE FIELD PRIOR TO COMMENCEMENT OF WORK. CONTRACTOR IS RESPONSIBLE FOR ANY DAMAGE TO UTILITIES DURING THE COURSE OF CONSTRUCTION.
4. IT IS PREFERABLE THAT NO TREE BE STAKED. HOWEVER, CONDITIONS AND PLANT MATERIAL SIZE MAY NECESSITATE STAKING. THE OWNER'S REP SHALL DETERMINE IF SUPPORT IS NEEDED AND SHALL DIRECT THE CONTRACTOR ACCORDINGLY.
5. THE CONTRACTOR SHALL REFER TO THE SPECIFICATIONS FOR ADDITIONAL INFORMATION AND REQUIREMENTS ASSOCIATED WITH THE LANDSCAPE AND ACCESSORIES.
6. ALL PLANT MATERIALS SHALL MEET ANSI Z60.1 STANDARDS FOR CALIPER, HEIGHT AND ROOT BALL SIZE. ANY MATERIALS THAT DO NOT MEET OR EXCEED SUCH STANDARDS SHALL BE REJECTED AND REPLACED AT THE CONTRACTOR'S EXPENSE.
7. BALLED AND BURLAPPED TREES SHALL HAVE THE TOP 2/3 OF THE WIRE BASKET REMOVED. THE BURLAP SHALL BE REMOVED TO THE GREATEST EXTENT POSSIBLE, USING A KNIFE TO CUT AND REMOVE THE BOTTOM HALF UNDER THE WIRE BASKET THAT REMAINS.
8. ALL QUANTITIES PROVIDED ARE TO BE VERIFIED AND ARE THE RESPONSIBILITY OF THE CONTRACTOR.
9. IF DISCREPANCIES WITH THE PLAN AND PLANTING SCHEDULE SHOULD OCCUR, THE CONTRACTOR IS RESPONSIBLE TO VERIFY WITH THE PROJECT LANDSCAPE ARCHITECT PRIOR TO THE START OF CONSTRUCTION.
10. CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ANY CONFLICTS BETWEEN UNDERGROUND UTILITIES & PLANTING, THE PROJECT LANDSCAPE ARCHITECT SHALL BE NOTIFIED OF THE CONFLICT AND PROVIDE A SOLUTION BEFORE PLANTING MATERIAL IS INSTALLED.
11. ALL TREES TO BE MATCHED, WELL BRANCHING AND WITH A STRONG CENTRAL LEADER.
12. LANDSCAPE ARCHITECT RESERVES THE RIGHT TO REJECT UNSATISFACTORY PLANTS INCLUDING UNAPPROVED SUBSTITUTIONS, DEAD OR DYING PLANTS, AND/OR UNDER SIZED PLANTS PRIOR TO SUBSTANTIAL COMPLETION.
13. ALL LANDSCAPE AREAS SHALL BE IRRIGATED WITH A FULLY AUTOMATIC IRRIGATION SYSTEM
14. 14. ALL PLANT BEDS GREATER THAN 10:1 SLOPE OR RECEIVING SHEET DRAINAGE, TO HAVE 2"-4" DIA COBBLE MULCH. ALL OTHER AREAS TO RECEIVE CEDAR MULCH.

TREE PRESERVATION GENERAL NOTES

1. PROHIBITED ACTIVITIES IN CRITICAL ROOT ZONE: THE FOLLOWING ACTIVITIES ARE PROHIBITED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE SUBJECT TO THE REQUIREMENTS OF THE CITY ORDINANCE.

   A. MATERIAL STORAGE: NO MATERIALS INTENDED FOR USE IN CONSTRUCTION OR WASTE MATERIALS ACCUMULATED DUE TO EXCAVATION OR DEMOLITION SHALL BE PLACED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE.

   B. EQUIPMENT CLEANING/LIQUID DISPOSAL: NO EQUIPMENT SHALL BE CLEANED OR OTHER LIQUIDS DEPOSITED OR ALLOWED TO FLOW OVERLAND WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF A PROTECTED TREE. THIS INCLUDES, WITHOUT LIMITATION, PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR OR SIMILAR MATERIALS.

   C. TREE ATTACHMENTS: NO SIGNS, WIRES OR OTHER ATTACHMENTS, OTHER THAN THOSE A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY PROTECTED TREE.

   D. VEHICULAR TRAFFIC: NO VEHICULAR AND/OR CONSTRUCTION EQUIPMENT TRAFFIC OR PARKING SHALL TAKE PLACE WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE OTHER THAN ON EXISTING STREET PAVEMENT. THIS RESTRICTION DOES NOT APPLY TO SINGLE INCIDENT ACCESS WITHIN THE CRITICAL ROOT ZONE FOR PURPOSES OF CLEARING UNDERBRUSH, ESTABLISHING THE BUILDING PAD AND ASSOCIATED LOT GRADING, VEHICULAR TRAFFIC NECESSARY FOR ROUTINE UTILITY MAINTENANCE, EMERGENCY RESTORATION OF UTILITY SERVICE, OR ROUTINE MOWING OPERATIONS.

   E. GRADE CHANGES: NO GRADE CHANGES SHALL BE ALLOWED WITHIN THE LIMITS OF THE CRITICAL ROOT ZONE OF ANY PROTECTED TREE UNLESS ADEQUATE CONSTRUCTION METHODS ARE APPROVED BY THE LANDSCAPE ADMINISTRATOR.

   F. IMPERVIOUS PAVING: NO PAVING WITH ASPHALT, CONCRETE OR OTHER IMPERVIOUS MATERIALS THAT MAY REASONABLY BE EXPECTED TO KILL A TREE SHALL BE PLACED WITHIN THE LIMITS OF CRITICAL ROOT ZONE OF A PROTECTED TREE EXCEPT AS OTHERWISE ALLOWED IN THE CITY ORDINANCE.

2. PROHIBITED ACTIVITIES IN DRIP-LINE: NO HEAVY EQUIPMENT, INCLUDING BUT NOT LIMITED TO TRUCKS, TRACTORS, TRAILERS, BULLDOZERS, BOBCAT TRACTORS, TRENCHERS, COMPRESSORS, AND HOISTS, SHALL BE ALLOWED INSIDE THE DRIP-LINE OF ANY PROTECTED TREE ON ANY CONSTRUCTION SITE WITHOUT THE SPECIFIC APPROVAL OF THE LANDSCAPE ADMINISTRATOR.

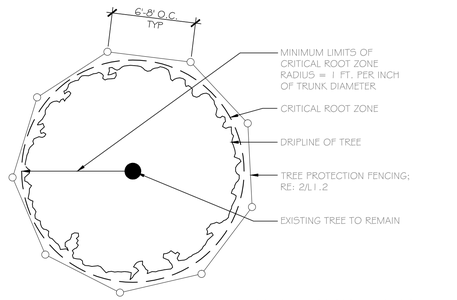
3. PROCEDURES REQUIRED PRIOR TO CONSTRUCTION: THE FOLLOWING PROCEDURES SHALL BE FOLLOWED ON ALL TYPES OF CONSTRUCTION PROJECTS (INCLUDING WITHOUT LIMITATION RESIDENTIAL, COMMERCIAL, AND MUNICIPAL/PUBLIC DOMAIN PROJECTS).

   A. PROTECTIVE FENCING: PRIOR TO CONSTRUCTION, THE CONTRACTOR OR SUBCONTRACTOR SHALL CONSTRUCT AND MAINTAIN, FOR EACH PROTECTED TREE ON A CONSTRUCTION SITE, A PROTECTIVE FENCING WHICH ENCIRCLES THE OUTER LIMITS OF THE CRITICAL ROOT ZONE OF THE TREE TO PROTECT IT FROM CONSTRUCTION ACTIVITY. ALL PROTECTIVE FENCING SHALL BE IN PLACE PRIOR TO COMMENCEMENT OF ANY SITE WORK AND REMAIN IN PLACE UNTIL ALL EXTERIOR WORK HAS BEEN COMPLETED.

   B. TREES TO BE REMOVED SHOULD BE REMOVED FROM THE SITE IN A MANNER TO AVOID INJURY TO REMAINING TREES, INCLUDING THE REMOVAL OF STUMPS AND/OR ROOT SYSTEMS. HEAVY EQUIPMENT SHALL NOT ENCROACH ON THE ROOT SYSTEMS OF TREES TO BE RETAINED OR OTHER TREES OF HIGH VALUE. IF NECESSARY, TREES SHOULD BE REMOVED MANUALLY WITH CHAIN SAWS, AND STUMPS SHOULD BE GROUND OUT INSTEAD OF USING HEAVY EQUIPMENT.

   C. WHERE EXCAVATIONS ARE PERFORMED WITHIN THE ROOT ZONE OF TREES, TRENCHING SHOULD BE PERFORMED MANUALLY, OR BY USING A VIBRATORY PLOW, DIRECTIONAL BORER, OR BY AIR SPADING. BACKHOES SHALL NOT BE USED TO RIP ROOTS AT CONSIDERABLE DISTANCES FROM THE POINT OF EXCAVATION. WHEN TRENCHING OR MODIFICATION OF THE ROOT ZONE ENCROACHES HEAVILY ONTO ESTABLISHED TREES, A ROOT PRUNING METHOD SHOULD BE EMPLOYED WHERE THE ROOTS ARE EXPOSED AND TRIMMED WITH PROPER PRUNING TOOLS SEVERAL INCHES TO THE SIDE OF THE TRENCH BORDERING THE TRUNK OF THE AFFECTED TREE. TEARING OF ROOTS IS TO BE AVOIDED. SUPPLEMENTAL IRRIGATION SHALL START IF NEEDED. ANY ROOTS EXPOSED BY CONSTRUCTION ACTIVITY SHALL BE PRUNED FLUSH TO THE SOIL AND SEALED USING LAC BALSAM. BACKFILL ROOT AREAS WITH GOOD QUALITY TOP SOIL AS SOON AS POSSIBLE (I.E. WITHIN THE SAME WORKDAY). IF ROOTS ARE NOT BACKFILLED WITHIN THIS TIME, THEY SHALL BE COVERED WITH ORGANIC MATERIAL SUCH AS COMPOSTED MULCH TO A DEPTH OF 4 INCHES, WHICH WILL REDUCE TEMPERATURE AND MINIMIZE WATER LOSS DUE TO EVAPORATION.

4. CONTRACTOR IS RESPONSIBLE FOR ANY DAMAGE TO TREES THAT ARE TO REMAIN. CONTRACTOR TO INSTALL NEW TREE OF EQUIVALENT SIZE IF DAMAGED DURING CONSTRUCTION.



NOTE: TREE PROTECTION FENCING SHALL BE PLACED AT OR BEYOND THE DRIP LINE OR CRITICAL ROOT ZONE, WHICHEVER IS GREATER.

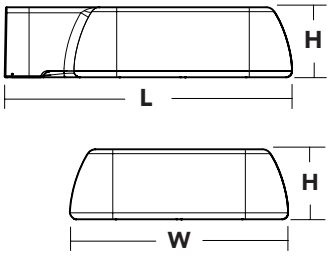
CONTOUR SERIES

Specifications

EPA:	0.7 ft² (0.07 m²)
Length:	23-1/2" (59.7 cm)
Width:	18-1/2" (46.9cm)
Height:	5-7/8" (14.9 cm)
Weight (max):	37 lbs (16.8 kg)



A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and system-level interoperability.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is A+ Certified when ordered with DTL® controls marked by a shaded background. DTL DLL equipped luminaires meet the A+ specification for luminaire to photocontrol interoperability1
- This luminaire is part of an A+ Certified solution for ROAM®2 or XPoint™ Wireless control networks, providing out-of-the-box control compatibility with simple commissioning, when ordered with drivers and control options marked by a shaded background[1]

To learn more about A+, visit www.acuitybrands.com/aplus.

1. See ordering tree for details.
2. A+ Certified Solutions for ROAM require the order of one ROAM node per luminaire. Sold Separately: Link to Roam; Link to DTL DLL

A+ Capable options indicated by this color background.

Ordering Information

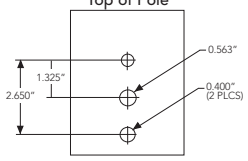
Drilling

Template #8



CSX1 shares a unique drilling pattern with the AERIS™ family. Specify this drilling pattern when specifying poles.

DM19AS	Single unit	**DM29AS**	2 at 90° *
DM28AS	2 at 180°	**DM39AS**	3 at 90° *
DM49AS	4 at 90° *	**DM32AS**	3 at 120° **

Example: SSA 20 4C **DM19AS** DDBXD

Visit Lithonia Lighting's POLES CENTRAL to see our wide selection of poles, accessories and educational tools.

**Round pole top must be 3.25" O.D. minimum.*
***For round pole mounting (RPA) only.*

Accessories

Ordered and shipped separately.

DLL127F 1.5 JU	Photocell - SSL twist-lock (120-277V) [11]
DLL347F 1.5 CUL JU	Photocell - SSL twist-lock (347V) [11]
DLL480F 1.5 CUL JU	Photocell - SSL twist-lock (480V) [11]
DSHORT SBK U	Shorting cap [11]
KMA8 DDBXD U	Mast arm mounting bracket adaptor (specify finish) [4]
PUMBA DDBXD U*	Round and square pole universal mounting bracket adaptor (specify finish)
CSX1HS U	House-side shield (includes 2 shields)
CSX1VG U	Vandal guard accessory
CSX1BS U	Bird-deterrent spikes accessory

For more control options, visit DTL and ROAM online.

Tenon Mounting Slipfitter**

Tenon O.D.	Single Unit	2 at 180°	2 at 90°	3 at 120°	3 at 90°	4 at 90°

NOTES

1. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with fusing (SF, DF options).
2. Also available as a separate accessory; see Accessories information at left.
3. 1.5 G vibration load rating per ANCI C136.31.
4. Requires "SPA" mounting option. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
5. Specifies a ROAM® enabled luminaire with 0-10V dimming capability; PER option required. Not available with 347 or 480V. Add'l hardware and services required for ROAM® deployment; call 1-800-442-6745.
6. Not available with 347 or 480V.
7. Single fuse (SF) requires 120, 277 or 347 voltage option. Double fuse (DF) requires 208, 240 or 480 voltage option.
8. Provides 50% dimming capability via two independent drivers, each operating half the luminaire. Available with MVOLT and two light engines only. N/A with PER, DCR or DMG.
9. Requires an additional switched line.
10. Dimming driver standard. MVOLT only. Not available with DCR.
11. Requires luminaire to be specified with PER option. Ordered and shipped as a separate line item.

Performance Data

Lumen Output

Lumen values are from photometric tests performed in accordance with IESNA LM-79-08. Data is considered to be representative of the configurations shown, within the tolerances allowed by Lighting Facts. Contact factory for performance data on any configurations not shown here.

LEDs	Drive Current (mA)	System Watts	Dist. Type	40K					50K				
				Lumens	B	U	G	LPW	Lumens	B	U	G	LPW
60C	700 mA	134	T2M	15,590	3	0	3	116	15,687	3	0	3	117
			T3M	16,502	3	0	3	123	16,605	3	0	3	124

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient		Lumen Multiplier
0°C	32°F	1.02
10°C	50°F	1.01
20°C	68°F	1.00
25°C	**77°F**	**1.00**
30°C	86°F	1.00
40°C	104°F	0.99

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the **CSX1 LED 60C** platform in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	0	25,000	50,000	100,000
Lumen Maintenance Factor	1.0	0.94	0.90	0.83

Electrical Load

Number of LEDs	Drive Current (mA)	System Watts	Current (A)					
			120V	208V	240V	277V	347V	480V
60C	700	134W	1.321	0.756	0.659	0.580	0.462	0.337
	1000	209W	2.068	1.198	1.056	0.943	0.764	0.605

Photometric Diagrams

To see complete photometric reports or download .ies files for this product, visit Lithonia Lighting's CSX1 homepage.

FEATURES & SPECIFICATIONS

INTENDED USE
The Contour Series LED area luminaire is ideal for streets, walkways, parking lots, and surrounding areas that call for high-performance LED lighting in a transitional dayform.

CONSTRUCTION
Single-piece die cast housing has a unique flow-through design that allows for optimized thermal management through convective cooling. A metallic screen covers the top of the housing, preventing debris build-up while allowing natural cleaning of the heat sinks. Modular design allows for ease of maintenance and future light engine upgrades. The LED driver and electronics are thermally isolated from the light engine(s), ensuring long life. Housing is completely sealed against moisture and environmental contaminants.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling.

OPTICS
Precision-molded acrylic lenses provide optimal luminaire spacing and improved uniformity. Lenses are indexed to the circuit board to ensure consistent optical alignment and delivering repeatable photometric performance. Light engines are available in standard 4000 K (70 CRI) or optional 5000 K (67 CRI) configurations. The CSX1 has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engines consist of 60 high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (100,000 hrs at 40°C, L70). Class 1 electronic driver designed to have a power factor >90%, THD <20%, with an expected life of 100,000 hours with <1% failure rate. Easily-serviceable surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

INSTALLATION
Integral arm provides easy installation to a pole and assists in alignment and leveling. Secure connection withstands up to 3.0 G vibration load rating per ANSI C136.31. The CSX1 utilizes the AERIS™ series pole drilling pattern for SPA and RPA options; wall mounting bracket also available. Available mast arm adapter accessory accepts horizontal tenons up to 2-3/8" O.D.

LISTINGS
CSA Certified to U.S. and Canadian standards. Light engines and luminaire are IP66 rated. **U.S. Patent No. D632830. U.S. Patent No. D653,382 S.**

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY
5-year limited warranty. Complete warranty terms located at:
www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

KBA8 LED
LED Specification Bollard

Catalog Number

Notes

Type

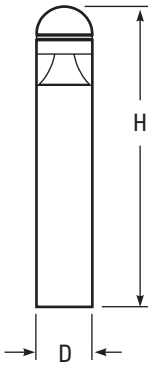
Hit the Tab key or mouse over the page to see all interactive elements.

Specifications

8" Round *(20.3 cm)*

Height: 42" *(106.7 cm)*

Weight (max): 27 lbs *(12.25 kg)*



Introduction

The KBA8 Bollard is a stylish, fully integrated LED solution for walkways. It features a sleek, modern design and is carefully engineered to provide long-lasting, energy-efficient lighting with a variety of optical and control options for customized performance.

With an expected service life of over 20 years of nighttime use and up to 70% in energy savings over comparable 100W metal halide luminaires, the KBA8 Bollard is a reliable, low-maintenance lighting solution that produces sites that are exceptionally illuminated.

Accessories

Ordered and shipped separately.

MRAB U Anchor bolts for KBA8 LED [8]

NOTES

1. Only available in the 12C, ASY version.
2. Only available in the 16C, SYM version.
3. Only available with 450 AMBLW version.
4. Not available with ELCW.
5. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with fusing (SF, DF options), or photocontrol (PE option).
6. Not available with 347V. Not available with fusing. Not available with 450 AMBLW.
7. Single fuse (SF) requires 120, 277, or 347 voltage option. Double fuse (DF) requires 208 or 240 voltage option.
8. MRAB U not available with L/AB4 option.
9. Striping is available only in the colors listed.

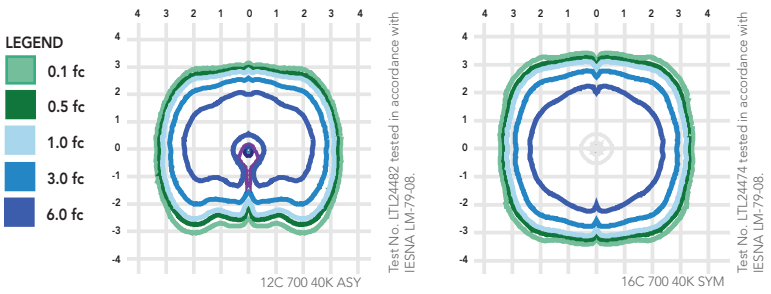
Isofootcandle plots for the KB LED Bollards. Distances are in units of mounting height (3').



FEATURES & SPECIFICATIONS

INTENDED USE
The rugged construction and clean lines of the KBA bollard is ideal for illuminating building entryways, walking paths, and pedestrian plazas, as well as any other location requiring a low mounting height light source with fully cutoff illumination.

CONSTRUCTION
One-piece 8-inch round extruded aluminum shaft with thick side walls for extreme durability, a high-impact clear acrylic lens and welded top cap. Die-cast aluminum mounting ring allows for easy leveling even in sloped locations and a full 360-degree rotation for precise alignment during installation. Three ½" x 11" anchor bolts with double nuts and washers and 3 ¾" bolt circle template ensure stability. Overall height is 42" standard.

FINISH
Exterior parts are protected by a zinc-infused super durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering for maximum retention of gloss and luster. A tightly controlled multi-stage process ensures a minimum 3-mil thickness for a finish that can withstand the elements without cracking or peeling. Available in both textured and non-textured finishes.

OPTICS
Two fully cutoff optical distributions are available: symmetrical and asymmetrical. IP66 sealed LED light engine provides smoothly graduated illumination without any uplight. Light engines are available in standard 4000 K (>70 CRI) or optional 3000 K (>80 CRI) or 5000 K (67 CRI). Limited-wavelength amber LEDs are also available.

ELECTRICAL
Light engines consist of high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (L95/100,000 hours at 700mA at 25°C). Class 2 electronic drivers are designed for an expected life of 100,000 hours with < 1% failure rate. Electrical components are mounted on a removable power tray.

LISTINGS
CSA certified to U.S. and Canadian standards. Light engines are IP66 rated. Rated for -40°C minimum ambient. Cold-weather emergency battery backup rated for -20°C minimum ambient.

WARRANTY
5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Actual performance may differ as a result of end-user environment and application.
All values are design or typical values, measured under laboratory conditions at 25 °C.
Specifications subject to change without notice.

DSXW2 Wallpack

D-Series LED Wall Luminaire, Size 2

More Lumens. Greater Heights.

Delivering more than 11,000 lumens, the D-Series LED Wall Size 2 is a high-output, wall-mounted luminaire that is powerful but precise, producing sites that make a distinct impression with dramatic results. The luminaire is designed for mounting heights of up to 30 feet and provides enhanced flexibility for luminaire placement and area-specific light levels.

Key Features:

- Energy savings up to 76% vs. comparable metal halide luminaires; saves more than $153 per luminaire, per year over 400W metal halide
- Choice of six optics allows for exceptional versatility while delivering incredible uniformity and increased luminaire spacing
- 20+ years expected service life (with lumen maintenance of L87/100,000 hours)
- Optional passive infrared motion sensor with adjustable bi-level dimming
- Acuity Controls ROAM® compatible for wireless control and monitoring

DSXW2 LED

Quick Facts:

- Replaces 175W – 400W metal halide wallpacks
- Lumen packages from 1,673 – 11,351 lumens
- Up to 125 lumens per watt
- Available in 3000K, 4000K, 5000K & Amber CCT
- Weight: 21 lbs

C.E.C. TITLE 20 COMPLIANT | ENERGY STAR | 2015 PROGRESS Report SELECTION

FEATURES

OPTICAL SYSTEM
- Self-flanged or flangeless semi-specular, matte-diffuse or specular finishing trim
- Patented Bounding Ray™ optical design (U.S. Patent No. 5,800,050)
- 45° cutoff to source and source image
- Top-down flash characteristic
- Polycarbonate lens integral to light engine

MECHANICAL SYSTEM
- 16-gauge galvanized steel construction; maximum 1-1/2" ceiling thickness
- Telescopic mounting bars maximum of 32" and minimum of 15", preinstalled, 4" vertical adjustment
- Toolless adjustments post installation
- Junction box capacity: 8 (4 in, 4 out) 12AWG rated for 90°C
- Light engine and driver accessible through aperture
- Injection molded mud ring includedwith flangeless trims. Ships separately. Installs independently of the mounting frame to reduce cracks in plaster due to vibration.

ELECTRICAL SYSTEM
- Fully serviceable and upgradeable lensed LED light engine
- 70% lumen maintenance at 60,000 hours
- Tested according to LM-79 and LM-80 standards
- Overload and short circuit protected
- 2.5 SDCM; 85 CRI typical, 90+ CRI optional

LISTINGS
- Fixtures are CSA certified to meet US and Canadian standards; wet location, covered ceiling. ENERGY STAR® certified product.

WARRANTY
- 5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C.

nPODM 2P DX Dual On/Off/Dim Push-Button WallPod
nCM ADCX Daylight Sensor with Automatic Dimming Control
nCM PDT 9 Dual Technology Occupancy Sensor

Description: This design provides a dual on/off/dim wall station that enables manual control of the fixtures in Row A and Row B separately. Additionally, a daylight harvesting sensor is provided so the lights in row B can be configured to dim automatically when daylight is available. An occupancy sensor turns off all lights when the space is vacant.

nLight® Control Accessories:

A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® control networks when ordered with drivers marked by a shaded background*
- This luminaire is part of an A+ Certified solution for nLight control networks, providing advanced control functionality at the luminaire level, when selection includes driver and control options marked by a shaded background*

To learn more about A+, visit www.acuitybrands.com/aplus.

*See ordering tree for details

HYDREL
An AcuityBrands Company

SUITABLE FOR WET LOCATIONS IP68

PARADOX

ARCHITECTURAL IN-GRADE MONOCHROMATIC LED

DESCRIPTION:

Hydrel's Paradox Series sealed modular in-grade luminaires are multi-purpose units designed for up lighting architectural and landscape features. These units can be flush mounted into a variety of substrates including concrete or tile, or landscape materials, and are ideal when aperture size or luminaire depth is a priority.

SPECIFICATIONS:

DOOR MATERIAL: Die cast bronze or stainless steel.

HOUSING: Compression molded polyester with patent pending internal direct access junction box for through-branch wiring. Internal junction box provides 44in^3 volume to ensure proper seal during installation. The housing is U.V. stabilized, impact and corrosion resistant for use in all types of environments. The housing has a side-car configuration and houses the lamp and power module components as well as the lens/ door finishing section.

SOURCE TYPE:
LED: Monochromatic LEDs, 12W.

VOLTAGE: See ordering guide.

LIGHT DISTRIBUTION: See Ordering Guide.

LENS/SEAL: Tempered clear flat borosilicate glass. The patent pending door / lens seal uses proprietary knife edge technology to secure the assembly to the housing. Three captive screws hold the assembly in place. The lens is notched to provide maximum aperture opening.

CONDUIT ENTRIES: Two molded ¾" NPT side entries standard, bottom hubs are molded with a ¾" NPT membrane knockout.

ACCESSORIES: Decorative rock-guard, internal glare control, anti-slip lenses available. See ordering guide for complete list of accessories.

POWER MODULE: Integrally mounted modular LED driver, prewired with quick connectors for easy installation and maintenance.

FINISH: Natural bronze or stainless steel with a brushed finish. Bronze doors may be painted. Contact factory for color options.

LISTING: U.L., C.U.L

LITHONIA LIGHTING®

Catalog Number	
Notes	
Type	

FEATURES & SPECIFICATIONS

INTENDED USE

Provides years of maintenance-free illumination for outdoor use in residential & commercial applications. Ideal for applications such as lighting walkways and stairways.

CONSTRUCTION

Cast-aluminum housing with corrosion-resistant paint in either dark bronze or white finish.

ADA compliant.

OPTICS

4000K CCT LEDs.

Polycarbonate lens protects the LED from moisture, dirt and other contaminants.

LUMEN MAINTENANCE: The LED will deliver 70% of its initial lumens at 50,000 hour average LED life. See Lighting Facts label on page 2 for performance details.

ELECTRICAL

MVOLT driver operates on any line voltage from 120-277V.

Operating temperature -30ºC to 40ºC.

1KV surge protection standard.

INSTALLATION

Surface mount to universal junction box (provided by others).

LISTINGS

UL Listed to U.S. and Canadian safety standards for wet locations.

Tested in accordance with IESNA LM-79 and LM-80 standards.

WARRANTY

Five-year limited warranty.

Full warranty terms located at www.AcuityBrands.com/CustomerResources/Terms_and_Conditions.aspx.

Note: Specifications are subject to change without notice.

Actual performance may differ as a result of end-user environment and application.

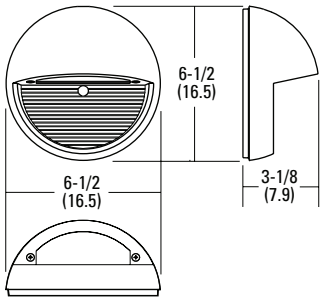
Outdoor General Purpose

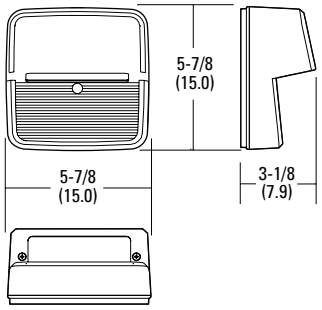
OLSR & OLSS

LED STEP LIGHT

Specifications

All dimensions are inches (centimeters)





ORDERING INFORMATION Lead times will vary depending on options selected. Consult with your sales representative.

Discuss and consider a request by Bob Leimberg of Clayco Construction on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Wednesday, January 3, 2018. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label all revised site plan documents with "Case No. SP2017-042" at the lower right corner of each plan.
4. All exterior signage requires submittal and approval of a separate building permit through the Building Inspections Department.

VARIANCES AND EXCEPTIONS FOR THE CITY COUNCIL TO CONSIDER:
*** As a note, all variances to the FM-549 OV District require approval by a 3/4 majority vote of City Council:

The following are considered to be a request to Sec. 6.13 (FM-549 OV), of Article V, of the UDC:

1. Sec. 6.13. C.1 requires a minimum of 20% natural (or quarried) stone on all facades. The proposed building elevations do not indicate the use of stone on any facade. The variance would allow for not meeting the stone requirement for all facades and requires approval of a 3/4 majority vote of the City Council.

2. Sec 6.13.4 requires all building more than 100,000 SF to be designed with no less than seven (7) architectural elements per the overlay district standards. This requires approval of a 3/4 majority vote of the City Council.

3. Sec. 6.13.7 requires loading and service areas facing FM-549 to include additional screening with a minimum 10-ft solid screening wall to minimize the views of the loading docks and spaces from any public rights-of-way. A variance to allow for the use of landscape screening (i.e. Eastern Red Cedars) along the parking/loading dock area generally located on the west side of the property. This requires approval of a 3/4 majority vote of the City Council.

VARIANCES AND EXCEPTIONS TO BE CONSIDERED BY CITY COUNCIL:
** The following requests require approval by a simple majority vote of Council**

1. Sec. 5.1.A.1, of Art. V, of the UDC – requires exterior walls to consist of 90 percent masonry materials…on walls which are visible from a public street or open space, including a minimum of 20 percent stone. Exceptions to this requirement, including allowing for concrete tilt-up walls, may be permitted on a case by case basis by the council upon submission and approval of elevation drawings.

2. Sec.5.1.C.a & .b of the UDC requires building designs to provide Vertical and Horizontal articulation on all facades. Both buildings do not meet the intent of this requirement for the front and rear facades and requires a variance to these standards.

3. Sec. 6.5.B. Table 3, of Art. VI, of the UDC requires a minimum parking standard of one (1) parking space for each 500 square feet of building area or 0.75 for each employee on the largest shift, whichever is greater. The applicant is requesting to reduce the amount of parking required by providing 215 parking spaces and

requires a variance to the standards as prescribed in the UDC.

4. Sec. 5.12.C, of Art. VIII, of the UDC requires detention basins to be landscaped in a natural manner using ground cover, grasses, shrubs and trees in all dry land areas. There shall be a minimum of one tree for each 750 square feet of dry land area.

EXCEPTION TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

1. Per Sec. 1.5.2, of Article V, of the UDC, The access area of all refuse storage areas for trash dumpsters shall be screened with an opaque gate and shall not face a public street unless otherwise approved during site plan approval process.

Where is the dumpster enclosure located? Will this exception be requested?

Please address the following Planning Comments for each plan and resubmit revised plans by date requested above:

Site Plan:
1. Re-label all firelanes as "24-ft Firelane, Public Access and Utility Easement" as appropriate.
2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 8-ft in height with materials to match the primary structure; including the use of an opaque gate and a self-latching mechanism. Provide detail and label as such.
3. Based on the buildings' footprint, an exception to the horizontal articulation standards is required. See variance section above.
4. Based on the parking provided, a variance will be required in order to reduce the minimum amount required. See variance request above.
5. Approval of an exception by the City Council is required in order to construct the building with tilt-up wall construction. See exception above.
6. All exterior signage requires approval of a separate permit through the building inspections department.
7. Delineate and label the required landscape buffer strips along all roadways.

Landscape Plan:
1. Article VIII, Sec. 5.12,C. - requires a minimum of 1 tree per 750 sq. ft. of dry area within the detention pond. Label the detention pond area. Provide the required trees for this area or a variance will be required for not meeting this standard.
2. Provide eastern red cedars (or another species of tree) as screening for the loading/parking area ofthe tractor/trailers along the west area of the property that faces FM-549 as a variance to allow for not meeting the10-ft screening wall standard of the FM-549 OV.
3. Delineate and label the required landscape buffer along Capital Blvd., Corporate Crossing an Discovery Blvd.
4. Where are the required trees along Corporate Crossing? See the FM-549 OV standards. Provide a minimum of three (3) – four (4) caliper inch trees and two (2) accent trees per 100 linear feet along this property line.
5. Provide three (3) caliper inch trees spaced at a minimum of 50-ft intervals along Discovery Blvd.
6. What does the label “No Mow – Native Seed Mix” mean? These areas are intended to not be mowed? Provide explanation.

Treescape Plan:
1. Tree No. 36 (34” Bois D’Arc) is not considered a protected tree; therefore mitigation is not required for this tree. Correct Replacement Caliper Inch chart to indicate a total of 259.5 inches [and total inches being removed to 502”]. Provide an overall mitigation balance due of 118.5 inches [i.e. 259.5” – 141” provided on site = 118.5” due].

Photometric Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

1. The lighting pole standards are not to exceed a maximum overall height of 20-ft includes pole, base, fixtures, etc.) per the FM-549 OV standards. Provide detail.
2. In order to reduce glare, all exterior lighting fixtures are to be shielded. Provide cut sheets for all exterior light fixtures.

Building Elevations:
1. All roof-top mechanical equipment requires screening from rights-of-way and adjacent properties. Provide a roof plan indicating location of units and dash-in RTU's on elevations. Provide detail of screening mechanism to be used.
2. Are there any other architectural elements being incorporated with the building [e.g. accents (other than paint), articulated elements, stamped concrete walls, etc?
The FM-549 OV requires a minimum of seven (7) elements be incorporated with the design of the building. See variance request above.
5. Vertical and horizontal articulation is required on all facades. Based on elevations submitted, this requires approval of a variance by City Council for not meeting the minimum standards.
6. The following requires approval by the City Council as indicated above:
A) To allow for the use of concrete tilt-up wall construction, and
B) To allow for not meeting the 20% stone requirement for all facades visible from a public street or open space.
7. Provide the overall height of each façade.

The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: December 26, 2017 (6:00p.m.) [Applicant to present case to P&Z for Discussion]

Architectural Review Board: December 26, 2017 (5:00 p.m.) [Recommendations to applicant for Subsequent meeting]

Planning - Action: January 9, 2018 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

Architectural Review Board: January 9, 2017 (5:00 p.m.) [Recommendation to P&Z or (Subsequent meeting if necessary)]

City Council - Action: Tuesday, January 16, 2018 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

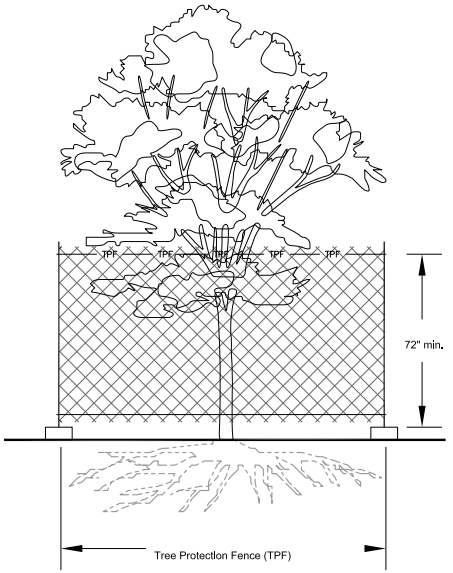
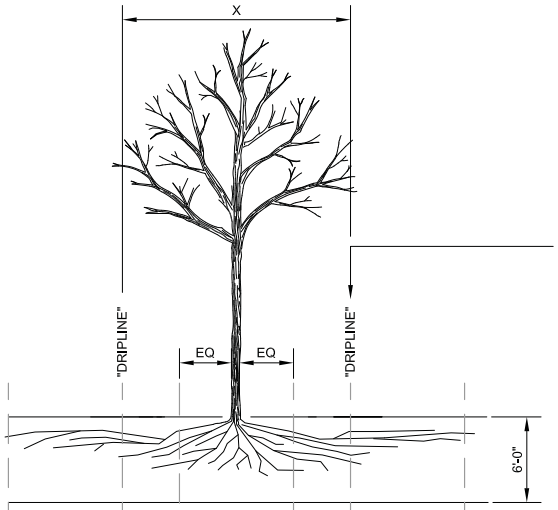
TREE PROTECTION FENCE
N.T.S.





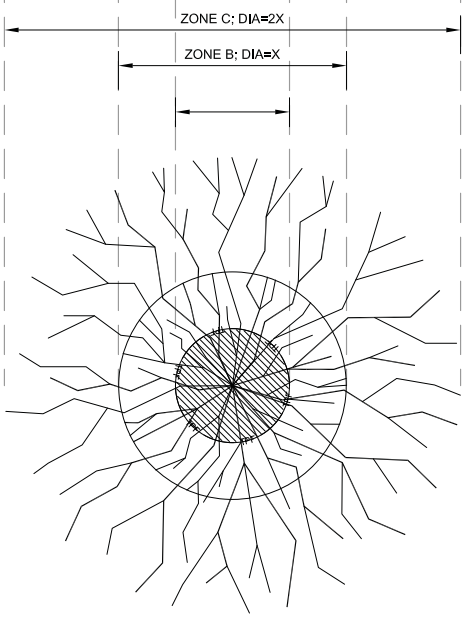
ELEVATION

FENCING/ROOT PROTECTION

- Fencing to be provided and maintained as specified per plan
- Engineer's approval required for use/access within zone b. permission for use/access requires surface protection for all unfenced, unpaved surfaces within zone b

* SURFACE PROTECTION MEASURES

1. Mulch layer, 6"-8"depth
2. 3/4"plywood
3. Steel plates



PLAN VIEW

TRENCHING / EXCAVATION

ZONE A (CRITICAL ROOT ZONE)

1. No disturbance allowed without site-specific inspection and approval of methods to minimize root damage
2. Severance of roots larger than 2" diameter requires engineer's approval
3. Tunneling required to install lines 3'-0" below grade or deeper

ZONE B (DRIPLINE)

Operation of heavy equipment and/or stockpiling of materials subject to engineers approval. Surface protection* measures required trenching allowed as follows:

- Excavation by hand or with hand-driven trencher may be required
- Limit trench width. do not disturb Zone A maintain 2/3 or more of Zone B in undisturbed condition
- Tunneling may be required for trenches deeper than 3'-0"

ZONE C (FEEDER ROOT ZONE)

Operation of heavy equipment and/or stockpiling of materials subject to engineers approval. Surface protection* measures may be required trenching with heavy equipment allowed as follows:

- Minimize trench width
- Maintain 2/3 or more of Zone C in undisturbed condition

TREE PROTECTION NOTES:

1 Critical Root Zone is the minimum area of a tree's root zone that should be protected. It is calculated by multiplying the tree's diameter (in inches) by 1.5 to determine the radius of the protected area. (i.e. Tree Protection fencing should be located in a circle around the tree at the radius shown.)

2 Structural Critical Root Distance is the minimum distance that any root severance can occur. Severing roots any closer will greatly increase the chance of catastrophic tree failure due to loss of supporting roots. The distance is based on Coder, K. 1996. Construction Damage Assessments: Trees and Sites. University of Georgia, October, 1996. (Tool #8).

3 Action Item includes any required tree protection action to be taken including the following:

- **OK** - Tree is adequate distance away from construction activity that no protection measures are required.
- **TBR** - To Be Removed
- **Fence xx** - Construction fencing will be installed prior to any grading or construction activity. See the map version of the Tree Protection Plan for specific location. The xx refers to radius minimum and maximum distance from tree to fence. The fence will delineate an area that is considered the "Tree Protection Zone". While fence is in place there should be no grading, equipment access, material storage, or root disturbance of any kind within the "Tree Protection Zone" delineated by the fencing. Fencing will be 72" tall chain-link fence that is adequately supported without sagging. Fencing will remain in place for the duration of the grading associated with the installation of new stormwater pipe. It can only be moved to permit the installation of new soil near and around trees as indicated and only with permission of City Arborist.
- **Mulch -** Apply an 8-10 inch deep layer of wood chips around the tree at a radius equal to the "Critical Root Zone Radius". Do not pile up wood chips at the tree's base. Mulch only needs to be applied where equipment traffic is required that will impact the the tree's critical root zone. Mulch layer will reduce soil compaction and rutting. An additional layer of 3/4" plywood, plastic, or rubberized material may be needed on top of mulch to reduce compaction. Remove chips after project completion without damaging the original grade and without damaging roots that may be present underneath.

NOTES:

Tree Protection During Construction

A three- to six-foot high temporary fence shall be placed at dripline of tree to be saved, or a distance of 15' from the trunk, whichever is greater. The fence shall completely encircle the tree(s) or as shown on plans. Install fence posts using pier blocks if appropriate. Avoid driving posts or stakes into major roots. Fencing may extend beyond dripline or 15' if plan design allows. Owner may permit alternative fencing methods if site prohibits installation of pier blocks (steep slopes, soft soils, etc.).

Treatment of Roots Exposed During Construction
For roots over 1" in diameter damaged during construction; make a clean, straight cut to remove damaged portion of root. all exposed roots shall be temporarily covered with damp burlap to prevent drying, and covered with soil as soon as possible. Work within protection fence shall be done manually. No excavation, stockpiling of materials, vehicular traffic, or storage of equipment or machinery shall be allowed within the limit of the fencing.

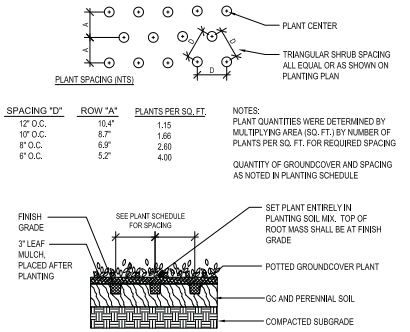
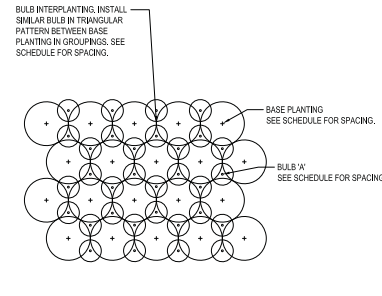
8" O.C.	6.9"	2.60
6" O.C.	5.2"	4.00

A2 PERENNIAL AND ORNAMENTAL GRASS PLANTING
1/2" = 1'-0"

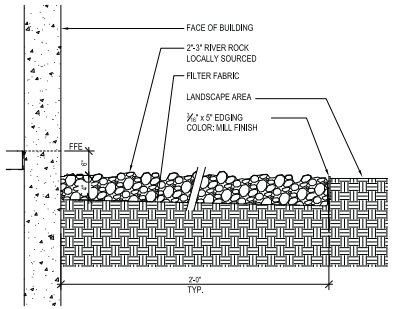


SPACING "D"	ROW "A"	PLANTS PER SQ. FT.
12" O.C.	10.4"	1.15
10" O.C.	8.7"	1.66
8" O.C.	6.9"	2.60
6" O.C.	5.2"	4.00

D1 GROUND COVER PLANTING
1/2" = 1'-0"



C1 INTERMINGLED PERENNIAL/GRASS & BULB PLANTING
1/2" = 1'-0"



B1 GRAVEL MOW STRIP
3/4" = 1'-0"

PLANTING PLAN NOTES

1. ALL PLANTS SHALL BE GUARANTEED FOR ONE FULL YEAR FROM THE SUBSTANTIAL COMPLETION OF THE LANDSCAPE CONTRACT AT FULL REPLACEMENT VALUE INCLUDING LABOR TO REPLACE PLANT MATERIALS.
2. ALL PROVIDED PLANT MATERIAL SHALL BE OF SPECIMEN QUALITY AND OF THE SIZE AND TYPE SPECIFIED IN THE PLANT SCHEDULE. CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT AND THE CITY OF MAPLEWOOD IN WRITING OF ANY PLANT MATERIALS THAT DO NOT MEET SPECIFICATIONS.
3. VERIFY ALL DIMENSIONS AND SITE CONDITIONS PRIOR TO STARTING CONSTRUCTION AND IMMEDIATELY NOTIFY THE LANDSCAPE ARCHITECT OF ANY DISCREPANCIES.
4. VERIFY THE LOCATION OF ALL UTILITIES INCLUDING SANITARY AND STORM SEWER + ROOF DRAINS PRIOR TO BEGINNING CONSTRUCTION.
5. ALL WORK PERFORMED SHALL BE IN COMPLIANCE WITH THE CONTRACT DOCUMENTS AND WITH ALL APPLICABLE CODES, STANDARDS AND ORDINANCES.
6. THE SITE SHALL BE FINISH GRADED BY THE LANDSCAPE CONTRACTOR. THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE TO MAINTAIN FINISHED GRADES AND RE-GRADE ANY AREAS DISTURBED BY LANDSCAPE OPERATIONS.
7. ANY CLEAN, EXCESS SOIL FROM LANDSCAPE OPERATIONS SHALL BE WASTED ON SITE AT THE DISCRETION OF THE CONTRACTOR OR DISPOSED OF OFF SITE. ALL CONSTRUCTION DEBRIS FROM LANDSCAPE OPERATIONS SHALL BE DISPOSED OF OFF SITE.
8. REFER TO SPECIFICATION FOR SOD TYPE. ALL AREAS INDICATED IN THE PLANS TO BE SODDED SHALL BE MOWED JUST PRIOR TO INSTALLATION AND SHALL BE GUARANTEED FOR A PERIOD OF ONE MONTH. ALL SOD AREAS ARE TO BE WATERED DAILY FOR ONE WEEK AND EVERY OTHER DAY FOR THE NEXT TWO WEEKS.
9. ALL PLANTING AREAS MUST BE FREE OF ALL WEEDS AND DEBRIS BEFORE PLANTING, SODDING, AND/OR SEEDING.
10. PROVIDE AND INSTALL LOCALLY AVAILABLE LEAF MULCH IN ALL MIXED PLANTING BEDS CONTAINING SHRUBS, AND PERENNIAL/ORNAMENTAL GRASSES.
11. PROVIDE TRIPLE GROUND LEAF MULCH AROUND BASE OF ALL TREES, UNLESS PLANTED IN A MIXED PLANTING BED.

PLANTING PLAN NOTES

1. ALL PLANTS SHALL BE GUARANTEED FOR ONE FULL YEAR FROM THE SUBSTANTIAL COMPLETION OF THE LANDSCAPE CONTRACT AT FULL REPLACEMENT VALUE INCLUDING LABOR TO REPLACE PLANT MATERIALS.
2. ALL PROVIDED PLANT MATERIAL SHALL BE OF SPECIMEN QUALITY AND OF THE SIZE AND TYPE SPECIFIED IN THE PLANT SCHEDULE. CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT AND THE CITY OF MAPLEWOOD IN WRITING OF ANY PLANT MATERIALS THAT DO NOT MEET SPECIFICATIONS.
3. VERIFY ALL DIMENSIONS AND SITE CONDITIONS PRIOR TO STARTING CONSTRUCTION AND IMMEDIATELY NOTIFY THE LANDSCAPE ARCHITECT OF ANY DISCREPANCIES.
4. VERIFY THE LOCATION OF ALL UTILITIES INCLUDING SANITARY AND STORM SEWER + ROOF DRAINS PRIOR TO BEGINNING CONSTRUCTION.
5. ALL WORK PERFORMED SHALL BE IN COMPLIANCE WITH THE CONTRACT DOCUMENTS AND WITH ALL APPLICABLE CODES, STANDARDS AND ORDINANCES.
6. THE SITE SHALL BE FINISH GRADED BY THE LANDSCAPE CONTRACTOR. THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE TO MAINTAIN FINISHED GRADES AND RE-GRADE ANY AREAS DISTURBED BY LANDSCAPE OPERATIONS.
7. ANY CLEAN, EXCESS SOIL FROM LANDSCAPE OPERATIONS SHALL BE WASTED ON SITE AT THE DISCRETION OF THE CONTRACTOR OR DISPOSED OF OFF SITE. ALL CONSTRUCTION DEBRIS FROM LANDSCAPE OPERATIONS SHALL BE DISPOSED OF OFF SITE.
8. REFER TO SPECIFICATION FOR SOD TYPE. ALL AREAS INDICATED IN THE PLANS TO BE SODDED SHALL BE MOWED JUST PRIOR TO INSTALLATION AND SHALL BE GUARANTEED FOR A PERIOD OF ONE MONTH. ALL SOD AREAS ARE TO BE WATERED DAILY FOR ONE WEEK AND EVERY OTHER DAY FOR THE NEXT TWO WEEKS.
9. ALL PLANTING AREAS MUST BE FREE OF ALL WEEDS AND DEBRIS BEFORE PLANTING, SODDING, AND/OR SEEDING.
10. PROVIDE AND INSTALL LOCALLY AVAILABLE LEAF MULCH IN ALL MIXED PLANTING BEDS CONTAINING SHRUBS, AND PERENNIAL/ORNAMENTAL GRASSES.
11. PROVIDE TRIPLE GROUND LEAF MULCH AROUND BASE OF ALL TREES, UNLESS PLANTED IN A MIXED PLANTING BED.

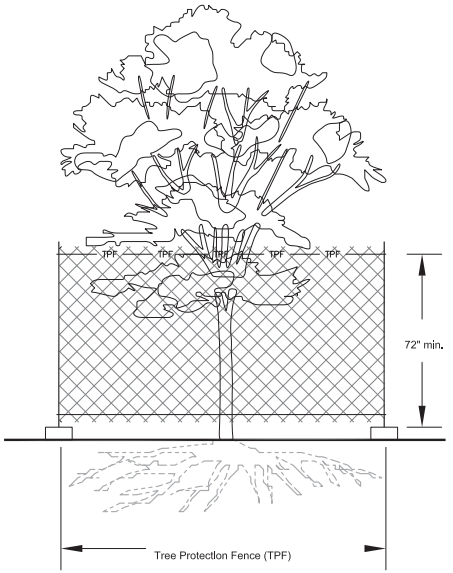
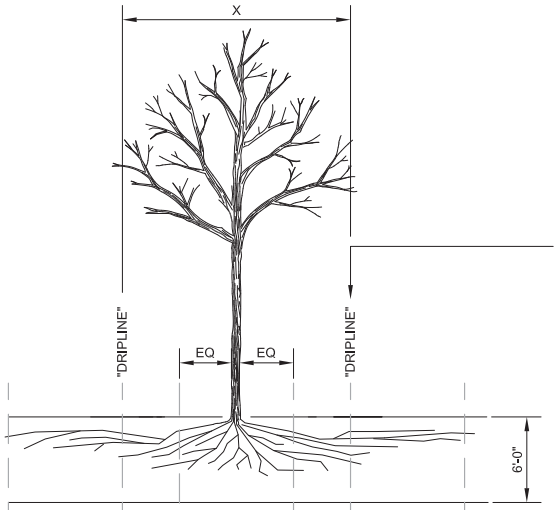
TREE PROTECTION FENCE
N.T.S.





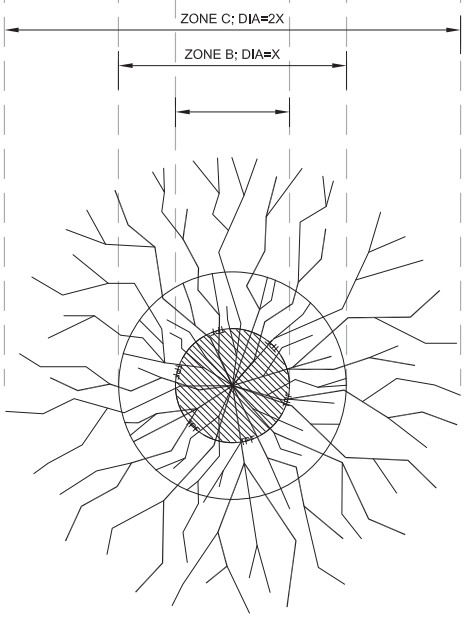
ELEVATION

FENCING/ROOT PROTECTION

- Fencing to be provided and maintained as specified per plan
- Engineer's approval required for use/access within zone b. permission for use/access requires surface protection for all unfenced, unpaved surfaces within zone b

* SURFACE PROTECTION MEASURES

1. Mulch layer, 6"-8"depth
2. 3/4"plywood
3. Steel plates



PLAN VIEW

TRENCHING / EXCAVATION

ZONE A (CRITICAL ROOT ZONE)

1. No disturbance allowed without site-specific inspection and approval of methods to minimize root damage
2. Severance of roots larger than 2" diameter requires engineer's approval
3. Tunneling required to install lines 3'-0" below grade or deeper

ZONE B (DRIPLINE)

Operation of heavy equipment and/or stockpiling of materials subject to engineers approval. Surface protection* measures required trenching allowed as follows:

- Excavation by hand or with hand-driven trencher may be required
- Limit trench width. do not disturb Zone A maintain 2/3 or more of Zone B in undisturbed condition
- Tunneling may be required for trenches deeper than 3'-0"

ZONE C (FEEDER ROOT ZONE)

Operation of heavy equipment and/or stockpiling of materials subject to engineers approval. Surface protection* measures may be required trenching with heavy equipment allowed as follows:

- Minimize trench width
- Maintain 2/3 or more of Zone C in undisturbed condition

TREE PROTECTION NOTES:

1 Critical Root Zone is the minimum area of a tree's root zone that should be protected. It is calculated by multiplying the tree's diameter (in inches) by 1.5 to determine the radius of the protected area. (i.e. Tree Protection fencing should be located in a circle around the tree at the radius shown.)

2 Structural Critical Root Distance is the minimum distance that any root severance can occur. Severing roots any closer will greatly increase the chance of catastrophic tree failure due to loss of supporting roots. The distance is based on Coder, K. 1996. Construction Damage Assessments: Trees and Sites. University of Georgia, October, 1996. (Tool #8).

3 Action Item includes any required tree protection action to be taken including the following:

- **OK** - Tree is adequate distance away from construction activity that no protection measures are required.
- **TBR** - To Be Removed
- **Fence xx** - Construction fencing will be installed prior to any grading or construction activity. See the map version of the Tree Protection Plan for specific location. The xx refers to radius minimum and maximum distance from tree to fence. The fence will delineate an area that is considered the "Tree Protection Zone". While fence is in place there should be no grading, equipment access, material storage, or root disturbance of any kind within the "Tree Protection Zone" delineated by the fencing. Fencing will be 72" tall chain-link fence that is adequately supported without sagging. Fencing will remain in place for the duration of the grading associated with the installation of new stormwater pipe. It can only be moved to permit the installation of new soil near and around trees as indicated and only with permission of City Arborist.
- **Mulch -** Apply an 8-10 inch deep layer of wood chips around the tree at a radius equal to the "Critical Root Zone Radius". Do not pile up wood chips at the tree's base. Mulch only needs to be applied where equipment traffic is required that will impact the the tree's critical root zone. Mulch layer will reduce soil compaction and rutting. An additional layer of 3/4" plywood, plastic, or rubberized material may be needed on top of mulch to reduce compaction. Remove chips after project completion without damaging the original grade and without damaging roots that may be present underneath.

NOTES:

Tree Protection During Construction

A three- to six-foot high temporary fence shall be placed at dripline of tree to be saved, or a distance of 15' from the trunk, whichever is greater. The fence shall completely encircle the tree(s) or as shown on plans. Install fence posts using pier blocks if appropriate. Avoid driving posts or stakes into major roots. Fencing may extend beyond dripline or 15' If plan design allows. Owner may permit alternative fencing methods if site prohibits installation of pier blocks (steep slopes, soft soils, etc.).

Treatment of Roots Exposed During Construction
For roots over 1" in diameter damaged during construction; make a clean, straight cut to remove damaged portion of root. all exposed roots shall be temporarily covered with damp burlap to prevent drying, and covered with soil as soon as possible. Work within protection fence shall be done manually. No excavation, stockpiling of materials, vehicular traffic, or storage of equipment or machinery shall be allowed within the limit of the fencing.

SURVEYOR'S STATEMENT

TO ROCKWALL ECONOMIC DEVELOPMENT CORPORATION, A TEXAS NON-PROFIT CORPORATION, GLOBAL WELLS INVESTMENT GROUP LLC, A TEXAS LIMITED LIABILITY COMPANY, CHICAGO TITLE INSURANCE COMPANY, AND RANGER TITLE COMPANY:

THIS IS TO CERTIFY THAT THIS MAP OR PLAT AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH LAWS REGULATING SURVEYING IN THE STATE OF TEXAS, AND WITH THE 2016 MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/NSPS LAND TITLE SURVEYS, JOINTLY ESTABLISHED AND ADOPTED BY ALTA AND NSPS, AND INCLUDES ITEMS 1, 2, 3, 4, 6, 11, 13, & 14 OF TABLE A THEREOF.

THE FIELDWORK WAS COMPLETE ON OCTOBER 19TH, 2017.

DATE OF PLAT OR MAP: 12/13/17

AARON L. STRINGFELLOW, R.P.L.S.
STATE OF TEXAS No. 6373

NOTES

1. ACCORDING TO SURVEYOR'S INTERPRETATION OF INFORMATION SHOWN ON THE NATIONAL FLOOD INSURANCE PROGRAM (NFIP) "FLOOD INSURANCE RATE MAP" (FIRM), MAP No. 48397C0045L, MAP REVISED SEPTEMBER 26, 2008, ALL OF THE SUBJECT TRACT LIES WITHIN ZONE "X", "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN" ZONE AS DEFINED BY THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, FEDERAL INSURANCE ADMINISTRATION, OR THE FEDERAL EMERGENCY MANAGEMENT AGENCY.
2. THE ABOVE REFERENCED "FIRM" MAP IS FOR USE IN ADMINISTERING THE "NFIP"; IT DOES NOT NECESSARILY SHOW ALL AREAS SUBJECT TO FLOODING, PARTICULARLY FROM LOCAL SOURCES OF SMALL SIZE, WHICH COULD BE FLOODED BY SEVERE, CONCENTRATED RAINFALL COUPLED WITH INADEQUATE LOCAL DRAINAGE SYSTEMS. THERE MAY BE OTHER STREAMS, CREEKS, LOW AREAS, DRAINAGE SYSTEMS OR OTHER SURFACE OR SUBSURFACE CONDITIONS EXISTING ON OR NEAR THE SUBJECT PROPERTY WHICH ARE NOT STUDIED OR ADDRESSED AS PART OF THE "NFIP".
3. THE UNDERGROUND UTILITIES SHOWN HEREON ARE FROM FIELD SURVEY INFORMATION MARKED BY UTILITY LOCATORS, VISIBLE IMPROVEMENTS AND/OR EXISTING DRAWINGS. THIS SURVEYOR MAKES NO GUARANTEE THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN SERVICE OR ABANDONED. THIS SURVEYOR FURTHER DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN HEREON ARE IN THE EXACT LOCATION INDICATED. THIS SURVEYOR HAS NOT PHYSICALLY LOCATED OR DESIGNATED THE UNDERGROUND UTILITIES.
4. ALL BEARINGS SHOWN HEREON ARE CORRELATED TO THE TEXAS STATE PLANE COORDINATE SYSTEM, NORTH CENTRAL ZONE 4202, NAD OF 1983, AS DERIVED BY FIELD OBSERVATIONS UTILIZING THE RTK NETWORK ADMINISTRATED BY WESTERN DATA SYSTEMS.
5. THIS SURVEY WAS PREPARED WITH BENEFIT OF A CURRENT COPY OF COMMITMENT FOR TITLE INSURANCE PREPARED BY RANGER TITLE COMPANY, GF. No. R1716518, EFFECTIVE DATE NOVEMBER 22, 2017, ISSUE DATE NOVEMBER 30, 2017.
6. ALL 1/2" IRON RODS SET WITH A CAP STAMPED "WIER & ASSOC INC", UNLESS NOTED OTHERWISE.

TITLE COMMITMENT SCHEDULE "B" ITEMS

1. THE EASEMENTS RECORDED IN VOL. 42, PG. 369, D.R.R.C.T. ARE NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10a)
2. THE EASEMENTS RECORDED IN VOL. 5054, PG. 213, D.R.R.C.T. ARE NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10b)
3. THE EASEMENT RECORDED IN VOL. 5054, PG. 224, D.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10c)
4. THE EASEMENT RECORDED IN VOL. 6472, PG. 208, D.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10d)
5. THE EASEMENT RECORDED IN INSTRUMENT No. 20140000001149, O.P.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10e)
6. THE EASEMENT RECORDED IN INSTRUMENT No. 20140000001151, O.P.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10f)
7. THE EASEMENT RECORDED IN INSTRUMENT No. 20140000001152, O.P.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10g)
8. THE EASEMENT RECORDED IN INSTRUMENT No. 20140000001153, O.P.R.R.C.T. IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON. (ITEM 10h)
9. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012775, O.P.R.R.C.T. IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON. (ITEM 10i)
10. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012776, O.P.R.R.C.T. IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON. (ITEM 10j)
11. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012778, O.P.R.R.C.T. IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON. (ITEM 10k)

TITLE COMMITMENT SCHEDULE "B" ITEMS

12. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012779, O.P.R.R.C.T. IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON. (ITEM 10l)
13. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012780, O.P.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10m)
14. THE EASEMENT RECORDED IN INSTRUMENT No. 20160000012781, O.P.R.R.C.T. IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10n)
15. THE SUBJECT TRACT IS INCLUDED IN THE LANDS DESCRIBED IN VOL. 1650, PG. 62, VOL. 2152, PG. 80, VOL. 2574, PG. 278, VOL. 2574, PG. 280, VOL. 2878, PG. 320, VOL. 3286, PG. 105, VOL. 3413, PG. 300, VOL. 3548, PG. 184, VOL. 3548, PG. 184, VOL. 4188, PG. 236, VOL. 5667, PG. 195, D.R.R.C.T., AND INST. No. 20140000001630, O.P.R.R.C.T., BUT THE TERMS, CONDITIONS AND PROVISIONS ARE NOT PLOTTABLE. (ITEM 10o) (ITEM 10o)
16. THE SUBJECT TRACT IS INCLUDED IN THE LANDS DESCRIBED IN VOL. 3495, PG. 306, D.R.R.C.T., BUT THE TERMS, CONDITIONS AND PROVISIONS ARE NOT PLOTTABLE. AND THE EASEMENTS CONTAINED THEREIN ARE NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10p)
17. THE EASEMENTS SHOWN ON THE PLAT RECORDED IN CAB. E, SL. 305, P.R.R.C.T., ARE NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10q)
18. THE EASEMENT RECORDED IN VOL. 33, PG. 78, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10r)
19. THE EASEMENT RECORDED IN VOL. 44, PG. 92, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10s)
20. THE EASEMENT RECORDED IN VOL. 75, PG. 598, D.R.R.C.T., AND AMENDED VOL. 3628, PG. 258, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10t)
21. THE EASEMENT RECORDED IN VOL. 4785, PG. 168, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT. (ITEM 10u)
22. THE SUBJECT TRACT IS NOT INCLUDED IN THE LANDS DESCRIBED IN THE DEED RECORDED IN VOL. 47, PG. 368, D.R.R.C.T. (ITEM 10w)
23. A PORTION OF THE SUBJECT TRACT IS INCLUDED IN THE LANDS DESCRIBED IN THE DEED RECORDED IN VOL. 2224, PG. 226, D.R.R.C.T. (ITEM 10x)

FIELD NOTES

BEING A TRACT OF LAND LOCATED IN THE JOHN H.B. JONES SURVEY, ABSTRACT No. 125 AND THE ROBERT BOYD IRVINE SURVEY, ABSTRACT No. 120, BEING A PORTION OF THREE TRACTS OF LAND DESCRIBED IN DEEDS TO ROCKWALL ECONOMIC DEVELOPMENT CORPORATION RECORDED IN VOLUME 2224, PAGE 226, DEED RECORDS, ROCKWALL COUNTY, TEXAS (D.R.R.C.T.), VOLUME 3495, PAGE 314, D.R.R.C.T., AND INSTRUMENT No. 20130000496918, OFFICIAL PUBLIC RECORDS, ROCKWALL COUNTY, TEXAS (O.P.R.R.C.T.), AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING AT A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC" IN THE SOUTH RIGHT-OF-WAY LINE OF CAPITAL BOULEVARD (A VARIABLE WIDTH RIGHT-OF-WAY);

THENCE ALONG THE SOUTH RIGHT-OF-WAY LINE OF SAID CAPITAL BOULEVARD AS FOLLOWS:

(1) N 89°17'08" E, 75.21 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC", BEING THE BEGINNING OF A CURVE TO THE LEFT;

(2) NORTHEASTERLY, AN ARC LENGTH OF 611.65 FEET ALONG SAID CURVE TO THE LEFT, HAVING A RADIUS OF 832.50 FEET, A DELTA ANGLE OF 42°06'39" AND A CHORD BEARING OF N 68°13'37" E, 598.26 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC";

(3) S 45°10'19" E, 22.69 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC";

(4) N 44°49'41" E, 65.41 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC";

(5) N 45°10'19" W, 22.00 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC";

(6) N 44°49'41" E, 65.59 FEET TO A 1/2" IRON ROD FOUND WITH A CAP STAMPED "WIER & ASSOC INC", BEING THE BEGINNING OF A CURVE TO THE RIGHT;

(7) NORTHEASTERLY, AN ARC LENGTH OF 399.80 FEET ALONG SAID CURVE TO THE RIGHT, HAVING A RADIUS OF 787.50 FEET, A DELTA ANGLE OF 29°05'47" AND A CHORD BEARING OF N 59°45'04" E, 395.30 FEET TO A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC";

THENCE S 01°38'51" E, DEPARTING THE SOUTH RIGHT-OF-WAY LINE OF SAID CAPITAL BOULEVARD, AT A DISTANCE OF 430.33 FEET PASSING THE NORTHWEST CORNER OF LOT 1, BLOCK A, ROCKWALL TECHNOLOGY PARK, PHASE IV, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ACCORDING TO THE PLAT RECORDED IN CABINET J, SLIDE 141, PLAT RECORDS, ROCKWALL COUNTY, TEXAS (P.R.R.C.T.), CONTINUING ALONG THE WEST LINE OF SAID LOT 1, BLOCK A, ROCKWALL TECHNOLOGY PARK, PHASE IV, IN ALL A TOTAL DISTANCE OF 1643.13 FEET TO A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC" IN THE NORTH RIGHT-OF-WAY LINE OF DISCOVERY BOULEVARD (85 FOOT WIDE RIGHT-OF-WAY), SAID IRON ROD BEING THE SOUTHWEST CORNER OF SAID LOT 1 AND THE BEGINNING OF A CURVE TO THE LEFT;

THENCE SOUTHWESTERLY, ALONG THE NORTH RIGHT-OF-WAY LINE OF SAID DISCOVERY BOULEVARD, AT AN ARC LENGTH OF 206.37 FEET PASSING A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC", CONTINUING IN ALL A TOTAL ARC LENGTH OF 327.97 FEET ALONG SAID CURVE TO THE LEFT, HAVING A RADIUS OF 1042.50 FEET, A DELTA ANGLE OF 18°01'31" AND A CHORD BEARING OF S 74°18'35" W, 326.62 FEET TO A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC", SAID IRON ROD BEING THE SOUTHEAST CORNER OF LOT 1, BLOCK B, ROCKWALL TECHNOLOGY PARK, PHASE II, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ACCORDING TO THE PLAT RECORDED IN CABINET E, SLIDE 305, P.R.R.C.T.;

THENCE N 01°24'22" W, DEPARTING THE NORTH RIGHT-OF-WAY LINE OF SAID DISCOVERY BOULEVARD, ALONG THE EAST LINE OF SAID LOT 1, A DISTANCE OF 41.08 FEET TO A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC", SAID IRON ROD BEING THE NORTHEAST CORNER OF SAID LOT 1, BLOCK B, ROCKWALL TECHNOLOGY PARK, PHASE II;

THENCE S 88°23'48" W, ALONG THE NORTH LINE OF SAID LOT 1, BLOCK B, ROCKWALL TECHNOLOGY PARK, PHASE II, A DISTANCE OF 765.05 FEET TO A 1/2" IRON ROD SET WITH A CAP STAMPED "WIER & ASSOC INC";

THENCE N 01°38'51" W, DEPARTING THE NORTH LINE OF SAID LOT 1, BLOCK B, ROCKWALL TECHNOLOGY PARK, PHASE II, A DISTANCE OF 1195.07 FEET TO THE PLACE OF BEGINNING AND CONTAINING 34.229 ACRES (1,491,028 SQUARE FEET) OF LAND, MORE OR LESS.
